ASQUITH THREATENS TO BRING OPERATORS TO TIME

Conference of Cabinet and Miners Federation Continued Today.

London, March 1.—The settlement of the threatened coal strike is yet far off. The Government has not yet been able to induce all the coal owners to agree to the demand for a minimum-wage made by the miners, but Premier Asquith declared last night that if the principle of a minimum wage was not secured by agreement it would be secured by other means.

Fully 800,000 miners have already laid down their tools, and will not pick them up again until an agreement satisfactory to the miners' federation has been reached. The men have the Government behind them and feel that victory has been won.

It was officially announced last night that the conference of the Cabinet Ministers with the miners' federation would be continued to-day. Chancellor Lloyd-George is drafting a minimum wage bill, but it is stated that the Government is hopeful of being able to secure the establishment of the minimum wage without recourse to legislation, now that the Welsh mine-owners see that they are powerless to resist longer.

Some of the railways have sent out notifications of curtailment of their services owing to the strike.

"The Government having recognized the principle of a minimum wage for all underground workers. if it is not secured by agreement, it will be secured by the Government by other means."

This extract from the speech made by the Prime Minister to the members of the National Miners Federation, as reported in the official statement issued last night concerning the conference held yesterday, indicates the lengths to which the Government is prepared to go to effect a settlement of the strike. It is virtually an ultimatum to the coal owners.

Emphasizing the point again, Mr. Asquith said that the Government "were determined that the minimum wage shall become part and parcel of the organization and working of the coal industry by whatever appropriate means the Government can command."

They would be false to their duty as stewards and trustees of the general interests of the nation, continued the Premier, if they did not take what steps they could to bring about a resonable arrangement. The Government felt that they were face to face with a warfare between capital and labor in the coal industry, which might paralyze all other industries in the country.

The Government had started upon their investigation of the problem, the Premier said, without any prejudice of party or class bias in one direction or another. Having given the fullest and most careful consideration to the evidence which the workmen had brought before them, the conclusion they had unanimously come to was that a case had been made out for ensuring to the underground workers in the coal industry, with adequate safeguards, a reasonable minimum wage.

Already a majority — certainly 60 per cent.—of the coal owners of the country had assented to the Government's proposals, and they did not intend that the resistance of what, he hoped, was a dwindling minority of the employers of labor, should unduly delay the attainment of an object which "we have satisfied ourselves is consistent with justice and the best interests of the community."

The Prime Minister concluded his speech with an appeal to the miners to allow reasonable latitude for discussion with respect to fixing the minimum wage for the different districts, and not to insist upon rigid adherence to the schedule adopted by the miners' federation. He reminded them that if they persisted in that course they assumed a terrible responsibility, although it was obvious that nothing short of a miracle could avert a national coal strike.

THE CANAL BILL WAS PRUNED

Committee Eliminated Objectional Features.

Ottawa, March 1.—A sub-committee of the railway committee yesterday morning eliminated from the Georgian Bay Canal bill most, if not all, of the features regarded as objectionable. The principal of these provides that the company shall not take the lands of Ontario and Quebec without the consent of the Provincial Governments, except to the extent necessary for the purposes of construction of the canal, and the necessary work incidental to and for the purpose of developing power for the operation of the canal. Another clause makes the rates subject to the Railway Commission.

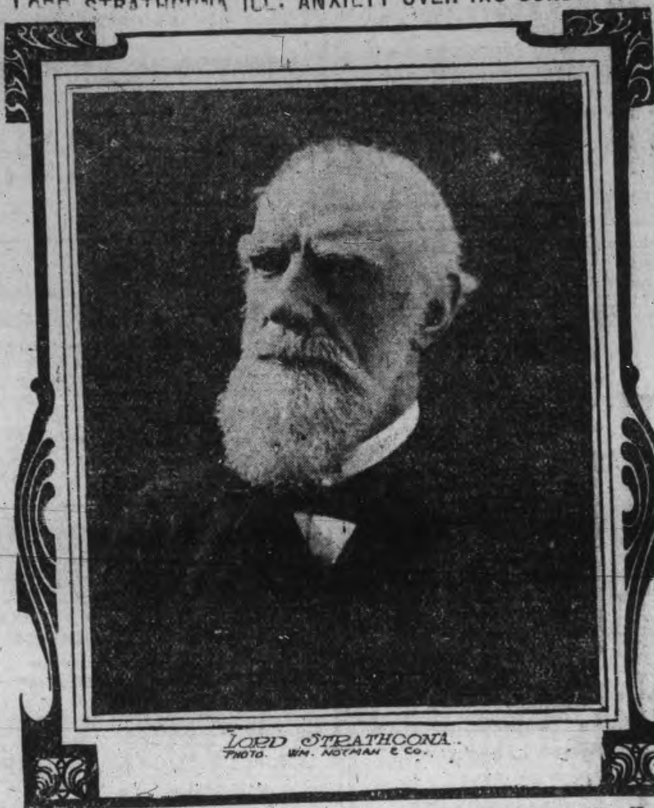
Criticism having been made that the bill did not state the provisional directors, these were filled in. They are: David McLaren, president of the Bank of Ottawa; Senator Edwards, Senator Belcourt, Hon. C. R. Devlin, J. B. Klock, K. W. Hutchinson and G. P. Brophy.

The bill will come up in the full committee next Thursday.

PROBABILITIES

Moderate northwest winds fair and cold. Saturday northwest winds, fair with a little lower temperature.

LORD STRATHCONA ILL: ANXIETY OVER HIS CONDITION.



Lord Strathcona, the Canadian Commissioner at London, is ill. He has symptoms of influenza, and there is considerable anxiety felt over his condition. His strength, however, has been maintained.

BRITISH P.M.G. UNWILLING TO REDUCED CABLE RATES

Pelletier Announces That Rural Mail Delivery is be Reorganized.

Ottawa, March 1.—Postmaster-General Pelletier made two important announcements in the House of Commons last evening, when the matter of further reduction in cable rates was brought up by J. E. Armstrong (E. Lambton).

He had been in correspondence with the British postal authorities, he said, and had a letter from Postmaster-General Samuels in which the latter said he could not see his way clearly to obtaining a further cut in cable rates, nor was he favorable to the plan of a state-owned cable. Mr. Pelletier said he did not agree with the British Postmaster-General and had written him, telling him so and asking him to co-operate in getting a further reduction in cable rates.

The other announcement of the Postmaster-General was that the Department was to undertake a reorganization of the whole system of rural mail delivery.

On the motion to go into supply, J. E. Armstrong brought up the question of government ownership of telephones and telegraphs.

He argued that the telephone and telegraph could be handled with great economy through the Postoffice Department. If the trunk lines of the telephone system were handled by the Government, these would be a great benefit to the country at large.

Mr. Armstrong said that the proposition of Government ownership was along the lines of the Hydro-Electric Commission. There are thirty municipalities now interested. The commission brings the wires to the municipalities, and, in like manner, the trunk lines for telephones could be built from city to city and municipality to municipality.

Mr. Armstrong pointed out that the Hydro-Electric Commission were strongly in favor of Government-owned telephone and telegraph lines, as they could more readily distribute power to the farmers by using the same poles.

Mr. Armstrong advocated that the cables should be owned by the Canadian and British Governments and quoted a number of statistics to show the feasibility and the advantages of the scheme. Wireless telegraphy, he believed, would within a few years be more in general use, and it would be of great advantage to navigation in the Hudson Bay.

In closing, Mr. Armstrong said that he sincerely hoped that the Government would appoint a commission to investigate the whole matter. Such figures, he believed, would be secured as would lead the Government to decide in favor of Government ownership.

Hon. Rodolphe Lemieux followed and went into an exhaustive review of the whole question, including the feasibility and possibility of the Government taking over and operating the cable systems.

The recent reduction in the rates was, he believed, a step in the right direction. Mr. Lemieux emphasized the value to the Canadian press and public which would accrue from a state owned cable and the consequent lower rates. He said that much of the news which we receive from the Mother Country at the present time is more or less tainted because of coming through American services. This gave the question an Imperial aspect.

In closing, Mr. Lemieux moved that the Postmaster-General take steps to obtain a further reduction in cable rates between Canada and Great Britain.

W. F. Maclean (South York) strongly advocated Government ownership of telegraphs, telephones and cables. "The cable monopoly in England is to-day all-powerful," he said. "The control has now passed to the Americans, who control also the telegraphs and telephones on this continent. State competition is the only possible solution and $2,200,000 would be sufficent to establish a state-owned cable.

Parcel posts were next taken up by Mr. Maclean. Propositions were before Congress for the establishment of a parcel post system. The only way to handle these questions is to go into the business. "Let us have state competition," he said, "if we cannot get state ownership."

Hon. L. P. Pelletier complimented Mr. Armstrong on the way he had handled his subject. He had placed before the House and the country many valuable facts. His speech was so valuable that a commission was almost unnecessary, as no commission could collect more facts.

The question of cable rates had been engaging the attention of the Government. While he believed there should be reasonable cable rates, he thought the question of rural mail delivery was more important and this question was now occupying his attention. It had formerly been conducted in a very loose manner, but he planned to put it on a systematic basis.

A special branch of the Postoffice Department would be created shortly, he said, to handle this feature and it was intended to have as complete a service as possible.

Cable rates are, he thought, excessively high. He said he had negotiated with Postmaster-General Samuels of England, in regard to the still further reductions in the rates, but Mr. Samuels appeared to think that further reductions were out of the question at present.

Mr. Pelletier asked Mr. Lemieux not to press his motion. It was an academic one and could do no good, while the Department was doing all it could.

Mr. Lemieux, however, did not accede and the motion was defeated on a division of 71 to 40.

REFORMATORY INVESTIGATION

Boy Manacled in Bed for a Month For Running Away.

Toronto, March 1.—Charges that Wilbert Spain, a fifteen-year-old inmate of the Victoria Industrial School, was kept manacled in bed for a month, was kept for that time on a diet of bread and water, and was flogged as punishment for running away from school were substantiated and readily admitted by Superintendent Chester Ferrier at the investigation into the conduct of the school, which was opened at Mimico by Dr. R. W. Bruce Smith and Property Commissioner R. C. Harris yesterday afternoon.

The superintendent declared that in his opinion putting the boys in irons was the only cure for the running-away habit.

"After long years of experience," said Mr. Ferrier. "I have found that chaining them up is the only way to keep boys from running away. The custom was here when I came here sixteen years ago."

From January 9 to February 11, Mr. Ferrier admitted, Wilbert Spain had been subjected to this treatment.

Six other boys of the institution also told of having been punished in a similar manner for running away, the periods varying from a week to a month at a time.

That the investigation is likely to result in the realization of important reforms was suggested by a statement of Dr. Bruce Smith towards the adjournment of the inquiry.

"As a result of this investigation," said Dr. Smith, "I hope such reformation will be brought about that there will be a classification made of the inmates of such schools as these, by which the line may be drawn between those who are mentally deficient and those who are normal."

FIRE AND PILLAGE RAMPANT THROUGHOUT PEKIN CITY

Yuan Shi Kai's Soldiers Mutiny — Many Natives Are Killed.

Pekin, March 1.—(1 a.m.)—A mutiny of Yuan Shi Kai's soldiers started at Pekin at 8 o'clock last night. Many of the natives have been killed or wounded, but so far as is known all foreigners are safe. The legation quarter is crowded, but the missionaries are holding out in their own compounds.

When the outbreak occurred it was estimated that two thousand soldiers took part, but since then the mutineers have been augmented by large numbers of police, coolies and loafers. The legations know no reasons for the outbreak. The idea is expressed that Yuan Shi Kai's soldiers began the trouble when they learned that he intended to leave the capital for Nanking. The soldiers are everywhere looting from house to house. They have not spared even the foreign residences within one block of the legation quarter.

Fires were started in various sections and territory of more than a mile in area has been burned. This stretches from the Forbidden City to the building of the Chinese Foreign Board, where Yuan Shi Kai resides, the flames reaching within half a mile of the legation. The quarters ocupied by the Nanking delegates who came here to notify Premier Yuan of his election as President. have been enveloped in flames.

Much reckless shooting has occurred, and one shell, which fell into the compound of the American legation, tore through the tent of one of the soldiers of the recently-arrived reinforcements, but did not explode.

Willard D. Straight, ex-American consul-general at Mukden, and now the representative of a New York financial syndicate, is among the refugees at the American legation. His wife is with him.

The Chinese soldiers did not attempt to interfere with fleeing foreigners, but there was great danger from flying bullets and firebrands which were flourished in all directions. Mr. and Mrs. Straight saved their valuables, but deserted a richly-furnished house, which was given over to the looters.

Special to the Review.

Pekin, China, March 1— The mutineers continued their looting and killing to-night, while a dozen great fires raged in the north section of the city.

BIG FACTORIES MAY HAVE TO CEASE OPERATIONS

Latest Estimated Number of Strikers is Placed at 1,049,407.

Special to The Review.

London, Eng., March 1— The Home Office estimates at noon that 1,049,407 miners were on strike. Practically all the big factories notified their employes to-day that they might have to close down at any time owing to shortage of coal. Reports from mining districts state that the strikers are conducting themselves in an orderly manner, except at Gwedraeth, Wales, where a train was stoned and passengers were cut by flying glass.

Later Special.

London, March 1.—All hope of immediate settlement of the strike was dispelled this afternoon when the conference between owners, miners and Cabinet Ministers adjourned till Tuesday. Both sides to the controversy are holding to the original positions.

Now It's the "Bath Tub Trust."

Detroit, Mich., March 1.—United State Judge Angell, presiding yesterday at the trial of the so-called bath-tub trust, charged with conspiracy in restraint of trade, ordered the acquittal of seven of the defendants. Two other defendants would have been acquitted but they signified their willingness to see the case through.

ONTARIO LIBERALS WANT MODEL SCHOOL SYSTEM

PARK PLAN IS ACCEPTED

A plan for the new King Edward Park, drawn by Mr. F. Wise, was accepted by the Property Committee last evening, and a vote of thanks tendered Mr. Wise for his work. Tenders will be asked for 225 trees, provided for in the plan. This lot is composed of six acres of land, and the plan provides for a winding driveway around the park with entrances at the east and west. The driveway will wander through a beautiful park o' Canadian trees, whilst an ample oval for sports is allowed for in the centre of the whole lot. The plan is an attractive one and should commend itself to all interested.

Hon. A. G. McKay Harks Back to Old Contention That Change Was Not Good One.

Toronto, March 1.—Normal schools and model schools—their relative advantages and disadvantages—were the topic over which the legislators in Queen's Park got excited at yesterday afternoon's session.

"Model schools—$2,000." This modest little item in the supplementary estimates which the House had under consideration was the cause of all the trouble.

The discussion was precipitated by Hon. A. G. MacKay's defence of the old model school system of Ontario. Mr. MacKay maintained that as regards schools, the people of the province were infinitely worse off to-day than they would have been had there been no change from the old system. "If it was the desire of the Government to give normal training to every teacher in the land," said he, "we begged them to at least do it gradually, and to retain at least one good model school in each county. By that means the children would at least have the assurance of being provided with a teacher who had received a model school training instead of having to secure somebody without even the limited qualifications of the model training. "It is the bounden duty of the Government," said Mr. MacKay, "to come back to our contention of model schools."

Sir James Whitney, in reply, stated that the subject was one of which Mr. MacKay had made a specialty for years. "He sees red every time normal schools are mentioned," said Sir James. "He has a right to his own opinions on the subject, but this subject has been discussed, I might almost say, ad nauseum. It was even under consideration long before the present Government came into power. How Mr. MacKay can suggest that this Government ought to come back to his contention as regards model schools, after the people of the province had endorsed our policy by such majorities as he never heard of, is more than I can understand."

N. W. Rowell said that the question was one of vital interest to the people of the whole province. He thought that the Government should take the Opposition members into its confidence, and discuss the methods that were being considered, to solve the problem of education. The fact that there were inducements in the west, said Mr. Rowell, was all the more reason why the Government of Ontario should adopt a progressive policy to get efficient teachers.

J. C. Milligan, Stormont, defended the present policy of the Government. Speaking as an old teacher, and as a new member of the House, he said that the abolition of the model schools was one of the wisest things ever done by any Government.

A. C. Pratt of North Norfolk characterized the model school system that was formerly in vogue as nothing short of a curse to the country. He would regret it if any of his children ever were compelled to go to a model school.

When the discussion opened Mr. Rowell asked the Minister of Education what centres were under consideration at the present time for the establishment of normal schools.

Hon. Dr. Pyne replied that there were several.

Hon. A. G. MacKay then contended that there should be a defined statement at the beginning of the academic year as to where the model schools would be. By this means pupils preparing for examination would know whether or not there would be a model school in their district.

Hon. W. H. Hearst introduced a bill to amend the Forest Preserves Act, in order that the Townships of Deloro and Ogden may be taken out of the forest reserve. These townships are part of the Porcupine gold fields, and being now practically all taken up for mining purposes, there is no timber of value on them to be preserved. The amendment will enable the Department to grant patents in the ordinary way to claim owners who prefer patents to leases.

SHERMAN FOR VICE-PRESIDENT

Will go on the Republican Ticket For Office.

Washington, March 1.—Unless present plans of President Taft's campaign managers go awry, Vice-President Sherman will also go on the Republican ticket for vice-president, according to a report here. A member of the Cabinet who is most active among the President's official family, is quoted as saying:

"We had not intended to consider Mr. Sherman for vice-president in this campaign, but the emergency confronting us compelled us to do so."

New York's Children's Court.

New York, March 1.—Improvement in methods of dealing with juvenile delinquents here is expected to result from the establishment of a new children's court in a model building in the mid-city section, details of the plans for which were announced yesterday by Borough President McAneny.

The plans are intended to conform with those of the continent-wide movement for the separate treatment of juvenile delinquents and to accentuate the need for privacy in the treatment of this class of children.

RAILWAYS GET NOTHING FROM IT

Make no Profit From Express Business, Says Officials.

Washington, March 1.—Operating officials of railroads, testifying yesterday in the Interstate Commerce Commissions' investigation of the express companies, declared that the railroads made no profit out of express business.

James Peabody, statistician of the Santa Fe system, insisted that revenues of the railroads from express business were wholly inadequate. He objected to the reduction of the express rates because that would have a tendency, he said, to increase the shipment of certain classes of traffic by express, reduce the revenues of the railroads from freight traffic and overload the passenger service of railroads, all of which carry express service on passenger trains.

EXECUTION, BUT NO HANGMAN

Quebec Sheriff not Able to Get Man for Job.

Montreal, March 1.—Reports from Fraserville, Que., state that E. Martin, sheriff of that district, is seriously ill from worry over his inability to hire a hangman. With an execution only eight days off, he cannot locate a man both willing and able to take the position, and may have to undertake the task himself. Since the passing of Radcliffe, Canada has had no official hangman, the custom being for the sheriff to secure one, paying him his traveling expenses and a fee of $75.

Mr. Martin endeavored to secure the services of Ellis, the expert executioner who officiated at the hangings of Candy and Creola in this city. but Ellis is now in the west. The man to be hung is Jules Puourde, found guilty of the murder of a neighvor named Martin last year. Sheriff Lemieux of Montreal has shipped the scaffold from the local jail to Fraserville.

TWO NEW HIGH COURT JUDGES

Appointments Likely to be Made by Government

Special to The Review.

Ottawa, March 1.—It is understood that the Government will shortly appoint two new High Court judges in Ontario, and that the appointments may involve the reconstruction of the Ontario Appeal Court. The names of Haughton Lennox and E. Gus Porter are mentioned in connection with the expected change.

CAN CUT RATES ON MEDICINES

Equity Court Judge Refuses Drug Concern's Application.

Washington, March 1.—Patent medicines and other patented articles may be sold without reference to the prices fixed by the patentee.

This was the opinion handed down yesterday by Justice Wright in the equity court, when he refused the application of a drug manufacturing concern for an injunction to prevent a local druggist from "cutting" prices without the manufacturers' permission. The court declared that the patentee of an article could control the price by which it should be sold by a "licensee," but that once the article had found its way to the open market by outright purchase all right to fix the price passed from the patentee.

G.T.R. Adopts Block Signals.

Montreal, March 1.—The Grand Trunk Railway has completed arrangements to install the automatic block signalling system, now being extensively used in Great Britain and the heavy traffic districts of the United States, on the line between Toronto and Niagara Falls, which is the heaviest traffic line in Canada, and also between Hamilton and Lynden Junction, where the main lines diverge to Harrisburg and Brantford.

Have You Tried

O'Keefe's "Gold Label" ALE

The O'K brewmaster says it is his masterpiece—a rich, old, creamy ale of matchless purity.

The Daily Review

FRIDAY, MARCH 1, 1912.

TWO COMING BY-LAWS

While the Board of Trade was a little in advance of local legislation in discussing the by-laws to be brought forward by the city council relating to street paving and garbage disposal, the discussion will assist in reaching a conclusion when these by-laws are submitted and estimates of the expenditure under the one and organization under the other, the ratepayers will be able to judge.

It should be borne in mind that paving the streets means a great dea. more than merely paving. The cost of the placing of the pavement will be borne by the ratepayers along the streets, by the street railway and by the municipality in defined proportions. As the assumed life of a pavement is ten years, debentures issued to cover the cost of the work, other than that incurred by the street railway, will be payable in ten years, and must be wiped out at end of that period.

But this is not all. Modern improvements call for modern conditions of up-keep. A paved street, if uncleanly, is worse than a street not paved. It would afford ample facility for flying dust and rubbish. Hence it must be swept and flushed each day. This entails expense.

Then there is the serious problem of disposing of the surface water, which at times is large in volume. Take the snow fall as at present lying on the street. It would be criminal carelessness to leave it where it now is if the street were paved. Cellar floods would surely result. Arrangements must be made to remove the snow, from time to time. Here is additional expense.

That the capacity of the sewer along George street will be adequate for emergency is to be doubted. Either a larger sewer will have to be provided or some system of storm water drains else the chance of damage by overflow of water from street to cellar is probable.

The removal of all poles from the paved street area is to be considered also. The time will be opportune for accepting this Pavement would be less than complete to lay it down and leave the poles standing.

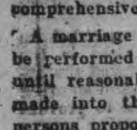
A FEDERAL MARRIAGE LAW

That the reference of the case affecting the marriage laws of Canada to the Supreme Court and ultimately to the Privy Council, will result in a definite marriage law for the country as a whole, is looked forward to by the people, that it may forever set at rest disputed points. Despite the contentions that the provinces are entitled to make and fix certain regulations, all citizens agree that in vital points, all provinces should agree. The federal power is the one to fix and control all that.

All will agree that there should be no uncertainty about the marriage form, nor insecurity afterwards. So long as the requirements of the civil law are met, and the ceremony is performed by an officer or person qualified under the civil law to do so, that should and must suffice. No questions of religious or denominational ritual should be allowed to intervene.

And while a federal law is in the making it might as well be made comprehensive as to certain things. A marriage ceremony shouldd not be performed in any case of doubt until reasonable enquiry has been made into the antecedents of the persons proposing to enter into the marriage relation. The question is in the minds of many, that if we are careful to a degree in the breeding and raising of stock and animals, that the breed be kept pure and the progeny incontaminated why should not some such supervision be exercised by the State in the interests of future generations. Marriages are contracted every day, and if which it may be inferred, that the results will be the bringing into the world of beings more defective mentally and possibly physically, than the unfortunate parents. We declaim, and by strongest laws and inspecting, strive to keep out of the country, a degenerate population, seeking to enter from abroad.

Why not consider, sensibly and thoughtfully if we should not place some reasonable restrictions on marriages of people, who may have the bond of affection yet are unfitted to become the parents of children, worthy of Canada.



Wood's Phosphodine, The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins, Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhœa, and Effects of Abuse or Excesses. Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. The Wood Medicine Co. (formerly Windsor) Toronto, Ont.

Protestants in Quebec

(To the Editor of the Witness.)

Sir,—There are two other subjects that demand attention, and in which the Protestant minority are not fairly treated, besides the marriage question, that has been the subject of so much public attention. The first is the division of the school taxes. A few years ago an act was passed at Quebec dividing the school taxes derived from incorporated companies according to the school population. This was strenuously opposed by the minority at the time, because the English Protestants held most of the stock, and the French Catholics drew most of the taxes. There are several companies in this county where the shareholders are all Protestant, and yet the Catholic commissioners receive more than half the taxes.

The majority claim that they do not oppress the minority, that they do not want a dollar that does not belong to them, and that they treat the minority with absolute fairness, still they are robbing the Protestant rate payers of their taxes to support the Catholic schools, when it is so hard to maintain the Protestant schools of the province. What we Protestants demand is that each shareholder be allowed to say whether his share of the taxes be paid to the Protestant or Catholic Board of Commissioners. This matter is very easily remedied. All that is required is for the Legislature to pass an amendment to that act, allowing the shareholders to dictate as to which board of commissioners their share of taxes are to be paid.

The other subject is, compelling Protestants to pay taxes towards the building and repairs of Catholic churches and parsonages. The Catholic hierarchy lay out a parish and order the building of a church parsonage, send on their valuators, and value the property, and levy taxes on that property, sometimes including property owned by Protestants. If it happens to be occupied by a Catholic; perhaps extending those taxes over a dozen years. As the years go by, either by purchase or heirship many of those properties pass into the hands of Protestants; still they claim the right to collect the taxes levied by those Catholic churches by the civil law. We positively deny that they have any such civil power. We do not object to any church governing its members as they see fit, but we do emphatically object to any one church being allowed to levy taxes, while all other denominations have no such privilege. We protest against taxes being levied by any foreign power or potentate whatever, and demand British fair play for all our citizens, and for every denomination alike. We denounce as intolerable tyranny that Catholics should be allowed to levy taxes for Protestant ratepayers to pay, and deny that England ever gave them any such power. And yet, right here in the town of Bedford, county of Missisquoi, and province of Quebec, in the year of our Lord one thousand nine hundred and twelve, this this thing is being done. We, the ratepayers, are not able to fight to a finish in the courts, but we call upon the Protestant people of this fair Dominion to [illegible] complaints and help up to [illegible] the rights that are ours under British rule.

We sing "Rule Britannia, Britannia rule the waves," but while this thing goes on Britannia does not rule, but the Sovereign Pontiff at Rome.

Had It All Mapped Out.

A young lady was acting temporarily as hostess, says Life, and her time was much occupied. One of her admirers, a nervous and absentminded lover, perceived that this would be the case, and to facilitate matters be determined to bring affairs to a point He didn't get a chance.

"Afterward," says the object of his ill starred devotion, "I found this memorandum on the floor, where he dropped it in his agitation:

"'Mention rise in salary. Mention loneliness. Mention pleasure in her society. Mention prospects from Uncle Jim. Never loved before. Propose.'"

There were 56 civilians and 20 soldiers killed in the bombardment of Beirut.

THE MARKET

Latest Quotations in Grain Dairy Products, Live Stock Etc.

CHICAGO, Feb. 29.—Discovery that an error of 20,000,000 bushels or more had been made in computing farm reserves, caused a sharp break to-day in the price of wheat. The close was a full cent up under the top point of the session, and ¼c to ⅝c below last night. Latest trading left corn at an advance of ⅜c to ⅝c, and oats varying from ⅛c down to ¼c up. In provisions the final range stretched from 5c decline to a gain of 7½c.

The Liverpool market closed to-day on wheat, ⅝d to ⅞d higher than yesterday, and corn ⅝d higher. Paris unchanged to 1c lower; Antwerp unchanged, Berlin ¼c higher and Budapest ½c lower.

Montreal Grain and Produce.

MONTREAL, Feb. 29.—There was an increased demand from foreign buyers for Manitoba spring wheat at an advance in prices of 3d to 4½d per quarter, and this, with the decline in the Winnipeg market, enabled exporters to do some business for May-June shipment. The demand from London for oats was fair, and as prices were in line with exporters' views, sales of several loads were made for May-June shipment. Locally the trade in oats continues fairly active, but other lines of coarse grains are quiet. Flour is firm under a good demand for local and country account. Demand for bran and shorts is good. The trade in butter and eggs is fairly active. Dressed hogs strong at recent advance owing to temporary scarcity.

Lady Betty Across the Water

By C. N. & A. M. WILLIAMSON

Copyright, 1906, by McClure, Phillips & Co.

I don't believe Vic had half so much fun at her first ball as I had at mine, although hers is so many seasons ago now that I can't remember what she said about it. I was only a little girl then, and she wasn't in the habit of telling me things as she is now.

Although I didn't get to bed till after 2, I was up early next morning, because I had promised my best cadets that I would be at morning parade, or whatever they call it, to say goodby. Sally went with me, and it was quite an affecting parting. I shall never forget those dear boys if I live to be a hundred, though I can't remember any of their names, as after all I lost the card I meant to keep always.

Chapter 6

ALL the preparations that Mrs. Ess Kay had to make for Newport kept us two more days in New York, and it was terribly hot, but I was not sorry to stay, because we did so many amusing things.

Mr. Doremus was detained, too—by his tailor, he said—so we saw a good deal of him, as Mrs. Van der Windt had left for her Newport cottage. We did go to a roof garden entertainment after all, and it was most fascinating, but quite without the feeling that you might fall off, which I had expected to have. I saw the moon coming up and gilding thousands of roofs, and I couldn't help wondering which was the roof of that club where poor, handsome Jim Brett was employed, though of course it was impossible to speak of him to any one except Vivace.

We lunched one day at an enormous and very fashionable red brick hotel called the Waldorf-Astoria and went into a Turkish room and had delicious things to eat in a beautiful restaurant which had not at all an out of season air, though Mrs. Ess Kay said that most of the well groomed looking people whom I suspected of being leaders of the Four Hundred were only "trippers." I do wonder, by the way, why one always has an innate sense of contempt for trippers and longs to be sniffy and show one's own superiority? We must all be trippers somewhere and sometimes, or we would never see anything of the world—indeed, I suppose I am by way of being a tripper now. But one never seems to regard oneself in such a light or imagine that anybody else could be so undiscerning.

I hadn't known that a hotel could be as big as the Waldorf-Astoria, though Mrs. Ess Kay says there are several just about as large in New York, and she has heard there are one or two in Chicago, but she thanks heaven she doesn't know anything personally about that. When she made this remark I remembered what Sally had told me in confidence about Mrs. Ess Kay's life before she began to qualify for the Four Hundred. But of course I did not make any allusion to the subject for fear it was a skeleton in her closet. And Sally says that well regulated Chicago people think New York a one horse place compared to their town, which is really wonderful and most interesting, as I shall find out if I see it. I wish I could, but I suppose I shan't, as I came over to visit Mrs. Ess Kay, not to do sightseeing.

The second day after we came back from West Point, as I went downstairs the first thing in the morning, I heard Mrs. Ess Kay at the telephone, which is in a little room along a corridor off the fountain court.

She was having a long conversation with some one, laughing and chatting just as if she were talking to a visitor, and presently my name came in. "Yes, Lady Betty Bu—; no, not pronounced that way, my child. As if it were spelled B-U-C-K—yes, that's right. Such a pretty girl, a perfect dear. I expect the men will be wild about her at Newport. Potter raves over her. Ha, ha, ha! Do you think so? Well, perhaps. I've known stranger things to happen. No, it's not her father, but her brother, who's the duke. Awfully good looking. I wish he could have come too. But you see Sally wouldn't. You know what Sally is. No, she's never got over that old affair. Southern women are so romantic. Yes, I'll bring dear little Betty with me if it won't tire you. She"—

Then I began to think I ought to let her know I was there, for one hates to eavesdrop. So I yelled at the top of my lungs that I was in the hall waiting to go to breakfast and couldn't help hearing every word she said. However, she didn't mind a bit and called to me to come into the telephone room.

"I'm talking to a friend of mine who has just been moved back to her own apartment after getting over appendicitis," she explained. "Poor thing, she's such an indefatigable society woman, and she does so hate being stuck in the city at this season. I've just been promising to run in and see her this afternoon, and I'd like to take you if you'll go. She'd love to see you. I'll introduce you now by phone."

With that she began to chat into the thing again in a chummy sort of way which seemed quite uncanny, as I have always looked upon a telephone as an official kind of machine which you prepared for with fasting and prayer and only had recourse to when strictly necessary for important business. "Here's Lady Betty," said Mrs. Ess Kay. "I'm going to introduce you. Now, Betty, take hold of the"—

"Oh, I can't. I don't know how. I never did," I objected, feeling as if she were going to force me into taking gas against my will.

She would have me try, so I did, as it's very difficult to oppose Mrs. Ess Kay even in the smallest thing. But I couldn't hear a word; only a horrid buzzing, so she had to let me off and just tell me that the lady we were to call on was Mrs. Harvey Richmount Taylour.

"If you're going to stay long in America you'll have to get used to the phone," said she. "We do half our shopping and some of our calling and make about all our appointments that way. If we didn't there'd be more cases of nervous prostration than there are, and goodness knows there are enough now even since blue rays have come in. Many love affairs are carried on practically entirely by phone, and I've heard that in case of necessity marriage ceremonies can be performed by it."

"How about divorces?" I asked. And I was quite serious, but Mrs. Ess Kay didn't seem to think the question worth an answer. So she switched off her friend and rang up two or three tradespeople of whom she ordered scent and chocolates and some new books and told a manicure to call. Then we went in to breakfast.

It appears that the manicure person is a great catch, and you are lucky to get him without making an appointment long beforehand. He does things to your feet, too, though I dared not ask what, and Mrs. Ess Kay intended to stop in for him all the morning.

While she was talking about this Sally was glancing over letters, and there was one in which she seemed particularly interested. She looked up from it suddenly when Mrs. Ess Kay said she was not going out and exclaimed: "Oh, then I may have Betty. How nice! I do so want to show her the park."

"I'll go with you," Potter broke in quickly, but Sally shook her head.

"No, I want her to myself, thank you—just for this once."

Potter looked cross, but said no more, and it was arranged that Sally and I should start in about an hour. Mrs. Ess Kay thought we ought to get off at once, as it would be cooler. But for some reason Sally did not like that idea. Meanwhile she ran out herself on an errand, but did not offer to take me.

Even people who have absolutely nothing to do except to amuse themselves appear to like waking up and having breakfast much earlier than we do. This morning, as usual, we had finished breakfast by half past 9, and by a quarter past 10 Sally had come back to fetch Vivace and me for our walk.

I hadn't yet been shown Central park. Mrs. Ess Kay said it was horrid out of season. But Sally didn't agree with her. And I thought it lovely, more like the Bois de Boulogne than our park, and yet with an extraordinary individuality of its own. There were only a few people of our sort, riding or driving, but lots of children were playing about, and it was wonderful that the trees and grass and flowers could have kept so fresh through such tremendous heat. I'm sure if we had weather like that in England the whole vegetable kingdom would go on strike.

Whether it was the beauty of the park or whether it was something in herself I don't know, but Sally Woodburn was in a sentimental mood. She is generally full of fun, in her soft, quiet little way, but this morning she was all poetry and romance. She quoted Tennyson and several modern American poets whose names I was ashamed to say I didn't even know, as their verses seemed charming, and when she had found a certain narrow, shady path which she had been looking for suddenly she said: "Let's talk about love. What do you think about love, Betty?"

To be continued

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

Is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

CARTER MEDICINE CO., NEW YORK.

Small Pill. Small Dose. Small Price.

Roblin Well Pleased.

Winnipeg, Feb. 29.— Premier Roblin expressed satisfaction at the announcement made regarding Manitoba's boundaries.

The additional revenue, Mr Roblin stated, would be devoted in part to complete and perfect the Agricultural College and to develop other educational interests, and also to inaugurate and establish a good roads policy, for which at least $100,000 will be set apart for building and maintaining good roads, while some of the money will be expended in developing and equipping the added territory for communities.

Niagara City of Light.

Niagara Falls, N.Y., Feb. 29.—This will be without exception the best illuminated city in the world when the arrangement made with the electric companies here goes into effect. The companies will furnish free power for water concessions and the city will do the rest.

TELEGRAPHIC BRIEFS.

The C.P.R. has purchased 1,800 acres of land in a Winnipeg suburb for yards.

Winnipeg has decided to issue bonds to the amount of £960,000 for city improvements.

James Palangio of Cochrane was fined $150 and costs for violating the immigration law.

Mr. Hamilton McKerihen, who was injured when his cutter was struck by a car, died at his home.

At a meeting of the Western Fair directors yesterday afternoon, a committee was appointed to consider the erection of an art building.

The C.P.R. announces that its lake fleet will be withdrawn from Owen Sound, and the Georgian Bay terminus will be Port McNicoll.

William Griffith, arrested in Windsor last week, charged with bigamy, was sentenced to one year in Central Prison by Magistrate Judd in London yesterday.

Irving A. Williams of Utica, N.Y., inventor of the locomotive headlight now in general use, died at the home of his daughter in Greenwich, Conn., yesterday.

A. H. Clarke, M.P., of Windsor, at a dinner in his honor, was presented with a silver tea service. Mr. Clarke will remove to Calgary at once to engage in the practice of law.

Because of alleged importation of United States rivetters, 25 men employed by the Kingston Shipbuilding Co. went on strike yesterday. The men claim that workers are being brought from Buffalo.

Because she had not the money to pay a doctor, Mrs. Thomas Fudge, 95 Jarvis street, Toronto, lay in bed from Saturday morning until yesterday with both arms broken. Mrs. Fudge fell down the cellar stairs. She was taken to a hospital.

Would Release Five Camorrists.

Viterbo, Feb. 29.—When the crown prosecutor resumed his address to the jury in the Camorra trial yesterday, he recommended the jurymen to absolve from guilt Gusseppe Chirico, Luigi Arena, Gennarro Ibelli (head of the Camorra in the Vesuvian villages), Marie Stendardo (wife of one of the alleged principals in the murder of Genarro Guocolo), and Luigo Fucci.

He also recommended the jury to declare Fucci the nominal head of the Camorra, the real head being "Erricone."

Bill to Buy Express Companies.

Washington, Feb. 29.—Senator Gardner of Maine has introduced a bill authorizing the Government to at once acquire the tangible assets of the four big express companies at their appraised value of $39,165,819 for the purpose of at once establishing and operating a complete parcels post system. The other assets of the companies, amounting to about $150,000,000, are in the shape of securities and of course will not be taken over by the Government, but distributed among their own stockholders.

Sir Charles Still In Bed.

London, Feb. 29.—C.A.P. Cable.)—Sir Charles Tupper, who has been quite ill with bronchitis at his home, still keeps to his bed. He takes the keenest interest in current events. Sir Charles is very grateful for the host of Canadian enquiries concerning his condition.

Lord Strathcona is very weak, but is improving.

Financing a Show.

Probably no calling is so easy to enter for the totally unfitted as the stage. By the aid of a few pounds an engagement can be obtained. Week after week, in the columns of an English theatrical paper, can be seen advertisements similar to the following: "Wanted: Ladies and Gentlemen for the Stage. Experience not necessary, but good appearance essential. Small premium, to be returned in salary. In nine cases out of ten the advertiser has little or no capital until the aspirant for histrionic honors joyfully parts with his or her premium.

With the money extracted from these deluded stage-struck individuals, the enterprising manager books a few halls in fit-up towns, hires a little weather-beaten scenery, engages one or two experienced actors, secures a piece for which there are no copyright fees, and commences his tour. The crash is not long in coming—the scenery and "properties" being seized by the hall-keeper for rent, whilst the manager promptly absconds with as much as he can lay his hands on. Warned by parents and friends at the outset to have nothing to do with the stage, the disillusioned debutantes are ashamed to write home, and now begins the drifting process—drifting God knows where. In the case of young girls, the end does not bear thinking of.

The Governors of Minnesota, Iowa, Washington, Maryland, Pennsylvania, Tennesse, Utah, Delaware and Rhode Island, favor Taft.

SANOL

The new discovery will positively remove Gall Stones, Kidney Stones, Gravel in the Bladder, and will effect a complete Cure. It will dissolve and remove stones without pain, and there is no necessity for an operation in the future, as Sanol will cure in every case no matter how long standing the disease may be.

SANOL will be found particularly valuable in old cases of Kidney and Bladder diseases.

SANOL is a preparation of herbs and herb extracts, and contains no poisonous ingredients. It's use, therefore, cannot possibly harm either the stomach or intestines.

Sanol per bottle $1.50

Get it from McDERMID & JURY, Druggists, Peterborough, or direct from The Sanol Manufacturing Co., Winnipeg, Man.

THE GENUINE ALWAYS SUPERIOR TO THE IMITATION

The experienced buyer never permits the shrewd merchant to convince him that an imitation is superior to the genuine advertised article. In refusing a substitute he protects himself and the manufacturers who have expended enormous sums in giving the public information regarding their products.

Advertised articles have stood the test of public approval on their merits and materials embracing their make-up The mere fact that they are imitated is competent testimony of their worth.

You are safe in rejecting the article offered as "just as good."

The General Accident Assurance Company of Canada a Branch of the Perth Fire and Life of Scotland, with over Five Million Dollars of assets.

The General Accident Policies contain the most up-to-date features, and is noted for its liberality and promptness in settlement of all claims, having never yet contested a claim in the Courts of Law.

As a large percentage of accidents occur through the carelessness of others, start the New Year right, by placing your accident insurance in a Company with such a record.

OVER THE DRIFTS TO KNOX CHURCH

Springville Young People Provided Splendid Program in Hall

A large and happy band of young people from the Presbyterian congregation, Springville, found their way through the drifts last evening to Knox church, where they were accorded a hearty welcome by the young people of that church. In accordance with the arrangements of previous years, the young people from Springville provided the program, which was of an excellent nature, as follows—

Opening Selection—Orchestra.

Illustrated Hymn—O God Our Help in Ages Past.

Words of Welcome to the Visitors—Mr. Wm. Lorimer, president of the Young People's Guild of Knox church

Reply and Address—Chairman, the president of the Springville Young People's Society.

Solo—Mr. James Fowler.

Recitation—Miss Merton Colin.

Vocal Duet—Messrs. John and Jas. Marsh

Recitation—Master Robbie Whitfield.

Selection—By the orchestra.

Address—Dr. Marsh. Illustrated by slides.

Vocal Duet—Miss E. White and Mr. Jas. Fowler.

Recitation—Miss Lilian Hooten.

Recitation—Master Robbie Whitfield.

Recitation Miss Merton Colin.

Illustrated Hymn—Abide With Me.

At the conclusion of the program a vote of thanks was tendered the young people of Springville for their enjoyable entertainment, on the motion of Messrs. J. T. Morrison and E. Dennon.

Before the departure of their guests, the young people of Knox church served refreshments.

It is expected that the local young people will pay a return visit in the near future and they are assured of a warm and hearty reception at the hands of the Springville young people.

THIRTY DEGREES BELOW COLDEST OF THE MONTH

Snow Fall for February Amounted to 26 Inches

The first half of February saw practically all the cold weather we had during the month, while the latter half furnished the stormy weather. There were 11 days during the month at zero, or below, as compared with but four during the same month a year ago. The coldest day was the 10th, with 30 degrees below zero in the morning. The highest the temperature rose that day was to 5 below zero. Other cold days were the 4th, 14 below; 9th, 23 below; 11th, 23 below; 12th, 9 below; 29th, 16 below.

The temperature rose to 39 degrees on the 18th and 19th. This was the highest during the month. It was above the freezing point in the shade on six days.

The snowfall amounted to 26 inches; rainfall, on the 19th and 25th, .07 of an inch.

Although practically every bad storm is "the worst in the memory of the oldest inhabitant," that of the 22nd was undoubtedly the most severe we have had for a number of years. On the previous evening the barometer began to fall rapidly, and in the morning stood at 28.11 inches (the lowest I ever saw it.) This presaged something out of the ordinary routine was on the way, and later on in the day a genuine old-fashioned blizzard began to rage. Country roads were filled to the level of the fences, and trains stalled all over the district.

At the end of the month there was much more snow on the ground than usual. At the same date last year the sleighing was poor around the city.—W. P.

Band at Street Railway Rink to-night.

WOMEN SHOULD GET THE SAME REMUMERATION

The meeting of the Young Mens Brotherhood in St. James' church tonight will be an open meeting. An interesting program is promised all who attend, and the chief feature will be a debate between the young men of the Brotherhood and representatives from the "Cheerful Workers," a young ladies' Bible Class. The subject of the debate will be: Resolved, "That women should receive the same remuneration for work as men." Everybody is welcome to come and hear this interesting discussion.

WEDDING BELLS

CARTER—JACKSON

A very pretty wedding was solemnized in St. Paul's church yesterday by the Rev. Mr. Pogue, when Miss Hesba E. Jackson, daughter of Mr. Thomas Jackson, of Bolivar street, was united in marriage to Mr. G. S. Carter, son of Mr. Geo. Carter, 310 Aylmer street. Miss Nellie Jackson made a charming bridesmaid and Mr. H. Mills, officiated in the capacity of best man. Quite a large number of the friends of the bride and groom were present at the ceremony. Mr. and Mrs. Carter will reside in Peterborough.

SUTTON—BELL

On Wednesday evening in the parsonage of the George street Methodist church, Miss Elma B. Bell of Bridgenorth became the wife of Mr. Ralph E. Sutton of Smith. The wedding was celebrated quietly, and the principles were unattended.

Mr. and Mrs. Sutton will make their home in Peterborough.

— BETTER —

OPTICAL SERVICE

BY

A. A. FOWLER, Eyesight Specialist

In every trade, profession or branch of work, there are found a few men, who from special fitness, or education, or both, are better prepared to serve you in their line than the multitude of others in the same field.

Since Optometry requires especial ability in both professional and mechanical work, men that are fitted to do both equally well are scarce. Therefore you cannot be too particular about the selection of the man to whom you entrust your eyes.

The professional work—the examining and measuring of your eye defects, must be skilfully done. The mechanical part—the making and adjusting of your glasses is no less important.

Every phase of optical work is thoroughly and intelligently done here. From the first step in the examination to the final adjusting of the frame or mounting not a single thing is overlooked or slighted. I do all the work myself, and having had such fine success with most difficult and neglected eyes, I do not hesitate to say that I can give you perfect satisfaction.

A visit will incur no obligation.

FARM SPECIAL

Train Comes to Peterboro on Tuesday March 12

An agricultural instruction train placed on the road jointly by the Canadian Pacific Railway and the Department of Agriculture for Ontario, commenced a tour of Ontario on Feb. 26th, which will last until March 16th. The train is called "The Better Farming Special," and the tour has been inaugurated for the purpose of giving instruction to the farmers and their families on agricultural lines throughout Ontario; The train will consist of four baggage cars and three coaches to be used for lecture purposes. Samples of fruit, nursery stock, live stock, field husbandry, dairying apparatus, etc., will be exhibited and thoroughly explained to all who care to visit the train at its various stopping places.

The train will arrive in Peterborough on Tuesday, March 12th, at 12.45 p.m. and leave at 3.15 the same afternoon. Everybody is welcome to pay a visit to the train.

Another Great Saturday Sale of Axminster and Wilton Carpet Samples at Robert Fair & Co's, Limited. See south show window to-night.

LENTEN SERVICE AT ALL SAINTS

The Rev. R. B. Grobb will conduct Lenten service in All Saints' church to-night at 8 o'clock. To-night Mr. Grobb will deliver the first of a series of sermons on the "I am's" of Christ. The remaining sermons will be preached regularly every Wednesday evening in the future. The discussions by Mr. Grobb on these unique but interesting subjects, will likely be favored by a very large attendance.

A Regal Suite

The plans of the new Grand Trunk central station in Ottawa include a regal suite for the exclusive use of their Royal Highnesses, the Duke and Duchess of Connaught and succeeding Governors-General of Canada. This suite consists of a reception room furnished with leather upholstered chairs and settees, a ladies' room, and writing room, also fitted out in a tasteful and thorough manner.

The "Cressman" Store is Ready With Complete New Stocks For Saturday's Selling

SATURDAY will be a day of days on which to do your shopping. Every department throughout this entire store is fairly glowing with the beauty of color and the freshness of the new Goods. Too many lines to quote separately, but in every item of women's and men's wearing apparel and in the furnishing of the home you will find us wonderfully well prepared with complete assortments and the very newest novelties. The departments, however, that feature "DRESS FABRICS" are worthy of particular attention. The new woollens for the coming season, in all the charm of their beautiful colorings and distinctive weaves will compel the attention of every woman who wishes to be informed as to what will be worn this season.

Deserving also, of special mention are the new EMBROIDERIES that are now on special display. Their exquisite daintiness and their newness and novelty make them objects of universal admiration.

Up on the second floor are displayed the new Spring Suits and Coats. An authorative knowledge of the season's style tendencies can be gained from this initial display.

There are many advantages in early selection. First choice means the "Cream of the showing. The salesforce can now give their complete attention to details assisting you with timely suggestions. In the case of piece goods dressmakers can now be secured to make your dresses, etc., to suit your every whim, before the early spring rush commences.

Whether or not you are prepared to make selections now—visit the "Cressman" store Saturday and find out what FASHION has decreed for 1912.

Entertained Choir

The Charlotte Street Methodist choir held their weekly practice at the home of Mr. and Mrs. John Best, 425 Donegal street, last night, and afterwards were entertained. During the evening an essay contest was engaged in and after dainty refreshments were served, the balance of the evening was spent in song.

A most enjoyable evening was spent, and the hospitality of Mr. and Mrs. Best was very much appreciated by the choir.

EXHIBIT GOES TO PORT HOPE

Good Results From the Display at the Collegiate

After having conducted a very successful campaign in Peterborough, the tuberculosis exhibit, which has been held for the past three evenings in the Collegiate assembly hall, moves on to Port Hope to-day to conduct a similar exhibit.

A large amount of useful information on the question of combating tuberculosis, and some valuable health rules, have been spread throughout the city since the arrival of the exhibit, and it is expected that the campaign will bear fruit in the shape of more active measures being adopted in fighting the disease.

Pictures were again shown last evening, which were watched with a large degree of interest.

FURTHER INFORMATION NECESSARY BEFORE SANITARY INSPECTOR IS APPOINTED

Goose Pond Suggested as "Dump" for City's Garbage

M. H. O. SAYS NO

Property Committee Will Take up Incinerator Question

Twenty-nine applications for position of sanitary inspector for the city were received at a meeting of the Property Committee last evening, but the actual appointment of a man to the office was deferred to a later date.

The applications varied in length from about two lines to two pages, hence the busy chairman at the request of the committee only ran a fleeting glance over some of them, sufficient, however, to obtain the important facts, from the more ponderous missives.

The following is a list of those who are anxious for the job.

George W. Johnston, 528 Weller street.
Arthur E. Simms, 734 George street.
Frank Armsby.
W. A. Paskins, Byersville.
William H. White.
Heber Dobbin.
John Fraser, North Bay, Ont.
E. J. Spence.
William A. Robertson, 532 George street.
Charles E. Wiley, 205 Sherbrooke street.
H. Pearson, 187 Antrim street.
Davis Patterson, 513 Cedar street.
John Mcharry, policeman.
Ralph Watson, 67 Hunter street.
R. A. Peters, 69 Hunter street.
N. J. Pitchford.
George Naylor, Clarady P.O.
John J. Wright, 306 Louis street.
John O. Moss, 59 Gilmour street.
Joseph Crowe, Cross street.
Anthony Hope, Pearl avenue.
William Sharman.
John Clancy.
J. E. Sharpe, 461 George street.
William J. Harris, 109 Smith street.
Charles R. Jenkins, 98 Gladstone avenue.
John Hercley, 334 McDonnel street.
William D. Ketcheson.
William Crowe, 4 Sophia street.

All kinds of talent qualifying applicants for the office were much in evidence in the contents of many of the letters. The selection will therefore be a most difficult one, and seeing that an expenditure of about $700 a year is involved there will no doubt be much deliberation experienced by those who have the matter in hand. One enterprising applicant enclosed his portrait which revealed a smart likely looking man for the job.

Applicants from natives of the old country were much in evidence.

When the contents of all the epistles had been digested the committee saw that they had no easy proposition to contend with in making a choice.

BY-LAW FIRST.

Mayor Bradburn sized up the situation when he remarked.

"Mr. chairman, before you decide on your appointment I think you had better decide on a garbage by-law, and then settle on your appointment. If you make your appointment to-night you may not know what to do with the man afterwards."

The Mayor here suggested that the chairman tell the committee what he had gathered relative to the matter from his trip to Guelph.

Ald. Duncan.—"I saw the city clerk in Guelph. He told me that they had started off by covering a certain area. They paid a man $5.50 a day who engaged three men to cart the garbage to three dumps in the city. The city also had a man stationed at the dump. They had found the system to give satisfaction.

Excavations in the city had been filled up and no stench arose from the dumps as the garbage was covered with ashes.

Mayor Bradburn—"How do they pay for it?"

Ald. Duncan—"They put it on the taxes. Each householder pays 15 cts. a month or $1.80 a year. The hotels pay forty cents a month. They do not collect for factories or on any vacant land. It takes one man one week to collect from his area. The money is collected once a year."

Mayor Bradburn—"Where would dump the garbage here in Peterborborough."

Ald. Duncan—"In the Goose pond or down on the river bank south of the city."

Dr. McPherson—"You do not want to dump garbage in the Goose pond."

Ald. Duncan—"Where then can we get a place without going outside the city."

Ald. Morgan—"There is a place just east of the Peterborough Canoe Company on the C.P.R. tracks where it might be dumped."

Mayor Bradburn — "It's no use dumping it into the water, the law prohibits the practice."

Ald. Morgan—"I thought this question was to have been all solved."

Mayor Bradburn—"Well, you can't solve it so easily."

Ald. Duncan.—"I think we had better secure a price on one of those incinerators and burn the stuff. In Rochester they have an incinerator and they burn everything."

Dr. McPherson—"I think that is the only way out of the difficulty."

Mayor Bradburn—To my mind it seems foolish to collect your garbage and then cart it to a place in the centre of the town."

Ald. Morgan—"What does an incinerator cost?"

Dr. McPherson—"The easiest way out of the question is to make arrangements with the Peterborough Lumber Company to burn all our garbage in their incinerator. Or it is quite possible that you could build an incinerator cheaply."

Ald. Brown—"I believe with the Mayor that it is necessary to build an incinerator."

On motion of Alderman Morgan and Brown, the clerk was instructed to write to Picard Company, Toronto, and secure estimates and information regarding incinerators. The motion carried."

Ald. Duncan—"Now what are you going to do about this sanitary inspector appointment.

Mayor Bradburn—"If you are going to appoint one to-night when do you want his duties to commence?"

Ald. Duncan—"How would the 1st of April do?"

Ald. Brown—"Let his duties commence on May 1st, when the yards are in shape to be inspected."

Ald. Duncan—"Say we leave the matter over until another meeting and see what we can find out about these men."

Ald. Brown—"It is not necessary to go into their characters is it?"

Mayor Bradburn—"Well as this appointment is not going to take effect for a while I would like to have the matter left over."

I would like the incinerator matter also left over. I am opposed and will be opposed strongly to the principle of dumping this garbage into a hole. I dont care what they do in Guelph. If we can get it outside of the city in some way it would be much better.

On motion of Ald. Graham and Mayor Bradburn, the appointment was left over until the next meeting of the property committee and also the matter of garbage disposal.

Those present at the meeting were Ald. Duncan, chairman, Mayor Bradburn, Ald. Morgan, Graham, Brown, Gillespie and Dr. McPherson.

Boy Scouts

The first and third troops of Peterborough Scouts are expected to turn out in full force to-night at 7.30 o'clock sharp, in the armories. Arrangements are to be made for a concert. Each patrol leader and corporal must be present to-night. Scouts will be dismissed at 9 o'clock.—W. J. MILLER, Dis. Com.

SPRIGS OF SPORT

Bright Liners on Athletic Topics

SOME GOOD CURLING AND CLOSE SCORES MARK LOCAL BONSPIEL

All seven sheets of ice at the curling rink were busy last night when more games were played in the local Bonspiel. The one remaining game in the first round was played off between Skips Morrow and Stevenson, the former coming out one shot ahead. It was an interesting contest to watch, Stevenson's stalwarts being in the lead till the tenth end, when in the last two ends, Skip Morrow got away with four counters and won the game by one shot.

SECOND ROUND.

In the second round there were four games played last night. Mr. H. F. Foote put away Mr. Campbell's quartette, and McDermid won a victory over Fitzgerald, though the latter made a desperate spurt at the end and slid three shots in. McDermid however, was then leading by four shots, so he stood ahead at the conclusion of the game by the narrow margin of one. J. H. Ferguson defeated Harstone's braves 8—7, and Lang moves on into the third round, at the expense of Skip Taylor. The games yet to be played in the second round are Brightman vs. Morrow, and McIlroy vs. Colling.

CONSOLATION.

In the consolation games Medd defeated A. Hall and Evans joins the ranks of the spectators while Reed moves on into the second round.

The result of the games thus far is as follows:

Third Round Rinks (Primary Competition) — Thompson, Foote; Renwick, McDermid; J. H. Ferguson, Lang; and the winners of the two unplayed second round games.

Second Round Rinks (Consolation.)—Campbell, Waddell; Medd, Read; Fitzgerald, Harstone.

First Round (Consolation.)—Yeats, Matthews; W. G. Ferguson, Morphet.

The result of last night's games is shown below:

Primary Competition, 1st Round—
Morrow, sk. 10—Stevenson, sk. 9.

Second Round—
Foote, sk. 10—Campbell, sk. 6.
McDermid, sk. 9—Fitzgerald, sk. 8.
Harstone, sk. 7— J H. Ferguson, 8
Lang, sk. 13—Taylor, sk. 10.

Consolation.—
Medd, sk. 13—A. Hall, sk. 6,
Evans, sk. 9—Read, sk. 11.

T. A. S. AND LAKEFIELD TO PLAY SEMI-FINAL GAMES NEXT WEEK

The following are the dates for games in the Trent Valley League semi-finals: Monday, March 4th, Lakefield at T.A.S. Wednesday, 6th, T.A.S. at Lakefield.

The first final game will be played on Friday night next, the winners of the Marmora-Stirling game being billed to play the Lakefield-T.A.S. winners here or in Lakefield.

The two hundred local fans who saw the Lakefield-Hastings fray on Wednesday night last, will not be likely to miss an opportunity of seeing the Cementville seven in action again. They have a real classy bunch and promise to make the Abstainers extend themselves to win on the round. The Lakefield rink is so small that it will be necessary for the local boys to pile up a substantial lead in the "Brock" to be able to hold the round.

Several of those who have followed the T.A.S. boys this season have remarked that they have never seemed to do as good work as they are capable of doing and that when they line up in the semi-finals they will uncover a couple of surprises. The regular seven will work on Monday night, though McPhee will not likely be available for the return game.

The Trent Valley League teams have not received very liberal support from local fans so far, but now that a local seven have battled their way near the top of the heap, it is hoped that the fans will turn out and show they appreciate their efforts.

"Howie" Anderson will referee Monday night.

MUTTS AND JEFFS MEET TO-NIGHT

Fans Should See Interesting Game at Brock Street

It is expected that about five or six hundred fans will see the Mutt and Jeff game to-night at the Brock street rink. The Mutts seem to be the favorites from the talk on the street to-day. The four intermediate forwards will give their old teammates on the defence a hot time.

The admission fee of 15 cents to any part of the house should be popular with the fans.

NINTH END SCORES IN THE CUP GAMES

The scores at the ninth end of the Peterboro-Lindsay Cup games, at the Curling rink this afternoon were—

Lindsay	Peterboro
Flavelle, 9	Foote, 7
Burke, 6	Connal, 11
Knowlson, 7	Davidson, 6
Butler, 7	Ferguson, 5

SCHOOL TEAMS IN TIE GAME

Queen Alexandras and South Centrals Each Scored One

A good game of hockey was played yesterday at the Brock street rink when the South Central and Queen Alexandra teams clashed in a tie game. There was no score in the first half but each team tallied once in the second. Richardson for the South Centrals was the best player on the ice, and Matthews played a most effective game for the Northerners though Johnston's checking was a feature. Johnston was however, inclined to rough it a little. Mark Kenneally refereed. The teams were—

Queen Alexandra		South Central
	Goal	
Hall		Babcock
	Point	
Johnston		Austin
	Cover	
Matthews		Moore
	Rover	
Dinsdale		Richardson
	Left	
Elliott		Clarke
	Right	
Dinsdale		Stevenson
	Centre	
Eastwood		Zealand

COLLEGIATES WON

The Junior Collegiate seven defeated the Separate school aggregation yesterday afternoon by the score [illegible]. The half time score was 3-0 in favor of the Collegiate boys. Lowes and Wolffe showed the most metal for the respective teams. The teams were—

Separates—Goal, Rutherford; Point Claney; Cover Point, Wolffe; Rover, Bain; Left, Corbett; Right, Guerin; Centre, Grady.

Collegiates—Goal, Evans; Point, Stewart; Cover Point, Stratton; Rover, Knapman; Left, Feeney; Right, Lipsett; Centre, Lowes.

A CALLENGE

The Drivers of the local grocers' delivery rigs, challenge the men of B. F. Ackerman's Harness factory to a game of hockey to be played at the earliest possible date. They also are willing to clash with any junior pick up team in the city who care to accept their challenge.

FORM 1 C SCORED 7.

A husky seven from Form 1C of the Collegiate, played rings around the 1B team and drew out of the game with the big end of a 7—0 score, yesterday afternoon on the Brock street rink. Smith for the goose eggers played a remarkable game but couldn't score without the support of his team, which was not forthcoming.

SPORT TALK

Fred Denison received a letter from W. A. Hewitt this morning, asking him to report at the Empress Hotel Toronto to-morrow prepared to play against Canoe Club to-morrow night and Monday.

There is considerable speculation as to whether the All-Stars can beat the Toronto Canoe Club, O. H. A. Junior Champions. With a couple of weeks practice together, it would be almost impossible to find a more formidable junior septette in Canada than the All-Stars, but it is a decidedly different matter to go onto the ice to play together an hour or so after being introduced to each other. So far as the defence is concerned they cannot be expected to play a game such as they should have done a couple of weeks ago. Hobe Armstrong has not had a game for five weeks, and the Peterborough juniors have been out of the running a couple of weeks. Jupp and Butterfield of Orillia will be in shape, but the Berlin and Woodstock teams have also been down and out for some time.

On the other hand the Paddlers will be working as good as at any time this season. The Excelsior ice space will not suit either seven very well and the game at the Ravine on Monday night will likely decide the issue as it is not thought that either team will gain much of a lead to-morrow night.

The committee at the helm in the Canadian professional baseball situation here held a meeting last night, and the prospects that a local club will handle the team in Peterborough are very rosy at present.

A subscription list will be opened on Monday for about three days, and if enough support is assured, a stock company will be formed and stock issued.

The Frontenac hockey team has accepted an invitation to play an exhibition game on artificial ice in Syracuse, N.Y., next Thursday evening. James T. Sutherland will take the team that defeated the Eaton O.H.A. champions across the border for a pleasure jaunt.

Winnipeg, March 1.—Following are the dates set for the big hockey games in Winnipeg:

March 2 and 4, Saskatoon vs. Port Arthur (Stanley Cup.)

March 5th and 7th, Victorias vs. Calgary (Allan Cup.)

March 11, Victorias or Calgary vs. Eatons of Toronto (Allan Cup.)

LOCAL MAN IS AFTER C.W.A. MEET

F. R. J. McPherson Interviewed The Executive at Toronto

Mr. F. R. J. McPherson went to Toronto yesterday. The Star has the following to say about his interviewing the executive of the Canadian Wheelman's Association:

F. R. J. McPherson, of Peterborough, is interviewing the executive of the C.W.A. with a view of obtaining the Provincial bicycle meet for Peterborough this summer.

Mr. McPherson is expected home to-night when he will be able to state the prospects.

There was a meet held in this city about ten years ago.

LETTERS TO THE EDITOR

The Review does not hold itself responsible for opinions expressed by its correspondents

THE REAL VAGRANTS.

To the Editor of the Review.

Sir,—I would suggest that the people who purchase the contraband fish are not vagrants. Neither are the auto-bandits who hold up travellers and railway trains. The loan sharks, exploiters and fakirs are not vagrants, neither are those who mine the public using the mails so cunningly. The bucket shop keepers and the real estate gamblers are not vagrants.

Yours truly,
M. E. GRANT.

P.S.—(Please give the denunciations of bonusing recently at Board of Trade meeting in Toronto.

ANNUAL MEETING TENTH BRIGADE

The annual meeting of the Tenth Brigade, Canadian Field Artillery, took place at the Armories this morning. The business was principally of a routine nature, and had reference to the annual training which will start at Petawawa on June 22nd. The batteries composing the Brigade are the 2ith of Peterborough and the 14th of Cobourg.

The officers present were Lieut.-Col. N. F. MacNachtan C.V.O.C.O and Majors Young, Rolston and Mulholland. Captain Ackerman and a number of other officers were also present.

22 MILLS THE RATE

No Discount to be Allowed on Taxes for This Year.

The City's Finance Committee met last night to draft the estimates and fix the rate for the current year.

There were present Mayor Bradburn, chairman; Ald. Anderson, and Aldermen Buller, W. J. Johnston and Geo. Duncan.

For the past week or ten days the chairmen of the several committees have been busy as bees, preparing estimates of the amounts they will require to run their departments, all actuated with the lively desire to keep their demands down to the lowest possible notch. These demands were presented to the Finance Committee last night, with the result that with a little subtraction and addition here and there, the rate for 1912 was struck at 22 mills on the dollar, the same as last year.

The demand for $12,000 for the Fire Department is the same as last year, despite an increase for salaries.

The Engineer's estimate of $26,500 for streets and bridges has been pared down by Chairman Ald. Buller to $19,000, which amount includes $1,000 for maintenance of Ald. Buller's "White Elephant," the south city pumping station.

At the suggestion of Mayor Bradburn no discount will be allowed on taxes this year, no matter when paid. This will effect an estimate saving of $3,400 in loss of taxes to the city's treasury by reason of the discount heretofore given to encourage an early settlement of same. It is argued that citizens will not actually suffer any loss by this change in policy as the discount given in past years had to be provided for by the ratepayers, indirectly. For instance, abandonment of the discount principle this year has gone a long way towards enabling the committee to strike the rate for 1912 at 22 mills instead of increasing it by half a mill or more, as was expected.

Taxes are to be paid in two equal instalments—one on August 1st, the second on November 15th, as last year. But five per cent will be added to all taxes unpaid when due, with no option of a discount.

The Peterborough Industrial Exhibition people will get an increase to their annual grant of $100.

All the foregoing will be recommended to Council Monday night, and will most likely be endorsed without amendment.

GRANTS.

Moved by Ald. Buller, seconded by Ald. Johnston,—That the usual grant of $50 be made to the Children's Hospital, Toronto.—Carried.

Moved by Ald. Johnson, seconded by Ald. Buller,—That the Salvation Army Band be given an increase of $50 in their annual grant—making a total of $200—on the usual conditions. Carried.

A RIGHT MOVE.

No action was taken on Mrs. C. Rose's application for remittance of license fee. The Mayor and Ald. Buller said they would rather contribute privately than establish a precedent of remitting licenses.

DISPUTED ACCOUNT.

The committee disputes the Registrars' fight to tax the city $10 a day for deputies appointed by them. The registrars for the last election were Judge Huycke, B. Morrow, Police Magistrate Dumble and Dr Sherry, and it appears that the account rendered the city for this work prior to the Provincial elections includes the services of deputies appointed by each of the three first-named gentlemen on four days, of which they were severally absent at a fee of $10 a day— a total overcharge, according to the committee's views of $120 in all. That it to say during the sittings of the Registration Courts each of the Registrars named were absent four days, each appointed a deputy to act in his stead. And the Registrars have charged the city $10 a day for 12 days on which they did not personally act, together with $10 a day for 12 days, on which their deputies actually did the work.

The committee contended that the city is only entitled to pay for the work actually done, and on motion of Ald. Johnston, seconded by Ald. Buller, no further action will be taken on Judge Huycke's demand for a settlement of the account for Registration services in full as rendered. But the Council will tender through their Solicitor the amount they contend they are justified in paying, ignoring the considered overcharge of $120.

WHAT DID IT COST.

Unless intelligible data is to hand, Mr. Chipman and his engineers will be asked to report what the construction of the Romaine street sewer and drainage work has cost the city, as compared with what the expenditure would have been had Mr. Conroy carried out his contract.

SOME SAVING

Police Magistrate Dumble will be requested to name Medical Health Officer Dr. McPherson, one of the examining physicians, when it is found necessary to examine patients as to their mental condition. Dr. McPherson will be notified that he is to consider this one of his official duties.

LOCAL NEWS ITEMS

The Queen's Alumni dinner will be held to-night in Coleman's Lunch parlors at eight o'clock. Principal Gordon of Queen's University will deliver an address.

GAVE LECTURE AT THE S. A. TEMPLE

Father of Mrs. Merett Has Had Eventful Life

Last evening a good crowd heard Sergt.-Major Andrews, of the Salvation Army corps of London, Ont., tell his life story. He was born in Nottingham, Eng., and went to the same church and school as General Booth head of the Salvation Army. He related several incidents in his life before he met the Army. He was in the Fenian Raid in 1865 and in the 50th Rifles. The address was thoroughly enjoyed. The band rendered two selections. Mr. Andrews is the father of Mrs. Ensign Merrett, of the local corps.

BLACKSMITHS HAD DINNER

New Scale of Prices Now In Force

The blacksmiths of the city took a half holiday yesterday afternoon. It was the last day for the old prices, the higher scale for shoeing and jobbing going into effect to-day. The agreement was among the "smiths" of Peterborough, Millbrook, Lakefield and all the surrounding villages. A convention was held in the Labor Hall yesterday afternoon at which a formal announcement of the proposed new prices, was made.

In the evening the Munro House dining hall was the scene of a banquet for the blacksmiths.

The helpers are also looking for more money and expect that some change will be made about April 1st.

PRESENTATION BY OFFICE STAFF

To W. E. Thornton Who is Promoted to Perth

The office staff of the Dominion Express Company, gathered at the office last evening to say farewell to Mr. W. E. Thornton, who left on the C.P.R. midnight for Perth, Ont., where he has received an appointment as agent for the company. On behalf of the staff, Mr. A. G. Carruthers, the local agent, presented Mr. Thornton with a solid leather club bag. In the course of his remarks he referred to Mr. Thornton's splendid service in the local office, having been here for seven years. He was now receiving his reward.

Mr. Thornton made a suitable reply.

Mrs. Thornton left on the C.P.R. noon train yesterday for Perth.

ST. LUKE'S Y.P.A. ELECT OFFICERS

Lecture on John Greenleaf Whittier To-night by Rector

The St. Luke's Y.P.A. held their annual meeting yesterday, when they elected the following officers—

Hon Pres.—Mrs. E. A. Peck,
Hon. Vice-Pres.—Mrs. Phillips.
President—Mrs. S. Gaskins.
1st. Vice-Pres.—Mrs. F. J. Sawers,
2nd. Vice-Pres.—Mrs. T. Moore.
Corresponding Sec.—Mrs. J. Butcher
Recording Sec.—Mrs. J. J. Turner, jr.
Treasurer—Mrs. J. W. Dickey.
Dorcas Sec.—Mrs. F. J. Jamieson.
Superintendent of Junior Auxiliary—Miss L. Stewart.
Babies' Branch—Mrs. J. R. Scott.
Organist—Mrs. T. Moore.

Delegates to Annual Meeting — Mrs. Sawers Mrs. J. Butcher. Substitutes—Mrs. H. Butcher, Mrs. T. Moore.

St. Luke's A.Y.P.A. will meet to-night at eight o'clock, when the rector will give his lecture on "John Greenleaf Whittier, the Quaker Poet. Miss Ruby Quartermaine will sing. This will be an open meeting and all who wish to attend are invited to do so.

MILD CASE OF KIDNAPPING

County Constable Cochrane Investigates Case at Dummer

County Constable Cochrane was in Dummer yesterday looking into a case of household disagreement. It appears that two people, brother and sister, went to the home of the latter's husband, when he was away, taking a two year old child from the house, the two intending to leave for the west.

The husband objected to this proceeding and unless the child is returned at once to the husband, county court proceedings will likely follow. The brother and sister are at Stoney Lake just at present.

Coal Strike In U. S.?

New York, March 1.—The representatives of the anthracite coal miners, who have been here for several days formulating their demands for higher wages, have concluded their deliberations for the present. They will return to meet the operators at a conference in this city on March 13.

As to the chances for a strike, the miners' leaders are non-committal.

"We are not looking for a strike," declared Mr. White before leaving New York, "but will insist on our demands."

There are 700,000 coal mine workers in this country, and according to the last official returns 350,000 of them are in the union.

Louis Regan, aged 45, was found badly frozen by a train crew near Cobalt. He will lose his feet.

Coal Results
¶ We sell the very best quality of hard coal, as good as we know how to buy.
¶ Are you getting results from the coal you are now using? Are you sure it is good? Are you burning it the right way?
¶ There is a deal of difference in how you handle the range or furnace. Our long experience tells us that fact, and we are ready to advise any in doubt as to the best way to make use of coal as fuel.

4.28 p.m. for Toronto, Hamilton, Guelph, Woodstock, London, Chatham, Detroit, Chicago; also Fort William, Winnipeg and all points in Canadian Northwest.

NORTH MONAGHAN COUNCIL MEETING

County Committee Rooms, Peterborough, Feb. 24.

The Reeve and Councillors, Alay Forster and Robson present.

Mr. John McBride, of Millbrook came before the Council with a proposition for them to buy a snow plough for clearing the deep snow off the roads after the severe winter storms.

Mr. McBride has a superior kind of a snow plough which makes travelling possible after such storms as we have had this winter, by using the plough on the drifted roads opening them up so that a horse and cart can trot right along as if it were a race track.

The only other method of getting through the country after these storms is to take a flying machine However, the Council decided to see Mr. McBride's snow plough work before expressing themselves regarding the purchase of one of these machines.

Mr. Lillico was appointed road Commissioner in Mr. Robt. Fowler's place, he having resigned owing to lack of time to attend to such duty.

On motion of Messrs. Forster and Robson, the collector's roll was accepted as completed and the collector's salary was ordered to be paid.

The declarations of Mr. John McIntosh and Alex. Laing for refund of dog tax 1911 was received by the Council, and granted, and in the future the Council only intends to refund such amounts as are applied for only at the Court of Revision. After that time no refunds will be made.

CASTORIA
For Infants and Children.
The Kind You Have Always Bought
Bears the Signature of Chas. H. Fletcher.

School Reception

Seldom in the Central school auditorium, which in time past has been the scene of many pleasant social gatherings, has a more picturesque or pleasing entertainment been given than the at home last evening, to which the principal, staff and students of the high school had bidden their many friends.

Festoonings of red, white and blue bunting and pennants of sister schools and colleges lent the hall a most attractive appearance, which was increased by clusters of golden daffodils.

The guests, who thronged the reception room from eight to eleven, were received by Principal and Mrs. Hodgson and Mr. and Mrs. Dobson. Mrs. Hodgson was daintily gowned in white messaline with lace accessories and black will plumed hat.—Lethbridge Herald.

Custom Returns

A comparison of the customs returns for the month of February, 1911, and 1912, shows an increase this year of $400.05. The following are the figures:—

Feb., 1912—$33,765.12.
Feb., 1911—$33,365.07.
Increase—$400.05.

THE SEASON'S SHOWING OF NEW ONE-PIECE DRESSES

CANADA SHOULD DEVELOP NOBLEST TYPE OF MAN

Principal Gandier Discusses Missions and the Outlook of the Church.

Montreal, March 1.—The pulse of great world movements, the stir of immense new forces, the strange forces at work, and the upheavals in pagan lands, the sense of an ultimate crisis impending in the history of the Church of Jesus Christ, were all convincingly and eloquently displayed in a great speech delivered by the Rev. Dr. Alfred Gandier, principal of Knox College, before the annual reports meeting in the large hall of the Young Men's Christian Association, under the joint auspices of the Presbytery's Committee on Systematic Giving and the Laymen's Missionary Movement.

The Rev. Dr. Gandier, at the outset, said that in such world missionary movement three things had to be made clear, the mission, the method, and the motive of Christians.

"What is the mission of Canadian Christians?" asked the speaker, and first considered the heritage of Canadians. The place occupied by them is the result of the opening up of this land by their English-speaking forefathers, who were godly, hardy men and women, who laid the foundations of our society on the Bible, the Church and the school. Amidst the struggles and poverty of the early years they founded schools, colleges, universities and benevolent institutions of all kinds that are the pride, the opportunity and the challenge of the present generations. 'As Canadians we are in line with the highest civilization yet developed upon earth. It is connected with all that is best and noble in British history and administration, and affords us a new country in which to work out our destiny.'

AN ADVANTAGE

The speaker referred to the unspeakable advantage Canada had of having a nation to the south who for fifty years had been wrestling with the same problems that now confront Canada, presenting this country with a record of their experiences, so that their mistakes might be avoided.

"We should develop a nobler type of national and individual life than this world has ever known. The Almighty I believe, will want to know the reason why, if we do not do so. To him to whom much is given from him also will much be required.'

'What is required? There is before us a task overwhelming in magnitude and difficulty with the men of all nation pouring into Canada, filling our cities and peopling our plains. We must teach to them the pure Christian faith, and an intelligent self-control, and those home virtues which are our choicest heritage must be imparted to them. The French-Canadian problem is immediate and insistent, and its urgency is only equalled by its difficulty. Then there is the foreign problem confronting us with many of the social abominations of paganism, the festering sores of old-world Ghettos. We have to show the better ways."

"Then there is the emigration from Southern and Eastern Europe, where with too many the Church of Jesus Christ very often has been associated with an irresponsible autocracy. Many are coming to Canada because they have reacted from priestly domination, and come here to escape the tyranny of the Church and the priest. We must get near them in the spirit of Christ while they are still strangers and fighting their first battles. We must show them that the religion of Jesus Christ is larger and better than what they have known if they are not to be an alien and disintegrating element in our civilization.

AMERICAN INVASION.

"Then there is the American invasion to be considered. These immigrants coming at the rate of 100,000 a year from the West are in many respects the finest we are receiving. They have money and knowledge; they have horses and cattle, and they know how to make money, and probably they are going to be the dominating element; but what about their moral and religious character? Fifty years ago when their fathers pioneered the Eastern States, the churches failed to follow them up, and there grew up a generation of men and women keen on making money, but churchless, Sabbathless and godless, and not only did they suffer, but the churches of Canada are suffering to-day because the churches of the United States failed fifty years ago. We have among these Westerners a clever, enterprising and keen-witted people who have inherited no reverence for the Church, no regard for the Lord's day, and have no special sensitiveness to religion." The speaker then quoted from a letter received from a Western pastor in which he denied the superiority of the American settlers, saying they were the worst as their morals were of the lowest and that they had no respect for anything sacred, and for nothing but the almighty dollar.

The ideas of immigrants to-day are not those of the early settlers in Eastern Canada, said the speaker. When our forefathers came out from the old lands they did not come to make money—for there was none to be made. They came out to make home, and they were, therefore, interested in the school and in the Church, and everything that made for the higher life in the community. But the English-speaking population who go out West to-day, whether from Britain or the Eastern provinces, do not, the majority of them, go to make homes; they go to make money, and even those who go on the land in many cases do not want to settle, but only want to make enough money to enable them to spend the rest of their days in the city, where they can indulge in real estate speculation.

STRONG MEN WANTED.

If ever there was a time when this land called for the leadership of strong, unworldly men who have a firm hold upon the things that are unseen and eternal, who cannot be ceived by the glitter and glare of things material, it is to-day, when the rapid growth of population and great development and increase of wealth are exhilarating people to the verge of intoxication, declared the speaker. It was not only the destinies of this land that had to be moulded by the men needed, for Christianity had to stand or go down before paganism in the lands of the West, where there were signs of unrest and revolution in thought and custom.

The speaker did not believe that any people had ever been given so large a share in world movements, a share so disproportionate to its actual importance and population as had Canada. After sketching in the millions of the heathen world to be redeemed he pointed to the wall where a banner bore the legend, 'Our share: Honan, eight millions; South China, one million; Formosa, one million; Corea, one million; Central India, three millions; total, 14 millions,' to be evangelized by Canadian Presbyterians.

"The world to-day is one great living organism, of which the electric cables are the nerves, so that the throbbing of the heart of the Christian nations can be felt to the uttermost parts of the earth, and if you have famine, plague or rebellion in Africa, Indian, or China, it is felt in every centre of Christendom to-day. For weal or woe, the world is one to-day.

"The churches of Christendom are face to face with their ultimate problem. Have we awakened to that fact? Christianity must conquer or go down before the combined onslaught of paganism and Mammon worship

'There are strange portentous movements in all lands to-day. The upheavals, the fermendations that there are whether you think of the Turkish Empire or the British, India with its restless multi-millions reaching out for freedom of life and the fuller self realization they know not where to find; China the oldest of monarchies, the most conservative of peoples, proud of its ancient civilization and its ancient scholars, suddenly turning its back upon the past, allowing its examination halls to crumble into dust, its Confusian sages to starve, overthrowing its monarchy and accepting the latest that there is in religion, education and government, the Coreans humiliated and tramped upon, turning in their day of national calamity to the gospel of Christ, and the new-born energy of Japan finding an outlet in its national ambitions.

'The old order is overthrown apparently. Great creative forces seem to be at work. The future is in the making.'

The speaker then referred to the great missionary movements of world-wide scope that had arisen as a result of an awakening Christendom responding to the call of the awakening heathendom, and said that the Presbyterians were placed at the heart of these great movements.

WORTH WHILE

Speaking about the method of work the Rev. Dr. Gandier said that men must be convinced that the enterprise was worth while, that while money was needed it must not be believed to the primary thing, and that the people as a whole must be made to realize their individual and corporate responsibility in regard to the task. The million budget scheme of the Presbyterian Church was the embodiment of the principle that the whole church was responsible for the whole work of the Church, and that every congregation and individual must have a complete share in the work for which the church stood.

Men was the first great need the best and most effective men they had. It remained for the others to give the money. The money represented time and energy they had spent in work. In other words that time and energy had been missionary effort.

'Jesus has come by the way of Gethsemane and Calvary to rest in my heart, and by the same road of self-sacrifice and devotion he must come to every heart.'"

Cook's Cotton Root Compound.
The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (formerly Windsor)

New Homesteads

Over 25,000 homesteads will be thrown open along the line of the Grand Trunk Pacific Railway west of Edmonton this year.

Of this number 15,000 are in the Grande Prairie section north of Edmonton, the first portion of the famous Peace River county. A branch running south west from Biggar now under construction will open up a number of choice homesteads and this section will probably be filled up very quickly.

Progress on Tariff Bill.

Ottawa, March 1.—Hon. Mr. White's bill for the appointment of a tariff commission was again taken up last night in committee of the whole House. The Minister of Finance added an amendment that the commission should report to Parliament within 15 days after the opening of the session, or within 15 days of the making of the report, should the House be then in session. With this amendment the bill was adopted, and now stands for third reading.

After the 6 o'clock recess Mr. White introduced an amendment to the tariff bill whereby the information gathered by the commission shall be laid on the table of the House; that is, that it shall report to Parliament instead of to the Finance Minister, and that the information will be available to the entire House. The Opposition agreed to the amendment and it was carried without discussion.

Cannibals In Portuguese Africa.

New York, March 1.—A Lisbon cable says: Serious revolt, marked by atrocities of cannibals, has started in Portuguese Guinea, Africa, and the Government yesterday rushed a transport with troops to the scene.

The bodies of four Portuguese soldiers, who were killed in fighting, were eaten by cannibals at a feast.

The natives attacked a European settlement, driving off the defenders and carrying men, women and children into the jungle. It is feared that most of them have been put to death, and perhaps devoured by the barbarous tribesmen.

Rev. Mr. Richeson's Mind Going.

Boston, March 1.—Clarence V. T. Richeson, the condemned murderer, is rapidly becoming but a shadow of his former self, according to the officers of the Charles street jail. The guards are convinced that he is losing his mind and are beginning to doubt if he will live to see the electric chair.

In a marriage, unless both sides do fairly well there will be trouble.

PILES CURED IN 6 TO 14 DAYS
Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind Bleeding or Protruding Piles in 6 to 14 days. 50c.

OPPOSITION TO STREET PAVING AT BOARD OF TRADE

Meeting Was in Favor of the Garbage By-law — Hotel Accommodation Also Discussed

Owing to the question slated for discussion being slightly premature, the Board of Trade meeting held last evening in the City Council Chamber did not consume as much time as usual. The gathering, however, was extremely profitable and several motions which were out through indicated the feeling of the members on the respective subjects.

President Vincent Eastwood was unavoidably absent and his place was taken by Ald. Gillespie.

Among those in attendance were:— J. C. Shook, R. Ruddy, G. C. Wainwright, C. H. Pennefather, W. R. Morris, J. H. Munro, W. H. Pretty, J. John, F. H. Dobbin, J. Rothwell, Canon Davidson, Ald. Gordon, George Sherry.

The chairman mentioned subjects for discussion. Several by-laws would be brought before the Council presently. These included the question of street paving, and the removal of garbage. Several of the rate payers spoke on the matter of paving, pointing out the contingent expense involved. It would be a benefit to the city if the cost was not too excessive. Not having the terms of the by-law before them no adequate idea could be given of this cost. Mr. J. C. Shook and R. B. Rogers each spoke briefly, but expressed a desire for further information.

The chairman said he saw little to be gained by discussing the by-law ahead of its submission to the Council.

Mr. Pennefather was asked for his opinion. He stated that he had often wondered why other places could afford paved streets while Peterborough was lacking in that respect. This he thought was necessary in a city the size of Peterborough.

STREET RAILWAY.

Mr. J. H. Munro, manager of the Peterborough street railway ventured a few words. "As far as the street railways goes," said Mr. Munro, "we were advising the Council that we had seriously considered the question and were rather in favor of it. I have submitted estimates of the cost of double tracking the streets which would be paved. The matter is being rushed through in order that a decision may be handed into the Council and that they might take some action.

SEWAGE FIRST.

G. C. Wainwright was called upon next. He considered that Peterborough was blessed with a fairly good roadway at the present time. Before the question of street paving was gone into, the matter of sewage connection would have to be considered. The present drainage was not sufficient for present needs. "For my part I think it nonsense about talking of paving George street. The removal of poles would have to be effected also." Mr. Wainwright put himself on record as opposed to the idea just at present.

Ald. Gillespie—"The Council are looking into this matter. I am a little sorry, however, that Mr. Wainwright is not in favor of it, seeing that the other bank manager present is. It would make it easier to finance."

On motion the discussion was postponed until a later meeting.

GARBAGE DISPOSAAL.

Chairman Gillespie—"The next question is the one referring to garbage disposal. Mr. Ruddy will you open a discussion on this matter."

Mr. Ruddy—"I came here to-night chiefly for information. I have often wondered, however, why there is not some provision made in Peterborough for garbage removal."

J. C. Shook—"I feel rather strongly about the garbage by-law. I feel that it should have been dealt with by the Council, without referring it to the people. I think if there is anyone thing the city urgently requires it is an adequate system of garbage collection."

"Every householder has felt its need; and I think that this Board should endorse the action of the Council in taking the matter up. I hope they will deal with it as a permanent necessity for Peterborough, and that they will deal quickly in securing a permanent system."

Canon Davidson endorsed the views of Mr. Shook.

SOME WISE ONES.

John Rothwell—"I don't think that any sane man in the city would be opposed to a good garbage system by-law. To my mind it is simply a matter of conferring with other towns and cities and getting a plan of their systems. I think the Council would act wisely, and I think that there are some wise ones among them, who will select the best system possible and thereby improve conditions in Peterborough."

The Board on motion put through a recommendation favoring the adoption of an up to date garbage system for Peterborough as soon as possible.

HOTEL ACCOMMODATION.

Chairman Gillespie — "The next question, and quite a large one, is that of more hotel accommodation for Peterborough. I would like to hear what Mr. Sherry has to say on the matter.

Mr. Sherry stated that he did not feel competent to speak familiarly on the situation. "I may say, however," he continued, "that Peterborough assumes to be a city of progress, and it is the hope of the city that it will continue to be progressive. Owing to the city's geographical position the tourist traffic is bound to increase in time. There are many things which can encourage this traffic. One of these is more hotel accommodation. I don't know how the citizens feel on the matter of sufficient hotel accommodation. When the Trent Canal is completed it will undoubtedly mean more tourist traffic. It seems to me that anticipating the completion of this work, there is a work to be done by the Board of Trade in making preparations for the encouragement of this traffic, at as early a date as possible."

Chairman Gillespie — "Have you anything to say, Mr. Wainwright?"

Mr. Wainwright — "No, I have nothing to say. I don't know anything about hotels."

Mr. Dobbin—"It seems to me that there can't much be said on the question until after the local option campaign."

Mr. Sherry—"If the interests of the people require more hotel accommodation, then the question of local option should not interfere. If more accommodation is necessary, let us go at it, local option or no local option."

Mr. Shook—"So far as accommodation is concerned the report which was given by the Chief of the Fire Brigade some time ago, gave the city 375 rooms in all hotels combined, for the convenience of the transient public. We have too many licensed houses and not enough hotels."

Ald. Gordon and Mr. Rothwell each expressed their views on the question.

No definite action was taken on the matter.

DO NOT FROWN

When Glasses are removed, you frequently notice a frown or troubled look. Such eyes are under a strain which the Glasses remove. Suitable Glasses replace many a frown by a pleased, restful expression.

"BETTER WEAR GLASSES THAN FROWN."

$7,000 NEEDED FOR POLICE FORCE SALARIES THIS YEAR

Department Will Cost the City $8,175 — New Uniforms.

At a meeting of the Police Commissioners yesterday afternoon Police Magistrate Dumble moved, seconded by Mayor Bradburn,—That all fees usually charged to the Government and payable to the constables in the employment of the city, after the first of January next, shall be turned over by the police to the city, this resolution not to embrace fees earned at coroners' inquests.—Carried.

Mayor Bradburn moved, seconded by Magistrate Dumble,—That the following estimates of the expenditure for this year be adopted:

Salaries...	$7,000
Clothing and equipment...	700
Rent of telephones...	100
Printing and stationery...	75
Telephoning and telegraphing...	30
Postage...	20
Incidentals	250
Total...	$8,175

—Carried.

Mayor Bradburn moved, seconded by Magistrate Dumble,—That the Chief Constable be authorized to procure the usual Spring uniforms for the police force from Merrill & Meredith, at the former price.—Carried.

SERIOUSLY INJURED THROUGH ACCIDENTAL DISCHARGE OF GUN

A man named Dominico White, whose mother is the sister of Nicholas Minicola, the Hunter street fruit dealer, was the victim of a very painful and dangerous accident yesterday. It appears that yesterday afternoon about 3.30 three young men, including White, left Lakefield and proceeded a few miles down the river on a shooting expedition. The unfortunate man was walking a few feet ahead of the others when one of them stumbled and accidentally discharged his weapon, the contents of which tore a gaping wound in the back of his leg, just at the knee.

Belleghem's ambulance was called for and brought the injured man to St. Joseph's Hospital this morning about ten o'clock.

Dr. McNulty is attending to the injuries and states that Mr. White is in a very low and dangerous condition as a result of the great loss of blood sustained.

Vital Statistics

The vital statistics for the month just closed and for February, 1911, are as follows:

	Births	Deaths	Marriages
Feb., 1911...	27	21	24
Feb., 1912...	34	20	13

Milkmen Must Not Refill Them Till Cleaned

A letter from Ald. Gordon was read to the Property Committee last evening referring to instances which had come under his observation of milkmen filling empty bottles on the street before they had been cleansed. He asked that this dirty practice should be stopped, and that a clause be inserted in the milk by-law compelling milkmen to take all bottles home and sterilize them thoroughly before refilling.

The suggestion was adopted. Henceforth any milkmen discovered violating this new clause in the by-law will be liable to a penalty.

Another Great Saturday Sale of Axminster and Wilton Carpet Samples at Robert Fair & Co's, Limited. See south show window to-night.

COMMENCEMENT EXERCISES TO BE HELD, TO-NIGHT

The annual commencement exercises of the Peterborough Collegiate Institute will be held this evening at 8 o'clock in the assembly hall of the assembly hall of the Institute. An enjoyable program will be furnished and the prizes will be presented to the athletes who carried off the honors on the annual Field Day of the P.C.I.

Everybody interested in the welfare of the scholars at the local Collegiate should be present, and all are invited to attend.

Band at Street Railway Rink to-night

WHO'S COMING AND GOING

Mr. W. W. Boyd, of Bobcaygeon, was in the city to-dayy.

Mr. and Mrs. Chas. Hall, of Lindsay, are spending the day in this city.

Messrs. R. B. McGill, E. Butler and W. J. OBrien were in Lindsay on business yesterday.

Mr. Laird F. Robertson, of Campbellford, is transacting business in Peterborough to-day.

Major J. H. Rolston, of Port Hope, was in town to-day attending the annual meeting of the 10th brigade.

Mr. Braden, of Lakefield, was in the city on business to-day and paid the Review a call.

Miss Nellie Preston, accompanied by Miss Eva Preston, has returned to her home at Selwyn, after spending a few days with her aunt, Mrs. Preston, 295 McDonnel street.

Mr. R. J. Tobb received a telegram this morning notifying him that his brother in Toronto was critically ill, but was advised this afternoon that the patient was some better.

Mr. and Mrs. Sydney Preston and family, of Balmoral, Manitoba, left for their home on Tuesday afternoon, after an extended visit with the former's mother, Mrs. John Preston, Selwyn.

You, Mr. Clothing Buyer

DEAR SIR,—In the battle of life, appearances counts. It pays to dress well. Dressing well is exceedingly easy when you have the right kind of clothes to select from.

We assure you that at this store, you will see the right clothes. If you will come to see them, we shall take genuine pleasure in showing them to you, and should you want to buy, we can surely please you.

Our Spring and Summer gathering unites the latest and the greatest—the latest styles and the greatest values. It's an exposition of style that will delight the eye of any man who will come to see.

To show these new goods is our greatest pleasure, for we know when a man is shown something that he likes at a price he wants to pay, he is sure to remember where to go for it when he gets ready to buy.

You can learn more about the Clothes we sell in a few minutes spent looking them over and trying them on, than we could ever tell you. So we urge you to come and see them, try them on and see how you look in them.

We would very much like to sell you your Clothing and Furnishings this Spring. We are confident that if you call and inspect our offerings you will make up your mind that this is the store that gives the most for the least money—the most in style, the most in quality and the most in lasting satisfaction.

It pays to investigate. Are you going to? We hope so.

THE DAILY REVIEW

BURN Occo SCRANTON COAL

VOL. LXIV., No. 53 PETERBOROUGH, ONT., CANADA, SATURDAY, MARCH 2, 1912 TEN CENTS PER WEEK.

GANG OF BANK ROBBERS SURPRISED; ONE IS KILLED

MILITANT SUFFRAGETTES ARE SENTENCED TO JAIL FOR TWO MONTHS

VICTIM OF SHOOTING ACCIDENT SUCCUMBS TO HIS INJURIES

ROBBER KILLED

Received Bullet From the Chief of Vigilance Committee.

Gang of Five Were Surprised in the Hour of Their Victory.

Special to The Review.

Montreal, Que., March 2. — One of the five burglars who attempted to loot the branch of the Royal Bank of Montreal, west, early this morning, was shot dead in a running fight with a number of citizens, who surprised the men before they were able to secure any money. The other four made their escape.

The man who was killed was shot by J. J Kirkpatrick, Chief of the town's Vigilance Committee, in a stand up revolver fight, after one of the robbers had put a bullet through the coat of Kirkpatrick's son. The alarm was given by a C. P. R. watchman who heard the grinding of a drill on the bank's safe. The battle, while it lasted, was fierce, a perfect fusilade of shots being fired by both sides. The dead robber hasn't been identified.

ARE STILL IN THE HOSPITAL

Victims of Street Car Accident May Never Recover

Woman is Paralyzed and Man's Mind is Blank

Toronto, March 2.—Although it is over two months and a week since the great street car catastrophe on Christmas eve at the corner of King and St. Lawrence streets, two of the victims are sill at the General Hospital, and their condition shows no signs of improvement. They are Frances Brayne, formerly of the staff of the Alexandra Industrial School, and Mr. Robert Hall, 726 Gerrard street.

Mrs. Brayne suffered a compound fracture of both arms, and after the broken limbs were set she seemed to be improving. When the splints were removed, Mrs. Brayne had completely lost control of her arms, and to-day she is helpless. Mrs. Brayne's arms seem to be paralyzed.

Mr. Robert Hall, the most seriously injured of the victims who survived, suffered from a bad fracture of the skull. For weeks he remained in an unconscious or semi-conscious state, and for a time no hope was held for his recovery. His healthy body recovered from the shock, and to-day he is strong and well again, except for his mind, which is a blank since the accident. He remembers nothing of the accident.

SUICIDED TO MUSIC

Louisville, Ky., March 2 — Bidding his daughter go into an adjoining room and play a merry tune on the piano, George Frerman handed his wife an envelope, and then in her presence, while strains of ragtime music flowed through the house, he calmly produced a revolver from his pocket, placed the muzzle against his temple and blew out his brains. The envelope, Mrs Frermann discovered on opening it, contained a life insurance policy in her favor.

London Methodists for Union.

London, March 2.—The vote on church union by Methodist official boards in London—and the majority have ballotted—is strongly in favor of the proposals. Judging by the figures so far, it will somewhat exceed the estimate of "five to one in favor," made in Toronto a few days ago on the strength of the results then reported to the offices of the Presbyterian and Methodist churches.

WILL BREAK LAWS TILL THEY ARE GIVEN POWER TO MAKE THEM

Declares Leader of the Suffragists Who With Two Others Was Sentenced to Two Months Imprisonment

Special to the Review.

London, March 2.—Mrs. Pankhurst, Mrs. Mabel Tukes, and Mrs. Emma Marshall were to-day sentenced to two months' imprisonment for their part in the suffragettes' window smashing demonstration yesterday. Mrs. Pankhurst declared on the stand that the suffragists would continue to break the laws until they were given power to make them. Nearly all the hundred odd prisoners pleaded guilty.

About thirty of the women were sentenced to terms of imprisonment, varying from a fortnight to two months, and others sent for trial at sessions.

OUT OF PRISON TO CLAIM FORTUNE

San Quentin, Cal., March 2 — William Meyers laid aside his prison stripes here, to step out of the penitentiary gate with a parole in his pocket, free to return to Germany and claim a $75,000 estate.

His five-year term for forging a check for $23 would have expired next December, but the prison directors were moved to grant a parole by his excellent conduct as a prisoner, and the fact that the estate will revert to others if not soon claimed.

BILL IS INTRODUCED IN LEGISLATURE TO CHECK EVILS OF THE WHITE PLAGUE

Measure Promises to be Strong Factor in Combatting Tuberculosis.

Toronto, March 2.—The introduction of a bill to prevent the spread of pulmonary and other forms of tuberculosis was the most important item in the legislative proceedings yesterday afternoon. Dr. J. McQueen, member for North Wentworth, introduced the bill, which promises to be one of the most efficient means yet attempted to stop the ravages of the white plague. In the clauses of the bill are included many important features. Compulsory notification of tuberculosis is one of these. The attending physician must notify the local medical health officer of the district when he discovers a case, and the hospital superintendent must do the same.

On the request of the attending physician a bacteriological examination will be made by the Provincial Health Department, and the local medical health officer must record and report cases of tuberculosis to the Provincial Board of Health.

In order to ascertain as far as possible in what sections of the country the disease is most prevalent, the place of location of each patient will be recorded on a map, and the secretary of the Provincial Board of Health will investigate each case after he has been notified. Information given by patients, or their friends, relatives, etc., to the local M.H.O., or to the Provincial Board, must be treated confidentially. A fine of $5 to $20 will be imposed for a breach of this regulation.

Several other important stipulations follow. These include the isolation of infected persons — the local M.H.O. making provision for isolation and nursing conveniences, and the cost being charged to the patient, or relatives, or in cases of poverty, to the municipality. In unorganized districts where there is no local board, cases come under the Provincial Board. After death, or in case the patient is removed, the premises must be disinfected, and notice of any change of residence on the part of patients must be sent to the Provincial Board of Health, by themselves or their friends. In cases of infringement of the regulations a fine of from $5 to $20 will be imposed, and previous convictions do not relieve persons of the responsibility, if more than a month has elapsed.

E. A. Peck of West Peterboro, on the advice of Hon. W. J. Hanna, withdrew his bill asking for an amendment of the local improvement section of the municipal act. Mr. Peck wanted it arranged that the tax for street watering should be levied on the property assessment value rather than on the frontage, as is done at present.

The Provincial Secretary said the present bill had been drafted after the points advanced by Mr. Peck had been considered.

A. M. Rankin (Frontenac) lost no time after the close of the good roads convention to introduce a bill to regulate the width of the tires on wagon wheels that are liable to be allowed on roadways. During the convention one of the chief obstacles in the way of keeping country roads in proper shape was stated to be the narrow-rimmed wheel. Mr. Rankin wants his bill to abolish this grievance.

The report of the Minister of Education for 1911, which was presented to the Legislature yesterday, deals especially with the supply of teachers, agricultural training, and the cost of education. The average salary of male teachers throughout the province has advanced from $660 to $711, an increase of $51. The average salary of female teachers increased from $449 to $483, an increased of $34.

The agricultural courses in connection with high schools now number eighteen. Six were added in 1911, two in New Ontario.

The amount spent upon public and separate schools in 1901 was $9,348,220, an increase of about $1,200,000 over the previous year.

The Minister of Education announces that during 1912 the Departmental and matriculation examinations will all be held in June, so as to avoid the heat experienced by candidates last July.

Hon. Dudley Ward Coming.

London, March 2.—(C.A.P. Cable.) —Hon. Dudley Ward, recently Treasurer of the Royal Household and also Government whip, sailed for Canada yesterday.

Session to End at Easter.

Ottawa, March 2.—The present session of Parliament, it is practically certain, will conclude about Easter.

TORONTO TO HAVE BIG ARENA GARDENS

Toronto will soon be able to boast one of the first Arena Gardens in America. The extensive construction work on the combination skating rink and flower show building is now being rapidly pushed to a finish by the Arena Gardens of Toronto Limited. The Company is backed by a strong group of Montreal and Toronto capitalists, and the large amount of capital which they have had at their disposal has resulted in it being possible for them to carry through the enterprise on a scale that is sure to make the Arena Gardens one of the most attractive spots in Toronto.

For years past the necessity of such a building has been felt very keenly, just as much in winter in connection with the big hockey events as during the summer time for the horse shows, flower shows, food fairs, and other such entertainments.

The Arena Gardens Building is being erected on the block of land between Mutual, Shuter and Dalhousie streets, and is within five minutes of the centre of the city. Owing to the fact that ice at many periods of the winter is somewhat uncertain in Toronto, the Company has undertaken the instal ation of a hundred-ton artificial ice plant. This will not only maintain the skating ice during the winter, but will also manufacture 50 tons of ice per day for family consumption during the summer months. This ice plant will also make it possible to have, regardless of weather conditions, a cool building right through the summer season. The seating capacity will inculde two tiers of boxes of about fifty on each side and seats for over 6,000 spectators in pit form all around the arena. In this connection it should be pointed out that the seating capacity of the Montreal Arena, which has been the largest in existence in Canada up to the present time, is 4,000, so that the new Toronto building will be able to take care of even a capacity crowd at championship events.

The capitalization of the new Company comprises $250,000 of 7 per cent. preferred stock, $250,000 of common stock, and $300,000 of thirty-year 6 per cent. first mortgage sinking fund bonds.

Mr. Lawrence Solman, who has made such a success of Hanlon's Point and the Royal Alexandra Theatre in Toronto is managing director of the Arena Gardens.

Exhibition on Wheels.

Montreal, March 2.—A Canadian National Exhibition on Wheels is the method adopted by the Canadian Home Market Association of Montreal and Toronto to promote the "Made in Canada" idea in Western Canada. The exhibition will take the form of a special train, which will be operated over the lines of the Canadian Pacific Railway in the west from May 15 to July 1 next.

The train will make stops varying from one hour to 36 hours at about 100 different towns and cities west of the great lakes. The interior of the cars will be arranged so as to permit of the display of products made by Canadian artisans, attractively and compactly as possible.

It is planned to show products of about 100 representative Canadian industries.

BRITISH COAL INDUSTRY

The coal fields of Great Britain are the greatest source of its mining wealth.

Coal to the mount of 263,774,312 tons was produced in 1909, the value at the pit mouth being $351,374,500.

There are eighteen of these in England and Wales, six in Scotland, and six in Ireland.

The South Wales coal field is the chief source of anthracite coal for the British navy and mercantile marine.

The coal fields of Staffordshire, Warwickshire and the north of England are the seat of the great manufacturing and engineering industries.

From South Wales, Northumberland and Fifeshire coal is exported in vast quantities.

FLEW 155 MILES IN TWO HOURS

French Aviator Makes Fine Flights at Aerodome.

Pau, France, March 2.—Maurice Tabuteau, the French aviator, accomplished several fine flights in a monoplane at the aerodrome here yesterday.

The aviator flew 100 kilometres (62 miles) in 51 minutes 7 4-5 seconds, passing the 200 kilometres mark (124 miles) in 1.42.17, and covered 250 kilometres (155 miles) in 2 hours, 7 minutes and 54 seconds.

In the even two hours, he flew 234 kilometres, 431 metres.

Murderer Through Heredity.

Montreal March 2.—It was learned yesterday that the defence in the case of John Cummings, the Scotchman who shot his wife in the street last November, will be a plea of hereditary insanity.

Cummings has alrealy been examined by Dr. Burgess, the alienist in charge of the Protestant Asylum for the Insane at Verdun, and it is believed that the lawyers for the defence have decided to enter a plea of insanity on the strength of the conclusions he arrived at after examining the murderer.

SHOOTING ACCIDENT WAS FATAL

Young Italian Passed Away at St. Joseph's Hospital

Had Narrowly Escaped Death Short Time Ago

The unfortunate victim of the shooting accident that occurred near Lakefield on Thursday afternoon, succumbed to his injuries yesterday afternoon at 4 o'clock, in St. Joseph's Hospital. The young man was an Italian and has only come to this country two years ago. His name was Dominico Marchel Cono, though since his arrival in Canada he has been known as Dominico White, which name appeared in yesterday's issue in connection with the accident.

HIS SECOND ACCIDENT

It is a strange coincidence that recently the young man narrowly escaped being ground to pieces under a railway train. Young Cono was walking on the railway track, when he slipped falling in front of an engine, and was only rescued from certain death by the bystanders, who succeeded in getting him clear of the engine. The narrowness of the escape is shown by the fact that one of his little fingers was cut off.

DIDN'T WANT TO GO

It appears that Cono displayed quite a bit of reluctance in accompanying his friends shooting on Thursday, and only agreed to go with them after considerable coaxing.

The late Domenico Cono lived with his brother and sister in Lakefield. He was only 19 years of age, and the blow of his death has come as a severe shock to his relatives, some of whom are in the city for the funeral.

FUNERAL TO-MORROW

The funeral will take place from Lane and Eano's undertaking establishment, to-morrow afternoon at 3.30 o'clock, proceeding to St. Peter's Cathedral and from there to St. Peter's cemetery. Rev. Father McColl will conduct the funeral services

GREAT IRISH CANADIAN STATESMAN CALLED AWAY

GRAHAM'S MAJORITY

Ottawa, March 2.—The majority for Hon. Geo. P. Graham, in South Renfrew, has dropped to 223 according to official figures given out. It is likely that the ex-Minister of Railways will be allowed to take his seat without a protest.

DEFENCE LEAGUE TO HAVE OFFICE IN TORONTO

Majority of Canadian Provinces Represented at Convention.

Ottawa, March 2.—The first annual general meeting of the Canadian Defence League was held in the Senate committee-room yesterday and was attended by Senators, members of the Commons, military officers, educators, and other representing all the provinces except New Brunswick, Saskatchewan and Prince Edward Island.

Hon. P. Landry, Speaker of the Senate, presided over the greater part of the two sessions. The organizing committee reported progress to date and surrendered their trust, being succeeded by a strong official list. Lord Strathcona is patron; Speaker Landry heads the list of honorary presidents; Lieut.-Col. W. Hamilton was chosen president; R. E. Kingsford of Toronto, first vice-president; Major W. J. Brown of Aylmer, Ont., honorary, and R. S. Hudson, joint manager of the Canada Permanent Mortgage Corporation, Toronto, honorary treasurer.

The head office of the league was fixed at Toronto, and a strong general council was selected, which convened immediately after adjournment and selected an executive committee for the management of an aggressive campaign during the year.

Amongst the incidents of the day were the reading of a resolution passed unanimously by the Cavalry Association favoring universal training for Canada, and an address by Benjamine Saulte, the Canadian historian, on the results achieved during a hundred years under the old French-Canadian system.

Toll of New York Motor Cars.

New York, March 2.—Automobiles killed eleven persons and injured 57 in New York City during Februray, according to statistics announced yesterday by the National Highways Protective Society. This record shows an increase of nearly 300 per cent. over the corresponding month last year.

The society's monthly report shows that 29 were killed and 127 seriously injured by all kinds of vehicular traffic during February.

Hon. Edward Blake Expires After Long Illness—Played Important Part in Canadian History.

Toronto, March 2.—Hon. Edward Blake, distinguished scholar, lawyer and statesman, died at his residence 449 Jarvis street, shortly before seven o'clock last night. Although he had been in failing health for a long period, his death, despite his old age, was entirely unexpected and tragic. A few moment before he expired he was carried from his bedroom by attendents and placed in a chair in his library, where he had spent many hours each day during his illness. While in a sitting position he collapsed and had succumbed before aid of any kind could be administered.

In the study at the time of death were his widow, his son, [illegible]me Blake, and his daughter, Mrs. George M. Wrong. Hon. S. H. Blake, his brother, was immediately notified.

Five years ago Hon. Edward Blake became an invalid, and since that time had to be wheeled about in a chair. While in England he was seized by a paralytic stroke and had nev-

HON. EDWARD BLAKE.

er recovered from it. It was two weeks ago he became seriously ill, necessitating his removal from the library to the bedroom. However, the indisposition seemed to last only a few days, for on Sunday he had rallied sufficiently to be taken back to the library, where he longed to gaze upon

Continued on page 3.

SUFFRAGETTES FIND NEW METHOD OF CAMPAIGNING

Made Onslaught on Fashionable Shops and Smashed the Windows.

London, March 2.—Because the coal miners had been able to gain Government recognition of their grievances by threatening the business of the country, the suffragettes late yesterday also entered on a policy of menace to trade. And they carried it out suddenly and with an order that resulted in heavy financial losses, brought consternation to the merchants of the most prosperous shopping district of the city and paralyzed business at the busiest hour of the day. The police were taken completely unawares by the onslaught of the women, and, before they were able to muster, the streets were covered with shattered plate glass that once had been the show windows of stores.

It was a window-breaking expedition solely, and a thoroughly organized one. Hundreds of windows in many of the most famous shops of the world and in several of the Government offices and clubs were wrecked by the suffragettes. The damage done will aggregate many thousands of pounds. The losses, however, will not all fall upon the shopkeepers, as many of the show windows, especially the costly ones, were covered by insurance against breakage.

One hundred and fifteen women were dragged to the police stations by the police or excited and indignant merchants. Many others, however, escaped. All those arrested were released during the course of the evening on bail, coupled with promises that they would refrain from further activities in window-wrecking.

Some of the shopkeepers who saw the storm coming were able to close their shutters and barricade their shop doors against the infuriated suffragettes. The trouble centered about Trafalgar Square, where the big steamship companies have their passenger offices, and the windows of several of which were shattered, and ranged along the Strand, eastward and westward, and up Regent street, Piccadilly and Oxford streets, where are situated the fashionable jewelry and drygoods houses.

Mrs. Emmeline Pankhurst, the veteran of many a suffragette battle, struck the first blow. In an automobile, accompanied by Mrs. Marshall and Mrs. Tukes, she drove up to the Premier's residence in Downing street at 6 o'clock last evening. The three women quickly jumped out of the machine and drew out stones concealed in their muffs. Simultaneously three missiles sped through the air, followed instantly by still another one and four windows crashed in before the police, who are constantly on guard, could reach the women. The trio were arrested, but even while being led to the station house they managed to heave missiles through the windows of the Colonial Office.

PROBABILITIES

Moderate winds; fine and cold. Sunday, North and north-west winds and decidedly cold.

OPENING OF THE NEW MURRAY STREET CHURCH

The new Murray street Baptist church is expected to be ready for occupancy the last Sunday in May. The building is being splendidly fitted inside with the best material. The plastering in the auditorium has been finished, and the carpenters are busy at the woodwork. When thrown open for use, the Baptists will have one of the best churches in the city.

COAL STRIKE SITUATION

Asquith Hopes for Something Better on Monday

London, March 2.—Attempts to reconcile the opposing forces in the coal strike were suspended yesterday until Monday, when both the owners and the miners will again see Premier Asquith and his Cabinet colleagues. Should it then be evident that the extremists refuse to abate their rigid demands, legislative action will be swift.

Prime Minister Asquith, in a statement in the House of Commons last evening, said that the coal owners in practically the whole of England and in the north of Wales had accepted the proposals of the Government; that in south Wales and in Scotland the owners declined the proposition, while the miners have rejected it because they were unwilling to submit the rates for a minimum wage to any form of revision. He hoped to be able to make a further statement to the House on Monday.

The Premier yesterday invited the miners' executive committee to meet the coal owners, but the men declined, saying they had nothing to discuss.

The miners' delegates are now returning to their respective districts, and will ask instructions as to how they are to deal with the new proposals of the Government. Even should the men approve of the submission of the schedule of minimum rates of wages to discussion, the strike could not be arrested under a week, and probably it would last another fortnight.

Advertise in the Review. It pays.

Horse Distemper

Prince Edward Farmer Solemnly Declares "Nerviline" Is a Specific.

"After fifty years' experience in raising horses I can safely testify that no remedy gives such good results for an all-round stable liniment as Nerviline." Thus opens the very earnest letter of J. J. Evanston, who lives near Wellington, P. E. "I had a very valuable horse that took distemper a month ago, and was afraid I was going to lose him. His throat swelled and hard lumps developed. His nostrils ran and he had a terrible cough. I tried different remedies, but was unable to relieve my horse of his pain and suffering till I started to use Nerviline. I mixed a bottle of Nerviline and sweet oil and rubbed the mixture on the throat and chest three times a day and you would scarcely believe the way that horse picked up. Nerviline cured him. I also have used Nerviline for colic in horses and cows, and earnestly recommend it to every man that is raising stock."

Nerviline CURES QUICKLY

For strains, sprains, swellings, colic, distemper, coughs, and colds, no liniment will prove so efficacious in the stable as "Nerviline"—it's good for man or beast, for internal or external use. Wherever there is pain, Nerviline will cure it. Refuse substitutes. Large bottles 50c, trial size 25c, at all dealers, or The Catarrhozone Co., Kingston, Ont.

CORNS CURED IN 24 HOURS

You can painlessly remove any corn, either hard, soft, or bleeding, by applying Putnam's Corn Extractor. It never burns, leaves no scar, contains no acids; is harmless, because composed only of healing gums and balms. Fifty years in use. Cure guaranteed. Sold by all druggists, 25c bottles. Refuse substitutes.

PUTNAM'S PAINLESS CORN EXTRACTOR

The Daily Review

SATURDAY, MARCH 2, 1912.

PETITIONS AND POST-MASTERS

The papers coming from the western part of the province show that at several points the same thing as came about in Peterborough has, and is taking place, dismissal of officials on charges of offensive partisanship, and efforts of friends to stay the hand.

So long as men in office; thinking themselves secure, and that the party that placed them where they are survive, persist in taking part in political work, so long such action will be resented.

Of course, it is not to be supposed that men in office have lived their lives in a community and never gained friends. All have done so, and these friends, personally loyal, are often of both sides of politics. Often as not they are relatives, and blood is thicker than water. As a friendly act they will assist in doing what may be done to ward off decapitation.

From Peterborough one or more petitions were forwarded as to the postmastership at Peterborough, which, it was understood, would be presently declared vacant. It is possible that so many as three petitions were forwarded. Of one of these some comment has been made, relative to those who affixed their signatures.

Those who did so had a perfect right so to do, if they thought it a friendly act or expedient. But it should be understood that the petition did not ask that the incumbent be retained in office, but that he be given the benefit of an investigation before being dismissed, which is assuredly a different matter. If there were partisanship then the party leaders against whom effort was directed, know of it, and investigation would only confirm what was alleged.

THE POWER SITUATION

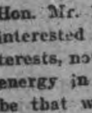
For some time discussion in regard to electric power matters in this district has been at a stand still. Early the year the proposition was put in circulation that the Ontario Hydro-Electric would take over the systems in Midland Ontario and make them a part of the general power policy of the province. So far nothing definite has resulted.

The proposition really arose out of a conversation in Ottawa between Hon. Mr. Beck and several of those interested in the electrical power interests, now controlling the sources of energy in this district, but it may be that what was deemed, off-hand, as feasible, may present difficulties in the working out.

That the Hydro-Electric could exercise its powers of appropriation admits of no doubt. In such event terms would have to be reached to meet that expense of work and development already done and in service. This would require a large sum of money, running into the millions, for even if the holders of the properties were so deprived of the possible gains in opportunity in the future, the present outlay must be met.

Recognizing the situation the owners of the properties have said they are willing that their holdings shall pass out of their hands, but claim a fair deal. They suggest arbitration as to the values to be determined, either by some competent appraiser, or by a board chosen, one by each side and a third by the two selected. Or the owners will serve power to the Hydro-Electric on terms to be determined. This latter admission is quite different to the reply given to Mr. Beck, in which it was averred that no power could be spared from the operations of the company. Some other suggestions have been made in connection with the regulations of matters by the Ontario Railway Board.

In this connection the suggestion has been made that the Hydro-Electric should confine their operations to such parts of the province in which development might be undertaken, but when the size of the communities would forever preclude power being developed by private means. This idea would be taken to mean that the Hydro-Electric would regulate the service and price of power, even where they did not develope, and under sufficient provisions might present possibilities worth considering. Practically this if carried out would obviate the taking over of private interests now in operation, but would depend altogether on the bargain or arrangement that could and would be made. If the ultimate consumer were protected and assured a service at minimum rates that is all he would get or gain under any conditions.



Wood's Phosphodine, *The Great English Remedy.* Tones and invigorates the whole nervous system, makes new Blood in old Veins. *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhœa, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. *New pamphlet mailed free.* The Wood Medicine Co. *(formerly Windsor)* Toronto, Ont.

THOSE GOOD ROADS

One guess, and perhaps not a bad one, at the purpose of the Borden Government in spending money on roads, ordinarily the business of the provinces, counties and municipalities, is that it is designed to create a trunk road for automobiles. The Weekly Sun protests in the farmers' name against this favor being shown owners and makers of motor cars, at the cost of the whole country, because the prospective beneficiaries did so much to defeat reciprocity, which contained such great promise of profit for the farmer. The argument is not good enough. It was the farmer himself who rejected reciprocity. He could have had it if he had wanted to vote to get it. He knew that other interests were opposed to it, so strongly opposed that if he wanted the "chance of profit" he had to do the necessary voting himself. He didn't do it. He voted against it. He has no cause for complaint and does not complain. So if there is a proposal for a highway suitable for the modern method of travel, it is entitled to be considered free from the complications of rejected reciprocity. And the farmer, if he saw far enough into the affair, would be the last to object. The curse of the farm is its remoteness from the things that make life interesting. Because the city does not come to the farm, the farm boy goes to the city. The trolley, by bringing the city within easier reach, makes the farm a better place to live. A fine highway leading out of the city becomes, for many miles, part of the city. Those who have been isolated from each other with a wilderness between over which there is no turning back once it is crossed, are brought into contact frequent enough to allay discontent. A good highway is a good thing in itself. It does good everywhere, harm nowhere. The farmer needs it more than the maker of motor cars, but the farmer has acquired the habit of doing without what he needs, whereas the big manufacturer makes it a rule, for the security of his investments, to get what he wants.—Montreal Herald.

NOTE AND COMMENT

While March came in like a lamb the weatherman has thirty-one days to ponder over the form of his April Fool joke.

The Hebert case is well known by this time but so far as can be ascertained, no fond parent has suggested Hebert for the christening.

Yuan Shi Kai now that he is having trouble with his soldiers might secure the services of T. Roosevelt and his big stick.

There are cases of typhoid fever at Port Hope and the Board of Health is being rapped for neglecting to have the water tested. Perhaps they are not drinking water at Port Hope.

Sir James Whitney will hold a conference with the Alliance regarding the Province's attitude to an All-Canadian Marriage law on March 8th, at the Parliament buildings.

An exchange says—

When peace like a river attendeth our way,
Or sorrows like sea billows roll;
It will help a whole lot if we only can say;
"Oh well, we have still lots of coal."

There is now absolutely no hope for the Leap Year campaigners. A wife who went through hubby's pockets with a clean sweep, was upheld by the judge who heard the case which naturally followed.

New York is to dispose of its garbage at a profit of $200,000. It might cost Peterboro that amount, should it be decided to feed the fishes at Goose Pond with the accumulations of the backyards.

A sensation was sprung yesterday in the Manitoba Legislature when William Molloy, the member for La Verandrye, asserted that he would support a resolution looking to the separation of Western Canada from the Eastern part of the Dominion. He claimed that the interests of each were so far apart that separation was bound to come.

This Medicine Is Breathed!

Have You a Cold?—It Can Be Completely Cured By

Catarrhozone

It Quickly Cures Whooping Cough, Grippe, Bronchitis, Catarrh, Hay-Fever, Asthma, and Colds.

Catarrhozone is not like other remedies, but is so healing and soothing that when it is breathed through the inhaler it kills the germs that cause diseases of the throat and lungs.

Catarrhozone quickly soothes and heals the mucous surfaces so that in a short time the whole mucous lining is healed.

If you are subject to throat irritation or have a tendency to consumption you should use the "Medicine that is breathed."

Thousands who have used it tell of its merit.

Air which you breathe through the Catarrhozone inhaler carries healing to the very spot affected, and there is no chance of failure by going to the wrong place. That is why it cures.

Catarrhozone

Approved by Doctors, Druggists, and thousands of Canadian people who have used it. Little drops of healing for weak places in the throat and nasal passages—that's Catarrhozone.

Three sizes, 25c., 50c., and $1.00, at druggists or by mail, postpaid, from The Catarrhozone Co., Buffalo, N.Y., and Kingston, Ont.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucuous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucuous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

Sold by Druggists, price 75c.
Take Hall's Family Pills for constipation.

TRIED TO WORK WHEN BOTH ARMS WERE BROKEN

Heroism of Toronto Woman Who Fell Down Stairs

Toronto, March 2.

Mrs Thomas Fudge, of 95 Jarvis Street, was taken to St. Michael's Hospital yesterday with two broken arms, having been in that condition since last Saturday when the accident happened.

She was found in her home Thursday night by one of the visiting nurses from the Victor Mission Home and a doctor called. The woman had fallen downstairs, but not having the means to pay for a doctor told the neighbors who happened to drop in that she was not seriously hurt, and even attempted to do housework in her condition.

BEAUTIFUL EYES

are made beautiful by long, silky lashes and well defined, lustrous brows. Eyes, like diamonds, depend on their setting. The beauties of the face are lost is the eye brows are thin and scanty, and the lashes are thing and scanty. Parisian Lash Lustre grows beautiful, soft, silky lashes. It has done so for society women throughout Europe, and it comes here well recommended to do the same for you. Parisian Lash Lustre is not a dye or colorator, but a scientific preparation for beautifying the eye lashes and brows. Our guarantee goes with every box of Parisian Lash Lustre. A two weeks' treatment will bring beauty to your eyes that you have never before possessed. By mail, prepaid, in opal boxes on receipt of price, fifty cents. B. V. Marion, sole distributor, Bridgeburg, Ont.

AN OMEMEEITE PASSES AWAY AT WINNIPEG

Late Herbert Jones Was Prominent in Military and Sporting Circles

Free Press.

After only one week's illness, Sidney Herbert Jones, of the Canada Northwest Land Company, died at the General Hospital yesterday. Last week he was taken sick with pneumonia and removed to the hospital. Complications set in and it was soon seen that he was in danger, and that it was only a matter of time when death should come.

The late Mr. Jones was for many years past one of the most noted and popular of amateur sportsmen in Winnipeg and neighborhood. In business circles he was a familiar figure.

The deceased was born in Omemee, Ontario, January 29, 1867, and came out to Manitoba with his people in 1882. His father settled on a farm at Roland, in southern Manitoba, where he still resides. In 1887 Mr. Jones came into Winnipeg and soon after that time he entered the employ of the Canada Northwest Land Company, in a junior position, under the head of the company, the late W. B. Scarth. He remained with the company till the time of his death, and for some years acted as accountant, and later as manager under the land commissioner, F. T. Griffin.

The body was taken to Gardiner's undertaking rooms, and the present arrangements for the funeral are that it will take place at Roland on Thursday afternoon, the body being taken out on the 8.30 a.m. train from the C.P.R. depot.

Mr. Jones took a lively interest in all field sports, and was for some years a member of the 90th regiment, retiring with the office of quartermaster sergeant. He was a member and strong supporter of the original and famous 90th lacrosse team and a member of the Victoria Hockey Club. He took an interest in the Fort Garry trap shooting club and was well known in the field as one of the best shots of the district. He was also a member of the Canoe Club.

It was, however, as a curler that he was best known; he was on the executive of the Granite club and of the Manitoba Curling Association, while he held many trophies which he won on the ice. The only society to which he belonged was the Oddfellows.

Mr. Jones was not married and lived in the Cutler block in the city. He is survived by his father, seven brothers and a sister.

THEY WANT GIN PILLS

NEW WESTMINSTER, B.C.,
532, 12th ST. Nov. 3rd, 1910.

"I have suffered from Lumbago in the back—also from Rheumatism in the whole of my body. I took your GIN PILLS and they have cured me. My sister in England states she is keeping her bed through Sciatica and Rheumatism—also hear that many others in the same neighborhood are suffering from the same trouble.

I am writing to her asking her to try GIN PILLS and also to let others know about them. I enclose one dollar and ask you to send to her address as many as you can for the money, and have asked my sister, not only to try them herself but distribute them, and if GIN PILLS are not kept by the chemist in the neigborhood, to let him know and ask him to get a supply. Please send the pills to the enclosed address in Kent, England."

W. E. BRENCHLEY.

GIN PILLS are growing great by the cures they make. Their world-wide reputation is the result of their giving results in all cases of Rheumatism, Sciatica, Lumbago, Kidney and Bladder Troubles. 50c. a box, 6 for $2.50. Lady Betty Across the Water

By C. N. & A. M. WILLIAMSON

Copyright, 1906, by McClure, Phillips & Co.

"I don't know anything about it yet except from books," said I. "Mother

I couldn't hear a word; only a horrid buzzing.

doesn't like my reading modern novels much, and we haven't many in the library, for Vic reads French ones and hides them. But there are other books besides novels that tell about love—some heavenly ones."

"I should think there were," said Sally. "But I didn't ask you what you knew; I asked what you thought. Have you ever thought about what it would be like to be in love?"

"Yes," I had to admit shamefacedly, for, as she is not a man, luckily it wasn't necessary to tell a fib. "Have you?"

"I know, once for all," said Sally in a changed voice. "That is why I wanted to talk about it to you before you really begin life over here. Perhaps—it depends on your opinions of love—I'll tell you my little story. I don't tell it to people. But maybe I will to you this morning. We shall see."

"Is it a sad story, dear?" I asked.

"Yes. It's sad."

"Perhaps it may end well yet, though," I tried to comfort her.

Sally shook her head. "It can't in this world. And the saddest part of all is that it was my own fault. But I didn't understand the relative value of things when I lost the one thing in the world that can make real happiness for a woman. I should like you to understand them while you still have time."

"And I should love to hear your story if it won't make you too sad thinking of it," I said.

"Oh, I am always thinking of it. It's never really out of my mind for a minute. It's there, you know, like an undertone, just as when you live near the sea there's always the sound of the waves underlying every other sound, though you mayn't be listening for it."

"Then tell me," I said.

"Not yet. I haven't asked you the questions yet which will show me when you answer them whether you need to hear the story or not. Could you imagine yourself marrying without first being in love?"

"No-o," I said thoughtfully. "Not when it really came to it. But Vic says that's all nonsense; that no woman, no matter how much she thinks herself in love, ever stops in love with her husband. The thing is to marry a man who will let you do as you like, and, of course, he must be rich."

Sally sighed. "Well, dear, she's your sister, and I'm just nothing to you at

PASSED AWAY FROM PNEUMONIA

The many friends of Mr. Leo Shannon, son of Mr. J. Shannon, 319 McDonnel street, and who, up to a year ago, was a printer with the Examiner, will be sorry to learn of his death in Toronto.

Shortly after his marriage, about a year ago, Mr. Shannon's health became impaired, and he took up outdoor occupation in Toronto, and has lived there since he left Peterborough. His health improved and he took a position with a printing establishment. Yesterday at 8 o'clock in the morning, he succumbed to an attack of pneumonia.

Mr. Shannon made many friends while in the printing establishments in Peterborough, and they will indeed be shocked at the unexpected news of his death. The remains will be interred to-morrow morning at eight o'clock in the Mount Hope cemetery, Toronto.

WHO'S COMING AND GOING

Mr. Roscoe Kendry went to Bobcaygeon this morning.

Mr. Hugh Hall of Edmonton, Alta. is visiting at his home here.

Mr. Harry Fair, of Brantford, is in the city to-day on business.

Misses Viola McGee and Kathleen Vincent are visiting at their homes in Lakefield.

Miss Choate of Millbrook is spending a few days the guest of Mr. and Mrs. R. Ruddy.

Mr. H. Trainor, of the Traffice Department of the Bell Telephone Company, Hamilton, is in the city to-day.

Miss Mulligan of Bethany, who has been visiting Mrs. Mann, 71 McDonnel street, returned home yestrday.

Dr. Hewson, of Colborne, has taken possession of the house purchased from Dr. Wood, and has moved his furniture in.

Miss Pailser, 15 Oxford street, of this city, left for Bobcaygeon yesterday, where she has accepted a remunerative position.

Mrs Chas. Brewer, Smith street, returned home yesterday after a very pleasant visit with friends in Port Hope and vicinity.

Mrs John Allen, Campbellford, was the guest of friends in the city today. She left for Ottawa at noon today, where she will visit friends.

Many friends will regret to learn of the very serious condition of Mr. Chas. Stapleton, who has been far from well during the last few months. Yesterday his illness reached an acute stage and very little hope is entertained of his recovery.

SOOTHING MIXTURES DANGEROUS TO CHILDREN

Mixtures sold under the name "soothing" are usually dangerous to the life of the little ones whom they are supposed to help. They contain opiates and narcotics and any sleep prompted through their use is false sleep—to be plainer the little one is drugged into insensibility. The only absolutely guaranteed remedy for little ones—the only remedy backed by the guarantee of a government analyst to contain no opiates, narcotics, or other harmful drugs is Baby's Own Tablets. They cannot possibly do harm—they always do good. Thousands of mothers have learned their value. They help not only the newborn babe, but also the growing child. Stomach and bowel troubles, worms, colds, simple fevers are all banished by them and they promote that refreshing sleep so helpful to little ones. The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams Medicine Co., Brockville, Ont.

BLOCKADE IN COMMONS.

Opposition Forces Division on Three Amendments.

Ottawa, March 2.—This was a Parliamentary polling day. Within an hour of reassembling this afternoon three divisions had been recorded. The Government sought to pass their third readings the bills for aid to highways, for the appointment of a tariff commission, and for the handling of grain. They were met with determined opposition in their platform. Two amendments were submitted to the highways bill, one by Sir Wilfrid and the other by Mr. Macdonald, both of which were voted down; and one by the Liberal leader to the tariff commission bill, which was likewise treated. When the grain bill was reached Sir Wilfrid announced that several amendments would be submitted, each requiring a division, and the Government abandoned its efforts to get the measure through yesterday.

The amendments and their respective fates were as follows:

Moved by Sir Wilfrid Laurier, "That all moneys voted under the act for the improvement of highways shall be apportioned among the different provinces of the Dominion, according to the population of said provinces as estimated by the last census for the time being." Defeated on a vote of 79 to 50—a Conservative majority of 29.

Moved by Mr. Macdonald, "that the clause in the bill authorizing the Minister of Railways on his own initiative to undertake the construction of any new highway or improvement of any existing highway, and expend in such improvement or construction the whole or any part of the sums voted by Parliament for the road subsidy to any province, be struck out. Defeated on a vote of 85 to 52—a Government majority of 33.

Moved by Sir Wilfrid Laurier, "That the members of the proposed tariff commission shall be selected without any regard to the views of any political party on the tariff or any other political question, but solely by reason of their fitness, by character, training and experience, to effectually and impartially discharge the duties assigned to them under the act." Defeated on a vote of 81 to 46—a Government majority of 35.

IRISH-CANADIAN STATESMAN IS CALLED AWAY

(Continued from page 1)

the street, with his armchair standing near the window. Several nurses were in attendance during the past two weeks.

"The death of Edward Blake means the removal of a great figure from Canadian life," said Chancellor Sir John A. Boyd. "In earlier years he was easily the leader in the profession of law, and afterwards he took an equally commanding position in political life, first in Canada and then in the Imperial Parliament.

"A great man has passed, but his memory and influence will not die."

Hon. Edward Blake was born in the Township of Adelaide, Middlesex County, on Oct. 13, 1833. He was the son of William Hume Blake and Catherine Hume, granddaughter of William Hume, M.P., of Humewood, Wicklow County, Ireland. He came from Ireland in 1832, intending to settle upon a farm in Upper Canada. He soon, however, found himself unfitted for the rough life of a pioneer, and took up his residence in Toronto. There he became a distinguished member of the legal profession, and upon his election to the Parliament of United Canada in 1848, proved one of the leading orators of that assembly. He was appointed Solicitor-General of Upper Canada under the Baldwin-Lafontaine administration, and subsequently became the first chancellor of Upper Canada.

Mr. Blake was educated in Toronto. In 1847-8 he made a tour abroad, when Europe was stirred by new democratic and national sentiments. He was graduated from Upper Canada College with the Governor-General's prize. He obtained his degree of bachelor of arts, with a silver medal in classics, from the University of Toronto in 1854, and his degree of master of arts in 1858. In 1856 he was called to the Bar and commenced the practice of law as a partner of Mr. S. M. Jarvis. Subsequently, with his brother, Hon. S. H. Blake, he founded the firm which still bears the family name. He was appointed a Queen's Counsel in 1864.

Hon. Edward Blake entered upon his political life in the first year of the Canadian Confederation. One year sufficed to make him the leader of the party in the Ontario Legislature and four to make him Premier of the province. Four times he was invited to assume the leadership of the Liberal members of the Federal Parliament before he finally consented in 1880. Had he accepted the offer made to him in 1872, he, instead of Hon. Alexander Mackenzie, might have been the first Liberal Premier of Canada.

Mr. Blake accepted an invitation to become a member of the British House of Commons, and at the general election of 1892 was elected to represent the Irish constituency of South Longford, with Mr. Justin McCarthy, the historian, as his colleague in North Longford.

In 1894 Mr. Blake was elected a member of the executive committee of the Irish Parliamentary party.

He was re-elected for South Longford by acclamation in 1895, and, as his legal ability had attracted much attention in England, was selected in 1896 as a member of the Parliamentary committee, which investigated the affairs of South Africa and the causes of the Transvaal raid. His cross-examination of the late Cecil Rhodes was described as a "masterpiece of work." Finally after sitting in the Imperial Parliament for fifteen years, Mr. Blake resigned in July, 1907, and shortly afterwards returned to Toronto to spend the closing years of his life.

CALLS FOR SECESSION.

Manitoba Liberal Says the West Will Separate In a Few Years.

Winnipeg, March 2.—The sensation of the present session of the Manitoba Legislature came last night when William Molloy, Liberal member for La Verandrye, asserted that he would support a resolution looking to the separation of Western Canada from the eastern part of the Dominion.

He charged that the attitude of Eastern Canada, as evidenced in its vote on reciprocity, was inimical to Western Canadian interests, and gave it as his belief that a few years would see a decided sentiment in the west for separation.

"No greater blow," the member for La Verrandrye went on to say, "had ever been dealt Western Canada than by the rejection of reciprocity."

"The people of Eastern Canada have deliberately set themselves to injure Western Canada, and in the course of ten years there will be such an agitation in Western Canada against their binding acts that nothing but separation will suffice," he said.

His remarks were loudly applauded among Liberal members, and many in the galleries.

SANOL

The new discovery will positively remove Gall Stones, Kidney Stones, Gravel in the Bladder, and will effect a complete Cure. It will dissolve and remove stones without pain, and there is no necessity for an operation in the future, as Sanol will cure in every case no matter how long standing the disease may be.

SANOL will be found particularly valuable in old cases of Kidney and Bladder diseases.

SANOL is a preparation of herbs and herb extracts, and contains no poisonous ingredients. It's use, therefore, cannot possibly harm either the stomach or intestines.

Sanol per bottle $1.50

Get it from McDERMID & JURY, Druggists, Peterborough, or direct from The Sanol Manufacturing Co., Winnipeg, Man.

What is 'Good' Tea?

BEFORE Tea brands were widely known—before Red Rose Tea was sold throughout Canada—a woman asked her Grocer if he had any 'Good' Tea—and the Grocer replied,

"Red Rose Tea is Good Tea"

There you have the origin of our modest slogan—the reason for it. And surely no better source or reason could be given.

Consider the matter for a moment—

Suppose you were to forget the name "Red Rose," and ask the Grocer for a pound of 'Good' Tea—what would you mean by the term 'Good'?

You would simply mean Tea that was ALL Tea could be.

So—when we are able to say

"Red Rose Tea is Good Tea"

—we have said all that can be said.

RED ROSE is a blend of the best Indian and Ceylon Teas—

Because these are world's best Teas. Assam—in Northern India—is the original home of the Tea plant—the soil being specially adapted for growing rich, strong Teas—

Ceylon Teas are more delicately flavored. Therefore the Red Rose blend is generously rich in both, strength and flavor—

—Even if modestly and simply advertised as

"Red Rose Tea is Good Tea"

There are several grades selling at different prices, but, perhaps, the 40c. grade will please best. It is not only fine in quality but goes farther.

NUGENT'S STOMACH AND LIVER TONIC

"Felt Better After the First Dose"

That's a great deal to say for any med cine, but we have heard it from those who have taken Nugent's Stomach and Liver Tonic.

It is really the best tonic we know of for that "tired feeling" and loss of energy. It is a good appetizer, and enriches the blood.

Especially good for La Grippe.

You, too, will notice an improvement in your condition after the first dose, if your system is in need of a good blood enriching and up building tonic.

A Large Bottle with Pills for 50c

We never recommend a doubtful preparation.

CAN HAVE C.W.A. MEET

Executive in Favor of Coming to Peterboro This Year

If satisfactory arrangements can be made with the owners of the Exhibition grounds, the annual meet of the Canadian Wheelmen's Association will be held here next August.

Mr. F. R. J. McPherson, who has interested himself in the securing of the meet for Peterborough, returned to the city last night after a two days' visit in Toronto. He met with the executive of the C.W.A. on Wednesday, as stated in yesterday's Review and his suggestion that they come to Peterborough was received with unanimous approval. It now rests with the Exhibition park people.

The holding of a C.W.A. meet in this city would mean a great boost for the city and the business men generally would benefit by it. They should help it along and encourage the promoters.

The last meet of the C.W.A. was held in Toronto. It is an annual affair and the various cities of Canada are favored from year to year.

THE RED MILL

The children showed their appreciation of the RED MILL, when, accompanied by their parents this morning, they lined up in front of the theatre after the performance, and gave three hearty cheers for the program. Both the young people and their parents were delighted with the pictures and singing, and the excellence of the entertainment drew a full house for every three-quarter hour show. The RED MILL is fast becoming Peterborough's most popular amusement house, as is merited by the character of the show the management puts on.

THE AD. CLUB WHAT IT IS

Of Mutual Benefit to Merchants and Advertisers

Second Annual Dinner to be Addressed by C. H. Ashley

There is some speculation as to just what is the nature of the recently organized Peterborough Ad. Club, and what are its purposes, and what can it do for Peterborough, and for its members individually. We need only to learn of what Ad. Clubs are doing elsewhere to discern the unbounded possibilities to which the local organization and its members may attain.

One of the liveliest Ad. Clubs on the continent, and indeed, the most useful, is said to be in a small town in Texas, not over a hundred miles from Dallas, where the big convention is to be held this year. There are only twelve members in this club. The Peterborough Ad. Club already has twenty-five members, on the strength of its first organization meeting. Therefore, no difficulty whatever need face the local club in so far as getting members is concerned.

It has been well said that the greatest game in the world is the "game of selling." Almost anyone can manufacture. It is invariably easy to buy. The real work is selling. And this any manufacturer and every merchant knows full well, and discovers the same very early in his distribution of selling experience.

Because of this "greatest game"—how to make better sales and more of them—has arisen a great want, which want is being satisfied through the working out of the ideals for which Ad. Clubs are organized. We have all heard that "competition is the life of trade." To-day the best of business men are placing themselves on a higher plane than this, and are learning that co-operation along with stimulative, not destructive, competition, is to be the life of a better trade, which is to be the trade of to-morrow.

Through discussions, addresses and papers by local members dealing with problems of vital interest to all local business men; through coming in touch with prominent successful business men from other centres, who will be brought in to address the local clubs, members of the Peterborough Ad. Club will have themselves to blame if they do not catch the spirit of the Ad. Club and derive much personal benefit, of actual cash value, from the monthly meetings of the club.

It will be a privilege to hear such men as Mr. C. H. Ashley, of the Toronto Saturday Night, who will address the local club next Tuesday evening, March 5th, on the occasion of its second dinner and meeting, commencing at 6.15 p.m. It is anticipated that at future meetings the local Ad. Club will have speakers from the large American cities, who are brought over to address the Toronto Ad. Club, and who will make a circuit of several of the Ontario cities, amongst which Peterborough will be one of the prominent cities having a live and progressive Ad. Club. Recently the Toronto Ad. Club had Mr. Herbert Casson, of New York City, to address its members. On three days following Mr. Casson was employed by three different Toronto firms at $100 per day, he working for them only in an advisory capacity as a publicity or advertising expert. We venture that every local business man would go out of his way to hear Mr. Casson.

Aside from the benefits accruing to individual members of the local Ad. Club, the organization will eventually mean much to the city of Peterborough. It can be readily understood that an aggregation of earnest men meeting together, working together, and getting others together for business and more of it, in Peterborough, and boosting things in general for our city, cannot fail but be of far reaching influence for better things for our local citizens in general.

HURRAH! PRICES TAKE SLIGHT TUMBLE

Eggs Drop as Low as Thirty-Four Cents

The weather, the roads and the farmers combined to make the market a large one this morning, and the housekeepers of Peterborough were on hand in large numbers to buy. Butter and eggs took a little drop, eggs selling as low as 34c. and towards the end good butter was sacrificed at 35c. per lb. Pork took a little jaunt skywards, but the other lines were almost the same as the previous Saturday.

The scale of prices was as follows:

Beef, front, per lb. 9c.
Beef, hind, per lb. 10c.
Pork, front, per lb. 11c.
Pork, hind, per lb. 12c.
Lamb, front, per lb. 12c.
Lamb, hind, per lb. 14c.
Chickens, pairs, $1, $1.40, $1.50.
Chickens, each, 50c. and 75c.
Apples, Greenings, per bag, $1.25.
Apples, Phwauthkee, per bag, $1.25
Apples, Russets, per bag, $1.25
Apples, Wealthy, per bag, 75c.
Apples, Russets, per pk. 35c
Potatoes, per bag, $2.00.
Butter, per lb, 35c, 37c, 38c.
Eggs, per doz., 34c. 35c.
Parsnips, per pk., 30c.
Onions, per pk., 50c.
Carrots, per pk., 25c.
Wood, per load, of over a cord, $5.
Hay, Timothy, ton, $15 and $16.

King's Daughters

The King's Daughters would be very grateful to any one having an old fur robe, or warm rug, which they would give for a woman who is ill and obliged to sit in the open air. Anyone telephoning to No. 510 the King's Daughters would send it or it could be sent to the Nicholls Hospital, where the woman is at present.

Never sold in Bulk

Here is a New Kind of COFFEE

And We Give You A Pot To Make It In—Free

To get to the heart of the coffee question, you must do as we did—get to the heart of the coffee berry. The coffee berry is protected by Nature from the insect world, by a tough inner shell or coat. This shell contains tannin and other bitter substances.

It is this shell, roasted and ground up with ordinary coffee, that causes indigestion, headaches and other ill-effects so common with coffee drinkers.

Yet there is no other beverage in the world so thoroughly wholesome healthful and delicious as good Coffee when properly made.

Never sold in Bulk

Dalton's French Drip Coffee

is this good, wholesome, delicious coffee. It contains no chicory and by our special process of grinding, every particle of the bitter tannin-bearing shell is removed. We take out all the injurious parts. We leave the meat—the heart—the flavor—the aromatic essences that mean so much to coffee-lovers.

The Percolator, or French Drip Process, is the only way to make really good coffee. We have secured sole rights at last for a practical, economical, reliable French Drip Coffee Pot.

We will give it to you free so that you can try Dalton's French Drip Coffee as it should be made. Read our offer. We have put up Dalton's French Drip Coffee in two Blends

This is the Coffee Pot we are giving away with 2 tins of Coffee at 50c. per tin.

—MILD and STRONG. You can't tell which one you will like best until you try both. Dalton's French Drip Coffee is better and costs less than any other if made in Dalton's French Drip Coffee Pot. That is why we make this special offer.

SPECIAL INTRODUCTORY OFFER

We have authorized your Grocer to give you one of these handsome pots (worth $1.30) absolutely Free with your first purchase of a tin EACH of Mild and Strong Blend at 50c. per tin. You buy two tins of our Coffee—one of each blend—to give it a fair trial and we give you the means of testing it FREE, satisfied that you will use nothing but Dalton's French Drip Coffee thereafter.

DALTON BROS. - - - - - TORONTO 8

Sold in 25c. and 50c. tins. If, by any chance, your grocer is unable to fill your order, write us and we will see that you are supplied promptly.

If your grocer will not supply you, enclose $1.00 and we will send carriage collect.

TEA AND CONCERT BY CHEMONG A. C.

Good Program and Enjoyable Evening at Oskigmong

The tea and concert held in the Chemong Village Hall last night under the auspices of the Chemong Athletic Club was a very successful event. It was largely attended, the hall being crowded almost to the limit of its capacity.

Mr F. McKee, Deputy Reeve of Smith, performed his duties as chairman in an acceptable manner. He called the following program—

Selection—Club's orchestra.
Duet—Misses Hazel and Stella Taylor.
Dialogue—"Olden Times" comic.
Selection—Orchestra.
Dialogue—"How the House was cleaned."
Duet—Miss Susie Johnston and Greni Tobico.
Dialogue—"How Pat saved his Bacon."
Solo—Mrs. Bert McCue. Encore.
Dialogue—"Rose and Thorne."
Solo—Dannie Whetung, jr. Encore.
Rehearsal—"Pat's Receipt."
Song—"I'd like to know how it was done."
Dialogue—"Josiah's Proposal."
Selection—Orchestra.
Dialogue—"Advertising for a husband."
Duet—Miss Clara Coppaway. Encore.
Dialogue—"Trouble in a shoe-maker shop."
Instrumental Duet — Miss Daisy Whetung. Violin, John Tobico.

WOMAN'S HAIR

Here's a Preparation That Makes Hair Fascinating

PARISIAN SAGE is the ideal hair tonic and beautifier of the present time.

It is compounded on the most advanced scientific principles, and nothing on the market to-day can compare with it.

It accomplishes so much more than the ordinary tonics, and does it so quickly that users are astonished.

PARISIAN SAGE kills the dandruff germs and eradicates dandruff in two weeks, or money back.

Since its introduction into America it has become a prime favorite with women of refinement.

PARISIAN SAGE gives a fascinating lustre to women's hair and makes it beautiful. It makes the hair grow luxeriantly; it is the dantiest and most refreshing hair dressing that science has produced, and has not a particle of grease or stickiness in it.

A large bottle of PARISIAN SAGE costs but 50 cents at Wm. Madill's and dealers everywhere. The girl with the Auburn hair is on every package.

New Elevators

Not only are preparations being made at Fort William for the addition to the Grand Trunk Pacific elevator already announced, but it is now stated that the whole of the original design, a 30,000,000 bushel plant will be immediately carried out.

The James S. Metcalf Company of Montreal, which has the contract in hand, is already on the ground making preliminary arrangements.

Atlas of Canada

School children in town and county can get a very nice Atlas of Canada for nothing by sending in their addresses to the Minister of the Interior, Ottawa. No postage on letter required.

AFTER 7 YEARS SUFFERING

I Was Cured by Lydia E. Pinkham's Vegetable Compound

Waurika, Okla.—"I had female troubles for seven years, was all run down, and so nervous I could not do anything. The doctors treated me for different things but did me no good. I got so bad that I could not sleep day or night. While in this condition I read of Lydia E. Pinkham's Vegetable Compound, and began its use and wrote to Mrs. Pinkham for advice. In a short time I had gained my average weight and am now strong and well."—MRS. SALLIE STEVENS, R. F. D. No. 3, Box 31, Waurika, Okla.

Another Grateful Woman

London, Ont.—I feel as if I could not tell others enough about the good Lydia E. Pinkham's Vegetable Compound has done for me. I was so weak and tired that I could not rest nights. A friend recommended your Compound and I soon gained health and strength and could not wish to sleep better. I know other women who have taken it for the same purpose and they join me in praising it.—MRS. WM. A. BUFFY, 905 Dame St., London, Ont.

Lydia E. Pinkham's Vegetable Compound has surely cured many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, and nervous prostration.

PURSE OF GOLD FROM BELL STAFF

Presentation Was Made to Mr. Harry Soanes

Before severing his connection as local plant chief with the Bell Telephone Company, Peterborough, Mr. Harry Soanes was the recipient last evening of a very substantial purse of gold from the members of the local staff. The presentation was made by Mr. F. W. Doan, the district superintendent and was accompanied by a few complimentary remarks praising Mr. Soanes' faithful and consistent work in the Company's service.

Mr. Soanes leaves shortly to assume the management of the Bell Telephone Company at Tweed. The appointment is a fitting recognition of his valuable work during his three years connection with the local branch of the Bell Telephone.

Insurance Agency

RECORD OF PETERBORO' PUPILS NOT EXCELLED IN PROVINCE

Scholarships and Prizes Presented at Collegiate Commencement Exercises.

The annual commencement exercises of the Peterborough Collegiate Institute, were held last night in the Assembly Hall of the Collegiate Institute. Mr. John Crane, presided, and an excellent musical program brightened up the evening, while the short addresses that accompanied the presentations of the prizes were interesting and appropriate. The choruses by the Collegiate Institute Glee Club was heartily received by the large number present, and the vocal solo of Mr Wm. McIlroy, and the piano solo by Miss Sophie Elliott, were generously applauded.

In his opening address, the chairman, Mr. John Crane, chairman of the Board of Education, asserted that the Board was proud of the Collegiate Institute with its splendid equipment and extraordinarily fine teaching staff in the last examinations 92 per cent. of those that tried, were successful in passing the examinations. Also a large per centage of the candidates passed with an honor standing, and the record of the Peterborough students this year had not been excelled in the province. The teachers and Mr. H. R. H. Kenner were to be congratulated upon this phenomenal achievement.

The Canadian Club Historical prizes were presented by Mr. E. L. Goodwill B.A., president of the local Canadian Club. Mr. Goodwill said that the Canadian Club was proud of the institute and its staff. He explained that the Club, gratified at the interest shown in their first History contest, by the pupils, had extended and enlarged the competition so that it included the public and separate schools. The speaker had had the privilege of reading the answers to the history test and was surprised at the character of the answers, and the fine showing of not only the prize

MR. JOHN CRANE,
who presided at the commencement exercises at the Collegiate

winners, but the great majority of the contestants. The following students were the winners of the Canadian Club prizes—

Junior Lower School — 1. Cecil Brown; 2, Alma Dobbin.

Honorable Mention—Wilton Tranter

Senior Lower School—1, Rose Dennan; 2, M. Stevenson.

Honorable Mention—O. Marshall.

NICHOLLS SCHOLARSHIPS

Owing to the unavoidable absence of His Worship, Mayor Bradburn, Mr. John Crane officiated in presenting the Nicholls scholarships. Mr. Crane referred to the great debt of gratitude the city owed Mrs. Nicholls. Firstly there was the Nicholls Hospital where poor patients could be treated free, yet without a cent of cost to their city. Then there were the parks—Nicholls and Jackson—and the large and commodious Y.M.C.A. Besides these Mrs. Nicholls had given an impetus to the education of the city by her scholarships. The following students received their respective rewards as winners of the Nicholls scholarships—

Faculty Entrance, Part I— $20.00—Miss E. Corkery.

Faculty Entrance, Part II— $20.00—Miss Leonora Park.

Honor Matriculation—$20.00— Wilmot Browett.

Normal Entrance—$15.00 — Miss E. Grady.

Junior Matriculation—$15.00—Meredith Huycke.

ON THE FIELD

In presenting the athletic prizes for the winners of the Annual Field Day events, Mr. J. W. Firth, B.A., said that the staff of the Institute fostered the athletic training and development in the pupils, as well as intellectual progress. He referred in brief to the doings of the P. C. I. Athletic Association, of which he is Honorary President. Those who received the athletic prizes were —

Senior Championship Staff Cup — Clarence Fusee.

Senior Championship Medal — Clarence Fusee. Presented by W. H. Hill Esq.

Junior Championship — Macdonald Cup—A. Lipsett.

Junior Championship Medal — A. Lipsett. Presented by W. G. Morrow Esq.

Athletic Form Prize, (For Relay Race)— Form Ic.

Senior Road Race—C. Fusee.

Junior Road Race—C. Stuart.

Other scholarships and prizes not presented at the commencement exercises but won in the last examinations are—

ENTRANCE SCHOLARSHIPS

Herbert Clark, $5.00—Presented by Dr. Burnham.

Amy Halpin, $5.00— Presented by Dr. Burnham.

Lionel Wilson, $4.00—Presented by W. G. Morrow Esq.

Norma Moore, $4.00—Presented by D. O'Connell, Esq.

Hannah Greaves, $4.00— Presented by T. F. Matthews Esq.

Helen MacKenzie, $4.00—Presented by Dr. McNulty.

WRITING PRIZE

W. Wilson—Presented by J. Crane, Esq.

THE VALEDICTORY.

The valedictory address was written by Miss Margaret Anderson, who is an ex-pupil of the Collegiate Institute and who was awarded at the last examinations, the First Edward Blake Scholarship in Moderns at Toronto University. Miss Anderson was to have read the address, but was not able to come from Toronto where she is attending college, and in her absence Miss Emma Corkery read the address.

RINGING THROUGH BONAVENTURE CO.

Splendid Work Dodd's Kidney Pills Are Doing

Mrs. Norman L Dow Tells What They Have Done for Her—People Talking of Them on Every Side.

Port Daniel West, Bonaventure Co., Que., March 1.—(Special).—Bonaventure County is ringing with the great work done by Dodd's Kidney Pills, and on every side people are telling their neighbors of aches relieved and ills cured by the great Canadian kidney remedy. To the great mass of evidence already published is now added that of Mrs. Norman L. Dow of this place:—

"I can recommend Dodd's Kidney Pills as an excellent remedy for rheumatism and palpitation of the heart," said Mrs. Dow. "After using one box I was greatly benefited."

Dodd's Kidney Pills cure rheumatism and palpitation of the heart, because they both come from the same cause—impure blood. Dodd's Kidney Pills make the kidneys right, and when the kidneys are right they strain all the poison and impurities out of the blood. Cure the kidneys with Dodd's Kidney Pills and you can't have such diseases as rheumatis, or palpitation of the heart.

GAVE PROGRAM AT OMEMEE

Conservatory Orchestra Delighted Audience in Coronation Hall

A concert of surpassing merit was given last evening in the Coronation Hall, of Omemee, by the Peterborough Conservatory of Music Orchestra, under the direction of Mr. Rupert Gliddon.

A very fair sized audience were present and showed their appreciation by liberally applauding every number on the extensive program. The Orchestra was assisted in the program by Miss Mary G. Chalmers, A.T.C.M., Miss Julia Choate and Masters Otto and Paul Gliddon.

Mr. Asa Huycke was to have been on the program, but was unable to appear owing to absence from the city.

The performers acquitted themselves in a highly creditable manner and won a very favorable place in the estimation of the audience.

The following program was supplied:

War March of the Priests, From Athalia—Mendlessohn
Conservatory Orchestra.
Baritone Solo, "A Perfect Day" — Bond.
Miss Chalmers.
Scotch Selection, "The Thistle" — Langey.
Conservatory Orchestra.
Soprano Solo, "Ave Maria"—Gounod, Miss Mary G. Chalmers, A. T. C. M., Violin Obligato, Miss Choate.
Clarinette and Cornet Duet and Solos Masters Otto and Paul Gliddon.
Grand Opera Selection, "Bohemian Girl"—Balfe
Conservatory Orchestra.
Piano Solo, Allegro Brilliante — Ten Have.
Mr. Wm. Wilson.
(a) Russian Hymn, Introducing Grand Tubular Chimes.
(b) American Patrol—Herbert, Conservatory Orchestra.
Trio, (a) Venetian Love Song
(b) Gondoliers—Nevin.
Miss Choate, Violin; Miss Dean, Piano; Mr. Dean, Cello.
Group of Irish Songs—
(a) Come Back to Erin.
(b) Believe me if all those Endearing Young Charms.
(c) Last Rose of Summer.
Miss Mary Chalmers, A.T.C.M.
God Save the King.

Mr. Gliddon, musical director, and Miss McKee, accompanist.

GIRLS WANTED
Apply at Canadian General Electric Co., Peterborough.

BIBLE CLASS WAS ENTERTAINED

Mrs. James Kendry entertained her Bible Class last evening at her home, 754 Water street, in a highly enjoyable manner. About thirty were present in all. The evening was passed in games, music and refreshments and was just informal enough to cause everybody to have a downright good time.

Mrs. Kendry's kindness was greatly appreciated by all of her class. The class is one of the most successful in George street Sunday school.

SUCCESSFUL SALE

Greatest Wall Paper Sale Held

OUR SUCCESS HAS SURPASSED ALL PREVIOUS RECORDS

We keep a variety in cheap high-class goods, second to none in Canada. We invite you after looking elsewhere to try us, with length and width of your room and we will tell you the cost — Either at our Peterborough Store at 379 George St., or at Toronto, 262 Queen St., West. Large buying enables us to give you prices not possible outside of large cities. There are only seven firms in our Dominion who can buy over twenty thousand dollars worth of Wall Papers per year, and we are proud to feel that we rank as fourth largest of the seven. The smallest buyer of seven has the same advantages as the largest as all that is required to get the low price is that the purchase amount to ten thousand dollars — Our purchases amount to over that with one firm's goods, not mentioning our purchases of American, English, German, French and Japanese manufacture, which we stock very largely. We would ask you again to examine carefully before making your purchases.

Toronto 262-4 Queen W. **C. B. Routley** Peterboro 379 George Street

REV. S. H. SOPER AT CHARLOTTE ST.

Rev. S. H. Soper, of Toronto, will take the pulpit of Charlotte street Methodist church to-morrow. A ladies' choir will give the music at the evening service.

No doubt Rev. Mr. Soper will receive a warm welcome back to Peterborough.

Lethbridge has appropriated $125,000 for three new schools to be built this year.

JEFFS LEAD IN FIRST PERIOD AND WON OUT BY 9-8 SCORE

Small Crowd Witnessed Fast Game, With Juniors Showing Up Well.

The Jeffs defeated the Mutts 9—8 last night at the Brock street rink. The half time score was 5—4, also in favor of the Jeffs.

It was a splendid game to watch and the three hundred fans who witnessed it were well satisfied with the work of both teams. It was the splendid combination and back-checking of the junior forwards, with the allround good work of the Intermediate defence Bearss going for end to end jaunts for a score, that beat the other septette. With Denison for their defence, the Mutts were strongly the favorites during the early stages, but it was soon seen that the team which played combination was to be the winning one. So far as the Intermediate forwards were concerned, the art of combining was a very scarce article and with the Juniors breaking away four in a line it was hard to stop them before they had scored. It is true Jerry Coughlin was absent, owing to a severe attack of lagrippe, but Pete Weatherstone fitted that wing nicely. He is probably not as selfish as Jerry, in regard to passing the puck

Everything considered, however, it was about as good a game of hockey as one could wish to see. There was sufficient rivalry amongst the various players to make them do their best to win. The Jeffs' defence men did not hesitate to give their old team-mates the body when necessary and the other fellows waited their chance to get one back.

Among those deserving of special mention is Giroux. He did more fancy stick handling in the hour last night than he has accomplished in all his games during the season. He also back-checked in grand style and was out to win. Dwyer in goal stopped some well meant shots, but the Junior forwards did not take many chances on shooting from outside the defence; preferring to bore in together. He therefore did not have much chance to turn the tide of victory.

Denison and Milloy got away for some nice rushes, but were nearly always stopped by Bearss and Bond. Denison scored once. Kelly started as rover but returned to the wing. He made some great rushes along the boards. Park was there with his stick-handling as usual and altogether they gave Leonidas Derocher a busy night.

Of the Jeffs, Clancey and Weir were probably the most effective. Kennealley had a hard check in Kelly but he scored once at that. Art Hall, though Park gave him a busy time, played one of his best games of the season. He passed and accepted passes with great accuracy and was always in on Dwyer at the right time.

Bearss and Bond were right there all the time. Bearss made some splendid rushes and fed the forwards nicely.

Derocher could not go through the season without scoring a goal. But unfortunately it was one on himself. He was taking his time at clearing and accidentally shot it into the corner of the net.

Bearss was the first goal-getter. He rushed past the whole forward line and skated around the defence. Shortly afterwards Hall passed out of the corner to Weir and Rollie made it 2—0. Then Derocher gave the Mutts their first counter when he failed to clear. Bearss made it 3—1 soon afterwards and the Mutts took their first lead after Park had beaten Derocher for three in succession. Art Hall, from the face-off made a zig-zag rush at Dwyer and beat him for the fourth, tieing the score. Just before half time, Clancey and Weir combined for the fifth, Clancey doing the trick, thus the Jeffs were in the lead at the half, 5—4.

SECOND HALF.

Everybody started at a hard clip in the second half, but the Jeff combination was a winner and Weir scored. Kelly got one but Kennealley on a fluke shot, made the two goal margin good again. Park after some good stick handling around the nets, scored his fourth of the night. For a time it looked as though the Mutts were to be swamped as Hall and Clancey each tallied, giving the Jeffs a three goal lead. They failed to score again however, and before the final gong was rung, Kelly and Denison pulled it down to one goal.

Stan. Cook refereed satisfactorily The line-ups were as follows:—

	JEFFS.	
	Derocher	
	Bond	
	Bearss	
	Weir	
Kennealley	Hall	Clancey
Kelly	Park	Weatherstone
	Giroux	
	Denison	
	Milloy	
	Dwyer	
	MUTTS.	

SPORT TALK

The Hamilton Spectator has the following in reference to Joe Keenan who has been released by the London Canadian Professional Baseball Club. "Joe is making an effort to land the management of the Peterboro club, and the Lift Lock city could do a lot worse than fire him. He has the experience and the knowledge of the game, and is also a good man in teaching the young plears. He will have to be given credit for giving London a good team last season, and although a poor start was made, Joe was quick to realize the weak spots and strengthen them with the right kind of men.

The regular Lock Works seven, Mercantile Leaguers, defeated another aggregation from the same establishment at the Brock street rink last night 6-4.

M. Kennealley refereed.

Fred Denison left on the 7.47 C P. R train this morning for Toronto, in preparation for his game tonight with the All-Stars against the Canoe Club.

Marmora's win last night over Stirling gives them the championship of district No. 1 in the Trent Valley Legue. The game Monday night between T. A. S. and Lakefield will just about decide who is to go into the finals with the fast Marmora seven and local fans will be out in large numbers to see the Abstainers work against the Cementville seven. They are both in fairly good shape, and every man on each team will do his best to win.

The T. A. S. line-up will be about the same as when they defeated Campbellford here.

McGill beat Ottawa College in Montreal last night in the final game of the Inter-Collegiate championship 17-2. Ottawa College was hopelessly outclassed.

WON AT HOME, LOST IN LINDSAY

Locals Behind in Cup Competitions by Nine Shots

Skip Foote Had Close Game With Skip Flavelle

As a result of the Lindsay-Peterborough games yesterday the cup that is competed for annually falls again to the lot of the Scugogville curlers. In Peterborough the local curlers were 4 shots to the good, but in Lindsay they fell down by 13 shots, leaving Lindsay 9 shots up on the round. On the local ice the local stalwarts captured two of the games skips Connall and Davidson defeating Burke and Knowlson. Mr. Foote went down before that veteran of the stane, Mr. N. D. Flavelle, in a hard fought game in which the winner had only a one shot margin.

In Lindsay three games went to the home curlers, only Skip Giroux capturing a game. The games and rinks were as given below;

PETERBORO GAMES.

Peterborough.	Lindsay
A. W. Archibald	J. J. Turner
W. D. Campbell	J. W. Anderson
C. N. Brown	T. Gage
H. F. Foote	J. D. Flavelle

Total for Lindsay	61
Total for Peterborough	48
Majority for Lindsay	13
Grand total for Lindsay	115
Grand total for Peterboro	106
Net majority for Lindsay	9

The games in Peterborough were remarkably close and the exhibition of curling given by the Foote-Flavelle clash was well worth the seeing. Skip Davidson had to play an accurate and steady game to get the one shot lead on his opponent, and though W. G. Ferguson was out-curled by Butler, he played the game to the end. J. H. Connal walked away with his game, putting the Burke quartet away under an eleven shot lead.

The Lindsay ice and Lindsay curling was too much for the Peterborough men in Lindsay, who, fighting to the finish went down under a 13 shot lead that leaves the cup still with the town braves.

COLLEGIATES FINISHED TIED

Fifth Form Seven Were Ahead at the Halt

The Fourth and Fifth Form of the P.C.I. played a tie game yesterday at the Brock street rink. The score was 5—5, and the half time count, 2—1 for the Fifth Formers. The No. 5 boys played classier hockey than their opponents, Dickson shining particularly bright all through the game. The Fourth Formers looked at times like a bunch of professional woodcutters out to fell a thousand trees a day, Feeney in goal acting as superintendent, bossing the job and Hill as chief instructor and busiest workman. The way Hill chopped was a wonder to the spectators and in the eyes of the referee Mr. Hutchinson, who sent him on repeated excursions to the penalty box. Matthews and Huycke made a strong defence, and Feeney, the Fourth Form net guarder, did some spectacular blocking. The teams were:—

FIFTH.		FOURTH.
	Goal	
Collins		Feeney
	Point	
Huycke		Throop
	Cover	
Matthews		Gilbert
	Rover	
Dixon		Huycke
	Left	
Langford		Staunton
	Right	
Mowat		Carlisle
	Centre	
Eastwood		Hill

Referee—Mr. Hutchinson, of the P. C. I staff.

ANOTHER TIE.

Another tie game was the outcome of a clash between the Senior and Lower Schools of the P.C.I. The score was 2—2, and the game was fairly fast and close all the way through. Dixon and Huycke were prominent in the ranks of the Upper School, while Rogers, Long and Knapman held up the Lower School play. Matthews did some fine checking at some seasons of the game.

The teams were:—

Lower School.		Upper School
	Goal.	
Hill		M. Huycke
	Point	
Howden		Matthews
	Cover	
Lowes		D Huycke
	Rover	
Knapman		Dixon
	Left	
Smith		Carlisle
	Right	
Rogers		Taber
	Centre	
Long		Brooks

Referee—Mr. Hutchinson, of the P. C. I staff.

DOCTORS HAD GIVEN UP ALL HOPE

"Fruit-a-tives" saved my Life

RIVIÈRE À PIERRE, Q., May 9, 1910.

"I look upon my recovery as nothing short of a miracle. I was for eleven years, constantly suffering from Chronic Dyspepsia and Indigestion.

I was treated by several doctors and they simply did me no good. During the latter part of my illness, I was so thin that I weighed only 90 pounds, and I vomited everything I ate.

The doctors gave me up to die as the stomach trouble produced heart weakness and I was frequently unconscious. I received the Last Rites Of The Church.

At this time, a lady strongly urged me to try 'Fruit-a-tives'. When I had taken one box, I was much better and after three boxes, I was practically well again, and had gained 20 pounds. I have taken 13 boxes in all and now weigh 150 pounds and am well."

Madame ARTHUR TOURANGEAU.

"Fruit-a-tives" is the only medicine in the world made of intensified fruit juices and always cures Indigestion.

50c. a box, 6 for $2.50, or trial size, 25c. At all dealers, or from Fruit-a-tives Limited, Ottawa.

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up; the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and mental systems are invigorated; all drains cease—no more vital waste from the system. You feel yourself a man and know marriage cannot be a failure. Don't let quacks and fakirs rob you of your hard earned dollars.

NO NAMES USED WITHOUT WRITTEN CONSENT

THREATENED WITH PARALYSIS

BEFORE TREATMENT

Peter E. Summers relates his experience: "I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, but received little benefit. I was induced to consult Drs. Kennedy & Kennedy, though I had lost all faith in doctors. Like a drowning man I commenced the NEW METHOD TREATMENT and it saved my life. The improvement was like magic—I could feel the vigor going through the nerves. I was cured mentally and physically. I have sent them many patients and continue to do so.

AFTER TREATMENT

CURES GUARANTEED OR NO PAY

We treat and cure VARICOSE VEINS, NERVOUS DEBILITY, BLOOD AND URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES and all Diseases peculiar to Men.

In This New 5-Pound Package, Redpath Extra Granulated Sugar Comes To You Pure And Fresh From The Refinery

Of course you know Redpath Sugar. For more than half a century it has been recognized as the standard in Canada. Here, in this new 5-Pound Package, you get Redpath EXTRA GRANULATED SUGAR at its very best. Packed at the refinery by machinery, and sealed up tight in these 5-Pound Cardboard Cartons, the sugar is never touched by hand, or even exposed to the air, until you yourself open the package. Thus it has no chance to pick up foreign flavors in shipping, in storage, or in the open barrel at the Grocer's. Barrel scrapings or other impurities simply cannot get into it.

In the Redpath Package you get sugar as fresh and as clean as if you had caught the crystals as they came from the wonderful machine which completes the refining process.

Besides acting as a perfect protection for the sugar in its journey to your pantry, the new Redpath Package makes a clean and convenient box in which to keep it while being used.

In fact there are just the same advantages in buying Redpath Sugar in the new 5-Pound Package as there are in buying cereals, tea or biscuits in the handy cartons in which they are now generally sold.

Of course every Grocer will also sell Redpath Sugar in bulk or in the 20 lb. cotton bags, to any who prefer it in the old way.

All the leading Grocers will have this new Package on sale. Ask your Grocer for the old reliable Redpath Sugar in the new 5-Pound Package.

THE CANADA SUGAR REFINING CO., LIMITED MONTREAL.

BLACKLISTER ASKED FOR $10

Officer Found Him as He Was Enjoying a Spree

Henry Karney, is on the blacklist and he indulged in a spree yesterday. He was taken to the Police station by one of the officers and this morning Magistrate Dumble assessed him $10 giving him ten days in which to pay it.

Karney appeared very penitent and promised faithfully that he would go to work at once and that he would not drink.

His was the only case before the Magistrate this morning.

HAVELOCK HAPPENINGS

Special Correspondence.

Havelock, March 2.—Mr. Ralph McGuire is visiting at his home in Tweed.

Miss Dolan, of Carleton Place, was the guest of her sister for a couple of days last week.

Mr. Harry Hopkins, of Campbellford, was in town on Friday last.

Mr. George Hodge, who has been C.P.R. superintendent at London, was promoted to the position of general superintendent of the eastern division, with headquarters at Montreal.

Rev. James Skeene, of town, and Rev. Rollins, of Peterborough, will exchange pulpits this Sunday.

Choir Practice

St. John's choir are asked to remain after evensong for a choral rehearsal to morrow night. All choristers are asked to be present.

DIABETES

Is one of the most cruel maladies of which mankind is subject, the many complications arising from time to time, making life seem almost unbearable. For many diseases, medical, scientific, and physiological knowledge and experience gained from years of deep research, has achieved remarkable results, but, up to now, little has been discovered of practical value in the treatment and cure of Diabetes. In fact, people have begun to look upon the disease as well-nigh incurable. Even in the medical profession can be found doctors who are of the same opinion, regarding sceptically any claim to ameliorate or improve the condition of a diabetic patient.

It can, however, be proved that SANSOL'S ANTIDIABETES lastingly cures all cases of Diabetes. Full particulars can be obtained from the Sansol Mfg. Co., Winnipeg, Man.

PRICE $2.00 PER BOTTLE.

From McDermid & Jury, Druggists.

LOCAL CHURCH CALENDAR

SUNDAY, MAR. 3, 1912

ST. PETER'S ROMAN CATHOLIC.

Abbey's Effervescent Salt

A good stomach and a merry soul are inseparable—lacking which, try Abbey's Salt.

25c and 60c bottle.

Sold everywhere. 80

Acute Dyspepsia

Restoration of Stomach Power Comes Quickly With the Right Medicine.

"My food seemed to decompose in my stomach," writes Mr. Ralph Clemmens, of Newbridge, P.O. "I had a stomach that failed in some way to perform its work. Digestion seemed more or less arrested and I grew thin, yellow, nervous. The stomach became distended and impeded apparently the action of the heart, for often at night it would do great stunts. At times I would vomit a mucous mass, and at these times my head ached most terribly. A friend, who had been cured of a similar condition, advised me to take Dr. Hamilton's Pills regularly, which I did. The result in my case was simply marvelous. Dr. Hamilton's Pills removed the cause, strengthened the stomach, excited the liver to normal action, the kidneys were released of excessive work. Health soon glowed within me. I can now eat, sleep, and live like a live man."

Be advised—Use Dr. Hamilton's Pills—they are sure to do you good. 25c per box, at all dealers, or The Catarrhozone Co., Kingston, Canada.

Dr. Hamilton's Pills Cure Indigestion Dyspepsia

C. G. E. ERECTING FINE BUILDINGS

Additions to Plants in Peterboro and Montreal

The Electrical News, of Toronto, in its issue for March says;—The Canadian General Electric Company, Limited, are erecting at their Peterborough works a new stores building, 425 feet in length by 80 feet in width, equipped with electric cranes and all other modern facilities for handling stores of finished apparatus and raw materials. Owing to the growth of the company's business the volume of materials to be handled has increased to such an extent that the erection of the new stores building has become imperative, and when completed will add very greatly to the facilities of the Peterborough works.

A handsome office and warehouse building will also be erected in Montreal. The Canadian General Electric Co., Ltd., have branch offices and warehouses located as follows:—Halifax, Montreal, Ottawa, Cobalt, Porcupine, Winnipeg, Calgary, Nelson, Prince Rupert and Vancouver. The head office building in Toronto, Halifax office and warehouse, Winnipeg office and warehouse, Vancouver office and warehouse, and the Porcupine office and warehouse are owned by the company and have been built especially with a view to the requirements of the company. In Montreal, however, the company occupy a rented building, the lease of which expires in 1912, and which the operations of the company have outgrown for some time. They have now purchased a splendid building site on St. Antoine street, opposite the new Windsor street station of the Canadian Pacific Railway. Plans and specifications have been prepared by Messrs. Ross & MacFarlane, architects, and accepted by the company, which will provide for a very handsome office and warehouse building, 45 feet by 150 feet, five stories in height, built of cut stone and pressed brick, which it is anticipated will be ready for occupancy by the end of the current year.

"Fighting Joe" Apologizes.

London, March 2.—(C.A.P. Cable.)—Mr. Holcombe Ingleby, M.P. for King's Lynn, sued Mr. Joseph Martin, M.P. for St. Pancras, for slander, alleging that he repeated false charges, that Ingleby corruptly treated the electors. Sir Clarke, counsel for Mr. Martin, said he had used words which carried an imputation he had not intended and therefore he would express regret and would bear the costs of the action. This satisfied Mr. Ingleby.

Textile Industry for Guelph.

Guelph, March 2.—It was learned yesterday that two more factories are privately negotiating for locations in the east end of the city. One is a textile concern, and rumor connects it with a present factory that may be taken over and enlarged into one of the largest textile plants in Canada. The other factory, whose promoters are making a deal with the city, would employ two or three hundred hands.

Resigns After Twenty Years.

Brantford, March 2.—Joseph Stratford, for twenty years general manager of the Farmers' Binder Twine Co., has resigned office. He is succeeded by William Irwin.

A Lazy Liver

Upsets the Whole System. Dr. Morse's Indian Root Pills Put Things Right Again.

His liver is so sluggish—his stomach bad.

A bitter taste in the mouth—coated tongue—dizziness on rising suddenly—bowels alternately loose and constipated—these mean that the liver is out of order.

Instead of flowing into the bowels, to regulate them and aid digestion, the bile has been going all through the system, upsetting digestion, leaving the bowels constipated, and making the sufferer perfectly miserable. This is biliousness.

The quick, safe and certain cure is **Dr. Morse's Indian Root Pills.** They clear out the clogged-up system, stir up the lazy liver, cleanse the stomach and bowels and purify the blood. The bile returns to its normal course, the food is again digested properly and all the disagreeable symptoms vanish.

Doctors prescribe *Dr. Morse's Indian Root Pills* and they are known throughout the world as a proven cure for all digestive troubles. They are equally effective in strengthening weak kidneys and curing rheumatism.

Made by W. H. Comstock Co., Ltd., Brockville, Ont., and sold by all dealers at 25c a box. 15

NEW

SERPENTINE CREPES—We have purchased a lot of bordered Serpentine Crepes suitable for kimonas in almost every color ground in floral and oriental designs. Yard **20c**

DRESSMAKING DEPARTMENT RE-OPENS MONDAY, MARCH 4th

ROBERT FAIR & Co. Limited

QUEEN'S ALUMNI DINNER

What's dearer than College days."

Seldom has a more brilliant and successful function been held in Peterborough than the third annual banquet of the Queen's Alumni Association, given last evening in the pleasant surroundings of Coleman Bros.' grill room. About fifty graduates and benefactors of the historic educational institution assembled to commemorate old friendships, and a more sociable and agreeable gathering would have been hard to conceive.

The dinner was held under the auspices of the Peterborough and Victoria Counties Queen's Alumni Association, and quite a number of guests from a distance were in attendance.

The artistic and appropriate decorations of the banquet room was a striking feature of the affair. The colors of Queen's were very prominent. As far as the bill of fare was concerned, it is sufficient to say, that no pains were spared to provide something especially attractive for the assembled company.

The vice-president. Mr. Richard Lees, occupied the chair, in the absence of President Rev. Jas. Wallace, of Lindsay.

Principal Gordon, the distinguished guest of the evening, delivered one of the finest and most scholarly addresses ever heard in Peterborough. He gave an eloquent and very instructive talk on the duties of citizenship by university men and women. He also referred to the immediate needs of the present day universities and their aims and ambitions.

At the conclusion of the inspiring address a sincere vote of thanks was tendered the distinguished visitor by Messrs. A. Mowat, Inspector of Public Schools, seconded by J. F. Harvey.

The election of officers was also held, resulting as follows:

Hon. President—Richard Lees, M.A., Peterborough.

President—. F. Harvey.

1st President—L. J. Petit, B.A.

2nd Vice-President—R. J. Lawlor

3rd Vice-President—Mrs. G. Brown.

Secretary-Treasurer—Rev. James Rollins.

Executive Committee—Misses Ethel Alford, M.A.; Mattie Robinson, B.A.; M. G. Cameron, and Messrs. E. L. Goodwill, E. K. J. Kirkconnel, R. F. Downey, and S. J. Keyes.

A number of new members were received into the Alumni.

The happy gathering dispersed with the hearty singing of the National Anthem.

WHITHER ARE WE DRIFTING?

One lone load of green tamarack wood occupied space on the market this morning, and great was the amazement of inquiring ones, when the successful opponent of drifted country roads answered $7. The team and sleigh did not form part of the expected sale.

The Queen Alexandra Circle, A. O. F., will hold a social in the S.O.E. Hall on Wednesday evening next. After a program, refreshments will be served.

At 3.34 p.m. yesterday afternoon, the Fire Department had a call from box 45 to Mr. James Ruth's house 208 Lake street. It was a chimney fire.

The Charlotte street men's Bible class will have their usual fifteen minutes' discussion at their meeting at 2.30 p.m. to-morrow afternoon in the body of the Charlotte street Methodist church. The subject will be. "Was Jesus called to be a Carpenter?" This discussion will be in addition to the usual lesson talk.

BOY TELLS HIS STORY

How He Was Punished in Mimico Reformatory

HIS FEET SHACKLED

Dr. Bruce Smith Will Make Thorough Investigation

Toronto, March 2.—The drastic punishment meted out to fifteen-year-old Wilbert Spain, a returned runaway from the Victoria Industrial School at Mimico, was admitted by Chester Ferrier, Superintendent of the Institution, at the investigation being conducted by Commissioner Dr. Bruce Smith, appointed by the Provincial Government, and Mr. R. C. Harris, appointed by the city. Mr. Ferrier did not deny that when the boy returned to the school he was sent to bed in the basement of one of the cottages, his feet shackled by handcuffs for 34 days, a severe strapping on the bare flesh inflicted a week after the shackles had been put on and a long diet of bread and water followed, all by his orders.

Dr. Druce Smith could hardly credit the admission that the superintendent had not been to see the boy until he went to give him the whipping.

TREATED THE SAME WAY.

Several inmates of the school testified to having been treated in a similar manner, but not for so long a time.

Mr. Ferrier, in extenuation, said that the shackling punishment was only used upon runaway boys. He had no cells at the institution for lads could not be kept from running away. It was impossible to keep them locked up in a room. The system he used was the best he could devise in view of the circumstances. He told the Commissioners they had no idea of the kind of boys he had to deal with.

MANY WHIPPINGS.

Startling disclosures were made in the course of the inquiry. The book in which a record of punishments is kept showed an average of one whipping a day, but did not specify the shackling. All the evidence adduced was substantially admitted by the superintendent, with the exception of that given by J. T. Campbell, a former instructor at the school, who alleged numerous cruelties by the superintendent and instructors to the boys, and counter charges of cruelty by Campbell were made, by several inmates of the institution to such an extent that Mr. J. M. Godfrey, representing Mr. Ferrier, announced his intention to have Campbell prosecuted.

Mr. Ferrier alleges that spite work on Campbell's part led to the investigation, and he flatly contradicts the man's sworn testimony that he was not dismissed from the institution.

CAMPBELL PROTESTED.

Campbell warmly protested against the evidence of the boys being taken at the school where they were in fear of Mr. Ferrier.

Handcuffs which had been placed on boys' feet and straps used for whipping were produced and identified, and Dr. Bruce Smith remarked that even in the asylums they did not use handcuffs.

One of the school doctors testified that the punishments were not injurious, and bread and water treatment and weals from whipping did the lads no harm.

The mother and a brother of young Wilbert Spain told pitiful stories of what they had seen when they visited the boy, and these were not denied.

The inquiry was adjourned until next Tuesday at 2 p.m. at the City Hall. Dr. Bruce Smith announced that it would be of the most thorough nature, and would take up everything connected with the management of the school. Mr. G. Tower Ferguson, chairman of the board, and Mr. Beverley Jones were present on behalf of the institution.

The boy, Wilbert Spain, was called and put through a searching examination by Dr. Smith as to his knowledge of the nature of an oath. He is a rather under-sized little chap for 15 years of age. His story was told in a clear manner which impressed the investigators. He was perceptibly nervous at the outset and when asked in what year he was born said in 1876, instead of 1896, but smiled when the mistake was pointed out to him.

Dr. Smith had the lad seated at a small table directly facing him. "I want to look at you," said the Doctor, who warned him again in regard to telling the truth. The boy, became more confident after some remarks by the Doctor, and went on with his story which Mr. Ferrier afterwards admitted to be substantially correct.

"When I returned to school on January 9th," said the youngster, "I went to the office and Mr. Ferrier said; "I guess we must chain you up for a while." He sent for Mr. Parker, who took me to No. 4 Cottage and put the handcuffs on my feet."

"These the handcuffs?" asked Dr. Smith.

The boy was quite sure they were the same. He knew of other pairs around the school, but he knew these for they were a little rusty.

Dr Smith called to an attendant to assist him in unfastening the handcuffs. "We don't have handcuffs in the asylums," he commented.

Wilbert then showed the Commissioners how the handcuffs had been put round his ankles.

"Were your legs bare?" asked Dr. Smith

"Yes Sir."

"Were the handcuffs cold?"

"Oh, they were sometimes."

ONLY REMOVED TWICE.

An attendant was again called to assist the Commissioners and the boy in removing the handcuffs, and then Dr. Smith put the lad through a searching examination regarding the time he wore them. The boy said they were only removed twice during a month and four days; once for an hour, when he was taken to read to the other boys and once for a bath, when he was almost too weak to walk.

"It was on January 16th," said the boy, "that Mr. Gordon unlocked the door and Mr. Ferrier came to the bed and told me to pull the clothes off. He then beat me with the strap."

"How many times—twice?" asked Dr. Smith.

"Oh, it must have been about fifteen times. I didn't count them more than ten."

"What did you do?"

"I cried and said I would not run away again."

"Did he pull your shirt up—was it on your bare skin? Are you sure it was Mr. Ferrier?"

"Yes, sir."

After the beating on the back the lad said he was beaten about five times on each hand.

Dr. Smith impatiently asked why the strap was not in court and ordered it to be produced immediately. "Don't have to go all over the farm to find it," he said.

The strap, which is a substantial looking affair of considerable width, was produced by Mr. Ferrier. "I think that was the one I used," explained Superintendent Ferrier. There was no mark on it to show which cottage it belonged to.

The boy said that after the beating he did not see Mr. Ferrier for two weeks. "He came in then and asked me if I was well enough to get up and go to the shop. I said I was, and he said he would see about it.

SEIZURE OF FISH

Bass Found by Officers At Local Hotel

Acting on information received by Fishery Inspector Watt, a large quantity of fish were discovered in the cellars of the Oriental Hotel at noon to-day by the Inspector, Detective Newhall and P.C. Kidd. The fish it is understood, were mostly bass. The officers took possession of the find, which were in a large wash-tub.

It is understood that police court proceedings will follow.

CHURCH UNION AT ST. ANDREWS

The ballots for the vote on church union have been distributed to the congregation of St. Andrew's church, and may be returned to-morrow at the regular church sessions, and on Sunday, March 11. Ballot boxes will be placed in the vestibule of the church, and the people are asked to place ballots in these, as they are entering or leaving the church.

THE WEARY SMILE THAT COVERS PAIN

Women Are Themselves to Blame for Much of Their Suffering

Women are weak, yet under a smile they will try to hide pain and suffering that any man could not bear patiently. If women would only remember that their frequent failures of health arise from feeble or impure blood their lives would be smoother and they would longer retain their natural charm.

When the blood fails then begin those dragging backaches and headaches; unrefreshing sleep that causes dark lines under the eyes; dizziness; fits of depression; palpitation or rapid fluttering of the heart; hot flashes and indigestion. Then the cheeks grow pale, the eyes dull and the complexion blemished.

Women should know that much of this suffering is needless and can be promptly remedied. Purify and enrich the blood through the use of Dr. Williams' Pink Pills and your suffering will vanish. Thousands of women know that Dr. Williams' Pink Pills have brightened their lives by making the new, good blood of health, and so toning up all the vital organs into healthy, vigorous action. Here is an instance from among many. Miss Cora A. Cornell, St Catharines, Ont., says: "Ever since the age of fourteen I have suffered terribly with pains in my back, and severe headaches. I was also much troubled with indigestion and had to be extremely careful as to my diet, and sometimes did not feel like eating at all. Some two years ago the headaches became so bad that I had to give up my position, which was clerking in a store, where, of course, I was constantly on my feet. I took a position in an office, where I could be seated most of the time, but even then I suffered terribly most of the time. As the medicine I had been taking did not help me, I finally decided to try Dr. Williams' Pink Pills. I got a supply, and soon felt they were helping me, and I continued taking the pills for several months until I felt perfectly well. Although my doctor advised me not to go back to my old position, I decided to do so, and have not felt any ill effect. I never have backache now, seldom a headache, and all traces of the indigestion have disappeared. I cannot speak too highly of Dr. Williams' Pink Pills, and I hope this letter will help someone who suffers as I used to."

Sold by all medicine dealers or by mail at 50 cents a box, or six boxes for $2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

Series Continues

Rev J. R. Webb will give his fifth sermon of the series on the churches of Asia in the Murray street Baptist church to-morrow night.

These sermons are very instructive and have been attended by large congregations.

You, Mr. Clothing Buyer

DEAR SIR,—In the battle of life, appearances counts. It pays to dress well. Dressing well is exceedingly easy when you have the right kind of clothes to select from.

We assure you that at this store, you will see the right clothes. If you will come to see them, we shall take genuine pleasure in showing them to you, and should you want to buy, we can surely please you.

Our Spring and Summer gathering unites the latest and the greatest—the latest styles and the greatest values. It's an exposition of style that will delight the eye of any man who will come to see.

To show these new goods is our greatest pleasure, for we know when a man is shown something that he likes at a price he wants to pay, he is sure to remember where to go for it when he gets ready to buy.

You can learn more about the Clothes we sell in a few minutes spent looking them over and trying them on, than we could ever tell you. So we urge you to come and see them, try them on and see how you look in them.

We would very much like to sell you your Clothing and Furnishings this Spring. We are confident that if you call and inspect our offerings you will make up your mind that this is the store that gives the most for the least money—the most in style, the most in quality and the most in lasting satisfaction.

It pays to investigate. Are you going to? We hope so.

BURN Occo SCRANTON COAL

VOL. LXIV., No. 54 PETERBOROUGH, ONT., CANADA, MONDAY, MARCH 4, 1912 TEN CENTS PER WEEK.

THRILLING FIGHT WITH BURGLARS

Dead Robber Had Girls Photograph on Looking Glass.

Montreal, March 4.—One burglar is dead as a result of a desperate fight between five yeggmen, who had tried to break into the safe of the Royal Bank's branch at Montreal West, and members of the vigilance committee of the town.

The body of the dead man was deposited in the Montreal morgue. It was carefully examined by the police, but nothing that would lead to identification was discovered.

In the pockets were 30 cartridges, a looking-glass with a girl's photograph on the back, and a comb, but no papers.

Chief Carpenter of the local detective force thinks the thieves were young at the game, as they were not supplied with very up-to-date safe-blowing appliances.

Attention was drawn to the yeggmen by the noise they made grinding a hole in the safe in which to place nitroglycerine. A watchman at the Montreal West station of the Canadian Pacific Railway heard the noise, the bank's branch only being across the street. He then called up the chief of the vigilance committee of the town, J. J. Kirkpatrick.

A son of the chief, E. Kirkpatrick, was the first to reach the scene. With revolver in hand, he approached the bank and called upon the guard to surrender.

The yeggman made out that he would offer no resistance, but when Kirkpatrick got to within a few feet of him he fired almost point blank at his chest, the bullet, however, only piercing his coat. Kirkpatrick, in stepping back tripped and fell, and before he could rise the guard had jumped upon him and had taken away his gun.

While the remainder of the men were getting out of the bank J. J. Kirkpatrick came up and opened fire. The yeggmen stopped in the get-away to engage him and for a few moments he was a living target with bullets striking the ground all around him.

Other men appearing, the thieves ran off, with both the Kirkpatricks in hot pursuit. The father caught up with one of the runaways and the two stood and fought out a duel, the chief of the vigilance committee finally shooting the yeggman in the side, killing him.

While Kirkpatrick was examining the body, removing the revolver, which he gave to his son, who had caught him up, a crowd of citizens began to collect. They were banded together and despatched in different directions after the thieves, who had disappeared by this time. Word was also sent in to Montreal to watch for the men.

The whole of the countryside was then aroused and told to be on the look-out.

The men would be plainly seen on the snow in the bright moonlight as they made off.

Volleys of shots were fired after them by the baffled townspeople, but not a bullet found a mark in any of them. The burglars sent one or two defiant shots back and then speeded away towards Lachine.

The burglars only secured a paltry $1.65, an explosion tried only opening the first door of the vault. The $1.65 was secured by rifling the cashier's drawer.

They were working on the second door of the safe when disturbed. It contained something like $3,000.

SEXTON BLOWN THROUGH ROOF

Lantern Believed to Have Ignited Escaping Gas.

Hamilton, March 4.—Wm. Barnes, sexton of St. Andrew's Church, Grimsby, was blown through the roof of a shed, in which was installed the acetylene gas plant for lighting the church for the weekly prayer service. He carried a lantern, and it is believed that this ignited some escaped gas. No person was near at the time, but an explosion was heard by persons who live near the church, and when they went over they found that Mr. Barnes had been blown through the roof of the shed. He was dead when they arrived. Deceased was about sixty-five years of age, and is survived by his widow and one married daughter.

HOUSEBREAKER GETS TWO YEARS

He Leaves Young Wife and Child in Helpless Plight.

Barrie, March 4.—Two years less one day in the Central was the sentence pronounced on Albert Barry Saturday, for breaking into the residence of Mr. W. L. Patterson two weeks ago. As a young wife and child are left helpless, the court expressed the hope that a part of the proceeds of Barry's earnings would be sent for their support.

The residence was temporarily vacant, the owner being in Bermuda, with his family, for the winter. As the thieves pillaged the house from top to bottom. Mr. Patterson is returning two months earlier than he intended.

Lenten Charitable Performance.

Kingston, March 4.—Archbishop Spratt a few days ago ordered seventy-five Roman Catholic children who were rehearsing for a play to be given this week by the Daughters of the Empire, for the local tuberculosis fund, to drop out from the production on account of Lent. On Friday, when he learned of the real object of the affair, he withdrew his order and freely gave his patronage.

At the funeral servi i ıthe English at church Assouan, where the late Duke o Fyfe died.

MINERS' SUCCESS WILL HAVE FAR REACHING EFFECT; MEANS GAIN FOR ALL

Labor Leaders Declare Minimum Wage Law for Miners Means That all Industries Will Soon Secure It.

London, March 4.—The coal strike, the greatest in the history of the British Isles, is marking time over the week-end. One satisfactory feature is the complete absence of any disorder in the districts affected. All negotiations looking to a settlement have ceased, as the leaders who were recently gathered in London have dispersed to various parts of the country to attend to local matters connected with the strike.

Labor leaders, in speeches during the last day or two, have insisted upon the far-reaching importance of supporting the miners, because now that the Government has decided to institute a minimum wage in connection with the mines, it will be impossible much longer to withhold the establishment of a minimum wage in all industries. Thus the strike will become a triumph for the cause of labor all around.

The next word is with the Government and Premier Asquith's promised statement to-day is awaited with the greatest interest. The Parliamentary whips, however, have not yet made any arrangement for the introduction of a minimum wage bill.

At a mass meeting of the dock workers of Bristol yesterday, a resolution was adopted to the effect that imports of foreign coal should not be handled.

Most of the railways announce a further curtailment of their services, beginning to-day. Fourteen stations in London will be closed down altogether until the strike ends.

French Miners Also?

Paris, March 4.—The possibility of the French miners following the example of the English workers, while remote, nevertheless exists. This subject was discussed by the national congress held recently at Angers, but the decision was left entirely to the discretion of the executive committee of the Miners' Federation, who, it is known, will order a strike only in the event of Parliament acting unfavorably on various reforms for which the miners are now agitating. So that a strike of the French miners could not, strictly speaking, be considered a movement in support of the English strikers.

Several district committees of miners have voted in favor of a 24-hour strike on March 11, with the possibility of continuing it indefinitely, if Parliament does not take the hint. But the attitude of a majority of the miners in France appears to be on the whole conservative, although it is difficult to determine the extent of the influence exercised by the British strike on the minds of the French workers.

MOTHER KILLS HER CHILDREN

Salem, Ore., March 4.—Because of her inability to earn enough money to keep her four children from starving, Mrs. L. F. Jellson, 36 years old, administered cyanide of potassium to each of them and then drank a dose herself. All five are dead.

WOULD RATHER DIE THAN GO BACK

Brockville, March 4.—Cecil Rathwell, of this town, who was for a while confined to the Industrial School at Mimico because his parents wished to cure him of truancy and cigarette smoking, says he would rather die than go back.

In his five months' stay, he said, he had suffered at least six severe whippings—"trimmings" he called them. On one occasion he had been caught smoking, and he says he was made to kneel with his arms resting on a chair and beaten upon the naked back with a piece of tug strap. The strap raised great welts and weals upon his flesh, and one blow curled about his abdomen, cutting him severely.

Another boy who let a cow get loose was knocked down and kicked.

He also says a matron struck him over the head with a bunch of keys because he smoked.

FOREIGN TROOPS ACTIVE IN SUPPRESSING MUTINIES

Sun Yat Sen is Ready to Take Over Task of Government of China.

Pekin, March 4.—Eight hundred foreign troops yesterday patrolled the outskirts of the legation quarters for three hours, but there were no disturbances. There are now 3,000 foreign troops in Pekin, and the natives feel safe. Five thousand Japanese troops have been ordered from Port Arthur to Tientsin, where there are only 1,500 foreign soldiers.

Most of Yuan Shi Kai's troops left Pekin yesterday for Paotingfu, to suppress the mutiny. The cannonading heard on Saturday was caused by an attack by the mutineers on Tungchow, which was occupied and sacked. The homes of many of the nobles and princes in Pekin have been looted. More than 100 executions have taken place. For the most part the victims were civilians and included six females. Apparently the authorities are afraid to execute the soldiers.

A large detachment of Inniskilling Fusiliers went to Fengtai yesterday morning to relieve the Somersets, who returned to Pekin.

Dr. Sun Yat-Sen, the acting President, is ready temporarily to assume the whole responsibility of administration. The delegates suggest a combination of the best northern and southern troops and the establishment of a great police force, with headquarters at Pekin. For the present the south is orderly and the soldiers are practically confined to barracks. Last night the Gendarmie was policing the streets. An occasional shot is heard, but the fires have been extinguished.

As the railways between Pekin and Tientsin are again opened the 2,000 American troops of the 15th Infantry, under Major J. M. Arrowsmith, arrived here yesterday. They came through from Tientsin without incident, although they had placed a Maxim gun on a flat car in front of the engine in case it might be needed.

The mutinous regiments are now being despatched to the south by train for the dual purpose of relieving Pekin and preventing the Paotingfu mutineers from approaching the capital. No word has been received from Paotingfu owing to interruption of the wires, but confidence is felt that most of the missions at that place have survived the arson and pillage there.

DADDY, DON'T SHOOT

London, Eng., March 4— A little boy's appeal to his father not to shoot him and the other children was referred to at an inquest yesterday on the body of Ernest Wolstenholme, of Kentish Town.

The widow said that her husband had threatened her life 3 times the previous day, she took a summons out against him. When he heard of this he came to her with a revolver and said he would shoot her, the children and himself. Their little boy, aged six, thereupon exclaimed: "Papa don't shoot us." He then put the revolver to his own forehead and shot himself in the temple.

APPEAL WAS NOT ALLOWED

Chilman Will Have to Serve Sentence of One Year

Special To The Review.

Toronto, March 4.—J. A. Chilman's appeal from his conviction on the charge of receiving money, knowing it to have been stolen from the Canadian Express office at Hamilton, is refused on a judgment given out by the Court of Appeals to-day. Chilman will have to serve the sentence of one year in jail.

Frontenac Conservatives Meet.

Kingston, March 4.—At the annual meeting of the Conservatives of the County of Frontenac, held at the court house Saturday afternoon, Thomas Fawcett, Wolfe Island, was the unanimous choice for president. J. S. Gallagher, Harrowsmith, who has represented the county in the Ontario Legislature for fifteen years, was presented with a letter of warm appreciation for able services.

Hits J. B.'s Pocket.

Ann Arbor, Mich., March 4.—"This is the beginning of the end," said Miss Sylvia Pankhurst Saturday, when informed of the sentence imposed upon her mother, Mrs. Emmeline Pankhurst, leader of the suffragette demonstration in London.

"My mother and the others will go to jail, but women the sooner will have the ballot. Window-smashing hits the Englishman in his pocketbook and he will be stirred to action. Already he is converted to woman suffrage and window-smashing supplies a motive for him to arise and demand of the Government the ballot for our sex."

Miss Pankhurst is lecturing throughout Michigan.

SUFFRAGETTES REPEAT THEIR WINDOW SMASHING TACTICS

Shops in Kensington and Knights' Bridge Districts Suffer—Thirty Women Arrested by the Police.

Special to The Review.

London, Eng., March 4—The suffragettes to-day resumed their window smashing campaign, when twenty of the principal shops in the Kensington and Knights bridge districts were visited and several thousand dollars worth of glass was destroyed.

The police arrested thirty women. One suffragette who was armed with a hammer visited the House of Lords this afternoon and succeeded in smashing several windows before being arrested.

FUNERAL OF EDWARD BLAKE

Great Canadian Quietly Laid to Rest in Toronto.

Toronto, March 4.—With quietness and privacy the funeral of the late Hon. Edward Blake was conducted yesterday morning. At nine o'clock the Ven. Archdeacon Cody of St. Paul's Church conducted a short prayer service at the Blake residence on Jarvis street, after which the body was removed to the chapel in St. James' Cemetery. The regular service of the Church of England was then gone through, and interment took place in the private vault of the Blake family in the cemetery.

An eloquent tribute was paid to the late Mr. Blake by Archdeacon Cody in his sermon at St. Paul's Church after the funeral. Concluding his sermon, in which he emphasized the necessity of individualism in church life, Archdeacon Cody said:

"In speaking of being oneself our minds must have gone out to recall one great Canadian who emphatically would be himself, one who possibly would have been more successful as many would say, if he had not determined to be himself. On this cold, bright white day, so typical of a Canadian day, one of the greatest of Canada's sons was laid to rest without pomp or ostentation, surrounded only by those of his own kith and kin, who loved him best. One of the strongest and most striking personalities in our Canadian life has passed from us."

Boy Robs Drunken Man.

Kingston, March 4.—A Kingston 12-year-old lad has confessed to the police that he robbed a drunken man of $20 on Princess street in broad daylight. The man did not know that he had lost the money, and the case would not have been revealed but for the fact that the boy's school teacher saw the lad flourishing money, and reported it to the police. When questioned the lad confessed, returned the amount with the exception of $4, and his parents will make good this. The man did not care to prosecute. He had $500 in his possession the day he was robbed.

LANCASTER BILL

Ottawa, March 4.—If present plans carry, the question formulated by the Government respecting the Lancaster Marriage Bill and its constitutionality will be formally submitted to the Supreme Court on Monday, March 11.

PROBABILITIES

Northwesterly winds, fair and very cold to-day and on Tuesday.

SIR JAMES WHITNEY SAYS HE WILL NOT ACT HASTILY

Premier is Considering Tax Reform—Has Tried to Find Out What Agitators Would Suggest.

Toronto, March 4.—It was a typical Whitney reply that the deputation of tax reformers got on Saturday afternoon, when they waited on Sir James and the other Cabinet Ministers at the Parliament Buildings. The Premier said the Government was considering tax reform, but would not be hasty about it. More than that he did not propose to bother about what other provinces were doing. Ontario could take care of her own problems.

"We ask that municipalities shall at their own instance tax land values and improvements in a different way. Every city in Canada is seriously considering this proposition and the western cities are going ahead so rapidly under the new arrangement that industries will be going to the west to escape the conditions here."

This was the crux of the argument advanced by Stewart Lyon of Toronto.

Mayor Hopewell of Ottawa spoke chiefly and outlined the proposition for the adjustment of taxation. The mayor explained that a man might hold land in a town or city, and yet not live there. The increased value of the land would benefit him, and yet the municipality got absolutely no benefit from it.

"I don't dispute your contention," interrupted Sir James, "but I think he ought to divide up with the community." (Applause.)

"That's just it," replied Mayor Hopewell. "I don't think I need say a word more."

Sir James asked if the proposition was to have this new arrangement applied to cities, towns, townships, villages, etc.

Mayor Hopewell replied that he favored the plan, because he had confidence that the people would do the right thing. "Experience," he said, "was the only real way of finding out how new ideas will work out. I don't believe for one moment that this reform in taxation would be a cure-all for every human ill, but I do think that everybody admits that some change in the method of taxation is needed."

"Out through the province during the late provincial campaign I tried—and tried hard to get expressions of opinion from individuals," said Sir James in his reply. "I talked to friend and foe, but could get no comment or criticism on the subject, showing that the idea had not yet crystallized. This is a good, healthy state of affairs, and the idea of Controller Hocken should not be lost sight of. Why should we do things like Alberta or Vancouver or across the sea? Are we to confess that we are looking abroad for ideas and are yet unable to grapple things at home. We are quite able to solve our own problems." (Hear! Hear!)

Sir James, in conclusion, said that this matter of adjustment would come up before the assessment committee of the Legislature during the coming summer and it would be dealt with in detail.

He would be glad to again hear the views of the deputation on this or any other matter. There would be no hasty action, and whatever is done will be in the best interests of the province.

LOCAL OPTION

Toronto, March 4 — That "booze" is meeting its Waterloo at every turn, despite the objectionable three-fifths clause, as the temperance workers call it, is shown by figures compiled by Rev. B. H. Spence, secretary of the Ontario Branch of the Dominion Alliance. In 1875 there were 6,185 licenses in the province. For the next ensuing license year there will be less than 1,800. This shows that on an average of 125 and one-third bars have been cut off every year in Ontario for the past thirty-five years.

RECORD YEAR FOR BRANTFORD

Building Operations May Reach Million Dollar Mark.

Brantford, March 4.—The value of the new buildings to be erected here this summer will reach the million-dollar mark and establish an unprecedented record in this city.

Among buildings for which plans have been prepared are new post-office, $200,000; new hospital, $100,000; new dormitory at Ontario Institute for Blind, $65,000; new Holmedale School, $60,000; Y.M.C.A., $100,000; Brant Sanitarium, $25,000; Barber & Ellis' factory, $40,000; besides an unusual number of dwelling houses.

A recent canvass among factories shows that there will also be considerable development and 6,500 employes will be kept busy.

ENGINEER IS MISSING

Police Are Asked to Make an Investigation

Special to the Review.

Ottawa, March 4.—The Dominion police have been asked to look into the circumstances surrounding the disappearance of a young engineer, named Smith, whose home is at Charlottetown, and who disappeared some weeks ago after leaving Cornwall to go to Brighton, Ont. Foul play is suspected.

Died in Church.

St. Catharines, March 4.—David Weir, for sixty years a grocer in this city, expired in his pew while attending morning services at Knox Church yesterday. He was a native of Scotland, but came to this city when quite a young man, and at once engaged in the grocery business, which he continued without interruption till eleven days ago.

During the past year deceased had been in failing health, but death came yesterday with a great shock to worshippers in the church, which he had faithfully attended for many years. He was a bachelor and is survived by a sister.

Deathly Cramps, Stomach was Bloated

A Bad Case That Proves Cramps and Stomach Disorders are Cured Fast by Nerviline.

"The distress I suffered from cramps last summer was so severe I thought it meant death," writes P. R. Emerson, of Guys Hill, P. O. "I was doubled up with pain and in such bad shape I couldn't walk a hundred feet. I remembered having Nerviline on hand and took half a teaspoonful in sweetened water. In five minutes I was well and my stomach derangements disappeared entirely."

NERVILINE AN INSTANT RELIEF

For cramps, flatulence, diarrhoea and disorders of the stomach and bowels Nerviline knows no equal—one million bottles used every year—fifty years on the market, that's proof enough of its merit. Large bottles, 50c., trial size 25c. All dealers or The Catarrhozone Company, Kingston, Ont.

The Daily Review

MONDAY, MARCH 4, 1912.

THE MINIMUM WAGE

Cables of the end of the week announce the beginning of the threatened strike of coal miners, which, if effected in its entirety, will plunge England into a state of affairs unprecedented. Long continued discontent with conditions in the coal mining field has culminated. Just what the conditions are can only be estimated in general, but it is safe to say that as complained of there is ample room for improvement in the condition of the laborer in the coal mines.

The storm centre of the disturbance gathers about the momentuous contention as to a minimum wage. Conferences between the employees, represented by the federated unions and the employers, on the other hand by their business associations, have been held. Gradually the breach has been narrowed, but further reduction stopped on this material point. It is contended that there should be fixed a wage below which no one should be asked or required to work, not even from necessity, if willing to do so from choice. At date about 65 per cent of the employers have conceded the matter, the remaining 35 per cent refusing to agree. It is not improbable that the English Government, rather than that the country force the disaster or a continued cessation of mining may pass legislation imposing on the mine owners the obligation of paying a minimum wage to the men, and by so doing ensuring a return to work and leaving some details to be worked out further on. If this is done the effect will be far-reaching, not only on coal mining, but on all classes of industrial service and work.

It is claimed—and with good reason—that coal mining is a national institution, the very foundation of the industrial life of England, and the end to be attained justifies the means. Other servants of the public have a right to be heard. Railway employees, shipping, postal telephone, telegraph and others are all vital features in the daily life. If the principal be extended to these, and their representations are entitled to great weight what follows? An immediate rise in the cost of the product and service, to be met by increased prices all around. To be further met by increased taxes and levies. And so the inevitable cycle of charge and counter-charge reflects itself and comes back to the wage earner, leaving him practically no better off than he was before. England is fast rushing into paternalism and with old age pensions, compensation and insurance, food guarantees and fixed wages, inevitably there must be a falling off in production. Men will not work to gain for themselves what may be practically assured to them.

Granted that the workman should receive sufficient to allow him to live decently, who is to fix the style of living? Who will place metes and bounds to this? The law of selection will absolutely come into force. Workmen incapable of earning the minimum wage will be left out of service, increasing the number of unemployed. Any way it is looked at, the possibilities are enormous. How will state control and operation of the mines, except temporarily, improve matters? Each succeeding election both parties would be assaulted and upheld with demands for increased wages on the one hand, and with petitions to lower the price of coal, the value of which will have risen on account of the higher wage. England exports enormous quantities of coal, and the Government would actually be placed in the position of selling a great necessity of industrial or naval operations to its worst enemy. Truly the whole situation is involved, and will require the utmost of thought and energy, and if it may be so expressed—dexterity, of the English press to determine.

Wood's Phosphodine, *The Great English Remedy.* Tones and invigorates the whole nervous system, makes new Blood in old Veins. *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhœa, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. *New pamphlet mailed free.* The Wood Medicine Co. Toronto, Ont. (formerly Windsor)

MONROE DOCTRINE

Secretary Knox has arrived at Panama and made his first speech to the Latin Americans, to visit whom he has undertkan this cruise. In it, he touched upon the relations of the Monroe Doctrine to them, and their national security and development; and, among other things, he said:

"While it is entirely clear to those who have fairly and intelligently considered the history of the relations of the United States to the other American republics that our policies have been without a trace of sinister motive or design, craving neither sovereignty nor territory, yet it is true that our motives towards you have not always been fortunately interpreted at home or faithfully represented by some of our nationals who have resided in your midst."

This may be regarded as an apology to Columbia for the "lifting" of Panama. It was a case in which the good intentions of the United States were not "fortunately interpreted at home," or, possibly, they were not "faithfully represented by some of our nationals who have resided in your midst." When the Secretary of State gets to Cuba—if he is going there—he will probably put more emphasis upon another paragraph in his address, in which he said:

"In my judgment, the Monroe Doctrine will reach the acme of its benifience when it is regarded by the people of the United States as a reason why we should constantly respond to the needs of those of our Latin American neighbors, who may find necessity for our assistance in their progress towards better government, or who may seek our aid to meet their just obligations, and thereby to maintain honorable relations to the family of nations."

The Americans, with the best intentions, are obviously assisting the Cubands in their "progress towards better government." The Cubans are clearly profiting, and have profited, by this assistance; and, if they at any time think they are getting too much profit to the lunar month, why, the Americans step in, take over their government, and teach them that it is impossible to get too much of a good thing, and that children are not to be trusted to say when they do not want to take their medicine.

There cannot be the smallest doubt about the benefit of American intervention, in the affairs of the South and Central American peoples, to say nothing of the West Indian Islands. Cuba has prospered as it never did before Porto Rico has gone right ahead under American tuteiage. Panama is about to get one of the two greatest canals in the world, and will be an immensely more important and more prosperous nation that it could ever have been, had it remained a province of lethargic Columbia. The Monroe Doctrine is a fine thing for the weak and uncertain peoples in this New World. It makes them healthy and wealthy and wise.

But would we quite enjoy its application to Canada? Would we like to get American "assistance in our progress towards better government?" Would we bear it patiently if the good intentions of the Americans happened to be "unfortunately interpreted at home" by some ambitious Government which might want a slice of Canada, as the Roosevelt Government wanted a slice of Colombia?" It is to be feared that we would not recognize the great advantages of these benefits if they were conferred upon us. We are stiff-necked people up here; and we had rather be free than fat—self-reliant than boosted along towards better government from the outside.

Still if Canada ever becomes just a little nation of—say—ten millions without the backing of the British Navy, we will come under the benevolent patronage of the Monroe Doctrine; and we will take our medicine, whether we like it or not.—Montreal Star.

NOTE AND COMMENT

Canada has reason to be proud. The latest International Congress to be instituted is that with the impressive title of the "First International Congress of Farm Women." You will observe—not farm ladies. All were wives of farmers—who had gained farm experience, lots of it. The fact for Canada to note is that the President is from Canada, a recognition of the ability and resourcefulness of the Canadian farmer's wife.

What with railroad, law, customs and goodness knows what other Commissions, appointed and to be appointed, to enquire into all sorts of things, we shall presently be commission ridden. Possibly the results may in time bring forth fruit meet for repentance, as in the case of one commission appointed by the United States Congress to investigate and report upon "the industrial, social, moral, educational and physical condition of women and child workers, wherever employed, in the States." The investigation was made. The results are available to the enquiring mind, the report being published in forty-five volumes and at a cost of over three-hundred thousand dollars.

THE MARKET

Latest Quotations in Grain Dairy Products, Live Stock Etc.

CHICAGO, March 2.—Wheat to-day closed strong and at the top price of the week. There were reports that supplies in Minnesota and the Dakotas did not exceed 50 per cent. of normal. Latest trading showed an advance of ⅜c to ⅝c net. Corn finished 1¼c up, oats with a gain of ¼c to ⅜c, and hog products 17½c to 42½c increased in cost.

The Liverpool market closed to-day on wheat ⅛d to ¼d lower than yesterday and on corn ⅛d higher. Paris wheat was 1c to 1¼c higher. Berlin, 1c higher.

Lady Betty Across the Water

By C. N. & A. M. WILLIAMSON

Copyright, 1906, by McClure, Phillips & Co.

a man is rich or poor, or even well born, if only he's made himself a gentleman, body and heart and soul, and is strong and clever enough to take care of you."

The minute she said that the image of Jim Brett rose up before my eyes. I think, though he is poor and perhaps of humble birth, that the girl he marries will be happy and well taken care of.

"You'll hear a lot of talk about money at Newport," she went on, "too much. Among some of the people you'll be with, money's of more importance than anything else. Two or three rich young men are certain to ask you to marry them—very nice fellows they may be, and they will show you heaps of attention—all those that Cousin Katherine will let come near you—and as you're so young and inexperienced you may lose your head a little bit. But do remember that losing your head and being flattered and amused isn't falling in love. A man must be able to make you love him for himself, and that self must be worth loving, for nothing else is any good in the end. And now I'll tell you my story—just in a few words—because it will give you something to think about.

"I'm thirty-two now. When I was nineteen, a year older than you, I cared for a man and he for me. We cared for each other—terribly. But he was poor, and, not only that, he came from people whom mine looked down upon. We loved each other so much, though, that I would have married him in spite of all, but my relations thought it would ruin my life, and they advised and persuaded and implored and insisted, until I was weak enough to give the man up. They took me to Europe, and because I had some money an Italian prince we met in Rome wanted to marry me. They almost argued me into consenting, and though they didn't quite the news went home to Kentucky that I was engaged. The man I really loved—loved dearly all the time, though I was trying to forget him—believed it. Why shouldn't he, since I'd given him up for the reasons I had? He was Catholic, and he went into a monastery we have in Kentucky and became a monk. No one ever wrote to me about it. All my friends thought the less I heard of him the better. And two years later, when I went back home—not engaged, and thinking in my heart that there was and always would be only one man for me in the world—it was to learn that that man had taken the final vows which would separate him from earthly love forever.

"Oh, Betty, you don't know what I suffered. I'd been saying to myself that when I saw him again—as I meant to—I would know by his eyes at the first glance whether he still cared as much as ever, and if he did I would ask him to marry me. But I never saw him again, except with the eyes of my heart, and I always see him so. Not an hour passes that I don't see him so."

"You poor darling!" I exclaimed. And there was a note in her voice that made my eyelids sting. "How little I guessed. And you seem so cheerful and even merry."

"One isn't in the world to be a wet blanket," said Sally. "Besides, one isn't actively miserable every minute for years because one has thrown away one's chance of real happiness. One gets along contentedly enough except in the bad hours, when instead of being a mild gray the world is ink black. But I haven't told you this to get sympathy, dear. It hasn't been quite easy telling, for I don't talk much about the deep down things in myself. I've told you in the hope that you'll remember me and my wasted years if your chance comes to be happy, even if it should be a chance which you think, in a worldly way, wouldn't be prudent or what your people would like. People have no right to try and order our lives, no matter how near they may be to us. It's we who have to live our lives, not they."

For a minute we were both silent, and then Sally said quietly, as if she were glad to speak: "Here comes some one we've seen before. Do you recognize him? And shall you bow?"

Vivace gave such a leap that his leash, which I'd been holding carelessly, was jerked out of my hand. It was my brown man who was coming—Jim Brett.

My face did feel red! Vivace was making such a fuss over him that Sally could hardly help guessing whose the dog had been before he was mine. But I made the best of it. "Of course I recognize him, and of course I shall bow," said I. "He was very kind to me on the dock when I was at letter B."

Sally didn't make any remark about Vivace's capers, though by this time he was wagging all over with joy at his master's feet and jumping up to his knees. I was grateful to her.

In another moment we three had met in the shady path far away from everybody else, and Vivace began running back and forth between his master and me, as if he wanted to make us good friends and not hurt either of our feelings.

"How do you do?" said I, holding out my hand. "What a coincidence meeting you here. And my dear little dog that somebody sent me does seem to take an extraordinary fancy to you, doesn't he?"

Mr. Jim Brett laughed and kept his hat off, which made him look very nice with the dappling green and gold light waving over his thick, short black hair and his forehead, which is whiter than the rest of his face.

He had on better clothes than he had worn on shipboard, but they were blue serge, with the air of having been bought ready made at a cheap shop. In spite of them, however, he looked very handsome, and every inch of him a gentleman. I don't think many men, even in Stan's set, could wear those badly cut things and look as he did in them, though he does have to travel in the steerage.

I asked Sally if I might introduce Mr. Brett to her, and she said yes and smiled up so sweetly that I was delighted, because for all her talk about nature's noblemen I felt I didn't know her well enough to be quite sure how she would take it. But she talked to him charmingly and complimented him upon his bravery on shipboard. "Every one of us admired you for it," she said, "and I'm very glad to meet you this morning."

Mr. Brett thanked her and, of course, said how pleased he was too. "I am taking a holiday," he added, looking at me. I was glad to hear that, because seeing him out at this time the thought had occurred to me that he might have lost his employment at the club. But I only answered that it was a lovely day for a holiday and that I didn't believe he could find a better place to spend part of it than in Central park.

"Have you fed the squirrels yet?" he asked.

"Oh, no. Can one do that?" I exclaimed. "I should love it."

"May I go and get some peanuts?" he said to Sally.

"Do," she said in her pleasant, friendly way, which was just as nice for him as it had been for Stan or nicer. "We will go on to the wistaria arbor and wait for you. There are always lots of squirrels there."

Vivace broke away from me again and followed him, but still Sally seemed to take no notice. "That's certainly a very handsome fellow," she said, "and we can be sure that he's worthy to be trusted, because the wrong sort of men don't jump overboard at sea to save the lives of children they don't know. That is why I feel perfectly safe in being nice to him and letting you be nice. I reckon he is a southern man."

"How can you tell?" I asked.

"Oh, a little by that good looking brown face of his, perhaps, but more by his way of speaking. You English people lump up all together for our 'American accent,' but we can tell whether a person is from Massachusetts or New York or Illinois or Kentucky and so on just as you know Devonshire from Lancashire."

The wistaria arbor, which we soon reached, was like a fairy bower hung with thousands of amethyst lamps, burning perfume instead of oil, and the moment we sat down a troop of the fairy residents, cleverly disguised as gray squirrels, with adorable little faces, began excitedly to talk us over. With heads on one side, they criticised our feathers, our dresses, our hats and finally approved of them so far as to decide that we were creatures they might know. They stole nearer, by twos, by fours, then raced away again, gray and soft as undyed ostrich feathers, blown by the sweet smelling breeze, when they saw my brown man coming back with Vivace.

I was afraid that Vivace would make a dash and frighten them, but he evidently knows how to treat squirrels as equals, not as edibles, for he behaved himself like the little brindled gentleman that he is. Gravely he looked on as Mr. Brett produced six small, brown paper bags, crammed full of the most extraordinary objects. They looked something like wood carvings of unripe bean pods, but it appeared that they were peanuts. They smelt good, rather like freshly roasted coffee, and when you shelled them out of their woody pods they were large, fat beads, covered with a thin brown skin. I couldn't help feeling as if I had known Mr. Brett for a long time, as he sat by us on the bench under the wistaria, helping Sally and me feed the squirrels and shelling peanuts for us to eat too. I do believe there must be something special about peanuts, which gives you a homey sort of feeling if you share them with people. They form a sort of bond of good fellowship, and I can't fancy ever being prim with a man after you had eaten peanuts with him.

Mr. Brett didn't tell us much about himself, but from the few things he did tell I gathered the impression that he has led an open air, adventurous sort of life. He showed that he knows a great deal about horses, and I rather hope he has been a cowboy like "The Virginian," in a delightful book I have found in Mrs. Ess Kay's library. Indeed, I imagine the hero of the story must have looked like Jim Brett. It is a splendid type.

There are over 54,000 Indians in B. C. Only a few of them are on the water waggon.

Lee Dignault's store at Anaconda has been destroyed by fire, with a total loss of $3,000.

QUIET IN PEKIN.

Rioting of Thursday Subsides In the Chinese Capital.

Pekin, March 2.—Yuan Shi Kai last evening issued a note addressed to the foreign missionaries, merchants and other residents of the capital, in the following terms:

"The disturbance in the capital was quite unexpected by me and has filled me with sorrow. One of my chief duties is to preserve order in the capital, and in this I have been hitherto uniformly successful. Unto you who are strangers in a strange land I wish particularly to convey my sincere regret for the occurrence. Every measure of precaution has been taken now to prevent a recurrence."

In the vicinity of the legations everything is quiet now, but a big fire broke out near the north gate and some distant shooting was heard.

A body of 1,500 mutinous troops commandeered a train yesterday and departed for Honan.

The disturbance caused great surprise among the foreigners here. The only foreigner who has fallen a victime was a Japanese. Owing to the real cause of the riots being unknown, opinions are divided in the foreign quarter as to the outlook for the future. Some of the most optimistic consider that a new situation has been created in order to provide Yuan Shi Kai with an excuse for not proceeding to Nanking at the request of the Republicans. Consequently it is thought that the disorder is not likely to spread.

Hebert Will Press Appeal.

Montreal, March 2.—The lawyers for Eugene Hebert, one of the principals in the famous marriage annulment case, had an interview with their client yesterday morning, and as a result of it the first move in the appeal procedure was taken in the courts here.

Hebert told L. J. Lefevre that he was dissatisfied with his position and was anxious to appeal against Judge Charbonneau's finding. He said that he was willing to go as far as he could to secure a definite decision on the matter.

George Grossmith, Sr., Deard.

Folkestone, Eng., March 2.—George Grossmith, sr., one of the best known actors and public entertainers, died here yesterday morning in his 65th year.

He started his career as a police court reporter. For several years he confined himself to giving humorous recitations, but then went on to the regular stage. He made such a hit that he was engaged by D'Oyly Carte to play the leading parts in most of the Gilbert & Sullivan comic operas.

Appeals To Borden For "Rights."

Quebec, March 2.—The Action Sociale, the official organ of the Roman Catholic Church in Quebec, says that the rights of the Catholic minority of Keewatin in regard to separate schools have been sacrificed by the Ottawa Government, and in an article entitled "The Right Does Not Die," makes a pathetic appeal to the actual ruler of Canada for the sake of peace and prosperity, to observe the rights of the Catholic minority in Keewatin.

To Raise School Question.

Winnipeg, March 2.—In a heated meeting of the representatives from all the parishes of the Roman Catholic Church in Winnipeg, it was decided to hold a meeting of protest in Winnipeg next week over the action of the Dominion Government in settling the boundaries of Manitoba and making no reference to the question of separate schools in the province.

Roman Catholics from all parts of the province will be invited to attend the meeting.

She's 100, But Still Skittish.

London, March 2.—Miss Annie Anderson on Thursday night celebrated her 100th birthday, a party being given in her honor. Games and dancing were indulged in until early morning, and despite her age, Miss Anderson took an active part in the proceedings and danced several times during the evening.

To Instruct Australian Navy.

London, March 2.—(C.A.P. Cable.)—Yesterday six non-coms. and 44 petty officers left Tilbury for Australia to form necleus crews for the instructors of the Australian navy. Twenty-three wives and 24 children were included in the party.

Molybednite Near Port Arthur.

Port Arthur, March 2.—George Green of Philadelphia, who has for some time been prospecting in this neighborhood, reports the discovery of large deposits of molybednite, a rare metal used for hardening tools and preserving temper.

Denmarks Former Premier Dead.

Copenhagen, March 2.—Count Holstein-Ledreborg, who was formerly Prime Minister for the period from August 8 to October 22, 1909, died yesterday.

SANOL

The new discovery will positively remove Gall Stones, Kidney Stones, Gravel in the Bladder, and will effect a complete Cure. It will dissolve and remove stones without pain, and there is no necessity for an operation in the future, as Sanol will cure in every case no matter how long standing the disease may be.

SANOL will be found particularly valuable in old cases of Kidney and Bladder diseases.

SANOL is a preparation of herbs and herb extracts, and contains no poisonous ingredients. It's use, therefore, cannot possibly harm either the stomach or intestines.

NUGENT'S STOMACH AND LIVER TONIC

"Felt Better After the First Dose"

That's a great deal to say for any medicine, but we have heard it from those who have taken Nugent's Stomach and Liver Tonic

It is really the best tonic we know of for that "tired feeling" and loss of energy. It is a good appetizer, and enriches the blood.

Especially good for La Grippe.

You, too, will notice an improvement in your condition after the first dose, if your system is in need of a good blood enriching and up building tonic.

A Large Bottle with Pills for 50c

We never recommend a doubtful preparation.

MANY HEARD REV. MR. SOPER

Both services at Charlotte street Methodist church on Sunday were taken by Rev. H. S. Soper, in the absence of the pastor. Large congregations were present both morning and evening, the latter service having the largest congregation present of many months. A very bright and well rendered musical program formed part of the evening worship, supplied by a ladies' choir. Two rousing choruses were sung by the entire choir. A trio by the Misses Lee, Brock and Pringle was beautifully rendered, the voices blending admirably. Solos were given by Miss Brock and Miss Pringle.

Y.W.C.A. NOTES

Mr. S. J. Stubbs, English Master at the local Collegiate Institute, will deliver an address on "Little Things in Poetry," at the Y. W. C. A. to-morrow evening before the Literary Society of the Association.

There will be special gymnasium practice this evening.

Clock Stopped

The Post Office clock has again ceased operations and citizens and warned not to be fooled when hurrying to catch a train. A gentleman in trying to catch a C. P. R. train the other day missed connections through timing himself by the city post office clock.

Alberta Publicity Car at Peterboro March 13th

The Camrose Publicity Club have arranged for a special Grand Trunk Pacific Tourist Car to contain the exhibits of the province of Alberta, to tour Eastern Canada with a view of attracting further settlement to that province.

This car will arrive in Peterboro at 8.16 a.m., March 13th., and will remain on the station siding at the Grand Trunk Depot until 5.35 p.m. the same day.

Everybody interested in this great country are cordially invited to pay this car a visit.

CHURCH UNION

Question Was Discussed By Rev. Isaac Couch —He Favors It.

Yesterday morning in the George street Methodist church, the pastor the Rev. Isaac Couch, delivered a sermon replete with logical and powerful arguments in favor of church union. Mr. Couch explained that he would not ask anyone of the congregation to vote for the union, but as he considered it best to deal with this subject because it had been preached upon in all the other churches concerned, he would present it to the people as it appealed to him personally," Mr. Couch declared. "I am an ardent advocate of Church Union."

The voice of the conferences in Methodism all over Canada had been overwhelmingly in favor of church union and as a result the matter was to be submitted to the congregations of all the churches, and their vote would decide the question.

Rev Mr. Couch claimed that as the people had the one God, the one Father, they should be closer together than they were now. Some made the objection that in Christ's words, He referred only to a union in spirit and not organic union. But organic union would greatly strengthen and aid the congregations of the different denominations to have a perfect union of spirit. Besides, the speaker thought it would be possible to reach many more as one denomination than as three. Again there were those who opposed the union compared the different denominations to brothers and sisters who grow up many live apart, and yet remain brothers and sisters. "Yet these brothers and sisters are always glad to meet every Sunday at one place of worship," was Mr. Couch's answer to their argument. Others submitted that it was too much like business, in attempting to make the people tributary to the church, but the aim of Christ's church was not to make the people tributary to itself but the whole world tributary to the one God and Father. Mr. Couch argued that instead of confusing those immigrants who belonged to the Presbyterian or Congregationalist or Methodist church in the Old Country, it would make them glad to come into such a mighty Church as the three together would make. Mr. Couch went on to say that the union would remedy at once the defects of each church, and mentioned as one of the Presbyterian faults, the fact that their rules left it so difficult and delicate a matter to get rid of an unsatisfactroy minister. Also the union would give added strength to work with the immigrants coming into the country at the rate of a thousand a day, which was impossible now owing to the fact that some very small places had two or three ministers, where if the union came about there would only be one. The union would give added strength to the three churches involved and they would be able to present a front to the heathen nations, that would be impossible to appear so bewildering and confusing as the present different denominations. Church union would be in line with the one ground motive of the churches "Canada for Christ."

"It seems to me," concluded Mr Couch, "that if the great majority are in favor of this union, it will be a great advance towards the event for which the whole creation looks."

AN ADDRESS OF GREAT INTEREST

C. H. Ashley Speaks to Ad. Club To-morrow Evening

All arrangements have been completed for a right, live time, at the Ad. Club meeting to-morrow evening (Tuesday, February 5th,) at Hoopers Palm Parlor, commencing with dinner at 6.15. The speaker of the evening, C. H. Ashley, of the Toronto "Saturday Night," in his address, 'Better Sales and More of Them,' as announced, will throw out ideas and suggestions that will fit right on to local business men desirous of securing more and better business.

The committee of the local club regret that in the quarters provided for to-morrow evening they will not be able to accommodate more than fifty. Interested local business men wishing to attend and hear Mr. Ashley, will need to make sure of a ticket. So long as they last the tickets may be had by 'phoning the secretary, Mr. J. McNichol, at 1,333; Mr. C. F. Hardy, at 606, or Mr. A. A. Fowler at 332.

The meeting is called for 6.15 in order that dinner may be taken together by those interested in advertising and in better things in general for Peterborough, after which they may hear Mr. Ashley and get away from the place of meeting by 8 o'clock, in time to have the evening elsewhere, or to fill other engagements as desired.

THE WEATHER

Judging by the weather of these days, the dandelions are not due for a while yet. On Sunday the mercury reached nine degrees below zero in the morning. Last night it dropped even lower, touching eleven degrees.

"However it is preferable to have the cold weather now than later on," was the optimistic remark of the official recorder.

It is reported that the Government will build a public dock at Victoria Harbor.

SERMON ON DOUBTING THOMAS

Be Honest With God and Yourself Urges Rev. Mr. Keith

A large congregation heard Rev. H. J. Keith at Knox church last night, when he preached on "Doubting Thomas."

The pastor took his text from John 20, verse 29, "Jesus saith unto him, Thomas, because thou hast seen me, thou hast believed; blessed are they that have not seen, and yet have believed."

In his discourse Rev. Keith said that the above expression resulted in the development of Thomas. He believed it had a special meaning for the young people who were seeking one way or the other. The experience of Thomas was proverbial.

THOMAS, A DOUBTER.

Sometimes Thomas was called a "doubting Thomas." The speaker said that we were apt to overlook the fact that Thomas was a doubter. When we searched for material we required in order to follow the life of this servant of Christ, we could not find much. Yet there was sufficient available to follow him.

As an example of Thomas' character, the pastor related the story of the time when the doubter was across the Jordan with Jesus. The Master received word from a friend who was ill in Judea. Though the Jews had been persecuting Christ there, He was determined to see His friend. Thomas said, "Let us go that we may die with Him." Thomas had also kept himself very low. It was not an indication of weakness in his character, but one of great devotion. His devotion was such as was exhibited at the accident at the Niagara gorge, a short time ago, when two men and a woman went to their death. "Would it not be a test of whether we were ready to live for Christ if we were required to die for Him?"

Thomas had doubted the story of the resurrection of Christ. He had doubted the reality of the story but he gave great thought to the claims of Jesus Christ. "Those who have known the joy He brings often wonder how others can doubt," said Mr. Keith. Down in his soul Thomas had wanted to believe, but he longed for the proof that would take away his doubt.

"Thomas was an honest doubter, sincere in his doubts of Jesus Christ. Love had held him as it had held George Matheson, who lived to write that beautiful hymn, "O Love That Will Not Let Me Go."

"Be honest with yourself and honest with God," concluded Rev. Mr. Keith, "Consider squarely the claims of Jesus Christ. Put them to a fair test and you will soon come to believe in the Living Christ. You will come to know Jesus Christ in the greatness of His power."

DAUGHTERS OF THE EMPIRE

A member of the Council of the Daughters of the Empire, from Toronto, will be in Peterborough on Friday of this week, and will address all women of the city who are interested in the formation of a Military Chapter of the Order in the city.

The meeting will be held in the Armories at 3.30 in the afternoon. The wives of all the officers, and non-commissioned officers of the 57th Regiment will be welcomed.

Sang at St. Paul's

Miss Louisa Knight, of St. John, New Brunswick, sang "Come Unto Me" from the "Messiah" last night in St. Paul's church, most acceptably.

Miss Knight possesses a fine soprano voice, and it is hoped will be heard at St. John's Choral Musical on March 19th.

St. John's Notices

Monday, 7.30, annual meeting of the Girl's Auxiliary.

Tuesday, 2.30, W. A. Sewing Meeting; 5 p.m., Evening Service.

Wednesday, 8 p.m., Evening service; Lenten address by Rev. H. Earle.

Thursday, 5 p.m., Evening service; 8 p.m., special choir practice; boys at 7.30.

Friday, 8 p.m., Confirmation Class.

Saturday, 9 a.m., Boys' Auxiliary; 10.30, Junior Auxiliary.

Sunday, 8.30, Special Communion service in connection with young men.

March 15th, address to Anglican Sunday School workers of this city by the Rev. A. R. Hiltz, organizing secretary.

Choral Recital

Oratorio Choral Recital to be held in St. John's Church on Tuesday, March 19th. The final rehearsal for this important musical event now in progress gives promise of a similar choral performance to that of three years ago when Mr. R. J. Devey put on a grand rendition of Stainer's Works. This year Mendelssohn's "Come Let us Sing" will be the basis of the program, and after Evensong last night the choirsters gave an hour to quietly rehearsing the principal numbers. The chorus will number sixty voices.

At Mark Street

At the morning service in Mark street Methodist church on Sunday Mr. J. M. Greene sang with splendid affect, the beautiful solo "How Sweet the name of Jesus Sounds." Mr. Greene's voice was never heard to better advantage.

McEwen Again

McEwen the hypnotist, comes to the Grand March 11th, for a return engagement of one week.

Spring Top Coats

WILLING to buy always a Semi-ready Overcoat, but still believe we cannot fit you on a Suit?

We approve the top coat, and we prove the suit by a guarantee of good service and satisfaction—a real guarantee, too.

Our Spring Overcoats have the "touch" of quiet style and elegance which every well-dressed man is fond of. We tailor that touch into the clothes so that the best work of the designer is held true to design.

$15 to $35—some all silk-lined, and all lined with good materials.

The same price everywhere in Canada as here—the seal's in the pocket.

Semi-ready

The CRESSMAN Company Limited Peterborough, Ont.

Needs Attention

The pavement on Hunter street, between Chambers and Geroge streets is in a very disgraceful and dangerous condition just at present, and the walking is very precarious for pedestrains. This particular portion of the street has been in a bad state all winter, and if allowed to remain so the chances are excellent for some passer-by to sustain serious injuries to some part of his or her anatomy.

On Saturday a farmer was noticed picking himself up after a spectacular fall at this particular spot.

DIED

O'DONOHUE—In St. Josephs Hospital, Peterborough, on Sunday, 3rd March, 1912, Mr. John O'Donohue, of Campbellford, aged 75 years. Funeral at Campbellford on Tuesday to the Roman Catholic cemetery.

Matriculation Class

Mr. Firth's Matriculation Class at the Y.M.C.A. will not meet to-night.

The Trail Smelter employs 600 men and pays about $60,000 a month in wages.

NEW ELECTRIC RAILWAY COMPANY MUST START OPERATIONS NEXT YEAR

Line From Peterborough to Clear Lake to be Completed in 1917.

Other Sections Ready for Business Two Years Later.

Mayor Bradburn was in Toronto last Tuesday in connection with the bill which was presented to the Legislature petitioning the incorporation of what will be known as the Kawartha Transportation Company.

The visit of the Mayor was authorized by the Council at their last meeting and was the result of Ald. Buller's agitation to have the Company once they had been granted a charter, compelled to commence operations within a reasonable time, a motion was put through at the time to have the Mayor and a committee wait upon the Private Bills committee in Toronto, when the Company asked for a charter. Ald. Buller felt at the time that the city should be represented when the bill was presented and that the company should be required to give a specified time in which they would commence operations.

The Electric Transportation Company is composed of the following members: Laurence H. Graham, Edmund R. Tate, Charles W. S. Dunn, Harry G. Fitzgerald, all of the village of Lakefield, and R. B. Rogers and L. M. Hayes of Peterborough. This company, under their charter propose to operate an electric transportation emanating from Peterboro. One branch of this route is to run to Clear Lake, another to Rice Lake and another to Chemong. The company under the provisions of the Ontario Railway Act may acquire by purchase or lease any electric or steam railway operating within the territory specified, and may acquire running rights over any other railway operating within the territory. The company may enter into contracts for the disposing of power for lighting and power purposes to municipalities along the proposed line.

The company may acquire the plant and property for and carry on the business of an express company.

START NEXT YEAR

The most important clause in the charter however, is the one which compels the company to commence operations on the railway from Peterborough to Clear Lake by Sept. 1st 1913, which must be completed and put into operation by Sept. 1st, 1917, and the other sections of the railway shall be commenced, completed, and put into operation within two years. If the section from Peterborough to Clear Lake, is not commenced when the time mentioned arrives, and the other branches not commenced and completed as specified, the powers granted in the charter will become null and void.

There is a considerable amount of speculation in the proposed railway. Such a line should have no difficulty in being financially successful, say for three months in the summer, when the summer traffic is at its height. The company will have to come to the people however in order to secure running rights over the city streets, should they require it.

"THE STAMPEDE" RETURNS TO "THE GRAND" NEXT SATURDAY FOR 2 PERFORMANCES

A play of strong, gripping dramatic force and the most of it supposed to take place in one of the most picturesque countries of North America—the great desert of Arizona—is "The Stampede" which will be the attraction at the Grand Opera House next Saturday matinee and evening. It is one of de Mille's best successes and has been staged by A. G. Delamater, so that it is safe to say that there is nothing lacking in scenic investure and cast. The play comes to the Grand with the assurance of playgeors in nearly all the larger cities of America that it is an attraction above the ordinary, for they have give it their sanction. At the Imperial theatre, Chicago a few months ago it played to record breaking crowds at every performance. Lilian Buckingham, who is considered one of the leading emotional actresses of the Western country will be seen in the exacting character of an Indian girl who for her people's sake gives up her love and happiness to save them.

Scene from Delamater's great scenic production "The Stampede," which returns to "The Grand" for Matinee and Evening, March 9. The seat sale opens Thursday.

CHARGE OF FORGERY

Local Young Man is Arrested at Port Hope

Reg. Winch will appear before his "Buck" Winch, will appear before his Worship Magistrate Dumble, to-morrow morning on a charge of forgery.

According to the information, Winch used the name of the manager of the Chamberlain estate. On Saturday last he is said to have cashed a cheque at the Bank of Montreal, but after his departure the bank teller became suspicious and Chief Thompson was notified. Mr. Chas. Nixon also cashed another cheque given by Winch.

After getting the money he left for Port Hope. Chief Thompson wired to Chief Bond to effect his arrest and when he left the train at Port Hope he was arrested.

Detective Newhall went to Port Hope this morning after the prisoner and is expected to return on the 5.35 to-night.

Local Lady Bereaved

Mrs. Lyle, Pearl Avenue, received news of the death of her uncle, Mr. Thomas Beall, in Lindsay, on Saturday. The late Mr. Beall was one of Lindsay's oldest residents. He was formerly a jeweller, but retired some time ago.

Mrs. Lyle left on the 5.30 G.T.R. train for Lindsay.

THEATRICAL

"MADAME SHERRY"

Madame Sherry, the mammoth musical sensation with a continental reputation, drew two capacity houses to the Grand on Saturday, and the much abused but haunting strains of "Every Little Movement" were heard in the original in Peterborough for the first time. The performance is certainly deserving of its reputation and the company is composed of performers, clever and versatile. In addition the cast is remarkably well balanced and the comedy roles are more equally divided than in many musical productions. The gems of song numbers however are evidently responsible for the great popularity of the play and some of the most delightful and entrancing melodies are contained in the score. Many of the musical numbers are composed mainly to illustrate the popular and insistent craze of the public for the poetry of motion and "Esthetic Dancing, "The Birth of the Butterfly," "The Love Dance" and "The Birth of Passion" were all decidedly new to local theatre patrons.

The role of Edward Sherry taken by Martin Haydon, as a New York man about town, was cleverly carried out. The principal funny man however was James Francis, as Theophilus Sherry, a millionaire connoisseur of Greek Art. Two of his most popular songs "You Can't Argue" and "We're Only Poor Weak Mortals After All," received tremendous applause.

The female roles were all excellent. The costuming and staging was very extensive and the scenic affects most appropriate.

LADIES' AID

To Assist in Work at St. Joseph's Hospital

To assist in the work at St. Joseph's Hospital, a Ladies' Aid Society was organized on Thursday afternoon with the following officers:—

Hon. President—Mrs. Justice Dunn.
President—Mrs. N. T. LaPlante.
1st Vice Pres. — Mrs. Michael O'Brien.
2nd Vice Pres. — Mrs. (Dr.) Frederick.
3rd Vice Pres.—Mrs. L. M. Hayes.
Sec.—Miss M. McGrath.
Treas.—Rev. Mother Superior.

A general meeting is called for Saturday afternoon at three o'clock, in St. Alphonsus Lyceum.

Knox Church Notices

The Young People's Guild will meet to-night at 8 o'clock. There will be a special meeting of the Board of Managers to-night at the same hour.

Mid-week services on Wednesday evening at 8 o'clock.

For its size, Princeton has more banks than any place in the world.

SUCCESSFUL SALE

Greatest Wall Paper Sale Held

OUR SUCCESS HAS SURPASSED ALL PREVIOUS RECORDS

We keep a variety in cheap high-class goods, second to none in Canada. We invite you after looking elsewhere to try us, with length and width of your room and we will tell you the cost — Either at our Peterborough Store at 379 George St., or at Toronto, 262 Queen St., West. Large buying enables us to give you prices not possible outside of large cities. There are only seven firms in our Dominion who can buy over twenty thousand dollars worth of Wall Papers per year, and we are proud to feel that we rank as fourth largest of the seven. The smallest buyer of seven has the same advantages as the largest as all that is required to get the low price is that the purchase amount to ten thousand dollars — Our purchases amount to over that with one firm's goods, not mentioning our purchases of American, English, German, French and Japanese manufacture, which we stock very largely. We would ask you again to examine carefully before making your purchases.

SUBSCRIPTION LISTS FOR BALL CLUB ARE NOW OPEN

Shares Are $5 Each and Number is Limited to 20 for Any One Subscriber.

At a meeting of those interested in the representation of the city of Peterboro in the Canadian Baseball League, the question of whether the league should place a team in the city, or that local capital should control the franchise was discussed. and it was unanimously carried that the latter course would be more in keeping with the business accumen of the citizens and as more beneficial to the welfare of the game.

With that end in view it was decided to organize a joint stock company to be called "The Peterboro Baseball Club Limited," with a capital of ten thousand dollars ($10,000) divided into two thousand shares of five dollars ($5.00) each, the same to be under the provisions of the Ontario Companies Act, and the proper persons authorized to take the necessary steps to procure a charter for the Company. The provisional directors of the company will be announced to-morrow.

The Canadian Baseball League, as constituted last year, consisted of Hamilton, London, Brantford, Berlin, Guelph and St. Thomas. This season the cities of Ottawa and Peterboro have been added, and the rating of the league, by reason of these additions, has been raised from class "D" to class "C."

Representatives from some of the other clubs have been in the city recently and apart from being thoroughly satisfied with the outcome of last season's business, are very optimistic over the ensuing season, as baseball has taken a firm hold in Canada and bids fair to become the national pastime.

For the benefit of those not wholly conversant with organized ball. it might not be amiss to say that minor organizations such as the Canadian League, are under the same paternal wing of the National Comission as the Major League clubs, and are being given better consideration at present in the matter of classification, draft prices and protection than ever before. The salary limit of the league is $1,200 per month, that is the total salaries of the players shall not exceed that figure. The draft price of a player in Class "C" is fixed at $750 this year. The gate receipts are divided as follows:—Saturdays and holidays, 50 per cent and 50 per cent. Other days, 60 per cent to the home team and 40 per cent. to the visiting team. Each team pays its own travelling expenses when on the road, and the players their own keep when at home. The guarantees have been fixed as follows:—Ottawa, $225 per series. Other teams $40 per game. The umpires during the coming season, are to be paid salaries by the league, from a fund set apart for that purpose.

The provisional directors are placing a limited number of shares, say 500 or 600, before the public and lists are in the hands of a few individuals who are authorized to take subscriptions for stock in the company. The number of shares is limited to twenty (20) to any one person and the citizens are requested to subscribe early as the lists will be closed when the above number has been reached.

IT MUST HAVE BEEN THE SHOCK

Skip Thompson Won With Eighteen Shots to Spare

Only one lonely game has been played since Thursday, in the local bonspiel, at the curling rink. Perhaps the shock of the Lindsay clash had something to do with it, but Mr. Foote went down before Thompson's quartet under a 23—5 score. As a result of this game Mr. Foote goes into the fourth round of the consolation and Mr. Thompson into the fourth round of the primary contests.

MERCANTILE LEAGUE MOGULS GET BUSY

On account of the rink management going to remove the ice from the Brock street rink at the end of the present week, and in order to complete the M.H.L. schedule, the following games have been ordered to be played by the respective teams:

Monday, March 4th—Tool Room vs. Lock Works; 10 to 11 p.m.

Tuesday, March 5th—Lock Works vs. Machine Shop, 8 to 9 p.m.

Tuesday, March 5th—Bell Telephone vs. Clerks, 10 to 11 p.m.

Saturday, March 9th—Bell Telephone vs. Tool Room, 7 to 8 p.m.

Monday, March 11—Clerks vs. Tool Room, 10 to 11 p.m.

ALL STARS TOOK FIRST

Junior Champions Took Small End of 4-2 Score

Toronto, March 4 — In a game which was featured with sensational rushes, the All-Stars defeated the champion Toronto Canoe Club Saturday night by the score of 4 to 2 and the All Stars' margin was accomplished in the second half, for the teams were tied at half-time by two to two. Incidentally it was the first time this season that the Paddlers failed to come back in the last half.

The defence of the All-Stars was about the best that has been seen here this Winter, even if they need a larger rink to do themselves justice. Hainsworth, in goal, did grand work, especially in the second half when he saved shots which looked like sure goals. Both Denison, at point, and Armstrong at cover, are two husky boys boys, who know the art of how to stop a man something that some of the senior defences around here have forgotten. Armstrong is perhaps the mroe finished player of the two, his rush in the first half through five of the Paddlers for a score being one of the features of the game. He is a nifty stick-handler and the dodger, and to-night at the Ravina Rink where the ice area is larger, both he and Denison will show to better advantage. The latter is a big fellow, and is slower to break away than Armstrong but once he gets going, is like a runaway train. He got away on several occasions Saturday night, and he certainly opened the eyes of the crowd with his speed and bullet shots

Electric Restorer for Men

Phosphonol restores every nerve in the body to its proper tension; restores vim and vitality. Premature decay and all sexual weakness averted at once. Phosphonol will make you a new man. Price $3 a box, or two for $5. Mailed to any address. The Scobell Drug Co., St. Catharines, Ont.

LAKEFIELD AND T.A.S. TO-NIGHT

Semi-Final in Trent Valley League Creating Interest

There is a splendid sheet of ice for semi-final Trent Valley League game to-night between Lakefield and T.A.S. The northern village is sending along a number of rooters and with the local fans out en masse to cheer the Abstainers it should be like ye olden times when teams from these two clubs used to battle for City League honors.

The T.A.S. line-up will be as follows:—Goal, McFadden; point, E. Lansfield; rover, McPhee; centre, Flappin; right wing, Coughlin; left wing, Odette.

Howie Anderson will referee to-night.

The return game will be played in Lakefield on Wednesday night.

TOOL MAKERS BEAT THE MACHINISTS

The Half-time Score Was 4-0 and Full-time 6-2

In a Mercantile League game at the Brock street rink Saturday night, the Tool Room seven defeated the Machine Shop boys, 6—2. The half-time score was 4—0 and in the final period each team scored twice.

Dwyer in goal for the machinists was given a very busy evening by Hall, Kennealley and Milloy, his old team-mates. He played a stellar game at that.

The Tool Makers have three more games, one each with the Clerks, Lock Works and Bell Telephone teams. The Telephone team leads in the league; without a defeat and the only time the Tool Makers have been beaten was by the leaders. They can tie the league by beating the Bell Telephone when they meet.

BASKETBALL LEAGUE TO-NIGHT

All Teams Shoud Send Representatives to Meeting

There will be a meeting of the City Basketball League held in the Y.M.C.A. building to-night when the following teams who have signified their intention of entering teams should have a representative present, as the schedule will likely be drawn up, Eko Club, Brownies, Collegiate, Hustlers. Any other club wishing to enter a team will be made welcome

Tuesday at 4.30 there will be a meeting held in the Boys' Department of the Y.M.C.A. to organize what will be known as the Juvenile clubs of the city, so that teams wishing to have a part in this league will do well to have a representative present.

SPORT TALK

Quebec took a fall out of Ottawa in the N.H.A. on Saturday night 6—5 in Ottawa and thereby jumped to the top of the heap. It will be necessary for the Senators to win their protested match from Montreal Wanderers next Wednesday night in order to have a chance to draw on even terms with the Ancient Capital.

Wanderers were beaten by Canadiens and thereby lost their last chance to bid for the championship.

Mr. Thomas McGeachie leaves on the 4.28 C.P.R. train for Toronto, where he intends seeing the All-Star Canoe Club game to-night.

Hobe Armstrong, the Trenton boy, is playing in the All-Stars against Toronto Canoe Club to-night, was in the city yesterday. He returned to Toronto again this morning. Armstrong pulled off the same stunt against the Canoe Club Saturday night as he did against the local juniors here, when he got away from the face-off for a goal.

The Mount Forest team are champions of the Northern League. They defeated Owen Sound last night 10-5 after having held them to a tie 6-6 in Owen Sound. The Mount Forest boys were also semi-finalists in the Intermediate O.H.A. series.

Trenton expect to cut some figure in the Intermediate O.H.A. championship next year. They were minus a good defence this year, but will have their junior defence for next season.—Mail & Empire.

Allan Ramsay, the great line plunging centre half of Varsity, the Canadian Rugby champions has gone to Vancouver, where he will go into business. Ramsay was counted upon by Varsity for next year, and his loss will certainly be felt.

Denison and Dwyer are to play on an All-Star team, picked to meet the Orillia Younkers in Orillia on Wednesday.

IN THE WORLD OF SCIENCE

BRITAIN'S COAL SUPPLY

Prophesied Exhaustion of Fuel Will Hurry the Advance of Improved Engines and Machinery.

Scientific calculation goes to show that the available quantity of coal in the proved British coal fields is in the neighborhood of 100,000 million tons, and that if the rate of working increases as it s doing this will be completely exhausted in 175 years. And in the life of a nation 175 years is a span. It is far from certain, indeed, whether the period named is not an extreme one, for the ever-expanding mechanical activity of the world indicates an acceleration of the rate of output on which the calculation is based, and so it is not beyond the range of possibility that the children of those now living may, before they become octogenarians, witness the contraction of industry, the beginnings of the at first slow but afterwards rapid transformation of Britain's great career.

It is pointed out however that this summing up of our learned men does bolt the door against a more hopeful prospect. At present the greater part of the energy potential in the coal mined is wasted. There can be economy in many ways, it is pointed out, by the substitution of turbine engines for reciprocating engines, thereby reducing the coal required per horse-power from 4lb. or 5lb. to 1½lb. or 2lb.; by the further replacement of turbines by gas engines, raising the economy to 30 per cent. of the total energy available in the coal, and thus lowering the coal consumption per horse-power to 1lb. or 1¼lb.; by creating the power at the pitmouth and distributing it electrically, as is already done in the north of England. There are other methods by which economy can be effected, but none of them perhaps so obvious as that of checking waste in the domestic grate as well as the factory chimney.

TWO NEW LAKES

A spectacular feature attending the building of the barge canal, in New York State, is a change in the map of the state that will add to its lakes two bodies of water of considerable size.

A profile of the canal across the state shows a continuous descent from Lake Erie to the confluence of Seneca and Oneida rivers, then a rise to the comparatively low divide in the vicinity of Rome, followed by another continuous descent, to the Hudson. From this it will be seen that there are two critical points in furnishing a water supply for the canal. The problem at the western end is readily solved by the abundance to Lake Erie, but throughout the history of the state canals, the question of supplying the Rome summit level has always presented more difficulties, and has led to the building of a chain of reservoirs among the hills to the south and within the Adirondacks on the north. For the enlarged canal these existing sources are retained, and the two large reservoirs are added.

The work of building the dam and clearing the site at Delta, for impounding the waters of the upper Mohawk, about five miles north of Rome is now about three-quarters done. Across the greater part of the river gorge, 600 feet wide at its base, the dam has reached its full height of 100 feet above the loftiest foundation. When the gaps left for the river and an existing canal are closed, and the top of the dam is extended to its 1,300 feet of length, there will be formed a reservoir some four miles long and two miles wide at the base of its triangular shape, having an average depth of twenty-three feet and a capacity of about 20,750,000,000 gallons.

The Mystery of Glass

A correspondent recently reported what he described as the 'curious freak' of a backbird flying against a parlor window many times at the same spot continuously. Such an incident is not uncommon. Birds have been known to fight for hours at a time, day after day, with their own image reflected in a pane of glass, pecking and fluttering against the pane and quite exhausting themselves in their fury to demolish the supposed rival. It is another instance of how the arts of our civilization corrupt and confuse the birds. It is the same with fishes. Darwin tells a story of a pike in an aquarium seperated by plate glass from fish which were its proper food. In trying to get at the fish the pike would often dash with such violence against the glass as to be completely stunned. It did this for more than three months before it learned caution. Then when the glass was removed the pike would not attack those particular fish, but would devour others freshly introduced. It did not at all understand the situation, but associated the punishment it had received, not with the glass, but with a particular kind of fish. Darwin's American monkeys provnd themselves more 'knowing.'

A New Cave Wonder

"Cathedral Cave" is the name that has been given to a vast cavity in the earth near Prescott, Arizona, in which are found some of the most awe-inspiring works of nature, in the form of stalactites and stalagmites, that the eye of man ever beheld; also there are evidences that the place was used both as a burial ground and as a dwelling by some prehistoric race. The discovery was made accidentally only a few weeks ago, when a picnic party was going through a large cave that has been known for years. One of the party stumbled on a dark and narrow crevice giving access to the glorious "Cathedral." From the floor were picked up human bones and articles, which indicated that the cave had been used as a burial ground by the mysterious people who inhabited the south-west of what is now the United States before the Aztecs. Implements and domestic pottery were strewn about in profusion.

Mr. John Stinson died recently near Red Rock, Verulam, B.C., at the age of 101.

LIBERALS CELEBRATE.

Return of Graham to Commons Is Occasion for Feasting.

Ottawa, March 4.—The Liberal victory in South Renfrew was celebrated by a banquet given to Hon. George P. Graham in the House of Commons by his confreres on Saturday night.

Sir Wilfrid Laurier disclaimed that he had any intention of resigning his position as leader of the Opposition and stated that he would remain head of the party as long as he was wanted and as long as God spared him his health and strength.

Sir Wilfrid presided, having Mr. Low at his right and Mr. Graham at his left, and among others at the main table were N. W. Rowell, M.P.P., leader of the Ontario Opposition; A. B. Copp, M.P.P., leader of the Opposition in New Brunswick; Hon. Charles Murphy, Hon. Sydney Fisher, Hon. Mackenzie King, Hon. Rodolphe Lemieux, Sir Frederick Borden, Hon. William Pugsley, Hon. Frank Oliver, Hon. Robert Jaffray, Hon. Raoul Dandurand, and Frank F. Pardee, the chief Liberal whip.

After expressing confidence that the defeat of reciprocity was only temporary, Sir Wilfrid said his health was so splendid that he could hardly believe himself to be 70 years old. He continued: "There are other things that from time to time recall the flight of years. Yesterday there passed to the great beyond one whom in the olden days was my friend and master. Edward Blake is no more. No Liberal can be indifferent to that event. He was the man who planted the seed of Liberalism in the early days. None but those who came into close contact with him can realize what he did towards the development of those principles which we all hold dear.

"It is one of the sad, sad things in life that memory is so short. The Canadian people of to-day do not realize how much they owe to Blake. Canadians lost one of her ablest sons, her greatest lawyers, and most brilliant Parliamentary orators."

N. W. Rowell and Hon. George P. Graham also spoke.

Dealing with provincial matters, Mr. Rowell said that there was a stalwart band of 22 Liberals in the Legislature, all fighters, already they had compelled Sir James Whitney to adopt three of their proposals, and, he added, "We are ready to continue to supply the brains and the political planks if they will but put them into force."

Darrow May Be Acquitted.

Los Angeles, March 4.—The jury bribery indictment against Clarence S. Darrow, former chief counsel for the McNamara brothers, became so enmeshed in legal tangles Saturday that, according to attorneys, there is a possibility that all charges may be dismissed.

The complications arose when Attorney Earl Rogers, representing Darrow, refused to accept fragmentary notes of testimony as a compliance with a court order that the district attorney supply the defence on which the grand jury had indicted Darrow.

Judge Hatton, who first ruled that the partial transcript was sufficient, and reversed himself last week, added further complications by naming March 11 as the date when the accused lawyer should appear in court to have his case set for trial.

Broke Window To Get Booze.

Kingston, March 4.—Daniel Dogherty, a well-known young man around the city, was caught in the act of stealing whisky from the liquor store of George Thompson, Princess street, at two o'clock yesterday morning by Constable Naylon.

The latter was a block away from the store when he heard crashing glass, and entering the store through an opening caused by the smashing of the glass, he found Dogherty. He was wearing a heavy overcoat and had loaded up with nine bottles of whisky.

Dogherty put up a stiff fight but was landed.

Dogherty served a term at Napanee for theft a short time ago.

W. D. Howells' Birthday.

New York, March 4.—William Dean Howells was the central figure last night of a birthday party which will be memorable in the literary world. The novelist was 75 years old Saturday, and to do honor to him the President of the United States and more than 400 prominent men and women in literature gathered as dinner guests of Col. George Harvey.

To swell the volume of testimony to the eminence to which Mr. Howells has risen in letters, scores of congratulatory messages with tributes, both in prose and verse, were read from literary celebrities all over the English-speaking world.

Smallpox on Cunard Liner.

Portland, Me., March 4.—Six hundred passengers on the Cunard Line steamer Ascania, which arrived here Saturday from Southampton, were prevented from landing by the discovery of a case of smallpox on board. The patient, a steerage passenger, was put off at House Island and the others will stay on board pending an examination by medical officers.

State Control of Life Insurance.

Rome, March 4.—By a vote of 263 to 79, the Chamber of Deputies on Saturday approved the bill providing for a state monopoly of life insurance. As a result national and foreign insurance companies will be gradually taken over by Government insurance institutes.

May Illuminate Falls.

Niagara Falls, Ont., March 4.—That Niagara's cataract may be illuminated by powerful searchlights situated in Victoria Park, at the joint expense of the Province of Ontario and the State of New York, Senator Gittins will to-day introduce a bill at Albany appropriating $50,000 for installing the plant.

The bill provides that Ontario must appropriate a like sum before the fund is available.

E. E. Fraser, M.P.P., has prepared a bill to be immediately introduced in the Legislature of Ontario, which carries an appropriation of $50,000 to cover the proportion of the expense to be borne by the Ontario Government.

GENERAL OROZCO NOW TURNS REBEL

GENERAL PASCUAL OROZCO.

Reports have reached the State Department at Washington that General Pascual Orozco has taken the field against the Madero government in Mexico and is leading a force of fourteen hundred men toward Jaurez. General Orozco is the most aggressive of all the generals who aided General Madero last year.

Coal Results

¶ We sell the very best quality of hard coal, as good as we know how to buy.

¶ Are you getting results from the coal you are now using? Are you sure it is good? Are you burning it the right way?

¶ There is a deal of difference in how you handle the range or furnace. Our long experience tells us that fact, and we are ready to advise any in doubt as to the best way to make use of coal as fuel.

OVER-WORKED KIDNEYS

Cause. Rush of Blood, Fullness, Dizziness.

J. T. Chetland, the well-known railway engineer of Hamilton, found the strain always resting upon men of his occupation vastly intensified by a tendency of the blood to rush to his head, and often at times when clearness of vision and great steadiness were demanded. Finding some difficulty in bending—a stiffness with pain having settled in his back, it occurred to him that his kidneys might be at fault. "This was a happy idea, for by it I not only got rid of the pain but many other troubles as well. I took a full dose of Dr. Hamilton's Pills and was glad to note that some obstruction of the kidneys, which I had lately noticed, was at once relieved. The flushed appearance of my face gave way to a more rational color and there was a perceptible improvement in my appetite. Dr. Hamilton's Pills certainly act splendidly upon the blood, removing heat and fulness and that sort of dizziness that makes a man at the throttle wish when it siezes him that he were elsewhere."

No medicine gives such unquestionably good results for stomach, liver, and blood troubles as Dr. Hamilton's Pills; they are mild, certain, and always curative. Refuse any substitute.

All dealers sell Dr. Hamilton's Pills, 25c per box, or The Catarrhozone Co., Kingston, Ont.

Dr. Hamilton's Pills Cure Kidneys and Liver

WOMAN'S RIGHT

A subscriber forwards the following:—

"Yes I believe in woman's rights,
And yet, why there should be
Such writings, and such talking,
Is puzzling to me.

The thing all seems so simple,
The day that I was wed,
My mother drew me to one side,
And this to me she said,

"Now Jeanie, my ain daughter,
Mind this is woman's right,
To keep things snug and tidy,
And the fire burning bright."

So when 'tis cold and stormy,
I then put on the pot,
And make a stew of something
That's savory and hot.

And when John comes home, cold and wet,
He cries, "Aint this just right,
To find a nice hot supper,
And a fire burning bright."

"No, I do not do much reading,
It is hard to read you see,
With Janie, clinging to my skirts,
And Baby, on my knee.

But when the children are asleep,
And I can sit and sew,
John often then will read to me
The things I like to know.

Some news of my old village home,
A tale, of lovers dear,
Some simple verse, I understand,
Are things I like to hear.

Why no, I do not want a vote,
For John he votes you see,
And I have found that mothers' way
Is just the thing for me.

I am quite happy and content,
And John stays home at night,
When I keep things so warm and neat,
And a fire burning bright.

DEATH WAS DUE TO NEGLIGENCE

Finding of Jury in Fatal Accident at Belleville

Belleville, March 4.—The jury in the inquest into the death of Joseph Spencely, of Lindsay, killed at Belleville on February 14th, found that the deceased came to his death through the negligence of certain employes of the road not issuing the proper orders to the train crew, of which Spencely was a member.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucuous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifers, acting directly on the mucuous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

F. J. CHENEY & CO., Props., Toledo, O.

Sold by Druggists, price 75c.

Take Hall's Family Pills for constipation.

When there is a big fight going on among Americans, it is usually not owing to oppression; it's because the people love excitement and opportunity to beat the tom tom, and tell how much they believe in liberty, and human rights.

THIS SEASON'S SHOWING OF NEW ONE-PIECE DRESSES

A HIGHBALL AND A KISS

Toronto Telephone Operator Tells of Her Flirtation With Breen

Detectives Surprised Them in the Grand Union Hotel

Much local interest is being evinced in the divorce action taken up by Mrs. Ethel Croker Breen, the daughter of Richard Croker, retired boss of Tammany Hall, New York, where the case is being heard.

Miss Maude Diehl, a Toronto telephone girl has been cited by Mrs. Breen as the co-respondent, and it is alleged that Breen misconducted himself in the Grand Union Hotel of this city on the night of Sept. 5, last.

Miss Diehl, a plump brunette, of 22 summers, is very indignant, that such a "slight flirtation" should have such serious consequences.

She admits, however, that she did accompany Breen to his room on one occasion, and she even went so far as to give him "just one kiss," but for all graver charges there is an emphatic denial, which was the sum total of her evidence until the cross-examination of Francis L. Welman, a noted New York lawyer and author of "The Art of Cross-Examination."

PICKED UP ACQUAINTANCE.

Under the guidance of Breen's counsel, W. M. K. Olcott, Miss Diehl explained that she had "picked up" an acquaintance with Breen at the telephone switchboard, and on Sept. 6 last did accept his invitation to dinner at the Grand Union Hotel, and later accompanied him to his room to have beverages out of view of possible friends.

"So you met a perfect stranger, accepted his invitation to dinner, and then accompanied him to his room?" Mr. Wellman asked on cross-examination.

"Yes," said the witness.

"Did you know that he was a married man?"

"No!"

"Did you know that he has been twice married?"

"No."

"You say you had drinks with him?" Mr. Welman asked on cross-examination.

"Yes. One in the dining room. That was a highball.—

"What kind of whiskey do you drink in your highballs—Scotch, rye or American?"

"Oh, I have no preference," Miss Diehl replied.

"What did you have to drink in the palm-room?"

"We had two drinks—rye whiskey and a gin rickey."

"Oh, you mixed 'em, did you,' Mr. Welman mused. "What kind of rum is there in a rickey?"

There was a general guffaw throughout the crowded court-room at this remark.

"Put everyone out of this court-room but the jurors and witnesses," Justice Goff directed a court officer.

When the court-room had been cleared Mr. Welman said that he had meant to ask what kind of gin was used in the rickey mixture. Miss Diehl said she understood sloe gin was the usual kind.

Mr. Welman read from an affidavit that Miss Diehl signed two or three days after the raid on the room in which she and Breen were discovered together.

"He hugged and kissed me" he, read. "Is that so?"

THEN THE DETECTIVES.

"No, not exactly," Miss Diehl replied. "He only put his arm around my waist and kissed me once. I got right up from where we were sitting down in a rocking chair. Then came a knock at the door of Breen's room. I said to Mr. Breen that someone was knocking. He said nothing, and then the knock came again. He got up then, opened the door and in walked two detectives.

These detectives, Stanley P. Gorman and Aug. P. Duryea, of New York, told of having shadowed Breen from Aug. 8th last until Sept. 5th. On Sept. 5th, they said they saw Breen and Miss Diehl go to the former's room in the Grand Union Hotel, Toronto, and later they entered the room under pretence that they had a telegram to deliver.

Breen threw up his hands and said, "Well, it's all up now," the detectives declared.

Later, according to the testimony of Joseph Lockrie and his wife, Breen came into their room in the hotel and told about the raid. He denied that he had been guilty of any wrongdoing, but said he felt blue because he thought he had lost his chance to get some money out of the Crokers.

Mrs. Lockrie testified; "Breen said to me, "I've been caught with the goods. Two New York detectives caught me in my room with Miss Diehl. I certainly am blue over this. I've been a poor man all my life and I guess I'll remain poor. I expected to get a bunch of money from these people. They got me before I got them."

BREEN'S MARRIAGE.

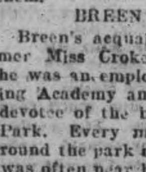
Breen's acquaintance with the former Miss Croker came about when he was an employe of Durland's Riding Academy and Miss Croker was a devotee of the bridle park in Central Park. Every morning she cantered round the park on her pony, and Breen was often near her side to lend a helping hand in managing the steed.

In April, 910, she and Breen slipped quietly across the Hudson and were married by a Hoboken justice of the peace without the formality of announcing their intention to any one. They came back to New York and Breen went to his home and his bride to the home of her brother.

When news of the wedding leaked out Mr. and Mrs. Breen denied emphatically that there was any truth in the announcement. Finally Mrs. Breen sailed to Paris to join her mother and her married sister. Breen, comprehending that he was not to be admitted to the family circle, admitted the marriage and declared that his bride's mother was responsible for keeping them apart.

The steamer on Okanagan lake now carries the mail seven days a week.

Cook's Cotton Root Compound.



The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. TELEGRAPHIC BRIEFS.

Reeve Christie and three councillors of Owen Sound have been unseated for irregularities at the polls.

J. S. Fallows, a prominent western Ontario contractor, dropped dead at his residence in West Nissouri.

Gordon La Motte was sentenced at London to seven years in Kingston penitentiary for shopbreaking and robbery.

Mrs. Pankhurst and other leaders of the suffragette movement were sentenced to two months' imprisonment for window-breaking.

Driven to despondency through lack of employment, George Boxall, aged 40 years, of 161 Dufferin street, Toronto, committed suicide on Saturday night.

Fire of mysterious origin did about $10,000 damage to the building and stock of John Hallam, hides and furs, 111 East Front street, Toronto, yesterday afternoon.

The appointment of Senator Joseph Wood to the Lieutenant-Governorship of New Brunswick is predicted. He will succeed Lieutenant-Governor Tweedie, whose term of office has expired.

The business section of Wingham suffered one of the largest fire losses in years, in the burning of the Beaver Block, early yesterday morning. Altogether the loss is somewhere about $75,000.

Within the past forty-eight hours passengers from three steamers from Great Britain to the number of some seven hundred and fifty have entered the Union station at Toronto on four special trains.

The body discovered on the river bank at Prince Albert, Sask., on Thursday, is obviously that of a man who was drowned, and is probably the remains of Twin Loney, a young man from North River, Ont.

Lachlan Currie, the first white boy born in the Township of Nottawasaga, died at Collingwood on Saturday, aged 74 years. His parents were natives of Islay, Scotland, and come to Nottawasaga about 1836.

James A. Frayer, aged 47 years, of Credit Forks, dropped dead while cutting ice on the Credit River Saturday afternoon. While sawing a block of the ice, he collapsed and fell into the water. Death was due to heart failure.

Right Rev. Bishop Fallon went to Paincourt, Kent County, yesterday and dedicated the handsome new Church of the Immaculate Conception. He preached bilingually, the majority of the parish being French-Canadians.

The doctors of Kingston have decided to raise their fees, in view of the increased cost of living. Kingston Medical Society has appointed a committee to prepare a schedule, which will be from 25 to 50 per cent. in excess of the fees at present charged.

Want Him to Resign.

Quebec, March 4.—A good number of the students of Laval University have sent in a petition to Hon. L. P. Pelletier, the Postmaster-General, requesting him to resign his portfolio owing to the attitude taken by the Borden Government on the question of the Keewatin schools.

Olympic Drydocked.

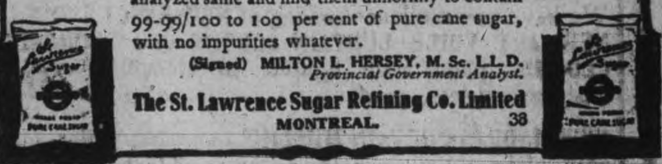
Belfast, March 4.—The White Star steamer Olympic, which, as before reported, lost a blade from one of her propellers while on a voyage from New York to Southampton, arrived here yesterday from Southampton, and has gone into drydock for repairs.

Nicola coal is $10 a ton in Kelowna.

Mosquitoes were seen near Blairmore, B.C., last month.

EVERY WOMAN SHOULD READ THIS LETTER ABOUT

St. Lawrence Sugar



Laboratory of Provincial Government Analyst.

MONTREAL, 22nd February, 1909.

I HEREBY CERTIFY that I have drawn by my own hand ten samples of the St. Lawrence Sugar Refining Co's EXTRA STANDARD GRANULATED SUGAR, indiscriminately taken from four lots of about 150 barrels each and six lots of about 450 bags each. I have analyzed same and find them uniformly to contain 99-99/100 to 100 per cent of pure cane sugar, with no impurities whatever.

(Signed) MILTON L. HERSEY, M. Sc. LL.D. *Provincial Government Analyst.*

The St. Lawrence Sugar Refining Co. Limited MONTREAL. 38

THINKING THEMES

By DR. FRANK CRANE

Conscience is a good thing, and like all good things, dangerous. The crimes that have been committed by men who knew they were doing wrong have not been so fearful as the crimes by those who thought they were doing right.

Canon Gore said a wise thing when he declared that "a man's duty is not to follow his conscience, but to educate it."

A little soul holding on like a bull dog to the tail end of a great principle, and whip-cracking about among his fellows as he follows that principle around in its huge curves, is a deadly menace.

That supreme, life and death loyalty to the right, which has been so much praised, is not always good. Sincerity, faith and devotion are essentially relative terms. And whether they are of service to the soul itself, or to the race, depends entirely on that which is the Object of the said devotion, faith and sincerity. There's only one thing in this universe of men and near-men that is always Good, full of health, soundness and peace, whose apples are of the sustenance of the soul and whose leaves are for the healing of the nations; and that thing is—the Truth. God help the poor fools who live in a little world of their own, full of ardent credulities, firm loyalties, strong enthusiasm—but without Facts. I'd rather know the Truth in a barnyard than love a lie in a temple.

Y.M.C.A. NOTES

The Intermediate Leaders' Corps will hold their regular business meeting and tea to-night at 6.15.

There will be a meeting of the Social Committee to-night at 7.30, it is important that every member of this committee be present.

The regular senior gymnasium class will be held to-night at 8 p.m.

Liverpool Live Stock.

LIVERPOOL, Mar. 2.—John Rogers & Co. cabled to-day that owing to a great decrease in supplies there was an increase of one-half cent per pound in the Birkenhead market. Both States and Canadian steers made from 14 1-2c to 15 1-2c per pound. Prospects are decidedly firm.

Fairbank Plant at Falls.

Niagara Falls, March 4.—The Fairbank Company, Toronto, is seeking a site of forty acres here with a view to making Niagara Falls the chief distributing point for eastern Canada.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Dormitory Royal Military College, Kingston, Ont.," will be received at this office until 4.00 P.M., on Wednesday, March 6th, 1912, for the construction of a Dormitory Royal Military College, Kingston, Ont.

Plans, specification and form of contract can be seen and forms of tender obtained on application at the office of Messrs. Power & Son, Architects, Kingston, Ont., and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, February 15, 1912.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

Careful and prompt attention is assured to all patrons of this Department.

UNDERTAKERS IN DISPUTE

One Claims $5000 Damages From The Other

Toronto, March 4.—"The loud, rude words must have fallen on the hearts of sorrowing friends like coals of fire on an open wound."

These words are from a letter to the Campbellford Herald and form the basis of a libel action between James Irwin, as plaintiff, and Lewis H. Stephens, as defendant. Both are undertakers, and both carry on business at Campbellford.

In the letter to the Herald it is alleged that the defendant stated as follows: That he (the defendant) had arrived at the Campbellford station with his best funeral equippage to receive a corpse that was coming from Kingston. That he waited there quietly and with dignity. That the plaintiff with a casket waggon came galloping at full speed over the hard roads, and in a loud, rough, noisy, angry manner asked what authority the defendant had to be there. The defendant had said that he was there under instructions from Father Casey, whereupon the plaintiff had demanded to know what Father Casey had to do with it. The altercation was stopped by the son of the dead man requesting the defendant to withdraw, and that he would make it all right with him.

The plaintiff is suing for $5,000 damages. The defendant moved to have the trial postponed till the jury sittings at Peterborough on the ground that it was essential to the defence to have the son of the dead man present from Calgary. Master in Chambers Cartwright reserved judgment.

BOTH FEET WERE FROZEN

Henry Clarke Goes to the Hill for Fifteen Days

Rosencath and Local Drunks Fined in Police Court

Henry Clarke came into the city yesterday on a C.P.R. freight train. When he got to the local station his both feet were badly frozen and he went to the police station, where he was fixed up. This morning he was fined $2 on a charge of vagrancy by Magistrate Dumble. He could not pay, and will spend fifteen days at Castle Nesbitt, where he can nurse his injured feet.

Clarke said that he had come from Montreal. He intended going to Toronto. His Worship said that the authorities were looking for men who had robbed the bank in Montreal. Clarke did not look like one who would have any connection with the case, however.

ROSENEATH MEN FINED.

Two young fellows from Roseneath appeared this morning on a charge of being drunk in a public place and they each paid a fine of two dollars.

On Saturday afternoon last they were in charge of a team of horses in East City. The cutter pole broke and they spent some time in vain attempts at repairing the damage. At last the liquor which they had been drinking earlier, got the upper hand and when the police officers arrived, after having been summoned by telephone, the young men were lying alongside the road dead drunk.

DISTURBER HAD TO PAY.

Robert Smith was looking for a fight in the Montgomery House bar on Saturday afternoon and when he found someone to oblige him, P. C. Kidd was called. The officer arrested the disturbers and took them to the police station. Smith was fined $2 with costs, amounting in all to $5.75. He had only $2 with him, but a friend from among the railbirds paid the necessary amount.

DOG POISONED

Mr. Vincent Eastwood Loses His Fox Terrier

The dog poisoners are again at work. "Laddie," Mr. Vincent Eastwood's valuable fox-terrier, is the latest victim reported.

About two o'clock yesterday afternoon the dog was found dead in a laneway at the rear of a George street residence, near Mr. Eastwood's home. It was quite evident that it had received poison.

OBITUARY

Mrs. Elizabeth Kennedy

The death occurred in Omemee on Saturday of Mrs. Elizabeth Kennedy, relict of the late Thomas Kennedy. The deceased had been ailing for one week. Two sons in this city are Messrs. T. R. Kennedy and W. J. Kennedy. One daughter, Mrs. Grigg, resides in Renfrew. The late Mrs. Kennedy was 79 years of age.

The funeral took place this afternoon from her late residence, Sturgeon street, Omemee, to the Emily Cemetery.

Better Farming Lectures

On March 12th, from 12.45 p.m., to 3.15 p.m., lectures pertaining to "Better Farming" will be given in a special train at Peterboro under the Department of Agriculture of Ontario.

Single first class fare for the return trip will be in effect from all stations on Grand Trunk Railway, Lindsay, Madoc Jct., and intermediate stations to Peterboro, good going on all p.m. trains, March 11th, all trains March 12th. Good for return until Wednesday March 13th.

JURY COULD NOT AGREE

Christian Scientist Accused of Having Illegally Practiced Medicine

New York, March 4.—The jury in the case of William Vernon Cole, the Christian science practitioner, charged with practicing medicine without a license, was unable to agree on a verdict after deliberating an hour and a half, and was discharged. It was said that the jury stood eight for acquittal and four for conviction.

Expected to be a test case of the right of Christian Scientists to apply the tenets of their faith to the curing of disease for pay, the trial was marked by spiritual arguments between counsel as to the validity of the Christian Science beliefs, and by an exposition, of them on the stand by Cole himself, which he supported by reading passages from Mary Baker Eddy's "Science and Health," and from the Bible.

EXPLAINS TREATMENT.

Cole testified that he approached disease through the spiritual and bodily or mental side. The treatment he gave, he explained, was "for the purpose of destroying false belief," to put the patient "in harmony with God," and as "all powers belong to God," the treatment consisted of prayer with the patient," he said.

ONCE HEALED A DOG.

Samuel Untermyer, Cole's counsel, who argued that his client was only practising his church's tenet's when he healed, offered to prove by fifty or more witnesses the curing by Christian Science treatment of cases of disease given up by physicians, but objection to their offer was sustained. Cole, however, was allowed to testify that he had successfully treated a dog, whose owner then became a Christian Scientist.

Among the spectators in the court room was Clifford P. Smith, president of the Mother Church in Boston.

There will probably be a second trial.

LOCAL NEWS ITEMS

The Men's Bible Classes of Knox Presbyterian church and Park street Baptist church met yesterday afternoon in the Brotherhood room of Knox church. Mr. W. G. Bartley occupied the chair and after a short service Mr. F. H. Dobbin delivered an address. There were over sixty men present.

St. George's Choral Society will meet for practice on Tuesday evening at All Saint's. The men's chorus is called for half past seven with full chorus at eight o'clock.

VOCAL RECITAL

The pupils of Miss Edna A. Pringle were entertained by their teacher at the home of Mr. and Mrs. John Best, 126 Donegal street, on Saturday evening. The occasion also was a recital by the pupils, all of whom gave a very creditable performance during the following program:

Mason's Floral Emporium WATER STREET

Big Find of Marl

Plans have been prepared by the Portland Cement Company for an industrial plant at Marlboro, about 17 miles west of Edson on the Grand Trunk Pacific, which will cover 9 acres of ground and for which $600,000 worth of steel, concrete, and other construction material has been ordered. Already a hotel and stores have been built and the foundations of the factory laid. At the present time 20 men are working on the preliminary structure and digging excavations for the kiln buildings in which will be generated 3,000 degrees of heat, as well as for the clinker ball mill and for the clinker tube mills which will grind the previously mixed marl and clay clinkers into a commercial commodity as finely ground as wheaten flour.

By April 1, it is understood that 150 men will be working on the plant. Ties are cut and stacked for the spur line on which the building material and clay will be shipped in and the chief engineer is authority for the statement that, working night and day, the plant will have a total capacity of 1,500 barrels of Portland cement a day. Double freight cart loading facilities are being provided so that 20 car loads a day can be despatched. A few years ago when the G.T.P. first pushed over the spot, Marlboro was known only as "Mile 23," for no one suspected that hidden there was an enormous bed of marl, varying in depth from 2 to 20 feet, which would make it the home of the mighty industry so soon to be fully established.

About $5,000 worth of fruit trees will be planted in and around Kaslo this spring.

Child Scalded to Death.

Ottawa, March 4.—Helena Neill, aged 6, fell into a boiler of scalding water which her mother had placed on the floor Saturday afternoon. She succumbed last night to the terrible burns inflicted by the water, though her mother quickly turned and got her out.

Taft Strong In Indiana.

Des Moines, Ia., March 4.—Republican conventions in seven out of eleven counties in the sixth, seventh and eighth Congressional districts Saturday sent instructed delegations for President Taft to the state and Congressional conventions. Two county conventions gave President Taft the majority of delegates. Two other counties instructed delegates for Senator A. B. Cummins.

Roosevelt Leads In Oklahoma.

Oklahoma City, Okla., March 4.—With 49 of the 76 counties in Oklahoma heard from at midnight, in which there were Republican precinct caucuses Saturday, 23 have been carried for Roosevelt, with 190 delegates and 17 were placed in the Taft column with 19 delegates to the state convention. There will be county conventions in most of the counties on Wednesday.

YOU CAN BE ABSOLUTELY SURE OF VALUES

If you carefully read the store advertisements and follow them in your buying.

Merchants advertise certain lines because they know these lines will advertise their stores. Because there is something about certain goods, they are put in conspicuous places and the people are told about them. It may be the exclusiveness or newness of design, it may be an unusual quality, it may be an attractive price.

But there is at least one definite, sure reason why a merchant advertises an article and is willing to stake the reputation of his store upon it.

Therefore, when you see an article advertised in THE REVIEW, depend upon it, that article is good value, as good value as can be obtained in that particular store.

You, Mr. Clothing Buyer

DEAR SIR,—In the battle of life, appearances counts. It pays to dress well. Dressing well is exceedingly easy when you have the right kind of clothes to select from.

We assure you that at this store, you will see the right clothes. If you will come to see them, we shall take genuine pleasure in showing them to you, and should you want to buy, we can surely please you.

Our Spring and Summer gathering unites the latest and the greatest—the latest styles and the greatest values. It's an exposition of style that will delight the eye of any man who will come to see.

To show these new goods is our greatest pleasure, for we know when a man is shown something that he likes at a price he wants to pay, he is sure to remember where to go for it when he gets ready to buy.

You can learn more about the Clothes we sell in a few minutes spent looking them over and trying them on, than we could ever tell you. So we urge you to come and see them, try them on and see how you look in them.

We would very much like to sell you your Clothing and Furnishings this Spring. We are confident that if you call and inspect our offerings you will make up your mind that this is the store that gives the most for the least money—the most in style, the most in quality and the most in lasting satisfaction.

It pays to investigate. Are you going to? We hope so.

VOL. LXIV., No. 55, PETERBOROUGH, ONT., CANADA, TUESDAY, MARCH 5, 1912 TEN CENTS PER WEEK.

COAL STRIKE SPREADS AND FACTORIES CLOSE DOWN

Asquith Tells How He Approached Contending Parties and Opposition Leader Approves.

London, March 5.—(Through Reuter's Ottawa Agency.)—The House of Commons was crowded yesterday afternoon to hear Premier Asquith's important statement on the coal crisis. Mr. Asquith reviewed the whole course of negotiations between the striking coal miners and the mine owners, mentioning the fact that the Government had been closely watching from the beginning the various stages of the controversy. He paid a tribute to both sides upon the ability, the skill and the calm, cool temper with which they had presented their case.

Referring to his speech at the Foreign Office he said it was an impromptu speech and that the report of it which had been published was both correct and exhaustive. He was not in the habit, he said, of engaging in flirtations with socialism and then trying to conceal from the public the manner in which he had been employing his time.

He said that in his arguments to the miners representatives he had carefully abstained from expressing any opinion as to which side was right or wrong, but the point he put to the men was the point he was now putting to the House and to the country as a whole.

He was not adopting a contentious attitude. His object was peace. (Cheers.)

Proceeding, Mr. Asquith affirmed that the Government's acceptance of the principle of a reasonable minimum wage was subject to two conditions: First, that the wage must vary district by district; second, that it must be accompanied by safeguards protecting the employers against abuse and providing against diminuation of the output, which in the long run would be disastrous to all concerned and to the industry. He pointed out that the men recognized both conditions, but declared that the federation's schedule contained the lowest possible rates beyond the range of negotiations.

Coming to the present position, he said that the negotiations had not come to a breakdown, but to a deadlock.

He wished, however, to say also that apart from this the Government was not idle. It felt strongly that the best way of fixing a reasonable minimum wage in the various districts was by agreement between the parties, and he still hoped that that might be done.

Mr. Asquith throughout spoke with extreme gravity, and the House followed every sentence intently.

Mr. Bonar Law, the Unionist leader, said that he did not dream of criticising the Government, nor did he desire to discuss the question. He assured the Premier that the Opposition would do nothing to make the task of the Government more difficult, and thanked Mr. Asquith for his clear and frank statement. (Cheers.)

Strike Slowly Spreads.

London, March 5.—It is quite impossible to hazard a guess as to the probable duration of the coal strike. James Keir Hardie, the Independent Labor member of Parliament, expresses the opinion that the strike will end in a triumph for the miners within ten days, but that the men must be prepared to remain on strike for six weeks.

Premier Asquith's statement in the House of Commons yesterday gave no new information and was only interesting as showing that the Government had not lost hope of bringing the disputants together.

A report was received from Derbyshire of a movement on the part of the miners in the midland counties to bring about an amicable arrangement with the mine owners. Such a partial settlement is hardly probable, but if it really came about, it would do much towards effecting a general settlement.

The coal strike is now affecting every class of the community. Tens of thousands of workers have been dismissed, and the railway service is dislocated and disorganized. Like creeping paralysis, the stoppage of the coal supply is threatening the whole life of the nation. The miners are making holiday. They are, as they put it, "having their fling" while the nation suffers, the poor go cold and hungry, and their fellow-workers are turned into the streets.

Factory after factory is closing down all over the United Kingdom as a result of the national coal strike, and those responsible for the trouble are simply marking time for the present, although it is expected that negotiations will soon be resumed.

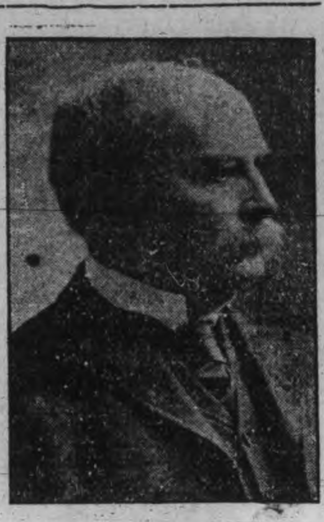
Besides the miners, considerably over a million of whom have ceased work, it is now estimated that there are upwards of 200,000 workers in other industries idle owing to the strike, and this number is being added to hourly.

The crews of coal-carrying vessels lying in the coaling ports are now being discharged, as the ships are unable to get cargoes, and the railroad employes are suffering in a similar way because of curtailment by the various companies of their train services. One short railroad line in Yorkshire has discontinued working entirely.

Husband Was Greatly Worried.

Brantford, March 5.—"The saddest case I have ever heard of," said Magistrate Livingstone in sentencing Arthur Taylor to two months' hard labor here yesterday for theft from John Drake.

Taylor was arrested in Toronto recently, having eloped with Drake's wife. He also took a sum of money belonging to her husband and left a board bill of $60. He has a wife and family in England.



COL. A. J. MATHESON.

The Provincial Treasurer, is not recovering from his illness as speedily as is hoped for.

LOOKS LIKE BIG STICK

Power Companies Appeal to the Hydro-Electric Commission

Special to The Review.

Toronto, March 5.—One hundred and thirty-six electrical companies representing a total capitalization of eighty-five million dollars, appeared through their representatives, before the Hydro-Electric Commission this morning and asked that the new power bill make it clear that compensation for the entire plant of a company should be provided for even when the Commission expropriated only a portion thereof.

The speakers thought that the Commission was taking too much power to itself, and would assume the nature of "big stick" in its dealings with the power companies.

Hon. Adam Beck said that their many suggestions would be considered and he agreed to hear them further through a sub-committee.

LEGISLATURE ADJOURNED

Passed Resolution in Honor of Late Edward Blake.

Toronto, March 5.—Tributes of respect to the memory of the late Hon. Edward Blake occupied the whole time of the short session of the Legislature yesterday. In asking for an adjournment of the House Sir James Whitney moved the following resolution, seconded by N. W. Rowell: "That out of respect to the memory of the late Hon. Edward Blake, former Prime Minister of the Province of Ontario, this House do now adjourn."

The Premier and the leader of the Opposition spoke to the resolution.

Hon. I. B. Lucas, who will deliver the budget speech this session, on account of the illness of Hon. A. J. Matheson, Provincial Treasurer, expects to be ready to make the deliverance on Thursday afternon. It is not definitely decided that he will be prepared, but Mr. Lucas hopes to be in a position to give an extended and detailed account of the provincial finances on Thursday afternoon.

Z. Mageau, Sturgeon Falls, will, tomorrow, ask for a return of all correspondence between the Government and any persons with respect to the construction of the Elk Lake branch of the T. & N. O. Railway.

Is George W. Lee employed by the T. & N. O. Railway, and did he actively take part in the recent federal election in South Renfrew? Mr. Munroe, Glengarry, will ask this question.

Mr. Marshall, Monck, will ask for a return of all correspondence between the Government and the school trustees or Springer Township since Jan. 1, 1911, with respect to the character of teaching of French in the schools of that township.

WOMEN NOW GET HARD LABOR

Further Cases Will be Treated With The Same Punishment

Special to the Review.

London, March 5.—A score of suffragettes, who participated in last night's demonstration were to-day given sentences ranging from one to two months imprisonment with hard labor. This is an innovation as heretofore, the women were merely detained in jail. The suffragettes were notified that in future all sentences for similar offences will include hard labor.

NEW JAPANESE AMBASSADOR AWAITED IN WASHINGTON.

VISCOUNT CHINDA AND WIFE.

Will Begin His New Duties in Washington at Once—Countess Is Popular.

Viscount S. Chinda, once Japanese Consul at San Francisco, is on his way to Washington as Ambassador of his country to the United States, succeeding Viscount Uchida, who has been made Japanese Minister of Foreign Affairs. Viscount Chinda is accompanied by the Viscountess, whose appearance in Washington society is awaited with interest, while the diplomatists of the capital anticipate with pleasure renewing their acquaintance with the astute Japanese statesman.

PHYSICIAN IMPLICATED

Dr. Hawke Blamed for Death of Toronto Woman.

Toronto, March 5.—"Esther Davidge came to her death at the Western Hospital, Toronto, on Sunday, March 3, 1912, as the result of blood-poisoning, the said blood-poisoning being caused by an illegal operation performed by Dr. B. E. Hawke of 21 Wellesley street, Toronto."

This verdict was returned at the morgue last night by a jury under Coroner Young.

Before they retired the jurors were told by the coroner that they could mention the husband of the deceased in their verdict if the evidence influenced them to do so.

An ante-mortem statement taken at the hospital on Friday night was read. Mrs. Davidge said Dr. Hawke had been chosen to perform the operation because a year previous she and her husband had read in the newspapers of his having performed an abortion on a young girl.

She stated that her husband had given her $25 which she paid Dr. Hawke.

Staff-Sergeant McKinney told of an interview he had had with Mr. Davidge in Staff Inspector Kennedy's office.

Mr. Davidge, according to the witness, said he and his wife had discussed the question of an operation. The husband had stated, however, that he did not know the operation had been performed until his wife told him about it after being taken ill. He gave as a reson for desiring it that a physician had told him that his wife would not survive the shock of another childbirth.

SASKATOON DOCTOR MAY NOT LIVE

Was One of Seven Passengers Injured In Railway Accident.

Special To The Review

Winnipeg, Man., March 5—Seven passengers were seriously hurt, one of them Dr. Sharling, Saskatoon, probably fatally, when the rear sleeper of a Canadian Northern train jumped the tracks and rolled down the embankment near Saskatoon, early to-day.

Winnipeg, March 5.—Later.—The wreck occurred on the bridge between Natuna and Saskatoon, not on an embankment. Bridge collapsed and the car fell sixty feet. It is feared upwards of ten bodies are in the car under water.

HON. GEO. FOSTER ON COMMISSION

Natural Resources of the Empire to be Investigated.

Ottawa, March 5.—Hon. George E. Foster, Minister of Trade and Commerce, has been recommended for appointment as the representative of Canada on a royal commission which has for its purpose the investigating and reporting upon the natural resources of each part of the Empire, the development attained and attainable and the facilities for the production, manufacture and distribution of these resources.

The commission has also for its object the investigation of trade of each part of the Empire with the others and with the outside world, the food and raw material requirements of each and the sources available. The commission will also investigate to what extent, if any, the trade between each of the different parts has been affected by existing legislation in each, either beneficially or otherwise.

This recommendation is the direct result of the Imperial Conference held last June in London. During that conference, Hon. Mr. Fisher, the Premier of Australia, had on the order paper on June 16, two resolutions urging that trade between the different parts of the Empire should be more fully developed.

Sir Wilfrid Laurier proposed on that day that something more should be brought before the conference and moved the following resolution: "That His Majesty should be approached with a view to the appointment of a royal commission representing the United Kingdom, Canada, Australia, South Africa, and Newfoundland, with a view of investigating and reporting upon the natural resources of each part of the Empire represented at this conference, the development attained and attainable and the facilities for the production, manufacture and distribution; the trade of each part with the others and the outside world, the food and the raw material requirements of each and the resources thereof available. To what extent, if any, the trade between each of the divergents has been affected by existing legislation in each, either beneficially or otherwise."

ARMS WILL GO INTO THE SEA

New York, March 5.—Fearing to conflict with the Sullivan law governing the possession of firearms, Police Commissioner Waldo announced yesterday that the usual yearly sale of firearms and other weapons which fall into the hands of the police would be abandoned this year and instead the present collection, valued at over $8,000, would be dumped into the sea. Arrangements have been made for a police boat to go out early Thursday morning, loaded down with 1,500 revolvers, 200 shotguns, 100 rifles, 250 blackjacks and knives of all shapes and sizes, all of which will be thrown overboard.

BOTH PARTIES ACT WARILY IN BOUNDARIES DISPUTE

MRS. PANKHURST.

Now serving a two months' sentence in jail for her part in the demonstrations in London.

MAYOR BRADBURN

Since the day of the unanimous election of Mayor Bradburn to the highest municipal office that the city can bestow upon any man, it must be apparent to all who have the interests of the city at heart, that an aggressive and progressive policy has been inaugurated.

Mayor Bradburn grasped the helm with the assurance that this city could be improved in many ways. Already his able management is bearing fruit. He is directing his abundant energies into channels that are leading towards the establishment of Peterboro as one of the most desirable cities in Ontario. The undertakings at present in progress constitute the surest kind of evidence that the city will be able to look back upon the year 1912 as one in which some important and necessary municipal problems were tackled and successfully engineered.

Ex-Ministers Fail to Agree on So-Called Faults of the Settlement.

Liberal Attacks Lack Fire and Opposition Interest Seems Small.

Ottawa, March 5.—The Manitoba boundaries bill was introduced by Premier Borden yesterday for a second reading, and the debate which was expected to set off a series of fireworks was almost as tame and as dull as the discussion on the grain act. There was not a breath in regard to the school question by either side.

That the opposition to the measure is petering out is shown by the very evident lack of enthusiasm displayed by the Liberals and the very perfunctory line of argument which was followed. The attack was surprisingly weak and there was dissension in the Liberal ranks over the measure was shown by the small Opposition attendance and general lack of interest.

With regard to the date from which the financial provisions should take effect, the Premier, in introducing the bill, recalled that, as far back as 1884, Manitoba had laid claim to the territory now granted her. This claim had been renewed in 1891, and at the constitution of the new Provinces of Alberta and Saskatchewan in 1905 when Sir Wilfrid Laurier had given as the reason for not complying with the request at the time that Ontario and Quebec had not been consulted.

Why should Manitoba suffer from that delay? asked the Premier. The present Government had not seen fit to go back as far as 1905, which Manitoba asked, but in as much as the boundaries now settled had been approved by unanimous resolution of the House in July, 1908, it was only just and right that the financial arrangements should go in affect as on that date.

But it might be asked, said Mr. Borden, why Manitoba should be given any compensation at all. This principle, he declared, had been approved by Parliament in 1905 when the late administration fixed the terms of the constitution of Alberta and Saskatchewan. She could surely not object to it now.

Hon. William Pugsley replied to the Premier. The unanimous resolution of 1905, he claimed, was not a bargain. It had not been agreed to by Manitoba, and remained incomplete till now. It was therefore not binding on the Dominion or the province.

Why not deal with the claims of British Columbia? he asked. Why not show consideration to the Maritime Provinces, which had borne the burden of confederation? He did not like the "sweet bye-and-bye" argument. It was all very well to say that this would be attended to when the western provinces were given back their lands, but the time to deal out justice to the Maritime Provinces was now.

He called on the Premier to let the question stand over till a conference of Provincial Premiers could be held and a basis arrived at that would give satisfaction to the whole people of Canada.

Arthur Meighen (Portage la Prairie) pointed out to Mr. Pugsley that periodical readjustment had been made from time to time since confederation of the financial terms of the provinces in lieu of debt, and no objection had been raised.

He taunted the Opposition with endeavoring to work up jealousies among the provinces on the ground that Manitoba was getting too much, while their party friends in the Manitoba Legislature were shouting that Manitoba was getting too little.

Hon. Frank Oliver protested against the Dominion handing over to Ontario "the only piece of property of real value," in the territory annexed to Manitoba. The arrangement was fair neither to Manitoba, Ontario, and the Dominion. Ontario had the port of Nelson, but had no jurisdiction; Manitoba had the jurisdiction, but not the port. If it were fair to give Ontario the port, it would have been possible to arrange the boundary so as to give her jurisdiction over it.

He contended that the increase in debt allowance to Manitoba was unfair in comparison to Alberta and Saskatchewan, which had much larger effectively populated areas.

J. A. M. Aikens (Brandon) said the bill had met with favor among the Opposition when one ex-Minister (Pugsley) had complained that Manitoba was getting too much, another (Oliver) had complained that she was not getting enough.

The whole policy of the Opposition, he said, was to sow seeds of discord between the provinces, so that out of the havoc that would result they might somehow derive political benefit. The same thing was seen in the resolution of Mr. Rowell in the Ontario Legislature that the boundary should be extended to Fort Churchill.

STUDENTS RETALIATE

Suffragettes Paid Back in Their Own Coin.

Windows of Their Headquarters Broken by Stones.

London, March 5.—The suffragettes started operations again early yesterday morning. A small band of them, armed with hammers and stones, went through the Knights Bridge and Brompton road district, in the west end of London, breaking up the plate-glass windows of the big drygoods stores in that neighborhood. As usual, owing to the disturbance being unexpected, the police on duty in the district were unable to cope with the suffragettes, who were distributed over a wide area.

The storekeepers and their staffs of employes were compelled to do sentry duty in the front of their premises, but in many cases were unable to keep the women from doing damage.

A detachment of mounted police was the first reinforcement to arrive on the scene. One of them was immediately dragged from his horse by excited women.

In one store alone damage to the extent of $1,250 was done. Thirty women were arrested.

The windows of the Marquis of Crewe's and the Lord Chancellor's residences were smashed with hammers yesterday morning during the suffragettes' raid.

Ellen Pitfield, the suffragette who attempted to set fire to the general postoffice of London Sunday evening, was yesterday committed by a magistrate for trial at the Old Bailey sessions.

The much advertised meeting in Parliament Square last night, to protest against the refusal of Premier Asquith to receive a deputation, proved a fiasco, so far as concerned the sensational display of militant powers and cunning, which was predicted by the organizers. About fifty women were arrested, but the damage done was inconsiderable, as compared with Friday's raid.

While the militant suffragettes were vainly endeavoring to break through the cordon of police round about Parliament Square, the two hundred medical students organized a raid upon the suffragette premises to pay them back in their own coin. Marching to the building occupied by the women's press in Charing Cross road, where there was a big display of suffrage literature, they bombarded it was stones, smashing all the windows to an accompaniment of cheers from the delighted spectators.

Another band, bent on retaliation, attacked the International Suffrage Shop in Adam street, the Strand, smashing a big plate glass window and wrecking the front of the building.

Asquith Family Threatened.

London, March 5.—Mrs. Asquith, wife of the Premier, is receiving anonymous letters threatening that unless women are enfranchised the Asquith family will be poisoned.

PROBABILITIES

North-easterly and northerly winds fine, much the same temperature today and on Wednesday.

SUNDAY SHOOTING

London, March 5.—The War Office has decided to allow territorials to have rifle practice on Sundays, provided the shooting as far as possible be confined to compulsory work to attain proficiency, that the quiet of the Sabbath be not needlessly disturbed, and that the men be given an opportunity of attending church. This decision was reached after conferring with the Archbishop of Canterbury, other prelates, and leading nonconformists.

Glasgow grave diggers have struck for shorter hours and higher pay.

LUNG TROUBLE

Mrs. Biny Brown, of Tenecape, N.S., Was Cured by Catarrhozone of Lung Trouble and Catarrh, After Hundreds of Other Remedies Failed

If your lungs are weak; if there is consumption in your family; if Colds, Catarrh, and Bronchitis bother you be sure to use Catarrhozone. It is especially adapted for these diseases and cures every time.

Mrs. Brown took cough mixtures but they made her sick. Then she used an atomizer, but, after resorting without benefit to poultices, she tried Catarrhozone.

"I used Catarrhozone Inhaler," writes Mrs. Brown, "five minutes every hour, and soon recognized that it was going to cure me. I could feel the soothing medicated air spreading through the air passages of the throat and it touched the sore spots in the lungs that other remedies failed to reach. Catarrhozone seemed to go just where it was needed most, and soon put a stop to my cough. It restored me to perfect health, and I am convinced that no cough, cold, or catarrh can exist if Catarrhozone is used."

No treatment is so clean, so pleasant, [illegible] to cure as Catarrhozone. [illegible] of the Inhaler, [illegible] local symptoms, such as coughing, [illegible] inflammation and congestion are specially [illegible] Ferrozone tablets which [illegible] after each [illegible] purify [illegible] the blood of poisons, and build up and strengthen the system.

This local and constitutional treatment is always effective, and chronic cases that have been given up as hopeless. Money can't buy or produce anything better, and to get cured it is absolutely necessary to use Catarrhozone.

The Daily Review

TUESDAY, MARCH 5, 1912.

UNION LABEL

SUFFRAGETTES

The latest paroxysm of the "Suffragettes" cannot be regarded as far removed from insanity. Finding the country plunged into a great crisis which may work unparalleled disaster and bring terrible suffering, especially to the women of the poor—they see only that the Government has partially sided with the striking miners; and, deducting that this is because the Government fear the material mischief the strikers may cause, they start out to coerce the same Government by what they grotesquely imagine to be the same means. The uncultured miners conduct their strike with exemplary restraint and good nature; the cultured "Suffragettes" conduct their's by breaking plate glass windows. Their heroic leader opened the "battle" by throwing stones at Mr. Asquith's front door.

To imagine that a little disorder on a few London streets will apply the same pressure to the Government as the cessation as the mining of coal, with all its wide-spread consequences to industry, transportation, defence and comfort, is a typical example of "Suffragette" reasoning. It is of a kind with their constant appeal to the one ally they do not posses—Force. They cheerfully disregard all the dazzling arsenal which has enabled them to more or less direct the course of humanity from the Garden of Eden down, and insist upon frantically fingering the one solitary weapon which they cannot wield—the bow of Ulysses. In this way, they prove their capacity to guide the judgment of a nation.

It is surprising that the authorities of Britain are so patient. It can only be explained on the ground that the "Suffragettes" are, as a rule, the unbalanced sisters of the powerful—of the aristocracy, in a word—and that great influences are constantly exerted on their behalf. But the shop-keepers of London have some influences too; and we may look for severe measures if this sort of insanity continues. Trying to set fire to the post-office should serve to alarm the business community. If the "Suffragettes" go seriously at it, they could probably destroy enough mail to pretty well tangle up the business of the United Kingdom. Clearly the authorities cannot permit this sort of thing to go on indefinitely, growing more aggravating and absurd at every step. Conspiracy against the public order should be promptly treated before it translates itself into acts; and the dangerous agitation will eventually have to be dealt with at its sources. The British Government would not allow the workingmen to openly threaten arson and riot. Why should they extend greater privileges to ladies of intelligence and position?—Montreal Star.

NOTE AND COMMENT

At a recent session of the police court at Calgary, the magistrate severely censured storekeepers for consenting to non-prosecution in shoplifting cases. There appeared to be an epidemic of such cases throughout the city, and in very many of them, often the information had been laid, pressure of friends and relations induced withdrawal. The magistrate pointed out that dealers could not expect a cessation of such conduct so long as they practically condoned offences.

Wood's Phosphodine, *The Great English Remedy.* Tones and invigorates the whole nervous system, makes new Blood in old Veins, Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhœa, and Effects of Abuse or Excesses. Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. *New pamphlet mailed free.* The Wood Medicine Co. Toronto, Ont. (formerly Windsor)

APPLICANTS CAME THICK AND FAST FOR HANGMAN JOB

No Less Than Forty Men Applied for the Position

Execution of Jules Plourde Takes Place on Friday

Montreal, March 5.—Hangmen, or rather would-be executioners, anxious to try their skill at springing the trap of the scaffold, which was to have sent Jules Plourde into the great beyond on the 8th instant, came thick and fast to the office of Sheriff Lemieux on Saturday and Friday. The Cabinet has since commuted the sentence to life imprisonment.

Hangmen tall and hangmen short, hangmen of a needy, and hangmen of a prosperous appearance, hangmen who would do the job for $50; others who would not accept anything less than a century came and went, but none got the job. Forty of them by actual count called on the Sheriff in two days, and in some cases the official was treated to an exhibition as to how the applicants for the position would perform. Some came brazenly others timidly, but none was asked for references as to past experiences.

The run of would-be hangmen on the Sheriff's office came after the announcement had been made that the sheriff at Riviere du Loup, where the execution is to take place, this week, was ill with worry over the prospect of having to officiate himself, no hangman being forthcoming.

Some of the applicants appeared to be on the verge of starvation, and willing to do anything for a chance to pick up a few dollars, while others appeared to want the job more for the sake of experience itself than for the prospect of financial remuneration.

"After a few of them had called and insisted upon being given the job," said the sheriff, "every knock upon my door began to give me creeps. Some of them were easily disposed of and were content to take 'no' for an answer, they having evidently taken their courage in both hands in order to summon up sufficient to make the appeal for the job, and looked relieved at being turned down. Others were more insistent. One fellow, especially arrayed in the latest London style of haberdashery, the traditional monocle adorning one of his eyes, and with his trousers turned up to the high water mark, insisted upon giving me an exhibition of his ability in tying the knot, and wished to point out to me the exact spot of the neck of the murderer where he would place the knot. I had to reprove him sternly in order to make him desist."

It was only after the sheriff had told in a few pointed words that there were no need for a hangman, as one had been supplied by the Ottawa Government, that he left the office muttering something about people who knew nothing about hanging matters.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucuous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifers, acting directly on the mucuous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

F. J. CHENEY & CO., Props., Toledo, O.

Sold by Druggists, price 75c.

Take Hall's Family Pills for constipation.

Better Farming Lectures

On March 12th, from 12.15 p.m. to 3.15 p.m., lectures pertaining to "Better Farming" will be given in a special train at Peterboro under the Department of Agriculture of Ontario.

Single first class fare for the return trip will be in effect from all stations on Grand Trunk Railway, Lindsay, Madoc Jct., and intermediate stations to Peterboro, good going on all p.m. trains, March 11th, all trains March 12th. Good for return until Wednesday March 13th.

Mr. Hancock's Sales

Friday, March 15th—Sale of farm-stock and implements, property of Mr. J. H. Edmison, Lot 8, concession 2, Smith. Sale at one o'clock p.m.

Monday, March 11th—Sale of household furniture, property of Mr. Wm. Cox, of No. 92 London street. Sale at one o'clock p.m.

Wednesday, March 13th—Sale of stock and implements, property of Mr. O. Carver, Lot 11, concession 12, North Monaghan. Sale at one o'clock p.m.

Tuesday, March 12th—Sale of household furniture, mostly new, property of Mr. E. Langford, 637 Union street, corner Edinburgh street. Sale at one o'clock p.m.

Big Realty Deal

Edmonton, Alb., March 5.—J. Haggon has sold one hundred and forty-five acres for sub-division into building lots receiving the price of $850,000, or over $5,800 per acre. He bought this land in 1898 for ten dollars an acre.

THE MARKET

Latest Quotations in Grain Dairy Products, Live Stock Etc.

CHICAGO, March 4.—Owners of wheat showed discouragement to-day owing to the smallness of the visible supply decrease. Largely in consequence the close was at a loss at 1-4c to 5-8c, final trades left corn 1-8c to 1-4c, oats off 1-2c to 5-8c, and hog products 2 1-2c to 17 1-2c less expensive than 48 hours before.

The Liverpool market closed to-day on wheat 1/8d higher to 1/4d lower than Saturday and corn 1/2d to 5/8d higher. Buenos Ayres wheat was 1 3/8c to 1 5/8c higher. Paris closed 1/2c higher to 1/4c lower. Antwerp, unchanged. Berlin, 3/8c higher and Buda Pest 1c lower.

Montreal Grain and Produce.

MONTREAL, March 4.—There was a good demand from the continent for Manitoba spring wheat and some sales were made, but the bids from the United Kingdom came 1½d lower and figured out 1c to 1¼c per bushel out of line with values here. The foreign demand for spring wheat flour for March-April shipment was fair, but as millers generally are closed, sold up for this shipment, few of the orders could be accepted and buyers do not seem disposed to book for future months. The local trade is fairly active and prices firm. Millfeed is in good demand and scarce. Butter is firm, but the demand is not so keen as it was. Eggs fairly active. A good trade is passing in provisions:

Corn—American No. 2 yellow, 77½c.

Oats—Canadian western, No. 2, 53c to 53½c; do., No. 3, 51c to 51¼c; extra No. 1 feed, 52c to 52½c; No. 2 local white, 50½c to 51c; No. 3 local white, 49½c to 50c; No. 4 local white, 48½c to 49c.

Barley—Malting, $1.05 to $1.10.

Buckwheat—No. 2, 72c to 73c.

Flour—Manitoba spring wheat patents, firsts, $5.60; seconds, $5.10; strong bakers', $4.90; winter patents, choice, $5.10 to $5.35; straight rollers, $4.65 to $4.75; do. bags, $2.15 to $2.25.

Rolled oats—Barrels, $5.05; bags, 90 lbs., $2.40.

Millfeed—Bran, $24 to $25; shorts, $26 to $27; middlings, $28; moullie, $30 to $34.

Hay—No. 2 per ton car lots, $15 to $15.50.

Cheese—Finest westerns, 15¼c to 15½c; finest easterns, 14½c to 15c.

Butter—Choicest creamery, 33c to 34c; seconds, 32½c to 33c.

Eggs—Fresh, 38c to 40c.

Potatoes—Per bag, car lots, $1.70 to $1.80.

CATTLE MARKETS.

Union Stock Yards.

TORONTO, March 4.—Receipts of live stock at the Union Stock Yards were 84 cars, comprising 1601 cattle, 40 calves, 494 hogs, 512 sheep and 38 horses.

Exporters.

Only two loads of cattle were bought for export, and these brought $6.95 to $7.12½.

Butchers.

Best heavy steers, $6.70 to $6.75; prime butchers, $6.25 to $6.65; medium, $5.50 to $5.75; common, $5 to $5.25; inferior, $4.50 to $5; cows, $3 to $5, bulls, $4 to $5.65.

Milkers and Springers.

The market for milkers and springers was steady at from $40 to $70.

Veal Calves.

There was a larger supply of calves, the prices ranging from $5 to $9.25.

Hogs.

W. J. Johnston quoted $6.65 f.o.b.; $7 fed and watered, and $7.25 weighed off cars.

Montreal Live Stock.

MONTREAL, March 4.—At the Montreal Stock Yards, West End Market, the receipts of live stock for the week ending March 2, were 2300 cattle, 120 sheep and lambs, 4100 hogs and 800 calves. The supply on the market this morning consisted of 1200 cattle, 100 sheep and lambs, 1000 hogs and 300 calves.

A feature of the trade was the weaker feeling in the market for cattle and prices were fully 25c lower than a week ago, which was due to the fact that supplies were up to their usual number on account of the snow blockades being pretty well removed, enabling drovers to make their usual shipments and get the stock into the market. Trading was extremely active.

The quality was much better than it has been lately and sales of odd choice steers weighing from 1250 to 1300 pounds, were made at $7 and full loads at $6.75, while full loads averaging from 1050 to 1100 pounds each, brought from $6.15 to $6.25 per cwt. There were a number of good to choice bulls offered, which sold at from $5.25 to $5.75 per cwt. The top price realized for choice cows was $5.50. A good many cattle and hogs were bought for shipment to Quebec and other outside points.

Another feature of the trade was the weak feeling which developed in the market for hogs and prices declined 25c to 50c per cwt., as compared with last week. Supplies were large to-day, but as packers in most cases were short of stock the demand was unusually good and an active trade was done, selected lots selling freely at $7.75 per cwt., weighed off the cars.

The trade in sheep and lambs was quiet on account of the limited supply coming forward, for which the demand is somewhat limited, as the butchers are now working on their frozen stock. The demand for calves was good, which are coming in more freely and sales were made at from $3 to $12 each, as to size and quality.

Butchers' cattle, choice, $6.75 to $7; medium, $5.50 to $6.50; common, $3.50 to $4.50; canners, $2.75 to $3.25; choice cows, $5.25 to $5.50; medium, $3.75 to $4.50; bulls, $3.50 to $5.50; milkers, choice, each, $75 to $80; common and medium, each, $50 to $65; springers, $30 to $45.

Sheep—Ewes, $4.75 to $5; bucks and culls, $4 to $4.50; lambs, $6.25 to $7.

Hogs, f.o.b., $7.75.

Calves, $3 to $12.

East Buffalo Cattle Market.

EAST BUFFALO, N.Y., March 4.—Cattle—Receipts, 3800; fairly active and steady; prime steers, $7.75 to $8; shipping, $6.75 to $7.50; butchers, $5.25 to $7; heifers, $4.50 to $6.50; cows, $2.50 to $6; bulls, $4 to $6; stockers and feeders, $3.75 to $5.25; stock heifers, $3.75 to $4.25; fresh cows and springers, active and strong, $25 to $68.

Veals—Receipts, 1400 head; active and steady, $5.50 to $10.50.

Lady Betty Across the Water

By C. N. & A. M. WILLIAMSON

Copyright, 1906, by McClure, Phillips & Co.

Sally and he talked about books. He spoke about some college in the west where he had been, and I was glad that he was a university man, though why I should care I don't know. Anyway, Stan would be at sea and floundering in the subjects which my brown man of the steerage and Sally Woodburn discussed while the squirrels frisked about their shoulders. But then Stan doesn't care to talk too long about anything except hunting or shooting or polo or motoring—not even bridge, at which Vic says he loses a great deal of money.

We stopped in the wistaria arbor for more than an hour, as I knew by my bracelet watch, when Sally said suddenly we must go—though I hadn't dreamed till then that we had been half so long. I shook hands with Mr. Brett for goodby and so did Sally, but nobody spoke about our meeting again, as perhaps we should if he were in Mrs. Ess Kay's set. It seemed very sad and irrevocable, somehow, and I had a heavy sort of feeling that life can be full of hard things.

His eyes looked wistful and I said what I couldn't have said to a man of my own rank. "I've kept those roses you sent to me by that dear, funny little black boy all this time in water and they are fresh still, though a lot of others I have had since are faded," I told him, and in that mood I didn't care whether Sally heard or not.

The brown man's face flushed up and the wistful look in his eyes brightened into something, which I felt was gratitude for my rather silly speech. "I think those roses will hate to die," he said.

"Perhaps I shall press them in a book," I answered, "to remind me of my first hours in America."

Then we parted, and there was a fuss with Vivace, who had to be taken up in my arms or he would have choked himself with his collar in his desperate struggles to get free. He whimpered even then for a few minutes, but soon he was comforted and visibly made an effort to content himself with the fact that he was my dog.

I set him down on the ground, and Sally and I walked on together without speaking. But at last she said, "Penny for your thoughts, deah?"

"I was wondering about—class distinctions in America," I answered. "I think—oh, I do think it's very silly of you to have any at all. I always sup-

I do believe there must be something special about peanuts.

posed till I knew you and Mrs. Stuyvesant-Knox that one person was considered just as good as another in America. And it ought to be like that in a new country, where you haven't an aristocracy."

"We have two aristocracies," said she. "We go one better than you, for you have only one. We have our old families (maybe they wouldn't seem very old to you) and we have wealth. They both think as much of themselves as your aristocracy does—and mighty little of each other."

"I could understand an aristocracy of brains in a land like America," I went on, quite fiercely, "but it's no good breaking off from the old country at all if you're to hamper yourselves with anything else. Now, if I hadn't heard Mrs. Stuyvesant-Knox and Mrs. Van der Windt talking I should have supposed that in America a man like Mr. Brett, for instance, could be received anywhere. As it is, I suppose—no, nobody could despise him. For myself, I'm proud to know such a brave man. But—but of course we're not likely to meet him again, are we?"

"In society?" laughed Sally. "Poor fellow, it doesn't look much like it now, does it? Though I believe he's a man in a thousand and worth six of any of those that Cousin Katherine will let you know, counting Potter, though he is my relative."

"It seems a pity," I said, with a sigh for the mistakes of the whole world—or something.

"What's a pity?"

To be continued

SANOL

The new discovery will positively remove Gall Stones, Kidney Stones, Gravel in the Bladder, and will effect a complete Cure. It will dissolve and remove stones without pain, and there is no necessity for an operation in the future, as Sanol will cure in every case no matter how long standing the disease may be.

SANOL will be found particularly valuable in old cases of Kidney and Bladder diseases.

SANOL is a preparation of herbs and herb extracts, and contains no poisonous ingredients. It's use, therefore, cannot possibly harm either the stomach or intestines.

Sanol per bottle $1.50

SOME QUEER "POSTIES"

REINDEER. BUFFALOES AND SWIMMING LETTER CARRIERS.

Russian Letter Opening, Copying and Replacing Takes Up a Big Staff and a Lot of Time—Formosan Postman Must Face Ghosts as Well as Brigands—Camels on the Desert a Strange Mail Train.

In Russia the postoffice is a very busy place. Not only do the employes distribute the letters, but they also make notes of the contents if they look in the least bit suspicious. One of the ingenious methods in force is to slit the top of the envelope. The letter is then abstracted, copied and replaced. The envelope is finally inserted in a machine which welds the two split edges so cleverly together again that it is practically impossible to see that they have ever been forced apart. Sometimes, it is said, in fits of absentmindedness letters are put back in the wrong envelopes, which is apt occasionally to cause a little confusion.

In Lapland, among the Samoyedes who inhabit the tundras of the north, we find the mails traveling in sledges drawn by a picturesque turn-out of four reindeer, writes Mrs. Herbert Vivian, in The Standard. The tundras are swamps on which strange snow-white moss and lichen flourish. In summer the district is an inaccessible morass covered with wild fowl and its own wonderful flora, but in winter it is frozen hard, and can easily be crossed. Indeed, such is the severity of the climate in these parts that the soil, only one or two feet below the surface, is frozen all the year around.

The reindeer will flourish where no other beast can. A horse must have a certain amount of his accustomed fodder even in Arctic regions, but a reindeer does not even need the dried fish that a dog will put up with. He is the most accommodating beast, and will seek his own provender, lichen or seaweed, shoveling the snow on one side with his great flat horns and scraping the moss from the frozen surface.

The harnessing of the reindeer mail sledges is quite unique. First goes a reindeer, and then comes a boat-shaped sleigh, in which a man sits. Next comes another reindeer followed by a sleigh filled with letters and packages. Single reindeer and sledges follow alternately, the rear being brought up by a reindeer.

In the wild mountains of the Caucasus the postman holds a post of some danger, for he must be protected not only against savage brigands, but also against the inclemency of the skies. There are few practicable routes across the precipitous ranges, and Mt. Elburz, the loftiest peak, is over 18,000 feet high. Nowhere in the world are there so many peoples, nations, languages and religions, and you will scarcely find so many dare-devil ruffians elsewhere.

In marshy parts of Asiatic Russia we may find the buffalo post. Great shaggy beasts draw the antediluvian-looking two-wheeled wagon, while men almost as shaggy, in long, rough, white garments and astrachan caps, act as postmen. The carts sometimes carry a passenger as well, but it need hardly be said that progress by this mail coach is neither rapid nor agreeable. Buffaloes are far more powerful than oxen, and are useful in the swamps of Siberia. They can tread with ease where most animals would fear to venture, for their broad splay feet seem made on purpose to wade through mud and morass.

Another strangely picturesque post travels across Asiatic Turkey from Aleppo to Karaman. The country is mountainous and romantic, and the little, gayly-caparisoned group of horsemen is even more romantic still. This is the Tartar post. Three unmounted horses, laden with packages and letters, fill the middle of the picture. Behind them gallop the postmen, whip in hand, as if their lives depended on their speed. No doubt they often do, for that wild country teems with brigands and warring tribes. At the head and tail of the procession ride zaptieths, or Turkish policemen, to guard the mail.

There is something impressive and mysterious about a procession of camels, and in the dreary desert of the Tarantas a slow, stately procession makes its deliberate way at appointed times, carrying the post across the sandy wastes. All camels have not, however, the distinguished appearance of the fleet dromedary.

Then there is the postman of the Isle of Formosa, called Ch-ien li ma, or the horse of a thousand miles. This hard-working person often has to carry 160 pounds at a trot for many days and nights. He must not only be so smart and strong that he along is capable of tackling half a dozen brigands, but he must, moreover, be ready to face a ghost, if necessary. In Formosa the natives are so superstitious and timorous that if they see or hear the smallest sign of anything uncanny they will not only run away from it as fast as they can, but they will throw down anything that hampers their flight in the least degree. In order to be more hardy and enduring, the horse of a thousand miles never eats a full meal, but when he is hungry he will "eat himself seven-tenths full."

Next comes the swimming postman of India and the ski-ing postman of the Andes. The former frequent a district where rivers abound and bridges are few, so that to avoid extensive detours he must be ready at any moment to take to the water. He is equipped as a swimmer, and wears as uniform only a sketchy bathing costume, a turban and life belt.

The Argentine Government imports Norwegians to carry the posts in winter across the Andes on skis. The men travel at heights from 3,000 to to 18,000 feet above the plain.

Japanese are reported to be making a practice of shooting the Delta pheasants out of season.

This Food-Tonic Quickly Restores Strength

After a siege of Pneumonia, Diphtheria, Typhoid or any other prostrating disease, there is usually a need for some other source of strength besides ordinary food.

NA-DRU-CO N D C Co TRADE MARK
ALL OUR PRODUCTS BEAR THIS TRADE MARK

NA-DRU-CO Tasteless Cod Liver Oil Compound

meets this need perfectly. While decidedly pleasant to the taste, without a trace of the nauseating properties of plain cod liver oil, it embodies the well-known nutritive and curative elements that have made cod liver oil famous. To these have been added Hypophosphites to build up the nerves—Extract of Wild Cherry to act on the lungs and bronchial tubes—and Extract of Malt, which, besides containing valuable nutriment itself, helps the weakened digestive organs to assimilate other foods.

For run-down children there is no better "builder-up".

IS SAID TO HAVE TWO WIVES

Second is Bride of Three Weeks —First Wife Destitute

Toronto, March 5.—With information which came to the police stating that John Howett, a young man thirty years of age, had left a wife and two children in destitute circumstances, in Leeds, England, a year ago, and that three weeks ago he had gone through a form of marriage with Annie May Jennings, of 163 Rusholme road, the man was placed under arrest this afternoon by Detective Mitchell, and is being held on a charge of Bigamy.

It was the woman who the police think is the former wife, who was responsible for the arrest, as she had written the Morality Department saying that her husband was in this city and that she insisted upon some contribution towards her support. She stated that her marriage happened five years ago, and that she was having a pitiful struggle to support the family.

Howett was located in the basement of the Dovercourt branch of the Y.M.C.A., where he was working for the Conger Coal Company.

CHILD WAS LEFT IN SUITCASE ON THE STREET

Toronto, March 5.—The police yesterday afternoon were confronted with the mystery of a live, ten-weeks-old infant abandoned in a suitcase on Dovercourt road, and after several hours of searching they had been unable to locate the persons who left the child exposed. It was shortly after two o'clock that a well dressed woman was seen to step from a hack, place a suitcase on the sidewalk, open it, and deposit some object inside. Then the woman re-entered the hack and drove rapidly away.

The pedestrian who had witnessed this strange proceeding from a distance, hurried to the sport, and was at once startled to hear the sounds of the wailing infant. Investigation showed that it was nearing the point of suffocation, but the man took it to number seven police station. The inspector, acting-detective, and several plain clothesmen immediately started out upon the trail of the woman, and from the description their informant was able to give they have every confidence of locating her.

An examination of the suitcase and clothes of the child failed to show any marks of identification, so it will be removed to the Infants' Home.

Newspaper Change

Kenora, March 5.—A newspaper deal that has been pending for some weeks closed to-day, when Mr. J. V. Scriver, from Peterborough district, became editor and owner of The Mining Record, a weekly publication, formerly edited by Mr. Jas. Weidman. The paper will be issued under the name of The Kenora Examiner.

Satisfied Policy-Holder

[COPY]

Toronto, March 1st, 1912.

W. H. HILL, ESQ.,
Manager,
Sun Life Assurance Co.,
Peterborough, Ont.

Dear Sir,—I wish to thank the Sun Life Assurance Company, through you, for the prompt and very satisfactory settlement of my 15 year Endowment Policy, No. 64345, which matured and was paid me to-day.

I have also a 15 year Endowment maturing to-day in a leading British Company.

The contrast, in the results, in favor of your Company is so marked that I want you to know it, but I am at a loss to know how such a difference could honestly occur. When I tell you that the profits in your Company are **three and one-third** times the profits in the other Company referred to, and this too notwithstanding I paid the other Company $1.15 per year more per $1000 than I paid you, you will realize my inability to comprehend the cause.

This is surely a tribute to the management of the Sun Life, and I am so well pleased I have applied for further insurance with you.

Incidentally, I would like to say a word for your loan privilege. As you are aware, I borrowed some money on my policy, a little over a year ago, which enabled me to obtain a substantial interest in a town site in the Northwest, and you will be pleased to learn that it has already yielded substantial gain and gives promise to pay hundreds per cent., so that it is impossible to fully realize the value of that Policy to me.

I thought as an old Peterborough boy you would be pleased to know I am delighted with the result.

Yours truly,
(Signed) ROBERT E. DOLAN.

NUGENT'S STOMACH AND LIVER TONIC

"Felt Better After the First Dose"

That's a great deal to say for any medicine, but we have heard it from those who have taken Nugent's Stomach and Liver Tonic

It is really the best tonic we know of for that "tired feeling" and loss of energy. It is a good appetizer, and enriches the blood.

Especially good for La Grippe.

You, too, will notice an improvement in your condition after the first dose, if your system is in need of a good blood enriching and up building tonic.

A Large Bottle with Pills for 50c

We never recommend a doubtful preparation.

OBJECTION TO TAX LEVY FOR STREET WATERING

All Ratepayers Whether Served or Not Must Pay

A rather interesting discussion took place last evening in the Council, when Ald. Johnston asked for information on the street watering plan for this summer. He objected to the change that had been made from the plan of payment hitherto in force. Ald. Johnston thought it unfair that residents who did not receive any benefits from street watering on their own streets should be compelled to pay, just the same.

Mayor Bradburn explained that after careful deliberation and thought, the plan had been adopted as the only one that could work out satisfactorily.

Ald. Gordon agreed with Ald Johnston. He thought that it bore out the benefits that would accrue from single tax. (Laughter.) The principle on which it was based was wrong, he held.

Ald. Brown—"What is there to prevent the citizens from rebelling when the taxes are levied upon them for something which they are receiving no benefit?"

Mayor Bradburn—"There is no use in the citizens coming to petition. We can't possibly do any better with the money we have got." The same streets will be watered this year as last.

Ald. Graham was opposed to the new plan. The man who doesn't get the water shouldn't be made to pay for it.

Alberta Publicity Car at Peterboro March 13th

The Camrose Publicity Club have arranged for a special Grand Trunk Pacific Tourist Car to contain the exhibits of the province of Alberta, to tour Eastern Canada with a view of attracting further settlement to that province.

This car will arrive in Peterboro at 8.10 a.m., March 13th., and will remain on the station siding at the Grand Trunk Depot until 5.35 p.m. the same day.

Everybody interested in this great country are cordially invited to pay this car a visit.

To The Inhabitants of Peterboro

At a meeting of the Painters and Paperhangers Union a motion was carried that we shall ask thirty cents per hour on and after April 1st. F. A. Dainton, secretary, Union No. 379, P. and D. and P. H. of America.

Local Scribe Tells Tales to the Provincial Health Officer

The following squib which speaks for itself was forwarded to Dr. J.W. McCullough, chief health officer for the province, from Peterborough and was read at the Council meeting last night. It will not take a keen observer to recognize a similarity of style it bears to certain missives which from time to time afford amusement to readers.

1. The police station is officially condemned this year.

2. The cells are wet and not drained properly.

3 The Chief Constable says; "It is in an unsanitary condition and unfit for use."

4. A man was found with his throat cut, dead in one of the cells recently.

5. —The city puts its sewage into the river and poisons the whole province

The letter was referred to the Property Committee.

COMMUNICATIONS

The following communications were read—

From the Hamilton and Toronto Sewer Company soliciting orders for sewer and culvert pipe for municipal work. Referred to Board of Board of Works.

THANKS

From Joseph Kelly, secretary of the Peterborough Poultry Association thanking the Council for the city's generous grant of $75 to the Association.

QUITE RIGHT

From D. Q. Quartermaine, secretary of the Board of Trade, enclosing the following resolution passed by the Board of Trade.

"That this Board of Trade favors the adoption of a modern garbage system for Peterborough.

Annual Concert and At Home Queen Alexandra Circle, Wednesday, March 6, in S. O. E. Hall. Good programme and refreshments.

MRS. H. J. KEITH LEAVES ON TRIP TO ST. AGATHE

The many friends of Mrs. (Rev.) H. J. Keith will be pleased to learn that her condition has improved sufficent to warrant her removal to St. Agathe, Quebec. This move has been contemplated for some time, but owing to her precarious condition it was not deemed advisable.

There is a splendid sanitarium at St. Agathe and it is hoped that Mrs. Keith will soon recover from her illness.

Rev. Mr. Keith accompanied her. She was removed from the parsonage Reid street, to the C.P.R. midnight train in Belleghem's private ambulance. At the Montreal station an ambulance took her to the other station and without another change of trains she was taken to St. Agathe.

Hundreds of local friends will await news of her condition.

"PETERBOROUGH'S FAVORITE SHOPPING PLACE"

AN INVITATION TO THE DUKE

The following letter was read at the City Council meeting last evening from J. H. Burnham, M.P., Ottawa:

To the Mayor and Council of Peterborough:

Gentlemen,—

When it came to my turn to be summoned before His Royal Highness the Duke of Connaught for the usual fifteen minute interview, I asked His Highness if he would care to come our way, and I ventured to remark that it would give our people intense satisfaction to welcome a son of the late great mother of the modern British Empire, Queen Victoria. His Highness said that he would like to go very much, but that he was afraid his engagements for this summer in the West and elsewhere would render necessary a postponement until 1913.

If you want His Higness for 1913, with a possibility for 1912, I would request that you ask him at once. He is very popular and will be booked a long way ahead.

Yours respectfully,

J. H. BURNHAM.

It was decided to extend an invitation to the Governor-General to visit Peterborough whenever convenient.

IS REMANDED FOR ONE WEEK

Principal in Case of Alleged Forgery Goes to Jail

Reginald Winch, the young man who was arrested in Port Hope on Saturday last on a charge of forgery, was arraigned before Magistrate Dumble this morning. He was remanded for a week without bail.

The names of the parties whose signatures he used were, M. G. Robinson, J. H. Chamberlain and E. R. Winch, executors of the Chamberlain estate. The cheques show evidences of tracing.

Mr. F. D. Kerr is appearing for the accused.

TWO DRUNKS FINED.

Sandford Lindsay and William Armstrong were each fined $2 for being drunk in a public place.

Lindsay comes from North of Norwood. He was arrested yesterday when very drunk.

Fire in Shop

Last evening the fire brigade received a call from box 38, the cause of the alarm being a fire in the butcher shop of Mr. John Hensley, on the corner of McDonnel and Reid streets. The fire started from an overheated stovepipe and damaged the premises to the extent of ten dollars.

ONE HUNDRED AND EIGHT ORDERS FOR PROVISIONS

Notwithstanding the rigorous weather experienced this winter, the calls for charitable relief to the City Relief Officer has not been in excess of other winters to any noticeable extent.

The number of orders for groceries and sundries issued by Mr. Miller so far this winter has been one hundred and eight, and for fuel be has given one hundred and twenty-four orders. There are no particular needy cases in the city known to the Relief Officer just at present.

The steamer on Okanagan lake now carries the mail seven days a week.

Report on Taxes

The city tax collector presented the following report to the Council last evening:

Statement of roll, ending Jan. 31st, 1912:

To total amount on roll	$223,218.01
By total amount deposited...	208,309.18
Balance...	$14,908.83
Less discount on 1st payment ...	3,343.87
Balance...	$11,564.96

Amount collected and deposited dring Feb. 1010.18.

LOTS & GARDENS FOR SALE AND TO RENT

I have decided to hold my bonus offer good to all Lot buyers this month. Pay $5.00 and I add $5.00, giving receipt for $10.00, then pay $5.00 or more per month, an easy way to get a Home, also the most profitable safe investment. My Lots are perfect; Title is perfect; Price the lowest; Terms unequalled. A wise man will buy for a home, or to save at least a little of what he earns. Act at once.

GARDENS—I can supply 2, 3, 5, or 7 acres with or without Buildings. Good chance for South end Factory employees to double their incomes. **7 acres** suitable for large Poultry Plant, **3 acres** best Celery soil, **8 acres** sod for Pea crop.

T. HURLEY
Corner Stewart and Hunter Sts.

NERVOUSNESS AND DYSPEPSIA

CURED BY "FRUIT-A-TIVES" THE GREAT FRUIT MEDICINE

In Nervous Dyspepsia, the Dyspepsia does not come from the Nervousness—but the latter trouble does come from the Dyspepsia.

The stomach is a network of nerves. Now if all these nerves are irritated by improper food, hasty eating, or poisoned by gases from the constipated bowels, then they will make one nervous.

"Fruit-a-tives" cures both the Nervousness and the Dyspepsia because "Fruit-a-tives" cures all stomach troubles, keeps the stomach sweet and clean, and enables you to eat and sleep as you did when a child.

50c. a box, 6 for $2.50, or trial size, 25c. At all dealers, or from Fruit-a-tives Limited, Ottawa.

ALD. MORGAN WANTED TO KNOW

About the Exemption of St. Alphonsus Lyceum

"There is just one matter," said Ald. Morgan, prior to the adjournment of the City Council meeting last evening, "that I want to ask Ald. Brown abotu, and that is, has he shelved the inquiry into the exemption of taxes on the St. Alphonsus Lyceum, following the ruling of Judge Huycke?"

Ald. Brown answered that the Council knew what had been done in the matter, and that if Ald. Morgan had any inquiries to make both he and the city solicitor would try and answer them.

Ald. Duncan here interposed, stating that at the next meeting he would be in a position to answer and explain anything in connection with the question. This suited Ald. Morgan.

TOOK A TURN FOR THE WORSE

Mr. Charles H. Campbell, 363 Babbs Lane who was sufficiently recovered to be taken home from Nicholls Hospital last week, took a turn for worse yesterday and was taken to Nicholls Hospital and operated upon again last night. The operation was performed just in time to save his life, according to the physicians.

Poultry Association

The regular monthly meeting of the Peterborough Poultry Association will be held on Thursday night at 8 o'clock in their hall, Simcoe street. A full attendance of members is requested, and anyone wishing to bring birds may do so, no matter what variety.

Court at Norwood

County Magistrate Edmison went down to Norwood to-day to preside at the hearing of a case of theft. He may also try the case of the Lonsberrys, man and wife, whom it will be remembered, were compelled to separate owing to mutual uncompatability.

ACCOUNTS FOR REGISTRATION FEES FAILED TO PASS

Was Struck Out of Finance Report on Vote of 5 to 3—City and the Band Instruments.

Ald. Anderson brought up the matter of the ownership of the instruments of the 57th Regiment band, at the Council session last night. He wanted the city to have a list of the instruments and be notified whenever any new ones were purchased, as the instruments were the property of the city.

A list of the instruments will be ascertained.

THAT ACCOUNT AGAIN.

On motion the work of settling the Rutherford Bros. account was left in the hands of Ald. Duncan, Buller and the Mayor.

A communication was read from the Peterborough Water Commissioners, asking the Council to issue debentures for $10,000 for construction work for the waterworks in 1911.

A by-law authorizing the issuing of the debentures for the amount required passed its several readings.

REGISTRATION FEES.

Judge Huycke's disputed account of $120 for registration fees was again brought up.

Mayor Bradburn thought it would be well to have the matter stand over at a while. "There is a big doubt as to whether we are liable," he said, "and we don't want to get into a law-suit."

Ald. Anderson—"The only thing about it is, that Judge Huycke has written for a reply, and he wants to know whether the account is to be paid or not."

Ald. Gillespie—"Would'nt it be well to ask Judge Huycke to meet the Board and discuss the matter?"

Ald. Anderson—"The commissioners seemed to feel the first time it was brought up, that it should not be paid."

Ald. Johnston—"Is it a fact that there would have to be four bosses on the job at that time. It seems a funny thing to me. If the law is like that the sooner it is changed the better. There is something very unfair about it, and it is beyond the bounds of common sense."

Ald. Buller—"I feel that the law isn't just, but if it is the law, we don't want a law suit. Let us go into the matter some other time."

Ald. Anderson—"I have no desire to push the matter, only the committee seemed to feel before that the law wasn't just."

Ald. Morgan—"I am going to stay with the clause in the Finance chairman's report, that the account be not paid. The advice of the city solicitor backs up our contention. I for one am going to stay with the City Solicitor and the report and if he is wrong, we will look to the City Solicitor for the difference."

City Solicitor—"It is one of those difficult points of law that has never been settled."

Ald. Morgan—"You are prepared to back up your opinion though."

Mr. Hall—"Yes, but I am not going to say we will come out right."

The City Solicitor reported having made inquiries as to what procedure had been adopted in similar cases in other cities, only one out of twelve cities had paid both the registrars and deputies.

Ald. Gordon's opinion on the matter clashed with the City Solicitor's. He was inclined to think that Judge Huycke's contention was right.

The case was finally put to vote. Ald Anderson and Morgan moved for the adoption of the finance chairman's report that the account be not settled.

Ald. Buller and Gillespie in amendment that the clause be struck out. The amendment carried by a vote of five to three.

A by-law authorizing a grant of $200 to the Salvation Army passed its third reading.

A by-law fixing the rates and authorizing the levying of taxes for 1912, carried. In connection with this by-law Ald. Anderson remarked that the committee had been fortunate in being able to keep the rate at 22 mills in spite of increased demands. He warned all the committees however, to keep strictly within their appropriations, as there was often a tendency on the part of committees to exceed their allotted amount.

"We hear a lot about the high taxes these days," continued Ald. Anderson, but Peterborough compared with eighteen other cities in the province is the fifth lowest in the list.

DISTRIBUTION OF THE TAX RATE FOR THIS YEAR

The following table shows the distribution of the city's tax rate for the year 1912. Ald. Anderson submitted it in his report last evening:

RATES FOR 1912.

City general rates	10.32	10.32
Collegiate Institute	1.94	1.94

Deb. No. 1036—Coll. Inste.	696.96		
Collegiate Institute	210.54		
		$2,407.50	
Net increase in 1911			$63,195.47

RETURN OF THE STAMPEDE

Return of a Great Western Drama to "The Grand"

"The Stampede," which comes to the Grand next Saturday, March 9th, matinee and evening, is by Cecil B. DeMille, author of "Strongheart," who wrote the play in collaboration with Lillian Buckingham, who is essaying the stellar role. It is said to be the reverse of "Strongheart," in which the Indian hero sacrificed the white girl he loved for the sake of his people. In "The Stampede," Wanga, the half-breed, is an Indian girl who is called upon to choose between happiness with her white lover and the interests of the tribe to which her mother belonged. She does her duty, and unlike "Strongheart," happiness comes to her in the end. "The Stampede" is said to be more melodramatic and impressive than its predecessor, telling a story that enlists and grips attention. It is staged elaborately with pretty lighting effects and Miss Buckingham is credited with being an actress of great personal magnetism and powerful dramatic expression.

A special arrangement of prices have been made for the matinee, there being 500 seats on the lower floor at 50c., 200 balcony seats at 35c. and 200 balcony seats at 25c. Seat sale opens Thursday morning.

Returns Thanks

Mr. J. W. Browett and family wish to express their appreciation of the great kindness and sympathy extended to them, by so many friends during Mrs. Browett's prolonged illness.

WHO'S COMING AND GOING

County Magistrate Edmison is in Norwood to-day.

Mr. C. F. Buyb, of Belleville, is in the city to-day.

Mr. A. O. Mix, of Warkworth, is in the city on business.

Mr. G. L. Martin, Smith's Falls, is in the city to-day on business.

The condition of Dr. Boucher remained unchanged this afternoon.

Mr. R. J. Doak, of Millbrook, who has been in the city on business, returned home to-day.

Mr. Chas. S. Warren, of Woodstock, has been transacting business in Peterborough to-day.

Messrs. J. R. MacNichol, J. A. Kirkpatrick, A. Sullivan, E. Franklin, of Toronto, are registered at the National Hotel.

Messrs. H. Everet, H. C. Douglas, H. S. Poole, of Montreal, and A. A. Foy, G. O. Armstrong, Jno. Ball and J. Booth, of Toronto, are registered at the Oriental.

Misses Innis and Armstrong have returned and re-opened their millinery rooms over Payne's drugstore, corner of Simcoe and George streets.

His Honor Judge Harding was a passenger on the C.P.R. train which left Lindsay at 7.45 a.m. to-day. The judge is going on the "Mediterranean trip," which will embrace two month's travel at least.—Lindsay Warder.

Mr. J. W. Browett and daughter, Miss Joy, returned last evening to their home, 533 Aylmer St., having visited friends in Ingersoll, Woodstock and Toronto, for the past few days.

SUCCESSFUL SALE

Greatest Wall Paper Sale Held

OUR SUCCESS HAS SURPASSED ALL PREVIOUS RECORDS

We keep a variety in cheap high-class goods, second to none in Canada. We invite you after looking elsewhere to try us, with length and width of your room and we will tell you the cost — Either at our Peterborough Store at 379 George St., or at Toronto, 262 Queen St., West. Large buying enables us to give you prices not possible outside of large cities. There are only seven firms in our Dominion who can buy over twenty thousand dollars worth of Wall Papers per year, and we are proud to feel that we rank as fourth largest of the seven. The smallest buyer of seven has the same advantages as the largest as all that is required to get the low price is that the purchase amount to ten thousand dollars — Our purchases amount to over that with one firm's goods, not mentioning our purchases of American, English, German, French and Japanese manufacture, which we stock very largely. We would ask you again to examine carefully before making your purchases.

C. P. R. SECURES THE PROPERTY

The much disputed tenth of an acre of water on the English Estate has at last been settled.

The property referred to adjoining the English Estate will be conveyed to the C. P. R., the city's interests however, in an adjacent land east of the spur line, being duly safe guarded.

The above resolution was put through by the City Council in session last evening.

There are 1,613 pupils enrolled in the public schools of New Westminster.

PERMANENCY

One important distinction of our Photographs is Permanency. The striving after this distinction has greatly aided in the perfection of our portraits.

Bright Liners on Athletic Topics

TWO GOAL LEAD WAS THE BEST ABSTAINERS COULD DO

Lakefield Had Short Side of 5-3 Score—Return Game To-morrow Night.

The Abstainers beat Lakefield 5—3 last night with the half time figures standing 3—1 against the Cementville seven.

It was the first of a series of home and home games, goals to count on the round, in the semi-finals of the Trent Valley League. About four hundred fans attended; a number of them being from Lakefield. There was no special train as had been heralded but every available sleigh in Lakefield and vicinity was brought into commission. The small band from the northern village sure did make some noise but possibly their coming from a local option district helped some.

The T.A.S. seven were not favored with any of the breaks in luck last night. By their hardest efforts they could not get a lead at any stage of more than two goals and a couple of times the Lakefield aggregation bid fair to tie up the score.

The fact that the two teams were so evenly matched made the game interesting and not the class of hockey handed out. Both forward lines bunched and there was very little evidence of combination. Time and again individuals would break away for a nice rush and find themselves alone in the attack.

The play from the face-off was confined principally to centre ice, neither team getting a shot on goal. When Lakefield finally worked the puck into the local's territory, McFadden tripped Moran in clearing and was benched for three minutes. This seemed a hardship to the Abstainers as McFadden's offence was only a minor one. Right here Lakefield failed to take advantage of the absence of their opponent's goaltender. Had they used little better judgment and put six men on the attack instead of four they might have piled up a substantial lead. As it was they merely played their old game and the Abstainers, working desperately, notched the first counter of the evening when Hill was beaten with a long shot.

Moran, on a pass from Simpson, secured the rubber from the face-off and rushing up his wing, scored on Lansfield who was defending the local's nets. McFadden returned to the game before any further damage had been done and the score was tied 1—1.

Simpson and Odette were each penalized for infractions. Coughlin got his second goal by a long lift again. Hill did not seem to be able to pick these long ones out.

Ed. Lansfield and McPhee increased the Abstainer's lead to two goals, when the former shot from away out and McPhee tallied after Hill had made a futile attempt at clearing. Tom Lansfield and Simpson each drew a penalty and that was the extent of the excitement in the first half, the score standing 3—1 against the visitors.

SECOND HALF.

The way they all went at it on the home stretch it was hard to pick a winner. Indeed Lakefield looked good to trim the Abstainers on their own back lot for a while. They lacked the combination however, and though there were some good individual stunts pulled off, there wasn't anyone in the bunch who could score with only McFadden to beat.

There had to be a break soon, however, and it came when Blewitt beat McFadden after considerable scrimmaging around the vicinity of the goal.

McPhee made it 4—2 on a rush. Blewitt returned by scoring on the Abstainers and Alonzo Coughlin got the last.

The line-ups were as follows:—

T. A. S.

	McFadden	
	E. Lansfield	
	T. Lansfield	
	McPhee	
Coughlin	Halpin	O'Dette
Hill	Simpson	Moran
	Blewitt	
	Roe	
	Crawford	
	Hill	

LAKEFIELD.

T. A. S. will have their work cut out for them to win the round since they could only get a two goal lead here. The return game will be played in Lakefield on Wednesday night next and the small ice surface will bother the local boys considerably. Though combination is not their strong point yet individualism will not go there either as a fast skater like McPhee or Lansfield is liable to get telescoped at the other end of the rink before he could get slowed up.

It is likely that quite a number of Peterborough fans will accompany the team on Wednesday night.

SPORT TALK

Looking over the seven that have been chosen to meet Orillia one would be inclined to say that the Orillia management had picked a team that the Younkers could beat. When the fact that the Barrie, Collingwood and Gravenhurst teams were eliminated from the running in their own district, is considered, it would be hard for any of the All-Stars, excepting the two local boys to be in shape. However Dwyer and Denison will both be likely to have a very busy evening and that is where they will work to advantage.

Joe Dwyer received a telegram yesterday from Orillia, asking him to report at Orillia on Wednesday at noon for the game with the All-Stars.

Frank Rankin, captain of the Eaton champions, is ill with la grippe in Winnipeg. His physicians are trying hard to have him around for the cup series.

The defeat of Ottawa by Quebec and loss of Wanderers to Canadiens in the last scheduled N.H.A. game Saturday night, left hockey folks in a muddle just where matters stand. Quebec to-day is ranged at the top of the heap with 10 games won and 8 lost, having completed their schedule. Ottawa follows with 9 games won and 8 lost. Wanderers are out of the championship altogether with 8 won and 9 lost. The game of January 24, which Ottawa won from Wanderers but which was annulled because the champions played Fred Taylor for one period only, will be replayed next Wednesday, in Montreal. If Ottawa wins, they will tie with Quebec for the championship, and a home and home series result to decide the N.H.A. title and venue of the Stanley Cup. Should Wanderers win the game on Wednesday, the championship and Stanley Cup pass into the possession of Quebec outright.

The Frontenacs defeated the Toronto All-Star hockey team in Kingston last night by 5 goals to 4. It is possible that Frontenacs will play Preston in New York, at an early date.

Jack Thirnbeck's Midgets wish to play for the Clarke-Graham trophy. Jack has a classy bunch of youngsters and they will make a good showing in the series.

Several of the Marmora players saw the T.A.S. Lakefield game last night. Among them was Tommy DeForge, the old Peterboro boy, who is playing with the Marmora Trent Valleyists this season.

T.C.C. TURNED THE TABLES

Defeated All Stars by Score of 9-3

Toronto, March 5— Showing the form which won for them the junior O.H.A. championship, the Toronto Canoe Club turned the tables on the All-Stars last night at the Ravina rink before a small crowd. Nine to three was the final verdict which gives the Paddlers a majority of four on the round.

The All Stars showed up prominently in the first half, and with the score a tie at half-time—3 to 3—it looked anybody's game. However, in the final period, the Paddlers made one of their sensational finishes and tallied six, while the All-Stars failed to penetrate the Canoeists' nets.

It was a lightning fast game, especially in the first half, when the players indulged in sensational rushes, which brought the crowd to their feet. The fast pace, however, was too much for the All-Stars and they faded away badly in the last half, while the Paddlers finished strong. The latter were right at home on their own rink, and with them playing good combination, they worked right by the All-Star defence the last period. In fact they were peppering away at Hainsworth nearly all the time, the play being seldom in the Canoeists' territory after the first five minutes of the last half.

The bright and shining star of the game was Murray at right wing for the Paddlers. His work was a revelation to those who have followed the team all season. He was the Paddlers' chief scorer. The line-up—

Toronto Canoe Club —Goal, Laird; point, Sidley; cover, Gooch, rover, Romerill, centre, McKenzie; left Dopp.

All-Stars—Goal, Hainsworth; point Denison; cover, Armstrong; rover, Sanderock; centre, Betterfield; left Solomon; right Jupp.

Referee—Harry Burgoyne.

BIG SALE OF BALL CLUB SHARES

Proposition is Meeting With Splendid Success

The shares in the Peterborough Ball Club Limited, are being subscribed for rapidly. Anyone wishing to get in on the proposition had better do so at once as the list will be closed to-morrow afternoon.

Judging by the enthusiasm in evidence throughout the city, there will no trouble in selling enough shares to put the club on good footing.

Lists may be seen at the following places:—Dr. Wightman's Hall, Medd and Davidson's, Dan McCabe's, C.G.E. office, Oriental and at the Examiner and Review.

The provisional directors will be announced shortly.

The passage of the first solid vestibule train on the Grand Trunk Pacific through the Province of Alberta was marked the other day by the carrying of the Lieutenant-Governor, the members of the Legislature, its press correspondents, and other invited guests, through Jaspar Park, as far as Fitzhugh, and over a few miles of the Yellowhead Pass to the present railhead of the new transcontinental line.

WHO IS WHO IN THE BONSPIEL

Skips Thompson and Renwick Now in Fourth Round

Local Curlers Go to Keene for Anniversary Celebration

Six more games in the local Bonspiel were played in the Charlotte st. rink last night. Some more close scores give evidence of good curling and exciting contests. Three of the games were in the primary contest. Skip Colling defeated McIlroy 8-7, after a see-saw game, and Brightman finished with a four shot lead on his opponent W. G. Morrow.

The winners of the above games pass into the third round. In a third round game Renwick defeated McDermid 18-4.

Three consolation games were also played as follows—

Bowes Skip 10	Wightman Skip 12
Maitland Skip 18	Stevenson Skip 4
Connal Skip 19	Davidson Skip 8

Two rinks, Thompson's and Renwick's have reached the fourth round in the Primary Contest. In the third round the following two games have yet to be played; J. H. Ferguson vs. Lang, Brightman vs. Colling.

Four rinks from the Peterboro Club are attending the celebrations of the Fiftieth anniversary of the Keene Curling Club, being held in Keene. Rinks from Norwood, Hastings and Campbellford are also in Keene for the purpose of taking part in the jubilations.

BROWNIES AND HUSTLERS PLAY THE FIRST GAME

Schedule for the City Basketball League

The City Basketball League held a very successful meeting last night, when the following officers were elected:

Hon. President—A. W. Cressman.
President—F. E. Ellis.
Vice-President—S. R. Hall.
Secretary-Treasurer—J. J. Thompson.

After the election of officers the draw for the schedule was made, which brings the Brownies and Hustlers together on Tuesday, March 12th in the opening game of the league. The Collegiate and Eko Club will meet on Friday, March 15th.

SCHEDULE.

March 12th—Brownies vs. Hustlers.
March 15th—Collegiate vs. Eko Club.
March 19th—Brownies vs. Eko Club.
March 22nd—Hustlers vs. Collegiate
March 26th—Eko Club vs. Hustlers
March 29th—Collegiate vs. Brownies.

PORT NELSON IS THE CHOICE

As the Terminus of the Hudson Bay Railroad.

Ottawa, March 5.—The report of Chief Engineer Armstrong, in charge of the construction of the Hudson Bay Railway, tabled in the House by Hon. Frank Cochrane yesterday afternoon, shows that Port Nelson will be preferred to Fort Churchill as the terminus.

Mr. Armstrong finds that while Fort Churchill has naturally the better harbor protection, it has an inadequate site available for railway terminals, is open only for five months of the year and involves a large and more expensive route, with greater cost of annual maintenance.

Port Nelson, however, has ample and easily-utilized terminal sites and is open seven months in the year for navigation and, from the standpoint of ultimate utility, is decidedly to be recommended.

It is interesting to note, in view of the recent order-in-council giving Ontario the south side of the harbor mouth at Port Nelson, that Chief Engineer Armstrong declares that a suitable terminal site is available on either side of the river. The estimated cost of terminal development at Port Nelson, having in view the handling of from sixty to seventy million bushels of grain within sixty days, is $20,000,000.

Michigan Apple Crop Suffers.

St. Catharines, March 5.—From statements made at the annual Fruit Institute of Niagara District Growers here yesterday afternoon, there is a possibility that the entire crop of the state of Michigan will be ruined as the result of the severe winter, the trees having been exposed to over 20 degrees of frost.

C. E. Bassett, secretary of state, for the horticultural society, made the statement, which he partly qualified by saying that if any orchards produce a yield, it will be due to use of clover clop, which hindered the fall growth of trees and buds, so that they entered the winter hard and solid.

Prof. Gussow of Ottawa declared that yellows and little peaches cannot be cured, as both are what he termed constitutional diseases.

Writing to her brother, Constable Phillipson, of Prince Rupert, a Glasgow lady, stated recently that one of the features of greatest interest in her home town just now is the exhibition of moving pictures of Prince Rupert and district being given under the auspices of the Grand Trunk Pacific Railway. "So great is the rush to see these pictures," she adds, "that seating accommodation in the theatres at which they are shown is at a premium and the houses are sold out long before each performance commences."

Mr. John Stinson died recently near Red Rock, Verulam, B.C., at the age of 101.

The British Government will pay $5 a ton freight on 25,000 tons of coal to be purchased in the United States.

FIREPROOF THROUGHOUT

Write for "Guide of Buffalo and Niagara Falls." It will b sent with our compliments.

C. A. MINER, Manager.

FOURTH DEGREE TOO MUCH LIKE MASONIC ORDER

Ottawa, March 5—Rev. Father M. J. Whelan, rector of St. Patrick's Parish who has just issued a writ against the head office of the society in New Haven, Conn., asking for an injunction restraining it from establishing the fourth degree in Ontario, absolutely declines to discuss his action.

"It's my business," he told your correspondent, when the latter asked him for a statement.

It is stated, however, by members of the society here, that Father Whelan's objection to the fourth degree, which was established last Thursday in Toronto at an exemplification which a number of Ottawans attended, along with score of others is that it smacks too much of ritual and secret society work. The rumor that he is opposed to the society as a whole, and regards it as a menace to the Church, is utterly without foundation, as Father Whelan himself is still a member of Ottawa Council. A number of the more conservatives here are inclined to agree with the principle that prompted his action, though they dislike the publicity which has followed it.

It is altogether likely that the opposition will now be dropped as the writ has now been proceeded with.

Asked in regard to the statements made by a writer in the French sheet LaCroix as to the Masonic nature of the Knight's of Columbus, Mr. M. J. Gorman, K.C., Grand Knight of Ottawa Council stated; "Attacks like this are nothing new. We have been getting that for years. As to the K. of C being an enemy of the French race, why there are at least 2000 French members of it.

Queen Mother Better.

London, March 5.—Queen Mother Alexandra, who has been suffering from an attack of influenza, is making good recovery.

Several members of the household in Marlboro House have also been attacked. Princess Victoria, who was the first victim, is now better and went out for the first time Saturday.

Found Dead In Bed.

Niagara Falls, Ont., March 5.—Mrs. John Daly was found dead in bed at her home here yesterday. It is believed she suffered a stroke. She was 3 years of age and is survived by three sons.

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

Is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

DOCTOR ADVISED HOSPITAL

But Lydia E. Pinkham's Vegetable Compound Cured Her.

Upper Sandusky, Ohio.—"Three years ago I was married and went to housekeeping. I was not feeling well and could hardly drag myself along. I had such tired feelings, my back hurt, my sides ached, I had bladder trouble awfully bad, and I could not eat or sleep. I had headaches too, and became almost a nervous wreck. My doctor told me to go to a hospital. I did not like that idea very well, so, when I saw your advertisement in a paper, I wrote to you for advice. I have done as you told me.

"I have taken Lydia E. Pinkham's Vegetable Compound and Liver Pills, and now I have my health.

"If sick and ailing women would only know enough to take your medicine, they would get relief."—MRS. BENJ. H. STANSBERY, Route 6, Box 18, Upper Sandusky, Ohio.

If you have mysterious pains, irregularity, backache, extreme nervousness, inflammation, ulceration or displacement, don't wait too late, but try Lydia E. Pinkham's Vegetable Compound at once.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and such unquestionable testimony as the above proves the value of this famous remedy, and should give everyone confidence.

BROADVIEW Y.M.C.A. FORMALLY OPENED

Toronto, March 5.—The new Y.M.C.A. branch building on Broadview avenue, the first fruits of the big campaign by which $800,000 was raised one and a half years ago, was formally opened last evening. The event marked the culmination of the work started 10 years ago among boys on the east side, by Mr. C. J. Atkinson, for the Broadview Boys' Institute, has passed out of existence, taking on the new form of a branch of the city Y.M.C.A.

Mr. H. M. Gilchrist, formerly of the local Y.M.C.A., is general secretary at Broadview.

The Season's Showing of New One-piece Dresses

WANTS TO EXPAND.

Irish Capital's Progress Held Back by Party Politics.

"Greater Dublin" is the war cry of a new organization which has been formed recently in the Irish capital for the purpose of bringing about the consolidation of the outlying residential suburbs with the city proper. It has the support of many influential citizens and its only opponents are those whose financial or political interests would be affected by the change.

It is an old complaint that Dublin is one of the dirtiest and most squalid cities in the world. An Irish American who visited the city recently full of enthusiasm for the land of his fathers went away disgusted. He declared that he had never seen more hopeless, dirty, and degraded poverty even in Naples. He was disposed to blame the Dublin corporation for the condition of affairs which shocked him so, but while the corporation is to blame to a certain extent it is not responsible in the sense that he was disposed to hold it.

The trouble is that with the best will in the world the Dublin corporation has no money for civic improvements, and especially for providing better housing for the very poor, and it won't have any until the inhabitants of the prosperous suburbs are made to pay their share. The tax rate is now far too high and to make it any higher would be simply to invite disaster.

Dublin proper is suffering in two ways. Years ago her aristocracy left her for London, and the fine old houses in the squares which still bear the names of the great Irish families which occupied them once have been cut up into tenements for slum dwellers. The prosperous commercial class have also left the city. They have been attracted by fresh new houses, cheaper rents, and lower taxes in suburbs like Rathmines, Pembroke and Blackrock, and the houses that they once occupied have also fallen on evil days. Even the better class artisans are leaving the city for the new suburbs. Both of the latter classes, however, belong to Dublin.

They come into the city every morning to earn their living and they leave it at night. There is no physical division between the suburbs and the city and the suburban dwellers really are escaping their responsibility for the sanitation of the city, out of which they make their living, and for the housing of the workers without whom their prosperity would not exist.

Perhaps it is natural that these suburbanites should resist the annexation of the suburbs by the city and try to keep their low taxes as long as possible, but they would hardly prevail if the political element did not enter into the calculation, and curiously enough, both Nationalists and Unionists are united on this one issue. The suburbs are largely Unionist in politics and the city is Nationalist. The Dublin corporation elected as it is by the old city area, is overwhelmingly Nationalist, and it has the control of a good deal of patronage. Its members are afraid that if Greater Dublin became a fact they would be swamped by the Unionist vote of the suburbs. The Unionist suburbanites are not so sure of this and they fear that if they allowed themselves to be absorbed by the city they would lose their control of their little independent Unionist townships. Both parties are united in the desire to hold on to what they have as, in this case, it is hard for patriotic men who desire only the good of Dublin as a whole to make headway.

A Perpetual Pension.

An interesting fact has come to light in connection with Mr. Smith, a groom who has lately taken up his residence at Peterborough, viz., that his family have been drawing a pension from the British Government for the space of 276 years.

Mr. Smith, who draws thirty shillings a week, explained in an interview the history of the pension. It appears that after the battle of Worcester an ancestor of Smith assisted Prince Charles to escape, and was one of those who helped to hide him in the famous oak tree. Years passed, and it was not till 1675 that King Charles II. was informed of the incident. Parliament, on the advice of the King, was not slow at rewarding those who had rendered services, however slight to the sovereign. The consequence was that Mr Smith's ancestor was placed on the perpetual pension list at the rate of thirty shillings a week, with the result that the family have received (in round figures) something like $107,500 since the pension was granted.

Mr. Smith's father, it appears, parted with the pension to another person while he lived, but on his death it reverted again to his eldest son, and in turn it will descend to the present pensioner's eldest child, and so on. It is stated this perpetual pension is the only one of its kind in existence.—London Daily News.

Peculiar Table Customs.

In a book entitled "Domestic Manners of the Middle Ages" we are told that in those days dinner tables were covered by a "nappe," or tablecloth. Upon it were placed a large saltcellar, bread and cups for wine, but no knives or plates. The reason for the absence of the knives arose from the common practice in vogue of people carrying their own knives in a sheath attached to their girdle. In an early work, written by Lydgate—"Rules For Behavior at Table"—the guests are told to bring no knives unscoured to the table, which can only mean that each one was to keep his own knife—that is, the one he carried with him—clean.

Irish Women.

A cosmopolitan critic, lately deceased, after surveying woman kind from China to Peru, gave the palm for attractiveness to the women of Ireland. He dwelt rapturously on their beauty and their naivete, averring as a final compliment that they are pre-eminently the femmes dangereuses. That they have infinite charm none can deny, even the cockney whose profound knowledge comes of a galloping holiday trip to Killarney, Wicklow or the Giant's Causeway—London Chronicle.

J. Y. Shantz & Son of Berlin, one of the oldest button manufacturers in Canada, made an assignment yesterday for the benefit of their creditors. E. R. Clarkson & Co. of Toronto are the assignees.

John Hunter, one of the oldest Oddfellows in the Canadian West, is dead in Winnipeg. He was 75 years old and had been an Oddfellow for over fifty years, having had all the degrees conferred upon him.

When introducing the army estimates in the British House of Commons yesterday, Lieut.-Col. J. E. B. Seely, Under Secretary of State for War, announced that the aviation school to be established at Salisbury Plains, would be for the training of soldiers, sailors and civilians.

Redmond's Tribute To Blake.

London, March 5.—(C.A.P. Cable.)—John Redmond has sent the following telegram to Hon. Edward Blake's widow at Toronto:

"I pray you to accept the deepest sympathy of the entire Irish party and myself on the death of your distinguished husband, who gave so many years of unselfish labor for the cause of Ireland."

Toronto Man Killed at Winnipeg.

Winnipeg, March 5.—Stewart Watson, formerly of Toronto, assistant foreman in the Sterling Bank building, was killed yesterday morning by being knocked down an elevator shaft by a tile falling from the elevator on to his head.

Victoria's Big Breakwater.

Victoria, B.C., March 5.—Louis Coste, Dominion Government engineer, favors a three-foot breakwater, to cost $1,250,000, in preparation for increased business expected from the Panama Canal.

Life-Saving Station at Niagara.

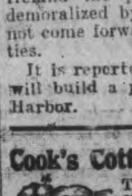
Niagara Falls, Ont., March 6.—A communication was received yesterday by the Board of Trade from William German, M.P., stating that every indication pointed to the early establishment of a life-saving station here, as a result of the recent ice bridge tragedy. Americans are making an effort to have the Congress establish a station over the river.

Reign of Terror In Ireland.

London, March 5.—The Irish Lord Chief Justice, speaking at the County Clare Assizes, said he might be very brave sitting there with police all around him, but was a man to be blamed for refusing to give evidence if he lived on the mountain with an enemy all round? In some parts of Ireland the people were so utterly demoralized by fear that they would not come forward to help the authorities.

It is reported that the Government will build a public dock at Victoria Harbor.

Cook's Cotton Root Compound.



The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (formerly Windsor)

BRASS WORKERS.

Theirs Is a Dangerous Trade, and They Usually Die Young.

The present rate of mortality of the brass foundryman is two and a half times that of the farmer. Respiratory diseases, particularly consumption, account for the difference. Comparative tables based on sickness and invalidism, if obtainable, would show even greater differences.

The age statistics in the trade are startling. Of 1,751 brass foundrymen but seventeen over fifty years of age were found and a bare 200 over forty years of age. When asked the cause of this officials invariably stated: "They got too old. They can't turn out the work they should every day." But what sort of an industry is this in which nearly six-sevenths of its followers are too old at the age of forty? It is not thus among ironmolders, most of whom are hale and hearty even at sixty years and still able to turn out their full quota of work daily. Workmen claim they "are knocked out by the brass fumes."

These age statistics for Chicago workmen are no different from those Sir Thomas Oliver gives in his book on "Dangerous Trades:" "Only ten brass workers of 1,200 casters in Birmingham, England, were found living beyond sixty years. A superannuation insurance for brass founders, to begin at fifty-five years of age, had only three applicants in a period of some ten years."

There is no cure for brass chills. But they can be prevented by striking at the cause. For such an important industry not to do so is like tolerating smallpox in a modern community. The workmen must be protected from the breathing in of brass fumes and foundry smoke. In large foundries with good ventilation, either natural or artificial, brass chills practically never occur.—Emery R. Hayhurst in Survey.

HUNTING THE WOLF.

Trained Eagles Are Used by the Tartar Tribes of Asia.

There are many ways of hunting the wolf in Russia, some very curious and exciting and others as tame as target practice. The most sportsmanlike way is by means of hounds, and all over Russia today there are well to do sportsmen who hunt the animal in this fashion. Wolves are also taken in pitfalls and shot, while still another way is to drive in a sleigh through the forest in time of hard frost, when the wolves are bold with hunger. At the back of the sleigh one or more sportsmen lie snugly under their fur rugs with their rifles ready. A young pig is carried in the sleigh, and its cries soon reach the ears of the lurking wolves, who cannot resist following the sleigh and are speedily shot.

One of the most picturesque ways of hunting the wolf, perhaps, is that which one may see in the west of Asia on the bleak Kirghiz steppes. The Tartar tribes are wonderful horsemen, and they ride after the wolf in very large parties. Not only are dogs used to overtake the quarry, but because a fleet wolf may get away from them, eagles are used, being trained to help the hunter in very much the same manner as falcons in olden times. The great bird sits on the hunter's wrist until it is let loose. Then it soars into the air, sails after the quarry and swoops down upon it. Its duty is not to kill, but to "bother" the wolf by flapping its wings in its face and driving its sharp claws into the animal's back. Such hunting makes capital sport for the riders; but, apart from this, wolf hunting is a real necessity in those parts, the brutes being far too partial to the lambs and kids of the Tartars' flocks.—Wide World Magazine.

Hard to Get Into Jail.

There was a queer old specimen of humanity brought to the Cuyahoga county jail. He had been convicted of the crime of cruelty to animals, and there was no doubt in anybody's mind that he richly deserved the penalty inflicted. It is the custom to examine prisoners, however, before they are assigned to their cells. When this old reprobate was brought up the interrogation went thus:

"What is your name?"

"Budd Dobbs."

"What is your age?"

"Sixty-eight."

"What is your religion?"

"Great snakes! Does a man hafter git religion before they'll let him inter jail in this county?"—Cleveland Plain Dealer.

A Gentle Reminder.

Neighbor—Hello, Jenkins! How are you? Haven't seen you in the garden for quite a time, and you never come and see the wife and me now. Why is it? Jenkins—Well, the fact is, old chap, that it's not through ill will or bad feeling or anything like that, you know; only you and Mrs. Possmore have borrowed so many things from me that when I see your place it makes me feel quite homesick.—London Answers.

Art and Science.

"What a beautiful picture of an angel!" said the lady who was visiting the art gallery.

"Yes," replied the aviation enthusiast, "but between you and me those wings aren't practical."—Washington Star.

Never Despair.

He who despairs wants love, wants faith, for faith, hope and love are three torches which blend their light together, nor does the one shine without the other.—Metastasio.

He is a brave man who refuses to be disheartened by the fact that he was beaten yesterday.

Two red butterflies have made their home this winter in Bean's foundry in Fernie.

TRY THAT JUST ONCE!

If you have any sore place—ulcer, eczema, burn, cut or cold sore, be well advised! Try Zam-Buk.

Druggists sell more Zam-Buk than any other salve.

Their profit on it is no greater than on others—is less than on many. Do you think Zam-Buk would be so much more widely used than any other salve if it were not so much better?

Sentiment and advertising might make first sales, but only QUALITY can produce repeat orders

More and more Zam-Buk is being sold every month, because the quality is there.

How about the children's sores and skin troubles? Don't you think they deserve the best remedy you can get?

That's Zam-Buk.

50c. all druggists and stores. Write Zam-Buk Co., Toronto, for free sample, and send this advertisement.

WEATHER FORECASTS FOR MARCH

A regular storm period will develop and run its regular course from the 3rd to the 7th inclusive. The full moon falls on the 3rd, and the centre of Mercury period on the 2nd. The Mars influence will extend to all the early part of March. Hence look for very low barometer, followed by heavy storms on the 4th, 5th, 6th and seventh—first in the west, shifting regularly to eastward with possible thunder and lightning and rain first, followed west by general damaging sleet and possibly snow blockades. A cold wave will follow blizzardous storms from the northwest calling for timely provisions against exposure and danger to man and beasts. A very decided seismic impulse will be felt in many places, within a period of seven days, central on the 3rd—watch telegraphic reports.

A reactionary storm period is central on the 10th and 11th, involving the 9th and 12th. March the 11th, each year, is the central day of a four to six day period, in which the earth passes a maximum crisis of electric and magnetic unrest. Electrical storms, streams of solar magnetism, earth-currents, volcanic outburts, auroral lights, telegraphic interruptions and seismic tremors are all quite common and natural at this crisis. Rain turning to sleet and snow will return in force on and touching the 10th and 11th. Be prepared for this, and for the change to much colder, which will most likely follow, up to about the 14th.

A regular storm period covers the 14th to 19th, having its centre on the 16th. The barometer will begin falling in the west about the 14th, with cloudy and threatening conditions. By the 15th and 16th these conditions will bring rain areas, moving eastward, and on the 17th, 18th and 19th a marked low barometer will pass the central Mississippi valley, attended by decided storms of rain and wind, with possibly tornadoes and hurricanes southward. Snow, rising barometer and change to much colder, will push the western flanks of these storms, leaving cold, fair weather over most parts for several days following storm. The new moon on the 18th, and on equator 19th, will hold the culmination of this period back until those dates. A seismic period is central on the 18th, covering the 15th to the 21st. Watch the world's record.

A reactionary storm period falls at the centre of earth's vernal equinox—on the 22nd, 23rd and 24th. Should the barometer fall to very low readings, especially in the south coasts and gulf regions at this period, with high temperature and humid atmosphere, ternadic storms, or West India hurricanes should be apprehended. Rain turning to snow, will visit many interior parts, following from the northwest by rising barometer, cold wave and gales from the northwest. Cyclonic storms, likely to have their origin in the West Indies about the 18th, 19th and 20th, may reasonably be expected to reach the gulf regions with quickened energy at this reactionary period. No harm to be on the watch. Vast danger and loss might result from neglect and indifference.

A regular storm period is central on the 28th, practically covering the last week in March. This does not mean that it will be storming everywhere all this time—only fools can so expect and so argue. Low barometer, cloudiness and storms of rain, turning to snow, will start in the west early in the period, will move eastward in successive days, preceded by falling barometer, fair and warmer weather, and followed from the westward by rising barometer, colder and clearing weather — all within the limits of, and days immediately following the storm period. Equinoctial storms are due at any storm period during this month, and one or more such storms may be reckoned as a certainty. The barometer should be watched at the oncoming of every period, and its faithful monitions carefully noted and heeded. Such precautions would save life and property.

LETTERS TO THE EDITOR

The Review does not hold itself responsible for opinions expressed by its correspondents

THE 57th REGIMENT BAND

To The Editor of The Review.

Dear Sir—I have read with considerable amusement the report of last night's Council meeting concerning Alderman Anderson's remarks regarding the ownership of instruments of the 57th Regiment Band.

As I understand it, his contention is that because of an annual grant the City should be considered the owners of the instruments.

There are hundreds of citizens who have subscribed from time to time to various objects charitable and otherwise derserving, upon the same terms, and I have no recollection that any of them ever laid claim to the institution or object to which they had contributed.

The City recently made a grant in aid of the poultry show, but I do not hear that the City Fathers are interesting themselves in the assets of that affair. At the time they refused a grant towards the curlers of Peterborough to assist in the entertainment of the visiting Scotchmen, and I am now sure the President of the Club is glad of it. Alderman Anderson might have been after his curling stones to adorn the balance sheet of the City.

Canon Davidson may have been anxious at one time lest the outsiders might have foreclosed their interests in the Chimes, but if he had received a city contribution I fancy I can now see him hastening to the Armouries for one of Major Young's artillery guns to ward off the attack.

I say leave the 57th Regiment boys alone, and give them their grant cheerfully and without further restrictions than those already imposed.

H. J. F.

NOT HOLDING UP THE PUBLIC

Agreement by Milkmen is For Protection Against Deadbeats

Ald. Brown reported to the City Council last night that an investigation by the Legal Committee proved that the agreement among the city milk vendors was principally for their protection against customers who were backward in squaring accounts.

Ald. Gordon remarked that the prices now charged were not excessive, all things considered.

Y.M.C.A. NOTES

There was a large senior gymnasium class last night, when a large number of the old fellows were back in their gym. togs. After some good stiff class work basketball and indoor baseball were the games played. Next class Wednesday at 8.

Business boys' gymnasium class at 7.

Senior Leaders' Corps will meet for tea and regular business meeting Wednesday at 6.

INFORMATION ON INCINERATORS

Toronto Firm Sends Particulars to the Council

The advisability of purchasing an incinerator as a means of disposing of the city's garbage seems to commend itself most favorably to those who have the matter in hand. The firm of Reid and Brown, of Toronto, forwarded to the City Council some information relative to the construction and cost and operation of incinerators.

An incinerator is composed of two compartments, an upper and a lower. In the upper part are six doors, through which the garbage is thrown into the incinerator, where it is first dried. It is then dropped down into the lower compartment, where it is consumed, having nothing but a few clinkers of tins, etc., which can be taken out and used for filling in purposes, etc. At the last meeting of the Property Committee the matter of buying an incinerator was left standing over until some information had been received relative to cost, etc.

Dr. de Van's Female Pills

A reliable French regulator; never fails. These pills are exceedingly powerful in regulating the generative portion of the female system. Refuse all cheap imitations. Dr. de Van's are sold at $5 a box, or three for $10. Mailed to any address. The Scobell Drug Co., St. Catharines, Ont. Sold by the Warne Drug Co., Limited.

INSPECTOR TO MAKE REPORTS

He Will Have to Report on All Work Done

City Fathers Pass Unfavorable Remarks About Him

One of the civic officials who came in for a hauling over the coals last evening was the city plumbing inspector. Ald. Gordon brought up the matter when he inquired of the chairman of the Property Committee, Ald. Duncan, if the inspector had ever furnished him with a list of work performed and inspections made.

Ald. Brown and Graham both stated that they had found the plumbing inspector to have been thorough in the performance of his duties.

Ald. Gordon thought it would be in order to have a motion put through asking the plumbing inspector to report to the Property Committee of work performed by him. Ald. Anderson seconded the motion which carried.

Ald. Morgan felt that the plumbing inspector was holding his position more through sympathy than worth. Ald. Duncan stated that whenever he wanted to find the plumbing inspector he ran good chances of finding him in a five cent show.

OBITUARY

Walter D. Lean

(Port Hope Guide.)

The subject of this brief obituary, Walter D. Lean, a blacksmith employed at the Standard Ideal, passed away last Saturday night after a short illness from typhoid despite the best medical treatment and nursing.

The young man (only 33 years of age) was beloved by all his fellow-workers, and his many friends here. Deceased had lived here only a short time, his home being in Lakefield, where he was held in high esteem. He leaves a widow and two small children to mourn his loss, besides a father and mother and brother in Apsley, County of Peterborough; one brother in Collingwood and one brother in British Columbia.

Deceased was a member of the Canadian Order of Woodmen of the World and Chosen Friends, which societies will conduct their services at his late home. The remains will be taken to Lakefield for interment on Tuesday morning.

AUCTION SALE

Of First Class Horses, Cattle and Implements of late Ben W. McDonald, on Lot 22, Con 4, Smith, will take place on Thursday March 7th at 12 30 p m. sharp. R. H. ALFORD Auctioneer.

BRITAIN AND HER COAL INDUSTRY

Based on statistics compiled in 1903, and on an increase annually of 2 1-2 per cent., the coal consumption of Great Britain is as follows;

Railways..............	16,000,000
Coasting steamers ...	9,000,000
Factories..............	66,000,000
Iron and steel works...	35,000,000
Other metal and mineral industries	1,250,000
Brick, pottery, glass and chemical works	6,500,000
Gas works..............	19,000,000
Private houses..........	36,000,000

Five to eight tons of coal per household is burned in open grate fires of British homes per annum.

Output of coal in British mines increase 2 1-2 per cent. per annum.

Exports of British coal increase 4 1-2 per annum. Coal resources estimate sufficient for from 400 to 600 years.

YOUNG MAN FACES VERY SERIOUS CHARGE

Port Hope, March 5—John Prouse, a young man nineteen years of age, appeared in the Police Court on a charge of seduction, the plaintiff being a Home girl only ten years of age. In order to allow the Chief to secure evidence the prisoner was remanded until Saturday.

Settler's Excursions to the West via. The Popular Route

The Grand Trunk Railway System to Chicago and thence connecting lines. Commencing Tuesday, March 12th and continuing every Tuesday thereafter until April 30th, to principal points in Saskatchewan, Manitoba and Alberta, Montana and North Dakota, including points on Grand Trunk Pacific Railway. The Grand Trunk Pacific Railway, shortest line, fastest time, finest service between Winnipeg, Saskatoon and Edmonton. Before deciding on your trip consult any Grand Trunk Agent for full particulars and literature, or write A. E. Duff, District Passenger Agent, Toronto, Ont. (d)

LOCAL NEWS ITEMS

A masquerade carnival will be held in Lakefield on Friday evening of this week by the W.F.M.S. of the Presbyterian church. It is expected that a large number from Peterborough will participate.

Mr. F. J. Stubbs, of the Collegiate Institute faculty staff, will address the Y.W.C.A. Literary Class to-night on the subject of "Little Things in Poetry."

DO NOT FROWN

When Glasses are removed, you frequently notice a frown or troubled look. Such eyes are under a strain which the Glasses remove. Suitable Glasses replace many a frown by a pleased, restful expression.

"BETTER WEAR GLASSES THAN FROWN."

OPTICAL INSTITUTE MARKET BUILDING.

YOUNG PEOPLE DEBATED ON CHURCH UNION

Seventy young people of the Presbyterian churches of Springville and Lakefield were enjoyably entertained in the Sunday school room of St. Andrew's church last night by the Young People's Society of that church.

An exceedingly fine musical program was rendered by the local young people, while a debate on "Church Union" was provided by the visitors. The affirmative, favoring the union, was taken by the Springville speakers, and the negative by the Lakefield representatives.

At the conclusion of the program an appetizing hot supper was given to the visitors. After supper short addresses were given by Rev. Dr. Marsh, Rev. Mr. Rollins and others. The evening was brought to a close shortly after eleven o'clock, when the young people from Lakefield and Springville returned home.

SOME HEN

J. Berry, Mack street, has a white Orphington hen which is certainly a wonder when it comes to laying large eggs. She laid three last week each measuring 7 3-4 inches in circumference and six inches in diameter at the middle. And Mr. Berry tells the Standard that she didn't cackle half as much as a sister fowl who produces one egg half as big every second day.—Kingston Standard.

Work is to be rushed this spring on the big bridges of the Grand Trunk Pacific for the section of the line which follows the course of the Skeene River. The G.T.P. Steamer "Prince Rupert" left Vancouver last week with the advance guard of a large number of bridge and steel structural workers belonging to the Canadian Bridge Co., and a considerable quantity of material is to follow to Prince Rupert in the near future.

A girl who has a little brother is always busy trying to keep him busy.

YOU CAN BE ABSOLUTELY SURE OF VALUES

If you carefully read the store advertisements and follow them in your buying.

Merchants advertise certain lines because they know these lines will advertise their stores. Because there is something about certain goods, they are put in conspicuous places and the people are told about them. It may be the exclusiveness or newness of design, it may be an unusual quality, it may be an attractive price.

But there is at least one definite, sure reason why a merchant advertises an article and is willing to stake the reputation of his store upon it.

Therefore, when you see an article advertised in THE REVIEW, depend upon it, that article is good value, as good value as can be obtained in that particular store.

SMARTNESS

FOR THE MAN seeking to dress himself in the best manner at moderate cost we earnestly advise a look through the new lines of The House of Hobberlin, Limited. We are sole agents for this big tailoring house. Nearly four hundred lines to choose from. Fit, style and honest tailoring are found in every Hobberlin garment to order. Let us make you your Spring Suit. This is not an experiment—we have satisfied hundreds and can please you.

We are Sole Agents for The House of Hobberlin, Limited.

GOVERNMENT HAS MAJORITY OF THIRTY-FIVE IN VOTE ON THE BOUNDARIES BILL

Laurier Drew the Vote of Five Nationalists on His Shrewdly Worded Resolution.

Ottawa, March 6.—The Manitoba boundaries bill reached a vote last evening on a cleverly drawn amendment by Sir Wilfrid Laurier, which was designed without stating any principle or affirming any policy to appeal to discontented Nationalists and to set province against province. The Government came out of the division with flying colors, rolling up a majority of 38, the vote standing 103 to 65.

Five Nationalists voted with Sir Wilfrid Laurier. They were Dr. Paquet (L'Islet), A. Bellemarc (Maskinonge), J. Guilbault (Joliette), Paul Lamarche (Nicolet), and Albert Sevigny (Dorchester). A. A. Mondou (Yamaska), did not vote and when challenged stated that he reserved his judgment until later in the debate.

The amendment of Sir Wilfrid Laurier which started the ball rolling was as follows: "That this bill be not now read a second time, but that it be resolved that while this House is favorable to the extension of the boundaries of the Province of Manitoba, it is of the opinion that the terms under which it is proposed to make the extension as set forth in this bill and in the order in council of February 20, 1912, are unfair and unjust both to the people of Manitoba and to the people of other provinces of the Dominion."

Sir Wilfrid, in opening, said that before the advent of the present Government, promises loud and many were made, that when the Conservatives came into power the Manitoba boundary dispute would be settled to the general satisfaction.

After perusing the present bill, he could only hope that the Government would not for the country's sake implement all their other promises in a similar manner. By it Manitoba received a certain amount of territory, but upon part of it was attached a stigma. She was given certain financial terms, which he did not object to because they were too generous, but because they were unfair and unjust to the other provinces,

After reading from the order-in-council, Sir Wilfrid asked: "Is this what they call equality and justice to Manitoba?"

Sir Wilfrid quoted further from the financial agreement, and then asked "is this a settlement? Can the Province of Ontario be satisfied with this?

"I know," he said, "the difficulty which confronted the Prime Minister in negotiating with Ontario and Manitoba. We gave them a well-defined and clear-cut boundary arrangement. We may have been right and we may have been wrong, but whether we were or not we were definite. The present agreement, though, is neither fair to one province or the other. I say, sir, that this agreement can be summed up in a very few words. It is a black eye to Manitoba and a gold brick to Ontario.

Sir Wilfrid then moved his amendment.

Hon. Robert Rogers, Minister of the Interior, said he desired to be understood as supporting the bill because he found in it the principles of equity and of justice. Premier Borden had shown his determination to maintain the rights of Manitoba and to uphold the traditional policy of the Conservative party to maintain equal rights.

Touching on the schools question, he said: "I believe the people of all provinces will respect the rights of minorities and will do justice to all,

Continued on page 6,

DUCHESS COLLAPSES WHILE NURSING WOUNDED SOLDIERS.

The Duchess of Aosta, who has been acting as a nurse in the Naples Red Cross, has been taken to the Capodimonte palace, suffering from fever contracted while nursing sick and wounded soldiers on the hospital ship Mouil. It is not believed that the Duchess is in a serious condition. She is very popular in her country and is known as one of the best huntswomen in Italy. She is very fond of hunting and has recovered some valuable trophies

FIFTEEN BELOW ZERO LAST NIGHT

Although this is the 6th day of March, the temperature last night was down to 15 degrees below zero. At 7 o'clock this morning it was 5 below.

While Robin Redbreast is said to have already made his appearance, it does not necessarily follow that spring is here. Sometimes Robin is too optimistic, and frequently he must with shivers regret his premature departure from the sunny south. Last year the date of his arrival (in number) was about March 17th. While the robin frequently makes a mistake, the blue bird never does. He times his arrival for April 21st.

Sleighing became bad in town about the first of March last year, and was finished on the 10th, although it remained fair in the country for a week afterwards. There were reminders of winter's storms in the fence corners, etc., until April 11th.

The grass began to assume its shade of green about April 26th. The maples began to leaf May 5, were in half leaf by May 13, and full leaf on the 18th.

SCOTT AT THE SOUTH POLE

Report Says He Has Accomplished the Feat

Special to The Review.

London, March 6—Reports are in circulation here, that Captain Sctt, leading the British expedition has reached the South pole, defeating the Norwegian and Japanese aspirants for that honor. At the Geographical Society it was said while the report had been heard, there was nothing known as to its authenticity.

ITALIANS USE LARGE DIRIGIBLE

Scouting Party Was Able to View Turks and Arabs

Special to the Review.

Tripoli, March 6.—For the first time in history, a big dirigible balloon was used to-day for scouting purposes, by the Italian army. The great craft flew far out over the desert and its crew was able to get a good view of the Turks and Arab's position.

SOCIALIST'S AFTER FATHER VAUGHAN

New York, March 6.—Piqued by the denunciations of their doctrines delivered from the pulpit of St. Patrick's cathedral in the course of the Lenten sermons by Rev. Bernard Vaughan, the distinguished London Jesuit, the Socialists have undertaken to drive the English preacher out of this country.

Every day he receives stacks of anonymous letters advising him to get out of this country as soon as he can.

In reply to the invitation that he "pack up his luggage and exit immediately to England," Father Vaughan announces that he intends to hold his ground and finish his course of lectures, come what may.

ANOTHER RAILWAY COMPANY IS GIVEN CHARTER

Can Operate From Lindsay to Other Points

Special to the Review.

Toronto, March 6.—The Lindsay to Minden Electric Railway Company bill was passed by the Railway Committee this morning giving the company power to extend its branches to Balsam Lake and Fenelon Falls, and also to charge tolls for the telephone and telegraph messages over their wires through these new districts.

RETURNS AND KILLS FATHER'S MURDERER

Albert Boyce Then Took His Own Life

Young Man Made Secret Return to Secure Revenge

Special to The Review.

Austin, Texas, March 6—A telegram from Georgetown, thirty miles from here, says that Albert G. Boyce, jr., the central figure in the Sneed-Boyce elopment, returned secretly from Winnipeg to-day, and killed J. B. Sneed, in revenge for the latter's murder of Boyce's father.

Young Boyce is reported to have committed suicide after killing Sneed.

Austin, Texas, March 6.—(Later).—Further word has been received here that the shooting was done by a man named Hillard, and that his victim was J. B. Sneed's father.

Niagara Peace Bridge.

Niagara Falls, Ont., March 6.—At the Board of Trade meeting last night the hundred years' peace celebration was discussed at length.

A brand new peace bridge plan was broached when George McMicking suggested that a bridge, similar to that at Bridgeburg, be constructed between the Chippawa, Niagara Falls, New York, and other plans for a peace bridge on the lower river, have all proposed to place the structure a short distance below the upper bridge.

CARS COLLIDE AND TEN ARE INJURED

Accident Occurred While Green Motorman Was Being Trained—Motorman May Die From His Injuries—One Car Ran Over Switch.

Toronto, March 6.—When an inexperienced motorman lost control of the brakes and his car thundered down the Dundas Bridge incline, jumped through an open switch and crashed into a slowly moving westbound car yesterday afternoon ten people were more or less seriously injured.

The victims are:

Mrs. Roxelena Hunns, 1,696 Dundas street; slight concussion, skull cracked.

Robert Geddes, 145 Leslie street; eye injured and scalp wound.

H. L. Staple, 117 Jarvis street; scalp wound, nose broken and injured internally.

David Mcgraw, 353 Berkley street; face crushed.

William Vasey, motorman, 866 Dundas street; leg broken and seriously injured.

John Burns, motorman, 51 Elm Grove avenue; ribs broken and chest crushed, condition is serious.

John J. McWilliams, superintendent of traffic, 192 Sorauren avenue; chest crushed slightly.

Percy Smith, conductor, 101 Perth avenue; injuries to back.

Charles Nodder, conductor, Sorauren avenue and Dundas street; severely bruised.

One unidentified woman; badly shaken, bruised and face cut.

Running down grade at about forty miles an hour was the palace car in charge of Burns which jumped the switch. Before the collision occurred the passengers were aware of the danger on account of the speed. The women became panicky and hysterical and all crowded toward the rear of the car. There were only about twenty passengers in all. Along the level of the bridge the trolley was going at a fairly good rate. The moment it struck the gradual descent the speed accelerated. The green motorman, who was handling the controller, could do nothing to slacken it. Burns, standing alongside of him in the vestibule, realized the danger, shoved the novice out of the way and applied the emergency, but his efforts were futile. The novice opened the door of the vestibule and joined the passengers.

The power had been turned on leaving the bridge, and, when Burns applied the air brake and the emergency there was no response. A few yards ahead, at the corner of Lansdowne avenue and the foot of the bridge, the switch was wide open. A westbound car was just leaving the white post after discharging a number of passengers, and its nose just crossing the intersection.

When the eastbound car plunged through the switch it rammed the other car head-on and poked a huge dent in the front vestibule. The report of the concussion, the explosion of the compressed air tanks, the screams and yells of passengers and the crash of splintered wood could be heard for blocks. The trailer of the eastbound car was swung across both tracks and the westbound car itself was thrown partially on its side by the impact. Every window was smashed to bits.

William Vasey, motorman on the westbound, and Burns, were the most seriously injured. Both were penned in the wreckage in the vestibule. Burns was game. Buried almost to his shoulders and held fast by the flooring and steel, he waited for ten minutes, suffering intense agony, but emitting scarcely a moan, while men were extracting him.

Burns was reported as in a very precarious condition, with his chances of recovery very slight. Besides several broken ribs, his chest was crushed. The conductors on the cars were not badly hurt.

Dr. Reid's office, located a few yards away, was converted into a temporary hospital. Eight of the victims were taken there on being removed from the panic-stricken passengers, and given primary aid. Four were immediately hurried to the Western Hospital. Two women were hurried to the home of Dr. J. W. Russell on College street, and were attended to and then taken away, one to her home and the other, Mrs. Hunns, in an unconscious condition, to the hospital.

THE LIBERAL ORATORS ARE FORCED TO STICK TO ISSUE

Boundaries Debate is Resumed in Legislature—Opposition Talks Finance.

Toronto, March 6.—Hanging fire since last Wednesday, the Ontario and Manitoba boundary discussion was resumed in the Legislature yesterday. J. C. Elliott of West Middlesex resumed the debate He wanted to know if Ontario had the right to build the Government railway into the Province of Manitoba, and still retain control of it. He is of the opinion that the railway would pass under the jurisdiction of the Dominion Railway Board. "It means," said he, "that we get the port by giving up control of the Ontario Government railway and the whole matter apparently has been carried on without any knowledge of where this province is going to land."

The Speaker had ruled that nothing should be introduced in the discussion beyond what was contained in the original motion and the two amendments, Mr. Elliott, however, alluded to the financial end of the settlement, and Sir James interrupted, to say that as far as Ontario was concerned, there was no such thing as a financial end of it. Manitoba was the only province that secured money from the Federal Government, and Mr. Elliott was trying to infer, apparently, that Ontario in some way had been related to a financial consideration.

Mr. Rowell interrupted that that was just his contention. He claimed that Manitoba had stepped in and secured a cash grant as well as the territory.

Sir James explained that the Legislature did not know anything about any such financial agreement. Referring to Mr. Rowell, he said, "he isn't frank enough to state that the financial arrangement was between Manitoba and the Dominion Government. There was not a word about Ontario. This province had no more to do with a financial arrangement than the kingdom of Morocco.

A. G. MacKay added to the discussion by making reference to financial arrangements that were made about the time of confederation.

The Speaker at this juncture ruled against the introduction of finance into the question.

"Well, it has come to the point that Ontario should assert her rights," said Mr. Elliott. "She has been the victim of neglect, and the time has come when we should not lay the blame on Sir Wilfrid Laurier, the present Prime Minister of the Dominion, or even the Prime Minister of this province; but we should sink our political differences in order that Ontario may get the rights to which she is entitled."

Mr. Elliott then moved an amendment regretting "that the Government has undertaken to deal with the division of 324,000 square miles of territory in Keewatin without consulting the Legislature; that the Government failed to realize the great importance of securing such an extension of the provincial boundary as would include her natural hinterland and a deep sea harbor on Hudson Bay, which would have enabled the provincial railway to be extended to tidewater; that the Government failed to properly and adequately present to the Government of Canada the claims of the province to the territory in question, and thereby seriously prejudiced Ontario's case, and led to the conclusion that the matter was regarded by the Government as being of minor importance to the province; that the Government, without securing the aid of the Legislature, admitted that this province 'had no legal right whatever,' and had consented to a division of the territory in question; that the order of the Governor-General-in-council of Feb. 20, 1912, providing for railway access to Port Nelson or Fort Churchill, by traversing lands within and subject to the jurisdiction of the Province of Manitoba, was entirely unsatisfactory; that the province would lose legislative control of its railway.

"It was the duty of the Government to prevent, if possible, a division of the territory in question, in accordance with the terms of the bill introduced in the House of Commons, and insist upon a division that will insure for Ontario the devision of the largest possible portion of her natural hinterland and a deep sea harbor on Hudson Bay within her own territory. It the provincial railway was extended to Hudson Bay it would involve a cost of $10,000,000, which would mainly benefit the colonization of Manitoba. The alteration of the terms of the confederation compact, as outlined in the federal bill, without the consultation or assent of the other provinces, was a violation of the spirit of the British North America Act, and it is the duty of the Government of this province to protest against any alteration being made in the said financial terms without the consent of this province, and to demand that, if additional sums are granted by the Dominion of Canada to the Province of Manitoba, that this province should be treated on exactly the same basis."

With reference to Mr. Elliott's alarm that the Ontario Railway would not be under the jurisdiction of the Government on crossing the Manitoba boundary, Mr. T. H. Lennox (North York) said that that should surely satisfy Mr. Rowell, because that was one of his chief contentions during his campaign, that the T. & N. O. Railway should be under the control of the Dominion Railway Board. He said that the Liberal Government in 1882, would have been willing to give a 40,000 square miles of the present Ontario territory to Manitoba, and shut off Ontario from the remotest possibility of getting a port on Hudson Bay.

Allan Studholme moved the adjournment of the debate.

Opposed to Beck's Bill.

Toronto, March 6.—Representatives of various electrical interests throughout the province went to the Parliament Buildings in scores to voice their protest against the added powers given the Hydro-Electric Commission by the introduction of Mr. Beck's amendment to the Hydro-Electric Act.

CHAINS, WALK AND STRAP TO BE STOPPED AT MIMICO

Different Methods to be Adopted in the Future.

Toronto, March 6.—Matters of general administration and constitution of the Mimico Industrial School largely occupied the attention of the second sitting of the commission of enquiry into charges of cruelty at that institution at the City Hall yesterday. A large number of listeners crowded into No. 1 committee room to hear the evidence. Most of them sat out the long session, which lasted from 2 o'clock till after 5 o'clock.

Remarks dropped by the commissioners and the trend of their questions to various witnesses, showed that plans of wide reconstruction are being considered. These showed that the parole system in use in Massachusetts, where the schools are done away and the boys apprenticed out is being considered, as is the plan separating mental deficients at their entry to the school. The question of a centralized control in the hands of the Government was also indicated, as was that of vastly increasing the usefulness of the teaching of trades. These matters and several others were shown to be in the minds of the commissioners by the trend of their questions.

One remark made by Dr. Bruce Smith indicated that the commission has determined that there shall be no more chains, no matter what form the reorganization shall take, and after the sitting, Supt. Ferrier declared that the handcuffs were gone never to return. The fate of the strap also, such straps as have been in use, appeared to be sealed.

Dr. Smith remarked that he did not think that after the investigation it would be necessary to formulate any rules concerning the use of handcuffs for there would be none.

CONDITION OF QUEEN ALEXANDRA

Special to the Review.

London, March 6.—A bulletin from Queen Alexandra's physician denies that her condition is grave and states that the Queen Mother is progressing favorably and that her recovery is assured.

Step Towards World Peace.

Washington, March 6.—Four hours' debate in the Senate seemed to indicate that the pending arbitration treaties with England and France probably would be ratified late to-day. The ratification will be the consummation of what many statesmen view as the first great move towards universal peace.

WOMEN LOSING SYMPATHY OF THEIR SUPPORTERS

Suffragettes Are Going too Far in Their Efforts to Obtain Vote.

London, March 6.—In pursuance of the Government's intention to fully test the efficacy of the existing laws to deal with the latest tactics of the militant suffragettes before resorting to special legislation to make the funds of the suffrage societies liable for damage done by their members, the police last night raided the offices of the Women's Social and Political Union in Clements' Inn. They arrested Mr. and Mrs. Frederick Pethick Lawrence, joint editors of Votes for Women, who were taken to the Bow street police station.

The police also had a warrant for the arrest of Miss Christabel Pankhurst, but did not find her there. They took possesion of the offices. The leaders of the union are charged with being responsible for the latest window-smashing campaign. They will presumably be tried under the conspiracy laws.

Members of the union seen last night declared that the new departure in inflicting hard labor sentences upon those convicted of taking part in Monday's demonstration, and in arresting the leaders will only produce a bigger crop of volunteers for militant work.

The weakness of the suffragist case, however, is seen in the fact that the great majority of women denounce the militant actions, which they declare are being carried too far.

Even the Women's Freed League, an important body which has already secured many reforms for women, deprecates the measures which the militant suffragettes are taking and the doings of the Social and Political Union, contending that the suffragists ought to be satisfied to await the outcome of the present Parliamentary session, which has offered the best hopes of advancing the cause.

PROBABILITIES

Fine, much the same temperature to-day and on Thursday.

NEW SIGHTS FOR ROSS RIFLES

Will Overcome the Objections of the N.R.A.

Ottawa, March 6.—The Dominion Rifle Association secretary expects in a few days to receive a new rifle sight for attachment to the Ross rifle, which will overcome the N.R.A. objections to the Canadians at Bisley. They are made by the Birmingham Small Arms Co. and approved by the N.R.A. The D.R.A. will have it tested before giving an opinion. It is said that the sight fits along the side of the barrel of the rifle, doing away with the objection to a sight on top.

INHUMAN TREATMENT SUFFERED BY CHILD

Body Discolored By Beatings, Nails of the Toes Wer Missing, and Bones Came Through Flesh—Man and Woman To Face Manslaughter Charge.

Special to The Review.

Winchester, Ont., March 6 — Mr. and Mrs. Clayton Bickford will face charges of manslaughter as a result of the finding of the coroners jury after an all night session, investigating the death of Catharine St. Pierre who lived with them. The evidence showec that the child had been most horribly misused. Her body was discolored from beatings, her toenails were gone, and bones protruded through the flesh of her toes from the child having had its feet frozen, while sleeping in the shed and going without boots.

Publish My Letter The World Over

The Words of Harold P. Bushy, Who Was Permanently Cured of Chronic Lumbago by "Nerviline."

"Three years ago I discovered that a man subject to lumbago might just as well be dead as alive." These words open the sincere, straightforward letter of H. P. Bushy, a well-known man in the plumbing and tinsmithing business in Portland.

"One attack came after another, and lumbago got to be a chronic thing with me. I could scarcely get in a day's work before that knifing, cruel pain would attack my back. I used a gallon of liniments; not one of them seemed penetrating enough to get at the core of the pain. I read in the Montreal Witness about Nerviline, and got five bottles. It is a wonderful medicine—I could feel its soothing pain-relieving action every time it was applied. When I got the disease under control with Nerviline, I built up my strength and fortified my blood by taking Ferrozone at meals. This treatment cured me permanently, and I urge everyone to give up the thick, white, oily liniments they are using, and try an up-to-date, penetrating, pain-destroyer like Nerviline.

LETTER NO. 4311

"Please publish my letter the world over. I want all to hear of Nerviline."

Don't be cajoled into receiving anything from your dealer but "Nerviline." Large bottles 50c., trial size, 25c. Sold everywhere or The Catarrhozone Co., Kingston, Ont.

NERVILINE
A Family Liniment

The Daily Review

WEDNESDAY, MARCH 6, 1912.

UNION LABEL

EDWARD BLAKE

The other day the mortal remains of a great man were placed in the family vault of St. James' Cemetery at Toronto. Not every one of us can be an Edward Blake. His was a useful life and he was what the world calls a big man. Before he died, he requested that the arrangements for his funeral be of the simplest character and his wishes were carried out. Men of lesser importance than Edward Blake have been taken to the grave with a great show of apparent sorrow and regret and have since been forgotten. But Edward Blake will continue to live.

HOSPITALS

The Board of Governors of the Amasa Wood hospital at St. Thomas, investigated charges of ill-treatment of a patient, but in their report exonerated the nursing staff. The patient was an elderly woman who suffered from paralysis, and after all the facts came to light, it was decided that her case was one that should be treated in a private home. It is a very easy matter to make complaints about inattentive nurses. Some patients, who are chronic kickers, forget that there are others in the hospital, and no matter how hard the nurses may work, they are not appreciated. Some time ago a critical case was accepted at the Nicholls hospital, the patient being a man. He entered the institution armed with a bag of candies, pipe, smoking and chewing tobacco and became very wrathy when their use was not permitted. During his stay in the hospital he tried the patience of each nurse who had him in charge, and it was a happy day for them when he was discharged—a cure. And again the enforcement of necessarily strict rules is misinterpreted and the story goes from mouth to mouth and grows accordingly. It is safe to say that the doctors of Peterborough will be in sympathy with the following clause of a resolution which was passed by the doctors of St. Thomas in connection with the case cited:

"And furthermore, we are of the opinion that in the past there have been citizens too anxious to circulate damaging reports without first thoroughly ascertaining the facts."

COMMISSION GOVERNMENT

Peterborough has been more or less interested in the question of civic government by commission. Addresses on the subject have been given on various occasions and last year a motion was made in council to the effect that the commission be introduced in Peterborough. There were only two votes in favor. Statistics gathered by a correspondent of the Philadelphia Ledger on the result of commission government in United States cities are compared with those with twelve cities without the system. The results will be interesting:

"In Galveston, in the year 1908, the total expenditures per capita amounted to $11.20. In Memphis they amounted to $11.90, and in Des Moines to $12.82. In the twelve Pennsylvania cities cited the totals ranged from $6.74 in York to $10.27 in McKeesport. In Harrisburg the total was $9.53. While the per capita expenditure in these cities were considerably less than in those governed by commission, the amount devoted to schools was in each case larger than the sum so used in either Galveston or Memphis. Des Moines, however, was more liberal in its school appropriation than any other city named in either class. In respect to expenditures classed as general, and those for police and fire protection, and for the maintenance of highways, the advantage was with the cities which have not adopted the commission plan."

Wood's Phosphodine, *The Great English Remedy.* Tones and invigorates the whole nervous system, makes new Blood in old Veins. *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhœa, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. *New pamphlet mailed free.* The Wood Medicine Co. (formerly Windsor) Toronto, Ont.

BONUS SYSTEM

(Edmonton Journal)

A proposal recently made by the Mayor of Lethbridge served as a "horrible example" for those who are in the habit of dwelling on the evils of the bonus system.

Some years ago the city induced a woollen manufacturing establishment to locate within its borders. It has proven a sinkhole for the city's money, with the returns practically nothing.

The situation at present is that the municipality has the building and plant on its hands. The expense of watchmen and fuel has been mounting up, while the mill has been idle, and the mayor now suggests that the machinery be taken down and stored in the upper story, while the lower could be used as a civic warehouse and repair shop.

Such a condition of things has arisen frequently in the east, where communities have been bled by promoters who worked on local rivalries to get what they wanted. The bonusing principle is unsound, and it is under the most exceptional circumstances that there is any justification in resorting to it.

NOTE AND COMMENT

The suffragettes in London are evidently of the opinion that "every little boulder has a mission all its own."

By the way, isn't it time Dr. Beattie Nesbitt was considering the advisability of performing the "come back" specialty.

There is no truth in the rumor that an open air carnival is to be held on the ice space which hides from view the pavement between Chambers and George street on the north side of Hunter street.

Sir Wilfrid Laurier repeats that he will lead the opposition so long as the party wants him, but fails to pass any remark as to how long he wants the party.

These melancholy days will pass,
The mud will soon be seen;
And every little while we'll get
A sniff of gasoline.

During a drunken brawl, Daniel Reynolds killed another man, and the law says that he must spend his remaining days behind prison walls. Had Reynolds in his youth kept to the straight and narrow path he path he might be filling a position of honor to-day. His downfall, he says, was caused by liquor.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucuous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucuous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

Sold by Druggists, price 75c.

Take Hall's Family Pills for constipation.

Better Farming Lectures

On March 12th, from 12.15 p.m., to 3.15 p.m., lectures pertaining to "Better Farming" will be given in a special train at Peterboro under the Department of Agriculture of Ontario.

Single first class fare for the return trip will be in effect from all stations on Grand Trunk Railway, Lindsay, Madoc Jct., and intermediate stations to Peterboro, good going on all p.m. trains, March 11th, all trains March 12th. Good for return until Wednesday March 13th.

Familiar Quotations.

One of the most familiar quotations from the Bible which are not to be found there upon research is "the lion lying down with the lamb." The spirit of the reference is correct enough, but turn up the passage in Isaiah and you will find: "The wolf also shall dwell with the lamb, and the leopard shall lie down with the kid, and the calf and the young lion and the fatling together." The popular mind has condensed the zoological miscellany, and to the incorrect version alliteration has no doubt contributed.—Exchange.

THE MARKET

Latest Quotations in Grain Dairy Products, Live Stock Etc.

CHICAGO, March 5.—Many wheat speculators sold out to-day in preparation for possible surprises when the government figures on farm reserves are made known the latter part of the week. Accordingly the market at the close was ⅝c lower to a shade up. Corn lost ⅜c to ⅝c net, oats finished ⅛c off to a shade advance and hog products wound up more costly by 2½c to 25c.

The Liverpool market closed to-day on wheat ¼d to ½d lower than yesterday, and corn unchanged. Buenos Ayres wheat closed ⅜c lower, and corn ⅛d higher. Paris closed 1c lower, Berlin ½c lower, and Buda Pesth ⅞c lower.

Montreal Grain and Produce.

MONTREAL, March 5.—Business in all lines of grain over the cable was very quiet again to-day, there being no improvement in the demand and prices bid were generally out of line. The local and outside demand for oats continues good. The market for spring wheat flour was strong, and prices were advanced 10c per barrel under a good demand from all sources, and stronger cable advices. A stronger feeling has also developed in the market for all lines of millfeed, and prices were advanced $1 per ton all round owing to the continued good demand and limited supplies available. Butter is firm with a steady demand. Cheese is quiet. Demand for eggs is good. Provisions steady.

Corn—American No. 2 yellow, 77½c.

Oats—Canadian western No. 2, 53c to 53½c; do., No. 3, 51c to 51½c; extra No. 1 feed, 52c to 52½c; No. 2 local white, 50½c to 51c; No. 3 local white, 49½c to 50c; No. 4 local white, 48½c to 49c.

Barley—Malting, $1.05 to $1.10.

Buckwheat—No. 2, 72c to 73c.

Flour—Man. spring wheat patents, firsts, $5.70; seconds, $5.20; strong bakers, $5; winter patents, choice, $5.10 to $5.35; straight rollers, $4.65 to $4.75; do., bags, $2.15 to $2.25.

Rolled oats—Barrels, $5.05; bag of 90 lbs., $2.40.

Bran—$25; shorts, $27; middlings, $29; mouillie, $30 to $34.

Hay—No. 2 per ton car lots, $15 to $15.50.

Cheese—Finest westerns, 15¼c to 15½c; finest easterns, 14½c to 15c.

Butter—Choicest creamery, 33c to 34c; seconds, 32½c to 33c.

Eggs—Fresh, 38c to 40c.

Potatoes—Per bag, car lots, $1.70 to $1.80.

Dressed hogs—Abattoir killed, $10.75 to $11.25; do., country, $9.75 to $10.

Pork—Heavy Canada short mess, barrels, 35 to 45 pieces, $22.50; Canada short cut backs, barrels, 45 to 55 pieces, $22.

Lard—Compound tierces, 375 lbs., 8¼c; wood pails, 30 lbs., net, 8¾c; pure tierces, 375 lbs., 11¾c; pure, wood pails, 20 lbs. net, 12¼c.

Beef—Plate, barrels, 200 lbs., $14.50; do. tierces, 300 lbs., $21.50.

Liverpool Grain Prices.

LIVERPOOL, March 5.—Closing—Wheat—Spot nominal. Futures easy. March, 7s 10⅞d; May, 7s 5⅞d; July, 7s 5⅛d.

Flour—Winter patents, 28s 9d. Hops in London (Pacific Coast), £10 to £11 5s.

Buffalo Grain Market.

BUFFALO, March 5.—Spring wheat scarce; No. 1 northern car loads store, $1.17½; winter unsettled; No. 2 red, $1.04, nominal; No. 3 red, $1.02; No. 2 white, $1.

Corn—Easier. No. 3 yellow, 71¾c; No. 4 yellow, 69½c, all on track thru billed.

Oats—Easy. No. 2 white, 57c; No. 3 white, 56c; No. 4 white, 55½c.

Barley—Malting, $1.22 to $1.33.

Duluth Grain Market.

DULUTH, March 5.—Wheat—No. 1 hard, $1.08; No. 1 northern, $1.07; No. 2 northern, $1.04 to $1.05; May, $1.06½ bid; July, $1.07⅛.

CATTLE MARKETS.

Toronto Live Stock.

TORONTO, March 5.—The receipts of live stock at the City Market were 1[illegible] cattle, 1839 hogs, 695 sheep and 284 calves.

Butchers.

Best heavy steers, $6.85; prime picked, $6.15 to $6.60; good, $5.90 to $6.15; medium, $5.40 to $5.90; common, $5 to $5.25; inferior, $4.50 to $5; cows, $3 to $5.50; bulls, $4.50 to $5.62½.

Milkers and Springers.

The supply of these was not heavy and prices were steady at from $40 to $65.

Veal Calves.

The demand was steady for calves, and prices ranged between $4 and $8.50.

Sheep and Lambs.

Sheep, ewes, sold at $4.25 to $5, and lambs at $7 to $7.50.

Hogs.

Hogs were quoted at Monday's prices, viz., $6.65 f.o.b., $7 fed and watered, and $7.25 off cars.

East Buffalo Cattle Market.

EAST BUFFALO, March 5.—Cattle—Receipts 350 head. Market fairly active and steady. Prime steers, $7.50 to $8; butchers grades, $3.75 to $7.

Calves—Receipts 600. Market slow, 75c lower. Cull to choice, $5.75 to $9.50.

Sheep and lambs—Receipts 8000. Market slow, 40c lower. Choice lambs, $7 to $7.15; cull to fair, $5.25 to $6.80; yearlings, $5.75 to $6.25; sheep, $2 to $5.50.

Lady Betty Across the Water

By C. N. & A. M. WILLIAMSON

Copyright, 1906, by McClure, Phillips & Co.

"Oh, I hardly know. Everything. Isn't it?"

"Yes. And I'm sure that's what our poor, handsome friend is thinking."

"Do you suppose he—minds?"

"I reckon he would like to go on being acquainted with you, Betty, and have the chances of other men. You're not an unattractive girl, you know—or maybe you don't know. And he's human. I have a sort of idea he'll try to make some change in his way of life, so that it may be possible to meet you again."

When Sally said this I had the oddest sensation, like a prickling in all my veins. I longed to ask her if she were joking, or if she really did think that Jim Brett was enough interested in me to take so much trouble. But the words came only as far as the tip of my tongue, and stuck to it as if they had been glued there.

Chapter 7

In the afternoon Mrs. Ess Kay and I, in our thinnest muslins, went out in the motor. We whizzed up Fifth avenue for several "blocks" (as she called them), turned into an expensive looking side street and stopped before one of the most enormous buildings I ever saw in my life. It seemed only half finished, for the steel columns of its skeleton were still visible around the ground floor and the street before it was still cluttered with bricks and boards and rubbish. In the hallway men were working like active animals in an immense cage. Suddenly from among them I saw emerge a beautifully dressed little girl foaming with lace frills, led by a trained nurse in gray and white uniform. They were actually being let out of the lift, which had swooped down with appalling swiftness by a man in livery.

"Good heavens," I exclaimed, "what a queer place for a child and its nurse to be in."

"My dear girl, they live there," said Mrs. Ess Kay rather scornfully. "That is Mrs. Harvey Richmount Taylour's little Rosemary with her nurse."

"People live on top of those poles like Jack in a beanstalk!" I exclaimed. "How appalling."

As I looked through the hallway up sprang the lift once more, fierce and swift as one of the rockets which I used as a child to be afraid might strike the angels. A minute of suspense and it swooped down again with two girls in it. I felt as if it were a thing I oughtn't to be seeing somehow; it was so much like spying on the digestive apparatus of a skeleton.

"You see," explained Mrs. Ess Kay, "the Taylours and other people were frightfully anxious to get in. The rest of the building will be finished soon, and this is going to be one of the swellest apartment houses in New York."

"This an apartment house!" cried I, thinking of the dull streets in London, where almost every door has "Apartments" printed over it in gilt letters or else hanging crooked and dejected on a card. "But, oh—perhaps you mean it's flats."

"For goodness sake, don't say 'flats' to Margaret Taylour," exclaimed Mrs. Ess Kay, marshaling me into the mammoth skeleton. "Over here, only common people live in flats; our sort have 'apartments.'"

"It's just the other way round with us," I explained. "Those who have flats would be furious if you said they lived in apartments."

"You English are so quaint in some ways," remarked Mrs. Ess Kay, and though I didn't answer, I was surprised. It's all well enough for us to think Americans odd, and we are accustomed to that, for everybody says they are, but that they should think our ways comic does seem extraordinary, almost improper.

By this time we were in the lift, which shut upon us with a vicious snap and then tossed us up toward the roof of the world. I do hope one doesn't experience the same sensation in dying, though in that case it would be worse going down than up.

Before I had time to do more than gasp we were at the top, and as we waited for an instant outside Mrs. Harvey Richmount Taylour's door I should have liked to pinch my cheeks lest my fright had left me pale.

Vic has a friend who lives in a flat near the park for the season, and once I was taken there. I thought it quite beautiful, but though the friend's a countess and very rich the flat is poor compared with this topheavy nest of Mrs. Taylour's.

In a white drawing room where the only spots of color were the roses—masses of pink roses in gold bowls—a Madonna-like being was reclining in a green and white billow of a lace tea gown on a white sofa. She held out both hands to Mrs. Ess Kay and looked at me, apologizing for not getting up.

When you come to examine her, the only thing really Madonna-like about Mrs. Harvey Richmount Taylour is her way of doing her hair. It's parted in the middle and folds softly down in brown wings on either side of rather a high forehead, white enough to match her drawing room. She has gently curved eyebrows, too, but under them her dark eyes are as bright and sharp as a fox terrier's. She has pale skin, red lips and thin features, with a stick out chin, cut on the same pattern as Mrs. Ess Kay's, though it isn't as square yet, because she is years younger—perhaps not more than twenty-eight.

Mrs. Ess Kay introduced us, in a more precise way than we have at home, and Mrs. Taylour said that she was very happy to meet me, which I should have thought particularly kind if I hadn't found out that it's a sort of formula which Americans think it polite to use.

She talked to me a good deal and wanted to know how I liked America, of course. I was sure she would do that.

Then Mrs. Ess Kay explained that I was interested in her apartment, being up so high and thought her plucky to live in it before the house was finished. This amused Mrs. Taylour very much.

"We are just thankful to be in it," she said. "I was tired out with housekeeping, the servant question is too awful."

"I see you've a trained nursemaid for Rosemary," said Mrs. Ess Kay. "We met them going out."

"Isn't Rosemary a pet?" Mrs. Taylour asked me as if she were speaking of somebody else's little girl.

"Sweet," I said. "Has she been ill?"

"No. Do you think she looks delicate?"

"It was the hospital nurse"— I began, but Mrs. Taylour laughed.

"Oh, I suppose that would strike you as funny. But we often have them for our children. We poor New York women have so much to do socially we have to be relieved of all feeling of responsibility if we don't want to come down with nervous prostration. I shall hang on to this same nurse for years if she'll stay; she's so good and only $10 a week. When Rosemary grows up and comes out she will be her maid, you know, Lady Betty. Do you ever have trained nursemaids in England?"

"No," I said. "Fancy!"

"Oh, it's a splendid thing for a girl—nothing like it. You see, the woman looks after her like a maid and a nurse

Reclining in a green and white tea gown.

both; makes sure her bath's the right temperature, takes care of her if she gets the grip, sits up and gives her beef tea or chocolate after balls, massages her and things like that. I used to have one myself, but a woman after she's married is different from a bud. She must have a French woman for her hair if she respects herself."

I said meekly that I supposed so, and then Mrs. Taylour left me to myself for a few minutes, while she talked to Mrs. Ess Kay. They compared notes about appendicitis, which they called the fashionable complaint, and Mrs. Taylour suddenly exclaimed:

"Oh, my dear, I have had just the smartest idea. As soon as Dr. Pearson will let me go to Blue Bay I tell you I mean to wake them up there. What I'll do is to have an appendicitis lunch. It'll be rather conducive, won't it?"

"You are the most original thing!" exclaimed Mrs. Ess Kay. "How are you going to manage?"

"Oh, nobody shall be invited except those who have had it, and the great feature will be the decorations, operating instruments, you know, and hospital nurses, and—oh, I don't know what all yet, but I'm thinking it out. It was Cora Pitchley's cat lunch that put it in my head." She turned to me. "Only women are asked or a cat lunch couldn't be worked. Is it so with you, too?"

"I'm afraid our women would think it a bore if there were no men," I answered. "Anyway, there always are some, I believe. I'm not out yet. Do tell about the cat lunch."

"Oh, it was only a pretty smart trick of my friend, Mrs. Pitchley. She was a rich young widow from the west with millions and very pretty and lively, so some of the old cats snubbed her and tried to keep her out of New York society when I was introducing her around. But she got her foot in at last, so tight they couldn't help themselves, for the Van Tortens took her up and she was made. So what did she do but give a big lunch, inviting all the women who had been the meanest to her, and not another soul.

To be continued

SANOL

The new discovery will positively remove Gall Stones, Kidney Stones, Gravel in the Bladder, and will effect a complete Cure. It will dissolve and remove stones without pain, and there is no necessity for an operation in the future, as Sanol will cure in every case no matter how long standing the disease may be.

SANOL will be found particularly valuable in old cases of Kidney and Bladder diseases.

SANOL is a preparation of herbs and herb extracts, and contains no poisonous ingredients. It's use, therefore, cannot possibly harm either the stomach or intestines.

Sanol per bottle $1.50

Get it from McDERMID & JURY, Druggists, Peterborough, or direct from The Sanol Manufacturing Co., Winnipeg, Man.
A copy of Sanol BOOKLET FREE

The European financial house of Lazare Brothers, with offices in London and Paris, will open up a Montreal branch.

MAIL CARRIER WAS DEVOURED BY WOLVES

Killed Four of Pack Before He Was Overcome

Fort William, Ont., March 5 — A searching party which left Sand Point on the north shore of Lake Nipigon, during last week, on the report of a mail carrier being missing, found traces of a tragedy that had been enacted on the north trail along the line of the Canadian Pacific Railway survey and construction parties. Eight miles out a piece of one hand and a shin were found in the trampled snow to the left of the track these being the only human remains found to tell of the grim fate of the man. That he had sold his life after a struggle was evidenced by the remains of four wolves found shot at the spot. The mail bag had also been devoured. Two letters and a brass lock picked up were the only remains of his Majesty's mail.

SALT RHEUM FOR 6 YEARS

Zam-Buk Has Cured Him

For over six years Mr. William H. Birt, of Pisquid, P.E.I., suffered from salt rheum. He says; "The disease attacked my arms and hands, and the fore-finger of my right hand was the worst.

"I was engaged as a blacksmith by the Bruce Stewart Co., of Charlottetown, and sometimes every stroke of the hammer would cause the finger to bleed freely. I tried various ointments and salves, and then went to several doctors in and around Charlottetown.

"One medical man after treating me for some time said he did not think I could ever be cured. Another put my finger into some fluid, which seemed to burn it terribly, and then put 'a straight jacket'— as I called it—on the finger for two days. Trying one thing and another I spent over $50.00 and all in vain.

"I saw an account of some of the great cures which Zam-Buk had worked and decided to try it. The first box did me a lot of good, and the finger showed traces of healing so I kept up the Zam-Buk treatment and a few boxes worked a cure. There has been no return of any trace of the disease, so I know the cure is permanent and I am so thankful for my cure that you are at liberty to use these facts as you like."

Reader, if you have any skin disease, cut, burn, cold sore or skin injury, try Zam-Buk. It is absolutely unique as a healer. Druggists and stores, everywhere at 50c a box, or post free from Zam-Buk Co., Toronto, for price.

Regrets Dreadnoughts.

After fifty-eight years in the service, Admiral Sir Edward Seymour hauled down his flag last year and retired into private life, and we have recently been reminded of the energy of this gallant sailor by the publication of his reminiscences. Some of his remarks when interview on his retirement are particularly interesting at the moment. "Nations," he said, "do not go to war to please their enemy; they go to war to smash him. War is now such a desperate, such a costly thing that a nation is perfectly justified in taking every opportunity to ensure the destruction of her enemy. I think it would have been better if Dreadnoughts had never been built. Ships go out of fashion almost as quickly as ladies' hats. It is a mistake to belittle the pre-Dreadnoughts of the Edward VII. class. If I were offered a ship to fight, I would prefer a Dreadnought; but if that were impossible, one of the other class—and of those we have plenty."

He Knows His Job.

For the seventieth successive year a member of the choir named Christopher Stokes took part in the harvest festival service at Hose, Leicestershire, England.

Will In Ledger.

The will of Edmund Hunt, of Manor Farm, Lower Clatford, Hants, Eng., disposing of £41,926, was written on a page in a ledger, from which it had to be torn by order of the registrar.

Forget the Match.

It has been found in Warwickshire, Eng., that the development of allotment gardening is seriously affecting the attendance at football matches.

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

Is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

CARTER MEDICINE CO., NEW YORK.

Small Pill. Small Dose. Small Price.

To Keep Tea At Its Best It Must Be Kept In An Air Tight Package.

RED ROSE TEA "is good tea"

201

COUNTRY TOWN SAYINGS

BY "ED" HOWE.

Don't accept any doctrine which keeps you in a constant state of humiliation because you neglect it.

If a man diets, he eats oatmeal in addition to everything else he usually eats.

In many of the punishments provided for bad conduct, there is neither judge, jury nor court house. No jury considers the lies you tell, but liars are punished.

Ask your children how many times you tell your old stories; ask them how tenderly you love your prejudices. Well, that's the way it is with other people.

A man who climbs mole hills with great difficulty, and believes he is climbing mountains, wastes energy needed in a better way. Besides, people laugh at him: and that hurts.

This is the season when a woman doesn't want to see callers; she wants to see paper hangers.

How the world runs off and leaves a man who does not care for baseball!

Hundreds of things you long for are not good for you.

A man who has been ailing three days says he has eaten nothing during that time except a little beef tea and toast. I should like to know just for fun, what he really ate during the three days he was grunting.

Nearly every time there is a big lot of money in sight, a case is manufactured to go after it.

A ten year contract has been entered into between the Grand Trunk Pacific Railway and the Northern Navigation Co.—a subsidiary of the Richelieu & Ontario—whereby the Railway will run special trains in connection with the Northern Navigation Co's. boats across the upper lakes, thus allowing a service from Toronto to the boats and from Fort William and Edmonton.

Five thousand deaths and $15,000,000 property loss is the estimate of the results of the Pekin rioting.

Admiral Aubrey, commander of the Italian naval forces off Tripoli, is dead from peritonitis, aged 63.

Satisfied Policy-Holder

[COPY]

Toronto, March 1st, 1912.

W. H. HILL, ESQ.,
Manager,
Sun Life Assurance Co.,
Peterborough, Ont.

Dear Sir,—I wish to thank the Sun Life Assurance Company, through you, for the prompt and very satisfactory settlement of my 15 year Endowment Policy, No. 64345, which matured and was paid me to-day.

I have also a 15 year Endowment maturing to-day in a leading British Company.

The contrast, in the results, in favor of your Company is so marked that I want you to know it, but I am at a loss to know how such a difference could honestly occur. When I tell you that the profits in your Company are three and one-third times the profits in the other Company referred to, and this too notwithstanding I paid the other Company $1.15 per year more per $1000 than I paid you, you will realize my inability to comprehend the cause.

This is surely a tribute to the management of the Sun Life, and I am so well pleased I have applied for further insurance with you.

Incidentally, I would like to say a word for your loan privilege. As you are aware, I borrowed some money on my policy, a little over a year ago, which enabled me to obtain a substantial interest in a town site in the Northwest, and you will be pleased to learn that it has already yielded substantial gain and gives promise to pay hundreds per cent., so that it is impossible to fully realize the value of that Policy to me.

I thought as an old Peterborough boy you would be pleased to know I am delighted with the result.

Yours truly,
(Signed) ROBERT E. DOLAN.

NUGENT'S STOMACH AND LIVER TONIC

"Felt Better After the First Dose"

That's a great deal to say for any med cine, but we have heard it from those who have taken Nugent's Stomach and Liver Tonic.

It is really the best tonic we know of for that "tired feeling" and loss of energy. It is a good appetizer, and enriches the blood.

Especially good for La Grippe.

You, too, will notice an improvement in your condition after the first dose, if your system is in need of a good blood enriching and up building tonic.

A Large Bottle with Pills for 50c

We never recommend a doubtful preparation.

ALL NUGENT'S REMEDIES ARE GOOD

For Sale only by

NUGENT DRUG Co.

PRESENT ARRANGEMENTS FOR GYM. ARE SATISFACTORY

Board of Education Not in Favor of Providing Further Gymnasium Accommodation—More Apparatus for the Collegiate Laboratory—Plans Are Being Prepared for New Schools.

The Board of Education held their regular meeting last night, Dr. Burnham presiding in the absence of the chairman, Mr. John Crane. There were present, Messrs. Hill, Hayes, Fair, V. Eastwood, Adams and Ackerman, Col. Miller, and Dr. Morrison.

A NEW TEACHER.

The Board, acting upon a suggestion in a communication from Inspector Mowat, appointed Mrs. E. R. Brown to a vacant position of teachers.

In connection with the Inspector's report on the deficiencies of the local Collegiate Institute, the supervision committee reported as follows;

SUPERVISION COMMITTEE.

To the Chairman and members of the Board of Education;

Gentlemen,—Regarding a letter from the Deputy Minister of Education re. gymnasium accommodation at the Collegiate Institute, which was referred to this committee, we beg to report as follows;

In view of the fact that during the past five years this Board has expended in Public school and Collegiate Institute, Buildings, the sum of $166,000.00, and this year will spend another $85,000.00, making a total of upwards of $250,000.00, and further that we believe, that the Public schools should receive our first attention, for the great majority of our children do not go beyond these schools, and therefore it is our intention to make them the best possible, and with the addition of the necessary schools in the East and West Wards, we can say without boasting, that we will have one of the best set of Public schools in the province, and with well equipped Public schools, we are at once benefitting the Collegiate Institute by being able to give them scholars, trained and having a good ground work.

Further, our present arrangement for gymnasium accommodation in which we have the use of the well equipped Y.M.C.A. gymnasium and the services of an expert teacher, reduces the objection of it not being under the same roof as the Collegiate, to a minimum. It is the policy of the Board that if in the near future Technical education should be made a part of the curriculum of the Collegiate this Board will have to supply additional accommodation for such classes. Then the question of an addition to our present building would be before us and provision could be made for a gymnasium in that addition. Until then or until such other time as we feel that the people would vote the necessary money for the purpose, we cannot hope for any better arrangement than that, which at the present satisfies everyone, but seemingly does not meet every requirement.

Your committee would recommend the purchase from Mr. McClelland of a clock for the Collegiate Institute, at the price of $18.

All of which is respectfully submitted.

M. A. MORRISON,
Chairman.

Board room, March 5th, 1912.

On the motion of Messrs. Morrison and Hill the report was adopted and a copy of it authorised to be sent to the Minister of Education. Some discussion took place as to advisability of accompanying the report, when submitted, but no action was taken in this matter.

NEW APPARATUS

Also, Mr. Morrison brought up the subject of new apparatus for the chemical and physical laboratories of the Collegiate Institute, and a list of the necessary appliances, compiled by Mr. Firth of the Collegiate Institute staff was read. The Board on the motion of Messrs. Eastwood and Morrison authorised the supervision committee to use the sum of $100 for purchasing the needful supplies including wireless outfit at $25 and a first class barometer at $17.

The committee also announced that plans for the new school sites would be ready in a few days and a special meeting might be called to consider and approve the plans before tenders were advertised for. The supervision committee were asked to take steps toe stablish a night school, after the coming summer holidays. Mr. Adams, brought up the matter of a bad ventilator in the South Central school which inspector Mowat announced could be fixed easily and at insignificant expense.

The following communications were also received—

From the Y.M.C.A. Board, asking the Board of Education for the use of the Collegiate Institute Assembly Hall, on or about Friday evening, March 29th, the Association to meet the expense arising from the hall.—Granted.

From the Canadian Casualty and Boiler Inspection Company reporting favorably on the boilers of the Collegiate and Queen Alexandra schools.—Received.

MACHINIST WAS PAINFULLY HURT

John Green Injured While at Work on Planer

Mr. George Green was the victim of a painful accident yesterday afternoon at 4 o'clock. Mr. Green, who resides at 344 Mark street, is a machinist in The Wm. Hamilton Company's foundry and yesterday afternoon while operating a planer his right hand was caught, and drawen into the machine, breaking and crushing the bones of his fingers and hand. He was taken to Nicholls Hospital where he was placed under the attention of Dr. Morgan, who attended to the injured member. The unfortunate man is doing very well in the hospital, although suffering severely from pain.

A SURPRISE PARTY

A surprise party was held last evening at the residence of Miss Maud Lindsay, 659 George street. About twenty-five young people spent a most delightful evening, with games and music, followed by appetizing refreshments.

Alberta Publicity Car at Peterboro March 13th

The Camrose Publicity Club have arranged for a special Grand Trunk Pacific Tourist Car to contain the exhibits of the province of Alberta, to tour Eastern Canada with a view of attracting further settlement to that province.

This car will arrive in Peterboro at 8.16 a.m., March 13th., and will remain on the station siding at the Grand Trunk Depot until 5.35 p.m. the same day.

Everybody interested in this great country are cordially invited to pay this car a visit.

The new Federal Government Isolation Hospital which is situated on an unnamed island in one of the bays of Digby Island off Prince Rupert Harbor is now practically complete with the exception of the interior furnishings.

The building is both large and handsome so that it should meet the requirements of this Pacific Port for many years to come. Not a glimpse of it can be seen from the harbor as it is screened by large spruce and other coniferous trees some of which measure six feet in diameter.

St. Luke's Lenten Service

Lenten service at St. Luke's church to-night at 8 o'clock. Rev. C. W. Holdsworth cannot be present on account of sickness. The Rector will preach.

TO CURE A COLD IN ONE DAY

take LAXATIVE BROMO Quinine Tablets Druggists refund money if it fails to cure. E. W GROVE'S signature is on each box 25c.

ONE MORE WEEK WITH McEWEN

What one of the best known critics of Western Canada says of McEwen and Miss Hartley, who are to play our city next week: "If you or your friends have any desire to see two red headed monkeys sold for a quarter, you should pay a visit to the Walker Theatre, where the versatile, if slightly uncanny, McEwen, aided and abetted by the art of hypnotism, places his subjects under delusions similar to the above mentioned. It is decidedly a good exhibition which Mr. McEwen gives. One full of miracles over which to ponder and of events beyond the ken of most mortals, and for this reason in the main, probably the large crowds which went to the Walker came away satisfied. The act under which McEwen makes his bow to Winnipeg is one full of sensationalism, of the extraordinary, and in this part he amply fulfils his reputation for the marvellous. There is not the least shadow of doubt concerning the skill of the performer in both placing his subjects in a comatose condition, and also in reading the minds of those who place themselves at his disposal. The sleight of hand tricks were performed with skill and grace, each succeeding trick fending charm by its improvement on the conventional methods formerly employed, and to say that McEwen won a lasting place for himself in the esteem of the audience, is but seconding the rounds of applause which greeted the completion of his every act."

McEwen returns to "The Grand" for one entire week, commencing Monday next, March 11th.

MORE MONEY FOR OPERATORS

Grand Trunk Railway Make Increase in Wage Schedule

It has been announced that the Grand Trunk Railway Co. has decided to raise the wages of the telegraph operators throughout their system. The change will effect the operators of Peterborough and will come into effect immediately. The reason for the change is that many operators that work on Sunday do not receive any extra pay, but in the future they will receive the regular day's remuneration for Sunday as well as the other six days of the week. In most cases the change will result in a very substantial increase of salary.

THE MYSTERIOUS STRANGER AGAIN

He Supplied Liquor But Didn't Pay $10 Fine

James Wallace, a blacklister, was fined $10 at the police court this morning by Magistrate Dumble, for having been under the influence of liquor.

Wallace drives for the Peterborough Fuel and Cartage Co. When questioned as to where he had procured the liquor, he told the time worn story about a stranger who gave it to him.

There was only the one case on hand this morning.

THE CITY BEAUTIFUL

Proposition Before Members of the Horticultural Society

A Selection From Four Options Besides Other Inducements

The directors of the Horticultural Society have arranged to give the large membership a choice of four options this year. It is hoped that even greater interest will be taken by the members this summer and the directors ask that the annual fee of $1 be forwarded to the secretary-treasurer, Mr. C. H. Williamson, 203 King street, by April 1st. This gives the membership ticket entitling the holder to any one of the four options given below, the fall distribution of bulbs and the publication, The Canadian Horticulturist.

The report of the directors to the society is as follows;

Peterborough, March 4th, 1912.

To the members of the Peterborough Horticultural Society;

Dear Sir,—In the past it has been the rule for your directors to meet and decide upon a premium for distribution among the members, a task which has generally proved satisfactory to all, however, this year your directors thought it would be well to give you a choice of four options as listed herewith:

OPTION ONE.

1—1 Paeonie, Festiva Maxima, a grand white.

2—1 Ampelopsis Veitchii or Boston Ivy.

3—1 Rosa Rugosa, Rubra, deep rose.

OPTION TWO.

1—3 Begonias.

2—3 Fuchsias.

3—3 Geraniums.

OPTION THREE.

1—1 Bush or tree honeysuckle, pink.

2—1 Hydrangea Aborescens, a grand new variety.

3—1 Crimson Rambler, climbing rose

OPTION FOUR.

1—1 Dorothy Perkins, pink climbing rose.

2—1 Wigelie Rosea, pink flowering shrub.

3—1 Lillium Auratum, the king lily of Japan.

To receive either of these options you will mark your choice on the accompanying slip and with the necessary annual fee of $1 forwarded to the secretary-treasurer by April 1st, when you will receive a membership ticket entitling you to the option marked, the fall distribution of bulbs and the publication. The Canadian Horticulturist.

We would also ask you to assist in adding to our membership one or more members for which service you will be entitled to receive a choice of one of the following works;

1—Hints on Growing Flowers.

2—Flower Bulbs and their Culture.

3—The Vegetable Garden.

The Peterborough Horticultural Society.

LINDSAY GETS REDUCTION IN WATER RATES

Commissioners Decide on Discount of 20 per cent

Local water consumers will be pleased to learn that the Water Commissioners have decided to give a twenty per cent. discount in the future, to take effect on the meter accounts now being sent out for the first of the year.

The decision was arrived at as a result of the highly satisfactory statement presented by the auditor at the last regular meeting of the board when the handsome surplus of $7,619.27 was announced as a result of the past year's business.

The reduction means a saving of $1,600 to the consumers.—Post.

QUEEN MARY HOSPITAL BOARD

A meeting of the Queen Mary Hospital Board was held yesterday afternoon at five o'clock with the Mayor and Ald. Duncan present.

Six accounts were presented and passed, and an account from W. J. Kent for $7.20 was ordered to be paid, when certified to by the matron.

Poultry Association

The regular monthly meeting of the Peterborough Poultry Association will be held on Thursday night at 8 o'clock in their hall, Simcoe street. A full attendance of members is requested, and anyone wishing to bring birds may do so, no matter what variety.

Harry Adams

If we tailored this Suit to your order—

SUPPOSE you asked us to make you a Suit, incorporating your ideas of what a Suit should be?

Would you say "This is just what I wanted" if we delivered you a Semi-ready Suit like this—

A Suit with the tailor-made, stylish appearance in a modern and modest pattern.

A Suit of the exact shade and color to harmonize with your complexion.

A Suit with perfect-fitting shoulders, one that drapes gracefully and shapes perfectly.

A Suit that fits your figure, harmonizes with your height in the correct length from shoulder to waist.

In all, a Suit that you know is your ideal the minute you see it on you.

That is Semi-ready Tailoring as we present it to you to-day. Ready to try-on; finished to your exact fit in an hour.

Wholesale tailoring, specializing tailors, and a great business organization keep the price of a good Suit down to a reasonable price. $15, $20, $25—these prices will still buy Semi-ready real Tailored Suits in these days of high prices.

Semi-ready
"The Seal that is Real."

Without this mark and the price in the pocket the Suit is only a cheap imitation. Real Semi-ready tailoring has the silk label, and the price in the pocket—the same price at which the same pattern sells everywhere in Canada.

Wonderful Praise Accorded Peruna the Household Remedy

Mrs. Maria Goertz, Orienta, Oklahoma, writes:

"My husband, children and myself have used your medicines, and we always keep them in the house in case of necessity. I was restored to health by this medicine, and Dr. Hartman's invaluable advice and books. People ask about me from different places, and are surprised that I can do all of my housework alone, and that I was cured by the doctor of chronic catarrh. My husband was cured of asthma, my daughter of earache and catarrh of the stomach, and my son of catarrh of the throat. When I was sick I weighed 100 pounds; now I weigh 140.

"I have regained my health again, and I cannot thank you enough for your advice. May God give you a long life and bless your work."

OBITUARY

Parents Bereaved

The death occurred early this morning of Gerald McDonald, the ten months' old son of Mr. and Mrs. Archie McDonald.

The funeral will take place to-morrow afternoon from the residence of the parents, 619 Union street, to Little Lake Cemetery.

Mr. Henry Gladman

Toronto, March 6.—Mr. Henry Gladman for many years postmaster at Lindsay, died in Toronto Monday night, after an illness of a few hours.

Mr. Gladman was born at Moose Factory in 1834, a son of Geo. Gladman, chief factor of the Hudson Bay Company. He spent his younger days with the Hudson Bay Company, and was with his father on the Dawson-Hind expedition from Lake Superior to Fort Garry. When his father retired from the Hudson Bay Company the family moved to Port Hope.

Mr Gladman was appointed Postmaster at Lindsay in 1875, and a short time ago came to Toronto to live. He is survived by his wife, who was Miss Melissa (Rientford, and whom he married in 1864. Six sons also survive: Dr. George J., of New York; Mr. A. E., of Youngstown, O.; Dr. E. A., of Fulton, N.Y.; Mr. C. R. A., of 53 Farnham avenue, Toronto; Mr. C. L. Gladman, LL.B., and V. L. Gladman, B.Sc., of 5 Nina avenue, Toronto.

The funeral arrangements have not yet been made.

A Big Masquerade Carnival will be held in Lakefield Rink on Friday evening, March 8th, under the auspices of the Presbyterian W.F.M.S. 2d

St. John's Service

The Lenten service in St. John's Church to-night at eight o'clock will be addressed by Rev. H. Earle, M.A., of Omemee.

NO CHANGE

The condition of Dr. Boucher was reported as showing no change up till three o'clock this afternoon. He is resting as easily as possible.

AD. CLUB IN SESSION; HONESTY IN ADVERTISING

C. H. Ashley Tells of Benefits to be Derived From Ad. Club.

Last night the newly formed "Ad Club" met at Hooper's parlors and partook fo lunch and listened to an address from Mr. C. H. Ashley, advertising manager of Toronto Saturday Night, who came to the city to enthuse and stir up the membership. Mr. C. C. Nixon, of The Rural Publishing Co., and who is president of the club, filled the chair. There was a good attendance, the room being well filled.

Mr. Ashley is an earnest and convincing speaker and his address was framed on lines that commended it to the good sense of the members. His remarks dealt with the mission of an ad club, its personality and its opportunities, without usurping, it could combine in many respects the functions of a board of trade and publicity committee for the locality. The key note was publicity, of the very best kind. It could be a large factor in publishing and bringing up the city into prominence both in a municipal, manufacturing and educational sense. The value of such a club was evident.

Taking up the problems of storekeeping he dealt with the functions of the club as an inspiration to business selling of goods and salesmanship, the value of such education to the retail merchant, in that it inspired in the staff a clean and legitimate way of placing before customers the best that could be said in regard to the goods. In this he laid much stress on the value of honesty in advertising. Claims made by the merchant in his publicity and not substantiated were worse than useless. The papers were open to criticism, for printing advertisements of panaceans for human ills that were worse than useless. These dishonest advertisements reduced the selling value and force of honest advertising.

A criticism of advertising as done in the local papers followed, Mr. Ashley pointing out what he considered weak spots in some and what he found to convince in others.

Among those present were prominent local business men, and the interest they manifested in the proceedings of the evening augurs well to a large success for the Peterborough Ad Club.

After the regular meeting the President, C. C. Nixon, called a meeting of the Executive at which meeting it was decided to hold a semi-monthly meeting to alternate with the regular monthly meeting. It was left to the Program Committee, namely, Mr. C. F. Hardy, Ross Cameron, Mr. W. Cochrane and Mr. J. MacNabb, along with the president, and the secretary, Mr. J. McNichol, to arrange for the place of meeting and speakers.

Other than the speaker, those in attendance were:—Chas. C. Nixon, Robt. H. Ross, Jas. Hamilton, J. McNichol, E. White, E. Manning, F. H. Dobbin, Russell Wotten, L. S. Edney, Lopis Mendel, F. W. Trebilcock, R. A. McKee, A. A. Fowler, E. N. McWilliams, W. E. Conway, J. J. Thompson, L. J. Picard, Joseph Picard, W. S. Merrell, M. Hardill, C. F. Hardy, F. E. Ellis, W. Geo. Henderson, J. M. Greene, J. John, Reg. H. Turner, Geo. G. Chandler, Walter Stocker, G. A. Gillespie, H. B. Cowan and J. A. McNabb.

TWO DAIRY MEETINGS TO BE HELD IN THE CITY COUNCIL CHAMBER

Peterboro Cheese Board and Butter Makers' Convention March 20th.

Arrangements have been completed for the holding of meetings of several of the local Cow Testing Associations, when officers will be elected, and local matters of interest to each association will be discussed by the members, Mr. Jos. Burgess, supervisor of cow testing for Ontario will attend these meetings.

The Trewern Association will meet at the residence of Mr. John Chittick on Friday evening, March 8th, at 7.30.

The Shearer association will meet in the City Council Chamber, Peterborough, on Saturday, March 9th, at 10.30 a.m.

The Peterborough Association will meet in the City Council Chamber on Saturday, March 9th, at 1.30 p.m.

The Norwood Association will meet in the Agricultural Office, Norwood, on Monday, March 11th, at 2 o clock.

The monthly meeting of the Warsaw Farmers' Club will be held in Tuesday evening, March 12th, when Mr. Andress will give a demonstration of milk testing and Mr. Burgess will lead the discussion on Cow Testing.

Other dairy meetings to be held soon, will be the annual meeting of the Cheese Board on Wednesday, March 20th, at 10.30 a.m. in the Bank of Montreal chambers, and the convention of the Peterborough Cheese and Buttermakers' Association, which will be held on the same date at 1.30 p.m. in the City Council Chamber, Mr. G. G. Publow, Chief Dairy Instructor for Eastern Ontario, will be present and give an address at this convention.

Scene from A. G. Delamater's stupendous scenic production, "The Stampede," which comes to The Grand on Saturday next, with special bargain matinee. Seat sale opens To-morrow.

CLASS MADE PRESENTATION

The young ladies of the George street Methodist Church, belonging to Miss Wells' class, gave Miss Stella Sherwin, who leaves on Saturday for Edmonton, a dainty gold brooch yesterday afternoon. Miss Sherwin has been a popular member and regular attendant of the class, and the girls regret that she is leaving.

The presentation was made when Miss Sherwin visited the Collegiate Institute yesterday afternoon, and she was taken completely by surprise.

GIRL ARRESTED

Berlin, Ont., March 6. — A well-developed two-months'-old babe was found last evening on a doorstep on Foundry street, and is now in charge of the Children's Aid Society. Ethel Blake, of Galt, was arrested by the police on a charge of child desertion. She had earlier in the day made an unsuccessful attempt to place an infant in the Berlin Orphanage.

DEBATES BY PHILOMATHEANS

Collegiate Students Not in Favor of Reduction of School Athletics

Two very well argued debates were the chief features of the regular meeting of the Philomathean Society of the P.C.I., which was held last night in the assembly hall of the Institute. The first debate was, "Resolved, that school athletics should be reduced." Clarence McKee took the affirmative and Bert Shelton the negative. As the decision was left to the vote of the scholars the negative of course, won the debate.

In the debate, "Resolved, that war is justifiable," Miss Margaret Stevenson handled the affirmative, and Miss Rose Drennan the negative. The decision was given in favor of the negative. Also two musical numbers were much appreciated by the large number of students present, a piano solo being given by Miss Rehill and a pleasing vocal solo by Miss Catheline Moore.

Mr. Pettit kindly criticized the meeting, his remarks being almost entirely in appreciation of the talent of the pupils who gave the program.

DAUGHTERS OF THE EMPIRE

The officer commanding the 57th Regiment is desirous that all the members of the Regiment should interest themselves to have the ladies of their families, (their wives, mothers, daughters or sisters) attend the meeting to be held in the Recreation Room at the Armories on Friday afternoon next at 3.30, for the purpose of considering the organization of a 57th Regiment Chapter of the Daughters of the Empire. Mrs. Jno. Bruce of Toronto, the Hon. Treasurer, of the Order, will be present to explain the aims and objects of the work of the "Daughters of the Empire," and to assist in the organization of a Chapter in connection with the Regiment, should it be so decided upon at the meeting.

SUCCESSFUL SALE
Greatest Wall Paper Sale Held
OUR SUCCESS HAS SURPASSED ALL PREVIOUS RECORDS

We keep a variety in cheap high-class goods, second to none in Canada. We invite you after looking elsewhere to try us, with length and width of your room and we will tell you the cost — Either at our Peterborough Store at 379 George St., or at Toronto, 262 Queen St., West. Large buying enables us to give you prices not possible outside of large cities. There are only seven firms in our Dominion who can buy over twenty thousand dollars worth of Wall Papers per year, and we are proud to feel that we rank as fourth largest of the seven. The smallest buyer of seven has the same advantages as the largest as all that is required to get the low price is that the purchase amount to ten thousand dollars — Our purchases amount to over that with one firm's goods, not mentioning our purchases of American, English, German, French and Japanese manufacture, which we stock very largely. We would ask you again to examine carefully before making your purchases.

R. M. Waddell,	Wm. Wedlock
Skip—7	Skip—9

THE LOCAL BONSPIEL.

Only one game in the local bonspiel was played yesterday, between Skips Colling and Brightman, the latter coming out on top by the score 12—4. As a result of this game Brightman enters the fourth round. To-night's draw is as follows:

Yeates vs. W. G. Ferguson.
Medd vs. Read.
Wightman vs. Connal.
Maitland vs. Sturgeon.
Campbell vs. Waddell.
J. H. Ferguson vs. Lang.
Fitzgerald vs. Harstone.
Morrow vs. Taylor.
McDermid vs. Foote.

The players returned from Keene this morning, where they have been participating in the fiftieth anniversary of the Keene Curling Association, and are very enthusiastic in their praise of the warm reception and the hospitable entertainment they were given by the Keene curlers. Especially they were surprised at the generosity of their hosts in persisting in bearing all the expenses incurred by the visiting curlers while in Keene. The members of the Keene club, they report, are the best bunch of sports in the province.

Skip W. G. Ferguson won his morning game by defeating R. J. McCamus of Keene, the score being 15-10, but lost his afternoon match to skip McKeldrie of Norwood who defeated the local quartette 12-10.

PROVISIONAL DIRECTORS OF LOCAL BALL CLUB

The Peterborough Baseball Club, Limited, is almost on its feet. The citizens of Peterborough have subscribed for enough stock to make it a certainty and an application for a charter will be made to the Legislature at once. The following gentlemen have consented to act in the capacity of Provisional Directors:—W. H. Denham, E. G. Patterson, Mayor Bradburn, T. F. Matthews, W. McIlroy, E. Desautel, Dr. Wightman.

Treas.—E. C. Macleod, Mgr. Bank of Nova Scotia.

Sect.—W. S. Davidson.

There is every evidence of interest throughout the city and the directors are highly enthusiastic. They will meet to-night when the question of a manager and other matters will be settled. Arrangements will also be made with the management of the ball park and in a short time everything will be under way.

"Old Folks" Templin of the Berlin Club seems to be the favorite for the managerial job, but applications have been received from several others including Joe Keena and Harry Burridge, and it is hard to say who will get the job.

There is yet some stock for sale and anyone wishing to subscribe would do well to do so at once. The manufacturers, from their standpoint are supporting the proposition as a means whereby the employees can be kept in the city. The merchants have also fallen into line. They see in it something to keep the people's money circulating at home.

The subscription lists have not been called in yet and may be seen at the same places as before.

CAN T.A.S. HOLD TWO GOAL LEAD

Return Game to be Played in Lakefield To-night

The T.A.S. seven will leave on the 5.40 G.T.R. train for Lakefield tonight to play the return game in the semi-finals of the Trent Valley League. They have a two goal lead, acquired in the game here on Monday night last. It should be about enough to win on the round, though the local boys do not intend to take any chances.

McPhee, the rover, who has been so effective all season, will be absent to-night. He is in Fenelon Falls, his home town, playing in a tournament.

Several followers will drive to Lakefield for the game. The players and those who accompanied them on the train, will return by bus to-night.

Hon. Martin Burrell was banquetted by the Niagara Peninsula Fruit Growers at St. Catharines.

Always remember the full name. Look for this signature on every box. 25c. E. W. Grove

LOWER SCHOOL TEAM WON OUT

Score Stood 3-2 at the Half and 5-4 at the Finish

In a rather poor exhibition of hockey the Lower School Collegiate seven defeated the Upper School aggregation 5—4 yesterday afternoon. The game was close all the way, the half time count being 3—2 for the lower school boys. For the winners Long, Knapman and Carlisle were the most effective players, though Rogers was always on the job. For the Upper School M. Huycke, Matthews and Carlisle, as well as Dixon put up some good individual hockey, Huycke figuring largely in the defence work. The last game between these teams resulted in a tie but this game it is generally admitted went to the better team.

The teams were:—

Upper School.		Lower School.
	Goal.	
H. Hill		H. Hill
	Point	
Matthews		Moran
	Cover	
D. Huycke		Howden
	Rover	
Dixon		Knapman
	Left	
Carlisle		Rogers
	Right	
Brooks		Smith
	Centre	
M. Huycke		Long

Referee—Mr. Hutchinson, of the P. C. I. staff.

CENTRALS WON.

In a fairly interesting match played on the Brock street rink yesterday the Central School seven defeated the South Central boys, 6—4. The teams were even at the half time, the score being 2—2. Cavanah was responsible for the Central's victory, though Routley and Sharpe aided him considerably. Richardson and Stevenson did most of the playing for the losers. Cavanah was easily the best man on the ice and his lightning rushes repeatedly ended in counters.

The teams were:—

Centrals.		South Centrals.
	Goal	
Blanchard		Zealand
	Point	
Hamilton		Austin
	Cover	
Routley		Smith
	Rover	
Cavanah		Richardson
	Centre	
Helson		Clark
	Left	
Sherrett		Soden
	Right	
Sharpe		Stevenson

Referee—M. Kenneally.

MACHINISTS BY ONE.

The score was 2—1 when the Machine Shop and Lock Works teams were through last night. It is hardly necessary to mention who won, but for the benefit of those who have not been following the Mercantile League games this season it may be said that the Machinists came out on top.

The Lock Works aggregation got the first goal and Joe Huard presented the C.G.E. seven with one when he skated into his own nets with it. Of course it was an accident, but they all count.

Joe Dwyer deserted his goal in the first half and played point. He made frequent sallies into the enemies territory, but was too handy at laying on the wood and he spent considerable time in the penalty box. The first period ended 2—1.

Neither seven was able to connect for a counter in the second-half. Dwyer went back to goal and assisted there, leaving the other five men to work with the one goal lead. At that the Simcoe street aggregation made it hot for the two goal tenders and the phenomenal stops by "Joe" and his protege was what saved the game.

Last night's game brought out some promising youngsters, among them being a lad named Rogers. With coaching he will make a good one. The game last night was his first appearance in the Mercantile League.

Leo Derocher refereed satisfactorily.

CLERKS WERE WEAK

The Clerks put a decided weak team against the Bell Telephone Septet last night in a Mercantile League fixture, and were beaten 3-1. Lech and Ross were absent from the defence. When the game started the Clerks had only six men out and "Tick" Campbell, the silver toned tenor of the famous Peterboro Rooters' Club, was commissioned to play cover point. He had played one game with the Machinists earlier in the evening and was pretty well bruised up but he went at it again.

The Bell scored their three counters before the clerks got any.

Leo Derocher refereed.

The all important game in the Mercantile League series will be pulled off on Saturday night, when the Tool Room and Bell Telephone sevens get going. It looks as though the Tool Makers would upt it over the Bell men on hard ice. This would tie up the situation and these two teams would be called upon to play for the championship

HOCKEY

Winnipeg, Man., March 6.—Manager Gordon, of the Port Arthur Hockey Club, said this morning that it was doubtful whether his team would go east to play for the Stanley Cup. It depended on whether the home team would put up the money, and whether satisfactory dates could be made. Port Arthur left for Houghton, Mich., this afternoon, to play an exhibition game.

Fred Denison and Joe Dwyer left this morning for Orillia, where they will play on an All-Star team tonight against Orillia.

CANNON BALLS WERE LIGHT LUNCH FOR HUNGRY SEVEN

The second game between the "Hungry Seven" and the "Cannon Balls" was pulled off last night from ten to eleven o'clock at the Brock street rink, resulting in another win for the former. The score read 6—1.

This is the second time the Hungry ones have put away the Cannon Balls, but the game last night was much superior to the first. A far better brand of hockey was played all through, and both teams had improved greatly in form and stickhandling. For the losers "Short" Allen played a remarkably good game, when certain circumstances are considered.

The "Hungry Seven" bunch are fairly fast, especially "Go Some" Gilgour, who plays left wing.

However the next game which the "Hungry Seven" will play will be with the "We Never Sleep Bunch," and the latter are fully confident that they can lower the flag of the present champions.

The line-ups last night were:—

"HUNGRY SEVEN."

Goal—"Take-it-Easy" Heron.
Point—"Sandy" Trotter.
Cover—"Weary" Russell.
Rover—"Alice" Davidson.
Centre—"Star" Bain."
Right Wing—"Box-Car" Brummell.
Left Wing—"Go Some" Gilgour.

"CANNON BALLS."

Goal—"Never Worry" Latimer,
Point—"Fusser" White.
Cover—Karl Halpany.
Rover—"Punk" Neill.
Centre—"Boodle" Regan.
Left—"Short" Allen.
Right—"Steam Boat" Bill Allen.
Referee—Fred Allen.

BASEBALL

Ottawa Free Press—With Peterboro in the circuit, the Canadian league should boom this year. Last season some of the clubs didn't make good, not getting the support to pay their salary list, but this year promises a revival, and what is comforting to the hearts of the managers good gates. The towns in the league, evidently like the game, and want their team to stick, for when there was talk of removing the Guelph franchise, offers were forthcoming to buy it and thus keep Guelph on the baseball map. The same thing happened, where they claimed to have lost a big wad of money on the season. The trouble in London over the grounds appears to have been fixed up and the Cockneys will be in the game again. Peterboro is said to have lots of financial backing, and all kinds of enthusiasm, and the Ottawas are rounding up a team that will make them all step lively to keep the pennant away from Lansdowne park. With eight teams the Canadian League should put up some fine ball this summer.

Toronto, March 6.—President McCaffery, of the Toronto Baseball Club, received a letter yesterday from President Lichtenhein, of the Montreal Club, in which he explained how the International League schedule was used before it was released. Mr. Lichtenhein says he gave the Gazette a copy to facilitate the composition and when the word "adopted" came from Providence the innocent Gazette took it to mean "released," and published the home dates. Then Manager Lush handed over his copy to the Herald and the original draft (full of mistakes) was published in that paper—for all of which Mr. Lichtenhein is sincerely sorry. He was in New York at the time.

Mr. McCaffery said last night that the Montreal man's offer was greater than as it first appeared to be, and he was prepared to punish him accordingly.

OUR BEAUTIFUL BRITISH COLUMBIA

Now on view in the windows of the City Ticket Office of the Grand Railway System at the corner of St. James and St. Francois Xavier street Montreal, are beautiful paintings from the brush of Mr. G. Horne Russell, the well known landscape painter. The subjects treated are respectively—"Entrance to Yellowhead pass," "In the Grand Forks Valley, B.C.," "Lake Helena and White Horn Mountain," Moose Lake, B.C.," and "Mount Robson."

These scenes are all in the Canadian Rockies and on the line of the Grand Trunk Pacific Railway. The pictures were painted by Mr. Russell from sketches made by him on his trip through the Yellowhead Pass to Prince Rupert in 1910, and the collection gives one an excellent idea of the magnificent scenic grandeur that is in evidence everywhere on the route of the National Transcontinental railway, and, when it is considered that there are 150 miles of mountain scenery on this line that excel anything on the American Continent, it should fill a traveller with the desire for the arrival of the time when the journey to this new Eldorado, can be made with ease and comfort, as it will in the near future, on the G. T. P.

CRASHES THROUGH BRIDGE.

C.N.R. Car Falls Into River Bed But No One Is Killed.

Saskatoon, Sask., March 6.—Buried deep in the mud of the South Saskatchewan River, which runs through Saskatoon, there were, it was feared anywhere from six to ten bodies, Pullman passengers of the Regina express, of the Canadian Northern Railway, which, after being derailed, crashed through a bridge over the frozen river bed between Saskatoon and Nutana at six o'clock Monday evening.

By noon, however, it was established that there had been no one killed, but two of the dozen injured are likely to die.

The wreckage of the car and bridge burned, imperilling all the passengers in the debris, and rendering them frantic before they were rescued.

The car fell 50 feet when the bridge collapsed.

The known injured are Dr. F. G. Sparling, Saskatoon, both legs broken and internally injured.

Rev. F. H. King, Watrous, concussion of the brain.

E. H. Ashby, Saskatoon, injured about the head.

Rev. E. W. Hughes, Regina, bruised about the body.

David Walters, Regina; spine seriously injured.

W. E. Kirsch, Saskatoon, both legs broken.

Reginald Wright, bruises about the head and shoulders.

Sam Washington, porter, Saskatoon, hand amputated.

A. S. Mihalk, commercial traveler, Toronto, ankle sprained.

F. G. Lewin and Mrs. Lewin, internally hurt.

John McDiarmid, contractor, Winnipeg, shoulder dislocated.

D. J. Taylor, western manager of the Goold Shapley & Muir Co., home in Winnipeg, right side hurt.

Bruce Harris, sales manager, Prince Albert Lumber Co., right leg sprained.

The cause of the derailment is not known, but the fact that it was the last car which left the track undoubtedly prevented a great loss of life. As it is, the wonder is that there are not several fatalities. Had the river been open few would have escaped death by drowning.

The bridge is practically in the heart of the city and within a short distance of the C.N.R. depot, so that the work of rescue was begun almost at once, with plenty of willing hands to assist. All the doctors in town were requisitioned.

The bridge is built in five spans of about 250 feet in each, and is supported by four massive stone pillars in the stream. It is located at a bend in the river.

GOVERNMENT HAS MAJORITY

Continued from page 1.

and that the only natural and the proper thing for this House to do, either in the past or on this occasion, is to absolutely keep clear of the school questions and to leave them to the province for settlement and for the doing of any right that a minority can fairly claim. This act shows an advancement, a progress in our country in this respect that at last we have decided not to interfere in any way with a sovereign province in the matter of education.

The debate suddenly ceased with a dull thud. Division bells were rung, while the startled whips started scurrying in the members. There was tense feeling through both the House and the galleries when the members finally trooped in and the vote was called, for there was much speculation as to how many Nationalists would bolt.

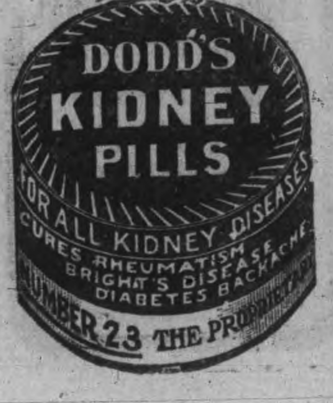
Yeas were called and the five Nationalists stood up with the Opposition.

The galleries were crowded to the limit and there was scarcely an empty seat on the floor of the House in the evening when Mr. Lamarche rose at 8.20 to explain his position. Mr. Lamarche regretted having to break from his political friends, but he had made a pledge which he must keep. He calmly and dispassionately discussed the school question. The bill as it stood contained nothing objectionable, but there should be a clause protecting the rights of the minority. He argued the constitutional aspect of the case at length and claimed that they had the right to schools in the district.

Hon. F. D. Monk, who followed, said that he had always understood that the school question was settled in 1896. "I have always held that position," he added, "though I condemned the terms of that agreement." The Laurier settlement was, in the view of the minority, inadequate, but it was endorsed by Parliament, and by the electorate, and in view of the circumstances no power remained in the Dominion Government to deal with the injustice under which the minority suffered. He expressed the hope that Manitoba would relieve the minority of their disabilities.

Hon. Louis P. Pelletier, Postmaster-General, asked why the Government should be reproached for giving to Manitoba what should have been given in 1905. For his part he would have been disposed to have considered the claim of Manitoba back to the time when the other provinces got their consideration.

"As to this school question," he said, "whatever the consequences may be for my future and myself, I am not going to play politics. Too long has this question been a football to be kicked by the party who wants to reach power."



THEY DID JUST WHAT YOU SAID

GIN PILLS WOULD DO

Quebec, P.Q.

"I received the sample of Gin Pills and have taken them. They have done me so much good. They do just what you say in your circular that they will do. I can but congratulate myself that I sent for the sample, and I bought a large box at my druggist's. I have made up my mind that I shall never be without them until I am cured. I thank you many times, for I had never found a remedy to do me any good until I tried Gin Pills".

Madame Marie Miville Duchene.

Do just as Madame Duchêne did—write for a free sample of Gin Pills, and try them for Kidney Trouble, Irritated Bladder, Painful or Suppressed Urine, Pain in the Back, Rheumatism, Sciatica, or Lumbago. If they benefit you, get the regular size boxes at your druggist's—50c. or 6 for $2.50. But write right now for the free sample. National Drug and Chemical Co. of Canada, Limited, Dept. B Toronto. 95

"PILLS LIKE A FYLE"

So Harsh and Drastic are Many Pills as to Seriously Injure Health.

In a letter written from his home in Valencia, Mr. Marsh Selwyn does service to thousands by drawing attention to the injuries inflicted upon delicate people by drastic purgative pills.

"For a long time I suffered from constipation. This condition compelled the use of pills. Like many another, I made the unwise choice of using pills that were like lightning in their activity. I began to be filled with intestinal disturbances, constant rumblings, gas in the bowels and diarrhoea. I grew pale and emaciated. Then the doctor told me drastic irritating pills had caused catarrh of the bowels, an almost incurable disease. Explaining my situation to a friend, he advised a trial of Dr. Hamilton's Pills. I speedily experienced the healing and curative effect they exert on the stomach, liver and bowels. The intestines, freed from irritating drugs, rapidly regained natural tone, the bowels acted as if nature and not Dr. Hamilton's Pills were at work. I know it will be of value to thousands to know that a pill as mild and curative as Dr. Hamilton's is available to the ailing."

For bowel disorders, sick headache, constipation, liver and stomach derangement, there is no pill so invariably sure to cure as Dr. Hamilton's Pills. Refuse a substitute. Sold in 25c boxes, all dealers, or The Catarrhozone Co., Kingston, Ont.

Dr. Hamilton's Pills Are Mild--Never Gripe

PRESENTATION AT ORANGE CORNERS

Two Chairs for Mr. and Mrs. Gallaway

Special Correspondence.

Orange Corners, Emily, March 5.—Mrs. G. Freed and Miss Copeland, of Lindsay, were the guests of Miss Nellie Casey last week.

Mrs. Taylor, of Norwood, spent last week with her uncle, Mr. George Elliott.

Mrs. G. Mann and Mrs. J. Mann spent a few days last week with their brother, Mr. H. Jackson.

Miss H. Henry spent a few days last week with friends in Peterborough.

The many friends of Mr. and Mrs. Charles Rutherford will be pleased to know they are moved back to the farm.

A very pleasant evening was spent at the home of Mr. David Gallaway last Wednesday evening when about twenty of their neighbours were present. The crowd was small owing to the bad roads. The evening was spent in social chat and games, until about eleven o'clock. Mr. and Mrs. Gallaway were presented with two handsome chairs. A short address was read by Mr. Walter Magee, while Mr. D. Jackson and Mr. J. Jackson made the presentation. Although completely taken by surprise, Mr. and Mrs. Gallaway made a suitable reply, thanking their neighbours for the kind feeling towards them. A delightful lunch was served, after which all said farewell and departed, wishing them all success in their new home.

Miss Glyde spent Sunday with her parents at Port Perry. The storm being so severe she was delayed on the road over night about ten miles from home, and arriving at Best Station Wednesday noon.

THIS IS INDEED A SEVERE TEST

C. Mattesen Has Had Rheumatism All His Life

But Dodd's Kidney Pills Have Benefited Him so Much He Recommends Them to Others—Why They Always Cure Rheumatism.

Holberg, B.C., March 5.—(Special.)—That Dodd's Kidney Pills will cure Rheumatism has been proved again and again. Where the dread disease is making its first inroads into the system the cure is quick and complete. Where the rheumatism is of longer standing it takes longer treatment, but the result is always the same. Dodd's Kidney Pills always cure. Probably the hardest test Dodd's Kidney Pills have ever been given is the case of Mrs. C. Mattesen, of this place. It is best stated in his own words:

"I have been troubled with rheumatism all my life," Mr. Mattesen states, "but I am happy to tell you that I have received so much benefit from Dodd's Kidney Pills that I can recommend them to others."

Here is a case of the largest possible standing. But Dodd's Kidney Pills will surely cure it. Why? Because uric acid in the blood is the cause of rheumatism, and Dodd's Kidney Pills take the uric acid out of the blood by making the kidneys do their proper work.

The New York Socialists are trying to scare Father Vaughan away because of his pulpit condemnation of their principles.

Taft's campaign managers have issued a statement pointing out a close connection existing between Frank Munsey, the publisher, who is supporting Roosevelt, and George W. Perkins, formerly an associate of J. P. Morgan.

NORWOOD BOARD OF EDUCATION

Refused to Take Action in Liquor License Question

Special Correspondence.

Norwood, March 5.—The Board of Education met on Monday evening, March 4th, at 7.30 o'clock, in the High School. The following members were present: — Messrs. J. A. Finlay, (Chairman), C. E. Pakenham, T. Burkell, J. R. McKelvie, Jno. Doherty, W. H. Cuthbertson, C. P. Cuffe and Mr. Nieble.

The chairman reported that the Peterborough County grant for maintenance had been paid and that a letter had been received from the clerk of Northumberland, stating that their grant would be sent in due time.

Moved by Mr. Cuthbertson seconded by Mr. Pakenham, that the Board request the secretary to prepare a memorial, asking that the Provincial Secretary be asked to use his influence to withhold a shop license for the Village of Hastings.

Moved in amendment by Messrs. Doherty and McKelvie, that the Board take no action in the matter.

Moved by Messrs. Doherty and Pakenham, that Mr. Finlay and Mr. Cuffe be appointed to interview Mr. Harrison to see what he would charge for two electric lights for the Board room.— Carried.

The Auditor's report was laid before the Board.

Moved by Messrs. Doherty and Pakenham, that the Auditor's report be received and printed.— Carried.

The report of Boiler Inspector was read from the chair.

Moved by Messrs. Pakenham and Cuthbertson, that the report be received and fyled.—Carried.

The following accounts were presented:—

Ira Cummings, repairs, 90 cts.
J. Finlay & Son, wood, $5.60.
John Baskin, wood, $9.07.

Moved by Messrs. Cuffe and Pakenham, that the above accounts be referred to their respective committees, and if found correct, paid.—Carried.

The Board adjourned.

Mr. C. O'Riely is in Oshawa this week attending the Public Library Convention.

A number of Norwood curlers journeyed to Keene to-day, to play off some games in that town. The results of the matches have not as yet been received.

Miss Mabel Laing has returned from visiting friends in Lakefield.

The Norwood Senior Hockey boys played in Hastings on Monday night and lost the game. The score was 7—6 in favor of Hastings.

Mr. and Mrs. J. Weir were in Havelock on Tuesday attending the funeral of the late Thomas Patterson who passed away suddenly at his home in Walkerton on Saturday last. The deceased's former home was in Havelock and he was well known in Norwood and vicinity.

Mr. J. Kelly was in Peterborough on Saturday last.

Miss Lodemia Johnston visited Havelock on Sunday.

Miss Adah Holcombe, of Havelock, spent the week-end in town the guest of Miss Grace Reynolds.

A number of young people from Norwood attended the box social in Westwood on Monday evening.

Miss S. Kelly spent Saturday in Peterborough.

Miss Clara Cummings has accepted a position as assistant trimmer in Mrs. Thompson's millinery parlors in Cobourg, and expects to leave in a few days for that place.

Miss Pearl Baskin was in Havelock on Tuesday.

Mr. W. F. Sedgwick is in town in the interests of the Provincial Life Insurance Company.

Mr. W. Miller, manager of the Bank of Toronto, spent Sunday in Havelock.

Miss M. Kirkpatrick has resigned her position as teacher in the third class in the Public School here, and Miss Florence Foster has filled the vacancy. Miss Kirkpatrick intends going west in the spring.

Miss Belle Hewson was in Peterborough on Saturday.

A number of the young people of the village took advantage of the moonlight nights and enjoyed a tobogganing party on the hills north of town on Saturday night.

DRUMMOND STATION

Special Correspondence.

Drummond Station, March 5.—The streets in the village are very good again, after the recent snow storms.

Mr. Art. Robertson, of Warkworth, is visiting friends in the vicinity.

Mr. F. Foote has been staying for a short while with his friends before returning to the West.

Mr. J. E. Dixon, of Saskatchewan, has purchased Mr. W. Dickson's farm and intends moving in a few days.

Mr. J. Drummond and family accompanied by Mr. A. Robertson attended Keene carnival last week.

One of our young men took a sleigh load of merry-makers to Mr. J. Collins' on Friday evening. Dancing was indulged in until midnight, when they sat down to a sumptuous repast. After supper a prize was awarded for the best dancers on the floor and was secured by L. Drummond and H. Hatherly.

Mr. Jas. Manley is wearing the smile that won't come off. Its a boy.

Mr. and Mrs. H. Mackey were in the village on Sunday.

Mr. E. Robinson made his usual trip through the village Sunday.

Mr. R. Carey & Son are busy getting out timber for their new barn.

We welcome Mr. J. Dixon out again after his attack of la grippe.

The main telephone has been very busy lately owing to the bad walking.

Dr. Franz Szekely, of Budapest, claims to have succeeded in planting hairs on bald heads. An almost invisible gold wire is bent into a tiny loop in which is placed a serilized female hair, and the two are fastened to the injection needle.

No Chicory

Never sold in Bulk

It is almost impossible to get bulk Coffee without Chicory. You cannot detect the difference in ordinary Coffee but if you [illegible]

Dalton's French Drip Coffee

you will know one of the reasons why it is so different.

Dalton's French Drip Coffee contains no Chicory—no chaff or harsh outer shell. It is pure Coffee of the highest grade.

Special Introductory Offer. Dalton's French Drip Coffee is packed in Mild and Strong Blends, 13c, 25c and 50c tins.

Buy two 50c tins from your Grocer and he will give you a Dalton French Drip Coffee Pot (worth $1.30) free.

If your Grocer will not supply you send $1.00 and we will send carriage collect.

By the falling of a large rock in the very centre of the horseshoe, the contour of the Canadian falls at Niagara was materially altered yesterday. Many tons of rock must have fallen, as a gouge fully twenty feet square is plainly visible at the cataract's crest.

The Kingston civic utilities committee showed a surplus of $8,115.57 in the waterworks department. Of this amount $2,000 will be placed in the rest fund. The water department and the light department have been combined. Both are being run with good profits.

Rev. Dr. C. Judson Wilson, well known in Upper Canada, and for 49 years in the ministry, is dead in the Masonic Home, Manchester, N.H., aged 72.

DIABETES

Is one of the most cruel maladies of which mankind is subject, the many complications arising from time to time, making life seem almost unbearable. For many diseases, medical, scientific, and physiological knowledge and experience gained from years of deep research, has achieved remarkable results, but, up to now, little has been discovered of practical value in the treatment and cure of Diabetes. In fact, people have begun to look upon the disease as well-nigh incurable. Even in the medical profession can be found doctors who are of the same opinion, regarding sceptically any claim to ameliorate or improve the condition of a diabetic patient.

It can, however, be proved that SANSOL'S ANTIDIABETES lastingly cures all cases of Diabetes. Full particulars can be obtained from the Sansol Mfg. Co., Winnipeg, Man.

PRICE $2.00 PER BOTTLE

From McDermid & Jury, Druggists.

OMEMEE LOSES OLD RESIDENT

Omemee, March 4—The Ladies' Aid of the Presbyterian Church held a very successful basket social at the home of Mrs. A. Mahood on Thursday evening. A number of sleighing parties drove out from town.

Mr. T. Donaldson has changed residences from east city to the house recently occupied by Mrs. Spencer Dancey on Railway Street.

A CONCERT

Professor Gliddon of Peterboro and his Conservatory orchestra appeared in a varied program of song and instrumental music on Friday evening. The entertainment was given in Coronation Hall, under the auspices of the Public Library Board. The splendid ensemble work of the orchestra was demonstrated in the selections "War March of the Priests" "Bohemian Girl" and a Scotch selection "The Thistle" The solo performances were of a high order, the singing of Miss Chalmers being received with marked appreciation, as was the cello solo of Mr. Eaton, and the violin solo of Mr. Wilson. Miss Choate, violinist, Miss Dean, pianiste and Mr. Dean, cellist, interpreted with rapturous effect a Venetian Love song, but, perhaps as enjoyable a specialty as any was the duet and solo work of Masters Otto and Paul Gliddon on the cornet and clarinette. The program was a delightful treat to the music-loving public who attended. The Library Board are to be congratulated for providing entertainment of choice, and first class merit.

Mrs. G. Magee and the Messrs. Magee have moved into their lately purchased residence in East City. A commodious shed is in the process of erection.

Mr. Shier is the guest of his sister at the rectory.

OBITUARY

We regret to report the death of the late Mrs. Thos. Kennedy of Sturgeon street. The funeral took place on Monday afternoon and was largely attended. The deceased was ill only a few days, having been down town just a day or two before her illness which appeared in the form of an unconsciousness which prolonged itself into the sleep of death, despite all the loving care of a physician and friends. Her husband predeceased her last March. Mrs. Kennedy was a woman of noble Christian character and a model mother. She spent almost her entire life in Omemee and was much respected as a worthy member of a large and influential relationship. Sincere condolences are extended to the sorrowing relatives.

The regular montly meeting of the W.F.M.S. of the Presbyterian church will be held at the home of Mrs. T. W. McLean, on Wednesday afternoon.

Rev. D. H. Currie concluded his sermons on Church Union last Sabbath morning. Ballots are to be all returned by next Sunday. A congregational business meeting will be held next Wednesday evening, after the conclusion of the prayer meeting.

Messrs. Wm. Shield and W. H. Graham of Mount Pleasant were visitors to Omemee on Friday.

The Adult Bible Class of the Presbyterian Sunday school have decided to hold their social evening on Monday March 25th, instead of the date previously announced.

Mrs. Wm. Handley and Mr. Melville Handley of Mount Pleasant called on Omemee friends the first of the week.

Mr. W. G. Stephenson and his son, Master Arthur, are convalescing from a severe illness.

Mr. Dickens intends moving his family to Mount Pleasant.

The ice harvest is still in full swing and the quality very good.

PEOPLE TO DECIDE NAVAL POLICY

Present Act Will Remain in Force in Meantime.

Ottawa, March 5.—In answer to a question by A. A. Mondou (Yamaska), Rt. Hon. R. L. Borden yesterday afternoon replied: "After such consideration and enquiry as may be necessary, the Government will present its naval policy to Parliament and to the people. That policy will undoubtedly require legislation which will involve the repeal of the present Naval Service Act. In the meantime, that act will remain on the statute book for purposes in connection with the fishery protection service and otherwise. Before any permanent naval policy is put into force, the people will be given an opportunity to pronounce upon it."

The House, he told P. F. Lamarche (Nicolet), would not be given an opportunity to discuss or declare itself on the resolution of Albert Sevigny (Dorchester) in favor of the repeal of the Laurier bill, because there were so many applications for the consideration of resolutions on public bills and orders that it would unduly delay the work of the House to accede to such a request.

Denmark's Outdoor Theater.

Denmark has probably the finest natural outdoor theater in the world. It is situated in the royal deer park about six miles out of the capital. There the avenues of mighty trees serve as wings and background to a stage fronted by a beech encircled slope that forms a perfect auditorium. Eight thousand people can be accommodated at every performance.

and risk the principal itself by keeping a lot of money in your house or your pockets.

It would be much safer in the Union Bank of Canada—less likely to be spent—and instead of being idle, would be earning Interest night and day.

If you haven't a Savings Bank Account already, come in and open one.

Peterborough Branch – C. H. Pennefather, Manager.

THINKING THEMES

By DR. FRANK CRANE

Did you ever think of the irrationality of Names? When the world was young, people were named some name that more or less fit them. Jacob meant supplanter, and his name was afterward changed to Israel, or Prince, for as good a reason. All through the Old Testament significance attaches to names. Now-a-days to be named Smith or Jones or Robinson, is no more than being numbered 35 or 17 or 23. Except that when a man walks into a Western mining camp, he is "sized up" and given a title, as Sim, Jim or Black Jack, entirely setting aside his family and baptismal names.

Names are really tyrannies. A man should have the privilege of selecting his own name, when he grows up and finds himself out.

Think of being a poet, and having to subscribe your verses with one of those budgeon names, as Dobbs, Boggs, Butts, Mudge, or—like the Ettrick Shepherd—Hogg.

Emory Storrs, the eminent Chicago lawyer of a former generation, once said of a witness name, which was given as Archibald Wellington Constantine Tabbs, that it sounded like a trunk falling down stairs.

Personally, I loathe my own name and would much prefer being called C 42.

The only sensible names are the numbers in a prison and the nicknames of youth.

BEAUTIFUL EYES

are made beautiful by long, silky lashes and well defined, lustrous brows. Eyes, like diamonds, depend on their setting. The beauties of the face are lost is the eye brows are thin and scanty, and the lashes are thing and scanty. Parisian Lash Lustre grows beautiful, soft, silky lashes. It has done so for society women throughout Europe, and it comes here well recommended to do the same for you. Parisian Lash Lustre is not a dye or colorator, but a scientific preparation for beautifying the eye lashes and brows. Our guarantee goes with every box of Pariaisn Lash Lustre. A two weeks' treatment will bring beauty to your eyes that you have never before possessed. By mail, prepaid, in opal boxes on receipt of price, fifty cents. B. V. Marion, sole distributor, Bridgeburg, Ont.

AGED COUPLE LIVE IN CAVE

Kingston, Ont., March 6—Francis Henry Switenburg and Mary Summerdeldt, both about seventy years of age, have been living together in a cave or dug-out, for years, within ten miles of Pembroke.

They have lived the life of animals, sleeping and eating, the woman begging food from the neighbors, the man never showing himself. The cave in which they spent years is built up with stones, covered with slabs, brushwood and earth. The door is about two feet wide and four feet high.

Inside there is nothing but the old man's bunk, and in another small cave dug back from the main small one, was the woman's "bedroom." They were taken from their hovel to Pembroke. The old woman went willingly enough, the old man showed fight, and had to be handcuffed. Their garments were rags, and they looked as if they had not seen water for years. They were remanded to jail for thirty days.

The man occupied the cave for seventeen years, and the woman for ten. Both are Germans and unable to converse in English.

Electric Restorer for Men

Phosphonol restores every nerve in the body to its proper tension; restores vim and vitality. Premature decay and all sexual weakness averted at once. Phosphonol will make you a new man. Price $3 a box, or two for $5. Mailed to any address. The Scobell Drug Co., St. Catharines, Ont.

MAGISTRATE DUMBLE WRITES RE REGISTRATION CHARGES

The Manhood Franchise Act and What is Provided for in Matter of Registrations

Mr. D. W. Dumble, K.C., forwards the following letter of explanation—

Peterborough March 5.

To The Mayor and Council of Peterborough,

re-Registration Charges.

Gentlemen—I have observed in the report of the Council meeting that some of the Councillors charge the Exofficio Registrars with asking from the Council payment for "work which they did not do." I feel that some of the Councillors hardly understand the matter they discussed, and I desire to explain. The Manhood Franchise Act enacts that the Board of Registrars shall be composed of the County Judge, the Police Magistrate, the Registrar and the County Court Clerk, three of these also compose the Court of Appeal. The duty of carrying out the entire work is entrusted to them. The days for registration are fixed, and the hours for sitting. The Government no doubt entrusted this responsible duty to a body of men whose positions and qualifications fitted them for the work and whose honorable positions was a guarantee for efficiency and honor. Now every one of these ex-officio Registrars holds offices which require them to be in their offices the hours prescribed by Statute. The County Judge could not, and is not allowed to absent himself from his judicial duties, the same is obligatory on the Police Magistrate, the County Court Clerk and the Registrar, so that the hours of office and the hours fixed for registration overlap. We have not, notwithstanding all the inventions, succeeded in being able to be in two places at the same time. This is recognized in the Registration Act, and so it provides clause 4: "The Board shall be constituted in every city for preparing lists of persons entitled to be registered as manhood suffrage voters, and shall be called 'The Board of Manhood Suffrage Registrars' and every member thereof shall be a Registrar within the meaning of this Act."

And section 5, as follows:—"The Board shall consist of the officials thereinafter mentioned, who may from time to time appoint so many other Registrars as shall be necessary to carry out the provisions of this Act."

Section 43 of the Act provides as follows. "For their services under this Act, the officerse mployed shall be entitled to be paid as follows. A Registrar for each sitting, and each member of the Board of Appeal for each day on which a sitting is held $10.00, etc.

Now sirs, let me suggest to you that the Registrars are paid for the whole duty and responsibility placed upon them, and for the guarantee of the correct and honorable performance of a responsible duty. The Statute never contemplated that they should abandon their other official duties to sit all day doing clerkly work, but that they should oversee and be responsible for the proper performance of the work. In Toronto where they are supposed to know something of law, the Exofficio Registrars are constantly paid. So also regarding the Dominion registrations through the accounts were audited by the Dominion civil servants, the charges to the Exofficio Registrars were always paid without question.

I write in the hope that this explanation may make it unnecessary to institute a number of actions.

I am, Gentlemen,

Your Obedient Servants,

D. W. DUMBLE.

WHO'S COMING AND GOING

Mr. W. G. Ross, Bobcaygeon is in the city.

Miss Stella Sherwin is visiting in Lakefield to-day.

Mr. J. M. Cooke, of Guelph is in the city to-day.

Mr. H. S. Zinkam, Berlin, spent the day in the city.

Mr. R. Neill of Peterborough is in Toronto to-day on business.

Mr. W. F. Reynolds of Brockville is spending the day in Peterboro.

Mrs. Thomas Barrie, 760 George street, will not receive to-morrow.

Mrs. S. Keyes, 773 Water street, will not receive to-morrow (Thursday).

Mrs. M. A. Morrison, Hunter street, will not receive to-morrow, Thursday afternoon.

Mr. T. Bennett, of Havelock was transacting business in the city to-day.

Mrs J. R. Sherwin left to-day for Midland, where she will visit her daughter.

Messrs. T. Bruce, W. Flavelle, and M. Wolland, of Lindsay were in the city to-day on business.

Miss Alice Learmonth, of Hastings, Ont., is the guest of Miss Helen Harper for a few days.

Messrs. J. J. Duffus, Howard Bishop and C. Young, of this city, were in Lindsay on business yesterday.

Messrs. F. A. Clark, T. Mitchell, J. A. Kirkpatrick, J. D. Lindsay of Toronto, are registered at the National.

Miss Edith Williams, 310 Boswell avenue, has returned to the city after a two weeks' visit to the millinery parlors in Toronto.

Mrs. P. Downham, who has been visiting her son, Dr. Seymour Downham, London, also Rosedale, Toronto, for the last month, has returned to Peterborough.

Mr. and Mrs. Percy Reid, with Mr. Reid's mother, Mrs. Ed. Reid, leave in a few days for San Jose, Cal., where they intend remaining for some time. Mr. Reid, on leaving the Turnbull Co., where he has been for the past 14 years, was pleasantly surprised by being made the recipient of a handsome leather lined travelling bag, a presentation from the members of the staff.

ACCIDENTS AT SMITH ST. CORNER

Two Cutters Overturned and One Horse Ran Away

The street railway tracks at the corner of Smith and George streets, were the cause of another runaway to-day. It appears that this morning about eleven o'clock, a lady and gentleman were driving up George street, when the cutter caught in the track and overturned, throwing the occupants violently out on the road. The horse became frightened and dashed away for over a mile out the Mudlake road, breaking the harness and damaging the cutter. The robes and cushions were left behind, the seat was broken off the box of the cutter, and the shafts were broken. The occupants of the cutter were not injured, although they suffered a rather severe shaking up, and the horse was not any the worse for its wild dash into the country.

ANOTHER MISHAP

Last night about seven o'clock another cutter overturned at the same corner, the occupants being a man and his wife and child, but no injuries were received. The horse did not run far.

The Grand Trunk Railway has decided to establish a freight terminal on the east side of Carlaw ave., North of Queen St., in Toronto, and to this end has acquired eight acres of property for $68,353 or $80 a foot. Seven acres will be taken up by by freight sheds.

HOW STRIKERS ARE DISTRIBUTED

London, March 6—The following is the approximate distribution of the coal mine strikers—

Yorkshire, Derby, and Notts, 242,000.

South Wales, 213,000.

Northumberland and Durham, 213,000.

Scotland, 131,000

Lancashire and Cheshire, 105,000.

Midlands, 87,000.

Cumberland, Gloucester and Somerset, 26,000.

North Wales, 15,000.

Total, 1,032,000.

Here are some figures that indicate the importance to Britain of her coal mining industry—

Quantity of coal mined 1909, 263,774,312 tons.

Value of coal mined, $531,374,500.

Total number of persons employed 1,042,135.

Number employed underground, 818,381.

LANTERN SLIDE

In the lecture room of St. Andrews church to-night the congregation will inaugurate a series of lantern slide addresses on the "Missions of the Presbyterian Church." The subject of to-night's address will be "China," and about 90 views, many of them colored, will be shown illustrating the mission work in China. These addresses will take place once every month and will be entirely free to everybody. It is expected that there will be a large attendance as one does not often have the opportunity of seeing the mission work through the eye.

Nathan Krugel, claiming to be of Toronto, was arrested in New York for theft.

PILES CURED IN 6 TO 14 DAYS

Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days, 50c.

An attempt will be made to release the Turret Cape, wrecked in Georgian Bay last fall.

IN BLOOM

Hyacinths, Daffodils, Jonquills, etc., in pots, Also Violets, Carnations, Roses, etc., at lowest prices. Wreaths, Anchors, Pillows, Gates Ajar, etc., made up on shortest notice.

Mason's Floral Emporium WATER STREET

GOOD SHOWS FOR THE GRAND

"Jumping Jupiter" and "Excuse Me" Among the List

The management of the Grand Opera House has secured some good attractions, among them being Richard Carle in "Jumping Jupiter," a big musical comedy, which comes to Peterborough March 19. "Brewster's Millions," comes on March 22, while "Beverly of Graustark," "When Bunty Pulls the Strings," "Mutt and Jeff," and "Excuse Me" come later.

C.G.E. WORKMAN HAD FINGERS CUT

A punch press employe of the Canadian General Electric Works named Steven Tuck, who resides at 275 Park street, met with a painful, though not serious accident, this morning about eleven o'clock. He was operating one of the machines when his hands came in contact with the knives in the press, inflicting flesh wounds on a finger and thumb, on one hand, and a finger on the other. The injuries will likely prevent him from working for about a week. Comstock's ambulance was called to take him home and Dr. Young attended him.

OSHKIGMONG

Special Correspondence.

Oshkigmong, March 6.—A young daughter has added to the family of Mr. Alfred Coppaway.

Mr. David Simcoe and wife have returned home to Rama.

Miss Stella Howard, of Hiawatha, is here for a few days visiting.

Mrs. John Kenice and Abigail, who have been visiting her daughter, Mrs. Joseph Whetung, for four or five weeks, have returned home to Rama.

The Powhattan family, of Chemong, gave an exhibition of their Indian plays at Bridgenorth last Friday night.

Mr. Levi Smoke and Miss Tressie Beaver, of Alderville, were here last Thursday.

Miss Daisy Whetung is in Port Hope for a few days visiting friends.

The tea and concert given by the C.A.C. last Thursday night was well patronized by the village people, and also a large number from Smith and Ennismore.

Mr. F. W. Miller, of Peterborough, attended the regular monthly Council meeting held here last Monday afternoon, the Indian agent Mr. Miller presiding.

Bugle Band

A rehearsal of the Bugle Band Minstrels is called for the recreation room of the Armories to-night at 8 o'clock.

Wm. German, M.P., thinks chances good for a life saving station at Niagara Falls.

Death to Dandruff Germs Life to All Hair

No More Dandruff, Falling Hair, Scalp Itch, Bald Heads o. Dull Faded Hair.

This is a free country. Its your right, your privilege to use any hair tonic your desire.

But why continue to use a hair tonic that doesn't do what it should do; kill the germs and banish all dandruff and hair troubles?

If you have dandruff, if your hair is getting thin and falling out, if your scalp itches and your hair isn't bright and lustrous, bear in mind this fact, that PARISIAN SAGE, now sold all over America, is guaranteed by Wm. Madill to give the limit of satisfaction if used for any of the above hair or scalp troubles, or money back.

PARISIAN SAGE is the most delightful and refreshing hair dressing for men, women and children, and is particularly in demand by refined women, who desire to increase their beauty by acquiring an abundance of fascinating hair, full of life and lustre.

A large bottle of PARISIAN SAGE costs but 50 cents at Wm. Madill's and druggists everywhere. The girl with the Auburn hair is on every carton and bottle.

SMARTNESS

FOR THE MAN seeking to dress himself in the best manner at moderate cost we earnestly advise a look through the new lines of The House of Hobberlin, Limited. We are sole agents for this big tailoring house. Nearly four hundred lines to choose from. Fit, style and honest tailoring are found in every Hobberlin garment to order. Let us make you your Spring Suit. This is not an experiment—we have satisfied hundreds and can please you.

We are Sole Agents for The House of Hobberlin, Limited.

H. LeBrun & Co.

THE DAILY REVIEW

VOL. LXIV., No. 57. PETERBOROUGH, ONT., CANADA, THURSDAY, MARCH 7, 1912 TEN CENTS PER WEEK.

BILINGUAL SCHOOLS NEED REFORM SAYS DR. MERCHANT IN REPORT ON INVESTIGATION

Children Must be Taught at First in Their Mother Tongue.

Toronto, March 7.—That the English-French schools of the province—the so-called "bilingual" schools—are lacking in efficiency is the conclusion at which Dr. Merchant, the special investigator whom the Government appointed to make a thorough inquiry into this whole question, has arrived.

Comprehensive and thorough, the long-looked-for report, which was handed out yesterday afternoon by the Minister of Education, deals with every phase of the intricate situation which has arisen in this province through the teaching of the English and French language in schools.

A remedy is proposed by Dr. Merchant. It is two or three fold in its bearings, but if worked out properly will no doubt effectively deal with the whole situation. In the first place, the report states definitely that the best results are obtained when the medium of instruction is in the beginning the mother-tongue.

The total number of schools visited by Dr. Merchant since his appointment on Nov. 2, 1910, was 269, with 538 teachers. The scope of the investigation included the conditions under which the schools are working, the efficiency of the schools, the causes of inefficiency in schools, and the conditions which promote efficiency.

An examination of all the tests applied makes it evident that the English-French schools on the whole are lacking in efficiency. The tests combine to show that a large proportion of the children in the communities concerned leave school to meet the demands of life with an inadequate equipment in education.

Data regarding individual schools was obtained from the school records and from statements of the teachers, checked and supplemented by Dr. Merchant's observations, and enquiries from other sources.

A comparatively large number of teachers without certificates was found in the inspectorate of Russell and the city of Ottawa. A number of teachers in the County of Essex were also without certificates.

Twenty teachers were found in the inspectorate of Russell and Ottawa with less than one year's experience in Ontario.

Two of these teachers receive only $150 per year as salary, the lowest amount recorded in any of the schools visited by Dr. Merchant.

One teacher in this inspectorate had 41 years' experience in Ontario, and in this inspectorate is a teacher receiving $1,300, the highest salary recorded in any of the schools visited.

Irregularities were discovered in the attendance of pupils in the English-French schools of Essex.

The number of French-speaking pupils enrolled in the schools visited was far in excess of the English-speaking pupils.

English is a subject of study in all the schools visited.

The language used in teaching English is English in practically all the schools.

In about 85 per cent. of the schools in which the language of instruction is specified as "English and French" in forms 3 and 4, French is most used.

English conversation as distinguished from English reading finds a place in most of the schools in Eastern Ontario and the districts, but is seldom regarded as a separate subject of study in the schools of Essex and Kent.

Teachers in these English-French schools show zeal in their work, but are handicapped by lack of academic and professional training.

The best results are obtained when the medium of instruction is in the beginning the mother tongue.

The education of the French-speaking child should commence, and be continued during the first four years, in the French language.

The transition from French to English is best made gradually through the method of double teaching.

The time when English should be used continuously as the language of instruction depends on the ability of the student and the language conditions of the locality in which the school is situated.

Let the pupil remain three years in form 1 and two years in form 2, during which time English is made gradually to replace French as the medium of instruction.

Increase the efficiency of the teachers.

Teach English-speaking pupils apart from the French-speaking pupils in the first and second forms. In such schools the classes are combined with advantage in form 3.

English can be used in giving commands, directions, etc., in the ordinary routine of the school.

Proper care and methods in training French-speaking pupils leads to rapid progress. Persistence in the continuance of varied exercises and insistence on freedom of expression is essential.

There should be a new series of French readers showing teachers how to cover the whole field of teaching English to French-speaking pupils.

Early study of French gives French-speaking pupils a good knowledge of their language. Fluency can then be easily acquired later on.

Readjustment of the requirements of the entrance examination which would shorten the course for those who study French.

The difficulty of securing an adequate supply of competent teachers is commented upon.

There should be a closer connection of the English-French schools with the high school system of the province.

LATEST PICTURE OF COLONEL "TEDDY"

Here is the latest picture taken of Colonel Roosevelt. It was made on the day that he announced to the country that he would again be a candidate for the Presidency.

PREMIER SAYS MANITOBA WILL REJECT SCHOOL INTERFERENCES

Boundaries Settlement Act Passes Second Reading With Majority of 38.

Ottawa, March 7.—"It is not politically possible to put in force such provisions, because Manitoba will not accept the boundaries with any such provision. It is absolutely impossible to conceive of the province which is to be governed in one part by one constitutional provision and in another part by another provision. Whether I am right or wrong constitutionally, it is politically impossible."

In these words Rt. Hon. R. L. Borden declared yesterday afternoon against the coercion of Manitoba in the matter of separate schools.

The boundaries bill passed its second reading on a division of 114 to 76, giving the same Government majority as on Tuesday on the amendment, 38. The same five Nationalist members—Paquet, Lamarche, Sevigny, Bellemare and Guilbault—voted with the Opposition.

The debate on the second reading was resumed on behalf of the Opposition by Hon. Rodolphe Lemieux. He approved of the extension of the Ontario and Quebec boundaries to Hudson Bay. He noted that some stress had been laid on the announcement that Ungava is to be added to Quebec. The idea, no doubt, was to soothe the feelings of the Government's Quebec supporters. He would remind the House, however, that this territory had been offered to Quebec three or four years ago by Sir Wilfrid Laurier and the offer had been accepted by Sir Lomer Gouin. Mr. Lemieux approved of the Ontario-Manitoba boundary as fixed by the late Government.

The proposal to give Ontario a thin red line up to Port Nelson, he regarded as unseemly and unordinary legislation. It would pave the way for future conflict between the two provinces.

Mr. Lemieux started on the school question phase of the debate. The bill, he said, was more important for what it does not contain than for what is in it. Nevertheless, this subject was not introduced by the Liberal party. The responsibility for its introduction must rest entirely with the "Nationalist wing of this coalition Government." It was a family quarrel.

Hon. L. P. Pelletier, in the course of his speech Tuesday night, had complained that he had been called names. He had been called names by his Nationalist friends. Henri Bourassa had said that the conduct of the Minister made his British blood boil. Armand Lavergne, his own leader, had said, "I am ashamed of him."

Mr. Lemieux said Messrs. Monk, Pelletier and Nantel had been arch-traitors to their own friends, and to their own promises. The Liberals were mere onlookers and they were enjoying the situation.

The Ministers were responsible for this agitation in Quebec, and they would reap their reward if they dared to open a constituency in that province. Mr. Lemieux then said that when he heard Mr. Monk declare that the school question was settled, he had found it necessary to pinch himself. What would his Nationalist friends had said had be made such a statement before Sept. 21 last? Apparently, however, this double game had been worth the playing, and in order to be a little more free, Mr. Monk had announced that he had severed his connection with Borden.

Turning to the history of the Manitoba school question, Mr. Lemieux said that the attitude of Sir Wilfrid Laurier had been lofty. His watchword had been "No surrender." Provincial rights had always been the policy of Blake, Mowat and of Laurier. That had been Sir Wilfrid's policy when in 1905 Mr. Monk had endeavored to force the French language upon the Legislatures of Alberta and Saskatchewan.

Mr. Lemieux next dealt with Mr. Monk's statement that Catholics had no vested rights in the district of Keewatin, and Senator Landry, Speaker of the Senate, as declaring just the opposite. What had brought about such a remarkable change? Were the Nationalist members afraid of losing their portfolios, or were they not sincere in their denunciation of the Liberal policy last September?

Rt. Hon. R. L. Borden said that his hon. friend entertained the House at considerable length with numbers of reminiscences very delightfully rendered and of amusing character. "He had the good grace to congratulate the Government for extending the boundaries of Ontario and Quebec, saying that it was only implementing their own resolutions.

"He might tell us," added Mr. Borden, "why these resolutions were only so much waste paper, for thirteen years, and whether that delay had anything to do with the delay in extending the boundaries of Manitoba."

"If he is of the opinion," said Mr. Borden, "that Ontario is not getting fair play, what does he say about his own treatment of that province, which gave it no right to an outlet at the bay? We have secured to Ontario a port on the bay. I ask you to contrast the treatment."

In conclusion, Mr. Borden said they had submitted this bill along the lines of the B.N.A. act. The course the Government had taken was in the best interests of all concerned. He believed it would appeal to the majority of the House, as well as to the majority of the people of Canada.

MORE WINDOWS ARE BROKEN

Suffragettes Still Active and Arrests Are Made

Special to the Review.

London, March 7.—A large party of suffragettes to-day descended on fashionable shops, near Buckingham Palace, and smashed a dozen large windows. Twenty arrests were made.

HICKS' CASE IS RE-OPENED

Perjury Charge Against Cobourg Man Being Heard.

Cobourg, March 7.—The grand jury has not yet reported on the charge of perjury brought against aged Henry Hicks, of Colborne, resulting from evidence given at the trial of "Son" Matthews for the alleged murder of a woman at Colborne. Last October Hicks was before a grand jury, the foreman of which was C. A. Munson, M.P., who declined the services of the crown prosecutor, N. F. Davidson, K.C. of Toronto, in interrogating witnesses, and who later had a spirited discussion with Justice Latchford, who dismissed the jury. Justice Kelly is presiding at the present court, and Mr. Davidson is again the prosecutor. The case has been re-opened on instructions from the Attorney-General's Department.

Advertise in the Review. It pays.

DEADLOCK CONTINUES

Representatives of Parties Are Still Conferring.

Special Prayers for Termination of Strike.

London, March 7.—Official statements issued last evening concerning the numerous conferences held yesterday in connection with the coal strike were devoid of information as to the results, if any, achieved. The negotiations were renewed yesterday morning with hopes that speedy settlement would be reached, but nothing has been disclosed indicating progress in that direction. As a result, rumors are abundant, but all apparently, are founded on surmise.

The miners' representatives conferred with the Premier and his colleagues for nearly three hours and the official report says that at Mr. Asquith's request they promised to attend further conferences "if desired." From this it is deduced that the Premier has not yet abandoned hope of finding a basis of agreement between the disputants. It is said that the miners adhered steadfastly to their declarations that they would not consent to any settlement which did not assure the adoption of their own schedule of minimum rates.

In the House of Commons the Prime Minister characterized as purely imaginary the newspaper reports that he would introduce a minimum wage bill to-day.

The Archbishop of Canterbury appealed in special prayers for a termination of the strike. Meanwhile the miners continue to be masters of the situation. Industrial paralysis is fast spreading over the country.

A high official of the miners' federation said last night that a settlement this week was impossible, but he was hopeful that it might be effected next week.

Some four hundred Oxford undergraduates have organized themselves into a volunteer body to work in the mines or to assist by any available means in the crisis.

Steamers Suspend Service.

Christiania, March 7.—Owing to the British coal strike the steamship services from Christiania, Bergen and Tromso have been partially suspended. Freight rates have been increased

Cutting Down Speed.

Marseilles, March 7.—The French line announces that their steamships will be placed under reduced speed until further notice. The British coal strike obliges the company to economize in coal.

BROTHER OF LORD KITCHENER DEAD

He Was the Governor General of Bermuda

Special to The Review.

Hamilton, Bermuda, March 7.—Failing to rally from an operation for appendicitis performed five days ago, Lieut.-General Sir Frederick Walter Kitchener, Governor-General of Bermuda, and a brother of Lord Kitchener, died early to-day.

PROBABILITIES

Easterly winds and fair to-day. Friday, cloudy with light local snow flurries.

WHITNEY HAS MAJORITY OF FIFTY IN FIRST VOTE

ONTARIO'S MINES

The enormous value of the mines of Ontario is illustrated in the annual report of Mr. T. W. Gibson, Deputy Minister of Mines.

It places the total value of all minerals mined in Ontario during 1911 as $41,432,898, an increase of $2,119,063 over 1910, when the output had a value of $39,313, which, in turn, was an advance of over 25 per cent. on the production of 1909.

There are seven mineral products that had a value of $1,000,000 each or over during 1911. Of these which show an increase in value over that of 1910 are silver, pig iron, common brick, Portland cement and natural gas. Nickel and copper show a decrease.

SAYS SCOTT MADE POLE

Norwegian Explorer Returns From South Polar Expedition.

Special to the Review.

London, March 7.—A special despatch to the London Daily Express from Wellington, New Zealand, today, quotes explorer Ronald Amundsen, as saying that Captain Scott, who is heading the British expedition reached the South Pole.

Hobart, Tasmania, March 7.—Captain Roald Amundsen, the Norwegian explorer, has reached here on his return from the South Polar expedition.

Capt. Amundsen's expedition is the first to be heard from of four that have set out to reach the south pole over the same general route from the Australian side by way of Ross Sea, McMurdo Strait and along the edge of Victoria Land, traveling almost due south. While an Australian and a Japanese expedition are attacking the pole, the really serious competitor of Capt. Amundsen, the distinguished Norwegian, who discovered the Northwest Passage, is Capt. Robert Scott. It is a peculiar fact that, concerning the last named, a report was current in London Tuesday that he had reached the south pole, but no confirmation has been received.

Thus far the despatches do not indicate how far he has been successful in the race for the south pole. Had he reached his objective it is most likely that the news of his achievement would have been made known several days ago.

Sneed, Senior, Murdered.

Georgetown, Texas, March 7.—J. T. Sneed was killed here yesterday by one of his tenants, R. O. Hilliard, who killed himself, after saying he shot for revenge.

Sneed was the father of John Beal Sneed, recently on trial for the killing of Capt. A. G. Boyce, a sequel to the elopment to Winnipeg of Boyce's son with Sneed's wife.

It is presumed yesterday's killing was a direct result of the Boyce-Sneed feud.

Ontario Conservatives Are Fully in Accord With Borden's Decision.

Toronto, March 7.—By a vote of 72 to 22, with Allan Studholme of Hamilton voting with the Opposition, the Legislature yesterday rejected an amendment put before the House by J. C. Elliott of West Middlesex, to an amendment introduced by R. R. Gamey, which was another amendment to the main motion, introduced by N. W. Rowell, leader of the Opposition.

It was the first division in the House during the present session, and by the decisive majority given against Mr. Elliott's amendment, which was sent to Toronto from Ottawa, the Legislature placed itself on record as being entirely in accord with the settlement of the Manitoba boundary question.

Sir James Whitney brought the debate to a close. He did not hesitate to criticize Mr. Elliott for his action in connection with his amendment to Mr. Gamey's amendment. The amendment, which was moved by Mr. Elliot, said Sir James, was not the one which he originally intended to introduce. It was not the one of which a copy was sent to the Prime Minister, nor was it the one which Mr. Elliott said he would introduce. After sending the copy to the Government, Mr. Elliott went to Ottawa and received from Sir Wilfrid Laurier the amendment which he had introduced, but which Sir Wilfrid himself did not introduce in the Ottawa House on Tuesday.

While the vote was being taken the members sang patriotic songs, and when the majority was announced there was great Government applause.

Mr. Studholme (E. Hamilton) resuming the boundary debate, said he did not believe one business man in the House would accept for himself a settlement of the kind as that had been made on the proposition, as submitted to Ontario by the Federal Government. The five-mile strip was so small, that to Mr. Studholme's mind, if it had been offered under the former Dominion Government, the Prime Minister of Ontario would not have accepted it. "Why shouldn't Manitoba have given Ontario a 15-mile strip for all time to come?" he asked, "absolutely free and under Ontario's own jurisdiction, in order to avoid endless trouble?"

No information that he could honestly vote upon had been given to the House, he said. When some definite statement given as man to man, was presented to the House, he would be ready to vote on it.

Sir James Whitney said it had not been his intention to make any further comment in adidtion to what he had said before, but in the light of events of the past few days, he felt it incumbent on himself to say a few words more. The amendment which had been introduced was very near the border of irregularity, but it was not his wish to have it declared out of order, because it left open the way for further discussion. What was out of order, however, was the reference to the financial side of the question. If the amendment had been moved at the beginning of his speech it would have been a different amendment altogether. The one he (Mr. Elliot) intended to move, a copy of which was sent to the Premier, was a home-made amendment, but the one Mr. Elliott did move was one which was sent from Ottawa, which was carefully guarded and not at all like the one which Mr. Elliott intended to move.

Sir James referred to the conflicting arguments of the Opposition. He said the previous contention was that the Province of Ontario had not "pushed" its claim sufficiently. Sir Wilfrid Laurier had never said that Ontario's claims had not been sufficiently pushed, and Sir James doubted if he ever would.

"This province," continued Sir James," has been given the only valuable piece of property in the district. There is no use in further discussion. We have proved that no time was lost by this province in the deliberations, and there was even a supplementary claim presented."

In concluding, Sir James pointed out very forcibly that at the Port Nelson terminal Ontario would have the free and undisputed right of way for ten miles along the water's edge.

J. C. Elliott, West Middlesex, in referring to Sir James Whitney's remark that Mr. Elliott's amendment had been sent from Sir Wilfrid Laurier, declared that "the statement the hon. the Premier made is untrue."

Mr. Rowell concluded the debate.

"The reason—the sole and only reason—why we introduced the financial end of the agreement," he began, "was that since Mr. Elliott's amendment was drawn up we got a copy of the Ottawa bill with regard to the boundary settlement, and saw that the financial terms had been rearranged with Manitoba. I want to say that Sir Wilfrid Laurier never saw or heard of, either directly or indirectly, Mr. Elliott's amendment to the amendment."

Mr. Rowell concluded his remarks by asking where Hon. G. E. Foster, A. E. Kemp and other Conservative members of the Dominion Parliament were when the Laurier bill was passed in 1908, giving both ports to Manitoba.

"We ask you to vote for the amendment to the amendment," he pleaded, "because the Government has neglected its duty on this question, and on the taxation question it has been asleep."

Asquith Not For Dublin.

London, March 7.—The report that Premier Asquith will speak at Dublin has been officially contradicted.

RELIGION ADVERTISED BY SIGNS

New York, March 7.—Broadway has seen almost everything from corset strings to grand pianos advertised in electric signs, but people gasped yesterday as they passed near the Metropolitan tower and saw an entirely new sign advertising religion. Last night the fiery message read:

"Welcome for everybody in the churches of New York."

At one end was a large cross and the words "Religion for men"; at the other end another large cross and the words "Men for religion." Along the bottom ran the flaming line; "Men and Religion, Forward Movement."

The sign is on the roof of a building in 223rd street, just east of Broadway, and is 18 1-2 feet high and 62 feet long. It is visible for blocks along Broadway. It is the beginning of a great advertising campaign for religion. Two more signs will be placed on Broadway and large and small posters will be placed on billboards in every part of Manhattan, all advertising the "Men and Religion Forward Movement" which has swept the country with wonderful strides, and which will close with a great series of meetings in this city.

AUNT OF LOCAL LADY INJURED BY STREET CAR

Mrs. John Bertram Sustained Fracture of the Skull.

Toronto, March 7.—Expecting that a Bloor car coming east at the corner of Bloor and Spadina avenue, would stop, Mrs. John Bertram, 4 Spadina road, 73 years of age, stepped in front of the car and was hurled towards the sidewalk, sustaining a fractured skull. Mrs. Bertram's condition is considered serious, owing to her advanced age. Dr. Milney, the family physician, stated that Mrs. Bertram had remained unconscious for some hours, but that she is now very much better and able to speak.

The motorman in charge of the car claims that his brake failed to work. This is probably the case, as he turned the corner and traveled fully a hundred and fifty feet down Spadina avenue before bringing the car to a stop.

Mrs. Bertram is an aunt of Mrs. Gordon Hall, of this city.

CHINESE CRUELTY

Pekin, March 7. — A letter from a missionary at Hwang-Hsien, near Chi-Fu, received here states that the Imperial troops put out the eyes of 40 Christian converts and then beheaded them, saying that they were naturally rebels.

AVIATION

Birdman Nalney Flies 237 Miles Without Making Stop

Special to the Review.

Paris, March 7.—Aviator Nalney made a non-stopping flight to-day, flying over the channel from London and landing at Issy Aerodome after a trip of 237 miles in 325 minutes.

FOR FAMILY USE

An Ideal Remedy for Coughs, Sore Throat, Catarrh, Weak Chest.

After having made a special study of the treatment of the throat and lungs for twenty years, Prof. D. Jackson states that in his opinion no preparation for general family use is so efficient, so healing, so certain to cure as Catarrhozone.

As his reasons for making this claim for Catarrhozone, Dr. Jackson says:

"Catarrhozone is free from opium.

"The patient can breathe its rich, balsamic fumes direct to the diseased spot.

"It is a remedy that treats and cures causes—prevents disease spreading.

"Reaches the innermost recesses of the throat, nose, bronchial tubes, and lungs.

"Alleviates chest soreness.

"Stops coughing instantly.

"Prevents bronchial irritations.

"Relieves clogged nostrils.

"Cures sniffles and nasal catarrh.

"Prevents La Grippe.

"Has proven itself a cure for weak lungs, loss of voice, speakers' sore throat, asthma, bronchitis, catarrh, coughs, colds, and winter ills."

Catarrhozone is unquestionably the world's greatest breathable cold, cough, and catarrh medicine, and being free from all drowsy drugs, entirely safe for children and old folks; it makes an ideal family remedy. Recommended by the medical profession, and sold by all reliable dealers. Beware of imitations, get "Catarrhozone" only; large size lasts two months, and is guaranteed, price $1; smaller sizes 25c and 50c. By mail from The Catarrhozone Company, Kingston, Ont.

CORNS CURED IN 24 HOURS

You can painlessly remove any corn, either hard, soft, or bleeding, by applying Putnam's Corn Extractor. It never burns, leaves no scar, contains no acids; is harmless, because composed only of healing gums and balms. Fifty years in use. Cure guaranteed. Sold by all druggists, 25c. bottles. Refuse substitutes.

PUTNAM'S PAINLESS CORN EXTRACTOR

The Daily Review

THURSDAY, MARCH 7, 1912.

ENGLISH COAL PRICES

Late English papers come with much that is interesting in regard to the strike of the coal miners. Not the least interesting are the statements made by the British Board of Trade, an authority that is practically unquestioned, with regard to the costs of mining coal and the revenue from the sale.

It is shown that in a 15 year period, from 1886 to 1900, the profit on coal mined and sold by the operators was only sixpence (ten cents) per ton, and since then the costs have increased, and the price of coal has not materially risen. There is an export duty, or excise, of one shilling a ton on all coal exported.

It is not disputed that the wages of the miners and helpers are extremely low, much lower than we in Canada can conceive of or that the United States would put up with. The one pertinent question is, how much of an advance can be given to the men without reducing the business to a non-profitable position. What advance in prices for the coal can be made without hampering manufactures in very many industries. Britain has been able to place herself in the front rank as a manufacturing country because of her fields of coal, iron and tin, mined at low cost, and manufactured at lower cost than other countries. It would look as if she must now face the matter of increased cost in raw materials and in wages.

It is erroneously inferred that the wealth that abounds in Britain is made in Britain. This is very far from the truth. It is from investments abroad, all over the world, from capital put into railroads, mines and enterprises that the money of England comes. The United States sends to England more interest on capital account than the States pay to their own people on their own investments. The same with regard to Canada.

The upheaval going on is only a part of an economic adjustment that has to be faced in the near future. It may take ten or twenty years to effect, but a gradual advancement will take place until the rate of remuneration to the wage earner and the cost of living,—and indeed style of living—in England will closely approach that of his brother workman on this side of the Atlantic. England is experiencing the inevitable that has been, and will be found in any thickly populated country—too many people for the work to be done, the reverse of conditions where there is more work waiting than those to do it can accomplish.

Finally nearly everything is knocked down to the highest bidder.

Wood's Phosphodine, The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins, Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses. Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. The Wood Medicine Co. (formerly Windsor) Toronto, Ont.

UNEMPLOYMENT IN WINNIPEG

A Winnipeg Clergyman, Rev. Wm. Bailey has been making some enquiry and investigation into rousing conditions in Winnipeg, and, in the course of a discourse, stated the results of the enquiry. Many astonishing points were developed showing that in some respects, conditions among the poor, were fast approaching such as would be supposed, confined only to the older citizens of the continent, and to particular parts of such cities. In one group of 41 houses it had been found that 837 people were housed, and of these 837, no less than 423 were men, who were out of employment. This in the face of the fact that the West is calling for men and for laborers in larger numbers. Of course the analysis of unemployed is of little value, unless the causes of, or reasons for want of employment are stated. Many men will not work, under any condition, if they can possibly avoid it.

The speaker deplored such a state of affairs in modern industrial conditions which resulted in the creation of two segregated areas in the city — one in the south end filled with fine houses and mansions, built among pleasant surroundings and supplied with all the comforts and luxuries of life, and the other in the north end where poverty and squalor reign supreme.

ARENA GARDENS' OFFERING

On another page of this issue will be found particulars of an offering of the 7 per cent. cumulative preference stock of the Arena Gardens, amounting to $250,000 at $95 a share, including a bonus of 40 per cent. of the common stock of the Company, through the International Bank, Messrs. Pellatt & Pellatt and the Crown Trust Co. The Company has a capital of $250,000 each preferred and common stock, and a 6 per cent. bond issue of $300,000. The Arena Gardens will be erected in Toronto and will have a capacity for over 6,000 spectators, or about 50 per cent. more than the Montreal Arena.

NOTE AND COMMENT

Vancouver Daily Province.

A Pittsburg man lived for years with a silver spoon in his stomach. He was probably born with one in his mouth and swallowed it in his sleep.

Hamilton Spectator.

If all these alleged victories of the Italians, in Tripoli, since the war began, are not "stage" ones, one is inclined to marvel why in the mischief the trouble wasn't ended long ago.

Victoria Colonist.

The editor of a certain London weekly paper says that he cannot read Dickens, for the wit of that great author is forced. If the editor's idea of wit is exemplified in his own paragraphs, we do not wonder that he cannot appreciate Dickens.

Montreal Star.

The Dardanelles will hereafter be closed at night. This will seriously hamper navigation; but it will also secure Constantinople against the danger of waking up some morning to see Italian battleships anchored off Seraglio Point, having crept through the Dardanelles in the darkness.

Ottawa Citizen.

During the suffragist disturbances on Monday evening a woman chained herself to a tree in Whitehall and could not be released. The obliging London "bobby" dug up the tree and removed both to the police station. This indicates a lack of the saving sense of humor in that otherwise excellent body of men. England is a free country, and if a lady insists on chaining herself to a tree, they should respect her wishes and leave her there to grow up with the country.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucuous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifers, acting directly on the mucuous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

Take Hall's Family Pills for constipation.

Sherbrooke, March 7.—Under the impression that the engine which was side-tracked to allow his train to pass was moving towards him, Engineer Seymour sprang to death on the Grand Trunk line near here yesterday morning.

Running east and west through a thick mist, Seymour saw a headlight in front of him, and cheated into the belief that a head-on collision was imminent, reversed his engine and leaped, falling under the wheels and dying almost instantly.

THE MARKET

Latest Quotations in Grain Dairy Products, Live Stock Etc.

CHICAGO, March 6.—Wheat rose sharply to-day as a result of a generous export of flour sales, and owing to a revival of cash demand. There was a strong finish at virtually the top prices of the day, ⅛c to ⅝c higher than last night. The end of the session left corn ⅛c to ⅜c up, oats verying from a shade to ⅛c up, and hog products exhibiting a decline of 2½c to 15c.

The Liverpool market closed to-day on wheat, unchanged to ¼d lower than yesterday, and corn ¼d lower. Argentine wheat was ⅝c higher. Paris ¼c higher to ¼c lower. Antwerp unchanged. Berlin ½c higher, and Buda Pest ¼c higher.

Montreal Grain and Produce.

MONTREAL, Mch. 6.—There was some demand from the continent for Manitoba spring wheat, but at the close of the market bids were 1c per bushel out of line. A fairly good trade continues to be done in oats for local consumption, but other lines of coarse grains are quiet. A fair volume of business continues to be done in spring wheat flour for export and the local trade is active. The demand for millfeed is good and prices rule strong at the recent advance. Butter is firm under a fair demand and cheese is quiet. Supplies of eggs are increasing, for which the demand is good. Potatoes are easier.

Corn—American No. 2 yellow, 77½c.

Oats—Canadian western No. 2, 53c to 53½c; do., No. 3, 51c to 51½c; extra No. 1 feed, 52c to 52½c; No. 2 local white, 50½c to 51c; No. 3 local white, 49½c to 50c; No. 4 local white, 48½c to 49c.

Barley—Malting, $1.05 to $1.10.

Buckwheat—No. 2, 72c to 73c.

Flour—Man. spring wheat patents, firsts, $5.70; seconds, $5.20; strong bakers, $5; winter patents, choice, $5.10 to $5.35; straight rollers, $4.65 to $4.75; do., bags, $2.15 to $2.25.

Rolled oats—Barrels, $5.05; bag of 90 lbs., $2.40.

Bran—$25; shorts, $27; middlings, $29; mouillie, $30 to $34.

Hay—No. 2 per ton car lots, $15 to $15.50.

Cheese—Finest westerns, 15¼c to 15½c; finest easterns, 14½c to 15c.

Butter—Choicest creamery, 33c to 34c; seconds, 32½c to 33c.

Eggs—Fresh, 38c to 40c.

Potatoes—Per bag, car lots, $1.65 to $1.70.

Dressed hogs—Abattoir killed, $10.75 to $11; do., country, $9.75 to $10.

Pork—Heavy Canada short mess, barrels, 35 to 45 pieces, $22.50; Canada short cut backs, barrels, 45 to 55 pieces, $22.

Lard—Compound tierces, 375 lbs., 8¼c; wood pails, 30 lbs., net, 8¾c; pure tierces, 375 lbs., 11¾c; pure, wood pails, 20 lbs. net, 12¼c.

Beef—Plate, barrels, 200 lbs., $14.50; do. tierces, 300 lbs., $21.50.

Liverpool Grain Prices.

LIVERPOOL, March 6.—Close—Wheat—Spot, steady; No. 1, 8s 6½d; May; futures, steady. March 7s 10⅞d; May, 7s 5⅝d; July, 7s 5d.

Corn—Spot quiet. American mixed, new, 6s ½d; American mixed, old, 6s 11d; new kiln dried, 6s 7d; futures, steady; March, 6s 1⅝d; May, 6s 1⅝d.

Flour—Winter patents, 28s 9d. Hops in London (Pacific Coast), £10 to £11 5s.

Buffalo Grain Market.

BUFFALO, March 6.—Spring wheat scarce; No. 1 northern, carloads, store, $1.18¼; winter dull; No. 2 red, $1.04 asked; No. 3 red, $1.02; No. 2 white, $1.

Corn—Firm; No. 3 yellow, 71¾c; No. 4 yellow, 69½c, all on track, thru-billed.

Oats—Strong; No. 2 white, 57c; No. 3 white, 56½c; No. 4 white, 55½c.

Duluth Grain Market.

DULUTH, March 6.—Wheat—No. 1 hard, $1.08¾; No. 1 northern, $1.07¾; No. 2 northern, $1.04¾ to $1.05¾; May, $1.07¾; July, $1.07⅞.

CATTLE MARKETS.

Montreal Live Stock.

MONTREAL, March 6.—At the Canadian Live Stock Market the receipts of live stock for the week ending March 2 were 600 cattle, 500 sheep and lambs, 720 hogs and 750 calves. The offerings on the market this morning for sale were 700 cattle, 100 sheep and lambs, 1600 hogs and 1500 calves.

There was no important change in the condition of the market for cattle, prices being steady, but as there were no choice stock offered, top prices were not realized, the highest being obtained for good steers being $6.50, and for choice cows $5.50, while the best bulls sold at $5 per cwt. The gathering of buyers was fairly large, and as they all wanted some stock, a fair trade was done, but the demand for the common and inferior was very limited and some of such were left over.

A steady feeling prevailed in the market for hogs and prices were unchanged from Monday's close. The supply was fair, for which the demand was good and sales of selected lots were made at $7.75, but light stock only brought $7.50 per cwt., weighed off the cars. The trade in calves was active, but as the supply was somewhat larger, an easier feeling developed in the market and prices ruled lower. The market for sheep and lambs was quiet and prices were unchanged.

Butchers' cattle, choice, $6.75 to $7; medium, $5.50 to $6.50; common, $4.50 to $5.25; canners, $2.75 to $3.25; choice cows, $5.25 to $5.50; medium, $3.75 to $4.75; bulls, $3.75 to $5.75; milkers, choice, each, $75 to $80; common and medium, each, $50 to $65; springers, $30 to $45.

Sheep—Ewes, $4.75 to $5; bucks and culls, $4 to $4.25; lambs, $6.75 to $7.

Hogs—F.O.B., $7.50 to $7.75.

Calves—$1.50 to $8.

East Buffalo Cattle Market.

EAST BUFFALO, March 6.—Cattle—Receipts, 375; market, quiet, steady; prime steers, $7.50 to $8; butcher grades, $3.50 to $7.

Sheep and Lambs—Receipts, 5000; market, active, lambs, 10c higher; choice lambs, $7 to $7.25; cull to fair, $5.50 to $6.90; yearlings, $5.75 to $6.25; sheep, $2 to $5.50.

Hogs—Receipts, 2550; market, slow and easy; yorkers, $6.75 to $6.90; pigs, $6.25; mixed, $6.80 to $6.90; heavy, $6.75 to $6.85; roughs, $5.50 to $6; stags, $5 to $5.50.

Chicago Live Stock.

CHICAGO, March 6.—Cattle—Receipts, 19,000; market steady; beeves, $5 to $8.85; Texas steers, $4.70 to $6; western steers, $5.10 to $7.10; stockers and feeders, $4.60 to $6.20; cows and heifers, $2.25 to $6.70; calves, $6 to $8.50.

Hogs—Receipts, 41,000; market strong; light, $6.30 to $6.57½; mixed, $6.20 to $6.60; heavy, $6.30 to $6.60; rough, $6.30 to $6.40; pigs, $4.70 to $6.25; bulk of sales, $6.50 to $6.55.

Sheep and Lambs—Receipts, 22,000; market 10c to 20c higher; native, $3.70 to $5.30; western, $4.20 to $5.50; yearlings, $5 to $5.35; lambs, native, $4.90 to $7.25; western, $5.40 to $7.35.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of
Chas. H. Fletcher.

The Kind You Have Always Bought
In Use For Over 30 Years
THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

Lady Betty Across the Water

By C. N. & A. M. WILLIAMSON

Copyright, 1906, by McClure, Phillips & Co.

The whole table decoration consisted of cats, vases made of cats, flower arrangements shaped like cats, and a little gold cat with emerald eyes for each woman to take away with her, so she wouldn't forget the lunch, in a hurry. And would you believe it, not one of them saw the joke until Smart Sayings got hold of it and published an account of the function next week."

"What did the women do?" I asked.

"Nothing but feel cattier than before. She's richer than ever now, for she's married a man worth twenty millions, and the first thing he did was to give orders to Celeste, her dressmaker, to turn out two new dresses for his wife every week of the year without fail, not one of them to cost less than $250. It was such a strain on Celeste, thinking of new ideas, that she had to give it up after the first year, though it nearly broke her heart."

"I should have thought it would be a strain having the dresses to wear," said I. "Fancy getting passionately attached to one frock, but never being able to wear it more than once or twice on account of your duty to the new ones always coming toward you in a long, relentless procession, down the years. I should hate it."

"I wouldn't," said Mrs. Taylour. "I can't have too many new things, and I always change each scrap of furniture and decoration in my own rooms every year so that Mr. Taylour won't get tired of them. He's such a nervous man. But you'll meet Cora Pitchley at Newport. Her house is there. She's a type of an American woman, just as bright as she can be. Her second husband was a wholesale dry goods man years ago, but most people have forgotten that, now he's worth his millions, and he's got the most gorgeous place, quite like one of your old castles. The worst of it is his mother lives with them, and when she was showing the bride—Cora—over the house (which was decorated pretty weirdly for the first wife), the old lady kept explaining: 'This is the Louise Seize room; this is the Queen Anne room.' Cora just looked at the things and said, 'What makes you think so?' Smart, wasn't it? But Cora's changed everything inside the house now. She loves change. She's even changed her birthday, so as to have it in leap year; and as for her mind, she changes it entirely at least six times a day; says that's why women have nicer minds than men; they change them oftener. But I've gossiped enough about a person you don't know, Lady Betty. Let's talk about England. I run over to Paris for a month or two most years, but I've only been twice to England. I did all the sights, though; didn't miss anything. I gave four days to London alone. Candidly, I don't think your women dress nearly as well as we do, or hold themselves as well, but perhaps you're more feminine looking, taking you all in all. I don't mean anything personal of course. But I do think your men are lovely. I met a perfectly charming member of parliament, and he invited me to tea on the terrace. Such strawberries and cream! But I'm afraid I hurt his feelings. I said I couldn't help thinking 'house of commons' a most insulting name, and if we called our senate anything like that we couldn't get an American man who respected himself to go into it. But English people are so queer. They don't seem to mind admitting that there is a class above theirs."

"Betty doesn't need to know anything about that," said Mrs. Ess Kay. "She is on the highest pinnacle."

"Oh, dear, no," said I. "There are the royalties."

"Don't you think you are just as good?" asked Mrs. Taylour.

"I never thought about it in that way," I answered stupidly. For, of course, I hadn't.

"Surely you don't bob to them?"

"Indeed we do," I protested.

"Well, then; I wouldn't," said Mrs. Taylour firmly. "I'd have my head cut off first, especially before I'd curtsey to a man."

Quite a color flew into her face as she asserted her independence, and Mrs. Ess Kay must have seen that the invalid was getting excited, for she rose quickly to go.

"Come, Betty," said she, and I came.

The lift plunged us down through the inner workings of the skeleton. I had the sensation that it was dropping away from under my feet and that as I dangled above it, like a wabbly little balloon, my head had been left behind somewhere near the top. But I didn't leave my heart behind in Mrs. Taylour's flat.

Chapter 8

I WAS anxious to travel in an American train, so Mrs. Ess Kay said we might go by rail to Newport instead of by boat as she had intended. I know it was very wrong in principle, but when we got to the Grand Central station (or depot, as perhaps I ought to call it) I did wish that slavery existed again so that I could have bought two or three of those delightful cafe au lait colored porters in gray livery and red caps. There were several I would have given anything to have to take home with me and make pets of, but I suppose even if they had been for sale they would have come too expensive, and I should have had to give them up, for their eyes alone, to say nothing of their pleasant white grins, would have been worth pounds and pounds.

To be continued

SANOL

The new discovery will positively remove Gall Stones, Kidney Stones, Gravel in the Bladder, and will effect a complete Cure. It will dissolve and remove stones without pain, and there is no necessity for an operation in the future, as Sanol will cure in every case no matter how long standing the disease may be.

SANOL will be found particularly valuable in old cases of Kidney and Bladder diseases.

SANOL is a preparation of herbs and herb extracts, and contains no poisonous ingredients. It's use, therefore, cannot possibly harm either the stomach or intestines.

Sanol per bottle $1.50

Get it from McDERMID & JURY, Druggists, Peterborough, or direct from The Sanol Manufacturing Co., Winnipeg, Man.

Miss Bella McFarlane — Mexican Girl.
Miss Margaret Esson—Iphegenia.
Mrs. Stewart McIntyre—Old Woman.
Mrs. Fred A. Esson—British Emblems.
Mr. George W. Fife—Actress.
Mr. Chas. Nelson—Cadet.
Mr. Fred Moore—Foreigner.
Mr. Albert Speers—Courter of 1865.
Mr. Daniel C. Hope—Sailor Boy.
Mr. Herb. Howson—Clown.
Mr. Harry Hastie—Dude.
Mr. Stewart McIntyre—Aunt Samantha.
Mr. Wm. Warmington—Lord Chesterfield.

The successful winners of prizes were Mrs. Fred A. Esson, best dressed lady, and Mr. Wm. Warmington, best dressed gentleman.

Don't forget the annual skaters' dance which will be held on Friday evening, March the 15th. The usual good time. Everybody welcome.

The Rev. Mr. Johnston, of the Keene Methodist Church, spent a few days in Tweed, the guest of his daughter, Mrs. Gordon.

Mrs. T. B. Sharpe and daughter, Miss Dorothy, of Prince Albert, are the guests of Mrs. Sharpe's parents, Dr. and Mrs. Harrison.

FRASERVILLE

Mrs. Fred Clarke Teacher of Adult Bible Class

Special Correspondence.

Fraserville, March 6.—A social evening was held in the Fraserville Methodist church Thursday evening, Feb. 29th, for the purpose of organizing an Adult Bible Class, which met with quite a success, there being twenty-two chartered members on the roll.

A choice program was rendered consisting of readings, recitations and music. Refreshments were served at the close of the meeting.

The following officers were elected by ballot;

Teacher—Mr. Fred Clarke.
President—Miss Janet Waterman.
Vice-President—Mr. Ray Finlay.
Secretary—Miss Lulu Hogg.
Treasurer—Mr. Fred Lewers.
Membership Committee — Mrs. A. Kidd.
Devotional Committee — Mr. Jos. Madill.
Social Committee — Mrs. F. Clarke.

Visitors or any wishing to become members will be made quite welcome by the class.

Mr. Joe Waterman, of Lindsay Collegiate, spent Sunday at his home here.

Miss Bertha Wyatt, Mrs. Bert Wood and children left last Tuesday for their home at Melita, Man.

Mrs. D. Sutherland left last week for New York en route for England, where she expects to spend the summer.

Mrs. J. G. Latimer has returned home from Toronto, where she has been visiting friends for the past two weeks.

Mrs. (Rev.) White gave an interesting address on Mission Work in Japan last Sunday in the Sunday school. We understand it has been arraigned to have a missionary address once every month in the Sunday school.

BENSFORT NEWS

Special Correspondence.

Bensfort, March 6.—One of our young men was the victim of a rather unpleasant experience recently. While en route to Zion church, Otonabee, he collided with a pig and the animal became entangled in the rods of the cutter in which event an opening musical selection was rendered. The occupants found it necessary to decamp until the porker had freed itself.

Messrs. Kenneth Moncrief and Reginald Perrin took a couple of sleigh loads of our young folks to Mr. Harry Dawson's of the Bailieboro district a few evenings ago when a very pleasant evening was spent in music and dancing.

Mr. Lancelot Nicholson has returned to his home here after having spent the past few months visiting friends in England.

Mr. Harry Jackson, of Saskatoon, Sask., who has been visiting his parents in this neighborhood during the past few months has left for home.

Mr. Samuel Bonner, also of Saskatchewan, has left for home, taking with him a bride.

It's Coming Soon !

Watch for the Free Taylor's Soap Coupon

It will appear in this paper on Saturday. The wonderful offer which we are making on Saturday is going to cost us thousands of dollars, but we know once you try Taylor's Borax Soap, the famous Laundry Soap and Infants' Delight, all other soap will be discarded from your home. **Taylor's Infants' Delight** is the most perfect Toilet Soap in the world whether you use it for the bath, shampoo, for babies' skin, or for any other Toilet purpose. We are going to buy you a 10c cake to show what a rich foamy lather it makes, how it wears as thin as a wafer, how perfectly it cleanses and how soft and smooth it leaves the skin.

Watch for the Free Coupon

that is coming, take it to your grocer and buy 25c worth of Taylor's Borax Soap and he will hand you a full size cake of Infants' Delight **Absolutely Free.**

TELEGRAPHIC BRIEFS.

Comparative quiet has been restored at Pekin.

Rev. F. Day, an English missionary, was killed by mutinous soldiers at Paotingfu.

John Foster was fatally injured while working at a drill on a farm near Dunnville.

Roland Johnston of Lansdowne died of heart failure in the caboose of a freight train at Belleville.

The London police are scouring the metropolis for Miss Christobel Pankhurst, whose whereabouts are still unknown.

For the first time in history a dirigible balloon was used for scouting purposes at Tripoli. Bombs were dropped into the Turkish camp with deadly effect.

A well authenticated report has it that several Cabinet changes soon will be made by President Madero, to appease the discontented elements in Mexico.

Wm. Seaborn was found guilty yesterday at London of burglazing the store of William Stevely & Sons and was sentenced to six months in the Central Prison.

Mrs. Agnes Ross, widow of the late Hon. A. M. Ross, Provincial Treasurer in the Administration of Sir Oliver Mowat, died last evening at her home, 13 Madison avenue, Toronto.

It is announced that a cruiser fleet of six small ships and four Dreadnoughts are to be transferred in April from Kiel to Wilhelmshafen, and will be permanently station in the North Sea.

An attempt will be made to release the Turret Cape, wrecked in Georgian Bay last fall.

Four hours' debate in the United States Senate yesterday seemed to indicate that the pending arbitration treaties with Great Britain and France probably would be ratified late to-day.

Satisfied Policy-Holder

[COPY]

Toronto, March 1st, 1912.

W. H. HILL, ESQ.,
Manager,
Sun Life Assurance Co.,
Peterborough, Ont.

Dear Sir,—I wish to thank the Sun Life Assurance Company, through you, for the prompt and very satisfactory settlement of my 15 year Endowment Policy, No. 64345, which matured and was paid me to-day.

I have also a 15 year Endowment maturing to-day in a leading British Company.

The contrast, in the results, in favor of your Company is so marked that I want you to know it, but I am at a loss to know how such a difference could honestly occur. When I tell you that the profits in your Company are **three and one-third** times the profits in the other Company referred to, and this too notwithstanding I paid the other Company $1.15 per year more per $1000 than I paid you, you will realize my inability to comprehend the cause.

This is surely a tribute to the management of the Sun Life, and I am so well pleased I have applied for further insurance with you.

Incidentally, I would like to say a word for your loan privilege. As you are aware, I borrowed some money on my policy, a little over a year ago, which enabled me to obtain a substantial interest in a town site in the Northwest, and you will be pleased to learn that it has already yielded substantial gain and gives promise to pay hundreds per cent., so that it is impossible to fully realize the value of that Policy to me.

I thought as an old Peterborough boy you would be pleased to know I am delighted with the result.

Yours truly,
(Signed) ROBERT E. DOLAN.

Some Causes of Eyestrain

Eyestrain is the most common form of headache in children, and may come without apparent reference to any over-use of the eyes. It may be located near the eyes or in parts of the head away from them. It warns us that too great tension is being put on some part of the nervous system. A slouching, lounging posture in reading may bring about marked eye strain. The head bent forward with the chin resting on the breast obstructs the flow of blood from the head. Any congestion of lids or inflammation however slight, itching of the lids, burning of the eyeballs, and styes, singly or in crops, should call your attention to the necessity of careful and efficient examination into the refractive condition of the eyes.

Our Optical Parlor is up-to-date in every detail. All our work is guaranteed, and all lenses are ground on the premises. Consultation free.

EARLY MORNING DISTURBERS PAY FOR THE MISTAKE

Fine of $8.75 Was Imposed on Trio of Disorderlies

Michael Edward O'Brien, of Kingston, Henry Wyatt and James Murphy, were disturbing the peace on Charlotte street about two o'clock this morning and they were arrested. They were fined $5 and costs, amounting in each case to $8.75, in police court this morning on charges of being drunk and disorderly.

They rattled on Mrs. Morin's door, on Charlotte street, about 2 a.m., and frightened her. She lives alone in apartments over McDermid & Jury's drug store.

"Could it be possible that they missed the place they were in search of?" asked His Worship. "Probably they were mistaken in the doors." The chief did not offer any suggestions as to where they might have been headed for.

Alberta Publicity Car at Peterboro March 13th

The Camrose Publicity Club have arranged for a special Grand Trunk Pacific Tourist Car to contain the exhibits of the province of Alberta, to tour Eastern Canada with a view of attracting further settlement to that province.

This car will arrive in Peterboro at 8.10 a.m., March 13th., and will remain on the station siding at the Grand Trunk Depot until 5.35 p.m. the same day.

Everybody interested in this great country are cordially invited to pay this car a visit.

Remember the Charlotte St. Church Mission Band Sale Friday Evening, March 8th. Admission 10 cts.

LADY FORESTERS HELD CONCERT

The annual concert and "At Home" of the Queen Alexandra circle, A.O.F., was held last night in the S.O.E. hall. His Worship Mayor Bradburn presided, and the "At Home" was in every respect a decided success.

After the program refreshments were served by the ladies of the Queen Alexandra Circle.

SAD CASE IS BROUGHT TO LIGHT

Mother Has to Provide All Necessities for Family

The attention of the Relief Officer has been called to the particularly sad plight of a family in the north end, who are strictly up against it as far as worldly wealth is concerned. The husband, owing to paralysis, is unable to earn a living, leaving the burden of supporting the family to bear upon his wife. There are several young children also to provide for. The mother has been able to earn small sums by plain sewing. It appears that the family were loath to ask for charity from the city.

MINSTREL SHOW BY BUGLE BAND

Performance Will be Given at Armories To-morrow Night

The long expected performance of the Bugle Band Minstrels will be given in the recreation room of the Armories to-morrow night, and the general public are invited to be on hand. The boys have been rehearsing for considerable time and are confident of providing a big night's entertainment. The program is along the usual lines, being made up of choruses, monologes, instrumental and vocal numbers, interspersed with features which promise to make a hit. There is no charge of admission, but a silver collection will be taken up.

WHO'S COMING AND GOING

Mr. Robert Fair is the guest of friends in Millbrook to-day.

Mr. McGee, 503 Sherbrooke street, left for Toronto this morning.

Mr. Finch Miller, Indian agent, is in Chemong to-day on business.

Miss Johnston, of 316 Dublin street, city, left this morning for Winnipeg.

Mrs. Harold Tanney, of Galt, Ont., is visiting her parents on Charlotte street.

Miss Laurral Webster has returned to Lakefield after spending a few days in the city.

Mrs. D. W. Porter, of London street, is visiting friends in Oshawa for a few days.

Mrs. H. A. Porter, King street, has returned to the city after spending a couple of weeks in Toronto.

Mr. Harry Soanes, manager of the Bell Telephone Company at Tweed, was in the city yesterday.

Mr. J. W. McGibben, of Troy, N.Y., is the guest of Mr. and Mrs. Manson Comstock, 219 Sherbrooke street.

Mrs. (Dr.) McWilliams, who has been stopping with friends on her return trip from the West, left for her home yesterday.

Rev. Geo. McConnal, of Manville, Alberta, left for his home to-day, after a pleasant visit with friends in the city and vicinity.

Mr. J. S. Gould and Miss Lily Gould, who have been visiting Mr. and Mrs. J. S. Knapman, George street, left for Toronto to-day.

Major G. W. Bennett, of the 57th regiment, will attend the examination in the militia staff course, at Toronto on March 28th and 29th.

Rev. Canon Davidson, of St. John's Anglican church, is in Millbrook today, and will deliver an address in the Millbrook church.

Miss Hewitt, who has been the guest of her sister, Mrs. W. C. Ackerman, 380 Park street, left for the west this morning.

Mrs. Parker, of Peterborough, was the guest of Mr. and Mrs. J. T. Vosper for a few days of the past week.—Millbrook Mirror.

Mr. Arthur Rusaw, of Peterborough and Miss Maturia Vandeburg, of Norwood, spent a few days last week at the home of Mr. James Wannamaker.—Campbellford Herald.

Mr. C. Kelman of the Bell Telephone Company, has been promoted to the position of local plant chief, left vacant by the removal of Mr. Harry Soanes, to Tweed, Ont.

Miss Rennie, head milliner at Robt. Fair & Co., Ltd., returned last evening from a fortnight's sojourn in the wholesale millinery markets and the recent openings at Toronto.

Miss Nellie Gould, of Lindsay, who has been visiting Mr. and Mrs. J. S. Knapman, George street, has gone to Winnipeg, where she will spend a few months.

Mrs. John Bruce, of Toronto, who will address the meeting of ladies in the armories to-morrow, in the interests of the Daughters of the Empire, is the guest of Mrs. (Rev.) J. C. Davidson while in the city.

The vocal recital by Miss Howell, of Peterborough, to be held in St. Andrew's church, Burnbrae, on March the 8th, promises to be a treat. Everybody welcome, and a large crowd is expected.—Campbellford Herald.

Mr. and Mrs. John Maynard, of Campbellford, announce the engagement of their second daughter, Miss Gladys, to Mr. D. Morley Stafford, Vancouver, B.C., only son of Mr. and Mrs D. T. Stafford, Rednersville, Ont. The marriage will take place in Vancouver, B.C., the end of March.

Miss A. Gillespie, Miss McIntosh and Miss L. Allen, of the millinery trimming staff at R. Fair & Co., have returned from Toronto, where they were engaged in spring preparations for the department at the Golden Lion.

The St. George's choral society will practice at Coleman's, 426 George st., on Friday, March 8, at 8 p.m. sharp.

WHY Everybody Is Looking TO BIGGAR

The Base of Grand Trunk Pacific Operations in Saskatchewan

BECAUSE
It has Unexcelled Railway Connections — Two Transcontinental Lines and Three Branches
Divisional Point on G. T. P. Main Line Terminal Point for Branches
Natural Flow Pure Water — One and a Quarter Million Gallons Daily
Magnificent Climate
Splendid Site: Rising on both sides from the railway in gentle slope
Good Drainage
Abundance of Fuel
Large Supply of Timber (sawmill already working)
Vast Area of Arable Land
Mineral Waters of its Lake (6 miles long) — a Sure Attraction to Tourists and Health Seekers
Rapidly Increasing Population in the town and also in the surrounding country

THE LARGE EXPENDITURE FOR CIVIC IMPROVEMENTS NOW UNDER WAY IS EVIDENCE PAST THE PERADVENTURE OF A DOUBT OF THE PROGRESS MADE IN THIS NEW CENTRE AND CONSTITUTES A GUARANTEE OF ITS FUTURE

WEDDING BELLS

CRAWFORD—JORY

The Methodist church, Lakefield, was yesterday afternoon the scene of a quiet and pretty wedding, when Miss Ruby May Jory, daughter of Mr. Edward Jory, "Fairview Farm" and Mr. Wellington Crawford, Lakefield, were united in the holy bonds of matrimony. Rev. H. C. Coon, the pastor performed the wedding ceremony.

The bridesmaid was Miss Laura Jory, sister of the bride, while the groom was assisted by his brother, Mr. Richard Crawford.

The bride was becomingly attired in a navy blue travelling suit and black hat.

Mr. and Mrs. Crawford drove to Peterboro to the 4.28 C.P.R. train. They left for Regina on an extended wedding tour.

ST. PAUL'S CONGREGATION FAVOR UNION

Vote on Sunday Was 203 for and 108 Against

Only Four of Twenty Elders Marked Ballots Against

The congregation of St. Paul's Presbyterian church voted on church union last Sunday, and the result, which has just been announced, is in favor of church union. There were 311 votes cast, 203 in favor of the union and 108 against it. Sixteen of the elders voted in favor of union and only four opposed it. While only a little over a third of the members responded to the invitation to vote on the question, the pastor, Mr. R. Pogue, believes that the interpretation of this indifference should be that the great majority of the members do not feel sufficiently strong against it to oppose the amalgamation by their votes, and that therefore, should the union be brought about, they can be counted upon to fall in line and join, and support the now church. The vote of the elders 16-4 in favor of the union is very significant, showing that the officials of the church are decidedly in favor of the proposed union.

THE VOTE ON CHURCH UNION AT GEORGE ST.

The question of church union was voted on by the Quarterly Official Board of George street Methodist church last night, but the expression of opinion by absent members not yet received, holds back the announcement of the result.

THE FOUR LEAFED SHAMROCK BY T.A.S.

On March 18th the dramatic section of St. Peter's Total Abstinence Society will give a play entitled "The Four Leafed Shamrock," with specialties.

As March 17th falls on Sunday this year, the performance is being given on the Monday following in St. Alphonsus Lyceum.

AUTOGRAPH QUILT AT $100

Young Ladies Class at Charlotte Street Are Workers

The autograph quilt made by Mrs. G. J. Tovey's young ladies' Bible class of the Charlotte street Methodist Sunday school has been disposed of. Over $100 has been realized over and above all expenses in connection with it, to say nothing of the many happy hours spent in its making.

The proceeds have been devoted to charitable purposes in the city.

THE POSITION IS ABOLISHED

The statement made in the Examiner that the department at Ottawa is besieged with applicants for the position vacated by Mr. Geo. Elliott, is absolutely untrue. This position has been abolished, never having been necessary, and was only made tenable growing out of certain circumstances in connection with irregularities in the service.

The Name Please

A correspondent sends a communication to the Review, regarding Halls, but neglects to sign his name, which is necessary, although not for publication.

In seven cases out of ten, when people are indignant, there is no remedy.

WEDDING BELLS

POWERS—ARNETT.

Toronto, March 7.—The Parkdale Presbyterian church was the scene of a quiet wedding at half-past ten o'clock yesterday morning, when the marriage took place of Miss Laura Arnett, daughter of Mr. and Mrs. Lewis R. Arnett, to Mr. Wilfred B. Powers, of Trenton, Ont. The ceremony was performed by the pastor, Rev Logan Geggie, in the presence of the immediate relatives and friends. The bride, who was given away by her father, wore a travelling suit of blue whipcord, with white facings and white hat, lined with black fox furs and corsage bouquet of lillies of the valley. Miss Hope Arnett was her sister's bridesmaid, wearing a mauve suit, trimmed with black satin and white beaver hat, with white satin bow and bouquet of violets. Mr. Walter Brett, of Trenton was best man.

Dejeuner was afterwards served at the home of the bride's father, in Melboruene avenue. Mrs. Arnett was wearing an apricot broadcloth gown and black beaver hat. Mr. and Mrs. Powers left later to spend their honeymoon in New York, before going to their home in Trenton.

REVOY—ARSCOTT.

A quiet wedding was celebrated in Douro on the evening of March 6th, at the home of Mr. and Mrs. Francis Arscott, when their adopted daughter, Myrtle Rose, was united in marriage to Mr. Sidney Revoy, of Peterborough, in the presence of a number of relatives and friends, Rev. J. E. Fee officiating. The bride was attended by her sister, Miss Ethel May Nurse, of Emily, while the groom was supported by Mr. Howard Arscott, of Fenelon Falls. Mr and Mrs. Revoy will reside in East City.

A Big Masquerade Carnival will be held in Lakefield Rink on Friday evening, March 8th, under the auspices of the Presbyterian W.F.M.S. 2d

THREE CHILDREN FOR THE SHELTER

Lonsberry Case Renewed and Settled by Magistrate Edmison

County Magistrate Edmison was in Norwood on Tuesday where a couple of cases claimed his attention.

The Lonsberry family were again in the limelight. The family consists of the parents and three children, the youngest of whom is a little girl of about five. Some months ago, the parents agreed to separate, having found it difficult to navigate the journey of life together on troubled waters. From the story of the wife, hubby failed to love her, and provide for her sufficient of the necessities of life. Since then the troubles have been hanging fire, and the case cropped up lately with the resultant hearing of it yesterday.

SHELTER FOR CHILDREN

The three children were taken off the hands of the parents and will be placed in the Children's Shelter. The parents raised no objection and appeared to be glad that they would not be encumbered with them any longer.

The husband and wife will have to get along as best they can together.

Mrs Lonsberry in Norwood has the name of being a hard worker and willing to do whatever she can to earn a living.

MADE UP AGAIN

The other case heard was the one in which a resident of Dummer laid information against his wife, charging her with stealing.

His better half, accompanied by her brother left her husband, according to the evidence, taking some household articles with her, and their one child. The three went back to some relatives in the northern part of the country.

At the trial yesterday, the wife agreed to return and live with her husband.

G. N. Gordon was present in the interests of the defendants.

COMPETITOR TO THE ROUND-UP

The best proof that a theatrical attraction has merit and that theatregoers want it is its continuous success from season to season. In these times of epicritical audiences and exacting dramatic writers a play that stands the test must possess more than ordinary merit, and this can be said of "The Stampede" For two seasons it has met with great success, both artistically and financially. A. G. Delamater, one of the best known of the prominent New York producers, has given this De Mille play a massive scenic investure. It calls for scenery of the most elaborate kind and he has spared no expense in making it a fit competitor to "The Roundup" or "The Squawman." It would remind one more of a Belasco production so carefully has every single effect been taken care of. De Mille used a most interesting incident for his theme—the land grabbing expose in the United States Senate some time ago—than in any drama in which the Indian predominates, and consequently it is of more dramatic interest. Delamater has placed at the head of a most competent cast Lillian Buckingham, a Western actress of note, and she will be seen in the part of an Indian girl, who for her people sacrifices her own love and happiness. It is a gripping, vital play of intense interest, set in the highest example of modern stage art.

The seat sale opened at the box office this morning.

Half the world does not know how the other half lives, but is trynig to find out.

OPERATIONS OF THE ELECTRIC POWER COMPANY

Three Generators at Work in Auburn Power House

Work on the Electric Power Company's system, in the Trent Canal district is steadily progressing. Three 600 kw. generators are now in operation in the power house of the Auburn Power Company. Part of the power generated in this station is delivered in Peterborough, and the remainder is now being transmitted over the 44,000 volt transmission line, which connects Peterborough with Port Hope. The total length of the 44,000 volt transmission line on the Electric Power Company's system has now been brought up to about 250 miles. The Millbrook and Newcastle substations have recently been placed in operation. Transmission lines are now being extended to Napanee and Lindsay and it is expected that power will be delivered in Napanee before the end of March and in Lindsay early in the coming summer.

Contracts have been awarded for all the equipment for the new power house at Dam No. 5 at Frankford, Ont. Construction of this power house is being rapidly pushed and it is expected that it will be in operation early in the summer. The equipment consists of four 600 kw., 60 cycle 3 phase, 6600 volt, vertical shaft generators at 112 1-2 r.p.m., (manufactured by the Swedish General Electric Company, who will also furnish one turbine driven and one induction motor driven exciter for this power house.; The Canadian Boving Company will furnish three 75 kv.a. transformers, and the Monarch Electric Company of Montreal, the switching equipment and cables. Power is generated at 6600 volts and transmitted about four miles at this voltage to the transforming station of the Sidney Electric Power Company where it is stepped up to 44,000 volts for distribution over the Electric Power Company's system.

ROWDIES HAD WORDY BATTLE

Waiter in Cafe Took One in the Eye.

A scrap occurred last evening in the Dominion Chinese Cafe about midnight, the excitement running high while the fracas was in progress. About half a dozen young men were dining when some hot words began to flow, induced, it is said, by too liberal doses of whiskey. One of the Chinese waiters received a decorated eye in the melee, but a policeman who happened along soon dispersed the crowd of merry-makers.

STANDING FOR CHURCH UNION

Presbyterians Not so Strong as Methodists on Question

PRESBYTERIAN VOTE.

Presbyterian congregations throughout Canada that have voted on the union of the Methodist, Presbyterian and Congregational churches, 172.

Number of Presbyterians who have voted on the question...... 10,482
Number of ballots cast in favor of union...... 8,302
Number of ballots cast against union...... 2,180
Majority for church union. 6,122
Proportion is 3.80 members to 1.

METHODIST VOTE.

Number of quarterly official boards of Methodist churches throughout Canada that have voted on the proposed union...... 103
Number of ministers and officials who have cast their ballots on the present proposed basis........... 2,687
Number of ballots cast in favor of union...... 2,448
Number of ballots cast against union...... 239
Majority for church union... 2,209
Proportion is 10.24 officials to 1.

UNION NOT CERTAIN.

That union of the Presbyterian, Methodist and Congregational churches of the Dominion will not be brought about by the present campaign and voting is almost evident by the figures given above, which have just been compiled on the vote as polled to date. The Methodist ministers and officials are decidedly in favor of the amalgamation, but the Presbyterians are not satisfied with the proposed basis of union, or as a matter of fact with union at all just now, and as the returns increase in number, the proportion in favor decreases. At one time the proportion stood almost six to one, but it has now dropped to almost half that number.

From present indications Ontario Presbyterians will about split even on the proposal, but the West will pile up a large majority for the amalgamation.

It is remarkable to note that out of 13,169 votes cast on both sides, 10,750 were marked with a cross beside "for."

MUST BE BIG MAJORITY.

Before the Presbyterian General Assembly will give the matter serious consideration for definite action the majority must be so great that there will be no doubt as to the feeling. Probably ten members to one will be the basis upon which the feeling will be calculated.

"It must not be less than five to one anyway," states Rev. Dr. R. P. MacKay, moderator of the general assembly. "The vote must show a very strong majority to justify the Presbyterian church proceeding with the union."

Rev. Dr. Carman, superintendent of the Canadian Methodist church, has also stated that the vote on the part of the Methodists must be large and more than five to one in favor before it can be considered seriously.

SUCCESSFUL SALE

Greatest Wall Paper Sale Held

OUR SUCCESS HAS SURPASSED ALL PREVIOUS RECORDS

We keep a variety in cheap high-class goods, second to none in Canada. We invite you after looking elsewhere to try us, with length and width of your room and we will tell you the cost — Either at our Peterborough Store at 379 George St., or at Toronto, 262 Queen St., West. Large buying enables us to give you prices not possible outside of large cities. There are only seven firms in our Dominion who can buy over twenty thousand dollars worth of Wall Papers per year, and we are proud to feel that we rank as fourth largest of the seven. The smallest buyer of seven has the same advantages as the largest as all that is required to get the low price is that the purchase amount to ten thousand dollars — Our purchases amount to over that with one firm's goods, not mentioning our purchases of American, English, German, French and Japanese manufacture, which we stock very largely. We would ask you again to examine carefully before making your purchases.

Toronto 262-4 Queen W. **C. B. Routley** Peterboro 379 George Street

Poultry Association

The regular monthly meeting of the Peterborough Poultry Association will be held on Thursday night at 8 o'clock in their hall, Simcoe street. A full attendance of members is requested, and anyone wishing to bring birds may do so, no matter what variety.

ABSTAINERS GOT AWAY TO GOOD START BUT FELL BEHIND ON THE WAY HOME

Locals Had the Score 3-0 Their Way in First Half

Laekfield Scored Five in the Last 16 Minutes of Play—Final Score 7-3.

The local Abstainers got away with the small end of a 7—3 score at Lakefield last night and thereby lost the round in the Trent Valley semi-finals. The half-way figures stood 3—0 in favor of the cold water brigade and the Cementville aggregation scored seven in the last half and five of these in the final sixteen minutes.

The Abstainers went to Lakefield last night with a two goal lead, obtained on Monday night in the first first game in a series to decide which team should go into the finals of the Trent Valley League against Marmora.

HOW THEY LOST.

An injury to Captain Lansfield and the inability of some of the T. A. S players to hold their temper at critical stages lost the game to the locals. Their team is superior to that of the northern village, but the Cementville seven are used to working in the "poorest excuse for a rink, the local Trent Velleyists have been asked to play on." It is indeed a hardship that the local team should be compelled to play on such a rink in a game of importance such as the one last night. The other teams in the league managed to shun it, Marmora and Hastings for instance.

Though the game last night was never a runaway affair it was not the kind of hockey that is interesting to watch. There was not one goal of the ten scored on a clean rush. In fact, the locals, not being accustomed to such small quarters, were rather nervous about skating fast, as a man was liable to get telescoped at the opposite end of the rink about the the time he got up speed. It was an easy matter for any one of the players to oust the puck from end to end.

Six of the local players went to Lakefield on the 5.40 G.T.R. train yesterday evening. "Bill" Meagher was expected by bus later in the evening. He could not get away, however, and at Lakefield it looked as though the Abstainers were going to be up against it. The game was called for 8.15 p.m. and the crowd gathered promptly, to the number of about four hundred. At that they were perched on the rafters and every available space was utilized. At 9.15 p. m. "Chuck" Callaghan was persuaded to don a T.A.S. uniform and give battle to the enemy. Callaghan played right wing while Coughlin was shifted to centre ice where he played rover.

"CHUCK" WORKED WELL.

The change worked good as Coughlin played his best game of the season in his new position. Callaghan''s shots were very effective. He scored two of the three local goals and proved a worthy substitute.

"Doc" McFadden got shots high and low and from all angles and in the first half was unbeatable. He also assisted in the game of shooting from any place. He made some good heaves at Hill, who left that part of the play to the rest of his teammates. The two Lansfields made a splendid defence and they worked all the time. When Tom got hurt, he was greatly missed by his teammates.

Grover Halpin got one goal. His usefulness was lessened by his frequent lengthy sojourns on the sidelines. Odette checked hard, but seemed lost on his wing as there were no boards to play.

For the "homebrews" Hill, Blewitt and Crawford were the pick of the seven.

They were the most effective with their shots, Hill and Blewitt each getting two goals. Simpson loafed considerably as is his habit.

There were about thirty local rooters on hand to cheer for the Abstainers, while they were winning, but they deserted their team when the score went against them.

The following is the story of the fray.

THE PLAY.

Play started at a "do or die" pace. Lakefield opened by shooting from wherever they got the rubber, and the cold water brigade returned it in the same manner. The result was that there was not a fair shot on either goal for fully fuive minutes.

Callaghan was chased for slashing, and Halpin for tripping. On Callaghan's return he scored on a fine beautiful lift from the wing.

Roe and Callaghan began to mix it up, and they were both put out of the game for a while. In fifteen minutes more Halpin made the lead still greater when he beat Hill with a long one after the puck had been in the vicinity of the Cementville seven for several hot scrimmages. Four minutes later Callaghan got the last T.A.S. goal on a shot similar to that which beat Hill before.

There was no more scoring before half time, and the Abstainers were five to the good on the round.

SECOND HALF.

In the second period the cold water brigade met its Waterloo. Roe got the first Lakefield goal on a lift from centre ice after two minutes playing. In five minutes more Simpson got the second, also on a long shot. By this time things were beginning to look interesting, and there was considerable of the rough stuff handed out by both teams. Roe evidently wished for applause from the gallery. He went after Tom Lansfield, the most effective man on the ice, and slashed him so hard over the cords of the ankle that he had to retire. It took a lot of time for the referee to persuade Simpson, the Lakefield captain, that he had to drop a man to serve Roe's penalty, but at last Hill, the wing man, went off for the four minutes, as well as Roe, who was dropped with Lansfield

With two men off there was more room for those left to perform and the goal tenders were both called on for saves. Penalties at inopportune times lost the game for the locals. The team missed Lansfield very much, but had the rest remained on the ice the Cementville seven could not have overcome their lead. As it was, Halpin deliberately followed a man down the rink slashing at his heels and ankles. He drew four minutes for it, and Callaghan offended in a similar manner about a minute afterwards, getting two minutes. Blewitt was lucky enough to locate the nets before either of them got back, tieing the score on the game. Lansfield then offended and was chased, and Hill beat McFadden when he shot from the left hand corner. This put his team in the lead, and it took all Rink Manager Morin's persuasion to keep the frenzied fans off the ice long enough for the teams then to finish the game. Before Halpin or Lansfield got back Hill located the nets for another, and the score was a tie on the round. Simpson made it 6—3 and Morin got the seventh and last goal, the score standing 7—3 at the finish and 10—8 on the round.

The lines-ups were:

LAKEFIELD.
Hill
Roe
Crawford
Blewitt
Morin — Simpson — Hill
Odette — Halpin — Callaghan
Coughlin
T. Lansfield
E. Lansfield.
McFadden.
T.A.S.

The following is a summary of the score:

First Half.

T.A.S.—Callaghan, 10 min.
T.A.S.—Halpin, 15 min.
T.A.S.—Callaghan, 4 min.

Second Half.

Lakefield—Roe, 2 min.
Lakefield—Simpson, 5 min.
Lakefield—Blewitt, 3 min
Lakefield—Hill, 2 min.
Lakefield—Hill, 2 min.
Lakefield—Simpson, 4 min.
Lakefield—Morin, 3 min.

PENALTIES.

T.A.S.—Callaghan 3, Halpin 2, E. Lansfield.
Lakefield—Roe 2.

From 9.25 p.m., the time at which Referee McElderry got them away, to the finish, he had a very busy session. It was not that the penalty list was large or that the off-sides were numerous, but the puck was being lost continually amongst the spectators. At almost every stop in the play the fans, who were ranged alongside the ice, would rush onto the playing surface and demand explanations. The rink manager worked overtime in an attempt to keep them off, but the temptation was too great.

Sixteen minutes before play was called, Roe got in his work on Lansfield and a twenty-five minutes' jangle ensued. Roe was dropped with Lansfield and, urged on by the spectators, Simpson refused to put another man off to serve Roe's four-minute penalty. When the question was at length settled it was another matter to find any ice space to play on, and the old matter was renewed. About the time everybody but hockey fans would have been abed, the fray was renewed. At 11.30 p.m., the time-keepers' watches indicated that they had been at it long enough.

The way the League series stand now, Marmora and Lakefield will play a sudden death game on the Brock street rink to-morrow night for the championship. From here it certainly looks like the Marmora seven for the honors. With R. Blomfield, formerly of the Lindsay Midgets on the line, the septette from the headquarters of the Trent Valley League certainly look formidable. Several of the team saw the T.A.S.-Lakefield game here on Monday last and they have the advantage of knowing the Cementville seven's style of play.

There has been a half holiday declared in Marmora for to-morrow, so that the team may bring practically the whole town to see the game. There will be a number here from Lakefield also. Most of the local fans will be heard shouting for Lakefield (when they have a chance.)

JACK LONDON OFF ON CRUISE

Ships as Mate on Fourteen Thousand Mile Trip

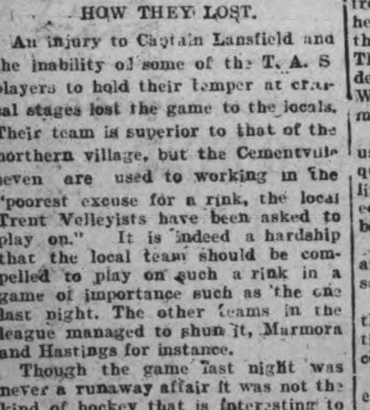
Baltimore, Md., March 7—The steel sailing ship "Dirigo" sailed on a 14,000 mile voyage to Seattle with Mr. and Mrs. Jack London and 4,576 tons of coal. The author and his wife shipped as mate and stewardess respectively, and their Japanese servant as messboy.

While Mr. London may be kept busy climbing the ship's ladders and washing decks, he takes with him his typewriters and a trunk full of paper for writing on the voyage.

THE RING

Rochester, N.Y., March 7 — Billy Allen is a sadly disfigured boxer today. Leach Cross made a chopping block out of him Tuesday night, and the referee stopped the fray in the fifth round to prevent a knockout.

Additional Sport on Page 7.



Application Lists open on Tuesday, March 5th, and will close on or before 3.00 p.m., on Tuesday, March 12th.

TRUSTEES

TORONTO GENERAL TRUSTS CORPORATION.

BIG FIELD FOR PROJECT

Most of the Cities of the United States, including Boston, Pittsburg, Cleveland, Detroit and Chicago, have properly equipped Arena Buildings, wherein there can be accommodated hockey, skating and other indoor winter sports, as well as the Horse Show, cattle shows, and all kinds of conventions, band concerts and other summer exhibitions. Yet, Toronto has presented the anomaly of a big city with a population of over 350,000 within its limits and as many more in its near vicinity, with no institution of the kind. Such an enterprise will be accepted with favor and supported with enthusiasm.

MANAGEMENT:

Mr. Lawrence Solman, who is well-known throughout Canada for his successful management of theatrical and summer amusements, has kindly consented to act as Managing Director.

HOCKEY AND SKATING:

Here is Canada, besides the ventures in Ottawa, Quebec, Vancouver and Winnipeg, in Montreal the Arena has since its inception in 1898 proved to be a magnificent success. Never has hockey been more popular and never have the attendances been so large. Not only has professional hockey flourished, but the College and Ontario Hockey Association games have been better patronized than ever.

Besides provision for public skating, it is proposed during certain hours, to run a skating club, on exclusive lines, similar to that of the Earl Grey Club, of Montreal.

HORSE SHOW Etc.

It is needless to remark how cramped the Canadian National Horse Show has been, the accommodation being totally inadequate to meet the demand in every direction. Stables for eighty horses have been included in the plans. Then again, there is the Auto Show, Pure Food Shows, Vaudeville Shows, endless conventions, band concerts and industrial exhibitions, for none of which Toronto has a properly equipped building.

ICE PLANT:

A new venture in connection with these undertakings is that a hundred ton artificial ice plant is being installed, under contract with the De La Vergne Company, dated June 23rd, 1911. This plant will not only maintain the skating ice during the winter, but will also manufacture fifty tons of ice per day for family consumption during the summer months. This ice plant will make it possible to always have, regardless of weather conditions, a cool building in summer and a reliable clear ice surface for all winter sports and an absolutely safe place for skating without exposure to severe cold. The profit on the sale of ice during the summer season will, it is expected, not only pay for the cost of running the ice plant during the winter, but furnish a very considerable revenue.

THE SITE:

The Arena Gardens Building has been erected on that block of land situated on Mutual, Shuter and Dalhousie Streets, and is accessible by the street cars from every point in Toronto. It is about seven minutes walk from the King Edward Hotel and the General Post Office.

THE BUILDING:

The building, from plans prepared by Ross & McFarlane, of Montreal, is being solidly built in brick, steel and cement by Peter Lyall & Sons, Limited, under contract dated August 29th, 1911, and covers a ground space of 334 x 190 feet. It has an ice or skating surface of 200 x 85 feet, with a ten-foot promenade all round.

SEATING CAPACITY:

The seating capacity will include two tiers of boxes of about fifty on each side, and seats for over 6,000 spectators in pit form all around the arena. In this connection it should be pointed out that the seating capacity of the Montreal Arena is about 4,000, and that on many, many occasions each season, the demand for tickets has far exceeded the supply. Every possible convenience is being prepared in the way of club rooms, tea, waiting, and smoking rooms, lavatories and dressing rooms.

PROSPECTUS:

With the undoubted steady growth of population in Toronto, and the unflagging interest in hockey, skating, and all kinds of summer entertainments, to say nothing about the other sources of income which will be the natural outcome of having an establishment of the kind in the city, there is offered in this undertaking an avenue of investment which should increase in volume with the growth of the City.

A formal prospectus has been filed with the Honorable Provincial Secretary of the Province of Ontario.

Additional application forms will be supplied on request by the undersigned:

INFLAMMATION AND PAIN

Cured by Lydia E. Pinkham's Vegetable Compound.

Creston, Iowa.—"I was troubled for a long time with inflammation, pains in my side, sick headaches and nervousness. I had taken so many medicines that I was discouraged and thought I would never get well. A friend told me of Lydia E. Pinkham's Vegetable Compound and it restored me to health. I have no more pain, my nerves are stronger and I can do my own work. Lydia E. Pinkham's Vegetable Compound cured me after everything else had failed, and I recommend it to other suffering women."—MRS. WM. SEALS, 605 W. Howard St., Creston, Iowa.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

Women who suffer from those distressing ills should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will treat your letter as strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.

KINGSTON COPS GET MORE MONEY

Maximum Salary is Increased by $60 Minimum is $500

Kingston, March 7.—The two sergeants and the eleven patrolmen of the Kingston police force are to receive a much deserved increase in salary. The Police Commissioners met and arranged a new schedule. The minimum salary was increased from $480 a year to $500 and the maximum salary from $600 to $660. All of the patrolmen, with the exception of three, will receive the maximum salary. The increase in salaries will mean an additional expenditure of from $700 to $750 a year.

THE NEW SCHEDULE.

The new schedule is as follows;

Two sergeants, $780, an increase of $60.

First year men, $500, an increase of $20.

Second year men, $570, an increase of $30.

Third year men, $600, an increase of $60.

Fourth and subsequent year men, $660, an increase of $60.

The commissioners had before them figures showing what other cities of about Kingston's size paid their police. It was found that the salaries in Kingston were exceptionally low. Windsor, which has the same number of men, spends $11,000, as against the $9,000 which Kingston has been spending on its police force.

It is understood that the local guardians of the peace are satisfied with their increases.

The commissioners present were; Magistrate Farrell and Mayor Hoag.

SUPREMACY OF JAPAN ON PACIFIC

Newcastle, March 7— Earl Percy speaking on Japan's supremacy on the Pacific said the position was a delicate one. Japanese immigration had been restricted by the United States and the British Dominions which Japan might resent. Therefore the defensive resources of the Empire should be co-ordinate.

"If we had not a fleet units on the Canadian Pacific Coast, Canada, if attacked by Japan could only be saved by the United States for the German menace would make us unable to do anything in the Pacific.

The first Roosevelt Club of Women voters has been organized at Sunnyside, Wash., where woman have the franchise.

THE RACE TO THE POLE

Four Expeditions Have Been Trying to Reach Extreme South

London, March 7.—Four expeditions—British, Norwegian, Australian and Japanese, have been attacking the pole over the same general route, as taken by Captain Scott, who is reported as having reached the South Pole—that is from the Australian side—forcing through McMurdo Straight and along the edge of Victoria Land in a direction almost due south.

According to the last authentic despatches, some time ago, the two first-named were leading in the race. The first [illegible] Captain Robert Falcon Scott, of the British royal navy and a fellow of the Royal Geographical Society. He is a Devonshire man, 44 years of age. Captain Scott commanded the National Antarctic expedition in 1900 in the Discovery, when he attained the record up to that time, latitude 82 deg. 30 min Inspired by his success in that venture, which extended over four years, he determined on one final dash to the pole.

SAILED IN 1910.

On board the Terra Nova, a specially built ship, he left Port Chalmers, New Zealand, Nov. 29, 1910, with a picked crew and a full equipment of ponies and dogs. He made straight into the south, and after entering the zone of the icebergs and drift ice he followed closely his old route and the one taken by Lieut. Ernest H. Shackleton, of the royal navy, who in command of the British Antarctic Expedition of 1907 reached 88 deg. 23 min on January 9, 1909, which has stood as the record.

WINTERED THERE.

Pushing straight along the edge of Ross Sea, thence through McMurdo Strait and Mount Erebus, which, with is columns of steam rising high, stands like a grim sentinel over the great ice barrier to the South Pole, Captain Scott established winter quarters on the great ridge of mountains that is believed to be a continuation of the South American Andes. Here through the Antarctic winter he lived until November, 1911, when he planned to push on to the pole.

SHOULD BE BACK SOON.

Making all allowances for bad travelling, death to ponies and dogs, scarcity of food and the consequent drain on the vitality of the men, Captain Scott reckoned that he would reach the pole in the latter part of December. His return to New Zealand would begin immediately and news from him was anticipated for early in this month.

HIS CLOSE RIVAL.

The Norwegian expedition is headed by Captain Roald Amundsen, discoverer of the Northwest Passage and the only navigator to have ever taken a vessel through it. His attempt to reach the pole is a side issue to the greatest polar expedition ever undertaken—an attempt to drift across the Arctic Ocean in with a voyage calculated to take six or seven years from the time he enters Bering Strait. Amundsen left Norway in 1910 with the idea of making San Francisco and putting out into Bering Strait toward the close of the coming summer. Nearing Buenos Ayres he resolved to make a try for the South Pole, for his equipment was sufficient for ten years. Amundsen has with him the Fram, the most remarkable polar ship ever constructed in which Dr. Fridtjof Nansen travelled seven thousand miles in the Arctic Ocean, from 1893 to 1896. Amundsen left Buenos Ayres toward the close of 1910 and met Scott shortly afterwards.

The dark horse in the race has been Dr. Douglas Mawson, the Australian, who was with the Shackleton expedition. He sailed from Tasmania Dec. 2nd, 1910, laying a course for the South magnetic pole. The Japanese expedition sailed in 1910, but it is not taken seriously.

SURROUNDED BY ICE.

In the north polar regions everything is adrift and beset constantly. In the south everything is fixed. So far as discoveries show, all around the South Pole stretches a great continent of ice covered land, like Greenland, but probably many times as large. In places it reaches a height of 10,000 feet and more, Smoking and steaming volcanoes appear here and there.

NEW STREET IN OLD POMPEII

Shops and Signs and Petrified Fruit Are Found

Naples, March 7.—Highly interesting discoveries have been made in connection with the excavations in the ruins of Pompeii. A street leading to the Forum, which was closed at both ends by stone pillars for the purpose of excluding carriages, now proves to have been one of the chief thoroughfares of the city. It is lined with shops, the walls of which show inscriptions and marble tablets, which are well preserved. A great quantity of archaeological treasures of great historic value have been found, and the investigators have gathered up a quantity of petrified fruit and meat.

In one shop a large terra-cotta kitchen range was discovered, on the top of which rested an oval copper boiler in perfect condition, containing water, which the scientists say has been there since the time of the eruption, nearly two thousand years ago.

Caught around the neck by the dragrobe of a dirigible airship at Berlin, an employe, was carried 40 miles before his body was noticed by the occupants of the craft.

HER SKIN SEEMED ON FIRE

Every Other Treatment Failed But "Fruit-a-tives" Cures

GRANDE LIGNE, QUE., Jan. 2nd, 1910.

"My wife was greatly distressed for three years with chronic Eczema on the hands, and the disease was so severe that it almost prevented her from using her hands. The doctor gave her several ointments to use, but none of them did any good. He also advised her to wear rubber gloves and she wore out three pairs without getting any benefit. As a last resort, I persuaded her to try "Fruit-a-tives", and the effect was marvellous. Not only did "Fruit-a-tives" entirely cure the Eczema, but the Asthma, which she suffered from, was also completely cured.

We both attribute our present good health to "Fruit-a-tives". N. JOUBERT.

"Fruit-a-tives" will always cure Eczema or Salt Rheum because "Fruit-a-tives" purifies the blood, corrects the Indigestion and Constipation, and tones up the Nervous System.

"Fruit-a-tives" is the only medicine in the world made of fruit juices and valuable tonics, and is the greatest of all blood-purifying remedies.

50c. a box—6 for $2.50—or trial size, 25c. At all dealers or from Fruit-a-tives Limited, Ottawa.

FEATHERWEIGHTS VERSUS FLUNKERS

P.C.I. Boys Played Exciting Game The Fifth Form Winning Out.

In a closely contested game, played at the Brock street rink yesterday the Fifth Form "Featherweight" defeated the Fourth Form "Flukers" 5—4. The half-time score stood 3—0 for the light boys. Although the score would indicate that the Fifth played a better game than the Fourth that is hardly the case, though Matthews, Huycke and Long played stellar hockey. The Fourth Formers had the better of the play, Huycke, Carlisle and Gilbert being the most conspicuous players on that side.

The teams were;

FIFTH.		FOURTH.
	Goal	
Fair		Succee
	Point	
M. Huycke		Throop
	Cover	
Matthews		Gilbert
	Rover	
Long		D. Huycke
	Left	
Mowat		Carlisle
	Right	
Langford		Feeney
	Centre	
Eastwood		Hill

Referee—Mr. Hutchinson, of the P. C.I. staff.

CURLERS NOW ON HOME STRETCH

Skip Thompson Arrives at Finals With One Shot Win

Seven sheets of fine ice were in use at the curling rink last night, when the schedule games in the local bonspiel were played off. The competition is getting interesting now as it approaches the final stage and last night there were a large number of spectators to witness the games. In a fourth round contest, Thompson defeated Renwick by one shot, though Renwick made a strong finish, counting two in the last end. Another game was won on a one shot margin by Lang, who enters the the fourth round at the expense of J. H. Ferguson.

Also five consolation games were played as follows—

W. G. Ferguson	T. E. B. Yeats
Skip 16	Skip 9
Read	Medd
Skip 11	Skip 7
Maitland	Sturgeon
Skip 15	Skip 10
Morrow	Taylor
Skip 11	Skip 6
Fitzgerald	Harstone
Skip 10	Skip 9

The result of last night's games is that the Thompson quartette are in the finals, and play the winners of the Lang vs. Brightman game for the first prize in the primary contest.

The third round of the consolation has been reached, and the following games are to be played.

W. G. Ferguson vs. Read.

R. J. Sturgeon vs. J. E. A. Fitzgerald.

W. G. Morrow vs. Wm. McIlroy.

H. T. Foote vs. J. W. McDermid.

J. H. Ferguson vs. G. T. Colling.

Four rinks, skipped by Messrs. Matthews, Neill, Lang and Morrow, journeyed to Orillia this morning to play the remaining games for the Neill-Sheppard trophy. The local curlers have an eleven shot lead to overcome, but are determined to capture the silverware if possible.

SPORT TALK

If the T.A.S. boys win the cup they'll drink tea out of it we suppose.—Campbellford Dispatch.

The Campbellford Dispatch has the following to say about his work in the last game there:—McFadden in the Quaker's goal is a good one, and had lots of work to do and to him is due the credit of keeping the local team from winning the round.

LADY SKIPS FOR EACH GAME

The lady curlers of Peterborough played three games yesterday afternoon, with the gentlemen brithers o' the stane, and displayed considerable skill in managing the stones. All the rinks were skipped by lady curlers. The games were:—

Mr. A Hall	Mr. Macleod
Mrs. Grant	Mrs. A Hall
Mr. G Morrow	Mr. W G Ferguson
Mrs. Coulthard	Mrs. Matthews
Skip—9	Skip—11.
Mr. Grant	Mr. Harstone
Miss B Morrow	Mrs. V Eastwood
Mr. Foote	Mr. Connal
Mrs. A H Stratton	Mrs. Goodwill
Skip—5	Skip—15
Mr. Sturgeon	Mr. Read
Mrs. Sanderson	Mr. T Brightman
Mr. Giroux	Mr. A Moore
Mrs. H Ritchie	Mrs. W H Hill
Skip—9	Skip—17

BASEBALL

Business is booming just now in the Ottawa Baseball Club of the Canadian League, and within a few days the promoters hope to have something very interesting to announce. Manager Frank Shaughnessy has been on the hustle within the past few days and will be in a position by the latter part of this week to announce his roster of players. He has already land d four or five of the fastest College ball players in the Southern States and will take to the diamond about a month hence with the finest aggregation of ball players ever seen together in the Capital. Shaughnessy has not been saying much of late, but everything is getting along splendidly and the "fans" will find Ottawa there with a real live team when the umpires shout "play ball." The Canadian League schedule will be issued within a few days, and a matter of special interest will be the home dates of the Ottawa club. The locals will play double headers on four or five occasions, with morning and afternoon games on holidays.

Shaughnessy informed The Citien yesterday that he had been dickering for Martin Walsh, a young coal miner from Norfolk, Virginia. Martin is a brother of "Big Ed" of the White Sox, and like the Chicago "iron man" is a pitcher, a promising right hander, whose youth has barred him from the "big show" to date. Shaughnessy is confident of bringing him to Ottawa, though several other clubs are also angling for Walsh. Cook and two or three other players have come to terms with the Ottawa club.

The baseball bee is buzzing in earnest at St. Thomas, Brantford, Hamilton, Guelph and other towns in the Canadian League, while at Peterborough the citizens have started a subscription with a view to landing the championship. No "passing the hat" will be necessary in Ottawa, however, for the local club will have unlimited financial backing.

"Prospects are excellent," said Manager Shaughnessy. "Just now our big task is that of landing the players. But they all want to come to Ottawa, and when the time comes we will have one grand little aggregation." Shaughnessy intends to carry about two catchers and four pitchers, and is now negotiating for his own release from the Fort Wayne club of the Central League. He will play right field, acting as captain and manager. Shaughnessy intends to try out a number of Ottawa players, and is in hopes that three or four of last year's City League stars will make good. The Canadian League season will open about May 15th, each club playing a schedule of about 120 games.—Ottawa Cittizen.

QUEBEC WINS CHAMPIONSHIP

Wanderers Defeated Cupholders by Score of 5-2

Montreal, March 7. — The Quebec Hockey Club are the new champions of the National Hockey Association, and they have to thank the Wanderers for the honor thus won without any further playing. By defeating Ottawa last night at the Arena in one of the most exciting, if not the best played game of the season, by 5 goals to 2, the local club eliminated the Senators from the race, dethroned them and crowned the Ancient Capital Club.

All Stars Lost

Goalkeeper Joe Dwyer and Coverpoint Fred Denison returned from Orillia this morning. The All Stars were beaten last night by the Orillia Younkers 6—3, the half time score being 4—3. There were only about four hundred people at the game.

Prince Rupert's Climate

Evidently a very healthy spirit of rivalry is growing up between Vancouver and Prince Rupert, its ambitious young rival, as Pacific ports. "Why can't the truth be told about Prince Rupert's climate?" plaintively inquires the "Weekly Empire" of that place. "If ever a city was maligned, misrepresented and unfairly criticized from the standpoint of weather, that city is Prince Rupert.

"It's about time facts were told." It's time that people were made aware that here is a city where the mellow richness of Indian Summer lingers till after mid-winter and where the summer months are unsurpassed for beauty and salubriousness.

"Down in Vancouver it's a favorite and miserable sort of a jest to advise travellers to Prince Rupert to be sure and take their mackintoshes and rubbers. A thread-bare and hollow joke. The other way round would be more appropriate."

It Pays The Housewife to use the best sugar—because poor sugar means poor cooking.

St. Lawrence Sugar

is the genuine "Montreal Granulated"—absolutely pure, sparkling crystals of the most inviting appearance.

Ask your grocer for a 20 lb. bag of ST. LAWRENCE GRANULATED — also sold by the barrel and in 100 lb. bags.

LETTERS TO THE EDITOR

The Review does not hold itself responsible for opinions expressed by its correspondents

To The Editor of The Review,

Dear Sir—I notice in your issue of the 5th, a letter signed "H.J.F." regarding the question of ownership of the band instruments, and in my opinion, the writer is not conversant with the facts. However amusing the idea may be to him, the fact is that the city does now own them, and the band has from time to time confirmed this by resolutions forwarded to the City Clerk with lists containing the name and value of each instrument.

It must be evident to your correspondent that someone must own them The band is not an incorporated body but is composed of individuals, a large percentage of whom are coming and going from time to time, and it would be foolish to suppose that a member when leaving, could take away the instrument he had been using. If this were the case, in a few years no instruments would be left Suppose the organization were to disband, who then would own the instruments? Certainly not the members and if not the members, the city should most assuredly own them.

The city pays the insurance upon them, but in case of their being destroyed by fire could not recover the insurance, unless its ownership were established.

This is what I wish to have made clear and certain. At present, so far as I can find we have no up-to-date list, nor are the instruments marked in any way as being the property of the city. There is no intention so far as I am concerned of dealing differently with the band than has been done in the past, but simply to have the matter dealt with in a business like manner and a clear and definite understanding arrived at.

The writer has referred to the People's Chimes, and in reference to this I might inform him that the City Clerk now holds a deed of those chimes in trust for the people.

Yours etc.,
J. C. ANDERSON.

Peterboro, March 7, 12.

ROOSEVELT'S PLATFORM.

He Makes a Statement on Plan For Judicial Recall.

New York, March 7.—The Outlook to-day publishes a signed article by Col. Theodore Roosevelt, entitled, "Do You Believe in the Rule of the People?" The article restates Col. Roosevelt's platform as announced at the Ohio Constitutional Convention. It takes an aggressive attitude toward all who do not accept that platform, and brands them as unbelievers in popular government. That President Taft and his followers are classed with these unbelievers is evident.

"There has been much effort made," says Col. Roosevelt, "to fog the issue raised in my Colombus speech. In reality, the issue is perfectly simple. Do you believe in the rule of the people? If you do, you are with us. If you do not, you are against us.

"Many good and honorable persons do not believe in the rule of the people and openly say so. We disagree with these persons, but we can respect them. There are other persons, however, who do not believe in the rule of the people but who dare not say so, and who endeavor by trickery, by chicanery, by fraud, to seem to give the people the right to rule and at the same time to deprive them of that right. These persons we do not respect."

The article deals mainly with the "Recall of Decisions," as advocated in the Columbus platform, and a less advanced position seems to be taken. The appeal from the supreme court to a plebiscite is limited to constitutional questions, and is not to be invoked for at least two years. There is also an intimation that the so-called appeal from the court to the people will be in the nature of a constitutional amendment. Much stress is laid on the proposition that, if the people are intelligent enough to make a constitution, they must be intelligent enough to interpret it. Abraham Lincoln is quoted over and over again to prove that the progressives are following in his footsteps and carrying on his work.

CITY MILKMEN DINE AND DISCUSS THE SUMMER PRICE OF MILK

Also Decide That the Cow is More Valuable Than the Horse.

The members of the Peterborough Milkmen's Association held a very enjoyable banquet in the grill room of Coleman Bros., at their regular monthly meeting. A sumptuous repast was thoroughly enjoyed by the thirty milkmen present at the function, and made them feel fit to cope with the business problems that followed. A very interesting and humorous debate was given on the subject, "Resolved, that the horse is more valuable than the cow." Mr. Turcott captained the affirmative party and Mr. Butler the negative. The judges decided in favor of the negative.

PRICE OF MILK.

The chief business discussed at the meeting was relative to lowering the price of milk at the first of May. The milkmen considered the possibility of this for some time, but finally agreed that they could not of their own accord lower the price at the beginning of the coming month. The farmers are at present charging four cents a quart wholesale for the precious fluid and unless they can be persuaded to cut the price it will be practically impossible for the milkmen to do so. The profit of three cents a quart is not too much, and they felt that they could not afford to have it lessened. The matter was left over to be considered and decided upon at the next monthly meeting of the milkmen.

The chairman for the evening was Mr. Hunter.

YOUR DRUGGIST STOPS THAT ITCH

If you are suffering from Eczema, Psoriasis or any other kind of skin trouble, drop into our store for instant relief. We will stop that itch in two seconds.

We have sold other remedies for skin troubles, but none that we could recommend as highly as this, a mild wash of Oil of Wintergreen, Thymol and a few other ingredients that have wrought such wonderful cures all over the Dominion.

This compound is known as D.D.D. Prescription for Eczema, and it will cool and heal the itchy, burning skin as nothing else can.

Of course other druggists have D.D.D. Prescription—go to them if you can't come to us—but don't accept some big profit substitute. But if you will come to our store, we have had the agency for this remedy for so many years that we can tell you all about D.D.D. Prescription and how it cures eczema.

Or you can get a free trial bottle by writing D.D.D. Laboratories, 49 Colborne street, Toronto.

McDermid & Jury and E. L. Payne.

LAKEFIELD NEWS BUDGET

Special Correspondence

Lakefield, March 7—Mr. A. Northey has returned to the village after spending a couple of weeks visiting relatives in Fenelon Falls.

Mr. and Mrs. Roland Johnson of Port Hope were in the village for the week end.

Miss Maude Watson of Peterboro spent Sunday visiting her parents, Mr. and Mrs. I. Watson in the village.

Miss Mable Gray and Master Allen of Peterboro, were the guests of Mr. and Mrs. Gray, sr., for the week.

Miss L. Nelson and Miss Cora Pethick of Peterboro were the guests of Miss Ruby Jory for a couple of days this week.

Miss Clementi of Peterboro, who has been spending the past month in the village, as the guest of Miss D. Hilliard, returned to her home last week.

Mr F. Lillicrap is spending a few days in Ottawa on business.

Miss D. Hilliard is at present visiting relatives in Toronto.

Miss Traill and Miss Mary Traill have returned from Peterboro where they have been spending the past few weeks.

Miss Halpiny of Peterboro is the guest of Mrs. Kenneally in the village.

Mr. Ough and Mr. Honey of Port Hope were in the village on Tuesday attending the funeral of Mr. Walter Daniel Lean.

Miss Sarah Smith of Millersburg, Mich., is at present visiting friends in the village.

Mr. Charlie and Miss Etta Waldon are visiting their sister of Gore's Landing.

Mr. and Mrs. Avery and Mr. Fred. Wedge left on Wednesday for the West, where they will reside in the future.

We are all very sorry to hear that Miss Edna Sanderson is very ill with pneumonia. This is the second attack that Edna has had.

Miss Blanche Kidd has been visiting friends in Dummer.

HOCKEY MATCHES

A very interesting hockey match took place in the Lakefield rink Saturday afternoon, when the St. Luke's hockey team of Peterboro, and St. John's, jr., hockey team, played their first game. The visitors were defeated by the local team, the score being 8 goals to 2. The return game will be played in Peterboro on Saturday next

A CARNIVAL.

The last and best carnival of the season will be held in the Lakefield rink on Friday evening, March 8th. The 57th battalion band will be in attendance and will provide splendid music for the evening. Splendid prizes will be given for the following:

Best dressed lady in fancy costume.

Best dressed lady in comic costume.

Best dressed gent in fancy costume.

Best dressed gent in comic costume

Best dressed girl in comic costume

Best dressed boy in fancy costume.

Best dressed boy in comic costume.

Many other events will take place during the evening.

Miss Cora Hunter is visiting friends in Havelock.

A meeting of the Masonic Lodge was held in their lodge room on Tuesday evening, March 5th, at eight o'clock.

The very sad death took place in Port Hope on Saturday, March 2nd, of Mr. Walter Daniel Lean, aged 33 years, a former resident of Lakefield. Death was caused by a severe attack of typhoid fever. The body was brought to Lakefield on the noon train Tuesday, and taken from there to the Methodist church, where a short service was conducted, and from thence to the Hillside cemetery, where the Canadian Order of Chosen Friends and Woodmen of the World conducted a burial service at the grave. The deceased was a member of both societies. He leaves to mourn his loss a wife and two small children, also a father, mother, five brothers and one sister.

Miss L. Frankish is visiting friends at Fowler's Corners for a few weeks.

A missionary sermon was preached in the Methodist church on Sunday evening by Rev. C. J. P. Jolliffe, from the Syechwan Mission, China.

Mr. Allan Bravender, who has been spending the past nine months travelling through Alberta and Saskatchewan districts, returned to the village on Tuesday.

The members of the Epworth League of the Methodist church drove out to visit the league in the Fairview church, Smith, Tuesday evening. A very enjoyable evening was spent.

A concert was given in the town hall on Friday evening, March 1st, by the pupils of the Lakefield High School. The program consisted of court scene from Merchant of Venice, also a debate between second and fourth forms.

HOME RULE SCORED BY ORANGEMEN

Montreal, March 7—At the meeting of the Provincial Grand Orange Lodge, attended by 200 delegates, resolutions strongly attacking Home Rule for Ireland and the Ne Temere decree were adopted unanimously. David Haden was elected Provincial Grand Master.

Better Farming Lectures

On March 12th, from 12.45 p.m., to 3.15 p.m., lectures pertaining to "Better Farming" will be given on a special train at Peterboro under the Department of Agriculture of Ontario.

Single first class fare for the return trip will be in effect from all stations on Grand Trunk Railway, Lindsay, Madoc Jct., and intermediate stations to Peterboro, good going on all p.m. trains, March 11th, all trains March 12th. Good for return until Wednesday March 13th.

St. John's Choir

The St. John's Church choir will meet for practice to-night at 8 o'clock. The boys will assemble at 7.30. The music for the choral recital to be given on March 19, will be rehearsed and all choristers are asked to be present.

Chimney Fire

The fire brigade received a call at 12.20 this p.m., from box 12. The cause of the alarm was a chimney fire in the house on McGill street of Judge Huycke, and occupied by Andrew Templeton.

LIVELY RUNAWAY ON GEORGE STREET

Cutter Overturned at Car Tracks on Water Street

A very exciting, and rather costly runaway, occurred last evening about seven o'clock, when a spirited horse, the property of a livery man, and driven by Messrs. Harry Carr and Arthur McGill, dashed the whole length of George street at a terrific pace.

The two young men set out to drive to Lakefield, but at the corner of Water and Smith streets the cutter caught in the car tracks and was overturned. The frightened horse, leaving the young men on the road, sprinted along Smith street to George, where the cutter righted itself, and turned down George street. Never slackening its pace, the horse tore down through the centre of the city to Charlotte street, where the cutter slewed and came in contact with a telephone post. The collision stopped the cutter, but not the horse, which, with the shafts, continued its course to Lake street, turned west to Park street and followed Park street to the boundary. The shafts dragging on the ground and pounding the horse's feet so frightened the animal that it fled five miles into the country. The owners, after several hours' search, found the horse unhurt, and brought it back to the city. The cutter is very badly damaged.

The Dardanelles will be closed at night.

TEMPLIN TO MEET DIRECTORS

Berlin Second Sacker Will be Here Shortly

The provisional Directors of the Peterborough Ball Club, Limited, met last night and after the question of the managerial position for the local Club had been discussed, it was decided to telegraph "Old Folks" Templin, and have him come to the city. He wired an answer today stating that he would be here in the course of a couple of days to go over the situation with the local magnates.

Dr. de Van's Female Pills

A reliable French regulator; never fails. These pills are exceedingly powerful in regulating the generative portion of the female system. Refuse all cheap imitations. Dr. de Van's are sold at $5 a box, or three for $10. Mailed to any address. The Scobell Drug Co., St. Catharines, Ont. Sold by the Warne Drug Co., Limited.

BARBARA FOSTER

It is said by those who have heard Barbara Foster, the famous comic singer, that she is perhaps the best artist that has toured Canada for many years.

She will be heard in the Conservatory of Music Hall on the evening of March 12, along with Miss Mae Teskey, one of Owen Smiley's star pupils, under the auspices of the Springville Presbyterian Church Choir. The many expressions of appreciation by those who have had the pleasure of hearing Miss Barbara Foster in Scottish ballads, and the fact that she has had the honor of being called for a second time by the Caledonian Society of Montreal, is ample evidence of her ability.

She will leave Canada on March 18, for engagements in New York, Philadelphia and Boston.

The weight of evidence seems to indicate that none of us know as much as the law allows.

DO NOT FROWN

When Glasses are removed, you frequently notice a frown or troubled look. Such eyes are under a strain which the Glasses remove. Suitable Glasses replace many a frown by a pleased, restful expression.

"BETTER WEAR GLASSES THAN FROWN."

J. W. BROWETT OPTOMETRIST. OPTICAL INSTITUTE MARKET BUILDING.

CITY WATER IS SATISFACTORY

M.H.O. Makes Monthly Report to Water Commissioners

A meeting of the Water Commissioners was held last evening at five o'clock, all the members being present.

A letter was read from Joseph Crowe, regarding a petition for a main on Cross street, which was referred to the acting superintendent.

The rate for the machine shop and stable of the G. Walter Green Coy. on the north side of McDonnel street was fixed at $10 a year gross.

Dr. McPherson, Medical Health Officer submitted a report on his examination of the water for February which was found to be satisfactory.

A letter was read from John Bell making a complaint regarding rate bills. The matter was referred to the collector.

The following accounts were presented and ordered to be paid—

Peterboro Examiner	$2.40
Henry Vernon & Sons	5.00
J. J. Turner & Sons	10.25
R. J. Soden	.25
B. Morrow	2.00
C.P.R. Telegraph	.38

The commissioners adjourned to meet again in the evening to discuss the work of T. B. McGrath, who was engaged to make an inspection of the premises of the city, which were being served with water, at a wage of $2.00 per day.

Grain Delivery

The statement has been made in Winnipeg by Mr. E. J. Chamberlin, Vice-President and General Manager of the Grand Trunk Pacific Railway, that this company is now pouring grain in the Duluth elevators and that many hundreds of cars are on the way. Almost all are carrying tough grain that must be got quickly to the drying plants if it is to be saved. Between last Saturday and Monday almost 500 cars were delivered by the G.T.P. to the Great Northern for transmission to Duluth, and there are 1,000 more on the line and under way.

Mr. Chamberlin's only fear is that the facilities for receiving grain at Duluth may be blocked. All the railways which handle the grain of western Canada are now delivering wheat and coarse grains there and receipts will be very large. The actual number of cars delivered to the Great Northern during the week-end was 497 and the daily total at present averages about 200. Even at this rate, however, in his opinion, it will be a difficult matter to get all the tough grain out of Canada before the warm weather sets in.

PILES CURED IN 6 TO 14 DAYS

Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. 50c.

IN BLOOM

Hyacinths, Daffodils, Jonquills, etc., in pots, Also Violets, Carnations, Roses, etc., at lowest prices. Wreaths, Anchors, Pillows, Gates Ajar, etc., made up on shortest notice.

Mason's Floral Emporium WATER STREET

SPUDS FROM THE OLD SOD

Consignment Has Been Received by W. J. Oke

Very seldom do we get potatoes from a place so far away as Ireland Yet Mr. W. J. Oke, the George st. merchant received a consignment of tubers from there this week, and he finds ready sale for them. He gets 40c per peck and $2.25 per bag for the spuds.

The "Irish" potatoes have not the appearance of anything out of the ordinary. Those who have eaten them say that there is not much difference in the taste.

ONTARIO'S FISCAL STANDING ANNOUNCED IN LEGISLATURE

Hon. I. B. Lucas, Urges That T. & N.O. Railway be Allowed to Expand Before Rates Are Reduced.

Toronto, March 8.—"In opposition your theories were excellent. In office your practices are abominable." Winding up his remarks, after presenting the budget speech in the Legislature yesterday afternoon, Hon. I. B. Lucas thus characterized the import of the criticism of the Opposition members, who made general attacks on the expenditures of the present Government without going into detail.

Out of an expenditure of ten million dollars or thereabouts annually by the Government, the Opposition had failed to criticize any amount much above $200, and even then their protest thrown across the floor of the House was feeble and almost in the nature of an apology.

A great experiment in public ownership was the way Hon. I. B. Lucas described the T. & N. O. Railway. The ordinary revenue of the province had reached $9,370,099.90 during the past year—the largest amount in the history of Ontario. In fact, he said, the revenue has been more than doubled since the present administration came into office seven years ago. In spite of all this, Mr. Lucas declared the Government's expenditures for all sorts of purposes had increased in comparison with that of the late Liberal regime.

Figures were given illustrating the tremendous difference. For instance, during the last year of the Ross Government $175,000 was devoted to colonization, while the present Government gave $451,000; last year $58,000 was given by the late Government for public buildings, while $134,000 was given for the same purpose during 1911. The grants for agriculture for the same years had increased from $9,000 to $26,000, and for hospitals and charities in New Ontario from $9,000 to $41,000, and enforcing liquor laws throughout the province the old Government in their last year of office gave nothing, while last year $10,000 was used for the purpose.

In commenting on the progress and extension of the T. & N. O. Railway, Hon. Mr. Lucas referred to the fact that the railway was now a revenue-producer, and he declared that however favorably cheap fares were regarded by the people, the point should not be lost sight of that the efforts of the commission to extend the railway through the territory that was to be organized, should not be handicapped by a reduction in fares, thereby cutting down the revenues of the Government railway.

In his opening remarks Mr. Lucas regretted the illness of Col. Matheson, the Provincial Treasurer. He then drew attention to the fact that the sources of revenue in Ontario were such that they could be estimated with some degree of accuracy. They were to a certain extent fixed; not like they were in the House of Commons. Between the revenue and the strong box of the Treasury there were no leaks, and no barnacles either.

The tax on bar receipts in the Provincial Secretary's Department had reached $118,801 in five months, and indicated an annual revenue of $250,000 or upwards from that source. A new source of revenue was the stock transfer tax.

In his reply to the budget speech, Hon. A. G. MacKay scored the administration of the T. & N. O. Railway because, he declared, the Government looked more to the receipts from the road than to the necessary improvements.

"Hon. Mr. Lucas tried to show that the railway made a big surplus," said Mr. MacKay. "But he didn't consider the uneven, excessive freight rates. It seems to be the object of the commission to make this road a great paying proposition when it ought to be made a colonization road, in order to fill up the country with settlers, which are absolutely necessary. Complaints fairly flood the Government regarding excessive rates and inadequate transportation generally, but, ah, no, they don't bother their heads about this end of it. They like to see money pour into the Treasury so they can say there is a big surplus as a result of wise, efficient administration."

"There was no reason," said Mr. MacKay discussing the general revenue, "why Ontario should not come in for a greater subsidy from Ottawa, like the sister province in the west. He was in the confidence, sorry to say, of the Premier of Ontario, but he saw no reason why Ontario should not assert her rights and get a fair and square share. Ontario had a right to $500,000 additional revenue."

Naturally, Mr. MacKay declared, that the finances were fixed largely by the old Government and not by the so-called "magnificent Conservative administration. The Conservative Government had increased the net debt of the province to $3,308,715. As a remedy for the liabilities the Government should learn what was causing the current expenditures to run behind the current receipts. Hon. Mr. Lucas had a great talent in befogging the question of surplus and debt. He claimed that if everything was shown in its true light the province would have a deficit of $2,000,000.

Liberal Caucus Called.

Ottawa, March 8.—A Liberal caucus has been called for to-day, to decide what amendment, if any, will be proposed on the third reading of the Manitoba boundaries bill.

Meanwhile Mr. Mondou, French Conservative, who voted with the Government, has given notice of an amendment "to preserve any existing rights now enjoyed by the Catholics of Keewatin." One reason is to cause Sir Wilfrid Laurier to declare himself on the schools question.

PROF. McLAY COMING

The Ministerial Association have been successful in securing the presence of Prof. W. S. McLay, the dean in Arts of McMaster University, Toronto, for their meeting next Tuesday evening. Professor McLay will present a paper on the subject, "Immortality in the Works of Browning and Tennyson."

The meeting will be held in the parlors of the Y. M. C. A. at 8 o'clock.

MOUNTED POLICE GET MORE PAY

Term of Service Lowered From Five to Three Years.

Ottawa, March 8.—There is a movement on foot to increase the financial status of the Northwest Mounted Police by granting an increase of pay at the rate of fifteen cents a day. Already the policemen receive 60 cents a day, and it is understood that the pay will be increased to 75 cents a day. The other improvement will be the lowering of the term of service from five to three years.

These views have been placed before the Premier, who has given them a sympathetic hearing, and who is desirous of doing all possible for the comfort and security of "Canada's finest." The idea underlying the movement is that it is felt in influential quarters that the men with their abilities can secure a higher rate of wage than that received on the police and with a minimum of danger.

SOLITARY CONFINEMENT

Incarcerated Suffragettes Given Sterner Punishment

Special to the Review.

London, March 8.—As a result of rebellious conduct on the part of suffragettes undergoing terms of imprisonment, with hard labor in the Halloway jail, several of the most obstreperous have been placed in solitary confinement.

RAILWAY TO HUDSON BAY

Saskatchewan Can Have Access if Needed.

Ottawa, March 8.—In answer to Premier Scott of Saskatchewan, in his demand for access to Hudson Bay, the following reply was sent by Premier Borden:

"I beg to acknowledge your telegram of yesterday. The legislation now before Parliament does not contain the provision alluded to. The Province of Ontario considers it desirable to extend its state-owned railway to a port on Hudson Bay. For this purpose the governor-in-council has passed an order granting to that province a strip of land five miles in width from the western boundary of Ontario to the mouth of the Nelson River. This grant is made by virtue of the federal ownership of the land within the extended boundaries of Manitoba.

"In case the Province of Saskatchewan should undertake the construction and operation of a state-owned railway to the shores of Hudson Bay, this Government will be glad to give to its proposals the most careful and earnest consideration. May I point out, however, that, apart from this, the claim of Saskatchewan was disposed of by the late administration.

"On July 13, 1908, Sir Wilfrid Laurier expressed the decision of his Government with regard to the claim of Saskatchewan in the following words: 'After giving due consideration to this claim on the part of the Province of Saskatchewan, it seemed to us that, as between the claim of the Province of Manitoba, to have the territory which lies north of Manitoba and east of Saskatchewan allotted either one way or the other, the weight of argument was certainly in favor of Manitoba, and we could not grant the prayer of Saskatchewan. We, therefore, had to ignore it. R. L. Bordon."

G.T.R. WANTS GOVERNMENT LOAN

Fifteen Millions to Help Complete Pacific Section.

Ottawa, March 9—The Grand Trunk Pacific is still after a loan from the Government. Charles M. Hays and William Wainwright were in Ottawa again yesterday and had an interview with the Government. It is understood that they want a fifteen million dollar loan to help complete the Pacific section. The securities are standing none too high in England at the present time, and the officials are pressing the Government to come to the G.T.P.'s assistance.

It is understood that the officers of the company are not getting much encouragement from the Cabinet.

WAS HEROINE OF THE CIVIL WAR

New York, March 8.—Mary D. Jones, for whom a special act of congress was passed granting her a pension for heroic service performed as a nurse during the Civil War, died in her home in Brooklyn, yesterday, aged 103. Up to the moment of her death Miss Jones preserved all her faculties.

Miss Jones followed her brother, a soldier, to the war as a nurse. When she learned that her brother had been killed in the trenches at Port Hudson she sought to take the body back north, but was not allowed on the field to search for it. She made a personal appeal to President Lincoln, who gave her a pass. She failed to find her brother's body, but erected a small monument over the spot where he is said to have been killed. After the war she remained in the service until 1876.

OPPOSITION OUT TO KEEP BACK BOUNDARIES BILL

House Has Late Session, Listening to Liberal Speakers on Injustice to Manitoba.

Ottawa, March 8.—The House of Commons sat till two o'clock this morning in debate on the second reading of the boundaries bill. Both parties were determined to fight to a finish, but Premier Borden called off the struggle two hours after midnight.

At 12.30 a.m. a vote was taken on the amendment of Hon. Wm. Pugsley, calling for the deferring of the financial settlement with Manitoba till a conference of the representatives of the provinces could be held, with a view to a readjustment more favorable to the Maritime Provinces. The amendment was declared lost by 101 to 62.

Then Hugh Guthrie (S. Wellington) who has an amendment cutting out the arrearages to be paid to Manitoba and make the financial arrangements date from July 1, 1912, tried to move an adjournment, but the Government would not hear of it, and the discussion was on again.

Another amendment, that of A. A. Mondou (Yamaska) declaring that any rights that exist in the newly annexed territories be preserved, also remains to be dealt with.

Dr. Molloy, one of the two Manitoba Liberals in the House, spoke with an eye to his strongly Roman Catholic constituency of Provencher. From the beginning of the session he had predicted, he said, two things if the boundary question were dealt with by the Borden Government. That Manitoba would receive less territory than was offered it by Laurier, and that the minority in that province would "get the tomahawk."

"And they have received it," he added.

HOME RULE BILL

London, March 8. — In the House of Commons yesterday Premier Asquith said that the exigencies of public business would not allow of the Home Rule Bill being introduced in Parliament before Easter.

Sir J. Lonsdale asked, amid loud cheers, whether the Premier had arrived at that opinion after the South Manchester election.

No answer was given by the Premier.

FIVE KILLED IN BAD WRECK

Special to The Review.

Ottawa, March 8—Five trainmen were killed, and other persons were seriously injured in a head-on collision between a passenger and freight train on the Pontiac branch of the C. P. R., west of Hull, this morning. The dead are Conductor John Anderson, his engineer, Joseph Murphy, and fireman Camille Lemieux, of the passenger engine, and engineer Cole and fireman Wm. Shortt, of the freight. All were Ottawa men.

STRIKE OF THE BRITISH COAL MINERS BIGGEST OF LABOR WARS.

COPYRIGHT by TOPICAL PRESS

STRIKERS OUTSIDE THE GLAMORGAN COLLIERY DISPERSED BY POLICE IN THE LAST STRIKE

The coal miners of Great Britain are now on strike, and it is perhaps the biggest labor war the world has ever seen. It is estimated that 1,000,000 miners have stopped work. Ships have been chartered to rush fuel from the United States. Premier Asquith is very much perturbed over the situation and has explained that Parliament would have to act to establish a minimum wage scale.

EIGHT ARE RECOVERED

Another Eight Men Still Missing Are Likely Dead

Special to The Review.

Merritt, B. C., March 8.—Seven bodies have been recovered from the Diamond Vale Coal mine, which was wrecked by a gas explosion yesterday. Eight men are still missing and it is believed that they are dead.

Vancouver, B.C., March 7.—A gas explosion to-day in the mine of the Diamond Vale Mining Company at Merritt, B. C., ten miles northeast of Vancouver, killed four men and imprisoned ten others. Rescue apparatus has been sent out.

It is difficult to get news from the mine, which is situated in the Nicolai district on a branch that runs from the main line of the Canadian Pacific Railway.

AMUNSDEN DENIES STATING THAT SCOTT REACHED POLE

CHINESE Y.M.C.A.

Calgary, Alta., March 8. — Chinese mission of local China Town decided last night to establish a Chinese Young Men's Christian Association. This will be the first association of its kind in Canada.

Col. Matheson Goes Home.

Toronto, March 8.—Hon. A. J. Matheson, who has been ill in the Western Hospital for a fortnight, left last night for his home in Perth, where he will rest for a time before resuming his duties as Provincial Treasurer for Ontario. A special car was provided for him by the Temiskaming & Northern Ontario Railway.

Secretary Knox at Nicaragua.

Corinto, Nicaragua, March 8.—Secretary Knox and party arrived here at 3.30 yesterday afternoon. The trip was made without incident.

According to Latest Word Received From Tasmania —Reports Are Conflicting

London, March 8.—The result of the polar race is still more or less an enigma. One paper, The London Chronicle, states definitely that Roald Amundsen, the Norwegian explorer, cabled his brother Leon in Christiania, to the effect that the goal had been attained on December 14-17, 1911.

Earlier in the day The London Daily Express published a despatch from its correspondent in Wellington, New Zealand, which said simply: "Amundsen says Scott reached pole."

The conflict of statements causes some confusion and the British public does not know what to think. The cablegram, however, from Amundsen to his brother bears every mark of authenticity. It was transmitted in cipher to The Chronicle and the London office of The New York Daily Times, which paper contracted before the start of the expedition for the exclusive rights to Amundsen's story in case he proved successful in his search.

The exact text of The New York Times despatch is jealously guarded by copyright and at present the situation resolves itself into a newspaper war for which journal will be first to tell the news.

None of the London papers this morning, with the exception of The Chronicle, has any definiteness of the result of the race for the South Pole. The Times contains the following comment:

"It can only be a few hours now before we learn the facts. Capt. Amundsen's ship left Buenos Ayres at least a month before the Terra Nova sailed from New Zealand to Capt. Scott's headquarters. If the ice were favorable Amundsen would then be able to start back long before Scott. On his way back he might well have called at Scott's headquarters to learn the news and so ascertain whether Scott had reached the pole, only to find that he had been forestalled by his English rival.

"The main point at present is that there is no reason to doubt that Amudsen might well have learned what Scott had done and may have been generous enough to reveal the good news even before he cabled his own tale, but it is all conjecture, and we can only hope that early information assure us of the Englishman's victory."

Lieut. Evans, secretary of the British Antarctic expedition, which Capt. Scott led, has issued the following statement:

"No authoritative news whatever regarding the success or otherwise of Capt. Scott's expedition has yet reached here."

The Chronicle says editorially:

"Our first thoughts (though we may have wished that Commander Peary's hope had come true, that 'The world should whirl between the ensigns of the same Anglo-Saxon race' will compel Britons, who have striven so heroically for the prize, that has been won, to congratulate heartily that great explorer and his nation, to whom the honor of the discovery of the South Pole has so deservedly fallen."

DENIES STORY

Special to the Review.

London, Eng., March 8.—A despatch from Hobart, Tasmania, quotes Captain Amundsen as denying that he made a statement to anybody that Captain Scott had reached the pole. No word has been received of Scott's expedition up to late this afternoon.

FEELING TENDS TOWARDS MANCHU RULE AGAIN

CHAMP CLARK.

Many Happy Returns, Champ.

Washington, March 8.—Speaker Champ Clark yesterday celebrated his birthday anniversary and put in a strenuous 15 hours of handshaking and acknowledgment of congratulations.

PROBABILITIES

Cloudy with occasional light falls of snow or sleet. Saturday fair and somewhat solder.

Duke Is Censured.

Ottawa, March 8.—The Social and Moral Reform committee of the Ottawa Presbytery is out with a strong criticism in its annual report, directed at the Duke of Connaught. It is worded:

"Sabbath observances have received a blow in our city and the Dominion through the head of our Dominion giving by his presence sanction to sports at Rockliffe Park on the Lord's Day. He may not be a Puritan, yet there is a large and important part of the nation over which he presides who believe in a day free from the common rut of life, and as he would not willingly hurt the religious susceptibilities of the Hindus, he might at least care for the conscience of feeble fellow-Christians."

Reaction Sets in and Monarchy May be Proclaimed in Pekin.

Pekin, March 8.—The diplomatic representatives of the foreign powers held a conference yesterday and decided to continue the guards along the railway to Chinwangtao, in spite of the fact that the river is now open from Tientsin to the sea. Additional soldiers will be necessary, as the effect of the present guard is only moral.

The possibility is widely discussed of the Manchus taking over the city and proclaiming a monarchy again The Chinese papers print this suggestion, but as no Manchu leader has been forthcoming in the past six months it seems hardly probable that one can be found now.

The killing of many whose queues had been cut off, the attack on the Nanking delegates at the first outbreak and the desertion of Yuan Shi Kai by his soldiers, all indicate the reactionary feeling. Furthermore, the Republican flags which for a time decorated every house in Pekin, by order of the police are now displayed only on the Government buildings, although the dragon flag has not reappeared.

A party from the British legation is returning to Pekin with the body of Rev. F. G. Day, a missionary of the Church of England, who was killed Wednesday by mutinous soldiers near Paotingfu.

Foreign Powers Lend Money.

Shanghai, March 8.—A banking syndicate representing the four powers, Great Britain, the United States, Germany and France, yesterday paid over 1,000,000 taels, approximately $700,000 to the Provisional Government of China. It is expected that within a week from now 7,000,000, approximately $4,900,000 will be handed over at Nanking and Pekin.

Japan Holds Neutral.

Tokio, March 8.—Viscount Uchida, the Japanese Foreign Minister, replying to an interpellation yesterday in the House of Representatives, reiterated Japan's adherence to the policy of strict neutrality in the Chinese situation. He emphasized Japan's special interest in the south of Manchuria and also expressed the readiness of Japan to despatch more troops should the necessity arise.

The Daily Review

FRIDAY, MARCH 8, 1912.

DR. MARCHANT'S REPORT

The report on the schools of the province, which has been in preparation by Dr. Merchant, was presented to the Legislature on Wednesday afternoon. It is comprehensive and able. It has occupied his time from November, 1910, until early in February, of this year.

The report discloses that there is a painful lack of efficiency in many of the rural schools, especially in those which are spoken of as bilingual. The name is really not descriptive, in that it does not convey an idea of the true state of affairs. There are schools which may be called English-French schools, and in which both languages are taught. Dr. Merchant frankly reports that his impression is that where the French language is used to instruct in the very first classes, that its use is continued on, and that English is only taught as a study. The reason assigned for this is the impossibility of securing teachers qualified to teach both English and French, and to make use of the latter only, as an aid to learning English. A very great disadvantage under which many of the schools are laboring is the lack of adequate qualifications in the teachers. Sixty-nine of the teachers have no certificates; 141 have temporary certificates; 34 have renewed district certificates; 118 have English-French third-class certificates; only 47 have second-class certificates. The academic attainments of the teachers holding temporary or or certificates are by no means high. Dr. Merchant found a considerable number of teachers whose knowledge of English was insufficient to qualify them to teach English pupils. Twenty-two are practically not English-speaking, and 18 others are unfitted to be teachers of English. English is a subject of study in all the schools visited, but progress in the language is extremely slow in many of them. In the Roman Catholic Separate schools of eastern Ontario and the Public and rural Roman Catholic Separate schools in the districts English is regarded simply as one subject among others in the course of studies, and French is employed in teaching all other subjects.

The report deals with the matter purely, and as it should, from an education point of view. It makes no suggestion as to any tendency to turn the schools from English to French with the idea of fostering the use of the French language, that Ontario, or parts of it, should grow to be more French than English. That view is for the province, at large, and is held by many. What the province may do to counteract such tendency is for the future.

In matters of education, as in matters of physical and material progress, we come back in the last analysis to money. Divested of surrounding influences, the whole matter there hinges. What is needed is an ample supply of teachers fully fitted to teach English and French, as an auxiliary, if French must be used as a means of communication in the very early classes and with very young pupils.

Manifestly the thinly populated districts cannot bear the expense. Where will it fall? On the province as a whole. It will require the expenditure of a large sum of money to equip our teaching facilities to teach teachers. It will call for larger remuneration to make the profession attractive and to retain in it experience teachers who now leave it it for other fields.

NOTE AND COMMENT

St. Catharines has put up a three-day campaign in favor of its Board of Trade, and increased the membership from 35 to 350. The chairman said that over one thousand mechanics would be required in the city in addition to those already employed, during the summer.

The Marriage Law case will be submitted to the Supreme Court on Monday. Wallace Nesbitt, K.C., of Toronto, and Eugene Lafleur, K.C., Montreal, will argue that the federal government has both right and power to pass a general law for the Dominion. Associated with the eminent counsel will be Mr. Hellmuth, of Toronto.

An increase of 20 per cent, the advance demanded by the American coal miners, would, if granted, add to the cost of coal as now mined, $20,000,000 annually. This would have to be paid by the operators or consumers. There is not much fear that the operators will pay it, and the only recourse is to fall upon the consumer. It will presently be a serious matter to keep warm.

The maintenance of law and order is the first duty in any community. It is not likely that any feeling of chivalry to the women engaged in the suffragette window breaking expeditions will be allowed to interfere in a sentence that will deter others from like conduct. One may break, in Britain, nearly all the commandments and go free, but to smash John Bull's windows catches him in a spot that hurts. Hard labor seems to be the sentence expected.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucuous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifers, acting directly on the mucuous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

ANNUAL REPORT OF THE SUN LIFE

The annual report of this company appearing in another portion of this issue, furnishes interesting reading to those carrying policies in the Company and to the public in general. Insurance, particularly life, furnishes a very fair gauge of financial conditions. Such being the case, the report of the Sun Life gives a strong indication of the very healthy state of Canada's fiscal affairs.

The report shows a total volume of business in force of $164,572,073, or an increase of $21,022,?98 over the previous year.

New assurances have been increased over 1910 to the extent of $2,924,403, and the income from rents, interest, etc., by $981,881.

A surplus of $1,2?3,763 is shown for the year, and the total surplus of the Company is $4,717,073.

Since the Company's inception the enormous amount of $29,670,271 has been paid out to policy holders.

These figures and the more complete ones as given in their published report illustrate the solidity and enterprise of the Sun Life.

The secret of the success of the Company's operations lies in the fact that they have placed the interests of their policy-holders first — that their investments have always been made in the safest and strongest propositions and that their management is composed of men whose known probity and business acumen gives to them the unhesitating confidence of their business associates and the public at large.

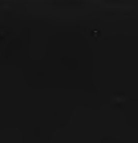
It should be with considerable pride and satisfaction that these gentlemen present this year's very gratifying report.

Alberta Publicity Car at Peterboro March 13th

The Camrose Publicity Club have arranged for a special Grand Trunk Pacific Tourist Car to contain the exhibits of the province of Alberta, to tour Eastern Canada with a view of attracting further settlement to that province.

This car will arrive in Peterboro at 8.10 a.m., March 13th, and will remain on the station siding at the Grand Trunk Depot until 5.35 p.m. the same day.

Everybody interested in this great country are cordially invited to pay this car a visit.



Wood's Phosphodine,

THE MARKET

Latest Quotations in Grain Dairy Products, Live Stock Etc.

CHICAGO, March 7.—Free selling by speculators in wheat to-day hardened the market down. Rose-colored reports of the condition of the winter crop furnished a pretext. Closing prices were easy, 1-8c to 1-2c under last night. The outcome in corn was a decline of a shade to 1-8c, oats finished 1-8c to 3-8c down, and hog products at a decline of 10c to 30c.

The Liverpool market closed to-day on wheat ½d to ¾d higher than yesterday, and corn ¾d to 1d higher. Buenos Ayres wheat was ⅝c to ⅞c higher. Paris, Antwerp and Buda-Pest closed unchanged.

Montreal Grain and Produce.

MONTREAL, March 7.—There was an increased demand from foreign buyers for Manitoba spring wheat for nearby shipment and a fair demand for May-June, but as the prices bid for the latter were out of line and no ocean freight available for the balance of this month, little business was done. The demand for oats is fair and sales of several loads were made for May-June shipment at profitable prices. There is a good demand for oats for local and country account and all the offerings met with a ready sale.

An active business continues to be done in flour and some large sales were made for April-May and May-June shipment, but bids on winter wheat flour are away out of line. The demand for mill feed is good and sales of full carloads of bran were made at $26 and millers in some cases are asking $28 for shorts. Butter is firm under a fair demand. Eggs weak and much lower on increased receipts. Demand for provisions fair.

Corn—American No. 2 yellow, 77½c.

Oats—Canadian western No. 2, 53c to 53½c; do., No. 3, 51c to 51½c; extra No. 1 feed, 52c to 52½c; No. 2 local white, 50½c to 51c; No. 3 local white, 49½c to 50c; No. 4 local white, 48½c to 49c.

Barley—Malting, $1.05 to $1.10.

Buckwheat—No. 2, 72c to 73c.

Flour—Man. spring wheat patents, firsts, $5.70; seconds, $5.20; strong bakers, $5; winter patents, choice, $5.10 to $5.35; straight rollers, $4.65 to $4.75; do., bags, $2.15 to $2.25.

Rolled oats—Barrels, $5.05; bag of 90 lbs., $2.40.

Bran—$25; shorts, $27; middlings, $28; moullie, $30 to $34.

Hay—No. 2 per ton car lots, $15 to $15.50.

Cheese—Finest westerns, 15¼c to 15½c; finest easterns, 14½c to 15c.

Butter—Choicest creamery, 33c to 34c; seconds, 32½c to 33c.

Eggs—Fresh, 30c to 33c.

Potatoes—Per bag, car lots, $1.65 to $1.70.

Dressed hogs—Abattoir killed, $10.75 to $11; do., country, $9.75 to $10.

Pork—Heavy Canada short mess, barrels, 35 to 45 pieces, $22.50; Canada short cut backs, barrels, 45 to 55 pieces, $22.

Lard—Compound tierces, 375 lbs., 8¼c; wood pails, 30 lbs., net, 8¾c; pure tierces, 375 lbs., 11¾c; pure, wood pails, 20 lbs. net, 12¼c.

Beef—Plate, barrels, 200 lbs., $14.50; do. tierces, 300 lbs., $21.50.

Liverpool Grain Prices.

LIVERPOOL, Mch. 7.—Closing—Wheat—Spot, firm; No. 1 Man., 8s 6d for May; futures, steady; March, 7s 11⅝d; May, 7s 6¼d; July, 7s 5½d.

Corn—Spot quiet. American mixed, new, 6s 4d; old, 6s 11d; do., new, kiln dried, 6s 6½d; futures, strong; March, 6s 2¾d; May, 6s 2⅝d.

Flour—Winter patents, 28s 9d. Hops in London (Pacific Coast), £10 to £11 5s.

Duluth Grain Market.

DULUTH, March 7.—Wheat—No. 1 hard, $1.08⅝; No. 1 northern, $1.07⅝; No. 2 northern, $1.04⅝ to $1.05⅝; May, $1.06⅞; July, $1.07¾.

CATTLE MARKETS.

Toronto Live Stock.

TORONTO, March 7.—The railways reported 79 carloads of live stock at the City Yards, comprising 828 cattle, 3369 hogs, 142 sheep and 104 calves.

Butchers.

Best heavy steers, $6.40 to $6.60; prime butchers, $6.10 to $6.30; loads of good, $5.75 to $6; medium, $5.40 to $5.65; common, $5 to $5.30; inferior, $4.50 to $4.90; cows, $3 to $5.25; bulls, $4 to $5.60.

Stockers and Feeders.

Feeders, 800 to 850 lbs., $5 to $5.25; stockers, $4 to $4.50.

Milkers and Springers

Receipts during the week have been liberal, but too many of the common and medium, which had the tendency to depress the market. Prices ranged all the way from $30 for inferior to $105 for superior quality cows. The general run was from $45 to $70 each. At the close of the week, prices were reported by the dealers to be from $5 to $10 per head lower than on Monday last. See the many sales given below.

Veal Calves.

Prices for veal calves remain steady at $4 to $8 per cwt.

Sheep and Lambs.

Sheep, ewes, sold at $4.50 to $5.25 per cwt.; rams, $3 to $4; lambs, $6 to $7.50, with selected lots of ewes and wethers at a little more money.

Hogs.

Selects, fed and watered, sold at $7 to $7.10, the latter price being for standard weights; hogs, f.o.b. at country points, $7.75 to $7.85. Mr. Harris complains of too many light hogs coming forward.

East Buffalo Cattle Market.

EAST BUFFALO, Mch. 7.—Cattle—Receipts, 50; market, quiet, steady; prime steers, $7.50 to $8; butcher grades, $3.50 to $6.90.

Calves—Receipts, 200; market, active, steady; cull to choice, $6 to $9.50.

Sheep and Lambs—Receipts, 5000; market, active, 25c higher; choice lambs, $7.25 to $7.50; cull to fair, $5.50 to $7; yearlings, $5.75 to $6.25; sheep, $3 to $5.65.

Hogs—Receipts, 3400; market, active, steady; yorkers, $6.80 to $6.90; pigs, $6.15 to $6.25; mixed, $6.80 to $6.90; heavy, $6.75 to $6.85; roughs, $5.50 to $6.10; stags, $5 to $5.50.

Chicago Live Stock.

CHICAGO, March 7.—Cattle—Receipts, 7500; market, steady; beeves, $5 to $8.85; Texas steers, $4.70 to $6; western steers, $5.10 to $7.10; stockers and feeders, $4.10 to $6.15; cows and heifers, $2.25 to $6.70; calves, $6 to $8.50.

Hogs—Receipts, 35,000; market, 5c to 10c lower; light, $6.20 to $6.47½; mixed, $6.20 to $6.50; heavy, $6.25 to $6.55; rough, $6.25 to $6.35; pigs, $4.60 to $6.20; bulk of sales, $6.35 to $6.45.

Sheep—Receipts, 18,000; market, strong; native, $3.75 to $5.30; western, $4 to $5.55; yearlings, $5.10 to $6; lambs, native, $5 to $7.15; western, $5.50 to $7.35.

Lady Betty Across the Water

By C. N. & A. M. WILLIAMSON

Copyright, 1906, by McClure, Phillips & Co.

As for their voices, they were the sweetest I'd heard in America—soft and a little throaty, with a peculiar quality, quite different from the voice of a person who hasn't been dipped in cafe au lait. With their vivid red caps, their brilliant eyes and their lightning flash smiles they looked to me more like great, wonderful tropical birds than human beings, and they seemed so honey luscious in their good nature that I'm sure all the things that serious and learned people say in England about the "dangers" of the increasing colored population in America" must be nonsense. Serious and learned people do make such mistakes through never seeing the fun in anything, and every few years they find out that they have been quite wrong in what they have taught with so much trouble, about comets and microbes and men and other progressive things.

We had a number of these tropical birds that have been tamed to serve the railway, to help us with our bags and things getting into the train, although there were Louise and a couple of Mrs. Ess Kay's footmen as well. I looked at their brown hands, and they were quite pink inside, as pink as mine. I don't know why this gave me a shock, but it did. Perhaps one had the feeling that the nice creatures were only painted to play their parts or that their white souls—just like ours—were striking through their skins.

It was a beautiful train. Even the engine was different from our kind, much fiercer and reared its head higher, like a wild stag compared to a stout but reliable ox. Our carriage had no compartments in it, but was just one long, wide, moving corridor, all plate glass windows and mirrors and painted panels and velvet arm chairs dotted about rather like a hotel drawing room on wheels.

There were a good many people in it when we got in, which annoyed Mrs. Ess Kay so much that she wished she had borrowed a private car from a friend who would have loved lending it. But I was glad she hadn't, for the people were part of the fun. Mrs. Ess Kay was sure they were nobodies because she didn't happen to know any of their faces, but perhaps they were thinking the same thing about her.

Anyway, they were mostly women and all pretty and perfectly dressed, as even quite common people appear to be in America. I haven't caught sight of a dowdy woman since I came. None of their frocks hitch up in front and dip down behind, as you see people's doing if you are taken to a shop in Oxford street or even sometimes in Bond street, and their belts always point beautifully down at the waist, although it isn't the season in New York.

The train was a fast one and simply hurled itself and us through space, as if we had got onto the tail of a comet by mistake, but it hardly waggled at all, so that we could have studied the scenery nicely if we had been able to see it behind the advertisements.

Passing the outskirts of New York, it seemed as if every villa, even the quite smart ones, did their own washing. The gardens—which Sally told me to call back yards—were just as full of clean clothes as the meadows were of advertisement hoardings, and I rather wondered why some enterprising agents didn't go around and offer the people big prices for painting advertisements on their petticoats and shirts.

We tore through such charming places with fascinating houses built of wood, among parks of feathery green trees, that I was sure Newport could be no prettier, but Mrs. Ess Kay spoiled the most picturesque one for me by saying that it was practically settled by retired butchers and tailors. According to Mrs. Ess Kay and her brother all you have to do to be sure of being rich in America is to decide to be either a tailor or a butcher, so it seems quite simple, and I'm surprised that everybody doesn't do it. Only if you do, it appears there is no use in your going to Newport until you've lived it down, which, of course, must be a drawback.

Just as I had got rather giddy from looking out of the window, a boy (exactly like the boys in melodrama who begin by selling papers and end by saving the heroine from the villain) came into the c[illegible] piled up to his head with novels and magazines. He scattered a lot over us, like manna, without asking us to pay, but just as I had got passionately interested in a short story he came back and began to gather everything up. Seeing that I clung to my lot, Potter bought them all for me before I could stop him.

There were two books and four magazines, with superlatively good looking, well groomed young men and divinely lovely girls for the heroes and heroines. The story I was most interested in had a hero like Mr. Brett; but it was disappointing in the end, because he married a short plump girl with black eyes, and somehow it spoiled the realism, as I couldn't fancy he would really have cared so dreadfully for a girl like that. Anyway, it put me out of the mood for reading any more stories and I began glancing over the advertisements. At least, I glanced at first, but soon I was absorbed; for they were wonderful.

I had never dreamed that there were such kind, thoughtful men in business as the ones who advertised in those fat American magazines—and so clever, too; they seemed to have spent their whole past lives simply in studying things, so that eventually they could make you happy and save you trouble.

To be continued

When a man tells me he was a soldier in the rebellion, I never ask him if he was ever in a battle; he is so humiliated if he wasn't.

SANOL

The new discovery will positively remove Gall Stones, Kidney Stones, Gravel in the Bladder, and will effect a complete Cure. It will dissolve and remove stones without pain, and there is no necessity for an operation in the future, as Sanol will cure in every case no matter how long standing the disease may be.

SANOL will be found particularly valuable in old cases of Kidney and Bladder diseases.

SANOL is a preparation of herbs and herb extracts, and contains no poisonous ingredients. It's use, therefore, cannot possibly harm either the stomach or intestines.

Sanol per bottle $1.50

Get it from McDERMID & JURY, Druggists, Peterborough, or direct from The Sanol Manufacturing Co., Winnipeg, Man.

SOME OPINIONS ON PAVING OF GEORGE STREET

What Business Men Have to Say on the Subject

Now that the proposition to pave George street or some portion of it is being debated by the civic authorities, an expression of opinion from some of the merchants and store keepers on George street was obtained to-day by the Review which will reveal just in what light they look upon the plan. It will be noticed that there are no dissenters to the proposed improvement to the roadway, but what is objected to is the fact that it will mean an increased taxation.

Mr L. Potvin, the confectioner thought it would be a splendid thing for the city and that "we ought to have it." "There is no doubt but what it will come in time," he remarked, "but there is much to be considered before the work of actual paving can be commenced, one of which would be the removal of the poles. Another, the providing of an adequate and suitable system of drainage." It would mean to him however, as to everybody else, the raising of the taxes.

Mr. R. J. Soden, expressing himself on the matter said: "It means that I will be taxed for something for which I will be receiving no material benefit, but instead the landlord will benefit by it. Were my store my own it would be a different proposition, and would represent increase valuation for my place of business." Mr. Soden felt that the real trouble as far as the proposition was concerned in Peterboro was owing to too much land lordism in the city, and which meant that the revenue from the pavement taxation would go into practically three or four companies. Pavement on the road however would be a valuable asset for the city.

In other places "Mr. Soden said conditions were different and that there was a more equal division of the ownership of property." The majority of the merchants and storekeepers with whom I have conversed feel as I do on the matter," he said in conclusion.

Mr. Harry Adams when asked to venture his opinion, replied that he couldn't see that it would increase business in any way, but would simply mean an increase in the tax rate, without any returns. He felt that the merchants on George street were paying enough as it was in taxes, and that they were unanimous in feeling opposed to being taxed to meet the expense of the paving.

"It will benefit the landlords," he added, "but not the tenants."

Another merchant who was interviewed stated that if the owners of the stores and buildings would provide for the expense, and not put it on their tenants the plan would be most popular.

Indeed, as will be seen, the general feeling of all who were called on, was that it would be unfair and a hardship to be compelled to pay for the pavement through a levying of higher taxes.

THE TIMBER HAULERS FOR THE LIBRARY

Picture Presented to Board by Mr. W. E. Lech

The Public Library Board met last evening in the library building, with the following members present:—Messrs. E. H. D. Hall, A. Mowat, H. R. H. Kenner, J. Corkery, H. Ritchie and D. Spence. In the absence of the chairman Mr. Mowat acted as chairman pro tem.

PICTURE DONATED.

The librarian reported that Mr. W. E. Lech had offered to donate a picture by C. W. Turse, A.R.A., "The Timber Haulers," to the library. The offer was accepted and the thanks of the Board tendered to Mr. Lech for his valuable gift to the library.

A letter was read from G. O. Carlisle, asking for the use of a room in the Public Library to hold meetings on Thursday afternoon, from 4.15 to 5.15, of the Collegiate Club, an organization of young men of the Collegiate Institute. The request was granted.

A letter was read from W. R. Nursey, Inspector of Public Libraries, informing the Board that he had shipped on the 4th Inst., by Dominion express, travelling case No. 167, containing 33 books of a technical character.

Mr. DelaFosse presented a report of the Library Institute meeting, of this district held at Oshawa last Tuesday. Forty delegates were present and excellent papers were read. In the evening the delegates were banqueted.

FINANCE REPORT.

Mr. Corkery read the report of the Finance committee, which, on motion of Mr. Corkery, seconded by Mr. Hall, was adopted, recommending the payment of the following accounts:

J. Ellam	$ 7.15
Library Bureau	4.80
Otonabee Power Co.	12.25
Otonabee Power Co.	12.40
Roy Studio	12.40
J. J. Shadgett	7.00
Trebilcock Bros.	2.45
F. M. DelaFosse	14.00
Higgins Hardware Co.	2.50
F. J. R. McPherson	.78
Peterborough Typewriter Co.	6.00
R. J. Soden	2.25
R. J. Soden	150.00
Henry Vernon	2.25
Porter S. White	.53
White Bros.	1.25
C. B. Routley	1.00
Canadian Express Co.	.75
Peterborough Examiner	4.00

Mr Ritchie presented the report of the Library Committee as follows:

1. That Mr. Ritchie be chairman of the committee.

2. That a suggestion book be placed on the receiving desk.

3. That Mr. Peck, M.P.P., be requested to interview the department with reference to securing the use of the travelling technical library for Peterborough.

4. The tender of Trebilcock Bros. has been accepted for the supply of books amounting to $180.00.

The report of the Library Committee was received and adopted.

Twelve large size pamphlet cases, twelve small pamphlet cases, and twelve magazine covers, same as sample, will be purchased.

Mr. Hall was authorized to have the materials from the museum placed in position in the library, and, if necessary, secure the services of a capable man to do the work.

The jury in New York trying the members of the Scheftels firm of mining brokers are getting weary. The case has been in progress now five months.

books and newspapers that there is a high standard of perfection which people might easily attain, but stubbornly refuse to accept. But I believe people do about the best they can

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

Is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

CARTER MEDICINE CO., NEW YORK.

Small Pill. Small Dose. Small Price.

A 10c CAKE OF INFANTS' DELIGHT FREE

On Saturday we will print a Coupon in this paper good for a regular 10c cake of Infants' Delight Soap, Free with a 25c purchase of Taylor's Borax Soap.

Taylor's

Infants' Delight Soap (for the toilet)

10c

We want you to know how superior this soap is for toilet, bath, or for the baby. So we are going to give you a full-sized cake, worth 10c. when you buy 25c worth of Taylor's Borax Soap.

Clip the coupon on Saturday, and your dealer will supply you with this cake to try without cost.

Taylor's Borax Soap (for the laundry)

5c

Twice as good as ordinary soap for the same money. A cleanser and purifier as well. The borax softens hard water and makes washing easy. It whitens and sweetens the clothes, and lessens the amount of rubbing necessary.

Buy 25c worth on Saturday and learn the difference. Find out how the borax and pure cocoanut oil combine to make a powerful cleanser—a better soap than you supposed possible before.

Watch for the Coupons

The minstrels will be strengthened by the presence of the Ark quartet, who will sing.

There will be no admission charge, only a silver collection.

New Barber Shop

The pool parlors formerly operated by the late Fred E. D'Arcy will be taken over by Wm. Spence, the barber, and operated in conjunction with a two chair barber shop in the same quarters.

SINGING OF THE NATIONAL ANTHEM

Forgetful Ones at the Grand Opera House Reminded

Those in the audience at the Grand last evening who attempted to put on their hats and coats previous to the singing of the National Anthem were mildly reproved by Mr. G. A. Mitchell, of the I. O. F. who delivered the address of the evening.

Mr. Mitchell thought that an audience should regard the National Anthem, "God Save the King" in the nature of a prayer, just the same as any other prayer. It would therefore be openly showing disrespect for people to busy themselves donning hats and leaving a hall while a prayer was in progress. As he added it was impossible for any one to properly sing the National Anthem, when perhaps two ladies sitting near were busy jabbing in hat-pins and in other ways detracting attention.

The consequence of Mr. Mitchell's reproof was that "God Save the King was sung better last night than it has been sung in the Opera House for some time.

POULTRYMEN ENTHUSIASTIC

Local Breeders Received Inquiries for Stock and Eggs

The regular monthly meeting of the Peterborough Poultry Association was held last night in their hall on Simcoe street. Mr. Fred Holmes, President, was in the chair. There was a fair attendance and considerable business of importance was transacted. The members are becoming more enthusiastic than ever, as was evidenced by the manner in which they took part in the many discussions of vital importance to the Association.

As an evidence of how the poultrymen are advertising Peterborough, many of the members of the Association reported having received numerous inquiries for stock and eggs from points all over Canada and many from Uncle Sam's domains.

As a result of a discussion last evening on a more efficient manner for advertising their stock and eggs for sale, the breeders of the city have decided on a unique scheme, which, if carried to a successful issue, should prove very satisfactory to all concerned, and for the benefit of those who were unable to attend the meeting last night, it was decided to leave the plan at the store of Mr. J. T. C. Lang, George street where they can call and examine it, and obtain further information regarding the same.

The officers would like to see a full house at the next meeting, as it will be of great interest to all. There will be several varieties of birds on exhibition and the competition promises to be keen. There will also be a paper read by Mr. J. H. Callander on "The Producing of Early Chicks." This should prove of great interest and benefit to the members, more especially at this season of the year.

Golf and Country Club

A meeting of the Shareholders of the Peterborough Golf and Country Club will be held in the Bank of Montreal Chambers on

Saturday Evening,

9th inst., at seven-thirty o'clock.

Business:

The election of Directors.

A meeting of the playing members will be held at eight-fifteen o'clock the same evening, to elect captains and committees for the coming season.

A girl who can sing a little, and who thinks she is a great singer, is to be sincerely pitied.

OBITUARY

Mr. Chas. Holland

The death occurred yesterday afternoon of Charles Holland, son of the late Steven Holland of Peterborough. The late Mr. Holland was born in the city and lived in Peterborough for twenty-three years, and up to the time of his demise. The deceased was for some time a cigar maker, and engaged in other occupations in this city. He was well known and his many friends will be sorry to learn of his death.

The funeral will take place to-morrow morning at ten o'clock from the family residence, 525 Concession St., to St. Peter's Cathedral and from there to St. Peter's Cemetery.

Chief Engineer Safford of the Grand Trunk is making a tour of inspection of the Temiskaming and Northern Ontario line in connection with it's use by the G.T.R. as a link between Cochrane and the West.

CAPACITY AUDIENCE ATTENDED GRAND I.O.F. ENTERTAINMENT

Membership Campaign to be Inaugurated—A Stirring Address by G. A. Mitchell, D.S.C.R.—Meritorious Musical Program Supplied

Most gratifying indeed from every standpoint was the grand concert and open meeting of Court Chemong No. 530 I.O.F., held last evening patronized by an audience that filled the house to the doors. Long previous to the commencement of the entertainment standing room was at a premium. Even the gallery boys were in evidence.

Neither was there any mistaking the enthusiasm and pleasure derived by the capacity audience from the whole affair. It is rare indeed that such an entertainment and treat is provided absolutely free, but yet such was the case. In addition, the generosity and liberality of those who supplied such an enjoyable and decidedly meritorious program is deserving of the very warmest and most sincere praise.

A little explanation might be in place here, giving the reason of the affair and of its object. To begin with, the Independent Order of Foresters are inaugurating a membership campaign in the city in the endeavor to add five hundred new members to their strength. With this commendable purpose in view two capable and energetic officers namely Bros. W. J. Wilson, D.S.C.R, of Perth and Bro. R. Nimmo, J.P., D.S.C.R., will remain in Peterborough in charge of the campaign. These two members are simply bubbling over with fraternalism and their stay in the city should meet with a large and gratifying measure of success.

Mayor Bradburn very ably officiated as chairman. On the platform were Bros. Powell, Wilson, Nimmo and Mitchell. His worship in a few appropriate words conveyed to the vast audience the sincere thanks of the I.O.F. for their flattering patronage. He wished the I.O.F. every possible success in the city and hoped that Peterborough would always be able to rejoice in her splendid spirit of fraternalism.

The program which followed supplied by Miss Maud Bigwood, soprano soloist, Miss Lillian Dillon, pianiste, and Mr. Harvey Lloyd, all of Toronto, was full of pleasure to all. There was not one dull moment during the entire evening and sufficient variety was introduced by the accomplished artists to please the most fastidious.

Miss Dillon in several excellent piano selections won instant favor with the crowd. She supplied a program of numbers varied and skilful. Miss Dillon has acquired a splendid reputation as a pianist of skill and versatility. Her playing is marked by wonderful fingering and in every sense her technique is superb. The most difficult selections are rendered by her with accomplished accuracy and her performance delighted all. A couple of duets in which she participated were most popular with the audience and demanded persistent encores.

Miss Maud Bigwood as a soprano soloist, has few equals. She was favorite with the house. She is in possession of the happy faculty of being able to adapt herself to any class of song and her powers of mimicry and imitative ability is unlimited. The crowd simply could not get enough of her singing and her every appearance was enthusiastically encored.

Her splendid rendition of "My Hero," the popular opera selection was extremely well received. Miss Bigwood has a most winning stage presence and her simple unaffected demeanor was in a large measure responsible for her popularity.

It remained for Harvey Lloyd, however, to tickle the humor of the audience. This famous comedian needs no introduction. He is veritably a king of fun makers. The humor is apparently inherent in him and it must find an outlet. His remarkable versatility and ability to amuse and create laughs place him in a class of his own. Every time he appeared the crowd called insistently for more and with great liberality he saw that they were not disappointed.

The main part of the evening, however, was taken up by a stirring and stimulating address delivered by G. A. Mitchell, D.S.C.R., superintendent of field work, on the subject of "Benevolence." In selecting Mr. Mitchell for the work in hand the I.O.F., have made no mistake. He grips and holds the attention of his audience the moment he begins to speak. The address delivered by him last evening was based upon the great fundamental principles of fraternalism and was well calculated to arouse the thoughts of men and cause them to observe the great benefits that accrue from membership in a fraternal organization. The address was broad and unbiased and was applicable to every man, woman and child.

In commencement Mr. Mitchell paid a tribute to the Grand Opera House and its management. He considered it to one of the cleanest and most modern buildings that he had encountered in his travels for some time. Mr. J. J. Turner, sr., he classed as a most benevolently disposed gentleman.

Mr. Michell told a very touching story of a youth who had been induced to associate himself with the I.O.F.

The young fellow, indeed he was a mere boy, came to Canada as an immigrant. He left a widowed mother in England and he was her only support. He hired with a farmer in the vicinity of Streetsville. Through the agency of a prominent Streetsville resident he was induced to join the I.O.F. Soon after the young fellow was killed by a fall from an elevator in Toronto. The Order looked after his funeral, gave a respectable burial; wrote to his mother in England, informing her of his sad end and forwarded to her a check for $500. Mr. Mitchell told the story graphically and used it as a strong argument in favor of fraternity.

At the conclusion of the address the remainder of the musical entertainment was given. This was followed by a neat vote of thanks moved by Mr. Powell to the entertainers of the evening and to Mr. Mitchell.

The hearty singing of the National Anthem brought the evening to a conclusion.

Remember the Charlotte St. Church Mission Band Sale, Friday Evening, March 8th. Admission 10 cts.

St. Paul's Church

Preparatory service in connection with communion will be observed in St. Paul's church to-night at eight o'clock. It is expected that almost forty members will be received.

Better Farming Lectures

On March 12th, from 12.45 p.m., to 3.15 p.m., lectures pertaining to "Better Farming" will be given in a special train at Peterboro under the Department of Agriculture of Ontario.

SPRIGS OF SPORT

Bright Liners on Athletic Topics

MUCH HOCKEY MATERIAL DEVELOPED THIS SEASON

Hockey, the great winter pastime, in Canada, has been practically shelved again. The fans in general have had about enough of this sport to satisfy them for another season. This has been sufficiently demonstrated by the small attendance at the exhibition games of late.

Taken altogether, the success attained this season, has been most gratifying. The Ontario Hockey Association had a very prosperous winter. Unlike other seasons, there was an almost unbroken period of fine weather for the playing of the schedule games, and the ice is good almost everywhere even yet. The championships of the different series, senior, intermediate and junior, were decided earlier than usual and satisfactorily. The three champion teams are undoubtedly superior aggregations. The Preston Intermediates, twice winners, are likely to receive senior rating next season, and the Toronto Canoe Club seven, Junior champs, may receive the same attention. The Eaton seniors are indeed a splendid seven and all eyes are turned towards them at Winnipeg, where they are, in an attempt to wrest the Allan Cup from the Victorias and bring it East again.

LOCAL O. H. A. TEAMS

Locally, the results have been most pleasing. At the beginning of the season it was known that there was enough material here to send out an Intermediate seven, who would make a good showing, but everyone was in the dark as to the Juniors. There were several surprises sprung on the followers. Stars from last season's Mercantile League, developed into real stars when introduced to O.H.A. company. It was several times predicted that the Juniors would not get out of the district. When they put one group after another away, they were heralded as possible Junior Champions. They were put out of the running in the semi-finals, by the Orillia Younkers, the only team to beat the Toronto Canoe Club seven during the season. The Peterboro Hockey Club, financially, is on a very strong footing. The annual meeting for the election of officers and an executive will likely be held in the Spring instead of in the Fall as heretofore. It would thus give the officers more time to get in touch with the situation and keep tab on the players.

TRENT VALLEY

In the Trent Valley League, a local seven were also semi-finalists. The T.A.S. team, which was put out of the running for the championship in Lakefield on Wednesday night, has made a splendid showing in this league. Though the league could not be called a financial success, in so far as the local teams were concerned, it served the purpose of the several minor hockey leaguers. It gave players who would otherwise get very little hockey, a chance to develop. One or two from the T.A.S. line will be seen making a strong bid for a place on one of the Peterboro O.H.A. sevens next season.

MERCANTILE

The Mercantile League is well under way, and the finals will be played in a few days now. The championship will either go to the Bell Telephone of Tool Room Clubs. As was the case before, there will be a number of Mercantile Leaguers in the race for a place on the teams to represent the city next season.

It would surprise the ordinary fan should he be told of the number of scratch matches that have been played at the Brock street rink this season. Excepting on Saturday nights, skating has been practically eliminated from the program as it has been possible to rent the rink for every available hour for hockey. And a great number of these matches have been amongst youngsters. This is bound to have the result of developing any promising material and the problem of where the players for a few years hence are to come from will be an easy one.

Here is hoping that Peterboro lands at least one championship next year

RUSTLERS WON FROM THE COLTS

An interesting game of hockey was played at the Brock street rink last night between two teams of youngsters, by the names of Rustlers and Colts. The former seven, won 10—1. Richardson for the winners and Merritt for the losers were most prominent. The line-ups were as follows:—

Rustlers — Hall, Kingscote, Johnston, Richardson, Smith and Stevenson.

Colts—Darrow, Jones, Doughty, Merritt, Carr, Powell and Hill.

Elrick White refereed.

HIGHEST RECORD IN ONTARIO

To hold the record for a whole province is a very creditable thing, and this falls to the share of the Keene Curling and Skating Rink as being the only organization in the province that pays an annual dividend of never less than 16 per cent.

The present rink was originally built as the agricultural exhibition hall for the township society. The society was not very prosperous, and the first rink building being pretty well out of date, in 1855 the building was bought by the Curling Rink Co. and lengthened, making room for two sheets of ice. It is seldom empty. On stormy days and wet days in winter the men of the village hie to the rink and put in a good time, and the village has turned out many a victorious rink of curlers

The young people of the village make liberal use of the ice for skating and the annual carnivals are always well attended.

BENEFIT FOR BRUCE RIDPATH

Ottawa, March 8.—The benefit exhibition match for Bruce Ridpath, the former Ottawa right wing player, will take place in Ottawa on Wednesday next, the Ottawas opposing an all-star team chosen from the Canadien and Wanderer clubs. The champion Quebec men had also offered their services, but as they will be playing a Stanley Cup game against Moncton that night, their presence will be out of the question. The game will be played with seven men a side and the old penalty system and as an added attraction "Cyclone" Fred Taylor will figure on the defence of the all-stars. The Ottawa, Wanderer and Canadien players have offered their services gratis, and Manager Dey has placed the Laurier Avenue Arena at the disposal of the clubs. The arrangements are in the hands of Charlie Irvin and Pete Green for the Ottawas, and it is likely that the all-star team will consist of the following:

Vezina, Canadiens, goal; Ross, Wanderers, point; Taylor, Ottawa, cover; Laviolette, Canadiens, rover; Russell, Wanderers, centre; Pitre, Canadiens, and Odie Cleghorn, Wanderers, forwards. The receipts will be turned over to "Riddy." An Ottawa sporting goods man will donate sweaters to the all-star team.

COMMERCIALS WERE DEFEATED

Form I.C. of the P.C.I. defeated the Commercial I. team yesterday, on the Brock street rink. The half time score was 2—0, and the full time score 6—0 in favor of I.C. Lowes, Letellier and McCarthey were the most prominent for the winners, and Hesslip, Fair and O'Connel for Commercial I. Blanchard played a good game in goal. The teams were:

Form IC.		Commercial I.
Lipsett	Goal	Blanchard
Elliott	Point	Hesslip
Lowes	Cover	Davidson
McCarthey	Rover	Fair
Huycke	Left	Moher
Hayes	Right	O'Connel
Letellier	Centre	Payne

Referee—Mr. Ferguson, of the P.C.I. staff.

LOCAL CURLERS WILL HAVE TO SHIP TROPHY BACK TO ORILLIA

The Neill-Sheppard trophy, that has been competed for annually since the year 1904, by the Peterborough and Orillia Clubs, goes to Orillia this year. Last year the local curlers captured the cup but this year Orillia has a 22 shot margin in their favor, they defeating the local curlers yesterday afternoon in Orillia by 11 shots. Orillia won here by the same number of shots.

Out of the four games only one fell to the lot of Orillia, two being tied and one won by a Peterborough rink.

Skip Lang lost under a sixteen shot lead, and Skip Morrow won on a five shot margin. The other rinks skipped by Messrs. Matthews and Neill tied their opponents. The games and skips were:—

Peterborough.	Orillia.
Lang, sk.—2	Terry, sk.—18.
Neill, sk.—10	Dr. Harvey, sk—10
Matthews, sk—14	Stewart, sk—14
Morrow, sk—13	McNat, sk.—8

The games with Orillia practically ends the curling contests as far as competitions between Peterborough and outside clubs are concerned, unless the local curlers decide to accept Campbellford's hearty invitation for three Peterborough rinks to journey to that town and indulge in some friendly games.

No games were played in the local bonspiel last night, owing to the large number of players being in Orillia for the cup games.

FINAL IN TRENT VALLEY HOCKEY LEAGUE TO-NIGHT

The fast Marmora seven will be here to-night to play a sudden death fixture in the Trent Valley League finals, with Lakefield, winners in the semi-finals against the local T.A.S. team. The Marmora team seem to be the one best bet, but Peterboro fans will be heard shouting for the wearers of the green and white.

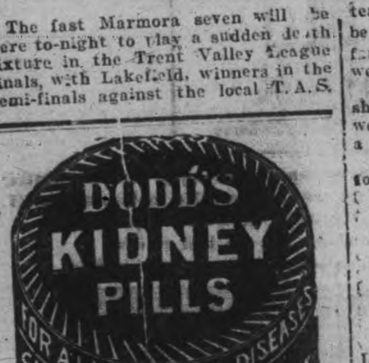
Jack Thirnbeck has a splendid sheet of ice ready and though the weather is rather mild, there will be a good hard surface to play upon.

The Lakefield seven will line-up as follows—

Goal—Hill.
Point—Roe.
Cover Point—Crawford.
Rover—Blewitt.
Centre—Simpson.
Right Wing—Morin.
Left Wing—Hill.

Harvey Sproule will referee.

Reg Bloomfield formerly with the Lindsay Intermediates Hockey team, will be seen in action for Marmora.



Senator Derbyshire has introduced a bill that motor boats be muffled.

William Alexander, Grand Duke of the little principality of Luxemburg, is dead, aged 60.

POISONERS ARE AT WORK

Three More Canines Dropped Off From Poison

Some unkindly hand has effected a generous but deadly distribution of poison in the north end of the city and as a result four unfortunate members of the canine family have been placed under the weather.

A few days ago it was announced that Mr. V. Eastwood's little fox terrier, "Laddie" had died as a result of the poisoning. Yesterday three other dogs in the same section of the city, received doses of poison, and two of them, which seemed to be the first affected by it at the corner of Antrim and George streets, succumbed. The other dog, a fox terrier, the property of Mr. J. B. Pentland, Benson, ave., is suffering severely from a very evident dose of poison, but will likely recover. The two animals which died yesterday were the property of Mrs. Butler, 148 Antrim street, and Mrs. Whiffin, 144 Antrim street, one being a small black spaniel and the other a fox terrier.

The dog nuisance may be a decided fact in Peterborough, but the person or persons who takes this method of ridding the city of unoffending canines will never have the approval of even those who are most extreme in their cries against the large number of dogs running loose on the streets.

The first Roosevelt Club of Women voters has been organized at Sunnyside, Wash., where woman have the franchise.

Principal and interest payable at The Canadian Bank of Commerce, Toronto Montreal and London, Eng.

Redeemable as a whole at 105 and accrued interest on any interest date on six weeks' prior notice, or annually for Sinking Fund drawings beginning 1st March, 1913.

Denominations: $100, $500 and $1,000
with Sterling equivalents.

Bonds issued in coupon form with privilege of registration of principal and in fully registered form. Coupon and registered bonds are interchangeable.

TRUSTEE:
NATIONAL TRUST COMPANY, LIMITED, TORONTO

The legal opinion of Messrs. Blake, Lash, Anglin & Cassels, and Messrs. Ryckman, Kerr and MacInnes, will be furnished.

Of $1,000,000 First Mortgage Bonds authorized, $500,000 are held in Treasury and may only be issued to the extent of 60% of cost of future properties, improvements and additions.

We emphasize the following salient points of this issue:

(1) Value of fixed assets as of December 31st, 1911, $605,807.45, consisting of real estate, buildings, plant and equipment. Current assets in excess of current liabilities, $814,946.20. Total assets, $1,420,753.65.

(2) Average annual net earnings for past three years (1909-1911) $191,878, or over six times the interest on bonds now issued.

(3) An annual Sinking Fund beginning March 1st, 1913, sufficient to retire the present issue by maturity at a maximum price of 105 and accrued interest.

The Dunlop Tire and Rubber Goods Company, Limited, incorporated in 1899, manufactures automobile, bicycle and carriage TIRES, BELTING for mines, grain elevators, threshing machinery and general conveyor purposes; HOSE for fire, water, steam, chemical, air drill and dredge use; PACKING, for all purposes; TILING, MATS, MOULDED GOODS and GENERAL RUBBER NECESSITIES. The operations of the Company cover the whole of Canada. Branches with excellent warehousing facilities are maintained at Vancouver, Calgary, Regina, Winnipeg, Toronto, Hamilton, London, Ottawa, Montreal and St. John, N.B.

The factories of the Company are located at Toronto. Since 1905 it has been necessary to increase the floor area of the plant from 35,000 square feet to over 150,000 square feet. The sales of the Company have increased in that period from $369,362 to $1,619,992. The main buildings are either brick and concrete or mill construction, with sprinkler system throughout, thus giving a minimum insurance rate.

Copies of the Trust Deed, the Certificate of the Canadian Appraisal Company, Limited, and the Certificate of Messrs. Price, Waterhouse & Company may be seen at our offices.

Interim Certificates will be issued pending delivery of definitive bonds.

26 KING ST. EAST TORONTO. — LONDON, ENG. — CANADA LIFE BLDG., MONTREAL.

An Ambitious City

For a city only three or four years old, Prince Rupert, the Pacific terminus of the Grand Trunk Pacific can show private residences which might well be the envy of larger and more venerable communities. Three years ago the site of the first dwelling was rock and muskeg, to-day there are well kept grounds, while lawns have been made but where a few seasons ago there was only bog and brush. It has been shown that grass, flowers and vines will flourish there to a most gratifying degree. As a matter of fact Prince Rupert, in addition to becoming a great commercial centre, will be one of the most desirable desirable residential cities of Canada in the near future. Not only does Kaien Island abound in sites of rare outlook, but the long ridges, the hills and spacious heights that characterize the city from Seal Cove to Fairview yields unrivalled opportunities for the home beautiful. Finally its environment is admirably adapted to outing and wholesome recreation.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Address: THE COOK MEDICINE CO., TORONTO, ONT. (formerly Windsor)

KILLED IN VANCOUVER

Fatal Accident to Former Peterboro Man

A telegram was received by W. F. Nelson to-day informing him of the death of Mr. Dawson, father of Edward Dawson, in a runaway accident in Vancouver, B.C., on Thursday. No particulars of the accident were given in the message.

Mr. Dawson was a man well known in Peterboro, formerly residing at Nicholls Oval. He left Peterboro about two years ago. The body it is understood, will be brought to Peterboro for burial, although when it will arrive could not be learned. Relatives have been summoned to Vancouver to view the body before it will be forwarded to Peterborough.

Mr. Nelson received the wire from a son of the late Mr. Dawson in Montreal, asking him to make arrangements for the funeral.

Four hours' debate in the United States Senate yesterday seemed to indicate that the pending arbitration treaties with Great Britain and France probably would be ratified late to-day.

The blockade of coal cars at the Niagara border has now been relieved and the Grand Trunk Railway is bringing coal into eastern centres of the Dominion freely. "I have just got a wire from Black Rock," said a Toronto official of the G.T.R. yesterday, "saying that thousands of cars of hard and soft coal awaiting delivery to dealers are on the move. If the weather remains mild the public need not worry for, in another week, the situation will be back to it's normal condition."

SELF CONFESSED HIGHWAYMAN TELLS STORY OF COHEN HOLD-UP

Drinks For Courage Was One Preliminary — Jones Lost His Nerve.

Montreal, March 7.—Overcome with shame, holding his hands before his face, and speaking only in a whisper, Albert Jones, one of the self-confessed highwayman, who robbed and nearly killed Louis Cohen, in his store No. 499 St. James street, on Feb 17th, in broad daylight, took the stand yesterday afternoon and testified for the Crown against the one man in the trio who had pleaded not guilty.

Defiant and arrogant, speaking in a loud tone as if boasting of his share of the job, Pio Maldonando, the other guilty man, gesticulating and going through the motions of knocking his man over the head, told his part of the story and tried to exonerate the third man, Charles Vega.

When they took their places back in the prisoners' dock and Mr. J. A. St. Julien was speaking on behalf of Vega the three accused glared at each other and when they were returned to the cells Jones was placed apart from his former accomplices.

After Mr. Louis Cohen, Detectives Harry Cowan, O'Donnell and Beauchemin had related to the Court their side of the story, Mr. Clerk of the Court Ladouceur created a sensation when he called Albert Jones. Vega appeared to be as surprised as anyone ,and he glared at Jones as the latter passed him in the dock.

JONES TELLS HIS STORY

With every neck craned, and in dramatic silence, Jones began his story. He had spent the night with Vega. Together they had planned the robbery. Vega bought a coil of rope to tie up Cohen, Drinking very heavily all through the night, Maldonado had to go to his rooms, for a rest, while witness and Vega stuck it out all through the night, playing pool and drinking Scotch. In the morning the pair went to Maldonado awoke him, and together they left for Cohen's place of business. On the way over, they had several more drinks to gather up courage, but, as Jones said, it was not sufficient for Vega, who lost his nerve and quit quit when they reached the place, and he and Malonado decided to go it alone.

Vega stood outside and the pair went in. Maldonado placed his gun against Cohen's stomach and yelled "Hands up." He then hit him over the head twice, said Jones, and down he went.

Jones whose voice at the beginning of his public confession, had been scarcely audible and above a whisper seemed to get up courage under the withering cross-examination of Mr. St. Julien.

KICKED HIM IN THE HEAD

"As he went down, I kicked him in the head, and Pio said, "Give him another one for luck."—"As I was going through the safe, Vega came rushing in, yelling "Beat it." and we did."

Maddonado said, in trying to clear Vega practically the same thing up to the moment of entering the store and then he claims that Vega told him; "Don't go in, I am scared." "I went in and put my gun to Cohen's face, and said, "Hold up your hands" and when he did not, Jones hit him over the head. I never hit him with my gun."

He admitted knowing Vega for four years and that the three had planned the robbery in the small hours of the morning when passing the store of Cohen, on the 17th.

Both confessions were made in such a matter of fact way that the Judge, as well as the audience, appeared awestruck with the cruel way the men carried out one of the most brutal robberies in Montreal, and the Court plainly showed his contempt for the trio and especially for Vega, when he qualified him with being a cowardly man, who had helped in planning the outrage, had been one of the prime movers of the affair, and had bought the rope with which to tie the man.

CALLED HIM COWARD.

"He is equally as guilty as the others. It is not remorse that kept him from entering the store, but downright cowardliness. I will sentence the trio next Thursday. This is one of the most fiendish crimes that has ever been tried before me.' he concluded, and the three men slowly filed out of the prisoner's dock.

When in the cells Maldonado cooly lit a cigarette.

Fourteen Years for Robbery.

Montreal, March 8.—"You planned this diabolical deed and then you sought to escape from the consequences of your encouragement of two weaker men to commit a crime by a cowardly confession, implicating them," said Judge Lavergne yesterday morning to Charles Vega, who directed the savage attack made by Albert Jones and George Beldondo on a jeweler, Louis Cohen, in his store, on Feb. 24.

Vega was given 14 years, the heaviest sentence ever imposed for robbery in this city, while Jones and Beldondo received 10 years and 12 years respectively.

ZAM-BUK DOES CURE PILES

Mrs. C. Hanson, wife of the proprietor of the Commercial Hotel, Poplar, B.C., suffered from piles for years. Went to doctor after doctor in vain. Finally went to Spokane and had an operation. Twelve months afterwards she was as bad again. She says, "One day I read about Zam-Buk and thought I would try it. The first one or two boxes gave me more ease than anything else I had tried, so I went on with the treatment. In a short time I began to feel altogether different and better, and I saw that Zam-Buk was going to cure me. Well, I went on using it, and by the time I had used six boxes I was delighted to find myself entirely cured."

If you suffer from this painful ailment, or from eczema, ulcers or any skin disease, don't waste time. Try Zam-Buk, 50 cents all druggists and stores.

NEWFOUNDLAND IS GROWING

St John's Nfld., March 8 — Newfoundland's population is 242,000, according to the complete census returns for 19111, which were made public to-day. This shows an increase of ten per cent. for the past decade.

YOUTHS PAY FOR THEIR FUN

Each Was Called Upon to Hand Over $4.60

William Armstrong Freed After Promising to Leave the City

Two local young men appeared before Magistrate Dumble this morning in connection with a roughhouse affair at the Chinese Restaurant, on Wednesday evening last. According to the information, the defendants threw everything around when they were being served and they made themselves generally undesirable as patrons.

They were each fined $2 and costs amounting to $4.60.

Mr. Moore, counsel for the complainant, stated to His Worship that certain young fellows made a practice of getting drunk and going to annoy the Chinamen, who do not wish anything more than the protection due them.

BACK AGAIN

William Armstrong for the second time this week came in contact with the strong arm of the law. This time he was allowed to go on supended sentence after he had promised to go home.

Armstrong lives in the vicinity of Norwood. He has appeared before His Worship several times of late. His trouble lies in the fact that he seems to be unable to leave a district where liquor may be obtained for his home which is in a local option district. On his latest spree, he lost his watch and chain.

During the last few days a strange man called on several Aylmer street residents. He would walk into the house unceremoniously, frightening the housewives.

Armstrong answers to the description of this offender.

NO DANGER OF ANOTHER STRIKE

Chas. M. Hayes' Assistant Denies Story of More Trouble

Montreal, March 8.—The assistant to President Hays of the Grand Trunk this evening denied the story published in a Toronto afternoon paper that trouble was pending again with their trainmen and that another strike was within the bounds of possibility. Mr. Hayes was not in, but it was officially stated that the company had no knowledge of any trouble brewing and did not expect any.

REV. MR. RIDDIFORD AT NORWOOD

The Norwood Register says:—As announced Rev. W. C. Riddiford, B. A., of Peterborough, occupied the pulpit last Sunday in the Baptist church on the occasion of that congregation's anniversary, while the pastor, Rev. G. F. Hurlburt, took Rev. Mr. Riddiford's work at Peterborough. There was a good attendance both morning and evening and Rev. Mr. Riddiford, who is a most forcible speaker, was listened to with much interest.

A social gathering and entertainment was held on Monday evening at which Mr. Riddiford delivered his famous lecture entitled "Some Worthless Commodities in Life's Battle.' The lecture was well received and was both instructive and entertaining. It embodied a powerful appeal to men for a better, higher and more fruitful life, both for the individual and the nation. His subject, applied to three evils, debt, dirt and the devil, being a plea for cleanliness, thrift and right living.

DR. CARMICHAEL SPOKE TO BOYS

Told Them How to Safeguard Their Health

The first meeting of the Collegiate Institute Club was held yesterday afternoon in the Y.M.C.A. parlors, and was favored with a large attendance. Mr. Bert Throop, president of the new club, presided and Dr. Carmichael delivered a very interesting address, explaining to the boys how to safeguard their health. The lecturer showed with extreme directness the causes of many broken-down constitutions, and explained to those present that indulgence in certain directions would inevitably result in the ruin of their health. The address was graphically illustrated by photographs, many of them colored.

The members of the club are very enthusiastic over the success of their first address, and are confident that if in the the future, they can keep their addresses up to the high standard established by Dr. Carmichael, the success of the club will be assured.

Going Some

Barely upon the map of the Dominion, as it were, the Town of Fort George B.C., is so pushing that, at an enthusiastic meeting of citizens held there last week, it was decided to hold an agricultural and industrial exhibition some time next September. By unanimous consent the Fort George Agricultural and Industrial Association has been formed and the first board of directors elected. Application will be made without delay to the Provincial Government for a land grant of 100 acres for exhibition purposes from the local reserve.

An Unruly Street Car

No 11 street car, when northward bound last night about nine o'clock, jumped the switch at Central Park and straddled the track.

Sun Life Assurance Company of Canada

In publishing the leading features of the Company's report for 1911, the Directors feel that the evidences of progress and strength are so satisfactory as to make comment unnecessary.

New Assurances		
New Assurances issued and paid for in cash during 1911		$26,436,781.19
Increase over 1910	$2,924,403.38	
Income

Some Causes of Eyestrain

Eyestrain is the most common form of headache in children, and may come without apparent reference to any over-use of the eyes. It may be located near the eyes or in parts of the head away from them. It warns us that too great tension is being put on some part of the nervous system. A slouching, lounging posture in reading may bring about marked eye strain. The head bent forward with the chin resting on the breast obstructs the flow of blood from the head. Any congestion of lids or inflammation however slight, itching of the lids, burning of the eyeballs, and styes, singly or in crops, should call your attention to the necessity of careful and efficient examination into the refractive condition of the eyes.

Our Optical Parlor is up-to-date in every detail. All our work is guaranteed, and all lenses are ground on the premises. Consultation free.

LOCAL DEALERS ARE CLEANED OUT OF HARDWOOD

Shortage of Coal But Black Diamonds Are on the Way

So far as hardwood is concerned, there is a wood famine prevailing in Peterborough. Inquiry at all the local coal and wood dealers today revealed the fact that there wasn't any hardwood in the city, for sale. In the yards of R. Hicks & Co. and J. E. A. Fitzgerald & Co., where there is usually plenty to be seen, one could not find one stick of the precious fuel.

There is also a shortage of coal.

Toronto, March 8. — Seventy-five miles of loaded coal cars, numbering over 11,500 cars, containing approximately 500,000 tons of coal, are scattered along the railways between Toronto and the coal mines.

This is the statement which the railways here have made to the coal merchants of the city who are being pressed for supplies of both soft and hard coal.

The situation is regarded by local men as the most serious in many years, but they expect to be able to cope with it soon, as there is plenty of coal on the way to supply local needs for some time.

Local merchants have declined to place coal where it is not absolutely needed for the time being, and repeat orders are being turned down.

A scarcity of wood still exists in the city and from reports the shortage will continue indefinitely. On the market this morning two loads only were offered for sale, one of tamarack and the other of hardwood, cut in stove lengths. The latter sold readily at $5.50 a load. In conversation with the owner, a Review representative was told that there would be very little wood offered for sale this season; when asked the reason he stated that there was such a depth of snow in the woods that few farmers would go into the bush to cut. The lateness of the snow fall this year was also partly accountable for the small out-put.

Hardwood sold last year at a little lower price, but this year, what little there is, will sell considerably higher.

The Review's informant also stated that the wood merchants would have very little for sale.

PRESSURE BEING USED TO FORCE SOUTH WALES OWNERS TO YIELD

London, March 8.—There is a well defined feeling of hopefulness in regard to the miners" strike situation to-day. A settlement of the dispute is looked for in the next few days and only the coal owners of South Wales are preventing an agreement being reached almost immediately.

The conferences between the miners, owners and Government officials are being continued and the employes of the underground are displaying a more compromising attitude. Premier Asquith is confident that a settlement will be reached in a short time, but the Welsh owners are wringing their hands and declaring that they will be ruined if they have to submit to a minimum wage. The miners declare that they are misrepresenting the case and have placed data in the hands of the Premier controverting the statement of the imminence of great loss.

The officials of the miners are bending under the heavy pressure being brought by the other trade unions to convince the miners that a compromise is good. The miners declare they will accept an honorable compromise and the Premier, taking them at their word, is pressing the South Wales owners for a settlement.

It seems pretty certain that the miners' Executive Committee is weakening in its insistence on the schedule they accepted prior to opening negotiations and is preparing to discuss the questions at issue. Ramsay MacDonald and other non-miner members of Parliament are credited with achieving the desired result by impressing on the miners the terrible sufferings that would be endured by other workers.

WHO'S COMING AND GOING

Mr. A. R. Hart, of Brighton, is in the city.

Mr. A. H. Fee, of Lindsay, was in the city yesterday.

Mr. T. Graham, of Claremont, is in the city to-day on business.

Mr. J. P. Redmond, of Kingston, was in the city yesterday.

Mrs. H. Soward, of Minden, is visiting with Rev. and Mrs. Soward, of this city.

Mr. J. C. Fowbel, of Campbellford, was transacting business in the city to-day.

Mr. and Mrs. D. G. Smith, of Montreal, are spending the day in the city.

Mr. J. J. Turner, of Galt, was transacting business in Peterborough yesterday.

Mr. K. Donally, of Orillia, who attending the Normal school here last year, is in the city.

Mr. A. G. Pennington, of Bowmanville, has returned home after a visit with friends here.

Mr. T. S. Finlay, of Stratford, was in the city to-day in the interests of his business.

Mrs. W. T. Patterson, of Belleville, returned home yesterday after a pleasant visit here.

Mrs. R. J. Weir and Mrs. J. T. Braund are enjoying a vacation with friends at Oshawa and Bowmanville for a couple of weeks.

Mrs. H. Hopkins and Miss Dorothy Hopkins are visitors at the home of Mrs. Hopkin's father, Rev. E. Soward, Perry street.

Mr. M. J. Carrol, who was operated on in St. Joseph's hospital for appendicitis, is improving as rapidly as possible, although it will be all of two weeks before he is sufficiently strong to be out again.

Mr. Harry Rae, Sherbrooke street, who has been home from Edmonton visiting his parents, underwent a delicate though not serious operation in Nicholls Hospital last week. He is able to be out again, but will remain in Peterborough until fully recovered before returning to Edmonton.

SUCCESSFUL SALE

Greatest Wall Paper Sale Held

OUR SUCCESS HAS SURPASSED ALL PREVIOUS RECORDS

We keep a variety in cheap high-class goods, second to none in Canada. We invite you after looking elsewhere to try us, with length and width of your room and we will tell you the cost — Either at our Peterborough Store at 379 George St., or at Toronto, 262 Queen St., West. Large buying enables us to give you prices not possible outside of large cities. There are only seven firms in our Dominion who can buy over twenty thousand dollars worth of Wall Papers per year, and we are proud to feel that we rank as fourth largest of the seven. The smallest buyer of seven has the same advantages as the largest as all that is required to get the low price is that the purchase amount to ten thousand dollars — Our purchases amount to over that with one firm's goods, not mentioning our purchases of American, English, German, French and Japanese manufacture, which we stock very largely. We would ask you again to examine carefully before making your purchases.

RICE GOES TO PRISON

Fake Broker Pleads Guilty After Five Months Trial

Will Have to Serve One Year in Jail

New York, March 7.—Pleas of guilty by George Graham Rice and Bernard H. Scheftels, of the brokerage firm of B. H. Scheftels and Company, brought to a dramatic close here to-day what is believed to be the longest trial on record in a United States court. With their associates, Charles F. Belser, Charles B. Stone and Ralph E. Waterman, they have been on trial for nearly five months for alleged conspiracy and the misuse of the mails to promote and sell mining stock.

Rice was sentenced to one year in jail, his sentence beginning December 29th last, when he was putting in the Tombs after one of the jurors had been approached. With time off for good behavior, Rice will really spend about six months and a half in jail. Scheftels got off with a suspended sentence, and the other three defendants went free, the indictment being quashed.

It was the fact that his financial resources and those of his friends had been exhausted by the length of the trial, Rice said to-day, that induced him to enter his plea, and it was intimated that the heavy expenses entailed by the Government in the case had also played a part in bringing about to-day's sudden climax, for without Rice's plea the case, it is said, might have dragged along five months more.

A REMARKAABLE TRIAL.

The trial, which began on October 23, 1911, was remarkable in many ways. Scores of witnesses from all parts of the country were held here for months and the jurors only a day or two ago made formal protest to Judge Ray that their long absence from business was ruining them. Nearly two thousand exhibits were introduced, every one bitterly contested before it was admitted to evidence. Illness of jurors, the attempted bribery of a juror and adjournments at the request of the jurors brought further delay. The witnesses from a distance protested at being kept here months at a time without adequate recompense. New rules of evidence sprang up and new precedents were made. Rice in January discharged all of his atttorneys and conducted his own defence.

Much of the evidence adduced by the Government during the trial was aimed at showing that the Scheftels did not conduct a legitimate brokerage business, but a "bucket shop," and that the defendants sought to create a market for certain stocks of which they held large blocks under option, and sought to sell these stocks to their customers at inflated market prices with a secret profit to themselves. United States District Attorney Henry A. Wise, in stating to-night that this case was the first of its kind instituted under the Federal statute, said: "The case has been regarded by the Government as a test case, and one of far-reaching importance in that aspect. Its successful termination has established the criminal responsibility of brokers for practices which it had been commonly supposed would expose them at the most to civil liabilities. The prosecution, I am informed, has already had considerable effect in this community. The resulting conviction should have a still further effect."

Offices of the Scheftels firm located in New York, Chicago, Boston, Denver and other large cities, were raided simultaneously on September 19, 1910.

QUEBEC FARMER TELLS GOOD NEWS

Found Complete Cure for Cramps and Kidney Disease

Suffered For Six Years, But Found Health and New Life in Dodd's Kidney Pills — Warm Praise for Old Reliable Remedy.

Marie East, Bonaventure Co., Quebec, March 8. (Special).—Mr. Peter Bernard, a prosperous young farmer living near here, is spreading the good news that he has found a complete cure for his kidney troubles.

"I suffered for six years from cramps in the muscles and kidney disease," Mr. Bernard says, "but Dodd's Kidney Pills cured me completely. Yes, I am feeling so well that I want other sufferers to know just how easy it is to be cured."

It is a good old saying that it is easy to do anything if you just know how. And Mr. Bernard and hundreds of others are telling you just how to cure kidney disease. Dodd's Kidney Pills always cure it. And as kidney disease is the direct cause of rheumatism, lumbago, Bright's disease, heart disease, pain in the back and urinary troubles, Dodd's Kidney Pills cure them by removing the cause. If you haven't used Dodd's Kidney Pills yourself ask your neighbors about them.

Better Farming Lectures

On March 12th, from 12.45 p.m., to 3.15 p.m., lectures pertaining to "Better Farming" will be given in a special train at Peterboro under the Department of Agriculture of Ontario.

McNAMARAS ENJOYING LIFE; SAN QUENTIN, PRISON DE LUXE

Future Home of Dynamitards is Regarded as Criminals' Paradise.

San Francisco, March 8. — While the fifty American labor leaders are awaiting their trial, which is dated for March 12, the McNamara Bros. are passing their days in a prison de luxe.

The San Quentin prison in which the confessed dynamiters are incarcerated is universally known as the "Criminal Paradise" and compares very favorably with a summer resort, or country residence.

The prisoners' cells are carpeted, and the occupants have access to a library; granted the right to play baseball, swim, engage in athletics, to prominade and smoke.

In this prison de luxe the inmates are confined in the cells for eleven hours each day, the rest of the time they are working at their alloted tasks, i. e., making jute bags in the factory, or following the exercises permitted.

HARD WORK UNKNOWN.

Hard work is unknown in this institution. The prisoners, numbering 1,800, including the McNamaras, are obliged to make so many jute bags between the hours of 7 in the morning and 5 o'clock in the evening. If they make the required number in less time, they are allowed to spend the time they save in enjoying themselves on the prison grounds.

Dozens of those imprisoned there, instead of awaiting with glee the hour of their freedom, witness its approach with misgivings, for they realize they will have to go forth to battle in a competition that will afford them few of the pleasures and luxuries common in the prison.

This criminal paradise is officially designated the California State Prison. It is maintained by California. The federal government sends prisoners there, but it pays the State of California for their maintenance. The prison is situated at San Quentin, which projects out into San Francisco Bay. It is reached by boat in an hour's ride from San Francisco.

CELLS ARE DECORATED

The prison building is not unlike other structures of its kind, but its sanitary and cell arrangements are considered perfect and the accommodations for the prisoners beyond "criticism." The cells are arranged in tiers. In them the prisoners keep pictures, magazines, books, papers and periodicals. Some of the cells are decorated with all the artistic beauties of a well appointed den.

Comedians and tragedians among the prisoners, weekly give a theatrical performance; the prison band, consisting of 60 pieces and composed of the inmates, give concerts, the baseball teams play for the championship of the prison league; the handball experts battle for the championship in that line; the athletes of the cinder path, the hurdles the hammer and the like regularly engage in competition. They have an extensive farm. They raise chickens and ducks.

John Hoyle, the warden, regards the prisoners as the unfortunates of society, and treats them consequently in the msot humane fashion. The men never try to escape, they are never late in responding to the bell in the evening, and they obey the rules with a remarkable degree of willingness.

William P. Sheridan, for 20 years the head of the identification bureau in police headquarters in New York who recently visited at San Quentin, met "Billy" Barret there. Barret has an international reputation as a "bank sneak." He is serving five years for stealing a bag of gold from a bank in California. When he went into the prison he weighed 250 pounds. When Sheridan saw him he was not more than 180, rosy cheeked, athletic and in prime condition.

"What makes you look so fine?" asked Sheridan.

"Bill," he replied, "this is a sanitarium. I've become an athlete since I came here. I swim, play baseball, run races, and say, I have a better time here than I ever had on the outside. "It's the training that I do that has put me in this fine shape. All the prisoners, except the very old ones, get into athletics here. The aged fellows read a lot, and play croquet and cards."

saying. I don't know about that; give the devil his due, and he would soon have too much.

"Give the devil his due," is an old

People do not seem to understand the importance of honesty. To be sure, good conduct is taught, in a way.but too many mistakenly think such teaching a perfunctory duty, and that there are many pleasures in a reckless, careless life.

A man may look around a month before ordering a suit, but when he finally orders it, he wants it next day.

Public opinion is the great means of accomplishing good in a community. If a man does not behave himself, public opinion can soon whip him into line. That man does not live who is not afraid of public opinion.

I can stand an ordinary school teacher pretty well; but a real professor scares me.

Tell a man what he should do, and he won't do it, to show you that he is independent.

When I deserve it, I don't mind abuse, it makes me careful. But I seldom agree with my critics as to when I deserve abuse.

You may be busy, but if you have time to tell your troubles, you are not busy enough.

Some days a man is so worthless that he is in his own way.

The only way to accumulate money is to be honest and trustworthy. The man who doesn't know this is dangerous; he is a fool, and liable to become a thief.

PAST DASHES TO THE POLE

Capt. Cook, British navy, 1772, was the first person to cross the Antarctic circle, went 71 degrees 10 minutes south.

Bellingshausan, Russian, 1820, 69 degrees 52 minutes south.

James Weddell, British, 1823, 74 degrees 15 minutes.

Lieut. Charles Wilkes, American, explored what is now called Wilkes Land, 1839.

James Clarke Ross, British, discovered what is now Ross sea, 1840, 77 degrees south.

G. S. Nares, British with first steamship to enter Arctic circle, the Challenger, discovered the fact that animal life covered the floor of the polar seas, 1874.

Capt. R. F. Scott, British, 1902-04, 82 degrees 17 minutes south.

Ernest Shakleton, British, 1908-09, 88 degrees, 23 minutes south—111 miles from the pole.

BILL WOULD PREVENT FRAUD

Toronto, March 8 — To protect wholesale merchants W. D. McPherson M.P.P. will introduce in the Legislature a bill to prohibit retailers from disposing of their stock in bulk for cash without first supplying the intending purchaser with a list of his creditors, and obtaining the consent to the sale of a majority of the creditors. This is in order to put a stop to the practice of a retailer selling out his stock in order to avoid paying his creditors.

Mr. Hancock's Sales

Friday, March 15th—Sale of farm stock and implements, property of Mr. J. H. Edmison, Lot 8, concession 2, Smith. Sale at one o'clock p.m.

Monday, March 11th—Sale of household furniture, property of Mr. Wm. Cox, of No. 92 London street. Sale at one o'clock p.m.

Wednesday, March 13th—Sale of stock and implements, property of Mr. O. Carver, Lot 11, concession 12 North Monaghan. Sale at one o'clock p.m.

Tuesday, March 12th—Sale of household furniture, mostly new, property of Mr. E. Langford, 637 Union street, corner Edinburgh street. Sale at one o'clock p.m.

A MOTHER'S DUTY TO HER DAUGHTER

Her Health Must be Carefully Guarded as She Comes to Womanhood

Every mother who calls to mind her own girlhood knows how urgently her daughter is likely to need help and strength during the years between early school days and womanhood. Then it is that growing girls droop, become fragile, bloodless and nervous. Nature is calling for more nourishment than the blood can supply, and signs of distress are plainly evident in dull eyes, pallid cheeks, weak and aching backs, a languid step, fits of depression, nervousness and a dislike for proper food. These signs mean anaemia—that is bloodlessness.

The watchful mother takes prompt steps to give her girl the new, rich blood her weak system is thirsting for by giving her Dr. Williams' Pink Pills, because so many thousands of feeble, anaemic, unhappy girls have been transformed into robust women through the rich, red blood these pills actually make. No other medicine has every succeeded like them, and thousands of mothers have proved their work. The case of Miss Marguerite Boisclair, St. Jerome, Que., proves the truth of these statements. Miss Boisclair is sixteen years of age, and says that since the age of fourteen she had been fllicted with extreme weakness, and seemed to be going into a decline. The least effort left her weak and breathless, so that she was unable to do any household work. She had no appetite, suffered from terrible headaches, dizziness and some times fainting spells. She was under medical treatment, but made absolutely no improvement, in fact seemed to be steadily growing weaker. When her case seemed most hopeless a lady friend advised the use of Dr. Williams' Pink Pills. After taking a few boxes she began to gain new strength, and after the continued use of the pills for about two months she was again as well and strong as ever she had been, and has since enjoyed the best of health.

Sold by all dealers in medicine or by mail at 50 cents a box, or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

NEWFOUNDLAND IS GROWING

St. John's Nfld., March 8 — Newfoundland's population is 242,000, according to the complete census returns for 19111, which were made public to-day. This shows an increase of ten per cent. for the past decade.

SPREADING THE GOOD NEWS

Prominent Ontario Man Recommends Gin Pills For The Kidneys

Found at last—a genuine cure for Kidney and Bladder Troubles. Mr. Bauer knows about it. Mr. Simpson knows about it. And they are telling all their friends and neighbors what Gin Pills did for them. Here is Mr. Bauer's letter. Study it.

DAVISVILLE, ONT.

"I had trouble with my Kidneys and Bladder so I got a sample of GIN PILLS and followed directions. I felt better after the first dose and I kept taking them for a month.

One day, Mr. Simpson of this town told me about the trouble he had with his kidneys, and I recommended him to try GIN PILLS, and gave him one to take. The next day, he bought some for himself, and both he and his wife have derived great benefit from them."

HERBERT H. BAUER.

A FRIEND IN NEED.

Every man who has any Kidney Trouble or suffers with Rheumatism should do just as MR. BAUER did—take GIN PILLS—and cure himself, as MR. BAUER did.

You see, GIN PILLS do cure Kidney and Bladder Troubles. Gin Pills ease the pain in the back and stop those sharp, shooting pains. Gin Pills give strength to weak kidneys, soothe the irritated bladder and correct incontinence and suppression of urine. You don't have to take our word for all this, or even buy Gin Pills before trying them. Write for free sample —try them—see how good they are—and then buy the regular size boxes at your dealer's—50c, or six boxes for $2.50. Write for the free sample. National Drug and Chemical Co. of Canada Limited, Dept. B Toronto.

NATIONAL LAZY LIVER PILLS sweeten the stomach, regulate the bowels and stir up the liver. 25c. a box.

BELLEVILLE CITY FATHERS DISCUSS PAVEMENTS

Some Arguments Similar to Those Used by Local Aldermen

The Belleville City Council has the paving proposition in hand and the following report of the discussion at the last meeting by the Belleville Ontario will be of local interest.

Ald. Panter took up the method of paying for the cost of laying Front street pavement (a) cost to be borne by the whole city, (b) entirely by rate payers on Front street, or (c) some midway scheme.

The council should announce that its proposition in laying permanent pavements be one-third to be borne, by the city at large and two-thirds by the ratepayers on Front street. Some scheme should be adopted to be carried out in this city in the laying of road pavements in other sections than on Front street.

Ald. Robinson thought every scheme of his had been interfered with. He had information to use once the council voiced itself in the matter. The time has arrived when the pavement should be put down. Some think now owing to discoveries of the sewer conditions that there should be delay. But it appears that there are ways of building permanent pavement no matter what kind of a substructure there was.

Ald. Alford as a Front street ratepayer thought two-thirds too much to be paid by ratepayers on Front street. There should be a public meeting to get the voice of the property owners.

Ald Lott said if the ratepayers pay the whole shot, they would not be compelled to contribute to other road pavements.

Ald. Alford was informed that the city would make all repairs.

Ald Clarke said Bridge st could not be paved until the sewer was rebuilt, as the crown had fallen in at various places. He was opposed to paving Front street, which could be macadamized every three years for less money than the interest alone on the cost of the pavement. The kind of pavement would have to be determined.

Mayor Vermilyea said he was in favor of paving Front street this year. For instance it might be built from Bridge street to Victoria avenue. Before the end of the season all the principal streets would be asking for permanent pavements.

Ald. Clarke said it might not be right to build in view of the condition of the sewer, which might have to be taken up.

Ald Panter said macadam would mean "mud" for years.

Ald Robinson did not favor putting the pavement down piecemeal. Be sure you're right and put the pavement from Dundas street to the upper bridge. The public works department will present a scheme.

Ald Canning argued conditions were not ripe for paving as excavations were continually in operation. When these are over then he would support the proposition to pave Front street.

Here the question was allowed to stand as it was felt the discussion had done much good.

Serious Fire at Bracebridge.

Bracebridge, March 8.—A store owned by A. A. Mahaffy, M.P.P., and occupied by him as a law office, James Thomson's stationery store, W. M. Ross' grocery store, and R. H. Ryan, photographer's studio, were destroyed by fire early yesterday. Loss $35,000 Insurance $14,000.

Cutting Out Legal Red Tape.

Ottawa, March 8.—It is considered likely that the Minister of Justice will call a meeting during the Parliamentary recess of the Provincial Attorneys-General with a view to systematizing the methods of procedure in the law courts.

THIS GIRLS "RATS" SAVED HER LIFE

New York, March 8—The resistance to shock offered by the "rats" in the coiffure of Lillian Seinberg, an eighteen-year-old East New York girl, probably accounts for her being alive to tell how she captured a burglar this afternoon.

A two-foot "jummy" wielded by the intruder, broke the girl's hold upon the man after she had pulled him back from the fire escape by the legs. But though the blow stunned her, the substantial coiffure so softened the shock that she soon recovered her senses, and gave an alarm, which resulted in the capture of the man, who said he was David Miller, but refused to give an address. He was held in $1,000 bail.

U. S. Senate Mutilates Treaty.

Washington, March 8.—Stripped of the clause, which it was claimed would invade the constitutional treaty-making power of the Senate, and with many other limitations added, the general arbitration treaties between the United States and England and France, proposed by President Taft and Secretary Knox, as forerunners of universal peace, were ratified by the Senate yesterday by a vote of 76 to 3. The Senators who voted against the ratification were Lorimer Martine and Reed. The latter two are Democrats.

President Taft last night, before leaving for his speaking trip to Toledo and Chicago, did not comment upon the Senate's action. He had hoped to see the treaties passed unamended. He had declared publicly, however, that certain amendments would not be objectionable.

Virtually, the treaties, by the Senate's action, are "up in the air." In their modified form they must be referred to England and France.

When a man tells me he was a soldier in the rebellion, I never ask him if he was ever in a battle; he is so humiliated if he wasn't.

LACK OF EXERCISE

Brings on Troubles which are Best Corrected by Dr. Morse's Indian Root Pills

Sedentary Habits Develop Constipation

Man was intended to live an active, outdoor life, and his digestive system was modelled accordingly. Indoor work with hands or head, long hours sitting or standing still, especially in air that's none too good, slow down the healthy activities of stomach, liver, kidneys and the millions of tiny skin glands.

Constipation, headaches, indigestion, biliousness, rheumatism and similar troubles follow.

Then the worth of that good old reliable family medicine, *Dr. Morse's Indian Root Pills*, is appreciated. Though it has been in use for over half a century, modern science has not been able to devise a safer or better cleanser for the whole system.

Dr. Morse's Indian Root Pills are largely vegetable in composition, free from any harmful drug, and mild yet most effective in their action. They are "Mother's standby" in hundreds of homes because they nip in the bud so many of the common ailments.

Made since 1857 by W. H. Comstock Co., Limited, Brockville, Ont., and sold everywhere at 25c. a box. 30

Coughs, Colds

Bronchitis

If there is an ailment in the throat or chest, it is surely essential that the remedy be conveyed direct to the affected part. It's because the healing vapor of Catarrhozone is breathed into the sore, irritated throat and bronchial tubes, because its balsamic fumes kill the germs and destroy the cause of the trouble. These are the reasons why Catarrhozone never yet failed to cure a genuine case of Catarrh, Asthma, Bronchitis, or Throat Trouble.

The wonderfully soothing vapor of Catarrhozone instantly reaches the furthest recesses of the lungs, produces a healing, curative effect that is impossible with a tablet or liquid, which goes merely to the stomach, and fails entirely to help the throat or lungs.

To permanently cure your winter ills, your coughs, sneezing and Catarrh, by all means use a tried and proven remedy like Catarrhozone. But beware of the substitutor and imitator. Look for Catarrhozone only. 50c and $1, at all dealers. 10

Just Breathe It, Cure is Sure

TELEGRAPHIC BRIEFS.

A Provincial Government party is returning to study the tides of James Bay and Moose River.

Farquhar McRae of Dunwich Township died from a splinter getting in his eye while splitting wood.

Minister of Justice proposes to retire Justices Dugas and Craig, of the Yukon, on full allowance.

Chief Inspector James L. Hughes of Toronto has been offered a position as editor of a magazine in Chicago.

Hon. Dr. Reid admitted he dismissed a customs collector because of a letter in which he disapproved of bribery in elections.

The Young Men's Christian Associations of Ontario and Quebec met in Toronto to discuss the question of a national organization.

The discrepancies charged against five Kingston dealers were caused, the latter alleged, by the adhesion of snow and ice on the sleigh.

Lieut.-General Sir Frederick Kitchener, governor and commander-in-chief of Bermuda, and brother of Lord Kitchener, died Wednesday night after an operation for appendicitis.

Gertrude Vigeault, Ontario street, Montreal, 23 months old, was drowned early yesterday morning by falling into a tub of water her mother had just bathed her in and had left on the kitchen floor.

Geo. H. Kennaugh, the night clerk of the Canadian Express Co., who was on duty the night that the company's office in Hamilton was entered and robbed of $8,500, was acquitted of conspiracy yesterday.

The body of William Sangster, a prominent farmer living one mile east of Norwich, was found in his room at 3 o'clock yesterday afternoon. Beside him was the remains of a dose of paris green. He had been in ill health.

In order to take a short cut home, Mrs. Wm. Bullock, aged 37, of Kingston, crawled under a freight train at the outer station yesterday afternoon. Just as she was in the act of getting under the train, it moved and her left foot was cut off.

Four Killed In B.C. Mine.

Vancouver, B.C., March 8.—A gas explosion yesterday in the mine of the Diamond Vale Mining Co. at Berrett, B.C., ten miles northeast of Vancouver, killed four men and imprisoned ten others. Rescue apparatus has been sent.

It is difficult to get news from the mine, which is situated in the Nicola district, on a branch that runs from the main line of the Canadian Pacific Railway.

Passengers Were Endangered.

Kingston, March 8.—The lives of the passengers on the Bay of Quinte train were endangered when a mixed train running south from Battlefield, left the rails between Bridgewater and Queensboro. One coach, baggage car and box car were ditched, but as the train was running slowly no one was injured. The engine stayed on the track.

Canal Bill Is Passed.

Ottawa, March 8.—With its objectionable features, from a provincial standpoint, eliminated, the Georgian Bay canal bill passed the railway committee in the Commons yesterday.

Student Discipline.

Toronto, March 8.—Out of 1,559 Varsity students, 1,098 voted in a referendum in favor of the student body taking over the control of the disciplinary powers.

DIABETES

Is one of the most cruel maladies of which mankind is subject, the many complications arising from time to time, making life seem almost unbearable. For many diseases, medical, scientific, and physiological knowledge and experience gained from years of deep research, has achieved remarkable results, but, up to now, little has been discovered of practical value in the treatment and cure of Diabetes. In fact, people have begun to look upon the disease as well-nigh incurable. Even in the medical profession can be found doctors who are of the same opinion, regarding sceptically any claim to ameliorate or improve the condition of a diabetic patient.

It can, however, be proved that SANSOL'S ANTIDIABETES lastingly cures all cases of Diabetes. Full particulars can be obtained from the Sansol Mfg. Co., Winnipeg, Man.

REPORTS ON RURAL SCHOOLS IN PETERBOROUGH COUNTY

(Continued from page twelve)

to the schools as to stimulate and encourage the teachers.

To a very large extent, the same may be said of the school boards. To many the inspector can be of service because they are willing to receive and act on suggestions, while to others he can be of little use. In some cases reports are never read, or if they are there is no result to indicate it. Fortunately there are not many of this class, but the few cases that there are and the consequent injury that results to the cause of education have led me to the conviction that the establishment of Township or perhaps preferable, County Boards of Education, would be a long step on the road to progress and efficiency in the mangement of the rural schools.

All of which is respectfully submitted by

Your obedient servant,

(Sgd.) RICHARD LEES,
Public School Inspector,
Peterborough E.

Peterborough, January 24th, 1912

The Continuation Schools continue to do excellent work. The success attained by the Lakefield School at the Departmental Examinations in July, was especially worthy of special mention. In view of the continued good work done by these schools and the contribution they are making to the education of the community, I beg to repeat my recommendation of last year, that the County grant to these schools be materially increased.

SMITH TOWNSHIP COUNCIL

The members of the Municipal Council, met in the County Council chamber, on Monday, March 4th. at 10 o'clock. All the members were present with Reeve Garbutt in the chair. The minutes of last meeting were read and confirmed.

A petition was presented by Messrs Robt. Nurse, and George Deyell, signed by twenty-one ratepayers, asking that a new Union School Section be formed with Smith and Emily the new section to take in Lots one, two and three in the first, second, third and fourth concession of Smith.

Moved by Mr. McKee, seconded by Mr. McConkey that the petition be received and that the Council investigate the matter. Carried.

A PETITION

A petition from the cottage and island owners of Clear Lake, was presented by Messrs. Beall, Rogers and Crane, asking that the council open up either the 14th or 15th concession to the lake, and that the amount of statute labor tax paid by these petitioners be applied for this purpose. A clause was inserted in the petition stating that the undersigned island owners lying adjacent to the township were willing to pay the same rate of statute labor tax as those whose lands are on the main shore.

Moved by Mr. McConkey, seconded by Mr Davis, that the petition be received and dealt with later. Carried.

Messrs. Scott of the 1st Concession line, addressed the council and asked that some steps be taken to repair the boundary road between North Monaghan and Smith. This road is kept up jointly by the two townships, and North Monaghan has neglected to keep in repair its share of the road. The matter was referred to the township solicitor.

Mr S. Harrison addressed the council, stating that he had been informed that the 18th Concession had never been surveyed from the road between Lots 30 and 31, east to Deer Bay. The council were of the opinion that he was mistaken, but the matter would be looked into.

Moved by Mr. McKee, seconded by Mr. Davis that the sum of $82.30, be allowed the collector as abatements for 1911, and that the treasurer be instructed to return $76.72 of this amount to the county treasurer as taxs to be charged against lands. Carried.

Mr. Jno. McBride of Millbrook addressed the council concerning the purchase of a snow plough for the township. As the season was well advanced and the cost of keeping the roads open to the present time was very heavy it was moved by Mr. Davis and Mr. Cann that no action be taken. Carried.

Mr. J. A. Young and Mr. R. J. Edmison, the auditors for 1911, gave their report, showing the township to be in good financial condition, with a total balance on hand of $2616.23.

Moved by Mr. Davis and Mr. McKee that the auditors' report be received, and that the clerk be instructed to have 200 copies printed for distribution. Carried.

Moved by Mr. Cann and Mr. McConkey that Heard Bros. be employed to run the grader for the year 1912 at the same salary as last year. Carried.

A letter was received from Messrs Hall, Medd & Davidson, stating that the township and Mr. Alex. Elliott would have to come to some agreement concerning the division of the money which the government granted for damages done the shores of Chemong Park by high water.

Moved by Mr. McKee and Mr. Cann that no action be taken at the present time, unless Mr. Elliott was willing to accept the offer made by the township on Sept. 3rd. 1910, whereby the township received two-thirds of the award, and the original owners one-third. Carried.

ROADMASTERS.

A by-law was passed appointing road masters, pound keepers and fence viewers for the year 1912. The following were appointed:—

Roadmasters—Thos. Armstrong, Peter Nichols, Jas. Blewett, William Armstrong, Gordon Fitzgerald, James Cassidy, Wilbert McNaughton, Robert Freeborn, Jas. Northey, jr.; William Douglas, David Miller, Andrew Fairbairn, Fred Dunbar, J. J. Bickle, W. J. Stillman, S. A. Northey, Thomas J. Bell, Bruce Garbutt, James Miller, Wm. Rosborough, John Kennedy, Herbert Rosborough, T. T. Milburn, Wm Brown, Jas. Stothard, Roland Stabler, Marcus Dean, Louis McIlmoyl, Jonathan Sweeting, Louis Fowler, Austin McConkey, G. W. Mann, Geo. Milburn, P. Westlake, John Galvin, William Scott, R. Hunter, Alex. Scott, Percy Edmison, Robert Darling, E. Mahood, jr.; Joseph Tully, Ed. Mahood, sr.; Bert Middleton, Thos. McMullen, W. W. Milburn, Walter Preston, J. R. Dugan, J. A. Galvin, Alex. Elliott, Wm E. McIlmoyl, Solomon Northcott, John Fairbairn, Gordon Mann W. A. Rosborough, Jas. Grant, Jas. A. Fife, Jas. Tindle, Robert Telford, Isaac Sage, Stephen Harrison, Francis Pearson, Wm. Swinton, J. G. Armstrong, Absalom Northey, John Pearson, John Harrison, John Stabler, Jas D. Fowler, Wm. Hogan, Webster Blewett, jr.; R. G. Ivey, Hugh Bertram, Wm. Scott, George Deyell, Frank Arthur, A. E. Kennedy, James Tully, Thomas Edgar, Walter Young, Jos Donaldson, Frank Ayotte, W. A Payne, R. A. Garbutt, Fred Boyce, A. Morrison, John Millage.

POUND KEEPERS.

Pound Keepers—Pound Keeper No. 1, W. J. Tully; No. 2, John Archer; No. 3, R. J. Edmison; No. 4, J. D. Fowler; No. 5, Garbutt Mann; No. 6, James Kidd; No. 7, Galvin Preston; No. 8, J. E. Kearney; No. 9, Jonathan Sweeting; No. 10, Robert Northey; No. 11, Jas. H. Northey; No. 12, Peter Bullock, jr.

Fence Viewers—James Tully, Jas. A. Young, Jos. Milburn, Thos. Hall, T. R. Mann, Andrew Young, J. J. Northey, Webster Blewett, Thomas J. Bell, Robert Northey, Thomas T. Milburn, John Harrison.

Moved by Mr. Davis and Mr. McKee, that the treasurer be instructed to pay the following accounts:—

John Chittick, salary, $100.

John Chittick, postage and stationery, $10.

R. J. Edmison, services as auditor, $10

J. A. Young, services as auditor, $10.

Alex. Elliott, refund for dog tax (charged in error) $10.

Wm. Madill (when certified) $3.

A. E. Higgins, digging pitch holes, $1.

D. Tully, repairing plows and scraper, $4.50.

George Milburn, repairing roads, $16.50.

A. Morrison, repairing roads, $11.50. —Carried.

The Council adjourned, to meet again on Monday, April 1st, at 10 o'clock.

Time Extended.

Ottawa, March 8.—The time for deporting the two Sikh women who have been detained at the coast has been extended pending the consideration of the report of the special commissioner of the Immigration Department, F. C. Blair, who went to British Columbia to study the question.

In formation was received in Ottawa yesterday that the Sikhs have lost their habeas corpus case before the British Columbia courts in regard to their detention.

Tuberculosis Convention at Rome.

Ottawa, March 8.—The Government has decided to send two delegates to attend the international tuberculosis convention, which will be held in Rome next month. It is understood that in all probability one of the delegates is Dr. D. A. Stewart, superintendent of the Ninette Sanitarium, Manitoba, and the other is Dr. Severin Lachapelle of Montreal.

The conference opens April 14, and will last two weeks.

FIRST MORTGAGE FIFTEEN-YEAR SINKING FUND GOLD BONDS

Dated 1st March, 1912 **Due 1st March, 1927**

Interest payable 1st March and 1st September

Principal and interest payable at The Canadian Bank of Commerce, Toronto Montreal and London, Eng.

Redeemable as a whole at 105 and accrued interest on any interest date on six weeks' prior notice, or annually for Sinking Fund drawings beginning 1st March, 1913.

Denominations: $100, $500 and $1,000

with Sterling equivalents.

Bonds issued in coupon form with privilege of registration of principal and in fully registered form. Coupon and registered bonds are interchangeable.

TRUSTEE:

NATIONAL TRUST COMPANY, LIMITED, TORONTO

The legal opinion of Messrs. Blake, Lash, Anglin & Cassels, and Messrs. Ryckman, Kerr and MacInnes, will be furnished.

Of $1,000,000 First Mortgage Bonds authorized, $500,000 are held in Treasury and may only be issued to the extent of 60% of cost of future properties, improvements and additions.

We emphasize the following salient points of this issue:

(1) Value of fixed assets as of December 31st, 1911, $605,807.45, consisting of real estate, buildings, plant and equipment. Current assets in excess of current liabilities, $814,946.20. Total assets, $1,420,753.65.

(2) Average annual net earnings for past three years (1909-1911) $191,878, or over six times the interest on bonds now issued.

(3) An annual Sinking Fund beginning March 1st, 1913, sufficient to retire the present issue by maturity at a maximum price of 105 and accrued interest.

The Dunlop Tire and Rubber Goods Company, Limited, incorporated in 1899, manufactures automobile, bicycle and carriage TIRES, BELTING for mines, grain elevators, threshing machinery and general conveyor purposes; HOSE for fire, water, steam, chemical, air drill and dredge use; PACKING, for all purposes; TILING, MATS, MOULDED GOODS and GENERAL RUBBER NECESSITIES. The operations of the Company cover the whole of Canada. Branches with excellent warehousing facilities are maintained at Vancouver, Calgary, Regina, Winnipeg, Toronto, Hamilton, London, Ottawa, Montreal and St. John, N.B.

The factories of the Company are located at Toronto. Since 1905 it has been necessary to increase the floor area of the plant from 35,000 square feet to over 150,000 square feet. The sales of the Company have increased in that period from $369,362 to $1,619,992. The main buildings are either brick and concrete or mill construction, with sprinkler system throughout, thus giving a minimum insurance rate.

Copies of the Trust Deed, the Certificate of the Canadian Appraisal Company, Limited, and the Certificate of Messrs. Price, Waterhouse & Company may be seen at our offices.

Interim Certificates will be issued pending delivery of definitive bonds.

DESCRIPTIVE CIRCULAR ON REQUEST

DOMINION SECURITIES CORPORATION LIMITED.

26 KING ST EAST TORONTO. LONDON·ENG. CANADA LIFE BLDG., MONTREAL.

Call to P.E.I. Legislators.

Charlottetown, P.E.I., March 8.—The Provincial Legislature will meet on March 27. This will be the first meeting of the House under the new Conservative Premier, Hon. J. A. Mathieson. He will report on the result of the delegation to Ottawa, where the claim of the island against the Federal Government were pressed.

The parties in the Legislature will stand 28 Conservatives and 2 Liberals

Five Killed In Indiana Wreck.

Logansport, Ind., March 8.—Five persons are dead and fifty injured in the wreck of the Continental Limited on the Wabash at West Lebanon, Ind., according to the official bulletin sent to Supt. J. C. Sullivan of the Peru division last night. The wreck occurred at the Redwood Bridge, near the Indiana state line, part of the train going through the bridge. The injured are being taken to Danville, Ill.

London to Paris Flight.

Paris, March 8.—Henri Salvey, the French flying man, arrived at Issy-Les-Moulineaux, a suburb of Paris, in his monoplane at 11 o'clock yesterday morning, having traveled from London, about 222 miles, without a stop, in 2 hours and 57 minutes.

Over the channel his machine was shaken by violent squalls, but the motor worked perfectly.

At 2.15 he left again for London.

Society Printing

Cards, Invitations, etc., for all social occasions

We have the finest Cards and materials, the newest styles of types and all work is most thoroughly neat and up-to-date.

Sample forms, etc., for inspection.

Calling and Social Cards steel or copper plates, to order.

FOR FAMILY USE

An Ideal Remedy for Coughs, Sore Throat, Catarrh, Weak Chest.

After having made a special study of the treatment of the throat and lungs for twenty years, Prof. D. Jackson states that in his opinion no preparation for general family use is so efficient, so healing, so certain to cure as Catarrhozone.

As his reasons for making this claim for Catarrhozone, Dr. Jackson says:

"Catarrhozone is free from opium.

"The patient can breathe its rich, balsamic fumes direct to the diseased spot.

"It is a remedy that treats and cures causes—prevents disease spreading.

"Reaches the innermost recesses of the throat, nose, bronchial tubes, and lungs.

"Alleviates chest soreness.

"Stops coughing instantly.

"Prevents bronchial irritations.

"Relieves clogged nostrils.

"Cures sniffles and nasal catarrh.

"Prevents La Grippe.

"Has proven itself a cure for weak lungs, loss of voice, speakers' sore throat, asthma, bronchitis, catarrh, coughs, colds, and winter ills."

Catarrhozone is unquestionably the world's greatest breathable cold, cough and catarrh medicine, and being free from all drowsy drugs, entirely safe for children and old folks; it makes an ideal family remedy. Recommended by the medical profession and sold by all reliable dealers. Beware of imitations, get "Catarrhozone" only; large size lasts two months, and is guaranteed, price $1; smaller sizes 25c and 50c. By mail from The Catarrhozone Company, Kingston, Ont.

CORNS CURED IN 24 HOURS

You can painlessly remove any corn, either hard, soft, or bleeding, by applying Putnam's Corn Extractor. It never burns, leaves no scar, contains no acids; is harmless, because composed only of healing gums and balms. Fifty years in use. Cure guaranteed. Sold by all druggists, 25c. bottles. Refuse substitutes.

PUTNAM'S PAINLESS CORN EXTRACTOR

THINKING THEMES

By DR. FRANK CRANE

Thrones!

That is one of the most sonorous, sensuous, imposing words in the language. The pluralization of so excessively singular a word as Throne, fillips the imagination.

Thrones!

It implies Kings, a crowd and company of such as are essentially solitary, a subduing of unmixable units into a common mass, a democracy of monarchs, a proletariate of absolute rulers.

Thrones!

Not the emperors themselves, who are after all, mortal men, and pass, as we do, but their seats, which are immortal, and do not pass. All we know of dignity and authority and human glory attaches to the word.

Thrones!

They shall never go away. When the last King is dismissed and the last royal relatives are pensioned, all that ever was a majesty in the word shall remain. The glorious contents of thrones shall pass over into Humanity. What effulgence belonged to one man as a figure-head shall fall to the People in reality. Instead of A Man we shall look up to Man. He who shall confiscate and use all thrones shall be the Son of — Man.

AN EXCELLENT MEDICINE FOR ALL LITTLE ONES

Mrs. Ovila Lamarre, Malvina, Que., writes:—"I have found Baby's Own Tablets an excellent medicine and would not use any other for my little one. I think all mothers should keep the tablets in the house." Thousands of other mothers have the same praise for the tablets. They are absolutely safe—being guaranteed by a government analyst to contain no opiate or other harmful drug. They break up colds, expel worms, cure constipation and indigestion, in fact they are good for all the minor ills of little ones. The tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

NOTE AND COMMENT

Hamilton Spectator.

Perhaps the fittest manner in which to treat the violent actions of those English suffragettes would be to incarcerate them in some insane asylum, to remain at His Majesty's pleasure.

Montreal Gazette.

Some of the striking miners in Great Britain are acting as if they were on a short holiday. They think they have the government with them and that their success will come at an early date. It may be well for more than the miners if their anticipations are justified by events. It will be very hard on them if the struggle is prolonged. They laugh at the start, but may mourn at the finish.

BEAUTIFUL EYES

are made beautiful by long, silky lashes and well defined, lustrous brows. Eyes, like diamonds, depend on their setting. The beauties of the face are lost is the eye brows are thin and scanty, and the lashes are thing and scanty, Parisian Lash Lustre grows beautiful, soft, silky lashes. It has done so for society women throughout Europe, and it comes here well recommended to do the same for you. Parisian Lash Lustre is not a dye or colorator, but a scientific preparation for beautifying the eye lashes and brows. Our guarantee goes with every box of Parisian Lash Lustre. A two weeks' treatment will bring beauty to your eyes that you have never before possessed. By mail, prepaid, in seal boxes on receipt of price, fifty cents. B. V. Marion, sole distributor, Bridgeburg, Ont.

FASHION HINT.

How to Make a Stunning Afternoon Gown.

COSTUME OF SATIN AND NET

For the girl who goes to bridge parties or to club afternoons a gown like the one illustrated is very useful, and the best point about it is that it may be evolved from two or more discarded party frocks. In the present instance an old white satin ball dress forms the foundation, over which is draped black dotted net. Trimmings are of black velvet, ribbon and coral beads.

To Prevent Winter Colds.

When you go out into the cold breathe deeply.

Be sure that your clothing is loose enough to allow of this.

If you don't breathe properly you are immediately subject to colds.

You are liable to colds if you let the system run down.

Eat regularly and don't go for long hours at a time without proper nourishment.

See that the air is pure in the home or your place of business.

By all means take fresh air and a short walk if possible at noontime.

Most of our homes and business places are overheated, and for this reason the outdoor garment should be warm and dresses only of moderate weight.

Girls who wear thin lingerie blouses all winter should see that the chest is well protected against the cold.

Quick friction after a bath in winter is good, and for older persons an alcohol rub after the bath will keep them from catching cold.

Many doctors think that this is the only beneficial way to take alcohol—through the pores.

Always bathe the neck and chest in cold water, followed by an alcohol rub, before changing from a high necked dress to a low cut one.

If you catch cold don't ruffle up and sit by the fire. Put on your sweater, open your windows and go through all the bodily exercises you can remember from your school gymnastic lessons. See how the circulation will start.

Separate School Agitation.

Montreal, March 8.—Preparations are said to be under way by local Nationalists to stir up a wide agitation throughout the province regarding the Keewatin Annexation Act, and the attitude assumed by the Quebec members of the Cabinet. A mass meeting, it is said, will be held at the Monument National during the next ten days, at which Henri Bourassa will be the principal speaker. Hon. Messrs. Monk, Nantel and Doherty will be invited to be present and explain their attitude.

A similar meeting is being arranged for the same day in Quebec, where Armand Lavergne will challenge Hon. Mr. Pelletier, Postmaster-General, to meet him.

A series of meetings in all the counties represented by Nationalists who voted with the Government on the Keewatin bill, it is reported, will follow.

Yuletide Quotations.

The quotations given below may be of some value to those who like to accompany a Christmas gift with an appropriate sentiment: With a calendar, "Write it on your heart that every day is the best day of the year;" with a book, "An old friend to trust;" with a pair of slippers, "We must go together;" with a pair of gloves, "We're a pair if ever there was one."

Indians Making Good.

For the first time since the Government has had charge of the Sioux Indians the issuance of rations has been stopped. No subsistence of any kind has been furnished the Indians for three months. For several years a small ration of beef, sugar and flour has been issued to the old and indigent, and this will be done again this winter, but only to those who are infirm. The Indians for the first time have shipped their own cattle to Chicago this year. They have sent several trainloads and have received top prices for them, netting them thousands of dollars.

Some people gossip on such slight excuse that they are almost criminals.

SHE HAD CONSTANT PAIN

Until Relieved by Lydia E. Pinkham's Vegetable Compound.

Dewittville, N.Y. — "Before I started to take Lydia E. Pinkham's Vegetable Compound I suffered nearly all the time with headaches, backaches, and bearing down pains, and had a continuous pain in my left side. It made me sick if I tried to walk much, and my back was so weak that I was obliged to wear corsets all the time. But now I do not have any of these troubles. I have a fine strong baby daughter now, which I did not have before taking Lydia E. Pinkham's Vegetable Compound."—Mrs. A. A. Giles, Route 44, Dewittville, N.Y.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.

British Army Rifle.

London, March 6.—The British soldiers' opinion of British weapons was quoted in the Commons yesterday, when, in defending an attack on the army's equipment, Col. Seely said our army was better armed than any continental army. In the South African war he rode a horse which was killed at 3,000 yards by a Mauser bullet. Our bullet, he believed, would kill at a little longer range.

In seven vital points in a rifle Britain had an overwhelming advantage, and two of these were most vital—rapidity and accuracy. In one point alone—trajectory—continental armies had an advantage; but any soldier would say, "Bother trajectory; give me the rifle that shoots straightest and fastest." That was what the British rifle did.

Declines Representation.

Ottawa, March 6.—That the Province of Manitoba has no desire to be represented before the Supreme Privy Council on the ne temere case, is the tenor of the communication received by Hon. C. J. Doherty, Minister of Justice, yesterday, from the Provincial Government. The other provinces of the Dominion have already made application to the Minister for permission to be represented before the Privy Council when the stated case on the ne temere decree is to be pleaded, and it is understood that all the provinces have already selected their counsel except Manitoba, which has no wish to send counsel to London.

Smash-Up Near Laurel.

Orangeville, March 7.—A rear-end collision took place at three o'clock yesterday morning near Laurel, a short distance from here, between a freight and a stock train. The engineer of the first freight left his train, which carried stock, and came on here for water, and in his absence another freight on the Owen Sound division crashed into it. Three cars were derailed, and a cattleman, whose name cannot be ascertained at present, was hurt. Dr. A. J. Hunter, of this town, was taken to the wreck on a special train. Traffic was delayed several hours.

LIVER LAZINESS

Those Who Lack Energy and are Unsuccessful Should Read This Closely.

"I am only thirty years old, yet for almost two years I have felt more like seventy-five. I have found it difficult to sleep at night and in the morning feel so depressed and heavy that effort was difficult, my hands were always clammy and perspiration on slight effort would break out all over me. It was not unnatural that I should begin to brood over the chance that I should soon be unfit to do my work and this dread made my sleepless nights perfect misery. After trials of medicine and mixtures Dr. Hamilton's Pills gave me the first gleam of hope. From the very first I could see they were different in action from other pills. They didn't gripe and acted as naturally as if nature, and not the pills were cleansing my clogged up system. My spirits rose, I felt much better, the sluggish action of the system gave way to normal activity. Dizziness and headaches ceased, appetite, good color, and ambition to work returned and have remained. I am like a new man and I thank Dr. Hamilton's Pills for it all."

This was the experience of J. E. Parkhurst, a well-known grocery dealer in Jefferson. Follow his advice, use Dr. Hamilton's Pills for your stomach, kidneys, and liver, and you'll enjoy long life and robust good health. All dealers sell Dr. Hamilton's Pills, in yellow boxes, 25c. per box, from The Catarrhozone Co., Kingston, Ont.

Dr. Hamilton's Pills Stimulate Liver and Kidneys

TYPHOON FORMATION.

Light Winds Encircle the Calm Centre of These Fierce Gales.

Contrary to the general impression, a typhoon—that is, what is known to the scientist as a "well formed" one—does not consist merely of a terrific gale of wind with a calm spot in the immediate centre.

On the contrary, next to the centre, which may have a diameter anywhere from two miles to fifty where the calm belt reigns, there is a sort of ring, generally less than a mile in diameter, in which light winds prevail. After this is passed comes the real, main body of the destroyer, which may have a total diameter of anywhere from 200 to 1,000 miles, or even more.

The force of the typhoon depends on the depth of the depression of the currents of air, or, to put it in scientific terms, the "barometer gradient." A roughly formed typhoon may be a great deal smaller and shorter in duration than one of regular formation. All typhoons come from the east, so that while the China coast ports are benefited by the knowledge derived from the Philippine station in being forewarned, the reverse cannot occur.

Typhoons increase their strength as they go north, and consequently there may be quite a difference between the power of one in the southern end of these islands as compared with one in the north. It is this feature which makes the hurricanes of the West Indies more to be dreaded than the Pacific typhoons of this latitude.

The velocity of the wind in the typhoons of the Pacific, together with the velocity of travel, varies also to a considerable extent. In the typhoon of 1905, known as the Cantabria cyclone, which lasted from Sept. 22 to Sept. 28, the most severe of modern times, the velocity of the gusts was at one time forty-six meters a second, or 103 miles an hour. And at one period of that week the moving velocity of the scourge was twelve miles an hour. These were unusual figures, however, and are not ordinarily equaled.

Anger Shortens Life.

There are at least two men on this earth who know better than to get angry. One is Prof. Lange of the University of Copenhagen; the other is Dr. Maurice de Fleury, the distinguished French scientist. After the article has been read there may be a great many others ready to make a mental resolve never to get angry again.

Working along separate lines, Prof. Lange and Dr. de Fleury have been investigating the causes of anger and the effect of anger on the human system.

Summed up in its briefest form their verdict is (and both investigators reached the same conclusions) that every time a man gets angry he shortens his life so many minutes, or days, perhaps even years. A great deal depends on the intensity of his anger.

Dr. de Fleury states that "every time we become angry our vitality shrinks so much in proportion for every outburst. After even the most artfully suppressed signs of bad temper our vitality becomes smaller and smaller, until finally nothing is left."

The moral deduced from the advancement of this latest theory in medicine is, of course, that we should never allow ourselves to become angry if we value our health and life.

Wireless Telephone for Ships.

By the use of the wireless telephone passengers on ships will probably soon be able to converse readily across wide stretches of open sea. The new device improves upon the present submarine telephone. The submarine telephone now in use on some of the liners merely picks up the signals sent out by bells sounding under the sea. In the new device it will be possible for a ship to get into communication with a vessel hundreds of miles distant and carry on a rapid conversation. The wireless telephone, operating as it does below the water, is independent of fogs or other weather conditions. The contrivance is to be tried on American battleships and it is believed will soon become a common feature of ocean vessels.

Birds Used Old Clock Springs.

In the Museum of Natural History at Soleure, Switzerland, there is a bird's nest made entirely of steel. There are a number of clock-making shops at Soleure, and in the yards of these shops there are often found lying disused or broken springs of clocks. One day a clockmaker noticed in a tree in his yard a bird's nest of peculiar appearance. Examining it, he found that a pair of wagtails had built a nest entirely of clock springs. It was more than four inches across, and perfectly comfortable for the birds.

Giving an Opinion.

Taddles—I used to think a good deal of Straddles, but—

Waddles—You don't say so! What has he done?

"The other day I asked him to call round and give me his opinion of an article of mine on 'The Impending Crisis.' Well, he came all right, but he brought a little thing of his own for me to hear, and, confound him, he wasted all the evening with his egotistical trash."

Practical Advice.

"Speaking of etiquette, did you send the dollar for those advertised instructions on 'What to do at table?'"

"Yes."

"And what did you get?"

"A slip with one word printed on it: 'Eat!'"

Well Understood.

Blobbs—Do you think we shall ever have a universal language?

Slobbs—We have now when money talks.

Which Route.

Mrs. Fly—I just heard of Mr. Buzzer's death by the plague.

Mr. Fly—Did he get stuck or was he swatted?

An attempt will be made to release the Turret Cape, wrecked in Georgian Bay last fall.

VARICOSE VEINS CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on Varicose Veins. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy & Kennedy, as he had taken treatment from them himself and knew they were square and skillful. I wrote them and got The New Method Treatment. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $12 a week in a machine shop before treatment, now I am earning $22 and never loose a day. I wish all sufferers knew of your valuable treatment. HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It may suppress the symptoms—our NEW METHOD cures all blood diseases.

YOUNG OR MIDDLE AGED MEN.—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. Consultation Free. No matter who has treated you, write for an honest opinion Free of Charge. Books Free—"Boyhood, Manhood, Fatherhood." (Illustrated) on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes or envelopes. Everything Confidential. Question List and Cost of Treatment FREE FOR HOME TREATMENT.

If you desire to see us personally call at our Medical Institute in Detroit as we see and treat no patients in our Windsor offices which are for Correspondence and Laboratory for Canadian business only. Address all letters as follows: DRS. KENNEDY & KENNEDY, Windsor, Ont.

Write for our private address.

Offer For I. C. R.

Montreal, March 7.—At a meeting of the council of the Board of Trade yesterday, the railway committee reported with regard to the application of the Central Railway Co., that the council should approve of the granting of the usual subsidies for that line, which runs between a port in Georgian Bay and Montreal, as it affords another direct route for the export of western products, and because the company offers to give running rights to the Intercolonial Railway over its line from Montreal to Midland and also to Toronto and to Port Stanley via Stratford and London, extensions which the company is authorized to build, thus extending the Intercolonial into many sections of Ontario.

The council approved the committee's report and will address the Minister of Railways and Canals accordingly.

Had to Protect Suffragettes.

London, March 8.—The extent to which the window-smashing raids of suffragettes has aroused public feeling against them was evidenced by the large force of foot and mounted police necessary to protect them from a great mob, carrying an effigy of Miss Christabel Pankhurst, which gathered outside of the London Opera House, where the militant section of the suffragettes held a meeting last night. The speeches at the meeting were tame and there was a noticeable absence of all incitement to violence.

The public was practically asked yesterday to help the police catch the window-smashers. The commissioner of police issued a circular calling attention to the fact that under the common law anybody is empowered to restrain persons attempting to do such damage and hold them until a policeman arrives, and, similarly, if detected after the damage is done.

Home Rule Bill at Easter.

London, March 8.—In the House of Commons Premier Asquith yesterday said the exigencies of public business would not allow the home rule bill to be introduced before Easter.

Sir J. Lonsdale asked, amid loud cheers, whether the Premier had arrived at that opinion after the South Manchester election. No answer was given.

Alberta Publicity Car at Peterboro March 13th

The Camrose Publicity Club have arranged for a special Grand Trunk Pacific Tourist Car to contain the exhibits of the province of Alberta, to tour Eastern Canada with a view of attracting further settlement to that province.

This car will arrive in Peterboro at 8.16 a.m., March 13th, and will remain on the station siding at the Grand Trunk Depot until 5.35 p.m. the same day.

Everybody interested in this great country are cordially invited to pay this car a visit.

WHY OWN WEBSTER'S NEW INTERNATIONAL DICTIONARY

THE MERRIAM WEBSTER?

Because it is a NEW CREATION, covering every field of the world's thought, action and culture. *The only new unabridged dictionary in many years.*

Because it defines over 400,000 Words; more than ever before appeared between two covers. *2700 Pages. 6000 Illustrations.*

Because it is the only dictionary with the new divided page. A "Stroke of Genius."

Because it is an encyclopedia in a single volume.

Because it is accepted by the Courts, Schools and the Press as *the one supreme authority.*

Because he who knows *Wins Success.* Let us tell you about this new work.

WRITE for specimen of new divided page.

Satisfied Policy-Holder

[COPY]

Toronto, March 1st, 1912.

W. H. Hill, Esq.,
Manager,
Sun Life Assurance Co.,
Peterborough, Ont.

Dear Sir,—I wish to thank the Sun Life Assurance Company, through you, for the prompt and very satisfactory settlement of my 15 year Endowment Policy, No. 64345, which matured and was paid me to-day.

I have also a 15 year Endowment maturing to-day in a leading British Company.

The contrast, in the results, in favor of your Company is so marked that I want you to know it, but I am at a loss to know how such a difference could honestly occur. When I tell you that the profits in your Company are three and one-third times the profits in the other Company referred to, and this too notwithstanding I paid the other Company $1.15 per year more per $1000 than I paid you, you will realize my inability to comprehend the cause.

This is surely a tribute to the management of the Sun Life, and I am so well pleased I have applied for further insurance with you.

Incidentally, I would like to say a word for your loan privilege. As you are aware, I borrowed some money on my policy, a little over a year ago, which enabled me to obtain a substantial interest in a town site in the Northwest, and you will be pleased to learn that it has already yielded substantial gain and gives promise to pay hundreds per cent., so that it is impossible to fully realize the value of that Policy to me.

I thought as an old Peterborough boy you would be pleased to know I am delighted with the result.

Yours truly,
(Signed) ROBERT E. DOLAN.

REPORTS ON RURAL SCHOOLS IN PETERBORO' COUNTY

Inspectors Broderick and Lees make to the County Council of Peter borough their annual reports. In view of the widespread interest in Public School matters these reports are re-printed from the proceedings of the County Council at it's recent session.

PUBLIC SCHOOL INSPECTOR'S REPORT

LINDSAY, Ont., Jan. 24. 1912.

To the Warden and Members of the Peterborough County Council :

Gentlemen :

In accordance with the Statutes governing the duties of School Inspectors, I have the honour to present herewith my Annual Report for the year 1911 on the condition of the Schools in Peterborough West.

During the year I compassed the 240 half day visits required by the Department, of which 80 were made in this side of the Inspectorate. In addition I met 15 of the School Boards almost invariably in the evening so as not to interfere with the work of inspecting the School. In meeting these Boards my invariable plan has been to discuss with them the Departmental Regulations, especially those relating to School Grants and Teacher's Certificates, the sole purpose being, of course, to induce Boards (1) to engage teachers holding Second Class Cerificates and (2) to enter upon a comprehensive plan for the improvement of their school property. These two phases of educational work, the securing of properly qualified teachers and the condition of school property, have in fact occupied more of my time and energy than the inside work of the school room.

It will be seen from the following statment that the condition in Smith and Galway are about the same as they were two years ago. In Ennismore there is marked improvement, while in Harvey conditions are less favourable.

GRADE OF CERTIFICATE

Township	Year	1st Class	2nd Class	Prov. 3rd	Prov. 3rd Ex.	Lim. 3rd	Dist. 3rd Ex.	Temp.	School Closed	Not Rept.
Smith	1910	0	8	3	–	–	1	1	–	–
	1912	1	6	–	1	–	2	1	–	1
Ennismore	1910	2	2	–	–	–	1	1	–	–
	1912	2	3	–	–	–	–	1	–	–
Harvey	1910	–	3	–	2	2	–	1	–	–
	1912	–	1	–	–	2	2	1	1	1
Galway and Cavendish	1910	–	–	–	–	1	1	2	1	1
Totals...	1910	0	13	3	2	3	3	5	–	–
	1912	1	10	0	1	3	4	5	3	–

The vital question in the management of Schools on both sides of the Inspectorate is how to secure properly qualified teachers.

The schools of Peterborough West may be roughly divided into those of the North of which there are about 10, and those of the South of which there are twenty (20).

Speaking of the latter: The experience of the past has shown that almost, if not quite, every Board that set earnestly about it, succeeded in getting a teacher; and it is certain that several schools are without a teacher because the Trustees made no reasonable effort to get one. With a Normal School at our door, there is absolutely no season why every school in the south of the Inspectorate could not have a Second Class Teacher.

The chief obstacle in the way of getting qualified teachers is the larger salaries now asked by teachers. I submit, however, for your consideration, the following *Comparison of Salaries, Grants and Section Levy on account of Salary*, for the various schools in Peterborough West for the years 1905 and 1911-1912. I have not in this comparison considered the Assisted School Grants because these are variable and not subject to definite regulation. It should be remarked, however, that these have increased a considerable amount during the last two years. The amounts given under the heading "Increase" are the actual amounts which the Sections are required to raise to pay the salary of 1911-1912 over and above that required to pay the salary of 1905. A careful study of these figures will show that the larger salaries now required in order to secure teachers do not really mean any marked increase in the Section Levy.

		1905				1911-12				
Township	S. S.	Salary	Govt. Grant	T'nship Grant	Sect. Levy	Salary	Govt. Grant	T'nship Grant	Section Levy	Increase
Ennismore	1	$350	$19	$10	$340	$500	$111	$20	$369	$29
	2	375	27	5	370	500	118	10	372	2
	3	325	19	15	340	450	99	30	411	41
				If salary were		500	119	30	411	71
Harvey	1	272	10	98	360	500	175	98	383	23
						450			373	
	2	350	35	122	437	500	188	122	434	3*
				If salary were		550	223	122	449	12
	3	290	14	137	313	475	205	37	307	6*
	4	250	12	83	255	475	173	83	219	36*

*Decrease

With the Schools in the North the case is different. These schools are resting under two disabilities. First: If the Section's Assessments be a safe guide the communities are not so well able to pay large salaries as those of the South, and Second: I have found that Normal School graduates have a strong aversion to going to the remote Sections.

There are in the Schools of Peterboro West 150 children in charge of teachers holding the lowest grade of certificate or no certificate of qualification at all. That this condition of things shall continue is unthinkable. There must be a remedy. And I believe the remedy is to be *Consolidation of Schools*. Owing to conditions this is not everywhere possible, but in some districts it is not only possible, but quite easy. In one locality especially four schools could be consolidated and two teachers do the work of four. Such a Consolidation would mean less expense and infinitely better service. Among other advantages arising from consolidation would be the establishing of a Continuation School in which the young people of the North might be trained for the school of the North. And I am strongly of opinion that until this be done conditions can never be anything like satisfactory. With a Consolidated School doing Continuation Work two years' High School work—or more—could be accomplished by pupils near their own home.

SCHOOL ATTENDANCE: The following extract from the Annual Report will show the attendance at the various schools of the Inspectorate for the year 1911:

Township	S. S.	Enroll-ment	Aver-age	Per-centage	Township	S. S.	Enroll-ment	Aver-age	Per-centage
Smith	1	33	17	51.51	Gal & Cav.	1	18	8	44
	2	30	18.55	61.83	Galway	2	42	21	50
	3	42	27.10	64.52		4	37	16.37	44
	4	30	16.21	54.03		7	15	6	40
	5				Harvey	1	37	16.67	45
	6	43	22.89	53.23		2	54	26.83	49.68
	7	34	19	55.88		3	24	15.56	63
	8	57	40	70.17		4	19	11.56	60
	9	49	29.40	60		5			
	10	38	22	57.89		6	39	17.83	45.71
	11	35	23	65.71		7	19	7.78	41
	12	38	18.23	48		8	7	3	43
Ennismore	1	30	6	53					
	2	60	38	63					
	3	32	18	56					
	4								

The Ennismore Continuation School continues to do exellent work. The attendance during the year has been excellent, both as regards the enrollment and the daily attendance. In scholarship, teaching ability and management, as well as in the general spirit of their work, the Staff is very satisfactory.

SCHOOL PROPERTY:

I am pleased to be able to report a very marked improvement in the condition of school property during the year.

Six Boards have put out-buildings in proper condition, meeting, as fully as possible, the requirements of the Education Department. Facility of approach, cleanliness, light and absolute privacy have been secured in these buildings.

Four ventilation plants have been installed during the year, and five others are to follow within a few days.

I have the honour to be, gentlemen,

Your obedient servant,

(Sgd.) G. E. BRODERICK,
Public School Inspector.

PUBLIC SCHOOL INSPECTOR'S REPORT

To the Warden and Council of the County of Peterborough :

Gentlemen :

I beg respectfully to submit my report on the work of the schools in the Inspectorate of Peterborough East, for the year 1911.

During the year, there were in operation, in the inspectorate, 71 Rural schools with 75 teachers and 3 village schools with 20 teachers. In the work of supervision, I made 239 visits, 182 in rural schools and 75 in the villages. All the schools were open for at least 6 months, and all except a few of the smaller for the whole school year.

Of the 75 teachers in the rural schools during the last term, 30 had Normal training, 12 had been trained at a model School, and 3 had taken courses at Summer Training Schools. The remaining 30 had received no professional training. These last were distributed as follows: Asphodel, 1; Belmont and Methuen, 10; Burleigh and Anstruther, 4, Chandos, 5; Douro, 3; Dummer, 5; and Otonabee 2. It is safe to say that in Asphodel, Douro, Dummer and Otonabee in most cases, qualified teachers could have been secured, had the trustees been viligent, alert, and willing to pay what, under existing conditions, are reasonable salaries. Some of these sections are now paying to teachers without certificates, salaries which, when the consequent loss of grant is considered, will cost the section as much as if they paid $550 or $600 to qualified teachers. At that rate, it is altogether probable that experienced teachers with certificates could have been secured.

The frequency with which changes of teachers take place is illustrated by the fact that at midsummer last 38 rural schools changed teachers, and at present, in the 75 rural schools in the inspectorate, there are only 23 of the teachers that were there when I had the honor to report to you a year ago.

There has been an encouraging increase in the salaries paid. On the basis of the rate being paid during the fall term of 1910, the average was $400, while in the fall of last year it had increased to $427, there being an aggregate increase of $2429. The averages for townships are as follows:

	1910	1911
Asphodel	$429 00	$491 00
Belmont and Methuen	383 00	391 00
Burleigh and Anstruther	318 00	332 00
Chandos	276 00	305 00
Douro	408 00	448 00
Dummer	401 00	421 00
North Monaghan	456 00	475 00
Otonabee	480 00	505 00

While this increase is encouraging, it is still far short of what will be necessary if we are to secure and retain the services of capable and efficient teachers. This will be apparent from the fact that in 1910, the average for the whole province was $487. nearly a hundred dollars higher than for this inspectorate and somewhat higher than for our best township.

The grants for the year were liberal and may be classified as follows:

Grants on account of	
Certificates	$425 00
Salaries	4,624 00
Fixed Grant ($30 each for 28 schools)	840 00
Accommodation and Equipment	810 00
Rural School Libraries	167 33
Assisted Schools	1,475 00
Continuation Schools	1,002 20
Village Schools	696 06
Total...	$10,039 59

The County pays the equivalent of the grants to Continuation and for Accommodation and Equipment amounting to $1,812.20, making a total of $11,851.79.

Five new schools were erected during the year and are now either in use or nearing completion. They are in sections 11 and 13 Methuen, 4 Chandos 6 Douro, and 16 Otonabee. They are all modern in design, well lighted and ventilated and a credit to the sections. The two last mentioned are constructed with basements and are heated with furnaces. In a number of the old schools, improved means of heating and ventilating have been installed during the year. It is encouraging to note the increased attention that is paid to the health and comfort of the pupils. With one or two exceptions, the very poor buildings in the inspectorate have now been replaced with new ones. Little progress has as yet been made in the way of improving and beautifying the grounds, and there are a few buildings that are urgently in need of repairs.

In the villages, there has been during the past few years, marked improvement in the buildings and equipment, and though there is much yet to be desired, conditions are gradually improving.

The school building in the Village of Havelock was partially destroyed by fire on March 16, but fortunately not as to interfere to any extent with the work of the school. It has been completely restored, a new heating system installed, and the older parts of the building renovated so that now it is in better condition than ever before.

I have found the school boards of the villages, for the most part, anxious to promote the best interests of their schools, and thus ready to give careful and intelligent consideration to any suggestions made with that end in view. The result is that conditions are steadily growing better, though not always as rapidly as one could wish.

On the whole I have found the teachers earnest and industrious in the performance of their duties. Most of them, especially the more efficient and capable are willing and eager to receive suggestions and to profit by the Inspector's visits. In my relationship to the teachers it has been my desire to supervise rather than to inspect, and I have tried to so conduct my visits

NORSE FLAG AT THE SOUTH POLE

Captain Amunsden Describes His Successful Journey---Story Reads Like Holiday Expedition.

Missed Dangers Usually Associated With Polar Exploration — Weather Was Mild and Fine.

London, March 9.—There seems to be no further doubt as to the discovery of the South Pole by Captain Roald Amundsen, the Norwegian explorer. His silence upon his arrival in Hobart, Tasmania, is explained by the fact that he had contracted to sell an exclusive account of his trip to a syndicate of papers. His sailors were kept aboard the "Fram," and no one was allowed to see them.

The story appears in several papers in the syndicate and is closely guarded by copyright. It tells a clear and definite story of the leaving of winter quarters and the dash to the Pole, which was reached on December 14. The narrative reads like the tale of a winter tramp in bright frosty air and, although the cold was severe, the traditional hardships were almost entirely lacking. The party stayed about four days at the spot which they ascertained to be the Pole, named it "Polheim" and planted flags. After taking observations in clear sunshine they returned as from a jaunt. The whole story reads most prosiacally.

Captain Amundsen intends to stay at Hobart for a few days. He will then go to Australia and give a few lectures there, afterwards departing for Europe by the circuitous route of Buenos Ayres, then round Cape Horn, up to the Behring Straits and through the Northwest passage and the Arctic Ocean.

The confirmation of Capt. Amundsen's attainment of the South Pole on December 14, 1911, received yesterday from the explorer himself at Hobart, Tasmania, sets at rest the conflicting reports current on the subject yesterday.

Christiania, March 9.—When Capt. Raold Amundsen's brother, Leon, personally took the explorer's telegram announcing that he had attained the South Pole to King Haakon Thursday, His Majesty was attending the manoeuvres at Sandviken. King Haakon immediately read the despatch and addressed one to Amundsen at Hobart, Tasmania, saying:

"I thank you for the information. The Queen and I beg to send you and all on board the Fram our most cordial congratulations on the occasion of your results, which are so satisfactory to all of us.

(Signed) "Haakon."

This is all the correspondence that has passed between King Haakon and Capt. Amundsen, King George of Great Britain and King Frederick of Denmark have telegraphed their felicitations to King Haakon.

New York, March 9.—The following message from Captain Amundsen is in reply to a cable from The New York Times, informing him that despatches from New Zealand credited him with the statement that Captain Scott had reached the South Pole, and asking whether these reports were true or not. It will be noted that Amundsen replies in the third person:

(Special Cable to The New York Times.)

Hobart, Tasmania, March 9.—Amundsen knows nothing about Scott. From H. D. Baker, United States consul:

(Special Cable to The New York Times.)

Hobart, Tasmania, March 9.—Amundsen denies knowledge of Scott's expedition, refuses to disclose anything regarding himself and has isolated his ship's crew. He is reticent, according to his contracts with newspapers. (Signed) Baker."

ST. RAILWAY REVENUE

Calgary, March 9.—Street railway earnings for the month of February amount to $37,366.75, as against $19,383.21 during February, 1911. This is approximately an increase of 95 per cent and is in line with the large increase being registered in other departments of the city. The many extensions which have been made during the past year and the number of new cars which have been added to the system are responsible for the large increase. The city operates the railway.

ASQUITH TO TRY AGAIN

Invites Another Conference With View of Settlement.

London, March 9.—After extended talks with committees representing the coal mine owners and their striking employes yesterday, Premier Asquith extended an invitation to the representatives of both sides to the dispute to meet in a joint conference "with a view to a free discussion of the whole situation."

The official report explains that the Government considers the proposals they have placed before both parties offer the fairest means for arriving at a satisfactory settlement of the dispute, but in view of the difficulty of making any progress in that direction without a mutual discussion of the situation, the invitation for a joint conference was issued.

What the Government's proposals are has not been divulged. The miners replied to the invitation that they had undertaken to reassemble the national conference of miners at the earliest possible moment, but with the reservation that they would not recommend the acceptance of the Government's invitation except on the understanding that the principle of a minimum wage should be excluded from the discussion at the conference. As it is on this point that the whole dispute hinges, it is difficult to see how any progress towards a settlement of the strike can be made by a joint conference at which discussion of the question is barred.

The national conference of miners cannot be assembled before next Monday and meanwhile the strike must continue, and each day adds thousands of others to the vast number of persons already out of work.

SURPLUS IS $35,000,000

Canada's Revenue Reaches High Water Mark.

Ottawa, March 9.—When Hon. W. T. White, Minister of Finance, brings down his budget, which will probably be next Wednesday, he will be able to announce the largest surplus in the history of Canada. It will be about thirty-five million dollars for the financial year, an increase of some fifteen million dollars over the surplus which Mr. Fielding announced a year ago.

The financial statement for the first past eleven months, which was issued yesterday, shows that the country is at the high tide of prosperity and that business is ever expanding.

The revenue for the eleven months was $120,645,616 and the expenditure $77,145,824 on consolidated fund. The increase in the revenue for the eleven months is $16,343,000, and of expenditure of $6,557,953.

The revenue already for the eleven months shows an increase over last year of three million dollars in excess of the total revenue last year. The revenue for the month of February shows an increase of nearly a million and a half over last year. The total for February of 1911 was $9,491,997.97, and the total for this year is $11,078,633.72.

The expenditure on capital account for the seven months has been $27,000,000, or one and a half million less than last year. The indications are that the surplus of the revenue consolidated fund will practically meet every item of expenditure on capital account, including twenty-five million for the construction of the National Transcontinental Railway.

EXPLORER WAS DESERTED BY HIS GUIDES

Was Left Without Supplies by Indians in Wilderness

Special to The Review.

New York, March 9.—A letter from Fort Smith, Canadian Northwest Territories, conveys the information that Harry V. Radford, who had undertaken a four years' hunting and exploration trip in Northern Canada in the interests of the National Geographical Society, was deserted by his Indian guides about New Years in the wilderness and his fate is unknown. He was left without supplies.

PROPOSITION FOR ILLUMINATION OF HISTORIC NIAGARA FALLS ON WAY---CANADA TO AID

COPYRIGHT 1907 BY G. H. NORRIS — ILLUMINATION OF NIAGARA FALLS

To provide for the electrical illumination of Niagara Falls by New York State, in co-operation with the government of the Province of Ontario, Senator Robert H. Gittins will introduce a bill providing for an appropriation of $50,000 for the construction and equipment of an electrical plant and $2,500 for one year's operation.

The electrical illumination is not entirely an experiment, for about five years ago $35,000 was raised by subscription for a temporary illumination. Projectors were installed and the falls were illuminated for two hours a night for two weeks, the electrical companies at Niagara furnishing the current. Photographs taken at that time, at ten o'clock in the evening, give a slight idea of the beautiful effect produced.

CHILD WAS SCALDED TO DEATH

Ottawa, March 9.—While playing in the kitchen with two sisters and a brother, Hilda Victoria Hultguist, the two-year-old daughter of Mr. and Mrs. F. W. Hultguist, of 114 Cambridge street, accidentally knocked a pot of boiling water off the stove onto herself and died as a result of the burns received. The little girl's mother had gone upstairs for a few moments, leaving the children playing together. Their cries brought her down to the kitchen as fast as possible, where she found the little one lying on the floor suffering intensely. She undressed the child and did everything in her power to relieve the pain until Drs. L. C. Berord and James Seager were summoned.

Little Hilda was badly scalded about the head and face, as well as the body and arms. She was the youngest of five daughters.

OPERATOR'S ERROR THE CAUSE OF FATAL WRECK ON C.P.R.

He Disappeared After Accident and Cannot be Found—Death List May be Seven.

Ottawa, March 9.—The official statement issued last night by the Canadian Pacific Railway officials of the wreck on the line yesterday morning between Ottawa and Hull, shows five killed, eleven injured, two of whom are in a serious condition, and a property damage of $3,000.

The casualties are:

Dead.

John C. Anderson, conductor of the passenger train, Ottawa.

Peter Moyles, a retired farmer, Quoyon, Que.

E. J. Tabor, contractor, Hull.

Walton McAllister, Eardley, Que.

Miss Agnes Putnam, 28 years old, Ottawa.

Injured.

Fred Cole, engineer, Ottawa, fractured skull.

C. A. Roy, Ottawa, spine injured.

Alex. Quinn, Quyon, formerly of Ottawa poice force, serious internal injuries.

Clayton, Shoan, Ottawa, slightly injured.

Charles Steele, Steele Line, Que., face cut.

William J. Kennedy, Ottawa.

John Edwardson, Hudson Bay Post, north of Maniwaki, legs broken.

E. A. Lamb, Ottawa, head cut.

J. Hasson, leg broken.

G. Gohey, leg broken.

Joseph Dowe, Muldoon, Que., leg broken.

J. R. Maxwell, Ottawa, seriously hurt.

Mrs. (Rev.) Gagnon, Pontiac, Que., slightly injured.

Investigation shows that the accident was due to the telegraph operator at Hull station, Harvey Boal by name, allowing the passenger train from Pontiac to back in toward Ottawa at the same time as a work train was going over to Hull. A couple of minutes more would have cleared the track as the run between Hull and the Union Station, Ottawa, is a short one. Immediately after the accident, young Boal, who is only 21 years of age, adisappeared, and though the police of both Ottawa and Hull have been searching for him, they have been unable as yet to locate him.

Of those in the hospital here, the most seriously injured are Alexander Quinn, a former Ottawa policeman, and once police champion of Canada in athletics, and W. Kennedy of Ottawa, traveler for the International Harvester Co. Both are in a serious condition. Several of the others have broken legs and other injuries, but their condition is not considered critical.

Doctors and ambulances from both Hull and Ottawa were rushed to the scene, and as soon as possible the dead were removed and the injured cared for.

The passenger train was in charge of Conductor John Anderson of Ottawa, who was instantly killed, apparently from a blow on the head. His engineer was Joseph Murphy, and his fireman Camille Lemieux.

The freight engine was in charge of Engineer Fred Cole and Wm. Short, fireman. All are of Ottawa.

The passenger train had come from Waltham, Que., and as is the custom at the Hull station, was reversed to back into the Union station. It left the Hull station at 9.22, and the accident happened a few minutes later. Both trains were traveling at a good rate of speed, and, as there is a sharp curve and a deep cut just where the accident happened, it was impossible for the crew of one train to see the other train till too late.

The passenger train was composed of an engine, baggage car, second-class passenger, and first-class passenger, in the order named.

In backing up the first-class car was first, and it was the car struck by the on-coming engine of the freight. The impact caused the first-class passenger to completely telescope the second-class car, over one-half of the latter being completely demolished. It was in this car that the five were killed. The first-class car was practically intact with the exception of the seats, which were nearly all torn from their fastenings. The vestibules were demolished. The baggage car was also considerably damaged, but was used to convey the injured to the Hull station, from where they were taken to the hospitals.

BRITISH MINERS' WAGES

1803—54c. to 60c. per "shift" of 8 to 12 hours.

1903—$1.44 per "shift" of 7 1-2 hours, increase of 150 per cent.

1911—Substantially the same as in 1903.

PROBABILITIES

Fresh north and north-west winds; fine and cold. Sunday, westerly winds; fine and moderately cold.

FOUR NATIONALS STAND OUT FOR SEPARATE SCHOOLS

KING GEORGE CONGRATULATES

Special to the Review.

London, March 9. — King George to-day telegraphed congratulations to King Haakon, on Amundsen's achievement, in reaching the South Pole.

Revolt Proves to be a Fizzle—No Further Trouble Expected.

Ottawa, March 9.—After all the excitement, which had been worked up over the amendment of A. A. Mondou (Yamaska) to the Manitoba boundaries bill dealing with the so-called rights of the inhabitants of the annexed territory in regard to separate schools, the result flattened out in a way which indicates that no further trouble may be expected.

So far from there being an extensive revolt, only four members — Mondou, Lamarche, Guilbault and Bellemare—stood up to demand a vote. Five are necessary, and no vote was taken.

No aid to the champion of separate schools came from the ranks of the Opposition. Sir Wilfrid Laurier remained within the lines of Torres Vedras, afraid to show his colors, although Mr. Mondou peintedly taunted him with not coming out and declaring himself.

Only two speeches were made on Mr. Mondou's amendment, which reads as follows: "Nothing in this act shall affect prejudicially in any way the school rights of the minority, either Protestant or Catholic, as they may now exist in the territory annexed to Manitoba."

Mr. Mondou supported his amendment by a half hour's speech in French.

He argued that Parliament might legally impose conditions upon the entrance of the territory in question into Manitoba. If the minority had rights, he said, it would be unjust to take away those rights. If the minority had no rights, the clause he proposed would create none. He was astonished, he said, that Manitoba, which had for fifteen years disobeyed a judgment of the Privy Council, should now be granted a portion of the Keewatin district without any guarantee that the rights of the minority will be respected.

J. A. M. Aikens (Brandon) complained that the amendment assumed that there were separate schools existing, and that there might be Protestant or Roman Catholic minorities which had rights in regard to separate schools.

In 1875 a section was passed which did deal with the power to create separate schools. This was amended in 1880 and again in 1885, but this was not a provision creating school districts or school rights. It was merely enabling legislation, conferring on the Government of the Northwest Territories the power to enact school legislation. It did not create separate schools. But the Government of the Territories did not establish separate schools.

In 1906 Keewatin was added to the Northwest Territories. The old Government of the Territories went out of existence and a new Government was created, to whom the same rights in respect to school legislation were given.

But neither did this Government create separate schols. In the eyes of the law there were then no separate schools and therefore there were no school rights in the territory to be annexed to Manitoba. It would be dangerous to pass this amendment. It would create confusion and lead to no end of litigation.

If the contention embodied in the amendment were to stand, the Manitoba Government would have no right to pass any school legislation in future in regard to the annexed territory, for there could be no such legislation that might not be assumed to affect the rights claimed. The Manitoba Government would have no right to levy taxes for the support of public schools.

"Is it right," asked Mr. Aikens, "to say that the people of Manitoba shall have no right to pass school legislation?"

After Mr. Mondou's amendment had been disposed of, Hon. Frank Oliver moved in amendment, "Inasmuch as, under the provisions of this act, the province will not have the public land as a source of revenue then shall, subject to the provisions hereinafter set out, be paid by the Government

Continued on page 3.

STRANGE MALADY AT HUNTSVILLE

Outbreak Occurred After Casket Was Opened in Home.

Huntsville, March 9.—Angus McKay, his wife and two children are dead as a result of malignant scarlet fever, and two other children are seriously ill at their home in Dorset, about 30 miles east of here. The surviving children are being attended by Dr. McGibbin of Bracebridge.

There is talk of an investigation here, arising from the fact that a few weeks ago the body of the eldest daughter was brought from Toronto, where she had died in the Western Hospital. Following the opening of the casket at the home, the outbreak occurred, it is said.

It is not yet known whether Dr. McGibbin, who is coroner for the district, will order an inquest.

According to the superintendent of the Western Hospital, the young woman whose death occurred there, was herself the victim of an unknown disease.

At first treated for tonsilitis, she failed to respond to treatment, and Supt. Dr. McCullough called in Drs. Ferguson, H. A. Beatty, W. C. Heggie, J. Price Brown, G. Boyd and F. Trebilcock to try and diagnose the case, but without success. It is stated, however, that her symptoms did not resemble scarlet fever, nor was she in contact with any other patient with that disease. Her parents visited her at the hospital.

INSURANCE BROKERS MUST GO BOND FOR FOREIGN CONCERNS

Bill to Amend the Insurance Act Will Make Agents Responsible.

Toronto, March 9.—In striking contrast to the lively debate on the budget speech on Thursday afternoon, was the session in the Legislature yesterday, when for over two hours Hon. J. J. Foy's bill respecting building societies and other loan corporations was discussed clause by clause.

No radical changes were made in the clauses that were discussed. Several of the more important ones were left over on the recommendation of one or two loan companies which sent deputations to Mr. Foy. Before the House rose, there were only about 15 Conservatives and four Liberal members, with Allan Studholme representing the full contingent of the Labor forces. Just before adjournment, Mr. Rowell intimated that he would like his proposed amendment to the Assessment Act considered immediately after the debate on the budget speech was concluded. Sir James Whitney said that the Opposition leader was a little too speedy, for it was necessary to allow all members who wish to introduce points relative to the act to do so. A general discussion of the proposed changes would follow.

Insurance companies not licensed in Ontario are not going to have such plain sailing here in future. In a bill introduced by Hon. J. J. Foy yesterday afternoon to amend the Insurance Act the authority to issue insurance on behalf of these companies will now be given only to licensed brokers, who must give security and pay any losses sustained as a result of the insurance company defaulting. Hitherto the act has been rather loose as regards the qualifications to issue insurance on behalf of those so-called "foreign" companies.

Among the important matters dealt with in the bill is that of straightening out those sections referring to the insurance of wives and children. Hitherto the wording of these sections has given rise to a great deal of litigation. Formerly the insurance of wives and children were under a separate act, but the year of 1892 they were included in the Insurance Act, and there has been considerable confusion as a result. As there were certain legal limitations in the clauses they could heretofore be made out sometimes to belog the creditors.

The Opposition in the Legislature has begun the fight on the bilingual school question.

L. Marshall, Liberal member for Monck, has given notice that he will call the attention of the Government to Hon. J. J. Foy's statement in North Toronto that bilingual schools are illegal, and if found to exist, should be abolished. Mr. Marshall will then proceed to ask:

"In view of the expressed opinion of the chief law officer of the crown in this province, that bilingual schools cannot lawfully exist in the Province of Ontario, and if found they must cease to exist, is it the intention of the Government to take steps to abolish the 345 English-French (bilingual) schools which according to the report of Dr. F. W. Merchant, dated Feb. 24, 1912, do exist in this province?"

ELEVEN LIVES LOST IN HOTEL AND LODGING HOUSE FIRE

Special to The Review.

Chicago, Ill., March 9—Eleven persons are known to have lost their lives in a fire which destroyed the Salvation Army hotel and the adjoining lodging house on South Clark Street, this morning. Both buildings were crowded with lodgers several of whom leaped from the third and fourth storey windows. One man was killed in that manner. After eleven bodies were taken out, it was believed that several more were in the burning bedrooms.

It tells a clear and definite story of the leaving of winter quarters and the dash to the Pole, which was reached on December 14. The narrative reads like the tale of a winter tramp in bright frosty air and, although the cold was severe, the traditional hardships were almost entirely lacking. The party stayed about four days at the spot which they ascertained to be the Pole, named it "Polheim" and planted flags. After taking observations in clear sunshine they returned as from a jaunt. The whole story reads most prosiacally.

Captain Amundsen intends to stay at Hobart for a few days. He will then go to Australia and give a few lectures there, afterwards departing for Europe by the circuitous route of Buenos Ayres, then round Cape Horn, up to the Behring Straits and through the Northwest passage and the Arctic Ocean.

The confirmation of Capt. Amundsen's attainment of the South Pole on December 14, 1911, received yesterday from the explorer himself at Hobart, Tasmania, sets at rest the conflicting reports current on the subject yesterday.

Christiania, March 9.—When Capt. Raold Amundsen's brother, Leon, personally took the explorer's telegram announcing that he had attained the South Pole to King Haakon Thursday, His Majesty was attending the manoeuvres at Sandviken. King Haakon immediately read the despatch and addressed one to Amundsen at Hobart, Tasmania, saying:

"I thank you for the information. The Queen and I beg to send you and all on board the Fram our most cordial congratulations on the occasion of your results, which are so satisfactory to all of us.

(Signed) "Haakon."

This is all the correspondence that has passed between King Haakon and Capt. Amundsen, King George of Great Britain and King Frederick of Denmark have telegraphed their felicitations to King Haakon.

New York, March 9.—The following message from Captain Amundsen is in reply to a cable from The New York Times, informing him that despatches from New Zealand credited him with the statement that Captain Scott had reached the South Pole, and asking whether these reports were true or not. It will be noted that Amundsen replies in the third person:

(Special Cable to The New York Times.)

Hobart, Tasmania, March 9.—Amundsen knows nothing about Scott.

From H. D. Baker, United States consul:

(Special Cable to The New York Times.)

Hobart, Tasmania, March 9.—Amundsen denies knowledge of Scott's expedition, refuses to disclose anything regarding himself and has isolated his crew's crew. He is reticent, according to his contracts with newspapers. (Signed) Baker."

EXPLORER WAS DESERTED BY HIS GUIDES

Was Left Without Supplies by Indians in Wilderness

Special to The Review.

New York, March 9.—A letter from Fort Smith, Canadian Northwest Territories, conveys the information that Harry V. Radford, who had undertaken a four years' hunting and exploration trip in Northern Canada in the interests of the National Geographical Society, was deserted by his Indian guides about New Years in the wilderness and his fate is unknown. He was left without supplies.

ST. RAILWAY REVENUE

Calgary, March 9.—Street railway earnings for the month of February amount to $37,366,75, as against $19,383.21 during February, 1911. This is approximately an increase of 95 per cent and is in line with the large increase being registered in other departments of the city. The many extensions which have been made during the past year and the number of new cars which have been added to the system are responsible for the large increase. The city operates the railway.

ASQUITH TO TRY AGAIN

Invites Another Conference With View of Settlement.

London, March 9.—After extended talks with committees representing the coal mine owners and their striking employes yesterday, Premier Asquith extended an invitation to the representatives of both sides to the dispute to meet in a joint conference "with a view to a free discussion of the whole situation."

The official report explains that the Government considers the proposals they have placed before both parties offer the fairest means for arriving at a satisfactory settlement of the dispute, but in view of the difficulty of making any progress in that direction without a mutual discussion of the situation, the invitation for a joint conference was issued.

What the Government's proposals are has not been divulged. The miners replied to the invitation that they had undertaken to reassemble the national conference of miners at the earliest possible moment, but with the reservation that they would not recommend the acceptance of the Government's invitation except on the understanding that the principle of a minimum wage should be excluded from the discussion at the conference. As it is on this point that the whole dispute hinges, it is difficult to see how any progress towards a settlement of the strike can be made by a joint conference at which discussion of the question is barred.

The national conference of miners cannot be assembled before next Monday and meanwhile the strike must continue, and each day adds thousands of others to the vast number of persons already out of work.

SURPLUS IS $35,000,000

Canada's Revenue Reaches High Water Mark.

Ottawa, March 9.—When Hon. W. T. White, Minister of Finance, brings down his budget, which will probably be next Wednesday, he will be able to announce the largest surplus in the history of Canada. It will be about thirty-five million dollars for the financial year, an increase of some fifteen million dollars over the surplus which Mr. Fielding announced a year ago.

The financial statement for the first past eleven months, which was issued yesterday, shows that the country is at the high tide of prosperity and that business is ever expanding.

The revenue for the eleven months was $120,645,616 and the expenditure $77,145,824 on consolidated fund. The increase in the revenue for the eleven months is $16,343,000, and of expenditure of $6,557,953.

The revenue already for the eleven months shows an increase over last year of three million dollars in excess of the total revenue last year. The revenue for the month of February shows an increase of nearly a million and a half over last year. The total for February of 1911 was $9,491,997.97, and the total for this year is $11,078,633.72.

The expenditure on capital account for the seven months has been $27,000,000, or one and a half million less than last year. The indications are that the surplus of the revenue consolidated fund will practically meet every item of expenditure on capital account, including twenty-five million for the construction of the National Transcontinental Railway.

PROPOSITION FOR ILLUMINATION OF HISTORIC NIAGARA FALLS ON WAY---CANADA TO AID

COPYRIGHT 1907 BY G. H. NORRIS — ILLUMINATION OF NIAGARA FALLS

To provide for the electrical illumination of Niagara Falls by New York State, in co-operation with the government of the Province of Ontario, Senator Robert H. Gittins will introduce a bill providing for an appropriation of $50,000 for the construction and equipment of an electrical plant and $2,500 for one year's operation.

The electrical illumination is not entirely an experiment, for about five years ago $35,000 was raised by subscription for a temporary illumination. Projectors were installed and the falls were illuminated for two hours a night for two weeks, the electrical companies at Niagara furnishing the current. Photographs taken at that time, at ten o'clock in the evening, give a slight idea of the beautiful effect produced.

CHILD WAS SCALDED TO DEATH

Ottawa, March 9.—While playing in the kitchen with two sisters and a brother, Hilda Victoria Hultguist, the two-year-old daughter of Mr. and Mrs. F. W. Hultguist, of 114 Cambridge street, accidentally knocked a pot of boiling water off the stove onto herself and died as a result of the burns received. The little girl's mother had gone upstairs for a few moments, leaving the children playing together. Their cries brought her down to the kitchen as fast as possible, where she found the little one lying on the floor suffering intensely. She undressed the child and did everything in her power to relieve the pain until Drs. L. C. Beroard and James Seager were summoned.

Little Hilda was badly scalded about the head and face, as well as the body and arms. She was the youngest of five daughters.

OPERATOR'S ERROR THE CAUSE OF FATAL WRECK ON C.P.R.

He Disappeared After Accident and Cannot be Found—Death List May be Seven.

Ottawa, March 9.—The official statement issued last night by the Canadian Pacific Railway officials of the wreck on the line yesterday morning between Ottawa and Hull, shows five killed, eleven injured, two of whom are in a serious condition, and a property damage of $3,000.

The casualties are:

Dead.

John C. Anderson, conductor of the passenger train, Ottawa.

Peter Moyles, a retired farmer, Quoyon, Que

E. J. Tabor, contractor, Hull.

Walton McAllister, Eardley, Que.

Miss Agnes Putnam, 28 years old, Ottawa.

Injured.

Fred Cole, engineer, Ottawa, fractured skull.

C. A. Roy, Ottawa, spine injured.

Alex. Quinn, Quyon, formerly of Ottawa poice force, serious internal injuries.

Clayton, Shoan, Ottawa, slightly injured.

Charles Steele, Steele Line, Que., face cut.

William J. Kennedy, Ottawa.

John Edwardson, Hudson Bay Post, north of Maniwaki, legs broken.

E. A. Lamb, Ottawa, head cut.

J. Hasson, leg broken.

G. Gohey, leg broken.

Joseph Dowe, Muldoon, Que., leg broken.

J. R. Maxwell, Ottawa, seriously hurt.

Mrs. (Rev.) Gagnon, Pontiac, Que., slightly injured.

Investigation shows that the accident was due to the telegraph operator at Hull station, Harvey Boal by name, allowing the passenger train from Pontiac to back in toward Ottawa at the same time as a work train was going over to Hull. A couple of minutes more would have cleared the track as the run between Hull and the Union Station, Ottawa, is a short one. Immediately after the accident, young Boal, who is only 21 years of age, adisappeared, and though the police of both Ottawa and Hull have been searching for him, they have been unable as yet to locate him.

Of those in the hospital here, the most seriously injured are Alexander Quinn, a former Ottawa policeman, and once police champion of Canada in athletics, and W. Kennedy of Ottawa, traveler for the International Harvester Co. Both are in a serious condition. Several of the others have broken legs and other injuries, but their condition is not considered critical.

Doctors and ambulances from both Hull and Ottawa were rushed to the scene, and as soon as possible the dead were removed and the injured cared for.

The passenger train was in charge of Conductor John Anderson of Ottawa, who was instantly killed, apparently from a blow on the head. His engineer was Joseph Murphy, and his fireman Camille Lemieux.

The freight engine was in charge of Engineer Fred Cole and Wm. Short, fireman. All are of Ottawa.

The passenger train had come from Waltham, Que., and as is the custom at the Hull station, was reversed to back into the Union station. It left the Hull station at 9.22, and the accident happened a few minutes later. Both trains were traveling at a good rate of speed, and, as there is a sharp curve and a deep cut just where the accident happened, it was impossible for the crew of one train to see the other train till too late.

The passenger train was composed of an engine, baggage car, second-class passenger, and first-class passenger, in the order named.

In backing up the first-class car was first, and it was the car struck by the on-coming engine of the freight. The impact caused the first-class passenger to completely telescope the second-class car, over one-half of the latter being completely demolished. It was in this car that the five were killed. The first-class car was practically intact with the exception of the seats, which were nearly all torn from their fastenings. The vestibules were demolished. The baggage car was also considerably damaged, but was used to convey the injured to the Hull station, from where they were taken to the hospitals.

BRITISH MINERS' WAGES

1803—54c. to 60c. per "shift" of 8 to 12 hours.

1903—$1.44 per "shift" of 7 1-2 hours, increase of 150 per cent.

1911—Substantially the same as in 1903.

PROBABILITIES

Fresh north and north-west winds; fine and cold. Sunday, westerly winds; fine and moderately cold.

FOUR NATIONALS STAND OUT FOR SEPARATE SCHOOLS

KING GEORGE CONGRATULATES

Special to the Review.

London, March 9. — King George to-day telegraphed congratulations to King Haakon, on Amundsen's achievement, in reaching the South Pole.

STRANGE MALADY AT HUNTSVILLE

Outbreak Occurred After Casket Was Opened in Home.

Huntsville, March 9.—Angus McKay, his wife and two children are dead as a result of malignant scarlet fever, and two other children are seriously ill at their home in Dorset, about 30 miles east of here. The surviving children are being attended by Dr. McGibbin of Bracebridge.

There is talk of an investigation here, arising from the fact that a few weeks ago the body of the eldest daughter was brought from Toronto, where she had died in the Western Hospital. Following the opening of the casket at the home, the outbreak occurred, it is said.

It is not yet known whether Dr. McGibbin, who is coroner for the district, will order an inquest.

According to the superintendent of the Western Hospital, the young woman whose death occurred there, was herself the victim of an unknown disease.

At first treated for tonsilitis, she failed to respond to treatment, and Supt. Dr. McCullough called in Drs. Ferguson, H. A. Beatty, W. C. Heggie, J. Price Brown, G. Boyd and F. Trebilcock to try and diagnose the case, but without success. It is stated, however, that her symptoms did not resemble scarlet fever, nor was she in contact with any other patient with that disease. Her parents visited her at the hospital.

Revolt Proves to be a Fizzle —No Further Trouble Expected.

Ottawa, March 9.—After all the excitement, which had been worked up over the amendment of A. A. Mondou (Yamaska) to the Manitoba boundaries bill dealing with the so-called rights of the inhabitants of the annexed territory in regard to separate schools, the result flattened out in a way which indicates that no further trouble may be expected.

So far from there being an extensive revolt, only four members — Mondou, Lamarche, Guilbault and Bellemare—stood up to demand a vote. Five are necessary, and no vote was taken.

No aid to the champion of separate schools came from the ranks of the Opposition. Sir Wilfrid Laurier remained within the lines of Torres Vedras, afraid to show his colors, although Mr. Mondou pointedly taunted him with not coming out and declaring himself.

Only two speeches were made on Mr. Mondou's amendment, which reads as follows: "Nothing in this act shall affect prejudicially in any way the school rights of the minority, either Protestant or Catholic, as they may now exist in the territory annexed to Manitoba."

Mr. Mondou supported his amendment by a half hour's speech in French.

He argued that Parliament might legally impose conditions upon the entrance of the territory in question into Manitoba. If the minority had rights, he said, it would be unjust to take away those rights. If the minority had no rights, the clause he proposed would create none. He was astonished, he said, that Manitoba, which had for fifteen years disobeyed a judgment of the Privy Council, should now be granted a portion of the Keewatin district without any guarantee that the rights of the minority will be respected.

J. A. M. Aikens (Brandon) complained that the amendment assumed that there were separate schools existing, and that there might be Protestant or Roman Catholic minorities which had rights in regard to separate schools.

In 1875 a section was passed which did deal with the power to create separate schools. This was amended in 1880 and again in 1885, but this was not a provision creating school districts or school rights. It was merely enabling legislation, conferring on the Government of the Northwest Territories the power to enact school legislation. It did not create separate schools. But the Government of the Territories did not establish separate schools.

In 1906 Keewatin was added to the Northwest Territories. The old Government of the Territories went out of existence and a new Government was created, to whom the same rights in respect to school legislation were given.

But neither did this Government create separate schols. In the eyes of the law there were then no separate schools and therefore there were no school rights in the territory to be annexed to Manitoba. It would be dangerous to pass this amendment. It would create confusion and lead to no end of litigation.

If the contention embodied in the amendment were to stand, the Manitoba Government would have no right to pass any school legislation in future in regard to the annexed territory, for there could be no such legislation that might not be assumed to affect the rights claimed. The Manitoba Government would have no right to levy taxes for the support of public schools.

"Is it right," asked Mr. Aikens, "to say that the people of Manitoba shall have no right to pass school legislation?"

After Mr. Mondou's amendment had been disposed of, Hon. Frank Oliver moved in amendment, "Inasmuch as, under the provisions of this act, the province will not have the public land as a source of revenue then shall, subject to the provisions hereinafter set out, be paid by the Government

Continued on page 3.

INSURANCE BROKERS MUST GO BOND FOR FOREIGN CONCERNS

Bill to Amend the Insurance Act Will Make Agents Responsible.

Toronto, March 9.—In striking contrast to the lively debate on the budget speech on Thursday afternoon, was the session in the Legislature yesterday, when for over two hours Hon. J. J. Foy's bill respecting building societies and other loan corporations was discussed clause by clause.

No radical changes were made in the clauses that were discussed. Several of the more important ones were left over on the recommendation of one or two loan companies which sent deputations to Mr. Foy. Before the House rose, there were only about 15 Conservatives and four Liberal members, with Allan Studholme representing the full contingent of the Labor forces. Just before adjournment, Mr. Rowell intimated that he would like his proposed amendment to the Assessment Act considered immediately after the debate on the budget speech was concluded. Sir James Whitney said that the Opposition leader was a little too speedy, for it was necessary to allow all members who wish to introduce points relative to the act to do so. A general discussion of the proposed changes would follow.

Insurance companies not licensed in Ontario are not going to have such plain sailing here in future. In a bill introduced by Hon. J. J. Foy yesterday afternoon to amend the Insurance Act the authority to issue insurance on behalf of these companies will now be given only to licensed brokers, who must give security and pay any losses sustained as a result of the insurance company defaulting. Hitherto the act has been rather loose as regards the qualifications to issue insurance on behalf of those so-called "foreign" companies.

Among the important matters dealt with in the bill is that of straightening out those sections referring to the insurance of wives and children. Hitherto the wording of these sections has given rise to a great deal of litigation. Formerly the insurance of wives and children were under a separate act, but the year of 1892 they were included in the Insurance Act, and there has been considerable confusion as a result. As there were certain legal limitations in the clauses they could heretofore be made out sometimes to befog the creditors.

The Opposition in the Legislature has begun the fight on the bilingual school question.

L. Marshall, Liberal member for Monck, has given notice that he will call the attention of the Government to Hon. J. J. Foy's statement in North Toronto that bilingual schools are illegal, and if found to exist, should be abolished. Mr. Marshall will then proceed to ask:

"In view of the expressed opinion of the chief law officer of the crown in this province, that bilingual schools cannot lawfully exist in the Province of Ontario, and if found they must cease to exist, is it the intention of the Government to take steps to abolish the 345 English-French (bilingual) schools which according to the report of Dr. F. W. Merchant, dated Feb. 24, 1912, do exist in this province?"

ELEVEN LIVES LOST IN HOTEL AND LODGING HOUSE FIRE

Special to The Review.

Chicago, Ill., March 9—Eleven persons are known to have lost their lives in a fire which destroyed the Salvation Army hotel and the adjoining lodging house on South Clark Street, this morning. Both buildings were crowded with lodgers several of whom leaped from the third and fourth storey windows. One man was killed in that manner. After eleven bodies were taken out, it was believed that several more were in the burning bedrooms.

WASTED AWAY TO A SHADOW

"Fruit-a-tives" cured me after 12 years Suffering

HULL, QUE. Dec. 24th. 1910.

"For the past twelve years, I had painful attacks of Dyspepsia. Finally, in March 1908, I suffered such tortures that I was compelled to stay in bed. I could not digest my food and everything I ate caused the most agonizing pain in my stomach. I also had a fearful attack of Constipation, and at times I had no movement of the bowels for two weeks.

Three doctors attended me for two years and gave me all kinds of medicine but did me no good. My weight came down to only 80 pounds and everyone thought I was going to die. Finally I had the good fortune to buy 'Fruit-a-tives' and as soon as I began to take them, I felt better. I persisted in the treatment and to my great joy and to the astonishment of my friends, I improved.

Now I feel very well, weigh 115 pounds (and this is more than I ever weighed, even before my illness) I attribute my cure solely to 'Fruit-a-tives'."

Madame ANDREW STAFFORD.

50c. a box, 6 for $2.50, or trial size, 25c. At all dealers, or from Fruit-a-tives Limited, Ottawa.

UNION LABEL

ONTARIO TO BE REPRESENTED

On Friday Premier Whitney was waited on by a deputation representing the Dominion Evangelical Alliance in reference to the marriage laws of the province, as affected, or said to be affected, by the Ne Temere Decree.

The deputation asked that Ontario be represented by counsel at the hearing of the stated case prepared by the Dominion Government, and that the efforts of Ontario's representative be directed to clearing up the status of the law affecting the Dominion and not to specifying Provincial powers as distinct to federal.

Should the stated case of the Dominion result in any definite conclusion, it hoped that the Ontario Government will at once take steps to set out, once and for all, the meaning of "Solemnization" of marriage. What is needed is a plain and definite statement, a law, covering the Dominion, making the civil power absolute as to the legality of all marriages performed by persons duly authorized to do so, in any province, and at any time. At the same time this is done it would be in the best interests of the future if precautions were taken with regard to strict enquiry into the physical condition, and deficiencies, hereditary or acquired, of persons proposing to be married. We should be careful, while keeping out of the country the incapable, that we do not sanction the propagation, so to speak, of a future generation of incapables.

THE MANITOBA BILL

In the division in the House of Commons on Tuesday five of the Conservative Nationalist members from this province voted against the Government and in favor of Sir Wilfrid Laurier's amendment to the bill to re-adjust the boundaries of Manitoba. The amendment in question in itself meant nothing. It was one of those omnibus affairs prepared so that men of every view can get into it and ride for the trip. It is not presumed that the mass of the Liberal members who supported it with their votes meant to declare that the school system which exists in the province as it is by virtue of the Laurier-Sifton-McCarthy compact of 1896 is not good enough for the people who will make their homes in added territory. Indeed, it is hardly be thought that Sir Wilfrid Laurier himself would wish to be understood as favoring any such position which would be a contradiction of much that he has said during the past fifteen years. The French-speaking members who left the government side for the occasion, had it in their minds, however, to declare that in their opinion the bill which proposes to increase the area of the province should make provision for separate publicly supported schools for the religious minority. Their position can be respected even by those who think that under conditions as they have developed it is a mistaken one. The fact that in the district of Keewatin, which is to be dismembered for the enlargement of Ontario and Manitoba, there is no public school system does not affect the principle they asserted. The same principle was asserted in the act creating the province of Manitoba and in a modified form in the measures that made Saskatchewan and Alberta provinces. In 1896 most of the Conservatives who went to the polls in the parliamentary election meant to assert it by their votes. Much water has passed under the political bridge, though, since 1896. What was made impracticable then is impossible now.

It is held by some legists that a settlement having been reached between the Dominion Government and the province of Manitoba on the matters which led to the issue of the Remedial Order and the introduction of the Remedial Bill, the powers of Parliament are exhausted in the connection; and it would not be practical or wise to seek by a provision in a bill respecting boundaries to enforce the maintenance of one set of schools in one part and of another kind of schools in another part of the province. Manitoba has to be dealt with in this regard as a whole. It would be useless for Parliament to make in the bill now before it any enactment in regard to schools. The first Government of the province to think there would be political profit in raising a new school question would do as that of Mr. Greenway did; and it would gain at least noisy popularity by its policy, just as Mr Greenway's did. The religious minority in Manitoba has much more to expect from the consideration of the provincial government and legislature than from efforts at legislation by parliament. Though it is not written in the statute book, the parliamentary election of 1896 changed the constitution of Canada. The majority of the Roman Catholic constituencies of Canada then voted with a minority of extreme Protestants that there should be no legislation by parliament to restore their separate school privileges to the Roman Catholics of Manitoba. By their ballots they settled also that there should be no more attempts by Parliament to change the school law of an established province, for the sake of a minority. The minority, whether it is Roman Catholic in Manitoba or other of the English-speaking provinces, or Protestant in Quebec when it wants special consideration must depend on the good will of the majority with which it has to deal. Those who do not see this, have not learned the lesson of events. Their sincerity may not be questioned. Their political judgement must be counted wrong.—Montreal Gazette.

NOTE AND COMMENT

A bill has been introduced into the Ontario Legislature, giving power to municipal councils to order repairs to be done on buildings reported unsafe. This is in addition to the power to prohibit or stop the erection of structures considered to be unsafe.

It is interesting to note that while it is generally assumed that there is a strong feeling throughout the American States against capital punishment, that the Massachusetts Legislature voted by 161 to 42 to retain the gallows.

The day is coming when Canada will have its final court of appeal instead of reference to the Privy Council. Only constitutional questions will go across the water to be adjudicated on by the authorities in England. That is what we need, a Canadian Court for Canadians.

The Halifax Chronicle bemoans the fact that prices of commodities of living have gone up about 45 per cent. in 15 years. The Hamilton Spectator comes back with the remark that wages have gone up in the same proportion. The Toronto Star doubts this, and says so. Surely the Star has not made enquiry or comparison. There is one industry, at least, on which it should be informed. So far as this city is concerned wages in printing have advanced in the last seven years nearly 100 per cent. Journeymen received $8.50 to $9.00 per week in 1905-6; now the minimum is $14.00 and ranges up to $18.00. Then there has been a reduction of hours of 20 per cent. in the same period, making on the whole an advance of 100 per cent, so far as the cost of work is concerned. The cost of living has not risen so much.

Brockville Times.

The dignified simplicity of the funeral of the late Hon. Edward Blake was well worthy of the magnificent character of the man, and a good example to the world.

THE MARKET

Latest Quotations in Grain Dairy Products, Live Stock Etc.

CHICAGO, March 8.—Guesses on government figures on the farm reserves went wrong to-day for the grain markets all closed weak, whereas the Washington estimates which came a minute later turned out to be of a decidedly bullish sort. The totals, however, were in no case anywhere near so small as some extremists had predicted. Latest trading left wheat 1/8c to 1/4c down, corn 1/8c off to a shade higher, oats up 1/4c to 1/2c, and hog products at 5c to 17 1/2c advance.

The Liverpool market closed to-day on wheat 1/8d to 3/8d higher than yesterday, and corn 1/4d to 1/4d higher. Paris wheat closed unchanged to 1/4c higher, Antwerp unchanged, Berlin 1/4c higher, Buda-Pest 3/8c higher.

Montreal Grain and Produce.

MONTREAL, March 8.—The feature of the grain trade was the demand from New York for Manitoba spring wheat for March shipment and $1.12 was bid for No. 4 and London bid 40s 3d for No. 3. Business for future shipment was dull as the bids were all out of line. There continues to be a good demand from London for all grades of oats with 21s 9d to 22s bid for No. 2 Canadian western for May-June shipment, but owing to the scarcity of ocean freight to that port little business is being done.

Provinces and Ne Temere

Ottawa, March 9.—The Hon. Richard McBride, has advised the Government that British Columbia does not wish to be represented in the marriage law argument before the Supreme Court. A similar communication was received a few days ago from the Manitoba Government. Quebec has announced that it will be represented, while Ontario and the other provinces have not given a final answer to the invitation extended to them.

Murray St. Church

Mr. Alfred Pequegnat, of Stratford, Ont., will assist the Murray street choir on Sunday evening. Those who heard him on the occasion of his last visit to Peterborough will be glad to hear him again.

Some Causes of Eyestrain

Eyestrain is the most common form of headache in children, and may come without apparent reference to any over-use of the eyes. It may be located near the eyes or in parts of the head away from them. It warns us that too great tension is being put on some part of the nervous system. A slouching, lounging posture in reading may bring about marked eye strain. The head bent forward with the chin resting on the breast obstructs the flow of blood from the head. Any congestion of lids or inflammation however slight, itching of the lids, burning of the eyeballs, and styes, singly or in crops, should call your attention to the necessity of careful and efficient examination into the refractive condition of the eyes.

Our Optical Parlor is up-to-date in every detail. All our work is guaranteed, and all lenses are ground on the premises. Consultation free.

Buy two 50c tins from your Grocer and he will give you a Dalton French Drip Coffee Pot (worth $1.30) free. If your Grocer will not supply you send $1.00 and we will send carriage collect.

DALTON BROS., TORONTO.

FRACTURE OF THE LEFT ARM

Carpenter at Protestant Home Slipped Off Scaffold

Mr. Jeffrey P. Russel, Benson Ave., sustained a fracture of the left arm yesterday, while engaged in carpentering work at the Protestant Home. It appears that he was putting on picture molding, in one of the rooms, and was standing upon a scaffold a couple of feet above the floor. He slipped in some manner and fell to the floor, meeting with the injury.

Dr Frederick set the fracture. It is expected that the accident will handicap him for four weeks at least.

PROTESTANT HOME BUILDING ABOUT COMPLETED

Subscribers to Fund are Asked to Forward Cheques

The directors of the Peterborough Protestant Home would be much obliged if all those who have so kindly promised donations to the building fund of the new home would send in their cheques at their earliest possible convenience. The building is nearing completion and heavy payments will have to be made in the near future.

All cheques may be sent to Mrs. Robert Neill, 359 Hunter street.

PACKAGE DEPT. QUAKER OATS

Owing to the non-arrival of oats, the package department of the Quaker Oats will not resume operations till Wednesday.

OFFICE SECRETARY FOR THE Y.W.C.A.

Miss Emma Hall has been appointed office secretary at the Y.W.C.A., to fill the position left vacant by the departure of Miss Shuttleworth to fill an Association position in Toronto.

BUGLE BAND MINSTRELS

Continuous Laugh as Performers Took Their Part

Big Crowd Was Turned Away But Show Will be Repeated

Had "Bobby Beach's Bugle Band Boys" charged a good stiff admission fee for their meritorious minstrel show last night, every one of the four hundred and fifty people who tried to gain admittance to the performance in the recreation room of the Armories last night, would have thought them perfectly justified in doing so. As it was a first class humorous and musical entertainment was given to an audience of two hundred and seventy-five, and was missed by over two hundred people who came late, and consequently could not secure even standing room to hear the minstrels.

As was evinced by the size of the audience and the hearty applause with which each number on the varied and extensive program was received, the minstrel show was a grand success.

Much credit for the undoubted excellence of the performance is due Miss Leila Beach who gave much of her time to assist in training the minstrels and the finesse and ease with which the bugle band boys handled even the most difficult selections is largely a result of her efforts. In appreciation of her services, she was presented with a gold bracelet, with her initials engraved on behalf of the members of the bugle band.

The first song "I'd love to live in Loveland," sung by Bill Allen, made a decided hit with the audience and was scarcely eclipsed by "Al" Spencely's' solo, "Just an old friend of the family." He was recalled time after time in this and persisted in declaiming that he was unable to respond to the tenth call for an encore, being overcome by sheer exhaustion. Percy Neill in "When Cupid comes a-tapping," gave a very accurate rendering of that popular hit, and Walter Fitzgerald in "Alexander's Ragtime Band," was sure some coon. Fitz. makes a superb endman and danced his jig like a professional. All the boys with the black on their physiogs took off the negro role to perfection, and each in turn was greeted with a round of applause from the audience. "Steamboat Bill" chanted by Sid Gibbs was a sure laugh fetcher, and Sid in the coon antics endangered more than one hearty laugh with a complete collapse. Asa Huycke in his usual praiseworthy style rendered "Down by the Old Mill Stream," and the humming of the chorus by the whole company was a feature in the chorus.

The hearty way in which the choruses were taken up by the company certainly won the favor of the audience, and ringing choruses added materially to the pleasure derived from the entertainment.

The Ark Quartette was highly appreciated in a humorous selection, "Sleep Contentedly Babe." Mr. Robert Beach was the interlocuter for the evening, and certainly the jokes that he and the boys sprang were new ones and side-splitters.

Other selections were "If I m going to die," M. Drysdale; "I want a girl," T. Saginson; "My name is Morgan," Bill Sharpe; "The Mysterious Rag," P. Stock; "Honey I will long for you," Grant Rightmyre; "The Colville Coon Cadets," W. Spencely.

The minstrel show was a grand success and will be repeated, but a larger auditorium to accomodate the people will be necessary.

The assistance of Mr. Geo. Chambers in the musical part of the program was appreciated by the boys.

With a clean face and a home-made projection of the nose "Al" Spencely would make a good "Mutt."

"Wilt" Metheral's work with the decorations was noticeably in evidence.

The boys are very much pleased with their success and hope to repeat the performance shortly.

DAMAGE BY FIRE IN FEBRUARY

Amounted to $1410 as Against $25 for Month in 1911

During the month of February the fire brigade has attended 9 fires, and the total damage was $1410. In February last year the damage done by fire was $25. Of course this year shows an increase in the amount of damage, but Chief Howard states that the amount of damage in February for both years is below the average for that month. He calculates that January and February are the worst months in the year, and believes that if the fire department get over these months without very heavy losses, they will come out at the end of the year with a pretty good showing.

HEAVEN ON EARTH IS THE SUBJECT

The subject of the sermon of Rev. Isaac Couch for the evening service at George street Methodist Church on Sunday, will be "Heaven on Earth." This unique topic is bound to prove of help to all and is certain to contain information that can be put into daily practice.

Mr. J. M. Hughes, who resigned from the position of Chief Inspector of Public Schools in Toronto, is coming to Peterborough on Sunday, March 24th, and will deliver addresses in George street Methodist Church on behalf of the Educational Department of the Methodist Church.

CONCERNING MR. H. F. STRICKLAND

The Toronto "Saturday Night" has the following reference to Mr. H. F. Strickland, whose appointment with the Hydro Electric Commission was noted recently by the Review—

The Hydro-Electric Commission has again proved its worth as a business proposition. Ever since the first introduction of electricity for power and light, defective installation has been a continuous cause of fire waste. In some cities the Underwriters' Associations have established private inspection bureaus, but these were without official authority and while they did much good work, there has never been a proper systematic and authoritative inspection or control of installation. The Hydro Electric Commission has undertaken to put electric installation on a sound basis. In doing so they have chosen the most experienced man in Ontario and placed him in charge. We believe this was a case of the job seeking the man and finding the right one in Mr. Harry Strickland, formerly in charge of electrical inspection for the Canadian Fire Underwriters' Association.

Mr. Strickland was born in Peterboro in the year 1870. For seven years he has been connected with the Canadian Fire Underwriters' Association, and he has always been known as a very thorough and strict disciplinarian so far as carrying out the requirements of the Association went, but I have never heard that he was either oppressive or unreasonable in his conduct. When Mr. Strickland started to make a specialty of his line of business, electric wiring in Toronto was in a very bad condition while to-day the standard has been brought up to equal almost anywhere. The many friends and business associates of Mr. Strickland regard him as a real authority on the Underwriters' requirements, and he has been the recipient of many congratulations on his well-deserved promotion.

OBJECTIONS MADE TO ERECTION OF AN INCINERATOR

When an incineration is being built in any locality, there are certain things which must be taken into consideration, before the erection can be proceeded with. Just at the present time Calgary city council is encountering opposition from certain property-holders, who object to an incinerator being installed adjacent to a certain piece of land which it is intended to convert into a park.

They claim that the adjacent property will be depreciated in value. They also assert that it will be an eye sore to the people in the vicinity.

Residence Transfer

Mr. J. T. Allen, superintendent of the Prudential Insurance Company, has purchased the valuable residence at the corner of Weller and Walton, from Mr. L. Sherwood, of Ottawa. The house is large and comfortable, and one of the best residences in the locality, Mr. Allen will not move into his new home for some time yet.

Chimney Fire

The fire brigade had a call to a chimney fire this morning at 9.04 o'clock, to 258 Reid street, the home of George Gauthier. The house was the property of Mrs. John Kelly.

Golf and Country Club

A meeting of the Shareholders of the Peterborough Golf and Country Club will be held in the Bank of Montreal Chambers on

Saturday Evening,

9th inst., at seven-thirty o'clock.

Business:

The election of Directors.

A meeting of the playing members will be held at eight-fifteen o'clock the same evening, to elect captains and committees for the coming season.

"The Extra Touch"

The Right Shop
Right Here

AT the Sign of the Semi-ready you will always find the right shop—individual attention; careful study of your needs; courteous service; helpful suggestions—all these you are as much entitled to as high quality and correct style.

CANADIAN CLUB

Prof. Hutton of Toronto to Give the Next Address

The executive of the Canadian Club have arranged with Prof. Maurice Hutton, Principal of Toronto University School, to address a meeting of the Club on Friday evening, March 22nd. The members are requested to keep this date in mind. Further particulars will be published later.

Faith Cure

"Is there such a thing as faith cure," will be the subject of a fifteen minute discussion on Sunday afternoon at two o'clock at the Men's Bible Class meeting of Charlotte street church. This interesting question will certainly evoke some good comment and everybody is invited to come and hear.

Is Ill at Winnipeg

Mr. Wm. Henry, superintendent of the Children's Shelter, received word this morning that Mr. Lincoln Brace, general secretary of the Y.M.C.A. at Winnipeg, and a son of Rev. A. H. Brace, formerly pastor of Park street Baptist church, is confined in the hospital with an attack of inflammatory rheumatism. His many friends in the city will regret to learn of his illness and will hope for a speedy recovery.

SIGNET RING FOR MISS SHERWIN

An extremely pleasant time was passed last evening at the home of Miss Elva Ingram, on Pearl Avenue, when she entertained about twenty-five young people in a most acceptable manner. The party was chiefly in honor of Miss Stella Sherwin, who left to-day for Edmonton, Alt., to reside. During the evening Miss Sherwin was the recipient of a handsome gold signet ring with her initials engraved upon it.

The evening was passed with games and music, and dainty refreshments were served.

Miss Sherwin will be greatly missed by a large circle of friends, who sincerely hope that she may be contented with her sojourn in the West.

TEN CENTS DIFFERENCE IN PRICES OF EGGS

Some Bought at 24c, While Others Paid 34c—Different Prices for Butter.

The market this morning was decidedly large but the amount of butter and eggs was not equal to the demand, and contrary to the usual procedure those who arrived late with their produce received the better prices. It is one thing to go to market; it is another to know how to buy. At one time in the market building this morning eggs were selling all the way from 24c. to 34c, and there were almost as many purchasers parted with over 30c. for for every dozen of eggs received, as those who bought for 24c, 25c, or 27c. Some were frightened away from the eggs by the low prices and bought eggs that were not the least bit better at several cents a dozen more. Others paid 32c and 33c a doz. supremely unconscious that they could be obtained at a lower price. Again butter was selling at 29c to 35c, and the purchasers for the goods at either price were always at hand. Only once was a murmur of dissatisfaction heard, and that was when one woman asked 38c for butter, with the argument that she received that price for it on the previous Saturday. Finding she could not get 38c., she lowered it to 35c, and being one of the earliest comers she established the price of that precious article in her section of the market at 35c a pound. Such is the manner in which prices are set in the market.

The prices were:
Butter, per lb., 29c to 35c.
Eggs, per doz., 24c to 34c.
Chickens, per pair, $1.25 to $1.50.
Turkeys, each, $2.00.
Lamb, hind, per lb., 14c.
Lamb, front, per lb., 12c.
Beef, hind, per lb., 9 1-2c.
Beef, front, per lb., 8 1-2c.
Pork, front, per lb., 11c.
Pork, hind, per lb., 12c.
Apples, russets, per bag, $1.00.
Potatoes, per bag, $2.00.
Onions, per pk., 50c.
Parsnips, per pk., 25c.
Carrots, per pk., 25c.
Hay, per ton, $16.
Wood, cedar, per cord, $3.75.
Tamarac, per cord, $5.00.

NOTABLE CAMPAIGN IN MODERN ADVERTISING

The Daily Review commences on Monday next the publication of a series of advertisements exploiting the advantages of advertising.

Ninety-three of the daily papers of Canada have each agreed to contribute 20,000 lines of space in aid of the movement.

The advertisements are well worth the attention of business and professional men. They have been prepared by the masters of the art of writing advertising, and are intended, not so much as models to be followed as to inspire and enthuse all who read with a better idea of the possibilities and mission of advertising.

These advertisements will appear at short interval and will be of most engrossing interest. They deal with the problems of the store, the factory, the household, of the retailer and the customer.

Be sure and read the whole series. If you miss one ask the Review to send you a copy. If you have a friend you would like to have read them, then tell the Review his name.

Women are asked to read these advertisements as well as men. They will read good literature and good common sense, but in plain words.

LOCAL CHAPTER WAS FORMED

Mrs. E. B. Clegg is Regent of Daughters of The Empire

Yesterday afternoon, a meeting of the ladies interested in establishing chapter of the Daughters of the Empire, in connection with the 57th Regiment was held in the Armories and was very well attended. Col. Clegg acted as chairman.

The Rev. Canon Davidson spoke to the meeting and explained why it had been called. His remarks were followed by an address by Mrs. John Bruce of Toronto, who explained the aims and objects of the order.

The meeting decided to establish a local chapter of the Imperial Order of the Daughters of the Empire to be called the 57th Regt. Chapter.

Officers were elected as follows—
Regent—Mrs. E. B. Clegg.
1st Vice-Regent—Mrs. Jos. Mills.
2nd Vice-Regent—Mrs. L. M. Hayes
Secretary—Mrs. V. Eastwood.
Treasurer—Mrs. A. P. McClean.
Standard Bearer—Mrs. J.C. Davidson

Major Eastwood moved a hearty vote of thanks to Mrs. Bruce, and the meeting was concluded by a dainty supper.

WEDDING BELLS

ORCHARD—NOYES.

A wedding of local interest was solemnized in Rochester on Thursday, March 7th, when Miss Carrie Noyes, of Concession street, East City, daughter of Mr. and Mrs. Charles Noyes, became the bride of Mr. Harry Orchard of Rochester, N.Y. The ceremony was performed by Rev. Mr. Russ, pastor of the Rochester Central Baptist church. A dainty wedding dejeuner was served afterwards at the residence of the bride's sister in Rochester. Later they left for Peterborough arriving here this morning, where they are visiting the bride's parents, East City.

Both bride and groom were the recipients of numerous presents denoting the high esteem in which they are held by their many friends.

SETTLED OUT OF COURT

Mr. Geo. Graham, proprietor of the Oriental Hotel, where some fish were confiscated on Saturday afternoon last, settled the matter out of court by paying a fine of $20.00 to-day.

WHO'S COMING AND GOING

Mr. Stanley Arbor, of Haileybury, is in the city visiting Mr. Geo. Ross, for a few days.

Mr. William Galbraith, formerly of the city, but now of Toronto is visiting in the city to-day on busienss.

Rev. Dr. Farmer, of McMaster University, Toronto will speak in Murray street Church on Sunday morning.

Miss Bertha Jackson of Millbrook was in the city to-day attending the meeting of the District Epworth League Executive held in all the Y.M.C.A. parlors.

Mr. Robert Poe, of Napinka, Man., who for a number of years has been a resident in the Northwest, and who has been renewing acquaintances in his home township, South Monaghan, since Christmas week, leaves for his home again on Friday next, after a pleasant and well earned holiday.

MRS. DARKE WILL RECEIVE $1800

Mr. Justice Clute Reverses the Recent Judgment

Mrs Darke will

The case of Catherine Darke vs. the Canadian General Electric Company, has been settled by the following judgment at Osgoode Hall yesterday;

Darke vs. Canadian General Electric Co.—An appeal by plaintiff from the judgment of Mulock, C.J., of December 8th, 1911. An action by Catharine Darke, widow of Hugh Darke, who was accidentally killed by being whirled around a shaft in defendants' factory while working for them, to recover $10,000 damages, on the ground that the accident was caused by the negligence of defendants. At the trial the action was dismissed without costs. Judgment:—Held, that judgment should be reversed, and judgment entered for plaintiff for $1,800, with costs of trial and appeal.

Mr. D. O'Connell has conducted the case for Mrs. Darke, and Messrs. G. W. Watson, K.C., of Toronto, and L. M. Hayes, of Peterborough, for the defendants.

Mrs. Darke will receive $1,800 as remuneration for the loss of her husband, although she claimed $10,000 damages.

LOCAL NEWS ITEMS

Mr. Ivor Brock will speak to the Men's Brotherhood of St. James' Methodist church on Sunday afternoon at 2.30.

The Literary Society of the Normal School was treated to a violin recital by Dr. Park yesterday afternoon. Miss Steinhoff and Miss Rannie also contributed to the program.

On Thursday evening, March 7th, the Royal Templars of Temperance, Dan Spence Council, No. 26, held their regular meeting in the Knights of Pythias Hall, Simcoe street. The attendance was fairy large. Some initiations took place and a very enjoyable program supplied by Miss Lizzie Smith, Mr. Garnett and Mr. B. Doucette.

Dr. Marsh, of Springville, will address the Boy's Bible Class at the Y.M.C.A on Sunday morning at 9.45. Mr. J. J. Thompson, of the Y.M.C.A., will occupy the pulpit of Springville church at the morning service.

The members of the Woman's Art Association and others interested are looking forward to hearing Rev. R. J. Sawers give a talk on Turner, next Thursday evening in the W. A. A. studio in the Public Library building.

WILL RECOVER

Mr Cornelius O'Brien, the Douro resident, who made such a desperate attempt to end his life by cutting his throat, will recover, according to a report from the St. Joseph's Hospital to-day

His condition to-day was very much improved.

St. Andrew's Church

The sacrament of the Lord's Supper will be dispensed at the morning service in St. Andrew's church on Sunday morning. In the evening the pastor will continue his studies in Genesis.

To-morrow is the last day for the returning of ballots on the church union vote. Those that are not returned to-morrow will have to be in the hands of the clerk of the sessions, Mr. Richard Lees, 514 Gilmour street, not later than the afternoon of Monday. March 11th.

CHAMPIONSHIP OF TRENT VALLEY LEAGUE FOR MARMORA; LAKEFIELD WERE SHORT THREE

"Committee Meeting" Winners Lead at Half by 4-2 and Scored Only Goal of Second Period.

The Marmora seven are champions of the Trent Valley League. They won this title last night by defeating Lakefield in a sudden death fixture at the Brock street rink by a 5—2 margin, leading at the half 4—2.

The champions were a decided disappointment to the nine hundred fans who saw the fray. They have been touted as being a fast, well-balanced seven. They may be well-balanced but they failed to show anything better than third-rate hockey at any time last night. With Blomfield, an old Lindsay Midget, and former Lakefield boy, at right wing, the fans had expected to see some good hockey. Blomfield is among the "can't come backs," and only in his ability to check back does he seem to have anything left from his palmy days. The Marmora supporters themselves evidently expected a better exhibition and they left most of their money in town on margins of four and five goals. Those who had seen Lakefield play against the T.A.S. here figured that their team was so much better than the Abstainers that they would have no trouble in piling up an eight or nine goal lead on the Cementville seven.

The score does not by any means indicate the play but the Lakefield septette lost on poor generalship. The defence used very poor judgment on several occasions crossing in front of their own net. In this manner they presented Marmora with the three goals which beat them. When they did get a chance to pull down the lead in the second half they did not make use of it. For about two minutes there were two Marmora forwards on the fence, Blomfield and Jones, but Lakefield did not seem to have enough go left to bottle them up by playing everyone on the forward line.

The three games this week seemed too much for the Northerners. They have not had the advantage of a fight for district honors to whip them into shape and they could not stand the pace. When it is considered that they are all Lakefield boys, who have learned the game there, they deserve credit for their performance. They only broke into the game two weeks ago and fought their way into the finals.

Hill in goal for Lakefield played his best game of the season last night. With careful coaching he might become a fairly reliable goal tender. He did not receive very good support from Crawford and Roe. The former did some useful rushing but the defence were easily drawn out and they fumbled around the nets with the puck when they should have cleared. They also went together to meet a man, and usually stopped him at that, yet with a little headwork on the part of the Marmora forwards they would have been swamped.

Baden Blewitt was possibly the most effective on the forward line. Like the other septette there was little combination rushing. The team in general did not seem to have much respect for their old fellow-citizen, Blomfield. They bumped him at every chance. Harry Simpson loafed as usual, though he was not benched for it at any stage.

For Marmora, "Tommy" DeForge, a former local boy, and Blomfield were watched more particularly by the local fans. DeForge at cover got in some nice checking and with Gladney at point and Crosby in goal, there was a pretty husky defence.

Crosby had a number of good stops to his credit. The shots were nearly all from outside the other defence men and it was a pic-nic for him.

McWilliams and Jones patrolled centre ice and of the pair, the former was the most effective.

THE PLAY

When they were sent away by referee Sproule at 8.15 p.m., the teams looked like an even bet. It was slap bang, up and down, and they were at it hammer and tongs all the way. The Cementville seven had the better of the play for some time and their supporters' spirits rose considerably. When Blewitt succeeded in slamming the rubber past Crosby for the first counter of the game, the Lakefield rooters were wild with excitement. The Marmora supporters had a chance to retaliate in thirty seconds when Bloomfield rushed after receiving a pass from the face-off and shot. Hill blocked but Jones placed it in the nets before the Lakefield youngster could clear. This tied the score 1-1.

The only event of interest during the next eight minutes was the fact that Naylor was benched for tripping Simpson. Then the Lakefield defence presented Marmora with a goal by attempting to cross in front of their own nets with the puck. McWilliams, with a neat poke, placed the rubber behind Hill for Marmora's second. S. Hill, offended and was benched.

BACKWOODS HOCKEY

Jones was presented with a goal when Roe foolishly passed across the mouth of his own net. One would have thought that the Lakefield defence would profit by having been bitten twice but they did it once more and Bloomfield was the man who was on the job. The northern brigade now found themselves on the bottom of a 4-1 score. It never looked at any time as though there would be a cricket score however, and the Cementville seven gamely held on. Simpson got Lakefield's last goal of the game just before time was called and the score stood 4-2.

SECOND HALF

Both teams came back strong but their inability to combine kept the score down. There was only one goal registered in this period, and that when Naylor rushed up his wing and passed to Jones at centre, who scored.

There was considerable tripping and slashing and referee Sproule had lots to watch. Blewitt was canned for getting DeForge. Simpson tripped Jones and got two minutes. DeForge tripped Simpson when he returned but Sproule got Jones for the act instead of the real offender. Bloomfield also got his stick in the way and went off at the same time with Jones. The Lakefield seven showed poor generalship at this juncture. By playing six men on the forward line against their weakened opponents they might have overcome the lead. They failed to grasp the situation and thereby their chance for the championship. The final score was 5-2 in favor of Marmora.

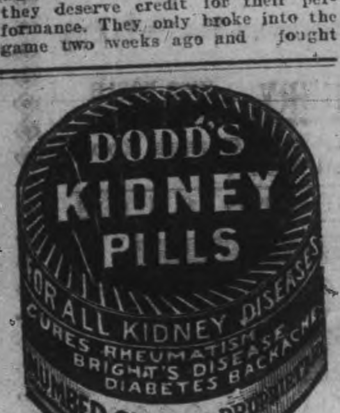
The line-ups were as follows—

MARMORA

	Crosby	
	Gladney	
	DeForge	
	McWilliams	
Bloomfield	Jones	Nayler
	O	
Hill	Simpson	Morin
	Blewitt	
	Roe	
	Crawford	
	Hill	

LAKEFIELD

If the Marmora seven put up their fanciest last night, they would be given a very busy evening by the T. A. S. In fact it is believed here that the Abstainers would beat them. The champions suggested last night that they be given an exhibition date with the Peterborough Intermediates. It would just be a matter of how many times the referee could face off the puck in an hour. The umpire behind the Marmora nets would have to work in relays. It is a safe bet that the Peterborough Junior O.H.A. seven would swamp Marmora.



CANADIAN BA LEAGUE SCHEDULE

Hamilton, March 9.—The schedule meeting of the Canadian League will be held in the Royal Hotel next Wednesday afternoon at two o'clock. All the managers and magnates will be on hand, and it is expected that Old Folks Templin will accompany the Peterborough delegation. Many important matters, such as the salary question, drafting of schedule and setting the date for opening day will come up for discussion. The constitution will also be amended.

It is expected that some discussion will result from the proposition of the London club to increase the salary limit from $1,200 to $1,500. President Fitzgerald and Secretary M. M. Robinson are opposed to any increase at present, and it is not likely that the London club will succeed in its efforts to increase the limit. Several of the other club owners are behind the president and secretary and the majority are agreed on $1,200.

It is almost certain that several important trades will be put through during the meeting, and when the smoke has cleared away some of the players at present booked for certain teams may be found in another section of the circuit.

President Fitzgerald will at the meeting make his report as to the appointment of umpires. As the president has had wide experience in the game and is recognized as one of the best posted baseball men in the country, that part of the question will no doubt prove satisfactory to all concerned.

SPORT TALK

Professional hockey failed to pay its way on the coast this year, according to Frank Patrick, managing director of the Vancouver Arena Company captain of the Vancouver team. Frank figures that next year will be better, with a team in from Seattle.

SKIP LANG MAKES FINALS BY ONE SHOT

Will Meet Skip Thompson for Bonspiel Honors

At the curling rink last night, skip Lang defeated skip Wightman in a semi-final game by one shot. The contest was close right to the finish and the stones were sliding into the rings with great accuracy throughout the whole games. By this win Lang goes into the finals and will play Thompson for the first honors in the primary competition.

Skip Thompson also went into the finals with one shot lead.

Three consolation matches were also pulled off last night, and, with the exception of the Wightman-Sturgeon match they were closely contested.

The games were—

Wightman Skip 14	Sturgeon Skip 5
Morrow Skip 10	McIlroy Skip 8
Waddell Skip 14	Campbell Skip 9

In the fourth round of the consolation there are three skips, Wightman, Morrow, Brightman. In the third round the following games have yet to be played.

Ferguson vs. Read.
Ferguson vs. Colling.
Foote vs. McDermid.

HOSPITAL CAMPS FOR CONSUMPTIVES TO BE INSTALLED

Montreal, March 9.—The Health Departments reports that last year there were 737 deaths from tuberculosis. The interesting feature of the report is the figures which are given showing how the malady attacked no less than twenty-four nationalities, and the percentage which succumbed to the disease. The report, which also shows that there were fewer deaths from the malady in 1911 than in 1910, is as follows:

	1910.	1911
French-Canadian	521	489
Irish	88	84
English	74	72
Scotch	36	31
Jewish	20	14
Italian	12	7
United States	11	2
French	6	11
Chinese	6	3
German	2	1
Austrian	1	7
Syrian	1	1
Russian	1	3
Greek	11	1
Dutch	1	0
Swede	6	3
Belgian	1	2
Spanish	1	0
Unknown	4	2
Total	785	
Poles		2
Welsh		1
Swiss		1
Finn		1
Hindu		1
Total deaths		737

On the strength of the above report, the Controllers are to be asked by the Health Department to place a part of Mount Royal Park, on the northern slopes, at the disposal of the city, so that hospital camps may be installed so that consumptives, in the early stages, may get fresh air, and be treated free of charge.

Gren Caldwell, of Barrie, left last night for Winnipeg, where he will referee the Allan Cup game between Eatons and Victorias, to be played under O.H.A. rules. Caldwell was chosen by Winnipeg out of a list of five officials named by the Ontario champions.

It is understood that Breen and Kean, of Winnipeg, will be the officials under Manitoba rules.

A. G. BROOKE CLAXTON, K.C., Director Montreal Arena Co.

SECRETARY

WM. NORTHEY, Secretary Montreal Arena Co.,

In recommending the Preference and Common Shares of the Arena Gardens of Toronto as attractive investments, we draw attention to the following:

The Arena Gardens of Toronto will be a large revenue producer at all times of the year.

In the winter season the greater portion of the revenue will be derived from receipts of hockey games. For years Toronto has been urgently in need of a hockey arena. All the teams belonging to the larger leagues will play their games on this rink's surface. With a seating capacity for over 6,000 people, the new rink will fill all the requirements for many years to come.

Outside the winter season, the new Arena will also fill a long-felt want. It offers an ideal location for the National Horse Show, which is such a popular event in Toronto. Then there are such events as the Auto Show, Pure Food Shows, Vaudeville Shows, large Conventions, Band Concerts and Industrial Exhibitions, all of which attract large crowds. Up to the present time Toronto has not had any properly equipped building for such events, and these will help to insure the success of the new Arena from the very outset.

A new departure in connection with these undertakings is that a hundred ton artificial ice plant is being installed, under contract with the De La Vergne Company, dated June 23rd, 1911. This plant will not only maintain the skating ice during the winter, but will also manufacture fifty tons of ice per day for family consumption during the summer months. The profit on the sale of ice during the summer season will, it is expected, not only pay for the cost of running the ice plant during the winter, but furnish a very considerable revenue.

Mr. Lawrence Solman, who is well-known throughout Canada for his successful management of theatrical and summer amusements, has kindly consented to act as Managing Director.

Additional application forms will be supplied on request by, and subscriptions may be sent to, the undersigned

THE CENTAUR COMPANY, NEW YORK CITY.

Lady Betty Across the Water

By C. N. & A. M. WILLIAMSON

Copyright, 1906, by McClure, Phillips & Co.

They lived only for that, those incredibly nice men. There were photographs of some of them with their advertisements, so that you could know what they were really like and have even more confidence in them than you would if you hadn't seen their style of features. There were two or three whose profiles I could never get to feel at home with, even if I had been born with one of them; but the majority were brave, energetic—oh, terribly energetic looking men, as indeed they would need to be if they were really to accomplish all the things they promised, not only for you but for the hundreds of thousands of other people who might be inclined to put them to the test.

There were things like this in the magazines—all the magazines:

"Listen to me, miss (or madam). I have something to say which will interest you. Do you want a perfect complexion? Don't move. Sit still in your chair. Cut out this coupon. Slip it into a stamped envelope and we will give you what you want by return of post."

"Why suffer? You have headache. We have the cure. We ask nothing better than to take away the one and give you the other."

"Let us lend you a beautiful diamond ring to wear until you are tired of it. When you are, we will take it back, and return you all but 5 per cent of your money."

"Don't come to us. Let us come to you and bring you something. You have always wanted health, wealth, wisdom."

"We would like to give you some friendly advice. We don't want a red cent for it."

"You are going to have a party, and you are worried. Don't worry. Just phone to us and we will arrange everything for you better than you could yourself, with no trouble to you and your servants."

There were so many splendid things to have, to wear and to eat advertised in the same kind, fatherly way, that I felt as if I had unconsciously yearned for each one of them more than for anything else in my life, and now it had been put into my head in all its fatal fascination, I couldn't possibly exist another day without sending for it, to one in that procession of

We had a number of these tropical birds

noble, self sacrificing American advertisers. I felt, too, that if anything disagreeable should happen to me, like a railway or motor car accident, I could spend the rest of my existence lying down, and still the splendid things would come running to me, if I just phoned or flung a stamp into space.

I mentioned something of the sort to Sally. "I wonder they don't offer to choose your husband," said I. "I didn't know advertisements could be so interesting."

"What about your own?" she asked "They're a hundred times quainter."

I thought hard about the Morning Post and The Queen, but couldn't remember anything extraordinary in the advertising line, and said so.

"Perhaps you, being English, don't see anything extraordinary about a clergyman's wife offering to exchange a canary bird for six months' subscription to Punch, or the widow of an officer earnestly desiring an idiot lady to board with her, or a decayed gentlewoman inviting the public to give her five pounds, but we, being American, do," replied Sally. "Why, I'd rather read the advertisements in some of your morning papers and ladies' weeklies than I would eat."

"Talking of eating, it's lunchtime," said Potter. "There'll be a big menagerie feeding in the dining car, but there's no good waiting for it to finish, as then there'll be no food left."

So we took his suggestion, and there was a crowd, but he had secured a table for four, and we squeezed ourselves into the places.

To be continued

If a man diets, he eats oatmeal in addition to everything else he usually eats.

SANOL

The new discovery will positively remove Gall Stones, Kidney Stones, Gravel in the Bladder, and will effect a complete Cure. It will dissolve and remove stones without pain, and there is no necessity for an operation in the future, as Sanol will cure in every case no matter how long standing the disease may be.

SANOL will be found particularly valuable in old cases of Kidney and Bladder diseases.

SANOL is a preparation of herbs and herb extracts, and contains no poisonous ingredients. It's use, therefore, cannot possibly harm either the stomach or intestines.

Sanol per bottle $1.50

Get it from McDERMID & JURY, Druggists, Peterborough, or direct from The Sanol Manufacturing Co., Winnipeg, Man.

MADE FORTUNE IN REAL ESTATE

Dame Fortune Smiled Her Sweetest on Capt. Eyres.

The following from the Saskatoon Daily Phoenix will be of interest to local people, Capt. Eyres, who is an old Millbrook boy, being known to Peterboro people.

With bank drafts worth $78,000 in his grip, W. L. Eyres, of Spokane, sea captain and financier, climbed aboard the G. T. P. train last night, bearing with him his reward for ten years of patient waiting for Saskatoon to develop. The returns from an investment made here ten years ago have netted him a good sized fortune and it was with a broad smile of contentment that he settled back into an upholstered chair in the Pullman and watched the twinkling lights of Saskatoon fade into the distance.

Captain Eyres' experience with Saskatoon real estate is a marvellous one. Ten years ago he came to this place which was but a tiny hamlet stretching itself beside the river. He purchased a farm containing one hundred and sixty acres about three miles from the town and paid $10 per acre for it. He got his title and faded away again. Two years ago he came back and was better satisfied than ever with the prospects here and went away again. He returned here on Monday morning and by noon yesterday transferred his property for $52,000 cold cash. He also held some lots here and he disposed of some of these receiving $25,000 in return for them. He paid $250 for the lots. He still holds two more lots and says he is going to hang on to them for a while. The purchasers of the farm were the Gratias Land Company of Saskatoon Capt. Eyres purchased the property from the Temperance Colonization Co. It is the north west quarter of seven thirty-seven, west of the third.

"I knew ten years ago that Saskatoon was going to be a good city, that it was going to be a big city," said Captain Eyres to the Phoenix. "It will snow Winnipeg under some day. I have travelled over this whole country in a buckboard and I know something about it."

Captain Eyres has a right to be well satisfied with the west. He has six more quarter sections which he has been holding for the past ten years. One of these is situated near remainder lies along the C.N.R. lines in different parts of the province.—

BUILDING RECORD FOR CALGARY

Calgary, March 9.—The value of building permits issued during the first two months of this year is the largest ever recorded for this time of year in Calgary, and reaches the large amount of $1,322,598. This is approximately 105 per cent. increase over the value of permits issued during the first two months of 1911, which totalled $629,700.

The number of permits issued this year was 227 as against 147 for the same period of 1911. The value of the permits issued during the month of February shows 182 per cent. increase over the total for the corresponding period of 1911, the total for February, 1912 being $933,724.

These phenomenal results are due in large measure to the excellent weather which has prevailed during the past few weeks, and also to the fact that several new industries have made active preparation for rushing their buildings up as soon as possible.

Wireless System to Girdle Empire.

London, March 9.—After many delays the British Postmaster-General, acting on behalf of His Majesty's Government and the Governments of the Dominions and colonies, has formally notified the Marconi Co. of the acceptance of the terms submitted by that company for the construction of all the long-distance wireless stations which are required for the imperial wireless scheme.

Godfrey Isaacs, managing director of the Marconi Wireless Telegraph Co., said yesterday:

"The Postmaster-General's notification to us marks the first step toward the establishment of a girdle of wireless stations round the British Empire. The scheme has vast and far-reaching potentialities. It has been advocated for a number of years, but it was not until last year that the scheme was adopted."

PRESENTATION TO REV. MR. BARBER

Bobcaygeon Congregation Sorry to Part With Him

Bobcaygeon Independent.

The Rev. Mr. Barber having been appointed by the Bishop of Toronto, Vicar of St. Magdelene's, Picton, the Wardens of Christ Church Bobcaygeon, Messrs. W. T. C. Boyd and F. W. Read, called the congregation and friends together, on Tuesday evening at the Parish Hall, to say farewell to Mr. Barber, and family. A presentation took the form of a handsome clock, and a purse of $100.

Mr. W. T. C. Boyd as Warden, and on behalf of the congregation, read the following address:—

Rev. Sir,—The members of the various congregations in connection with the Parish of Bobcaygeon, feel that they cannot allow you to leave the Parish without some tangible proof of the esteem in which you are held by those among whom you have worked for the past four and a half years. We feel that we are losing one whose place it will be hard to fill. The energy and enthusiasm you have displayed in all your work we trust has been transmitted in some degree, to those who have interested themselves in the various organizations of the Parish.

We have particularly to thank you for the unremitting and assiduous care which you have shown in making the church service so hearty and bright, and at the same time so reverent. Your fatherly anxiety for the sick and afflicted has been most gratefully appreciated. No call of duty has been unheeded.

Sir, while we deeply regret losing you, and we trust this feeling has been reciprocated, we rejoice to think that the change has been in the nature of a promotion, and that your undoubted talents are to be used in a larger sphere.

W. T. C. BOYD,
J. W. Read,
Warden,
Christ Church.

Bobcaygeon, March 5, 1912.

Mr. M. M. Boyd then presented the purse, and in doing so, supplemented a few remarks, fully expressing the good wishes of the congregation.

Take three presented to

Rev. Mr. Smith was pleased to add his testimony as a neighbor across the street, and expressed his good wishes for Mr. Barber and family.

Rev. Mr. Barber made a feeling reply and said that he and Mrs. Barber and family would carry with them most heartfelt remembrances of many warm friends in Bobcaygeon and the parish.

Mr. Lithgow as superintendent of the Sunday school, presented Mr. Percy Barber with a purse of $25, as a slight token of appreciation for his services to the school as teacher, organist, and in many ways.

Mr. Percy Barber made a neat reply expressing his thanks, and regrets on leaving his associates.

The meeting then closed, Mr. and Mrs. Barber left on Wednesday afternoon for their future home in Picton.

Lovely Hair For Women

Parisian Sage Put Life and Luster Into Dull Faded Hair. It is Guaranteed

If you haven't enjoyed the marvelous benefit derived from using delightful, refreshing PARISIAN SAGE, the modern hair grower, beautifier and dandruff remedy, you have missed a real treat.

FOUR NATIONALS STAND OUT FOR

Continued from page 1

to the province by half yearly payments in advance on the first days of January and July in each year, an annual sum based upon the population of the territory proposed to be added to the province, as from time to time ascertained by the quinquennial census as follows: "The sum payable until the population of such territory reaches 100,000 shall be $200,000. Thereafter until such population reaches 150,000 the sum payable shall be $250,000. After such population reaches 200,000, the sum payable shall be $300,000."

Mr. Oliver vigorously attacked the Dominion taking over the swamp land. If it were reclaimed by drainage, he said, it would eventually produce 100,000,000 bushels of wheat. The Government had not the slightest idea of undertaking a drainage policy. He estimated that Manitoba would lose $800,000 a year by the arrangement.

The bill was reported after considerable debate on an amendment of the Hon. Frank Oliver, and will come up for third reading on Tuesday.

W. M. Martin (Regina) argued for fair play for Saskatchewan. That province would use the Hudson Bay Railway more than either Manitoba or Ontario. It should at least have the same right of access to the bay as Ontario.

Rt. Hon. R. L. Borden said the Government would give most careful consideration to any representations which might be made by the Government of Saskatchewan.

POLICE COURT

HE WONT COME BACK.

William Armstrong, who was let off yesterday on suspended sentence, on his promise to go home, came to grief again last evening and this morning he was sent to jail for fifteen days, being unable to pay a $5 fine.

Armstrong said he was not drunk yesterday but according to Detective Newhall's evidence, he had been drinking all day.

One of Armstrong's friends telephoned to his nephew in Havelock and he was to arrive on the 4.28 train with the amount of the fine. Armstrong will do well to go back with him.

Kingston, March 8.—Chaucer Elliott will go to New York to undergo special treatment for his leg. Twelve years ago he was injured at Queen's playing football. This week the old trouble came back on him, and he is in a serious condition.

Nearly every time there is a big lot of money in sight, a case is manufactured to go after it.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Peterboro-Toronto run conductors received $95 in 1909; $115 in 1911 and $121.91 in 1912. They drop back to $115. Baggagemen on this run in 1909 got $60; in 1911, $67 and this year $75. They drop back to $67. Brakemen in 1909 got $55; in 1911, $62, and for 1912, $71.00 They drop back to $62.

Similar reductions are shown in the pay in the Belleville and Lindsay runs, when conductors who received $125 this year drop to $100, baggagemen from $75 to $60, and brakemen, $70 to $55.

In the mixed service of the Northern Division, proportional reductions are made. A conductor on the Lindsay-Toronto line in 1909 got $90; in 1911, $110; in 1912, $167.48. He is set back to the $110. Brakemen on the same run go back from $111.65 paid this year to $75, last year's figure.

LAD DID NOT WANT TO TELL WHO GAVE LIQUOR

At Seventeen Years of Age He Faces Drunk Charge

Finally Tells the Court Where He Was Supplied

A seventeen year old youth, who had been drunk and disorderly, was given the alternative of a week's board in Castle Nesbitt when he would not answer Chief Thompson's questions while in the witness box this morning. His counsel and his father prevailed upon him to tell at last and some information was uncovered that will likely lead to other police court proceedings.

"Who were you with last night," asked Chief Thompson.

"I do not think I will tell," said the defendant. "I do not want to get anyone else into trouble."

"You think that is very manly and very brave," said his Worship. "It shows a contemptuousness of court. It also shows you to be a tougher case than I thought a lad of your age would be."

The chief remarked that the defendant had made his brag to the officers that he would never tell on the other fellows.

The defendant had given the names of one of his friends previously and at this juncture he told who the other one was. He was trying to shield the last mentioned because he had been drinking with him and he was not sure as to whether he had attained his majority.

The chief then wanted to know where the liquor had been procured and the names of the parties who had supplied it.

Mr. McEldery said that it was unfortunate for the lad to have to acknowledge the companions he was with and thought that it could be settled without implicating anyone else.

"It is more unfortunate to be stubborn," said his Worship.

When he found that he was compelled to answer, the witness said that he had received the liquor at the Grand Hotel. He and his companion were supplied by the bartenders there. He did not know the bartender's names, but it was about 7 p.m. They got lager beer first, about ten drinks. Then they each had a whiskey. The first bartender did not even ask his age, but the one who supplied the whiskey wanted to know if he was twenty-one. He answered, "certainly," and it was given him without further parley.

The witness said that he had gotten liquor there before.

The offender had the money with which to pay his fine of $2.

About Zutoo Tablets

"I have been a sufferer from headache since childhood and have used all, or nearly all, of the so-called "cures" on the market. Some months since my attention was called to your Zutoo Tablets and I have been using them ever since with the most gratifying results. I find they cure a "sick" or "nervous" headache in a few minutes and leave no bad effect. My family use them whenever needed with equally good results. I have frequently given them to friends who were suffering from headache and they never failed to give quick relief. I find them a good remedy for "sour" stomach as well as headache. I always carry them in my grip on the road and would not be without them at any cost."
A. O. NORTON, 286 Congress, St. Boston.

OLIVE MISSION BAND CONCERT

Sale and Entertainment Was Splendid Success

That the Olive Mission Band of Charlotte street Methodist church is a live and working organization was demonstrated clearly last evening at their annual concert and sale of fancy goods, cake, pies and candy. The entertainment was held in the spacious lecture hall of the church, which, by the artistic taste of the young ladies, was transformed into a very attractive room. The arrangement of the booths and their inviting appearance all revealed an expenditure of time and care. The booths were presided over by young ladies also attractively apparelled.

The sale of articles lasted from four-thirty till eight o'clock, after which the following praiseworthy program was supplied:

Piano Solo—Miss Verna Zealand.
March—14 little folks.
Piano Solo—Miss Ethel Morrison.
Recitation—Miss Greta LeBarr.
Solo—Miss Kathleen Moore.
Duet—Misses Margaret and Lenore Wolsenholm.
Instrumental Duet—Misses Madeline Parker and Ila Giles.
Solo—Miss Mary Elizabeth Wright.
Piano Solo—Miss Thelma Darke.
Scarf Drill and Tableau—Seven ladies.
Closing Mission Band Hymn—Band members.
God Save the King.

Mr. Ivor Brock was a very capable chairman.

The success of the entire affair was largely attributable to the painstaking care and energy of the president of the Band, Mrs. R. F. Downey. It was the general and enthusiastic opinion of all who attended that the children acquitted themselves remarkably well.

Refreshments were served during the evening in the guild room.

Mr. Ivor Brock, the chairman, was pleasantly surprised by being presented with a large box of chocolates by one of the young ladies.

The success of the affair financially was very encouraging.

A committee from the Town of Taber, Alta., headed by the Hon. A. J. MacLean, Provincial Minister of Municipalities, recently interviewed the Grand Trunk Pacific authorities at Winnipeg as to the possibility of securing the entrance of that railway into their district. Taber has grown to be one of the most important coal-shipping points in the west, but it is claimed by the committee that it has been handicapped by the lack of railway competition. With 11 mines in operation and a total daily capacity of 3,500 tons only about one-half is being shipped.

ARENA GARDENS' OFFERING

On another page of this issue will be found particulars of an offering of the 7 per cent. cumulative preference stock of the Arena Gardens, amounting to $250,000 at $95 a share, including a bonus of 40 per cent of the common stock of the Company, through the International Bank, Messrs. Pellatt & Pellatt and the Crown Trust Co. The Company has a capital of $250,000 each preferred and common stock, and a 6 per cent. bond issue of $300,000. The Arena Gardens will be erected in Toronto and will have a capacity for over 6,000 spectators, or about 50 per cent. more than the Montreal Arena

ABOUT EYES & GLASSES
Talk No. 1 -- By J. W. BROWETT, Optometrist

The large Factories grind lenses in over 27,000 different combinations to suit the eye. We examine to determine which of the 27,000 should be used.

Glasses were invented a great many years ago—so were eyes. The eyes in construction are the same to-day, but the Glasses have changed. The Science of optics has steadily advanced, until now manufacturing opticians are able to grind glasses to correct defects of vision, of many varied forms. Few persons, comparatively speaking, have perfect eyes; and an eye which is not perfect is an annoyance to the brain; the eye and the brain are very intimately connected. When the eyes differ we have unequal vision—unequal vision causes headaches and nervousness; these are symptoms of eye strain We correct unequal vision with lenses scientifically made. Optical lenses are made from scientifically made glass, except in cheap spectacles; in these the glass is made the same as for windows. We use pure and faultless crystals only.

SUCCESSFUL SALE
Greatest Wall Paper Sale Held
OUR SUCCESS HAS SURPASSED ALL PREVIOUS RECORDS

We keep a variety in cheap high-class goods, second to none in Canada. We invite you after looking elsewhere to try us, with length and width of your room and we will tell you the cost — Either at our Peterborough Store at 379 George St., or at Toronto, 262 Queen St., West. Large buying enables us to give you prices not possible outside of large cities. There are only seven firms in our Dominion who can buy over twenty thousand dollars worth of Wall Papers per year, and we are proud to feel that we rank as fourth largest of the seven. The smallest buyer of seven has the same advantages as the largest as all that is required to get the low price is that the purchase amount to ten thousand dollars — Our purchases amount to over that with one firm's goods, not mentioning our purchases of American, English, German, French and Japanese manufacture, which we stock very largely. We would ask you again to examine carefully before making your purchases.

Toronto 262-4 Queen W. **C. B. Routley** Peterboro 379 George Street

LOCAL G.T.R. TRAINMEN WILL HAVE PAY REDUCED

Conductors Drop Back to $115, Baggagemen $67 and Brakemen $62—The Change to Take Effect on April 1st.

Montreal, March 9.—It is denied at Grand Trunk headquarters that there has been any breach of faith in regard to a re-arrangement of rates of pay to conductors and trainmen on branch line runs which is announced to come into effect on the company's system on April 1st. This rearrangement has resulted in reductions to men on short local runs, who, it is claimed, were receiving wages out of all proportion to the rest of the employes of the system.

Mr. W. G. Brownlee, the general transportation manager of the Grand Trunk, in his circular announcing the reductions, points out that the company reserves the right to change the rates and regulations upon giving thirty days' notice. He continues:

"The rates of pay to trainmen in the schedule referred to, as applied to branch lines and other light runs, have resulted in such abnormal increases in certain directions, taking into consideration the duties and responsibilities involved, as compared with other and heavier runs, that it is felt an injustice to other employes and the company as well, would be created by a continuation of these conditions. It has therefore been decided to make the adjustments named on the following pages and re-establish, from April 1, in lieu of the rates in the schedule of January 1, 1912, the rates applying to particular runs specified, in effect during 1911, all of which were very considerable increases over the previous schedule."

The circular then enumerates the runs on which the rates will be reduced to the 1911 standard. On the Eastern division, these include local runs to St. Hyacinthe, Massena Springs, Fort Covington, Belleville, Brockville, and the Lewiston. Three Rivers, Hemmingford and Kingston branches. On the Ottawa division it includes local runs to Swanton, Coteau, Valleyfield, Madawaska, Golden Lake, Barry's Bay, Madawaska and Depot Harbor. On the Northern division local runs to Belleville, Peterborough, Lakefield, Lindsay, Whitby, Kinmount, Lorneville, Stouffville, Haliburton, Coboconk, Madoc, Allandale, Collingwood, Meaford, and the Lakefield branch. On the middle division local runs to Stratford, Durham, Kincardine, Owen Sound, Petrolia, Port Dover, Stratford, Tilsonburg, Galt, Elmira, Port Rowan, Wiarton and Palmerston. On the Western division local runs to South Bend, West Bay City, Richmond, Muskegon, Caseville and Pontia.

RATE OF REDUCTION

As showing the rate of reductions, conductors on the Montreal, St. Hyacinthe run, who have been getting $215 per month, under the 1912 schedule, will receive $100, as against $75 under the 1909 schedule; while on the Lewiston branch, where the 1912 schedule gave conductors the big salary of $174 per month, the $00 rate will also be restored. Baggagemen on the latter branch will also have their pay put at $75 per month, instead of $116.16, under the 1912 schedule, while brakemen will get $70 instead of $116.70.

Proportionate rates are established on the other local runs. For instance, on the Belleville to Toronto run, the pay of conductors will be $135 per month instead of $158.87; baggagemen $80 instead of $91.88, and brakemen $75 instead of $88.92. The most striking reduction of all is on the Pontiac-Caseville run, where conductors will receive $100 per month instead of $188.76, the baggagemen $70 instead of $125.84 and the brakemen $85 instead of $125.84. The other reductions vary from $10 to $56 per month for conductors, and $5 upwards for other trainmen. There are only two instances in which the new rates for local conductors are under $100 a month, while the maximum for the local runs is $135.

PETERBORO DECREASES

The Northern Division and the

UNDERWRITERS HAD BANQUET

The regular monthly gathering of the Life Underwriters' Associations of Central Ontario, was held last evening in Hooper's grill room at six oclock, and a most profitable and enjoyable time spent.

After disposing of a bounteous dinner, a splendid paper was read by Mr. D. H. Moore, of Peterborough. In his paper, Mr. Moore compared the investment side of real estate with life insurance. He showed the advantage that insurance has over real estate investments.

Mr. Moore referred to real estate investments in New York. He stated that the average realty investment in New York did not yield more than two per cent on the amount invested.

Mr. J. F. Weston, superintendent of the Manufacturers Life of Toronto, was among those present.

Mr. Thomas Mark, president of the Underwriters' Association, acted as chairman.

OBITUARY

Miss Eda Horsfield

The death occurred this morning of Miss Eda Horsfield in Nicholls Hospital. Miss Horsfield had been ill for some time, and not long ago was removed to Nicholls Hospital, where she remained till the time of her death.

She came to Canada when she was only three years of age, and has been a resident of Peterborough for thirty years, and resided with her parents, Mr and Mrs. George Horsfield, 452 Donegal street.

She is survived by her parents, four sisters, Misses Jean, Agnes and Emily, of Peterborough, and Mrs. Carveth, of Toronto, as well as two brothers, Charles and Arthur, both of this city.

The funeral will take place Monday afternoon at two o'clock, from the family residence, to St. John's church, and from thence to Little Lake cemetery.

RICE GOES TO PRISON

Fake Broker Pleads Guilty After Five Months Trial

Will Have to Serve One Year in Jail

New York, March 7.—Pleas of guilty by George Graham Rice and Bernard H. Scheftels, of the brokerage firm of B. H. Scheftels and Company, brought to a dramatic close here to-day what is believed to be the longest trial on record in a United States court. With their associates, Charles F. Belser, Charles B. Stone and Ralph E. Waterman, they have been on trial for nearly five months for alleged conspiracy and the misuse of the mails to promote and sell mining stock.

Rice was sentenced to one year in jail, his sentence beginning December 29th last, when he was putting in the Tombs after one of the jurors had been approached. With time off for good behavior, Rice will really spend about six months and a half in jail. Scheftels got off with a suspended sentence, and the other three defendants went free, the indictment being quashed.

It was the fact that his financial resources and those of his friends had been exhausted by the length of the trial, Rice said to-day, that induced him to enter his plea, and it was intimated that the heavy expenses entailed by the Government in the case had also played a part in bringing about to-day's sudden climax, for without Rice's plea the case, it is said, might have dragged along five months more.

A REMARKAABLE TRIAL.

The trial, which began on October 23, 1911, was remarkable in many ways. Scores of witnesses, from all parts of the country, were held here for months and the jurors only a day or two ago made formal protest to Judge Ray that their long absence from business was ruining them. Nearly two thousand exhibits were introduced, every one bitterly contested before it was admitted to evidence. Illness of jurors, the attempted bribery of a juror and adjournments at the request of the jurors brought further delay. The witnesses from a distance protested at being kept here months at a time without adequate recompense. New rules of evidence sprang up and new precedents were made. Rice in January discharged all of his atttorneys and conducted his own defence.

Much of the evidence adduced by the Government during the trial was aimed at showing that the Scheftels did not conduct a legitimate brokerage business, but a "bucket shop," and that the defendants sought to create a market for certain stocks of which they held large blocks under option, and sought to sell these stocks to their customers at inflated market prices with a secret profit to themselves. United States District Attorney Henry A. Wise, in stating to-night that this case was the first of its kind instituted under the Federal statute, said: "The case has been regarded by the Government as a test case, and one of far-reaching importance in that aspect. Its successful termination has established the criminal responsibility of brokers for practices which it had been commonly supposed would expose them at the most to civil liabilities. The prosecution, I am informed, has already had considerable effect in this community. The resulting conviction should have a still further effect."

Offices of the Scheftels firm located in New York, Chicago, Boston, Denver and other large cities, were raided simultaneously on September 19, 1910.

QUEBEC FARMER TELLS GOOD NEWS

Found Complete Cure for Cramps and Kidney Disease

Suffered For Six Years, But Found Health and New Life in Dodd's Kidney Pills — Warm Praise for Old Reliable Remedy.

Marie East, Bonaventure Co., Quebec, March 8. (Special).—Mr. Peter Bernard, a prosperous young farmer living near here, is spreading the good news that he has found a complete cure for his kidney troubles.

"I suffered for six years from cramps in the muscles and kidney disease," Mr. Bernard says, "but Dodd's Kidney Pills cured me completely. Yes, I am feeling so well that I want other sufferers to know just how easy it is to be cured."

It is a good old saying that it is easy to do anything if you just know how. And Mr. Bernard and hundreds of others are telling you just how to cure kidney disease. Dodd's Kidney Pills always cure it. And as kidney disease is the direct cause of rheumatism, lumbago, Bright's disease, heart disease, pain in the back and urinary troubles, Dodd's Kidney Pills cure them by removing the cause. If you haven't used Dodd's Kidney Pills yourself ask your neighbors about them.

Better Farming Lectures

On March 12th, from 12.15 p.m., to 3.15 p.m., lectures pertaining to "Better Farming" will be given in a special train at Peterboro under the Department of Agriculture of Ontario.

Single first class fare for the return trip will be in effect from all stations on Grand Trunk Railway, Lindsay, Madoc Jct., and intermediate stations to Peterboro, good going on all p.m. trains, March 11th. all trains March 12th. Good for return until Wednesday March 13th.

McNAMARAS ENJOYING LIFE; SAN QUENTIN, PRISON DE LUXE

Future Home of Dynamitards is Regarded as Criminals' Paradise.

San Francisco, March 8. — While the fifty American labor leaders are awaiting their trial, which is dated for March 12, the McNamara Bros. are passing their days in a prison de luxe.

The San Quentin prison in which the confessed dynamiters are incarcerated is universally known as the "Criminal Paradise" and compares very favorably with a summer resort, or country residence.

The prisoners' cells are carpeted, and the occupants have access to a library; granted the right to play baseball, swim, engage in athletics, to prominade and smoke.

In this prison de luxe the inmates are confined in the cells for eleven hours each day, the rest of the time they are working at their alloted tasks, i. e., making jute bags in the factory, or following the exercises permitted.

HARD WORK UNKNOWN.

Hard work is unknown in this institution. The prisoners, numbering 1,800, including the McNamaras, are obliged to make so many jute bags between the hours of 7 in the morning and 5 o'clock in the evening. If they make the required number in less time, they are allowed to spend the time they save in enjoying themselves on the prison grounds.

Dozens of those imprisoned there, instead of awaiting with glee the hour of their freedom, witness its approach with misgivings, for they realize they will have to go forth to battle in a competition that will afford them few of the pleasures and luxuries common in the prison.

This criminal paradise is officially designated the California State Prison. It is maintained by California. The federal government sends prisoners there, but it pays the State of California for their maintenance. The prison is situated at San Quentin, which projects out into San Francisco Bay. It is reached by boat in an hour's ride from San Francisco.

CELLS ARE DECORATED

The prison building is not unlike other structures of its kind, but its sanitary and cell arrangements are considered perfect and the accommodations for the prisoners beyond "criticism." The cells are arranged in tiers. In them the prisoners keep pictures, magazines, books, papers and periodicals. Some of the cells are decorated with all the artistic beauties of a well appointed den.

Comedians and tragedians among the prisoners, weekly give a theatrical performance; the prison band, consisting of 60 pieces and composed of the inmates, give concerts, the baseball teams play for the championship of the prison league; the handball experts battle for the championship in that line; the athletes of the cinder path, the hurdles the hammer and the like regularly engage in competition. They have an extensive farm. They raise chickens and ducks.

John Hoyle, the warden, regards the prisoners as the unfortunates of society, and treats them consequently in the msot humane fashion. The men never try to escape, they are never late in responding to the bell in the evening, and they obey the rules with a remarkable degree of willingness.

William P. Sheridan, for 20 years the head of the identification bureau in police headquarters in New York who recently visited at San Quentin, met "Billy" Barret there. Barret has an international reputation as a "bank sneak." He is serving five years for stealing a bag of gold from a bank in California. When he went into the prison he weighed 250 pounds When Sheridan saw him he was not more than 180, rosy cheeked, athletic and in prime condition.

"What makes you look so fine?" asked Sheridan.

"Bill," he replied, "this is a sanitarium. I've become an athlete since I came here. I swim, play baseball, run races, and say, I have a better time here, than I ever had on the outside. "It's the training that I do that has put me in this fine shape. All the prisoners, except the very old ones, get into athletics here. The aged fellows read a lot, and play croquet and cards."

saying. I don't know about that; give the devil his due, and he would soon have too much.

"Give the devil his due;" is an old

People do not seem to understand the importance of honesty. To be sure, good conduct is taught, in a way but too many mistakenly think such teaching a perfunctory duty, and that there are many pleasures in a reckless, careless life.

A man may look around a month before ordering a suit, but when he finally orders it, he wants it next day.

Public opinion is the great means of accomplishing good in a community. If a man does not behave himself, public opinion can soon whip him into line. That man does not live who is not afraid of public opinion.

I can stand an ordinary school teacher pretty well; but a real professor scares me.

Tell a man what he should do, and he won't do it, to show you that he is independent.

When I deserve it, I don't mind abuse, it makes me careful. But I seldom agree with my critics as to when I deserve abuse.

You may be busy, but if you have time to tell your troubles, you are not busy enough.

Some days a man is so wortbless that he is in his own way.

The only way to accumulate money is to be honest and trustworthy. The man who doesn't know this is dangerous; he is a fool, and liable to become a thief.

PAST DASHES TO THE POLE

Capt. Cook, British navy. 1772, was the first person to cross the Antarctic circle, went 71 degrees 10 minutes south.

Bellingshausen, Russian, 1820, 69 degrees 52 minutes south.

James Weddell, British, 1823, 74 degrees 15 minutes.

Lieut. Charles Wilkes, American, explored what is now called Wilkes Land, 1839.

James Clarke Ross, British, discovered what is now Ross sea, 1840, 77 degrees south.

G. S. Nares, British with first steamship to enter Arctic circle, the Challenger, discovered the fact that animal life covered the floor of the polar seas, 1874.

Capt. R. F. Scott, British, 1902-04, 82 degrees 17 minutes south.

Ernest Shakleton, British, 1908-09, 88 degrees, 23 minutes south—111 miles from the pole.

BILL WOULD PREVENT FRAUD

Toronto, March 8 — To protect wholesale merchants W. D. McPherson M.P.P. will introduce in the Legislature a bill to prohibit retailers from disposing of their stock in bulk for cash without first supplying the intending purchaser with a list of his creditors, and obtaining the consent to the sale of a majority of the creditors. This is in order to put a stop to the practice of a retailer selling out his stock in order to avoid paying his creditors.

Mr. Hancock's Sales

Friday, March 15th—Sale of farm stock and implements, property of Mr. J. H. Edmison, Lot 8, concession 2, Smith. Sale at one o'clock p.m.

Monday, March 11th—Sale of household furniture, property of Mr. Wm. Cox, of No. 92 London street. Sale at one o'clock p.m.

Wednesday, March 13th—Sale of stock and implements, property of Mr. O. Carver, Lot 11, concession 12 North Monaghan. Sale at one o'clock p.m.

Tuesday, March 12th—Sale of household furniture, mostly new, property of Mr. E. Langford, 637 Union street, corner Edinburgh street. Sale at one o'clock p.m.

A MOTHER'S DUTY TO HER DAUGHTER

Her Health Must be Carefully Guarded as She Comes to Womanhood

Every mother who calls to mind her own girlhood knows how urgently her daughter is likely to need help and strength during the years between early school days and womanhood. Then it is that growing girls droop, become fragile, bloodless and nervous. Nature is calling for more nourishment than the blood can supply, and signs of distress are plainly evident in dull eyes, pallid cheeks, weak and aching backs, a languid step, fits of depression, nervousness and a dislike for proper food. These signs mean anaemia—that is bloodlessness.

The watchful mother takes prompt steps to give her girl the new, rich blood her weak system is thirsting for by giving her Dr. Williams' Pink Pills, because so many thousands of feeble, anaemic, unhappy girls have been transformed into robust women through the rich, red blood these pills actually make. No other medicine has every succeeded like them, and thousands of mothers have proved their work. The case of Miss Marguerite Boisclair, St. Jerome, Que., proves the truth of these statements. Miss Boisclair is sixteen years of age, and says that since the age of fourteen she had been afflicted with extreme weakness, and seemed to be going into a decline. The least effort left her weak and breathless, so that she was unable to do any household work. She had no appetite, suffered from terrible headaches, dizziness and some times fainting spells. She was under medical treatment, but made absolutely no improvement, in fact seemed to be steadily growing weaker. When her case seemed most hopeless a lady friend advised the use of Dr. Williams' Pink Pills. After taking a few boxes she began to gain new strength, and after the continued use of the pills for about two months she was again as well and strong as ever she had been, and has since enjoyed the best of health.

Sold by all dealers in medicine or by mail at 50 cents a box, or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

NEWFOUNDLAND IS GROWING

St John's Nfld., March 8 — Newfoundland's population is 242,000, according to the complete census returns for 19111, which were made public to-day. This shows an increase of ten per cent. for the past decade.

SPREADING THE GOOD NEWS

Prominent Ontario Man Recommends Gin Pills For The Kidneys

Found at last—a genuine cure for Kidney and Bladder Troubles. Mr. Bauer knows about it. Mr. Simpson knows about it. And they are telling all their friends and neighbors what Gin Pills did for them. Here is Mr. Bauer's letter. Study it.

DAVISVILLE, ONT.

"I had trouble with my Kidneys and Bladder so I got a sample of GIN PILLS and followed directions. I felt better after the first dose and I kept taking them for a month.

One day, Mr. Simpson of this town told me about the trouble he had with his kidneys, and I recommended him to try GIN PILLS, and gave him one to take. The next day, he bought some for himself, and both he and his wife have derived great benefit from them."

HERBERT H. BAUER.

A FRIEND IN NEED.

Every man who has any Kidney Trouble or suffers with Rheumatism should do just as MR. BAUER did—take GIN PILLS—and cure himself, as MR. BAUER did.

You see, GIN PILLS do cure Kidney and Bladder Troubles. Gin Pills ease the pain in the back and stop those sharp, shooting pains. Gin Pills give strength to weak kidneys, soothe the irritated bladder and correct incontinence and suppression of urine. You don't have to take our word for all this, or even buy Gin Pills before trying them. Write for free sample —try them—see how good they are—and then buy the regular size boxes at your dealer's—50c, or six boxes for $2.50. Write for the free sample. National Drug and Chemical Co. of Canada Limited, Dept. B Toronto.

NATIONAL LAZY LIVER PILLS sweeten the stomach, regulate the bowels and stir up the liver. 25c. a box.

BELLEVILLE CITY FATHERS DISCUSS PAVEMENTS

Some Arguments Similar to Those Used by Local Aldermen

The Belleville City Council has the paving proposition in hand and the following report of the discussion at the last meeting by the Belleville Ontario will be of local interest.

Ald. Panter took up the method of paying for the cost of laying Front street pavement (a) cost to be borne by the whole city, (b) entirely by rate payers on Front street, or (c) some midway scheme.

The council should announce that its proposition in laying permanent pavements be one-third to be borne, by the city at large and two-thirds by the ratepayers on Front street. Some scheme should be adopted to be carried out in this city in the laying of road pavements in other sections than on Front street.

Ald. Robinson thought every scheme of his had been interfered with. He had information to use once the council voiced itself in the matter. The time has arrived when the pavement should be put down. Some think now owing to discoveries of the sewer conditions that there should be delay. But it appears that there are ways of building permanent pavement no matter what kind of a substructure there was.

Ald. Alford as a Front street ratepayer thought two-thirds too much to be paid by ratepayers on Front street. There should be a public meeting to get the voice of the property owners.

Ald. Lott said if the ratepayers pay the whole shot, they would not be compelled to contribute to other road pavements.

Ald. Alford was informed that the city would make all repairs.

Ald. Clarke said Bridge st could not be paved until the sewer was rebuilt, as the crown had fallen in at various places. He was opposed to paving Front street, which could be macademized every three years for less money than the interest alone on the cost of the pavement. The kind of pavement would have to be determined.

Mayor Vermilyea said he was in favor of paving Front street this year For instance it might be built from Bridge street to Victoria avenue. Before the end of the season all the principal streets would be asking for permanent pavements.

Ald. Clarke said it might not be right to build in view of the condition of the sewer, which might have to be taken up.

Ald. Panter said macadam would mean "mud" for years.

Ald. Robinson did not favor putting the pavement down piecemeal. Be sure you're right and put the pavement from Dundas street to the upper bridge. The public works department will present a scheme.

Ald. Canning argued conditions were not ripe for paving as excavations were continually in operation. When these are over then he would support the proposition to pave Front street.

Here the question was allowed to stand as it was felt the discussion had done much good.

Serious Fire at Bracebridge.

Bracebridge, March 8.—A store owned by A. A. Mahaffy, M.P.P., and occupied by him as a law office, James Thomson's stationery store, W. M. Ross' grocery store, and R. H. Ryan, photographer's studio, were destroyed by fire early yesterday. Loss $35,000 Insurance $14,000.

Cutting Out Legal Red Tape.

Ottawa, March 8.—It is considered likely that the Minister of Justice will call a meeting during the Parliamentary recess of the Provincial Attorneys-General with a view to systematizing the methods of procedure in the law courts.

THIS GIRLS "RATS" SAVED HER LIFE

New York, March 8—The resistance to shock offered by the "rats" in the coiffure of Lillian Seinberg, an eighteen-year-old East New York girl, probably accounts for her being alive to tell how she captured a burglar this afternoon.

A two-foot "jummy" wielded by the intruder, broke the girl's hold upon the man after she had pulled him back from the fire escape by the legs. But though the blow stunned her, the substantial coiffure so softened the shock that she soon recovered her senses, and gave an alarm, which resulted in the capture of the man, who said he was David Miller, but refused to give an address. He was held in $1,000 bail.

U. S. Senate Mutilates Treaty.

Washington, March 8.—Stripped of the clause, which it was claimed would invade the constitutional treaty-making power of the Senate, and with many other limitations added, the general arbitration treaties between the United States and England and France, proposed by President Taft and Secretary Knox, as forerunners of universal peace, were ratified by the Senate yesterday by a vote of 76 to 3. The Senators who voted against the ratification were Lorimer Martine and Reed. The latter two are Democrats.

President Taft last night, before leaving for his speaking trip to Toledo and Chicago, did not comment upon the Senate's action. He had hoped to see the treaties passed unamended He had declared publicly, however that certain amendments would not be objectionable.

Virtually, the treaties, by the Senate's action, are "up in the air." In their modified form they must be referred to England and France.

When a man tells me he was a soldier in the rebellion, I never ask him if he was ever in a battle; he is so humiliated if he wasn't.

LACK OF EXERCISE

Brings on Troubles which are Best Corrected by Dr. Morse's Indian Root Pills

Man was intended to live an active, outdoor life, and his digestive system was modelled accordingly. Indoor work with hands or head, long hours sitting or standing still, especially in air that's none too good, slow down the healthy activities of stomach, liver, kidneys and the millions of tiny skin glands.

Sedentary Habits Develop Constipation

Constipation, headaches, indigestion, biliousness, rheumatism and similar troubles follow.

Then the worth of that good old reliable family medicine, *Dr. Morse's Indian Root Pills*, is appreciated. Though it has been in use for over half a century, modern science has not been able to devise a safer or better cleanser for the whole system.

Dr. Morse's Indian Root Pills are largely vegetable in composition, free from any harmful drug, and mild yet most effective in their action. They are "Mother's standby" in hundreds of homes because they nip in the bud so many of the common ailments.

Made since 1857 by W. H. Comstock Co., Limited, Brockville, Ont., and sold everywhere at 25c. a box. 30

Coughs, Colds Bronchitis

If there is an ailment in the throat or chest, it is surely essential that the remedy be conveyed direct to the affected part. It's because the healing vapor of Catarrhozone is breathed into the sore, irritated throat and bronchial tubes, because its balsamic fumes kill the germs and destroy the cause of the trouble. These are the reasons why Catarrhozone never yet failed to cure a genuine case of Catarrh, Asthma, Bronchitis, or Throat Trouble.

The wonderfully soothing vapor of Catarrhozone instantly reaches the furthest recesses of the lungs, produces a healing, curative effect that is impossible with a tablet or liquid, which goes merely to the stomach, and fails entirely to help the throat or lungs.

To permanently cure your winter ills, your coughs, sneezing and Catarrh, by all means use a tried and proven remedy like Catarrhozone. But beware of the substitutor and imitator. Look for **Catarrhozone** only. 50c and $1, at all dealers. 10

Minister of Justice proposes to retire Justices Dugas and Craig, of the Yukon, on full allowance.

Chief Inspector James L. Hughes of Toronto has been offered a position as editor of a magazine in Chicago.

Hon. Dr. Reid admitted he dismissed a customs collector because of a letter in which he disapproved of bribery in elections.

The Young Men's Christian Associations of Ontario and Quebec met in Toronto to discuss the question of a national organization.

The discrepancies charged against five Kingston dealers were caused, the latter alleged, by the adhesion of snow and ice on the sleigh.

Lieut.-General Sir Frederick Kitchener, governor and commander-in-chief of Bermuda, and brother of Lord Kitchener, died Wednesday night after an operation for appendicitis.

Gertrude Vigeault, Ontario street, Montreal, 23 months old, was drowned early yesterday morning by falling into a tub of water her mother had just bathed her in and had left on the kitchen floor.

Geo. H. Kennaugh, the nigh[illegible] of the Canadian Expres[illegible] was on duty the night that the company's office in Hamilton was entered and robbed of $8,500, was acquitted of conspiracy yesterday.

The body of William Sangster, a prominent farmer living one mile east of Norwich, was found in his room at 3 o'clock yesterday afternoon. Beside him was the remains of a dose of paris green. He had been in ill health.

In order to take a short cut home, Mrs. Wm. Bullock, aged 37, of Kingston, crawled under a freight train at the outer station yesterday afternoon. Just as she was in the act of getting under the train, it moved and her left foot was cut off.

Four Killed In B.C. Mine.

Vancouver, B.C., March 8.—A gas explosion yesterday in the mine of the Diamond Vale Mining Co. at Berrett, B.C., ten miles northeast of Vancouver, killed four men and imprisoned ten others. Rescue apparatus has been sent.

It is difficult to get news from the mine, which is situated in the Nicola district, on a branch that runs from the main line of the Canadian Pacific Railway.

Passengers Were Endangered.

Kingston, March 8.—The lives of the passengers on the Bay of Quinte train were endangered when a mixed train running south from Battlefield, left the rails between Bridgewater and Queensboro. One coach, baggage car and box car were ditched, but as the train was running slowly no one was injured. The engine stayed on the track.

Canal Bill Is Passed.

Ottawa, March 8.—With its objectionable features, from a provincial standpoint, eliminated, the Georgian Bay canal bill passed the railway committee in the Commons yesterday.

Student Discipline.

Toronto, March 8.—Out of 1,559 Varsity students, 1,098 voted in a referendum in favor of the student body taking over the control of the disciplinary powers.

DIABETES

Is one of the most cruel maladies of which mankind is subject, the many complications arising from time to time, making life seem almost unbearable. For many diseases, medical, scientific, and physiological knowledge and experience gained from years of deep research, has achieved remarkable results, but, up to now, little has been discovered of practical value in the treatment and cure of Diabetes. In fact, people have begun to look upon the disease as well-nigh incurable. Even in the medical profession can be found doctors who are of the same opinion, regarding sceptically any claim to ameliorate or improve the condition of a diabetic patient.

It can, however, be proved that SANSOL'S ANTIDIABETES lastingly cures all cases of Diabetes. Full particulars can be obtained from the Sansol Mfg. Co., Winnipeg, Man.

PRICE $2.00 PER BOTTLE

REPORTS ON RURAL SCHOOLS IN PETERBOROUGH COUNTY

(Continued from page twelve)

to the schools as to stimulate and encourage the teachers.

To a very large extent, the same may be said of the school boards. To many the inspector can be of service because they are willing to receive and act on suggestions, while to others he can be of little use. In some cases reports are never read, or if they are there is no result to indicate it. Fortunately there are not many of this class, but the few cases that there are and the consequent injury that results to the cause of education have led me to the conviction that the establishment of Township or perhaps preferable, County Boards of Education, would be a long step on the road to progress and efficiency in the mangement of the rural schools.

All of which is respectfully submitted by

Your obedient servant,

(Sgd.) RICHARD LEES,

Public School Inspector,

Peterborough, January 24th, 1912 Peterborough E.

The Continuation Schools continue to do excellent work. The success attained by the Lakefield School at the Departmental Examinations in July, was especially worthy of special mention. In view of the continued good work done by these schools and the contribution they are making to the education of the community, I beg to repeat my recommendation of last year, that the County grant to these schools be materially increased.

SMITH TOWNSHIP COUNCIL

The members of the Municipal Council, met in the County Council chamber, on Monday, March 4th, at 10 o'clock. All the members were present with Reeve Garbutt in the chair. The minutes of last meeting were read and confirmed.

A petition was presented by Messrs Robt. Nurse, and George Deyell, signed by twenty-one ratepayers, asking that a new Union School Section be formed with Smith and Emily the new section to take in Lots one, two and three in the first, second, third and fourth concession of Smith.

Moved by Mr. McKee, seconded by Mr. McConkey that the petition be received and that the Council investigate the matter. Carried.

A PETITION

A petition from the cottage and island owners of Clear Lake, was presented by Messrs. Beall, Rogers and Crane, asking that the council open up either the 14th or 15th concession to the lake, and that the amount of statute labor tax paid by these petitioners be applied for this purpose. A clause was inserted in the petition stating that the undersigned island owners lying adjacent to the township were willing to pay the same rate of statute labor tax as those whose lands are on the main shore.

Moved by Mr. McConkey, seconded by Mr Davis, that the petition be received and dealt with later. Carried.

Messrs. Scott of the 1st Concession line, addressed the council and asked that some steps be taken to repair the boundary road between North Monaghan and Smith. This road is kept up jointly by the two townships, and North Monaghan has neglected to keep in repair its share of the road. The matter was referred to the township solicitor.

Mr S. Harrison addressed the council, stating that he had been informed that the 18th Concession had never been surveyed from the road between Lots 30 and 31, east to Deer Bay. The council were of the opinion that he was mistaken, but the matter would be looked into.

Moved by Mr. McKee, seconded by Mr. Davis that the sum of $82.30 be allowed the collector as abatements for 1911, and that the treasurer be instructed to return $76.72 of this amount to the county treasurer as taxs to be charged against lands. Carried.

Mr. Jno. McBride of Millbrook addressed the council concerning the purchase of a snow plough for the township. As the season was well advanced and the cost of keeping the roads open to the present time was very heavy it was moved by Mr. Davis and Mr. Cann that no action be taken. Carried.

Mr. J. A. Young and Mr. R. J. Edmison, the auditors for 1911, gave their report, showing the township to be in good financial condition, with a total balance on hand of $2616.23.

Moved by Mr. Davis and Mr. Mc-McKee that the auditors' report be received, and that the clerk be instructed to have 200 copies printed for distribution. Carried.

Moved by Mr. Cann and Mr. McConkey that Heard Bros. be employed to run the grader for the year 1912 at the same salary as last year. Carried.

A letter was received from Messrs Hall, Medd & Davidson, stating that the township and Mr. Alex. Elliott would have to come to some agreement concerning the division of the money which the government granted for damages done the shores of Chemong Park by high water.

Moved by Mr. McKee and Mr. Cann that no action be taken at the present time, unless Mr. Elliott was willing to accept the offer made by the township on Sept. 3rd. 1910, whereby the township received two-thirds of the award, and the original owners one-third. Carried.

ROADMASTERS.

A by-law was passed appointing road masters, pound keepers and fence viewers for the year 1912. The following were appointed:—

Roadmasters—Thos. Armstrong, Peter Nichols, Jas. Blewett, William Armstrong, Gordon Fitzgerald, James Cassidy, Wilbert McNaughton, Robert Freeborn, Jas. Northey, jr.; William Douglas, David Miller, Andrew Fairbairn, Fred Dunbar, J. J. Bickle, W. J. Stillman, S. A. Northey, Thomas J. Bell, Bruce Garbutt, James Miller, Wm. Rosborough, John Kennedy, Herbert Rosborough, T. T. Milburn, Wm Brown, Jas. Stothard, Roland Stabler, Marcus Dean, Louis McIlmoyl, Jonathan Sweeting, Louis Fowler, Austin McConkey, G. W. Mann, Geo. Milburn, P. Westlake, John Galvin, William Scott, R. Hunter, Alex. Scott, Percy Edmison, Robert Darling, E. Mahood, jr.; Joseph Tully, Ed. Mahood, sr.; Bert Middleton, Thos. McMullen, W. W. Milburn, Walter Preston, J. R. Dugan, J. A. Galvin, Alex. Elliott, Wm E. McIlmoyl, Solomon Northcott, John Fairbairn, Gordon Mann W. A. Rosborough, Jas. Grant, Jas. A. Fife, Jas. Tindle, Robert Telford, Isaac Sage, Stephen Harrison, Francis Pearson, Wm. Swinton, J. G. Armstrong, Absalom Northey, John Pearson, John Harrison, John Stabler, Jas D. Fowler, Wm. Hogan, Webster Blewett, jr.; R. G. Ivey, Hugh Bertram, Wm. Scott, George Deyell, Frank Arthur, A. E. Kennedy, James Tully, Thomas Edgar, Walter Young, Jos. Donaldson, Frank Ayotte, W. A. Payne, R. A. Garbutt, Fred Boyce, A. Morrison, John Millage.

POUND KEEPERS.

Pound Keepers—Pound keeper No. 1, W. J. Tully; No. 2, John Archer; No. 3, R. J. Edmison; No. 4, J. D. Fowler; No. 5, Garbutt Mann; No. 6, James Kidd; No. 7, Galvin Preston; No. 8, J. E. Kearney; No. 9, Jonathan Sweeting; No. 10, Robert Northey; No. 11, Jas. H. Northey; No. 12, Peter Bullock, jr.

Fence Viewers—James Tully, Jas. A. Young, Jos. Milburn, Thos. Hall, T. R. Mann, Andrew Young, J. T. Northey, Webster Blewett, Thomas J. Bell, Robert Northey, Thomas T. Milburn, John Harrison.

Moved by Mr. Davis and Mr. McKee, that the treasurer be instructed to pay the following accounts:—John Chittick, salary, $100.

John Chittick, postage and stationery, $10.

R. J. Edmison, services as auditor, $10

J. A. Young, services as auditor, $10.

Alex. Elliott, refund for dog tax (charged in error) $10.

Wm. Madill (when certified) $3.

A. E. Higgins, digging pitch holes, $1.

D. Tully, repairing plows and scraper, $4.50.

George Milburn, repairing roads, $16.50.

A. Morrison, repairing roads, $11.50. —Carried.

The Council adjourned, to meet again on Monday, April 1st, at 10 o'clock.

Time Extended.

Ottawa, March 8.—The time for deporting the two Sikh women who have been detained at the coast has been extended pending the consideration of the report of the special commissioner of the Immigration Department, F. C. Blair, who went to British Columbia to study the question.

In formation was received in Ottawa yesterday that the Sikhs have lost their habeas corpus case before the British Columbia courts in regard to their detention.

Tuberculosis Convention at Rome.

Ottawa, March 8.—The Government has decided to send two delegates to attend the international tuberculosis convention which will be held in Rome next month. It is understood that in all probability one of the delegates is Dr. D. A. Stewart, superintendent of the Ninette Sanitarium, Manitoba, and the other is Dr. Severin Lachapelle of Montreal.

The conference opens April 14, and will last two weeks.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucuous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifers, acting directly on the mucuous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

FOR FAMILY USE

An Ideal Remedy for Coughs, Sore Throat, Catarrh, Weak Chest.

After having made a special study of the treatment of the throat and lungs for twenty years, Prof. D. Jackson states that in his opinion no preparation for general family use is so efficient, so healing, so certain to cure as Catarrhozone.

As his reasons for making this claim for Catarrhozone, Dr. Jackson says:

"Catarrhozone is free from opium.

"The patient can breathe its rich, balsamic fumes direct to the diseased spot.

"It is a remedy that treats and cures causes—prevents disease spreading.

"Reaches the innermost recesses of the throat, nose, bronchial tubes, and lungs.

"Alleviates chest soreness.

"Stops coughing instantly.

"Prevents bronchial irritations.

"Relieves clogged nostrils.

"Cures sniffles and nasal catarrh.

"Prevents La Grippe.

"Has proven itself a cure for weak lungs, loss of voice, speakers' sore throat, asthma, bronchitis, catarrh, coughs, colds, and winter ills."

Catarrhozone is unquestionably the world's greatest breathable cold, cough, and catarrh medicine, and being free from all drowsy drugs, entirely safe for children and old folks; it makes an ideal family remedy. Recommended by the medical profession and sold by all reliable dealers. Beware of imitations, get "Catarrhozone" only; large size lasts two months, and is guaranteed, price $1; smaller sizes 25c and 50c. By mail from The Catarrhozone Company, Kingston, Ont.

CORNS CURED IN 24 HOURS

You can painlessly remove any corn, either hard, soft, or bleeding, by applying Putnam's Corn Extractor. It never burns, leaves no scar, contains no acids; is harmless, because composed only of healing gums and balms. Fifty years in use. Cure guaranteed. Sold by all druggists, 25c. bottles. Refuse substitutes.

PUTNAM'S PAINLESS CORN EXTRACTOR

THINKING THEMES

By DR. FRANK CRANE

Thrones!

That is one of the most sonorous, sensuous, imposing words in the language. The pluralization of so excessively singular a word as Throne, fillips the imagination.

Thrones!

It implies Kings, a crowd and company of such as are essentially solitary a subduing of unmixable units into a common mass, a demoracy of monarchs, a proletariate of absolute rulers.

Thrones!

Not the emperors themselves, who are after all, mortal men, and pass, as we do, but their seats, which are immortal, and do not pass. All we know of dignity and authority and human glory attaches to the word.

Thrones!

They shall never go away. When the last King is dismissed and the last royal relatives are pensioned, all that ever was a majesty in the word shall remain. The glorious contents of thrones shall pass over into Humanity. What effulgence belonged to one man as a figure-head shall fall to the People in reality. Instead of A Man we shall look up to Man. He who shall confiscate and use all thrones shall be the Son of Man.

AN EXCELLENT MEDICINE FOR ALL LITTLE ONES

Mrs. Ovila Lamarre, Malvina, Que., writes:—"I have found Baby's Own Tablets an excellent medicine and would not use any other for my little one. I think all mothers should keep the tablets in the house." Thousands of other mothers have the same praise for the tablets. They are absolutely safe—being guaranteed by a government analyst to contain no opiate or other harmful drug. They break up colds, expel worms, cure constipation and indigestion, in fact they are good for all the minor ills of little ones. The tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

NOTE AND COMMENT

Hamilton Spectator.

Perhaps the fittest manner in which to treat the violent actions of those English suffragettes would be to incarcerate them in some insane asylum, to remain at His Majesty's pleasure.

Montreal Gazette.

Some of the striking miners in Great Britain are acting as if they were on a short holiday. They think they have the government with them and that their success will come at an early date. It may be well for more than the miners if their anticipations are justified by events. It will be very hard on them if the struggle is prolonged. They laugh at the start, but may mourn at the finish.

BEAUTIFUL EYES

are made beautiful by long, silky lashes and well defined, lustrous brows. Eyes, like diamonds, depend on their setting. The beauties of the face are lost is the eye brows are thin and scanty, and the lashes are thing and scanty. Parisian Lash Lustre grows beautiful, soft, silky lashes. It has done so for society women throughout Europe, and it comes here well recommended to do the same for you. Parisian Lash Lustre is not a dye or colorator, but a scientific preparation for beautifying the eye lashes and brows. Our guarantee goes with every box of Pariaisn Lash Lustre. A two weeks' treatment will bring beauty to your eyes that you have never before possessed. By mail, prepaid, in opal boxes on receipt of price, fifty cents B. V. Marion, sole distributor, Bridgeburg, Ont.

FASHION HINT.

How to Make a Stunning Afternoon Gown.

COSTUME OF SATIN AND NET

For the girl who goes to bridge parties or to club afternoons a gown like the one illustrated is very useful, and the best point about it is that it may be evolved from two or more discarded party frocks. In the present instance an old white satin ball dress forms the foundation, over which is draped black dotted net. Trimmings are of black velvet, ribbon and coral beads.

To Prevent Winter Colds.

When you go out into the cold breathe deeply.

Be sure that your clothing is loose enough to allow of this.

If you don't breathe properly you are immediately subject to colds.

You are liable to colds if you let the system run down.

Eat regularly and don't go for long hours at a time without proper nourishment.

See that the air is pure in the home or your place of business.

By all means take fresh air and a short walk if possible at noontime.

Most of our homes and business places are overheated, and for this reason the outdoor garment should be warm and dresses only of moderate weight.

Girls who wear thin lingerie blouses all winter should see that the chest is well protected against the cold.

Quick friction after a bath in winter is good, and for older persons an alcohol rub after the bath will keep them from catching cold.

Many doctors think that this is the only beneficial way to take alcohol—through the pores.

Always bathe the neck and chest in cold water, followed by an alcohol rub, before changing from a high necked dress to a low cut one.

If you catch cold don't ruffle up and sit by the fire. Put on your sweater, open your windows and go through all the bodily exercises you can remember from your school gymnastic lessons. See how the circulation will start.

Separate School Agitation

Montreal, March 8.—Preparations are said to be under way by local Nationalists to stir up a wide agitation throughout the province regarding the Keewatin Annexation Act, and the attitude assumed by the Quebec members of the Cabinet. A mass meeting, it is said, will be held at the Monument National during the next ten days, at which Henri Bourassa will be the principal speaker. Hon. Messrs. Monk, Nantel and Doherty will be invited to be present and explain their attitude.

A similar meeting is being arranged for the same day in Quebec, where Armand Lavergne will challenge Hon. Mr. Pelletier, Postmaster-General, to meet him.

A series of meetings in all the counties represented by Nationalists who voted with the Government on the Keewatin bill, it is reported, will follow.

Yuletide Quotations.

The quotations given below may be of some value to those who like to accompany a Christmas gift with an appropriate sentiment: With a calendar, "Write it on your heart that every day is the best day of the year;" with a book, "An old friend to trust;" with a pair of slippers, "We must go together;" with a pair of gloves, "We're a pair if ever there was one."

Indians Making Good.

For the first time since the Government has had charge of the Sioux Indians the issuance of rations has been stopped. No subsistence of any kind has been furnished the Indians for three months. For several years a small ration of beef, sugar and flour has been issued to the old and indigent, and this will be done again this winter, but only to those who are infirm. The Indians for the first time have shipped their own cattle to Chicago this year. They have sent several trainloads and have received top prices for them, netting them thousands of dollars.

Some people gossip on such slight excuse that they are almost criminals.

SHE HAD CONSTANT PAIN

Until Relieved by Lydia E. Pinkham's Vegetable Compound.

Dewittville, N.Y.—"Before I started to take Lydia E. Pinkham's Vegetable Compound I suffered nearly all the time with headaches, backaches, and bearing down pains, and had a continuous pain in my left side. It made me sick if I tried to walk much, and my back was so weak that I was obliged to wear corsets all the time. But now I do not have any of these troubles. I have a fine strong baby daughter now, which I did not have before taking Lydia E. Pinkham's Vegetable Compound."—Mrs. A. A. Giles, Route 44, Dewittville, N.Y.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.

British Army Rifle.

London, March 6.—The British soldiers' opinion of British weapons was quoted in the Commons yesterday, when, in defending an attack on the army's equipment, Col. Seely said our army was better armed than any continental army. In the South African war he rode a horse which was killed at 3,000 yards by a Mauser bullet. Our bullet, he believed, would kill at a little longer range.

In seven vital points in a rifle Britain had an overwhelming advantage, and two of these were most vital—rapidity and accuracy. In one point alone—trajectory—continental armies had an advantage; but any soldier would say, "Bother trajectory; give me the rifle that shoots straightest and fastest." That was what the British rifle did.

Declines Representation.

Ottawa, March 6.—That the Province of Manitoba has no desire to be represented before the Supreme Privy Council on the ne temere case, is the tenor of the communication received by Hon. C. J. Doherty, Minister of Justice, yesterday, from the Provincial Government. The other provinces of the Dominion have already made application to the Minister for permission to be represented before the Privy Council when the stated case on the ne temere decree is to be pleaded, and it is understood that all the provinces have already selected their counsel except Manitoba, which has no wish to send counsel to London.

Smash-Up Near Laurel.

Orangeville, March 7.—A rear-end collision took place at three o'clock yesterday morning near Laurel, a short distance from here, between a freight and a stock train. The engineer of the first freight left his train, which carried stock, and came on here for water, and in his absence another freight on the Owen Sound division crashed into it. Three cars were derailed, and a cattleman, whose name cannot be ascertained at present, was hurt. Dr. A. J. Hunter, of this town, was taken to the wreck on a special train. Traffic was delayed several hours.

LIVER LAZINESS

Those Who Lack Energy and are Unsuccessful Should Read This Closely.

"I am only thirty years old, yet for almost two years I have felt more like seventy-five. I have found it difficult to sleep at night and in the morning feel so depressed and heavy that effort was difficult. My hands were always clammy and perspiration on slight effort would break out all over me. It was not unnatural that I should begin to brood over the chance that I should soon be unfit to do my work, and this dread made my sleepless nights perfect misery. After repeated trials of medicine and mixtures Dr. Hamilton's Pills gave me the first gleam of hope. From the very first I could see they were different in action from other pills. They didn't gripe and acted as naturally as if nature and not the pills were cleansing my clogged up system. My spirits rose, I felt much better, the sluggish action of the system gave way to normal activity. Dizziness and headaches ceased, appetite, good color, and ambition to work returned and have remained. I am like a new man and I thank Dr. Hamilton's Pills for it all."

This was the experience of J. E. Parkhurst, a well-known grocery dealer in Jefferson. Follow his advice, use Dr. Hamilton's Pills for your stomach, kidneys, and liver, and you'll enjoy long life and robust good health. All dealers sell Dr. Hamilton's Pills, in yellow boxes, 25c. per box, from The Catarrhozone Co., Kingston, Ont.

Dr. Hamilton's Pills Stimulate Liver and Kidneys

TYPHOON FORMATION.

Light Winds Encircle the Calm Centre of These Fierce Gales.

Contrary to the general impression, a typhoon—that is, what is known to the scientist as a "well formed" one—does not consist merely of a terrific gale of wind with a calm spot in the immediate centre.

On the contrary, next to the centre, which may have a diameter anywhere from two miles to fifty where the calm belt reigns, there is a sort of ring, generally less than a mile in diameter, in which light winds prevail. After this is passed comes the real main body of the destroyer, which may have a total diameter of anywhere from 200 to 1,000 miles, or even more.

The force of the typhoon depends on the depth of the depression of the currents of air, or, to put it in scientific terms, the "barometer gradient." A roughly formed typhoon may be a great deal smaller and shorter in duration than one of regular formation. All typhoons come from the east, so that while the China coast ports are benefited by the knowledge derived from the Philippine station in being forewarned, the reverse cannot occur.

Typhoons increase their strength as they go north, and consequently there may be quite a difference between the power of one in the southern end of these islands as compared with one in the north. It is this feature which makes the hurricanes of the West Indies more to be dreaded than the Pacific typhoons of this latitude.

The velocity of the wind in the typhoons of the Pacific, together with the velocity of travel, varies also to a considerable extent. In the typhoon of 1905, known as the Cantabria cyclone, which lasted from Sept. 22 to Sept. 28, the most severe of modern times, the velocity of the gusts was at one time forty-six meters a second, or 103 miles an hour. And at one period of that week the moving velocity of the scourge was twelve miles an hour. These were unusual figures, however, and are not ordinarily equaled.

Anger Shortens Life.

There are at least two men on this earth who know better than to get angry. One is Prof. Lange of the University of Copenhagen; the other is Dr. Maurice de Fleury, the distinguished French scientist. After the article has been read there may be a great many others ready to make a mental resolve never to get angry again.

Working along separate lines, Prof. Lange and Dr. de Fleury have been investigating the causes of anger and the effect of anger on the human system.

Summed up in its briefest form their verdict is (and both investigators reached the same conclusions) that every time a man gets angry he shortens his life so many minutes, or days, perhaps even years. A great deal depends on the intensity of his anger.

Dr. de Fleury states that "every time we become angry our vitality shrinks so much in proportion for every outburst. After even the most artfully suppressed signs of bad temper our vitality becomes smaller and smaller, until finally nothing is left."

The moral deduced from the advancement of this latest theory in medicine is, of course, that we should never allow ourselves to become angry if we value our health and life.

Wireless Telephone for Ships.

By the use of the wireless telephone passengers on ships will probably soon be able to converse readily across wide stretches of open sea. The new device improves upon the present submarine telephone. The submarine telephone now in use on some of the liners merely picks up the signals sent out by bells sounding under the sea. In the new device it will be possible for a ship to get into communication with a vessel hundreds of miles distant and carry on a rapid conversation. The wireless telephone, operating as it does below the water, is independent of fogs or other weather conditions. The contrivance is to be tried on American battleships and it is believed will soon become a common feature of ocean vessels.

Birds Used Old Clock Springs.

In the Museum of Natural History at Soleure, Switzerland, there is a bird's nest made entirely of steel. There are a number of clock-making shops at Soleure, and in the yards of these shops there are often found lying disused or broken springs of clocks. One day a clockmaker noticed in a tree in his yard a bird's nest of peculiar appearance. Examining it, he found that a pair of wagtails had built a nest entirely of clock springs. It was more than four inches across, and perfectly comfortable for the birds.

Giving an Opinion.

Taddles—I used to think a good deal of Straddles, but—

Waddles—You don't say so! What has he done?

"The other day I asked him to call round and give me his opinion of an article of mine on 'The Impending Crisis.' Well, he came all right, but he brought a little thing of his own for me to hear, and, confound him, he wasted all the evening with his egotistical trash."

Practical Advice.

"Speaking of etiquette, did you send the dollar for those advertised instructions on 'What to do at table?'"

"Yes."

"And what did you get?"

"A slip with one word printed on it: 'Eat!'"

Well Understood.

Blobbs—Do you think we shall ever have a universal language?

Slobbs—We have now when money talks.

Which Route.

Mrs. Fly—I just heard of Mr. Buzzer's death by the plague.

Mr. Fly—Did he get stuck or was he swatted?

An attempt will be made to release the Turret Cape, wrecked in Georgian Bay last fall.

VARICOSE VEINS CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on Varicose Veins. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy & Kennedy, as he had taken treatment from them himself and knew they were square and skillful. I wrote them and got The New Method Treatment. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $12 a week in a machine shop before treatment, now I am earning $21 and never loose a day. I wish all sufferers knew of your valuable treatment.

HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It may suppress the symptoms—our NEW METHOD cures all blood diseases.

YOUNG OR MIDDLE AGED MEN.—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. Consultation Free. No matter who has treated you, write for an honest opinion Free of Charge. Books Free—"Boyhood, Manhood, Fatherhood." (Illustrated) on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes or envelopes. Everything Confidential. Question List and Cost of Treatment FREE FOR HOME TREATMENT.

DRS. KENNEDY & KENNEDY

NOTICE All letters from Canada must be addressed to our Canadian Correspondence Department in Windsor, Ont. If you desire to see us personally call at our Medical Institute in Detroit as we see and treat no patients in our Windsor offices which are for Correspondence and Laboratory for Canadian business only. Address all letters as follows:

DRS. KENNEDY & KENNEDY, Windsor, Ont.

Write for our private address.

Offer For I. C. R.

Montreal, March 7.—At a meeting of the council of the Board of Trade yesterday, the railway committee reported with regard to the application of the Central Railway Co., that the council should approve of the granting of the usual subsidies for that line, which runs between a port in Georgian Bay and Montreal, as it affords another direct route for the export of western products, and because the company offers to give running rights to the Intercolonial Railway over its line from Montreal to Midland and also to Toronto and to Port Stanley via Stratford and London, extensions which the company is authorized to build, thus extending the Intercolonial into many sections of Ontario.

The council approved the committee's report and will address the Minister of Railways and Canals accordingly.

Had to Protect Suffragettes.

London, March 8.—The extent to which the window-smashing raids of the suffragettes has aroused public feeling against them was evidenced by the large force of foot and mounted police necessary to protect them from a great mob, carrying an effigy of Miss Christabel Pankhurst, which gathered outside of the London Opera House, where the militant section of the suffragettes held a meeting last night. The speeches at the meeting were tame and there was a noticeable absence of all incitement to violence.

The public was practically asked yesterday to help the police catch the window-smashers. The commissioner of police issued a circular calling attention to the fact that under the common law anybody is empowered to restrain persons attempting to do such damage and hold them until a policeman arrives, and, similarly, if detected after the damage is done.

Home Rule Bill at Easter.

London, March 8.—In the House of Commons Premier Asquith yesterday said the exigencies of public business would not allow the home rule bill to be introduced before Easter.

Sir J. Lonsdale asked, amid loud cheers, whether the Premier had arrived at that opinion after the South Manchester election. No answer was given.

Alberta Publicity Car at Peterboro March 13th

The Camrose Publicity Club have arranged for a special Grand Trunk Pacific Tourist Car to contain the exhibits of the province of Alberta, to tour Eastern Canada with a view of attracting further settlement to that province.

This car will arrive in Peterboro at 8.10 a.m., March 13th., and will remain on the station siding at the Grand Trunk Depot until 5.35 p.m. the same day.

Everybody interested in this great country are cordially invited to pay this car a visit.

WHY OWN WEBSTER'S NEW INTERNATIONAL DICTIONARY THE MERRIAM WEBSTER?

Because it is a NEW CREATION, covering every field of the world's thought, action and culture. *The only new* unabridged dictionary in many years.

Because it defines over *400,000 Words;* more than ever before appeared between two covers. *2700 Pages. 6000 Illustrations.*

Because it is the *only* dictionary with the new divided page. A "Stroke of Genius."

Because it is an encyclopedia in a single volume.

Because it is accepted by the Courts, Schools and Press as *the one supreme authority.*

Because he who knows *Wins Success.* Let us tell you about this new work.

WRITE for specimen of new divided page. G. & C. MERRIAM CO., Publishers, Springfield, Mass. Mention this paper, receive FREE a set of pocket maps.

Satisfied Policy-Holder

[COPY]

Toronto, March 1st, 1912.

W. H. Hill, Esq.,
Manager,
Sun Life Assurance Co.,
Peterborough, Ont.

Dear Sir,—I wish to thank the Sun Life Assurance Company, through you, for the prompt and very satisfactory settlement of my 15 year Endowment Policy, No. 64345, which matured and was paid me to-day.

I have also a 15 year Endowment maturing to-day in a leading British Company.

The contrast, in the results, in favor of your Company is so marked that I want you to know it, but I am at a loss to know how such a difference could honestly occur. When I tell you that the profits in your Company are **three and one-third** times the profits in the other Company referred to, and this too notwithstanding I paid the other Company $1.15 per year more per $1000 than I paid you, you will realize my inability to comprehend the cause.

This is surely a tribute to the management of the Sun Life, and I am so well pleased I have applied for further insurance with you.

Incidentally, I would like to say a word for your loan privilege. As you are aware, I borrowed some money on my policy, a little over a year ago, which enabled me to obtain a substantial interest in a town site in the Northwest, and you will be pleased to learn that it has already yielded substantial gain and gives promise to pay hundreds per cent., so that it is impossible to fully realize the value of that Policy to me.

I thought as an old Peterborough boy you would be pleased to know I am delighted with the result.

Yours truly,
(Signed) ROBERT E. DOLAN.

Something New!

Redpath Extra Granulated Sugar

In a 5-Pound Sealed Package

Canada's Standard Sugar, Redpath Extra Granulated—refined to absolute purity—packed and sealed by automatic machinery in the 5-Pound Cardboard Cartons shown in the window opposite, is now on sale at all leading Grocers'.

In this new Sealed Package the crystals of Redpath Extra Granulated come to you as pure and fresh as when they left the refinery. Open the package and you have **Canada's finest sugar at its best.**

Besides you have, instead of an awkward, leaky paper bag, a handy covered package in which to keep the sugar while it is being used up.

Each carton, automatically weighed, contains full Five Pounds of Redpath Extra Granulated Sugar.

If you have been in the habit of buying in larger quantities, you'll find the neat case of 24 Five-Pound Cartons a most convenient form in which to buy and keep the sugar.

But of course you can still, if you prefer, get your old favorite, Redpath Extra Granulated Sugar, in twenty or hundred pound bags or in barrels. 3

The CANADA SUGAR REFINING CO., Limited, MONTREAL.

MY GROCER

REPORTS ON RURAL SCHOOLS IN PETERBORO' COUNTY

Inspectors Broderick and Lees make to the County Council of Peter borough their annual reports. In view of the widespread interest in Public School matters these reports are re-printed from the proceedings of the County Council at it's recent session.

PUBLIC SCHOOL INSPECTOR'S REPORT

LINDSAY, Ont., Jan. 24. 1912.

To the Warden and Members of the Peterborough County Council:

Gentlemen:

In accordance with the Statutes governing the duties of School Inspectors, I have the honour to present herewith my Annual Report for the year 1911 on the condition of the Schools in Peterborough West.

During the year I compassed the 240 half day visits required by the Department, of which 80 were made in this side of the Inspectorate. In addition I met 15 of the School Boards almost invariably in the evening so as not to interfere with the work of inspecting the School. In meeting these Boards my invariable plan has been to discuss with them the Departmental Regulations, especially those relating to School Grants and Teacher's Certificates, the sole purpose being, of course, to induce Boards (1) to engage teachers holding Second Class Cerificates and (2) to enter upon a comprehensive plan for the improvement of their school property. These two phases of educational work, the securing of properly qualified teachers and the condition of school property, have in fact occupied more of my time and energy than the inside work of the school room.

It will be seen from the following statment that the condition in Smith and Galway are about the same as they were two years ago. In Ennismore there is marked improvement, while in Harvey conditions are less favourable.

GRADE OF CERTIFICATE

Township	Year	1st Class	2nd Class	Prov. 3rd	Prov. 3rd Ex.	Lim. 3rd	Dist. 3rd Ex.	Temp.	School Closed	Not Rept.
Smith	1910	0	8	3	–	–	1	1	–	–
	1912	1	6	–	1	–	2	1	–	1
Ennismore	1910	2	2	–	–	–	1	1	–	–
	1912	2	3	–	–	–	–	1	–	–
Harvey	1910	–	3	–	2	2	–	1	–	–
	1912	–	1			2	2	1	1	1
Galway and Cavendish	1910	–	–	–	–	1	1	2	1	1
Totals	1910	0	13	3	2	3	3	5	–	–
	1912	1	10	0	1	3	4	5	3	–

The vital question in the management of Schools on both sides of the Inspectorate is how to secure properly qualified teachers.

The schools of Peterborough West may be roughly divided into those of the North of which there are about 10, and those of the South of which there are twenty (20).

Speaking of the latter: The experience of the past has shown that almost, if not quite, every Board that set earnestly about it, succeeded in getting a teacher; and it is certain that several schools are without a teacher because the Trustees made no reasonable effort to get one. With a Normal School at our door, there is absolutely no season why every school in the south of the Inspectorate could not have a Second Class Teacher.

The chief obstacle in the way of getting qualified teachers is the larger salaries now asked by teachers. I submit, however, for your consideration, the following *Comparison of Salaries, Grants and Section Levy on account of Salary*, for the various schools in Peterborough West for the years 1905 and 1911-1912. I have not in this comparison considered the Assisted School Grants because these are variable and not subject to definite regulation. It should be remarked, however, that these have increased a considerable amount during the last two years. The amounts given under the heading "Increase" are the actual amounts which the Sections are required to raise to pay the salary of 1911-1912 over and above that required to pay the salary of 1905. A careful study of these figures will show that the larger salaries now required in order to secure teachers do not really mean any marked increase in the Section Levy.

Township	S. S.	1905 Salary	1905 Govt. Grant	1905 T'nship Grant	1905 Sect. Levy	1911-12 Salary	1911-12 Govt. Grant	1911-12 T'nship Grant	1911-12 Section Levy	Increase
Ennismore	1	$350	$19	$10	$340	$500	$111	$20	$369	$29
	2	375	27	5	370	500	118	10	372	2
	3	325	19	15	340	450	99	30	411	41
		If salary were				500	119	30	411	71
Harvey	1	272	10	98	360	500	175	98	383	23
						450			373	
	2	350	35	122	437	500	188	122	434	3*
		If salary were				550	223	122	449	12
	3	290	14	137	313	475	205	37	307	6*
	4	250	12	83	255	475	173	83	219	36*
	5	270	11	71	188	475	176	71	228	40
	6	260	17	39	204	475	181	39	255	51
	7	240	9	97	136	325	118	96	111	14
	8	300	8	47	337	400	145	47	332	5*
Galway and Cavendish	1	$264	$10	$56	$198	$300	$71	$56	$173	$25
	2	325	17	37	271	475	149	37	289	18
	4	270	30	104	344	400	125	104	379	35
	7	300	12	70	218	350	94	70	186	32*

*Decrease

With the Schools in the North the case is different. These schools are resting under two disabilities. First: If the Section's Assessments be a safe guide the communities are not so well able to pay large salaries as those of the South, and Second: I have found that Normal School graduates have a strong aversion to going to the remote Sections.

There are in the Schools of Peterboro West 150 children in charge of teachers holding the lowest grade of certificate or no certificate of qualification at all. That this condition of things shall continue is unthinkable. There must be a remedy. And I believe the remedy is to be *Consolidation of Schools.* Owing to conditions this is not everywhere possible, but in some districts it is not only possible, but quite easy. In one locality especially four schools could be consolidated and two teachers do the work of four. Such a Consolidation would mean less expense and infinitely better service. Among other advantages arising from consolidation would be the establishing of a Continuation School in which the young-people of the North might be trained for the school of the North. And I am strongly of opinion that until this be done conditions can never be anything like satisfactory. With a Consolidated School doing Continuation Work two years' High School work—or more—could be accomplished by pupils near their own home.

SCHOOL ATTENDANCE: The following extract from the Annual Report will show the attendance at the various schools of the Inspectorate for the year 1911:

Township	S. S.	Enrollment	Average	Percentage	Township	S. S.	Enrollment	Average	Percentage
Smith	1	33	17	51.51	Gal. & Cav.	1	18	8	44
	2	30	18.55	61.83	Galway	2	42	21	50
	3	42	27.10	64.52		4	37	16.37	44
	4	30	16.21	54.03		7	15	6	40
	5				Harvey	1	37	16.67	45
	6	43	22.89	53.23		2	54	26.83	49.68
	7	34	19	55.88		3	24	15.56	63
	8	57	40	70.17		4	19	11.56	60
	9	49	29.40	60		5			
	10	38	22	57.89		6	39	17.83	45.71
	11	35	23	65.71		7	19	7.78	41
	12	38	18.23	48		8	7	3	43
Ennismore	1	30	6	53					
	2	60	38	63					
	3	32	18	56					
	4								

The Ennismore Continuation School continues to do exellent work. The attendance during the year has been excellent, both as regards the enrollment and the daily attendance. In scholarship, teaching ability and management, as well as in the general spirit of their work, the Staff is very satisfactory.

SCHOOL PROPERTY:

I am pleased to be able to report a very marked improvement in the condition of school property during the year.

Six Boards have put out-buildings in proper condition, meeting, as fully as possible, the requirements of the Education Department. Facility of approach, cleanliness, light and absolute privacy have been secured in these buildings.

Four ventilation plants have been installed during the year, and five others are to follow within a few days.

I have the honour to be, gentlemen,

Your obedient servant,

(Sgd.) G. E. BRODERICK,

Public School Inspector.

PUBLIC SCHOOL INSPECTOR'S REPORT

To the Warden and Council of the County of Peterborough:

Gentlemen:

I beg respectfully to submit my report on the work of the schools in the Inspectorate of Peterborough East, for the year 1911.

During the year, there were in operation, in the inspectorate, 71 Rural schools with 75 teachers and 3 village schools with 20 teachers. In the work of supervision, I made 239 visits, 182 in rural schools and 75 in the villages. All the schools were open for at least 6 months, and all except a few of the smaller for the whole school year.

Of the 75 teachers in the rural schools during the last term, 30 had Normal training, 12 had been trained at a model School, and 3 had taken courses at Summer Training Schools. The remaining 30 had received no professional training. These last were distributed as follows: Asphodel, 1; Belmont and Methuen, 10; Burleigh and Anstruther, 4, Chandos, 5; Douro, 3; Dummer, 5; and Otonabee 2. It is safe to say that in Asphodel, Douro, Dummer and Otonabee in most cases, qualified teachers could have been secured, had the trustees been viligent, alert, and willing to pay what, under existing conditions, are reasonable salaries. Some of these sections are now paying to teachers without certificates, salaries which, when the consequent loss of grant is considered, will cost the section as much as if they paid $550 or $600 to qualified teachers. At that rate, it is altogether probable that experienced teachers with certificates could have been secured.

The frequency with which changes of teachers take place is illustrated by the fact that at midsummer last 38 rural schools changed teachers, and at present, in the 75 rural schools in the inspectorate, there are only 23 of the teachers that were there when I had the honor to report to you a year ago.

There has been an encouraging increase in the salaries paid. On the basis of the rate being paid during the fall term of 1910, the average was $400, while in the fall of last year it had increased to $427, there being an aggregate increase of $2429. The averages for townships are as follows:

	1910	1911
Asphodel	$429 00	$491 00
Belmont and Methuen	383 00	391 00
Burleigh and Anstruther	318 00	332 00
Chandos	276 00	305 00
Douro	408 00	448 00
Dummer	401 00	421 00
North Monaghan	456 00	475 00
Otonabee	480 00	505 00

While this increase is encouraging, it is still far short of what will be necessary if we are to secure and retain the services of capable and efficient teachers. This will be apparent from the fact that in 1910, the average for the whole province was $487. nearly a hundred dollars higher than for this inspectorate and somewhat higher than for our best township.

The grants for the year were liberal and may be classified as follows:

Grants on account of	
Certificates	$425 00
Salaries	4,624 00
Fixed Grant ($30 each for 28 schools)	840 00
Accommodation and Equipment	810 00
Rural School Libraries	167 33
Assisted Schools	1,475 00
Continuation Schools	1,002 20
Village Schools	696 06
Total	$10,039 59

The County pays the equivalent of the grants to Continuation and for Accommodation and Equipment amounting to $1,812.20, making a total of $11,851.79.

Five new schools were erected during the year and are now either in use or nearing completion. They are in sections 11 and 13 Methuen, 4 Chandos 6 Douro, and 16 Otonabee. They are all modern in design, well lighted and ventilated and a credit to the sections. The two last mentioned are constructed with basements and are heated with furnaces. In a number of the old schools, improved means of heating and ventilating have been installed during the year. It is encouraging to note the increased attention that is paid to the health and comfort of the pupils. With one or two exceptions, the very poor buildings in the inspectorate have now been replaced with new ones. Little progress has as yet been made in the way of improving and beautifying the grounds, and there are a few buildings that are urgently in need of repairs.

In the villages, there has been during the past few years, marked improvement in the buildings and equipment, and though there is much yet to be desired, conditions are gradually improving.

The school building in the Village of Havelock was partially destroyed by fire on March 16, but fortunately not as to interfere to any extent with the work of the school. It has been completely restored, a new heating system installed, and the older parts of the building renovated so that now it is in better condition than ever before.

I have found the school boards of the villages, for the most part, anxious to promote the best interests of their schools, and thus ready to give careful and intelligent consideration to any suggestions made with that end in view. The result is that conditions are steadily growing better, though not always as rapidly as one could wish.

On the whole I have found the teachers earnest and industrious in the performance of their duties. Most of them, especially the more efficient and capable are willing and eager to receive suggestions and to profit by the Inspector's visits. In my relationship to the teachers it has been my desire to supervise rather than to inspect, and I have tried to so conduct my visits

THE DAILY REVIEW

Burn Occo Scranton Coal

VOL. LXIV., No. 30. PETERBOROUGH, ONT., CANADA, MONDAY, MARCH 11, 1912 TEN CENTS PER WEEK.

SEVEN LIVES ARE LOST IN BAD FIRE AND EXPLOSION AT WINNIPEG FACTORY

Incendiary Fire at Radford-Wright Factory Is Blazing Fiercely When Something Explodes, Blowing Out a Wall — Firemen and Spectators Are Buried In Flying Debris—Several Persons Injured.

Winnipeg, March 11.—Seven persons are dead, one or more are possibly fatally injured, and a number suffered more or less serious injuries as the result of an explosion which followed an outbreak of fire in the rear of the Radford Wright Co., Limited, wholesale sash and door factory, 776 Main street, shortly after 10 o'clock Saturday night.

Captain Dewitt and six of his men of fire hall No. 3 were training hose on the back of the building, where the fire, supposed to be the work of an incendiary, had started in a lean-to annex, when, without warning, the back wall and the great doors opening on a spur track, were blown out, the little party going down in the wreck and ruin, which caught and overwhelmed several spectators and passersby.

The dead: E. Molyneux, fireman, No. 8 fire hall, caught by explosion, back broken, and died in St. Boniface Hospital shortly after midnight; Chas. McPherson, fireman, No. 3 hall caught by explosion and instantly killed; Walter Rowley, teamster, caught by explosion; L. J. Bluett, bartender at Manor Hotel, caught by explosion while passing; Charles Chapman, aged 12, caught by explosion; Clarence Winker, employe C.P.R. dining car department, fell through glass roof of passenger terminal; — Connolly, C.P.R. employe, killed by explosion or a live wire.

The injured: R. G. McDonald, fireman, No. 3 hall, fractured thigh and internally injured; condition serious; Chas. Schram, fireman, No. 3 hall, hand injured; J. McCannon, fireman, No. 3 hall, injured, but not seriously; F. Grant, spectator, injured by flying glass; Tony Schilosky, scalp wound, not serious; Antonio Naranto, spectator, fracture of skull, internal injuries, may die.

McPherson, whose father lives in Edinburgh, Scotland, was aged 29, and had been three years in the department. Molyneux, who had but recently joined, was aged 24, and a native of Listowell, County Kerry, Ireland. Of the other fatalities, Bluett, aged 28, of Napanee, Ont., and engaged to a Winnipeg girl, was passing when caught by the explosion. Rowley was assisting the firemen. Winker, aged 21, is a son of Mr. and Mrs. P. Winker, 577 Strathcona street, this city, having been born in North Dakota, and for three years past had been in the employ of the C.P.R. dining car department, recently being promoted to the secretaryship of the head of the department.

Standing on the zinc platform on top of the steel and glass roof covering the train shed to watch the blaze, which lay just below him just north of the subway on Main street, he stepped forward through the glass to his death on the pavement below.

Connolly, a C.P.R. employe, appears to have been struck by a falling wire on top of the subway. A boy, Clarence Chapman, whose parents live at 289 Patrick street, was found yesterday afternoon after the smoke had cleared away, dead, among the ruins.

"I was standing on a plank directing operations," said Capt. Dewitt, "and had a miraculous escape. McPherson and Molyneux being killed at my feet, while not a man else of our squad escaped uninjured. Tons of bricks and doors fell around us. The men were caught without a chance to escape."

A big crowd gathered when the alarm went in, but were for the most part massed about the entrance to the subway in front of the building, which is situated between the International Harvester Co.'s big warehouse on the southwest corner of Main and Sutherland, and the Stuart Machinery Co.

Smoke was issuing from the lean-to at the back, but until the explosion came the firemen appeared to have the situation under control.

For a time it was a question whether the adjoining buildings could be saved, but the stout fire walls proved sufficient and with the help of the high pressure plant the brigade had the situation under control shortly after midnight, though neighboring buildings suffered considerable loss from water and smoke.

A firebug undoubtedly was the cause, according to those who should know. Manager Radford claims that the furnace was out until Monday, while Building Inspector Rodgers says an incendiary had been working some days in that district. Seven alarms were rung in Saturday night, all bearing the mark of the firebug.

Manager Radford says that less than two barrels of naphtha were stored in open tanks, by permission, 28 feet away from the rear wall. Capt. Dewitt thinks the smoke and heat engendered in the tight building, together with the stock of varnishes and shellac, sufficient cause. The building, four years old, is a total loss, the owner being W. Johnston, now in California, and is fully insured.

Loss to the Radford Wright Co. is $50,000, fully insured. Loss to adjoining buildings is not yet estimated.

HEALTH OF THE QUEEN MOTHER

Special to the Review.

London, March 10.—Queen Alexandra is making a slow recovery from her attack of influenza, and this is causing some uneasiness. As soon as she is able to travel, she will go to a warmer climate. Empress Eugenie has repeatedly offered the Queen-Mother the use of her villa at Cap Martin.

RIFLE RANGE FOR 57TH REGIMENT

The Minister of Militia will bring his estimates before parliament shortly. Rifle ranges will be provided for out of a lump sum for that purpose. The rifle range proposed at Peterborough, which has been approved by the Departmental officer of the permanent corps sent to Peterborough for that purpose, will be still further inspected by the Minister himself. In the event of its being possible to make all the arrangements following the opinions already secured thereon, the opinion of the 57th Regiment Committee appointed for that purpose will be asked. At any rate the best possible offer will be made to the regiment, which it can then take into its consideration. The immense range of the new rifle makes the question of ranges a difficult and expensive one.

ARGUMENT LAID OVER TILL MAY

Argument in the Stated Case on Marriage Law

Special to the Review.

Ottawa, March 11.—The argument in the stated case regarding the respective powers of the Dominion and the provinces on the marriage law, was laid over this morning till the May term of the Supreme Court.

YUAN SHI KAI INAUGURATED

Foreigners Attended, But Legations Were Not Represented.

Pekin, March 11.—In the new Foreign Office yesterday Yuan Shi Kai was formally inaugurated Provisional President of the Republic of China in the presence of a great gathering of delegates, provincial envoys, military and naval officers and other prominent personages. Many foreigners attended the ceremony, but the legations were not represented.

Yuan Shi Kai, who was in military uniform, read a declaration promising faithfully to develop the republic, observe the constitutional laws and retire when the National Assembly appointed a permanent President. The ceremony was solemn—almost pathetic—typical of China's transition.

Most of those assembled were attired in uniform or European dress. The only touch of Orientalism was the presentation of the scarfs to Yuan by two yellow-robed Llamas.

COAL FIND AT EDSON

Seam Thirty Feet in Thickness and Miles in Length

Special to the Review.

Winnipeg, March 11.—A huge seam of bituminous coal has been found near Edson, 130 miles west of Edmonton. It is over thirty feet thick and many miles in length and is crossed by the Grand Trunk Pacific and Canadian Northern Railways.

A SLIGHT RUNAWAY

A runaway occurred about 5.30 on Saturday afternoon on George street, when a horse attached to a cutter tore down the main street at a lively gait. No one was in the vehicle, which turned on the side, shortly after the commencement of the run. Save for a little harm to the cutter no harm resulted.

WORLD'S COAL SUPPLY

The best available coal statistics show the coal production of the world to be approximately;

	Tons.
United Kingdom	260,000,000
British possessions ...	40,000,000
United States......	320,000,000
Rest of the world......	274,500,000

Anglo-Saxon countries are producing the bulk of the world's fuel supply, and together retain shipping and industrial supremacy.

BOURASSA AND SUPPORTERS HOLD MEETING IN MONTREAL

Resolution Is Unanimously Adopted Demanding That the Rights of the Minority Be Observed and Schools Granted In Keewatin to Roman Catholics—French-Canadians Alone to Blame, Says C. H. Cahan.

Montreal, March 11.—The inalienable rights of minorities in all parts of Canada to have separate schools was the message sent forth in the form of a resolution unanimously adopted at a mass meeting of French-Canadians held Saturday night at the Monument National.

Although the opening speakers declared that the gathering was not to be one of protest and that there were to be no diatribes, Henri Bourassa, the chief orator of the evening, took strong exception to the attitude of Hon. Messrs. Monk, Pelletier and Nantel.

It was not sufficient, he declared, for these gentlemen or their followers to point to Sir Wilfrid Laurier and the Manitoba incident of 1896 to justify themselves. Two wrongs did not make a right, and even granting that Sir Wilfrid had betrayed his compatriots in the Manitoba matter, this could not be urged as an excuse to cover the members of the present Government in the betrayal of the rights of a French-Canadian minority.

There was a huge crowd present and attacks upon the Government "which was about to betray the rights of the French-Catholic minority" caused constant roars of applause. The mention of the name of Monk, Pelletier or Nantel brought storms of hooting until finally Mr. Bourassa arose and stated that it would perhaps be well to withhold such violent denunciation until the bill had passed its third reading and the final attitude of the Ministers in question had been more fully debated and explained.

Mr. Armand Laverge also spoke.

Somewhat of a sensation was caused by C. H. Cahan, who declared that, if the rights of the minority were about to be violated, the French-Canadians had only themselves to blame for it, as Laurier, by the Greeway precedent, had inserted the thin edge of the wedge, yet they had ever since continued to give him magnificent support at the polls.

The resolution adopted reads:

"The Northwest Territories have been acquired, administered and developed with public funds taken from the federal exchequer and contributed by Canadian ratepayers of all races and creeds.

"In 1875 the principle was laid down, by the Parliament of Canada, that throughout the length and breadth of those territories, the minorities, either Catholic or Protestant, would be entitled forever and as a matter of right, to separate denominational schools.

"That principle was acknowledged and confirmed either in whole or in part, in the Yukon Act and in the laws creating the Provinces of Alberta and Saskatchewan.

"Consequently this meeting, composed of Canadian citizens, loyal subjects of His Britannic Majesty, declare and affirm:

"That in annexing a part of those territories to the Province of Manitoba, or to any other province, the Parliament of Canada is in duty bound to keep the pledge solemnly given in 1875 to all the citizens of Canada and safeguard in their integrity the rights of such minorities as exist or may in the future exist in the annexed country;

"That any violation of that pledge and betrayal of that duty, would constitute a grave breach of the federal pact and deserve the condemnation of all Canadians, willing to stand by national honor, equity and justice."

French Need Not Worry.

Montreal, March 11.—Mr. G. Langlois, M.P.P., is still endeavoring to show his compatriots that they need not bother themselves about Keewatin before greatly improving their own schools.

"For our part," says Mr. Langlois, "we have always repudiated the campaign against the old chieftain because of the Laurier-Greenway arrangement, and we do not regret the present situation.

"The ten French-Canadians in Keewatin will be under the same law as Manitoba, and will have much better schools than those of St. Andre de Kamouraska. Our compatriots in the French parishes of Manitoba have had first-class primary schools since 1894, and although the situation of the French-Canadians in Winnipeg is a good deal less satisfactory, yet tact and good-will and an absence of hotheads will bring about in time an absolutely acceptable situation.

"If our people are really desirous of improving the school situation let them begin at home."

Will Do No Good.

Montreal, March 11.—La Patrie, in a leading article on Saturday, warns Bourassa and his co-agitators that their talk will do no good to the minorities in the other provinces.

"What is there remaining to-day of the Riel movement?" asks La Patrie. "The campaign in this province over the Manitoba schools, the Transvaal war, the school question in Alberta and Saskatchewan, the naval bill and the rest. Who can say with their hand on their heart that the French groups in the other provinces have profited by all this agitation?

"As a matter of fact, their position has become more difficult and more precarious from year to year. Are we stronger or more respected for all this agitation? Has French influence made any gains? We put these questions in all sincerity to those who reflect and who love their country."

You Can Thank Advertising

NEXT time you step into the corner store, take a look around. Of all the articles on the shelves, how many were on your shopping list five years ago? Make it ten years, and you will find that most of the things you buy to-day—and could not do without—were not even made then.

You men and women who buy things, let this sink in. You are better men and women because of advertising. You eat more wholesome food. You wear better clothes. Your home is better furnished. You have cleaner and more sanitary houses. You read better books and magazines. You seek more healthful amusements.

Your whole standard of living has been raised—and why? Because the men who make these better things are telling you that you will be more comfortable, happier and healthier if you use these higher grade goods.

It is advertising that makes it possible for you to buy "the best" right at your corner store. It is advertising that encourages the inventor to make new comforts and new utilities and enables you to buy them almost immediately after they are perfected.

J. J. Hill says this "high living" costs more. True for J. J.—but it is worth more. And leaving the cost aside, do you want to go back to buying jam out of a pail, oatmeal out of a barrel, raisins out of sticky boxes, or tea exposed in an open chest?

Do you regret the money you paid for a Player Piano?

Would you forego the new style razor?

Isn't a Tungsten worth a thousand candles?

Would you now be enjoying these if enterprising manufacturers had not told you about them in their advertisements?

Isn't life brighter because we have new and higher standards of living?

Let us thank advertising for it.

Advice regarding your advertising problems is available through any good advertising agency or the Secretary of the Canadian Press Association, Room 503, Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write if interested.

BUSY WEEK IN SIGHT

Many Contentious Things in Store For Parliament.

Third Reading of the Boundaries Bill Will Be Made the Occasion of Another Stand on the Part of the Nationalists — Queen's University Bill May Cause Debate—White to Present Budget Thursday.

Ottawa, March 11.—The Manitoba Boundaries bill will be up for its third and final reading on Tuesday. The debate has from the start been dramatic and exciting, and the third reading promises to be no exception. With ordinary measures the third reading is purely formal, but the Liberals have shown such hostility to this measure that it is understood they will put up a last kick on Tuesday. It is possible also that the Nationalist bolters may stir up some excitement.

It is said that the amendment which was defeated in committee on Friday in regard to the protection of minority rights may be brought up again.

Outside of the boundary question it promises to be a lively week. Today the bill to nationalize Queen's University will be before the House. Strong protests against the measure have been received at Ottawa from the Hebrews of Montreal, Toronto and Winnipeg. There is likely to be an all-day fight on the bill.

Hon. W. T. White, Minister of Finance, has been confined to his house with a severe cold, but hopes to be sufficiently recovered by Wednesday not to delay the presentation of the first budget of the new Government.

Thursday the House will start morning sittings and even Saturdays will be appropriated. With the boundary bill out of the way all the contentious measures will be disposed of.

Both sides are anxious to complete the session by the end of the month and with morning and Saturday sittings there should be no trouble finishing in three weeks.

PROBABILITIES

Fine to-day, followed by strong easterly winds, with snow late tonight and on Tuesday.

AGAIN ASK FOR ACCESS

Premier Borden Receives Another Telegram From Saskatchewan.

Regina, Sask., March 11.—Communications between the Provincial Government and the Ottawa Government continue to pass relative to Saskatchewan's claims to access to Hudson Bay, and on Saturday Acting Premier Calder despatched the following telegram to Premier Borden in reply to Premier Borden's wire of last Thursday, setting forth the position taken by his Cabinet towards the claims put forth by the Scott Government:

"To Hon. R. L. Borden, Prime Minister, Ottawa:

"Your telegram of 8th inst. received. The Government of Saskatchewan does not now and never did consider the resolution of 1908 and Sir Wilfrid Laurier's statement referred to in your telegram as a final disposition of claims for partition of Hudson Bay territory. In point of fact, notwithstanding said resolution, conferences have been going on since your Government assumed office with other provinces concerned, thus showing the proposed settlement of 1908 was not considered final by you.

"Again urge justice of Saskatchewan's claims upon your consideration as sent out in our memorial and my telegrams. As to access given Ontario to Port Nelson, I note that press despatches state that your Government has declared its intention to transfer to western provinces the public domain within their respective limits. In that case if your Government has finally decided not to give effect to our claims, set out in our memorial at the very least the question of right of way should be settled now. Owing to increase in our population and in our grain production our people have a direct interest in Hudson Bay ports. Before long it is likely that several railways will be built to the bay, one or more of which may be state owned.

(Signed) "J. C. Calder."

Branching Out

Mr. J. W. Boorman, the well known East City baker and confectioner, will open another store at an early date on the corner of Aylmer and McDonnel streets. Mr. Boorman will use one side as a confectionery store and the other as an up-to-date ice cream parlor.

BODY FOUND IN OUTHOUSE

Mysterious Death of Laborer—Foul Play Suspected.

Hamilton, March 11.—In the death of John Quigley, a laborer, aged 27 years, whose bruised body was found in an outhouse at the rear of 261 Wellington street north, at 9.20 yesterday morning, the police suspect foul play. According to physicians, the man, when found by John Coston, had been dead for many hours. When Coston tried to open the door it was locked on the outside, and, when it was smashed in Quigley was found squeezed on the floor, lifeless.

An inquest, which was opened Saturday afternoon, disclosed the fact that there was a large bruise on his arm and the skin was scraped, and the left knee was also badly bruised. Other parts of the body were in normal condition.

It has been learned that Quigley left the Norton Manufacturing Co., where he was employed, early Saturday afternoon. He met two men, Alex. Clark and David Gillfinnan. They were all indulging in intoxicants. They left the Quigley flats in the afternoon. No one could be found who saw Quigley on Saturday night.

The enquiry into the peculiar circumstances in connection with the man's death will be resumed some time during this week. Quigley was unmarried and roomed at 353 Wellington street north.

Two Russians Wounded.

North Bay, March 11.—A row in the Italian quarter Saturday night between Russians and Italians, resulted in a stabbing affray in which two Russians were seriously wounded. One of the injured men is in the hospital with a gash sixteen inches long in his back. He will recover if no complications occur. The other Russian was stabbed near the heart, but the knife struck a rib and did not penetrate far enough to be fatal.

The Rusians claim they went into an Italian house looking for lodgings and were immediately attacked without cause. Two Italians were identified and arrested.

The prisoners arrived here recently from Toronto, and are looked upon as dangerous characters.

Every man is a preacher, and his congregation is composed of those with whom he comes in intimate contact every day.

SOUR RISINGS FROM STOMACH

Those Who Experience Fullness and Pain After Meals, Stomach Disorders, and Indigestion, Should Read Below.

"When I was working around the farm last winter I had an attack of inflammation," writes Mr. E. P. Dawkins, of Port Richmond. "I was weak for a long time, but well enough to work until spring. But something went wrong with my bowels, for I had to use salts or physic all the time. My stomach kept sour, and always after eating there was pain and fulness, and all the symptoms of intestinal indigestion. Nothing helped me until I used Dr. Hamilton's Pills. Instead of hurting, like other pills, they acted very mildly, and seemed to heal the bowels. I did not require large doses to get results with Dr. Hamilton's Pills, and feel so glad that I have found a mild yet certain remedy. To-day I am well—no pain, no sour stomach, a good appetite, able to digest anything. This is a whole lot of good for one medicine to do, and I can say Dr. Hamilton's Pills are the best pills, and my letter, I am sure, proves it."

Refuse a substitute for Dr. Hamilton's Pills of Mandrake and Butternut, sold in yellow boxes, 25c. All dealers, or The Catarrhozone Co., Kingston, Ont.

UNION LABEL

CHILDREN ON THE STREETS

The Children's Aid Society, at Ottawa has decided that all children found unattended on the streets late at night will be taken under the Neglected Children's Act and brought before a magistrate.

It is too true that children, both known and unknown to parents spend too much time on the streets, when they should be at home. The down town attractions are many and often the means by which young children cultivate habits which blight their lives.

To a very large extent, parents are to blame for these conditions which prevail in allowing their children on the streets at night. There are lessons to be learned and other work to be done and the parents should see to it that this important development of the child is not neglected. The question is not one to be solved altogether by punishment for many parents do not know how to punish. They fail to appreciate that they too were at one time children and had the same path to trod as the children of today and probably their temptations were not so many. Punishment prevails in some cases while in others it has but one effect and that is to make the child sulky and obstinate and as the boy or girl grows older, one step leads to another. The boy cultivates the companionship of his fellows who frequent the bar rooms and other places which are even more destructive and the girl may be found on side streets "playing with fire."

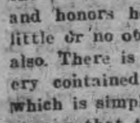
If children are to be saved from present and future temptations the first lessons must be taught in the home. The mother and father knows well enough what confronts their children and the explanation is not found in the use of physical punishment at least not when the children have arrived at that age when they are able to partially understand things.

LOVE, HONOR AND OBEY

For some weeks past there has been raging a newspaper discussion over the "obey" clause in the marriage ceremony, and there have been some curious contributions to the debate. There seems to be a great deal of unnecessary and useless agitation over the word "obey." In matrimony, as in other mundane affairs, a modicum of common sense solves most problems which inevitably arise from time to time.

In the marriage ceremony the woman promises to "love, honor and obey" her husband, who, for his part also promises to cherish and support the wife, and the woman who loves and honors her husband will have little or no objection to obeying him also. There is no suggestion of slavery contained in the word "obey," which is simply a recognition by the woman that the man is the head of the house, and so long as the husband is the provider and mainstay of the family, he ought to be acknowledged as the head, and as such obeyed. If he does not do so it is not likely that the wife will either love, honor or obey him. The average man is not likely to exact unfair or humiliating obedience from his wife, for many reasons. Affection, a sense of fairness, pride, and a desire for quiet life will, either separately or collectively, impel him to insist upon obedience only when he deems it best for all concerned and a necessity.

To raise all this hullabaloo over a promise upon the part of the woman to "obey" the man she is wedding seems a waste of time, space and energy. The husband and wife who are doing their day's work faithfully have no time to wrangle about the word "obey" because they are partners who cheerfully co-operate. If a woman does not want to concede authority and yield a sane obedience to the provider of the home, then let her exchange places and support the man.—Brockville Times.



Wood's Phosphodine, *The Great English Remedy.* Tones and invigorates the whole nervous system, makes new Blood in old Veins. *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhœa, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. NOTE AND COMMENT

Detroit Free Press

A 74 year old millionaire who married a 20 year old girl in New York a few weeks ago, is dead. And yet some people say that there is no such thing as luck.

Hamilton Herald

A New Jersey judge has decided that a wife has a legal right to go through her husband's pockets. But this decision is balanced by another one given by a Chicago judge to the effect that a husband who is obliged to do housework has the right to get drunk in order to forget his humiliation.

London Advertiser

Miss Sylvia Pankhurst, who is in this country, says that the militant suffragists broke windows because these tactics touched Englishmen in a tender spot—the pocket. The British government will now attempt to seize the funds of the militant suffragist organization. The pocket argument works both ways.

Hamilton Herald.

Mr. Lemieux, in attacking the Nationalist ministers yesterday in the debate on the Manitoba boundary settlement, had fair game for his ammunition. He made the most of his opportunities. And it must be admitted that the Nationalist ministers deserved the castigation he gave them. They have played a double game, and it is good to see such tactics shown up. But Mr. Lemieux himself and his revered chieftain are not innocent of the same sort of politics.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucuous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifers, acting directly on the mucuous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

Alberta Publicity Car at Peterboro March 13th

The Camrose Publicity Club have arranged for a special Grand Trunk Pacific Tourist Car to contain the exhibits of the province of Alberta, to tour Eastern Canada with a view of attracting further settlement to that province.

This car will arrive in Peterboro at 8.10 a.m., March 13th., and will remain on the station siding at the Grand Trunk Depot until 5.35 p.m. the same day.

Everybody interested in this great country are cordially invited to pay this car a visit.

WILL ABOLISH LIFE SENTENCE ON WOMEN

London, March 11.—Objection to the death sentence on women is spreading to England, where the principle of capital punishment has been for a long time condemned by an influential section of the community. Great advances along humanitarian lines have taken place during the last two or three years, a change that has been reflected in the amelioration of prison conditions and a more discriminating treatment of the habitual offender.

Public attention is soon to be called to the position of women under British criminal law in regard to the severest penalty it can inflict. In a bill which Llewellyn Williams will introduce shortly into Parliament a case will be made out for the amendment of the law so that in certain circumstances a woman who kills her infant child shall not have to undergo the formality of being sentenced to death. A great deal of unnecessary anguish is caused to poor girls and women during the process of conviction for murder and sentence of death, as everyone regularly concerned in the courts knows they will not be hanged.

The proposed Act of Parliament, if it becomes law, will also raise the age at which a prisoner can suffer the death sentence from sixteen to twenty-one.

THE MARKET

Latest Quotations in Grain Dairy Products, Live Stock Etc.

CHICAGO, March 9.—Short sellers of wheat trapped themselves to-day and were in a stampede at the last. Rumors of big export sales made bull sentiment rampant. Latest figures were 1⅜c to 1¾c higher than last night. Corn scored a net gain of 1¼c to 1⅜c; oats finished ⅜c to ¾c up, and hog products at 7½c to 22½c advance.

The Liverpool market closed to-day on wheat ¼d to ⅜d higher than yesterday, and on corn ¼d to ⅜d higher. Berlin wheat closed ½c higher, Budapest ⅜c higher, Antwerp unchanged to 1¼c higher.

Liverpool Live Stock.

LIVERPOOL, March 9.—John Rogers & Co. cabled to-day that the few cattle for sale in the Birkenhead market met a very slow trade. There was a rise in prices from 1-4c to 1-2c per pound, and States and Canadian steers may now be quoted from 15c to 15 3-4c per pound.

Panama Canal Tolls.

Washington, March 11.—The bill for the government of the Panama Canal Zone and the operations of the canal was agreed Saturday by the House committee on interstate commerce. It would give to the President authority to fix tolls within certain limitations, a maximum of $1.25 per ton being prescribed, with a minimum not below an amount sufficient to maintain and operate the canal. No preference would be given to American ships.

Kingston Tactical Society.

Kingston, March 11.—A society was formed among the officers of all services, Kingston garrison, known as Kingston Tactical Society, originating from Major G. V. Hordern, general staff officer of the third division. The object of the society is to assist officers in preparing for examinations and to stimulate interest in study of tactics generally.

Chest Inflammation

Suffered From a Heavy Cold, Pleuritic Pains in Side — Constant Coughing.

"Anyone that goes through all that I suffered last winter will appreciate the value of a remedy that cures like Nerviline cured me." These are the opening words of the solemn declaration of E. P. Von Hayden, the well-known violinist of Middleton. "My work kept me out late at night, and playing in cold drafty places brought on a severe cold that settled on my chest. I had a harsh racking cough and severe pains darted through my sides and settled in my shoulders. I used different liniments, but none broke up my cold till I used Nerviline. I rubbed it on my neck, chest and shoulders, morning and night, and all the pain disappeared. Realizing that such a heavy cold had run down my system, I took Ferrozone at meals, and was completely built up and strengthened. Since using Nerviline I have no more colds or pleurisy, and enjoy perfect health."

Nerviline CURES CHEST COLDS

It's because Nerviline contains the purest and most healing essences and medicinal principles, because it has the power of sinking through the pores to the kernel of the pain—these are the reasons why it breaks up colds, cures lumbago, stiffness, neuralgia, sciatica, and rheumatism. Refuse any substitute your dealer may suggest—insist on Nerviline only. Large bottles, 50c, trial size 25c. Sold everywhere, or The Catarrhozone Co., Kingston, Ont.

OBITUARY.

Mr. Thomas Patterson, of Walkerton, formerly of Havelock, passed away on Saturday morning last. The deceased was seized with a paralytic stroke. The remains were brought to Havelock on Monday night, the family and friends travelling in a special car, which was provided by the C.P.R. The funeral took place from the residence of Mr. Ward Patterson to the Methodist church, where services were conducted by Rev. J. Wilson, of Walkerton. The remains were taken to the Maple Grove cemetery.

The deceased leaves to mourn his loss a wife and seven children, Harold, of Melville, Sask., Elmo, of Toronto, and Clare, Ralph, Blanche, Douglas and Helen at home.

Miss Olive May Quakenbush, the little daughter of Mrs. Herbert Quakenbsh, passed away on Monday night last. The funeral took place on Wednesday afternoon to the Maple Grove cemetery.

CHILDREN IN PITEOUS PLIGHT

Six Children Rescued by Childrens' Aid Society

Belleville, March 11.—Mr. W. H. Wrightmyer, agent for the Children's Aid Society, brought to the Shelter from Campbellford on Wednesday, six children named McFaul, who ranged in age from 11 months to 13 years. All were in rags and suffering from loss of food, from which cause the baby is so ill that its recovery is doubtful. The story, as told by Mr. Wightmyer, is a sordid one. An unfaithful wife, whose husband left her for that cause, children consigned by the mother to the care of a friend named Frederick, while she went to Peterborough to earn money to support her offspring. That friend with her husband and no less than six children of her own, and 14 human beings—for some time 15—huddled into a room about 12 by 14. Truly, one half the world does not know how the other half lives, or shall it be said, exist

TYPHOID FEVER AT PORT HOPE

Many of the 27 Patients Are in Serious Condition

One Doctor Refused to Attend Patient Till Assured of His Fees

Port Hope Guide—The typhoid fever epidemic in town is becoming quite serious and at the request of a number of citizens, Dr. Amyot, Provincial Analyst, was sent down from Toronto yesterday, to meet with the Board of Health. There were present at the meeting, W. G. Stevenson, chairman Mayor Mulholland, James Sape, James Caldwell and J. L. Thompson.

The meeting was called to discuss ways and means of arriving at the cause of the fever and to take steps to stamp it out. At the present time there were twenty-seven cases of typhoid fever and the condition of many of the patients was serious.

Mr. H. T. Bush was present at the meeting and pointed out that the townspeople were much alarmed about the situation. He had no desire to condemn the water but if an analysis were made two or three times a week, it would be greatly appreciated by the uneasy ones. Eight employes of the Standard Ideal were sick with this fever; one of the number had died, and two others were in a very serious condition. The men of the factory had become greatly alarmed over the situation and it was with difficulty that he had prevented a deputation from going to Cobourg and employ a lawyer to investigate the matter.

While the water might be absolutely pure, Mr. Bush considered the appearance of it very bad. In his own house it had been red, brown, and all colors. He thought it important that the milk and water be examined regularly. Mr. Bush then referred to one of his employes, a stranger in Port Hope, who was taken with the fever. A local doctor attended him, but when he learned that the patient was in straightened cuircumstances, he stopped his visits. The patient had several severe hemmorhages, and when the employes of the factory learned of the conditions, they called upon the doctor, but guaranteed his fees before he would attend the unfortunate man. To-day that poor fellow's condition was very serious, due probably to neglect. It was a serious state of affairs, and no time should be lost to make a thorough investigation.

Mr. Thompson stated that Dr. Aldrich had said the typhoid epidemic was caused by the recent additions to the system at the beach. As proof of this statement he pointed out that in his own house, every one, with the exception of the maid, had the water boiled before using. The maid has contracted the fever, and has since been sent to the hospital in Peterborough.

Mr. Stevenson thought that Dr. Aldrich was always too anxious to condemn the water.

Dr. Dickinson was satisfied that the water was all right. It was the well water that should be examined.

Dr. Amyot's advice to the Board was to have the citizens not to eat or drink anything which was not cooked. The analysis of the water might show it to be all right, but it was the occasional contagion which did the damage. He also recommended that the town water be chlorinated at once. The water in the lake had seven or eight parts of chlorine per million, while the water in Port Hope basins had fifteen. It had been reported that the large tank was open at the top, and some person had said that dead birds had been found in this tank. This, while not harmful, was disagreeable, and he thought it would be an easy matter to have the tank covered.

A resolution was passed, approving of the regulations as submitted by Dr. Dickinson and the same will be forwarded to the town solicitor, requesting him to embody them in a milk by-law to be passed by the Town Council.

After a woman has passed her thirty-fifth birthday, she really should stop saying, "When I am married," and say, "Had I married."

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

Is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

Some Causes of Eyestrain

Eyestrain is the most common form of headache in children, and may come without apparent reference to any over-use of the eyes. It may be located near the eyes or in parts of the head away from them. It warns us that too great tension is being put on some part of the nervous system. A slouching, lounging posture in reading may bring about marked eye strain. The head bent forward with the chin resting on the breast obstructs the flow of blood from the head. Any congestion of lids or inflammation however slight, itching of the lids, burning of the eyeballs, and styes, singly or in crops, should call your attention to the necessity of careful and efficient examination into the refractive condition of the eyes.

Our Optical Parlor is up-to-date in every detail. All our work is guaranteed, and all lenses are ground on the premises. Consultation free.

GIRLS COME AS DOMESTICS

A scarcity of female help is felt in Peterborough these days as will be noticed by the want "ads" appearing in the papers soliciting the services of girls in the local manufacturing establishments. In conversation to-day with Mr. Howson, the immigration officer, the Review inquired if the expected arrival of a number of Old Country girls would in any way alleviate these conditions. The answer received was to the effect, that the girls coming from the Old Country were supposed to be placed out at domestic service on their arrival and therefore it would scarcely be in accordance with regulations to locate them in manufactories. The girls themselves, however, he said evinced a preference for work in factories, if the wages were satisfactory. They seemed to prefer the regular hours of service, and having their evenings to devote to their own duties or to recreation.

The wage which they receive in remuneration for factory services is quite often more substantial than for domestic work. It seems that there is a movement on foot for a demand for larger wages for domestics. In Toronto, general servants receive on an average $20 to $25 per month, while locally the scale is from $15 to $20.

When a young couple come from the Old Country to Canada, they naturally prefer not to be separated when being given employment. Hence if the two be located on a farm they will be content to receive a wage of about $25 to $30 altogether, rather than be separated, the woman performing household duties and the husband out-door farm duties.

MINSTRELS TO BE REPEATED

Bugle Band Performance at the Grand To-morrow Night

The minstrel show given by the Bugle Band boys under the direction of Mr. Robert Beach in the recreation room of the Armories last Friday night, and which drew so large a crowd that only about half the number who came to witness it, could be accommodated, will be repeated to-morrow night in the Opera House. Col. the Honorable Sam Hughes is expected to be present, and considering this fact, as well as the excellence of the show itself, it is anticipated that the boys will be greeted with a full house to-morrow night.

NE TEMERE DECREE

Moose Jaw, Sask., March 11—The community is highly excited by an enforcement of the Ne Temere decree here.

A young couple who had been married by an Anglican minister were called on by a Catholic priest. The wife who was a Catholic, he addressed as "Miss" and assured her she was not married.

She was in such agony that the ceremony, according to the [illegible] church, was hurriedly performed.

COAL CAREFULLY SCREENED

BOTH MEN WILL RECOVER

Were Painfully Scalded While at Work at Boiler

The many friends of Mr. Sylvester Sullivan, who along with another employe of the Canadian General Electric Company, Mr. Fred Barrett, was scalded while at work Saturday morning, will be glad to learn that his condition is greatly improved and that his injuries are not of a serious nature.

It appears that Saturday morning the two men were repairing a defective boiler when some hot water escaped and scalded both of them. Mr. Barrette's injuries were comparatively slight, but Sullivan's burns were extensive, though not deep, and he was removed to St. Joseph's hospital. At the time Sullivan's injuries were thought to be serious, but Dr. Greer, who is attending him, states that he is doing very well and is out of all possible danger.

WAS ON THE WRECKED TRAIN

Mr. Clayton Chowen Was Fortunate in Escaping Serious Injury

Mr. Clayton Chowen, son of Mr. Richard Chowen, Stewart street, was aboard the C.P.R. passenger train which was wrecked between Ottawa and Hull Friday morning. His parents have received word that his injuries were not of any great extent.

WHO'S COMING AND GOING

Messrs. E. V. and S. C. Warne are in Toronto to-day on business.

Miss Lottie Davis, spent the week end visiting friends in Toronto

Mrs. E. H. Bartlett, 216, London street, will not receive to-morrow.

Mrs. R. E. McKee, Walton street, will not receive to-morrow.

Miss Lena Richardson, of Toronto, spent the week end at her home in the city.

Mr. Wm. Quinn, 265 Burnham street, east city, left for Vancouver to-day.

Mr. Herb Campbell, who is confined to Nicholls Hospital is recovering as rapidly as possible.

Mrs. R. F. Downey, 298 Boswell avenue, will not receive to-morrow nor again this season.

Mrs. A. McFarlane, 519 Homewood avenue, will receive Tuesday afternoon, March 12th, and not again this season.

Mr. and Mrs. Percy Reid, accompanied by Mr. Reid's mother, left last week to spend a few months in California.

Mr. Everett Stewart, of J. T. C. Lang's clothing store, left to-day to accept a good position in a leading gent's furnishing establishment in St. Catharines.

Mr. Harry Long left on the noon G.T.R. to-day for Irma, Alta. He will travel via Chicago and St. Paul, and will spend the summer on his ranch at Strawberry Plains, Irma, Alta. His nephew, Gordon, accompanied him on his way to Edmonton. The latter will stay with his uncle for a few days at Irma, before proceeding to Edmonton.

MIDGETS TO MEET TO-NIGHT

There will be a meeting of Jack Thirnbeck's Midgets at the Brock street Rink at eight o'clock to-night. A practice game has been arranged for to-morrow night with the Northern Lights, one of the other challengers for the Clarke-Graham Cup. It is important that all the members of the Midgets be present to-night as the team for to-morrow night's game will be selected and there are also some other matters to discuss.

SPORT TALK

The Lindsay travelers will play an exhibition game of hockey next Friday night, according to present arrangements against the drummers of Peterboro [illegible] to be handed over to the Ross Memorial Hospital. This game promises to provide untold amusement for players and spectators alike, and as Peterboro will have a large number of travelers to pick a good team from it is expected that they will have a fast line-up. However, Manager "Larry" Blackwell of the Lindsay drummers stated to a Warder man this morning that his aggregation of puck-chasers will give the visitors a stiff argument. They will probably be the following: goal, Alex. Ross; point, Archie Holmes; cover point, Jack Gray; forwards, L. Blackwell; H. Woods, F. Carew and — Keslick.

Already the Peterboro travelers are dieting on Postum and Quaker oats. Watch for further announcements — Lindsay Warder.

Preston Intermediates will play an exhibition game in Mount Forest on Wednesday.

Winnipeg Victorias with four goals lead should manage to hold the Allan Cup even if the second game is under O.H.A. rules.

Ottawa may take a trip to the Coast and play a series of exhibition games after their trip to New York.

330th Bargain Annex Event — The CRESSMAN Company Limited — Wednesday, Mar. 13, 1912

INDIAN SERVED WITH LIQUOR

Judgment Was Reserved by Magistrate Till Thursday

Hanlan Howard a Hiawatha Indian was arrested in an intoxicated condition on Saturday afternoon. He lives on the government reserve and gets his yearly pension from the government. He pleaded guilty to a charge of being drunk, in Police Court this morning, and Magistrate Dumble reserved judgment till Thursday morning.

In the witness box, Howard told of about getting whiskey at the Grand Hotel, and the Palace Hotel from the bartenders.

There will likely be further developments about Thursday morning, when Howard comes back to hear His Worship's judgment.

A local young man was fined $2 and costs, amounting to $4.60, in Police Court this morning for having been drunk on Saturday.

DAMAGE TO FRAME HOUSE

Early Morning Blaze Made Perry St. People Homeless

Three Alarms Were Answered by the Fire Department

The Fire Department got an early start this week and from all appearances so far, have had a busy time. They attended no less than three fires during the morning. The first call, at 3.45 a.m., came from box 15 at the corner of Perry and George streets, and upon arrival, the Fire Department found a frame house, No. 183 Perry street, on fire. The house is situated half-way between George and Aylmer streets, and when the firemen reached the scene of action, the upper portion of the building was burning furiously and the residents in that locality were much alarmed for fear the fire should spread. The department however, were able to confine the fire to the building, and much to the credit of the firemen and the Chief, the building was not burned to the ground, only the roof and attic suffering to any extent. The damage to the building will not exceed $600 and the damage to the contents will be very slight. As the occupants of the house had only recently taken temporary possession just a few articles and household effects were in the building at the time. The damage by water would otherwise have amounted to considerable. The building was owned by Ozias Laplante, and occupied by Mr and Mrs. Hughes, who it is learned had only returned from the Northwest. It was a very cold morning, to be turned out of their home, but the neighbors kindly cared for Mrs Hughes, until Mr. Hughes later in the day, made hotel arrangements for his wife and himself.

The cause is unknown, but in all probability the fire was the result of a defective chimney. The firemen returned to the hall about 5.50 o'clock this morning.

TWO CHIMNEY FIRES

The second call came from 344 Aylmer street, at 8.15 a.m. It was a chimney fire. The third call was also a chimney fire, summoned by telephone to 192 Dublin street, and in this case with use of the chemicals, the fire was easily extinguished.

NEW FEATURES AT THE LIBRARY

Suggestion Book to Secure Opinions From the Members

Curios From Inverlea Museum Being Placed at Library

The efficiency and general popularity of the Peterborough Public Library is demonstrated by the fact that there are twenty-seven hundred and three names of members at present on the roll. Such a large membership denotes that the institution is filling a much appreciated place as an educational medium, and one that since its establishment, has given every satisfaction.

The library is well equipped with every feature and every class of literature to commend itself to the reading public.

The local library was classed by W. R. Nursey, inspector of Public Libraries, as one of the best in the province. He considered that the site was a splendid one, that the equipment was all that could be desired and that it was keeping up with demands in every respect.

The library reading rooms are very comfortable and attractive, and invite a pleasant and uninterrupted spell of reading at any time. No trouble is encountered in the way of talking or noisy behavior, and all respect the rule of the institution that such is to be avoided. Even the children understand that such is not permissable

Mr. F. M. Dela Fosse and his capable and obliging staff cater most satisfactorily to the patrons of the institution and spare no pains to see that everybody is attended to promptly and respectfully.

SUGGESTION BOOK.

What is known as a suggestion book has been placed on the counter at the library, the purpose of which is to ascertain from members, the titles of books and classes of reading, that they would like added to the shelves. This is an innovation, but one which is found to be popular. Already names of books have been marked down upon it, which various parties would like to have placed on the library shelves.

EXHIBIT OF CURIOS.

Another feature being added to the library is the museum exhibits formerly placed at Inverlea Park. Workmen are busy arranging the numerous cases and exhibits in the rooms above the library and in the hallways. Having the museum in the centre of the city will be much more desirable than where it previously was situated.

Since the beginning of the year 1912 two hundred and fifty names have been added to the library.

SCRAP BOOK.

Another feature introduced and which has been found to be very helpful, is a scrap book department. The founding of this was started by Mr. Dela Fosse himself. Several large books fully indexed contain newspaper clippings on all current topics, which information is invaluable in the gathering of material for debates, speeches, etc.

PROF. FARMER AT BAPTIST CHURCHES

A large congregation yesterday morning heard Prof. J. H. Farmer, of McMaster University, Toronto, preach in Murray street Baptist church on educational work. He made a splendid plea for an increased display of enthusiasm along educational lines. In the evening he spoke in Park street Baptist church to another large congregation.

Prof. Farmer also addressed Murray street Sunday school in the afternoon.

LOCAL NEWS ITEMS

The regular Tuesday evening literary class of the Y.W.C.A. is cancelled for this week.

The meeting of the Women's Missionary Society of George street will be held at the home of Mrs. James Kendry, 754 Water street, on Tuesday afternoon at half past three.

Mr. J. J. Thompson, of the Y.M.C.A took the service at Springville Presbyterian church yesterday morning in the absence of Dr. Marsh who filled the pulpit at Knox Church for Rev. H. J. Keith.

There is a considerable quantity of mail matter at the office of the immigration officer George H. Howson, Water street, addressed to Mr. Arthur Mellon. His present whereabouts are unknown.

Mr. Mellon worked for a while with a farmer in Otonabee.

Conference Exams.

The annual examination of candidates and probationers for the ministry in the Bay of Quinte Conference will take place in George street Methodist church, commencing on Tuesday, April 1st, at 9.30 a.m., and continuing through the two following days.

COMPLAINANT IS MINUS ONE TOOTH

As the Result of a Meeting on George Street

A police court case will ensue tomorrow morning, because of a mixup between two young fellows on George street, Friday evening.

One of the parties claims that he was assaulted by the other and as evidence he will show a vacancy on his lower set of teeth, where a tooth formerly did duty. He will also display a lacerated lip which has swollen painfully. He claims that the other fellow without provocation lurched against him and then inflicted two vigorous blows upon his face.

Two witnesses will be brought along to bear out the plaintiff's contentions.

YOUNG LAD BITTEN BY DOG

When Chief Thompson came down stairs after police court this morning, he found an English lady with her little boy who had been bitten by a dog, waiting for him.

The mother explained that she lived on Romaine street and when her youngster was going along the street this morning some one encouraged a dog to go after him. The dog was the property of a Mr. Payne, and was a black one.

The Chief was shown the wound and he sent the boy to Dr. McPherson for treatment. Police court proceedings will likely follow.

Bright Liners on Athletic Topics

LEADER OF GIANTS SAYS PLAY IS ON THE SQUARE

That professional baseball nowadays is free from any taint of unfairness or favoritism, John J. McGraw, manager of the New York National League team, has made plain in more or less emphatic style in maiden efforts with the pen—a lengthy article on the national game soon to be published. The accompanying paragraphs are indicative of his ideas on the subject:

"It used to be the fashion for ground keepers to doctor their home grounds so that they would be perfect for the home players and a handicap to the visitors. The old Baltimore team, of which I was a member, had a swift bunch of runners, good bunters every one. Third and first base lines were shored up so that the ball was almost bound to roll fair, so that the runner could have the advantage of running from a downhill start. On the other hand, the old Chicago team of Captain Anson had a heavy field where a light, speedy team would be at a disadvantage. Then the people howled, and you don't see doctored grounds any more.

Many a team has doctored up a foreground of its field in such colors as to bewilder the eye of the batter. It doesn't take but an infinitesimal period of time for the ball to reach the plate, and the batter can lose sight of it by the slightest optical interference—a green fence in centrefield with a white spot painted on it, for instance. And that came to an end. Often the distance between the pitcher's box and the home plate has been shortened so a curve ball would break after reaching the plate instead of in front of the plate. The fans howled, and that was stopped.

"Ever so often a team was accused of using an outside confederate to steal the opposing team's signals—Morgan Murphy, of the old Philadelphias, did it with a powerful spyglass. Such a yelp went up at that particular disclosure as I had never heard before. It seems to me I could go on forever recalling slick tricks of ground keepers to gain advantage for the team they serve, instances of shrewd outside work by magnates and managers. Probably you have been one of the fans who howled disapproval. But why?

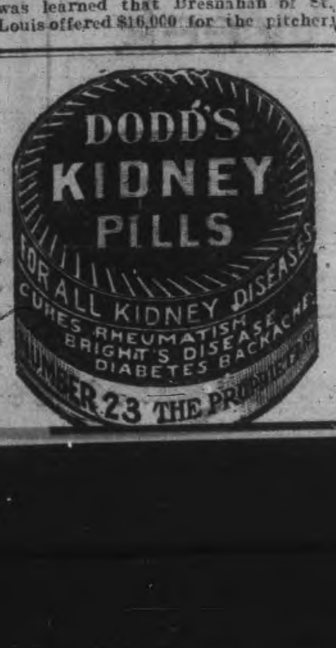
"What's fair for one is fair for another. Each team could doctor its own grounds to suit their particular style of play and impede that of an opponent's. The weak-batting, good-pitching team that painted their fence so as to bewilder the visitors' batting eyes would be shown up on the all-green fence of their hard-hitting opponents. Spyglasses can be bought by anyone and used by anyone. The distance between the pitcher's box and the plate could be doctored on every ground in the league. Then why the howl?

"For the simple reason that the baseball enthusiast puts out his good money to see a man with a small stick attemtping to hit a tiny white sphere hurled at him by another man; to see nine men trying to prevent one man's circuiting the diamond without being touched by that tiny white sphere. That is baseball, the diamond is the place for the [illegible] ball game, and any outside interference that aids or impedes those men in the performance of their functions, mars that game. But if in addition to playing his position properly, the player is keen enough to solve the signals off to his team mates, that shows a bit of headwork to be commended."

CUBS' PRESIDENT TELLS THE REAL STORY ABOUT BUYING OF O'TOOLE

Chicago, March 9.—"Here is the real dope on how Pittsburg got O'Toole from St. Paul and it's never been told before," said President Murphy of the Cubs to-day.

"I wrote President Lennon of St. Paul, asked if he would take $20,000 for O'Toole and Kelly, who caught him. Mike Cantilion, part owner of the Minneapolis team, tried to get O'Toole for Comiskey as soon as it was learned that Bresnahan of St. Louis offered $16,000 for the pitcher.



"This started Dreyfuss of Pittsburg going. He probably figured that a great star pitcher might swing the balance wheel his way and help him win the pennant.

"The next thing I knew Dreyfuss was in Minneapolis with his scout, Billy Murray. They attended a game and saw O'Toole fan the first six batters on the Minneapolis team. Among them were men like Williams, Carvath and Clymer.

"So that night they gathered in a restaurant—Dreyfuss, Murray, Lennon and Manager Kelly of the Saints.

"What'll you take for O'Toole?" asked Dreyfuss.

"At that moment Lennon was called out by Mike Cantillon. When he returned Dreyfuss said: "Well, how about it."

"Lennon smiled, 'That was Comiskye on the wire. He offered me $20,000 and a ball player for O'Toole."

"Then Dreyfuss struck the table with his fist and exclaimed: "I'll get that pitcher if he costs me $33,-3000." Whether he could have made a better bargain by cutting out that remark I don't know, but he signed his check then and there for $22,-500, and also an agreement which called for the services of First Baseman Flynn.

[illegible] Pittsburg Aug. 15, St. Paul pitched him often, dragging in a lot of money, because he was a whale of an attraction. It resulted in Murray's having to go to St. Paul and almost kidnapping O'Toole because Lennon hated so to let him go."

BELL BOYS ARE CHAMPS

Defeated Toolroom Seven and Won Mercantile League Honors.

Have Not Lost a Game This Season—Their First Appearance

By defeating the C.G.E. Tool Room seven, for the second time this season, the Bell Telephone septet became champions of the Mercantile League on Saturday night. The Tool makers lead at the half 1—0, but the champions finished on top by a 2—1 score, tallying twice in the last period.

The Telephone seven have a remarkable record, going through the season without a loss. Last season's champions, the Tool Makers, only lost two games and take second place. Both losses were registered against them by the new champions. This was the first season for the Bell Telephone employes to have a team in the league and they have rounded up a fairly good seven. With the exception of a couple of players they are to a man heavier than any of last season's cup holders. In both games with the C.G.E. team they have had the advantage of playing on soft ice. Their superior weight was used to wear down their opponents in the sticky going.

The first half on Saturday night passed off without any serious trouble. Kennealley notched the only goal of the half and with their combination and stick-handling, it looked like the Tool Makers for the game.

The second half was one round of fights and melees. Trouble could be seen in bunches when the Telephone men were unable to tie up the score. There were a couple of set-to affairs amongst the players and just as one of these was going on the puck was landed in the Tool Makers' goal. When everything was settled the goal umpire, a Bell Telephone man, went to tell the referee how the goal had been scored. He was told by some of the players to go back where he belonged. He took a pass at Hall and a couple of Bell players piled on to the centre man from behind. Then the row was made general by some husky linemen who climbed over the boards and proceeded to take a hand. At length play was resumed the goal not being allowed.

The Tool Makers blew up after that and could not score. Patterson tied the count on a scrimmage in front of the Tool Room nets and two minutes before full time Wetlauffer got the other on a shot from the side. This goal was the cause of trouble also. Eye witnesses disagreed as to whether the rubber went in or not. The referee did not see it, but the goal umpire called it a goal and the referee took his word for it, giving the winning counter to the Telephone boys.

Mr. McClevy refereed.

The lineups were as follows:

TOOL ROOM.
Cassidy
Milloy
McGrath
Barrie
Primeau Hall Kennealley
Rae Patterson Kelman
Nattress
E. Lansfield
Wetlauffer
Flowers.
BELL TELEPHONE.

On the champions line there are two players who are developing fast. They are Nattress and Patterson, the two centre men. They have each a couple of years to spare before the twenty mark is reached and if they stay around here they will have a great chance to make next season's junior O.H.A. team.

Flowers, the goal-tender, has done pretty good work this season and he may be heard of later. Wetlauffer and Rae broke into hockey again after a couple of years rest. Rae was on the St. Andrew's team when they were Church League champions.

Ed. Lansfield played point for the T.A.S. in the Trent Valley League this season.

SKIP THOMPSON BONSPIEL WINNER

Defeated Langs' Four by Margin of Seven Shots

The finals in the local bonspiel were played off Saturday night, and resulted in a win for Skip Thompson and his rink, who defeated Skip Lang 14—7. Thompson's rink was too well balanced for their opponents, who did some fast curling, but could not keep the Thompson quartette from forging ahead and doubling the score on them before the game was ended.

The rinks were:

A. GRANT	B. A. Rose
M. J. Stanley	M. C. Tooley
H. Rose	J. H. Wolstenholm
W. Thompson,	W. M. Lang,
Skip—14.	Skip— 7

In spite of the inference, to be taken from the score that the game was rather one-sided, the winng rink had to fight for every counter, as Lang's stalwarts were sliding the stones neatly into place. As well as winning the honor of coming out ahead in the local, the victorious four capture the very acceptable prizes for the events.

There are still a number of games to be played in the consolation competition before the winner is decided.

In a game which decided a tie in the schedule games Wightman defeated Medd.

No action has been taken yet in connection with Campbellfords' Invita-

THISTLES WON AT PORT HOPE

Defeated T.C.S. Juniors by Score of 7-5 and Win Round

The Thistles journeyed to Port Hope on Saturday and defeated the junior T.C.S. seven by the score 7—5. The half-time count was 3—1. Knapman for the locals played stellar hockey and secured three goals for the Thistles. Cavanagh and Richardson, of the forwards, and Matthews on the defence all had a hand in the victory. Routley at right wing was responsible for one goal and played a strong game all through. By this game the Thistles win the round with T.C.S. by one goal. The lineup of the Thistles was:

Goal—Huycke.
Point—Moran.
Cover—Matthews.
Rover—Cavanah.
Left—Richardson.
Right—Routley.
Centre—Knapman.

Stratton for the Port Hope boys played a clever game.

ALL STARS LOST TO CHAMPIONS

Preston Had Two Goals to Spare in Fast Game

Toronto, March 11—One of the best games of the season was witnessed Saturday night at the Excelsior Rink when Preston, the Intermediate O.H.A. champions, defeated the All Stars by the score of 7-5. The winners, who had a margin on the All Stars in team play, were leading at the half by 2 to 1.

Sensational rushes the whole evening were in order, and the pace set by the two teams was nothing short of marvellous, considering that the players were a little shy on combination. It was great hockey all the time, and the crowd certainly got their money's worth and then some.

Addison, in goal for the All-Stars was given about the busiest night he has had this Winter, and only his grand work kept the score down. He was catching them every way, but was lucky he did not have more go by him, as he was inclined to go after too many wide and high ones. Hunter and Hanley formed a great defence, especially the former, who showed that his right position was cover-point. The All Star line did good work, the feature being Brown's rush the last half, through the Preston team for a score.

Preston showed a lot of clever hockey, and nothing can keep them out of the senior series next year.

WINNIPEG VICS. TOOK THE FIRST

Teams Were Tied at The Half—Score Was 8-4

Winnipeg, Man., March 10.—The Winnipeg Victorias disposed of the Eaton team, of Toronto last night, by the score of 8 to 4, in the first game for the Allan Cup. The result was not a surprise to the fans in the city, as it was expected that the local team would win out. The visitors put up a much better fight, however, than was expected, and in the first half gave the Victorias a hard battle. They had the score reading at half time 3 to 3, and appeared for the second period very confident of winning out. The local boys came back with one of their speed tornadoes, and in ten minutes ran in four goals. Each team got another after this, and left the score doubled and the Victorias on the long end of it. The redeeming feature of the eastern team's play was the way in which the men checked back in the first half. The speed was too much for them in the last period and they could not stand the pace. The game was played under Western rules, but even so it did not seem to hamper the visitors at any stage. The Eatons forced the play from to start, and gave the local defence a busy time. Caldwell scored the first goal in ten minutes, but three minutes later the visitors evened up by Rankin, who scored on a pretty rush. Bawlf got the next goal on a hard side shot, and Eatons got the next two, Richardson and Meeking scoring. Caldwell evened up just four seconds before the bell ring. Bawlf went at terrific speed all through the game, and it was impossible for Richardson to hold him in check. The Eaton rooters were happy when they were leading by one goal, and at half time their money was very much in evidence. The Victoria crowd were not down-hearted, and took all they could get, giving odds of 2 to 1.

They will play the second game on Monday night under O.H.A. rules.

The line-up:

Victorias—Goal, Baker; point, Fowler; cover, Moffat; rover, Dion; centre, Caldwell; right, H. Baker; left, Bawlf.

Eatons—Goal, Bricker; point, Rankin; cover, Hyland; rover, Laflamme; centre, Meeking; right, Richardson; left, Foyston.

Referee—W. Keen, Winnipeg, Judge of play—W. Breen, Winnipeg. Timekeepers—Archie McLean, Winnipeg, and A. E. Apted, Toronto. Goal umpires—Robinson, Winnipeg; Chappelle, Toronto.

GOLF CLUB

At a meeting of the Peterborough Golf and Country Club, Limited, held on Saturday evening in the Bank of Montreal Chambers, the following gentlemen were elected directors:—

Mr. T. D. Mulholland, Mr. W. H. Denham, Mr. H. D. Burnett, Mr. Gerald Hall, Mr. W. G. Morrow.

The attendance was not as large as it should have been, and it was deemed unwise to elect captains and committees for the coming season. At a later date, another meeting of the players will be held, when it is hoped that all those who take an interest in golf will make an effort to be pre-

ABOUT THE MANAGER OF THE LOCAL BALL CLUB

"Old Folks" Templin Has Signed to Lead the Canadian Leaguers.

Curtis H. Templin, of Reading, Pennsylvania, is the manager for the Peterborough professional baseball team. He arrived in the city on Saturday evening last and met the local promoters. The arrangements were made satisfactorily and he was engaged as manager. This morning the deal was closed.

Manager Templin has a line on several good players and he has six or seven ready to sign on his return to Reading, Pa. Among those within his reach are a good short stop and a fast third baseman. Besides these he has a couple of catchers, a pitcher and two outfielders on the string and others in view. Manager Templin will play at second base.

The players will start to get into shape at their homes on signing up and will report here on May 1st, in time for a couple of week's workout before the season opens.

The Canadian professional baseball league annual schedule meeting will be held on Wednesday of this week in Hamilton. Manager Templin, with Secretary W. S. Davidson, and Dan Cabe will attend to represent the Peterborough Club. Mr. Templin will remain here until to-morrow night, when he will leave for Hamilton.

The appointment is a decidedly popular one. "Old Folks" by which he is popularly known, has a splendid record as the appended reference will show.

(By Addie L. Richardson.)

Curtis Harold Templin, the brilliant, dashing reliable and valuable second baseman of the Berlin club, the 1911 Canadian League champions was born in Reading, Pa., the state made famous by the great output of baseball celebrities, on Tuesday afternoon, February 11, 1873, and in 1896, at the age of 23 years, this dark, complexioned, stocky built chap made his debut as a professional ball tosser at short with the Ashland, Pa., club of the Pennsylvania State league club of that city, participating in 102 championship games, closing his initial season in the professional ranks, with a batting average of .304. In 1897, he was umpire in the Atlantic league, under the leadership of President Edward G. Barrow, now in the same capacity in the Eastern. As an arbitrator he acquitted himself most creditably. During the next four seasons, 1898-'01, Templin played short for the independent semi-professional Browns of his native city, which organization was successful in carrying off the championship of the city league, for four successive seasons. In 1902 he was at Newburn, N.C., in the Carolina league, clouting the pill for 298 in 112 championship struggles, and in 1903-4 he looked after line drives in left field for the Oxford, Pa., club of the Chester County league, batting at .273 and .284 and fielding at .947 and .956 respectively for the two seasons. During the year 1905 he was at first base for Concord, N. H., champions of the New England league, taking part in 108 games, finishing with .241 and covering the bag for .976. He cast his lot with the Franklin, N.H., club in 1903 and in 107 games with this aggregation he gathered an average for .294 and .948 at the middle sack. At Worcester, Mass., this clever second base guardian performed in 1907, taking part in 113 games, hitting for .2?0 and performing on the bag for 926. Worcester winning the New England league championship. Templin was at Fall River, Mass., in the same organization in 1908, and in 119 games at first base he copped out 99 safeties for .236, and with the fine average of .985 he was but nine points in the percentage ladder behind March, of Lawrence, the leader. In 1909 he carried the uniform of the New Bedford team in 36 battles for .294 and .976. Last year he was with the Winston-Salem club of the Carolina association, where he secured .236 and .942 in 111 conflicts, the latter figure giving him third position among the second basemen.

Templin is a close student of the great game; he studies every batter and is generally in the right spot. For one man you may find him playing close to second, and for another he is close to the first baseman, and for another he is right in on the grass. He is clever taking a throw from the catcher and getting it on the runners. It is almost impossible for the would be pilferer to hook a slide, as he slides with his man. He digs deep into the dirt for the ball and seldom does it get away from him. Although he is only five feet eight and one-half inches tall he can go into the air the proverbial mile and freeze to the pellet. He simply eats up Texas leaguers, and he can tear around in ten-second time. And what an arm the veteran possesses. He can peg 'em to the plate and to third, and it matters little in what position he is in when he makes the heave, and is lightning fast in getting the ball away from him. He bats and throws right-handed. Templin has been throughout the entire season a capable and valuable lieutenant to Manager George (Rube) Deneau. He has filled the keystone position for Owner (Pop) Williams' Canadian League champions in more ways than one, and when it comes to brains he has a clever head harnessed to a fine pair of shoulders. Curt Templin with last Saturday's game closed his sixteenth consecutive professional season. He is on the lookout for a managerial berth for 1912, having a non-reserve clause in his contract, and much curiosity will be evinced by his baseball admirers as to wether he will make the position. With his long baseball career he should deliver. During the winter season Templin has a lucrative position as a government inspector at the steel works in his native city, and forgets baseball cares at his pretty little cottage at 1206 Marion street, Reading, Pa.

MURPHY WON FROM ABE ATTELL

Former Featherweight Champion Lost Decision in 20 Rounds

San Francisco, March 9.—Abe Attell is distinctly an ex-champion now. After contesting a game, but losing fight all the way, the once king of featherweights presented a sorry front as Jack Welsh gave Harlem Tommy Murphy the decision over him at Colma this afternoon in their twenty-round contest.

Murphy won decisively. As round followed round it was very evident to local fight fans that Attell had yielded to Father Time and gone the way of all champions before him.

Attell showed enough of his old-time speed and ring craftiness to make the milling good at all times. In his effort to prove that he is as good as ever, Abe took an awful lacing, but not once did he show the yellow. At times he stood head-to-head with his heavier opponent, and only his cleverness and ring generalship saved him from suffering a knockdown, or perhaps a knockout.

The last round found Attel being punched around the ring, with Murphy trying hard for a knockout. Abe held on for dear life, however, and managed to weather the storm to the end. His left eye was completely closed and his face and body were considerably marked by the onslaught.

Attell realized that he had gone back, and all he could do was to hold his head in his hands as his friends gathered around him to offer comfort.

The fight was Murphy's from the start. He began the mill aggressively, and kept after the crafty Abe all the time. Time and time again Attell would rush into a clinch to meet disaster as Murphy kept after him, landing both hands on the face and body. In the eighteenth Murphy landed fairly on the nose, and blood poured in a stream while Abe backed away on tottering legs. From that to the end Attell was try-

Lady Betty Across the Water

By C. N. & A. M. WILLIAMSON

Copyright, 1906, by McClure, Phillips & Co.

I have traveled abroad with mother and Vic, where there were Americans in the dining car, and they have been cross because they didn't get served quickly, and they have said things. But in this car going to Newport you forgot what you had had last before the next course came, yet nobody seemed to mind. They were as patient as lambs and simply took what was given them when they could get it, although they looked as if they were used to everything very nice at home. I suppose it must have been because they were all Americans together, eating American things, with American waiters to wait upon them and no foreigners who ought to know they wouldn't stand that sort of nonsense, hanged if they would.

Some of Mrs. Ess Kay's servants had gone on before us, and some were in our train. Exactly how it was managed, I don't know; but things that would worry us into gray haired graves don't seem to bother Americans at all, and there was the motor waiting when we arrived at the end of our journey, with a private motor omnibus for the servants and luggage.

Sometimes it is rather a pretty sight at the station where you have to get out for Battlemead or for the village, when one of the best trains from town comes in, especially if mother or any one at other big places in the neighborhood should be having a house party. There are several rather good victorias with nice sleek horses, a handsome brougham or two, a motor car or two, to say nothing of dogcarts and phaetons. But it is a poor show compared to the scene at Newport. I felt suddenly as if I were at the theater and the curtain had just gone up on a brilliant new act.

There was a crowd of gorgeous carriages, and jet black varnish, gold and silver harness and horses' brown and chestnut backs all glittered blindingly in the sun. But there were even more motors than carriages, it seemed, or else they were more conspicuous, and many were being driven by beautiful girls in muslins such as we would wear to a garden party, with nothing on their pretty heads except their splendid hair, dressed everlastingly in the same way.

Now I saw Mrs. Ess Kay and Potter in their element. There was no suggestion that the people were not good enough for them here. Mrs. Ess Kay radiated smiles, bowing cordially right and left, sometimes even more cordially than her friends bowed in return. Potter was taking off his straw hat and waving it. They were delighted to see everybody, for everybody was somebody, and some, but not all, of the everybodies were delighted to see them. Sally alone remained unmoved, and I was glad to have her to keep me in countenance in this new act, where I knew none of the players or what part I should be called upon to take by and by.

I had heard so much that was dazzling about Newport, which I had imagined a great white city by the sea, that the part I saw first after leaving the railway station was distinctly a blow. "This quiet, half asleep village the greatest watering place of America, perhaps of the world!" I said to myself, almost scornfully, but when we had bowled into Bellevue avenue, where Mrs. Ess Kay said that her cottage was, I began to understand.

I wasn't sure at first sight what I did think of the great splendid houses, with mere pocket handkerchief lawns such as people would have for suburban villas at home, but they gave me a tremendous impression of concentrated wealth. This seemed a place where everybody was rich, where millions were at a discount, and I thought—whatever else I did think—that it would be a place to stop away from unless you were happy—happy and strong and gay.

But there was one thing I was very sure of. The avenue itself was more full than our park in the topmost height of the season.

People don't look happy driving in the park, not even the pretty people. I have found that whenever I have been, and, though that isn't so very often yet, Vic says it is really and truly always the same.

The great beauties look bored, and some of them have their faces painted and the air of wearing transformations, but not one of the charming women driving up and down Bellevue avenue that afternoon looked bored and hardly any were painted. I never saw people appear to be so delighted with life and so thoroughly alive, as if the glorious sea air were frothing in their veins, like champagne.

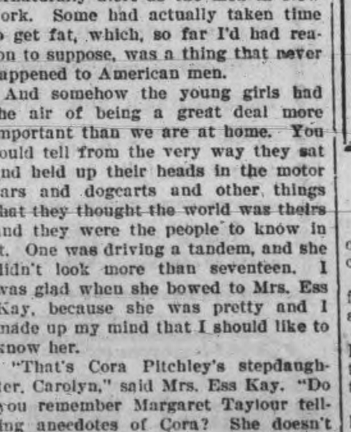
In the park you don't see people laughing and talking to each other in carriages. They simply lean back on the cushions with an expression that seems to say, "This is the only thing I can think of to do, so I'm doing it just to kill time." Probably they don't really feel like that, but they look it. And as for the people who sit and watch or stand and wait, they've usually a strained expression in their eyes as if they were afraid of missing somebody or something of importance.

But here in Bellevue avenue everybody was smiling and chatting, and I noticed that the men weren't so preternaturally alert as the men in New York. Some had actually taken time to get fat, which, so far I'd had reason to suppose, was a thing that never happened to American men.

And somehow the young girls had the air of being a great deal more important than we are at home. You could tell from the very way they sat and held up their heads in the motor cars and dogcarts and other things that they thought the world was theirs and they were the people to know in it. One was driving a tandem, and she didn't look more than seventeen. I was glad when she bowed to Mrs. Ess Kay, because she was pretty and I made up my mind that I should like to know her.

"That's Cora Pitchley's stepdaughter, Carolyn," said Mrs. Ess Kay. "Do you remember Margaret Taylour telling anecdotes of Cora? She doesn't bother much with the girl. People are talking about them both rather a lot this year, they say."

"Carolyn," I repeated. "What a pretty name and how American sounding, somehow. Fancy her driving tan-



P.led up to his head with novels and magazines.

dem, with only that tiny groom if anything should happen. She must be plucky. How old is she?"

"Eighteen. She was one of last October's buds."

"October's buds," I repeated. "It sounds poetical—but unseasonable."

Potter answered with a laugh.

To be continued

SANOL

The new discovery will positively remove Gall Stones, Kidney Stones, Gravel in the Bladder, and will effect a complete Cure. It will dissolve and remove stones without pain, and there is no necessity for an operation in the future, as Sanol will cure in every case no matter how long standing the disease may be.

SANOL will be found particularly valuable in old cases of Kidney and Bladder diseases.

SANOL is a preparation of herbs and herb extracts, and contains no poisonous ingredients. It's use, therefore, cannot possibly harm either the stomach or intestines.

Sanol per bottle $1.50

Get it from McDERMID & JURY, Druggists, Peterborough, or direct from The Sanol Manufacturing Co., Winnipeg, Man.

We are assured by Thomas A. Edison that there will be no poverty a hundred years hence. This is comforting, but will it be satisfactory to the bank managers who hold notes due on the 'steenth inst?

MINES RUINED

Great Suffering Staring Families of Miners in The Face.

London, March 11.—A million and a half workers idle, the industry of the country threatened with complete paralysis if the conditions do not change, the price of bread and other foodstuffs advancing, thousands already feeling the pangs of hunger, children going without their breakfasts to school, great industrial properties going to ruin through inability to prevent their deterioration, the railway service reduced to a minimum—that is the condition o things in England, Scotland and Wales, and the coal strike is only ten days old.

Meanwhile the miners are making the most of their holiday. They have a big fund out of which every striker is receiving something, ranging downwards from ten shillings (2.50) a week. The miners seem to be content with the situation, although there are murmurings on the part of some who desire to resume work. Pigeon flying, pit pony and whippet racing and other sports occupy their time. The public houses in the mining districts are doing a rushing business.

So far, there have been practically no disorders. Instances of surliness are reported, however, and one case has attracted attention. It involves the refusal of the miners in the Whitburn colliery, at Southfields to permit anybody to descend into the pits to feed the ponies and work the pumps to prevent flooding of the mines. This is a direct violation of the instructions from the Federation of Miners, which allowed the employment of miners during the strike for these purposes. The officials of one mine where the men declined to obey the orders of the Federation managed to get 150 ponies to the surface from their home underground for the past twenty years. Engineers who were permitted by the Federation to remain on duty refused to work in many places, and it is feared the mines have been ruined by floods.

NOT YET FELT IN LONDON

London thus far has not felt the pinch of the strike. The price of bread is to be advanced on March 11 and other foodstuffs are higher, while coal is at exhorbitant rates. The railway facilities have also been curtailed, but actual suffering has not occurred. Elsewhere in the United Kingdom conditions are different. Appeals to the municipal authorities to invoke the law for feeding indigent children indicate that the effects of non-employment are being felt in some localities.

RICHESON DYING

Boston, March 11.—Because of fear of a nervous breakdown, Sheriff Quinn to-day took steps to prevent C. V. T. Richeson, awaiting execution for the murder of Avis Linnell, from learning that the Legislature has defeated, by a vote of 161 to 42, the bill abolishing capital punishment.

"Richeson is in as good health as can be expected," said Sheriff Quinn to-day, "but I do not want him unduly excited. He has only a short time to live, and I do not care to have him know of the Legislature's action."

DISASTER ON G.T.R.

Train Jumps Tracks and Rolls Down Bank Near Durham.

Durham, Ont., March 9.—Eleven people were injured, four of whom seriously, on the Grand Trunk line half-way between here and Palmerston, yesterday afternoon, when the rear coach of a mixed train jumped the rails and rolled down a steep embankment. Four passengers sustained severe injuries, and were removed to Strathcona Hospital, Mount Forest, eleven miles away. M. P. Lindsay, a Toronto traveler, of 103 1-2 Grace street, received a scalp wound, and his back was injured. He will recover. C. L. Stevens, Strathroy, was hurt internally, and will likely die.

The injured are:

Seriously Injured.

M. P. Lindsay, 103 1-2 Grace street, Toronto, traveler for the F. F. White Co., head and back injured; will recover.

E. W. Pyke, London, several ribs broken, collar bone fractured.

O. L. Stevens, Strathroy, spine hurt, ribs broken and internal injuries; not likely to recover.

J. A. Cole, London, head, face and hands cut; will recover.

All four were removed to Strathcona Hospital, Mount Forest.

Slightly Injured.

J. J. Wallicott, West Moncton, N.B.
Charles Saunders, Durham.
Frank Warner, Durham.
John A. Hunt, Alcho, Sask.
J. E. Sims, St. Mary's.
M. E. Horne, Durham.
T. A. Caspard, Woodstock.

Reports state that the train, local 56, containing an engine, baggage, freight and passenger coaches, was traveling slowly. At Varney, a flag station, a broken rail was encountered, and the rear coach, occupied by about 35 passengers, principally commercial travelers, was hurled clear of the tracks and plunged down the embankment, turning twice before it struck the bottom. All passengers were cut by glass and severely shaken up and bruised. One woman and a child, the only female passengers, were tossed from one end of the car to the other and suffered serious wounds. Their names are unknown.

Villagers and doctors were soon on the scene and aided by the train crew, had a difficult task in removing the injured. The coach lay on its side and it was found necessary to extricate them through the broken windows. Three men were unconscious and suffering intense agony.

A special train from Stratford was sent to Varney and the four most seriously injured were removed to the Woodstock hospital, while the others were attended by physicians in Varney. Dr. Wilson, Holstein; Dr. Perry, Mount Forest, and Dr. Scannon, Palmerston, were sent to look after the injured on the special train.

The catastrophe happened in the most dangerous part of the little-use road. The line is a branch one and the trains generally travel at a comparatively slow rate. Where the accident occurred there is a precipitious embankment and the ill-fated coach shot to the bottom with terrific force. The wonder was that the result was not more serious. Every passenger suffered slight injuries at least.

Break In Water Main.

Toronto, March 11.—As a result of the broken water main at the corner of Bathurst and London streets at 11.40 Saturday morning torrents of water flooded the cellars of the houses in that neighborhood and ran down Bathurst street, stopping all traffic until about 3.30 o'clock in the afternoon, when the tide was stemed. When the main burst the pressure of water tore up the pavement above and gushed out with a tremendous roar which startled the people in the neighborhood. It poured down the slight incline of Bathurst street, running into cellar windows and doing damage the extent of which has not yet been ascertained.

Power Plans Filed.

Ottawa, March 11.—New plans were filed Saturday at the Carleton County registry office in connection with the expropriation of the Chats Falls by the Hydro-Electric Power Commission of Ontario.

To these plans are attached a description in full of the land which will be expropriated by the Ontario Government. This includes the Government slide reserve on Victoria Island. To the plans there is also attached a copy of the order-in-council, signed by Hon. Adam Beck, chairman of the Hydro-Electric Power Commission.

"Big Griffis, Jr., Ends Life.

St. Catharines, March 9.—Silas Griffis, whose remains were buried in Victoria Lawn Cemetery yesterday, died from self injury in the asylum at Mimico, to which institution he had been committed from Kenora. He had for some time been afflicted by morbid fear that he was going to die, and his mind became unbalanced.

"Big Griffiis," jr., was a character in these parts some years ago. He had seen much of life, had been a sheriff in Texas and had traveled in all parts of the continent. The northwest attracted him, and out there he became quite a figure in business and politics. He and a Winnipeg friend took a big contract for ties for the Grand Trunk Pacific and had them already out for delivery, but the coming of spring early a year ago precluded getting them out of the woods and they lost heavily.

It is probable this misfortune preyed upon his mind and led to insanity and suicide.

More Water for Niagara.

Niagara Falls, Ont., March 9.—The water commission will petition the Government for permission to construct a new pipe line as well as a pumping station near the cataract to take the place of the present apparatus, which is inadequate to the city's needs. An alternative plan is to place concrete obstructions in the river so as to divert the water to the Canadian shore and enlarge the present plant.

How many outrages are you compelled to submit to? I venture to guess four or five, at least.

It is True Economy to use the highest grade of sugar like

PRESENTATION TO SMITH PEOPLE

Silver Tea Service for Mr. and Mrs. J. H. Edmison

On Monday evening, March 4th a large number of friends and neighbors assembled at the home of Mr. and Mrs. J. H. Edmison's Smith, the occasion being to remember them on the eve of their departure.

Mr and Mrs. Edmison will be greatly missed among the host of friends whom they have won for themselves during the past twenty five years.

A very pleasant evening was enjoyed by all present in games and music and before concluding the chairman Mr. F. Cann requested Mr. and Mrs. Edmison to come forward when they were presented with a silver tea service by Mr. Albert Middleton, accompanied by the following address read by Mrs. D. Mahood.

Smith, March 4th, 1912.

Dear Mr. and Mrs. Edmison— It is with feelings of regret that your many friends and neighbors have heard of the severance of your connection with us in our community. We have therefore assembled to spend a social evening together and also endeavor to show that respect which real worth is sure to command

During your residence among us you have made many friends to whom you were always ready to lend a helping hand. And we cannot let you depart without expressing in some tangible form the esteem in which you are regarded in the neighborhood.

As a memorial we ask you to accept a silver tea service, trusting that it may be an emblem of pleasant associations in the past, Mr. and Mrs. Edmison, our best wishes go with you to your new home, where we trust our Heavenly Father may spare you many years of health and happiness.

Signed on behalf of your friends and neighbors.

GEORGE WALTON
DAVID MAHOOD

Mr. and Mrs. Edmison were taken completely by surprise yet Mr. Edmison made a feeling reply and thanked their many friends, for the kindly feelings towards them, and who would always remain vivid in their memory.

All joined hands singing Auld Land Syne and the assembly departed.

CENTENARY OF BROWNING TO BE OBSERVED

London, March 11 —Arrangements are in active progress for celebrating the centenary of Robert Browning's birth. But the character of the poet's work precludes anything in the nature of popular demonstrations of respect such as accompanied the Dickens centenary, as the big public finds most of his poetry difficult and obscure.

Westminster Abbey is to be the scene of a commemorative service on the afternoon of May 17, when some lines from "Saul" will be sung to a special setting written by Sir Hubert Parry. Afterwards Sir Frederick Bridge will render the music to Mrs. Browning's poem. "He Giveth His Beloved Sleep," an appropriate item, as it was sung at Browning's graveside twenty-two years ago.

After the service the Marquis of Crewe will preside over a meeting in the College Hall, adjoining the Abbey when Bishop Boyd Carpenter, formerly of the Ripon diocese, will speak on "The Oral Interpretation of Browning." Then Canon Rawnsley will recite a poem, to be followed by Miss Emily Hickey, one of the founders of the Browning Society, with a paper on "Browning on Failure."

As each paper is not to exceed ten minutes, the audience will be provided, with a program of bewildering variety. Ernest H. Coleridge will compare Wordsworth's "Intimations of Immortality," with Browning's; H. C. Minchin will speak on "Browning as a Letter Writer" W. Kingsland will contribute personal reminiscences, while Dr. Hill, a Cambridge professor, will interpret that most difficult of all Browning's works, "The Ring and the Book." Professor Henry Laurie, of Melbourne, Australia, is also expected to speak.

REV. N. T. SMITH AT CHARLOTTE ST.

Too Much Time for Pleasure; Too Little for Prayer

The congregations at Charlotte street Methodist Church on Sunday were treated to two very able and scholarly discourses delivered by Rev. N. T. Smith, B.A., of Toronto, one of the cleverest young men of Canadian Methodism. Large congregations were present both morning and evening.

His sermon in the evening was particularly thoughtful and inspiring. His text was the words of Paul to Timothy, "Nevertheless I am not ashamed for I know in whom I have believed."

From the above words, the speaker drew some lessons, which could be applied and put into practice in every-day life.

"Too many people," he thought, "were found screaming for pleasure and whispering for Jesus. People could be found all about us who were willing to devote their time to the winning of temporary pleasure, but who found it hard, extremely hard, to devote a brief half-hour morning or evening for the study of the Bible and for prayer."

He concluded his discourse by exhorting his hearers to pay stricter and more earnest attention to the things which would remain, and give but a passing thought to the things which mattered not.

Mr. R. F. Downey gave a very effective rendering of "That Beautiful Land."

The pastor of Charlotte street Church, Rev. G. W. Henderson, is expected to occupy the pulpit next Sunday.

COMPARISON OF MARKET PRICES

How Local Prices Compare With Other Places

Below will be found an interesting comparison of market prices for Peterborough, Guelph, Galt, Berlin, Stratford, Woodstock and Ingersoll:

PETERBOROUGH.

Butter, per lb., 29c to 35c.
Eggs, per doz., 42c to 34c.
Chickens, per pair, $1,25 to $1.50.

ABOUT EYES & GLASSES
Talk No. 1 -- By J. W. BROWETT, Optometrist

The large Factories grind lenses in over 27,000 different combinations to suit the eye. We examine to determine which of the 27,000 should be used.

Glasses were invented a great many years ago—so were eyes. The eyes in construction are the same to-day, but the Glasses have changed. The Science of optics has steadily advanced, until now manufacturing opticians are able to grind glasses to correct defects of vision, of many varied forms. Few persons, comparatively speaking, have perfect eyes; and an eye which is not perfect is an annoyance to the brain; the eye and the brain are very intimately connected. When the eyes differ we have unequal vision—unequal vision causes headaches and nervousness; these are symptoms of eye strain We correct unequal vision with lenses scientifically made. Optical lenses are made from scientifically made glass, except in cheap spectacles; in these the glass is made the same as for windows. We use pure and faultless crystals only.

SUCCESSFUL SALE
Greatest Wall Paper Sale Held
OUR SUCCESS HAS SURPASSED ALL PREVIOUS RECORDS

We keep a variety in cheap high-class goods, second to none in Canada. We invite you after looking elsewhere to try us, with length and width of your room and we will tell you the cost — Either at our Peterborough Store at 379 George St., or at Toronto, 262 Queen St., West. Large buying enables us to give you prices not possible outside of large cities. There are only seven firms in our Dominion who can buy over twenty thousand dollars worth of Wall Papers per year, and we are proud to feel that we rank as fourth largest of the seven. The smallest buyer of seven has the same advantages as the largest as all that is required to get the low price is that the purchase amount to ten thousand dollars — Our purchases amount to over that with one firm's goods, not mentioning our purchases of American, English, German, French and Japanese manufacture, which we stock very largely. We would ask you again to examine carefully before making your purchases.

Toronto 262-4 Queen W. C. B. Routley Peterboro 379 George Street

Meet Him at Our Store

MR. A. J. BROWN

The Representative of the House of Hobberlin, the big tailoring firm, of Toronto. He will be here

FRIDAY AND SATURDAY, MARCH 15th AND 16th

to show the styles for spring and summer, and has a range of nearly 400 different lines, Suitings, Overcoatings, Trouserings and Vestings.

If you want perfect fitting clothes, and latest city styles, come in and leave your measure while Mr. Brown is at our store. You can see all the new lines, try on one of the New Spring Models, and see for yourself what really good-fitting-clothes these are.

H. LeBrun & Co.

"MADE IN PETERBORO" FAIR TO BE HELD IN ARMORIES

Members of the executive of the Peterborough Board of Health Association are busy interviewing the local manufacturers with regard to exhibits for their "Made in Peterborough Fair" which they intend holding during the first week in June. They are having splendid success. Mrs. R. W. Travers, the secretary, and Mrs. W. H. Bradburn, convenor of the Decorating Committee, have already visited many of those whom they could interest in the proposition and they have received encouragement everywhere.

The spacious drill hall of the Armories has been secured for the fair. The hall will be divided into four divisions for exhibits relating to the different seasons of the year, spring. summer, autumn and winter. Those who have exhibits will be allotted a space according to the arrangements.

In addition to the exhibits there will be other attractions in the centre. These will include a gypsy encampment, where a fortune teller will perform; a doll's booth, where dolls will be sold; and a "rummage" booth. In the different divisions there will also be booths where refreshments will be served in keeping with the season represented.

The ladies are doing this with a view to booming Peterborough as well as to secure funds for the Health Association. Either reason is sufficient to warrant the support of the manufacturers, merchants and citizens in general.

RETURNED FROM S. A. TEMPLE TO FIND HER FATHER DEAD

The death occurred last night of Mr. James Wilson, who had lived for several years with his son-in-law, Mr. Thomas Lang, of 544 Elm street. Mr. and Mrs. Lang went out last evening to attend the services in the Salvation Army Temple, and when they returned they found that Mr. Wilson, who was 81 years of age, had succumbed to an attack of heart failure.

The funeral will take place to-morrow morning, to the G. T. R. station. The remains will be taken to Barrie on the 8.20 train for interment.

HUNT CLUB GOT THE LIQUOR

The curtain rang down on the last act in the now famous case of the seizure of liquor belonging to the Turtle Lake Hunt Club, last week, when the liquor was turned over to the members of the Club by Inspector Williams. The costs in the appeal case amounted to over six hundred dollars, which will be paid by the Department.—Lakefield News.

You cannot hear abuse constantly without believing some of it. Possibly that's the reason all of us have worse reputations than we deserve.

FINE PICTURE OF THE HOCKEY TEAM

The Roy Studio has just turned out a splendid group photo of the Peterboro Intermediate O.H.A. team. J. Meharry and not the Hockey Club arranged for the picture and this explains the absence of three members of the executive committee.

JEWISH AGITATION DISCUSSED IN COMMONS COMMITTE

Majority of Seventy Against Admitting Hebrews to Queen's University.

Ottawa, March 12.—Parliament wrestled at great length yesterday with the alleged anti-Semitic clauses in W. F. Nickle's bill respecting Queen's University, in which it is provided that the university shall remain distinctively Christian.

Robert Bickerdike (Montreal, St. Lawrence), as on former occasions, appeared as the chief exponent of the rights of the Hebrew race, being supported by A. E. Lancaster (Lincoln) and E. B. Devlin (Wright).

Mr. Bickerdike moved to strike out of clause 20 the words "save the profession of Christianity." Shortly before the six o'clock recess this was rejected on a vote of 70 to 7 and the bill was reported, as was also the bill incorporating Queen's Theological College.

Mr. Nickle explained that as far as his private views were concerned, he did not agree with the ground taken by the promoters of the bill. It would cut Queen's University off from taking advantage of the intellects of Jewish people of science and learning. It might be argued that the Ontario Legislature would be justified in refusing aid to the university on the ground that it was not national, but it was a retrograde step to put on Queen's restrictions not yet there. At the same time it was a private bill, which had the ratification of the Presbyterian Church and the board of Queen's University, and they were legally entitled to get what they asked for.

Mr. Bickerdike claimed that Queen's University, under its new constitution was not a work for the general advantage of Canada. He questioned the jurisdiction of the House. It was an invasion of the rights of the Legislature to which were assigned educational matters.

He doubted whether the bill had the endorsation of the Presbyterian Church.

Mr. Nickle waxed warm over Mr. Bickerdike's references to himself: "I say it is unfair," he declared, "for the member for St. Lawrence to brand me as a persecutor of the Jews. Heaven knows we have heard enough of east against west, of Roman Catholic against Protestant. Are we to set Jew against Gentile?"

Dr. Steele (South Perth) declared that no one could doubt that Queen's University was national in scope. It was a small thing to ask that it should remain distinctively Christian.

Dr. Schaffner (Souris) enquired if it was proposed to make Queen's a distinctively state institution.

Mr. Bickerdike declared that this was not a fair way to treat half a million good citizens of Canada. It was not only endorsing, but legalizing, an insult to the Jewish minority.

Sam Sharp (North Ontario) pointed out that this was private legislation. It was not putting a ban on any class or creed in public legislation. To change its provisions would be a breach of faith with the Presbyterian Church, which was making a gift of the university to the nation.

A. E. Lancaster (Lincoln) saw no difference between public and private legislation in regard to the functions of Parliament.

Hon. Frank Oliver protested against the idea that the Presbyterian Church had any intention of insulting anybody. It had always stood for tolerance.

Mr. Bickerdike claimed that not only the Jews, but the Baptists also objected to the test clause in the bill.

In reply to a question by H. H. Stevens (Vancouver) in the House of Commons yesterday afternoon, Hon. Martin Burrell stated that, up to date, 16,902 Chinese and 13,768 Japanese had entered Canada through British Columbia ports. Of these, 5,254 Chinese and 436 Japanese came during the last fiscal year, 5,142 Hindus had entered Canada, of whom only one had arrived during the last fiscal year.

With regard to Dr. Sunder Singh, he had landed at Halifax on March 12, 1909. He had not complied with the immigration regulations and an order for his deportation had been issued, but had not yet been executed.

The grain bill at last received its third reading and passed at 12.40 o'clock this morning, after engaging the attention of the House for almost the entire evening. It stood on the order paper for third reading, but Hon. George E. Foster moved it back into committee to make a few changes.

After it was again reported the members of the Opposition moved four times to have it referred back to committee, two of the motions coming to a division. Then E. L. Cash (MacKenzie) moved the six months' hoist on the ground that the bill was immature, too long, and the House had not had a chance to become properly seized of the details. This was defeated on a division of 86 to 44. The bill then got its third reading.

STRIKE SUFFERERS

London, March 12.—The disastrous effect of the British coal strike is shown by an estimate of the number of employes already wholly or partly out of employment:

1,000,000 Colliery workers.
600,000 cotton operatives.
460,000 engineering employes.
263,000 iron workers.
258,000 woolen workers.
243,000 railway builders.
132,000 in steam laundries.
112,000 in steam bread and biscuit bakeries.
104,000 bleachers and dyers.
71,000 hardware hands.
50,000 railway men.
21,000 copper workers.

As the days pass, hundreds of thousands of others will be added to this list.

SEVERE LESSON

Kingston Coal Dealers Fined $10 and Costs.

Kingston, March 12.—Finding them guilty on a charge of having sent out coal under weight, Magistrate Farrell yesterday imposed a fine of $10 and costs upon four dealers, Robert Crawford, James Sowards, James Swift and Booth & Co. The charge against the Frontenac Lumber & Coal Co. was dismissed.

The magistrate held there had been a pure violation of the city bylaw, in that loads of coal had been sent out with the wrong weight on the accompanying ticket. This bylaw was for the protection of the people and must be carried out. Citizens generally spent a large part of their earnings for fuel in winter and the bylaw was made to keep a check on the dealers.

SETTLEMENT IN SIGHT

Welsh Operators Join in Conference With Other Parties

TO END STRIKE

Miners Willing to Make Sacrifices in Interests of All

Special to the Review.

London, March 12—The Scotch and Welsh mine owners capitulated to public sentiment to-day and joined with the English operators in a conference at the Premier's office, with a union committee, in an effort to end the coal strike. At the strike headquarters to-day, it was learned that the men are prepared to make substantial sacrifices for peace.

INCREASE FOR THE POSTAL MEN

Ottawa Employes Affected by Bill of Hon. L. P. Pelletier.

Ottawa, March 12.—In the neighborhood of 8,000 postoffice employes, or practically every one in the city postoffices, are affected by the bill of Hon. L. P. Pelletier to amend the Civil Service Act, which was last evening given its second reading and put through committee.

According to the provisions of the bill, increases in salary are granted of $100 a year until $800 is reached, and above that come increases of $50 a year till $1,800 is reached.

Chief clerks and office superintendents get annual increases of $100 till $2,200 and $2,500 respectively are reached. This is a recognition which the city postal officials have been asking for years, having first been brought to the attention of Sir William Mulock when he was Postmaster-General.

Hon. L. P. Pelletier stated that it was found necessary to take the step to preserve the service, the Department finding that they could not keep their men at the salaries which had been paid.

Spanish Cabinet Crisis.

London, March 12.—(C.A.P. Cable.)—Morning Post's Madrid correspondent wires that a Cabinet crisis has occurred. A communication has been passed by both Chambers asking them to suspend sessions until a new Cabinet has been formed. Senor Canalejas has received royal authority to reorganize his Government. A crisis was expected, as several Ministers have been vigorously attacked in Parliament, and it became impossible for them to continue the Ministry.

The King desires the Liberal party to continue in power, but since the party is hopelessly divided, the next Ministry will be short lived.

LOTTERYMAN IS IN TROUBLE

Must Pay $500 Fine or go to Jail.

Ottawa, March 12.—A fine of $500 or one year in jail was meted out this morning in the police court to Edwin Merton, a young man who pleaded guilty to the charge of managing a scheme or lottery for the purpose of disposing of certain articles, including gold watches, opera glasses, silverware, etc. Merton was arrested in Toronto about two weeks ago for practically the same offence and was subjected to a heavy fine. He was escorted to the city Saturday by a detective.

FOUR CONVICTS MADE HARD FIGHT FOR THEIR LIBERTY

Turned on Their Guards in Train and Beat Them Almost to Death—Detectives Came to the Rescue and Pounded Prisoners Into Submission.

Special to the Review.

Toronto, March 12. — Four long term convicts enroute to Kingston Penitentiary from Stoney Mountain Penitentiary, Manitoba, almost succeeded escaping from a Grand Trunk train which was about to pull out from the Union Station at nine o'clock this morning. They did succeed in beating three guards from Kingston almost to death with their manacled hands. The men arrived from the west last night and spent the night in the police station, and were taken to the train by detectives Miller and Sockett and two policemen. They were handed over to the Kingston guards who had them handcuffed and shackled in the smoking compartment. Almost immediately after the Toronto officers stepped from the train the prisoners leaped upon their guards, beating them to the floor. Four passengers in the car were too thunderstruck to move for a few moments but finally they ran after the detectives who had just left. The detectives returned and pounded the convicts into submission with batons and fists and then started for Kingston with them.

CO-PARTNERSHIP MOVEMENT TO SOLVE THE COAL CRISIS

Petition Being Prepared for Submission to Premier Asquith.

London, March 12.—(C.A.P. Cable.)—A movement is afoot to petition Premier Asquith forthwith to appoint a royal commission to enquire into the question of industrial co-partnership as a likely solution of the present industrial unrest. Two hundred and forty members of Parliament, including 157 Unionists, 77 Liberals, 10 Nationalists and 2 Laborites support the petition.

The Labor party oppose the project on the grounds that it would undermine trades unionism.

The National Miners' Federation unanimously decided last night to accept the Prime Minister's invitation to meet the coal owners and the representatives of the Government at a round-table conference, at which Premier Asquith will preside. The acceptance was coupled, with the reservation that the principle of a minimum wage will be excluded from the discussion. It is understood that this means that the granting of a minimum wage will be assumed to have been conceded, but it does not imply that the schedule of minimum wage rates drawn up by the Miners' Federation will not be discussed.

The coal owners have not yet accepted the Premier's invitation. They will meet this morning to decide this question. Even if the Welsh and Scotch owners stand aloof, it is taken for granted that the English owners will accept. The conference will be held this afternoon, but the miners' representatives are not authorized to agree to any reduction of the federation's schedule of rates, or to any scheme determining the rates without a new ballot of the miners. There a settlement of the strike can be attained only if the owners agree to accept the miners' schedule, which is very improbable.

The most hoped for from the conference is that some basis of agreement will be reached for the fixing of a minimum rate, which will be submitted to a ballot of the miners.

That the strike will continue for another week is now regarded by the most optimistic as inevitable. It practically has been determined that the coal strike must be ended by agreement, or legislation will be invoked to bring about compulsory peace. A time limit for the negotiations is demanded on all sides, and Thursday is expected to see Parliamentary action unless the extremists on both sides relax in the meantime sufficiently to enable a settlement by consent.

At present almost the entire nation is under notice to quit work. Including the miners there are probably nearly 2,000,000 persons idle, and, should the strike be prolonged throughout next week, perhaps half of Great Britain's workers will be unemployed. The distress is widespread now, and the drain on funds is so great that some of the unions are already showing distress signals. The courts are refusing to grant judgment and summonses on the ground that the common necessaries of life are beyond the reach of many of the poor.

Germany's Strike.

Berlin, March 12.—The coal strike went into effect in the Westphalian coal mines yesterday, when about fifty per cent. of the 350,000 miners struck. In some districts the cessation was practically complete, while in others only from 15 to 20 per cent. struck. Large forces of police are on duty everywhere.

The conflict is quite as much between leaders of the rival Socialist and non-Socialist unions as with the mine owners. The leaders of the non-Socialist Christian union are so far holding their followers well in hand.

Coal Held Up at Border.

Niagara Falls Ont., March 12.—The railroads are holding at least 500 tons of both hard and soft coal on the American side consigned Canadian points. The agreement between the miners and operators expires April 1, and anticipating a strike, the railroads are holding up shipments, they having the legal right to confiscate coal in transit.

Suffragettes at U. S. Senate.

Washington, March 12.—Women's suffrage will be advocated before the Senate suffrage committee next Wednesday, by a delegation of the most prominent women in American public life. Arrangements have been made for an open hearing and addresses will be made by Rev. Anna Shaw, Miss Jane Adams, Prof. Sophemisba B. Breckenridge of the University of Chicago and others.

CATHEDRAL IS SHAKY

Moscow, March 11.—The Moscow Cathedrel of St. Basil, one of the most famous buildings in the world, and rivalling the celebrated leaning tower of Pisa in interest, is in a deplorable state. A report just made of its conditions by a celebrated architect shows that if prompt measures are not taken this wonderful building is likely to share the fate of the Campanile at Venice.

WILL PAY THE EXPLORER'S DEBTS

Norwegians to Assist Discoverer of the South Pole.

Christiania, March 12.—It is announced that Capt. Roald Amundsen's debts, on account of his south polar expedition, amount to approximately $18,000.

A special committee which has been appointed has sent out an appeal to Norwegians to subscribe this amount, so as to enable the committee to cable Amundsen at Hobart that his debts have been paid.

Later a national subscription for the benefit of the explorer will be opened.

Succession Dues Decrease.

Toronto, March 12.—During February there has been a slump in the receipt of succession dues at the Parliament Buildings. For the past month this revenue totalled $39,980.75, as against $59,644,64. From Oct. 31, 1911, to end of February of this year, the succession dues amounted to $231,444.90, as compared with $253,242.67 during the same period last year.

Trailing Miss Pankhurst.

New York, March 12.—Scotland Yard yesterday asked the New York police to notify them of arrival of any person answering description of the much-wanted suffragette leader, Christabel Pankhurst.

It is believed there that she may have come here to join her sister Sylvia, now lecturing in America.

RASH ACT WAS FATAL

Kingston Man Cut His Throat While Visiting Daughter

Special to the Review.

Kingston, March 12—Henry Watts, of this city, who cut his throat last Thursday while visiting his daughter Mrs. Clark at Glenvale, died this morning.

MINISTER OF LABOR WILL TOUR

Ottawa, March 12.—Hon. T. W. Crothers, Minister of Labor, has decided this summer to make a tour of Canada from Halifax to Vancouver, visiting all of the industrial centres. He plans to go into the mines, to inspect the great factories and to see for himself the conditions under which the laboring men are working.

Mr. Crothers feels that if he is to make his position as Minister of Labor valuable to employer and employe, he must meet men both in their working shops and offices. In the west Mr. Crothers will visit the factories of Winnipeg and other points, while he is planning to inspect all the coal mines of Alberta and British Columbia, which have been the scene of so many industrial disputes during recent years.

Belleville G.T.R. Men Aroused.

Belleville, March 12.—A committee of the local branch of the G.T.R. trainmen has been appointed to confer with similar committees in reference to dealing with the matter of the proposed cut in wages. Considerable interest is manifested here as to the outcome of the proposition.

Try a Review Want ad. It pays.

SIR JAMES WOULD MAKE ALL INSTITUTIONS PAY TAXES

Fort William Wants Exemption For its Y.M.C.A.—Ne Temere in the House.

Toronto, March 12.—Sir James Whitney expressed his views very forcibly in the Legislature yesterday afternoon on the question of exempting institutions of various kinds from school taxation. The question arose over the bill introduced by C. W. Jarvis to incorporate the new Y.M.C.A. of Fort William, a clause in the bill proposing to exempt the association from all school and municipal taxation except for local improvements.

Sam Clark (West Northumberland) objected to this clause on the ground that municipalities had no right to exempt institutions of this kind. Just at this stage Sir James Whitney had his say:

"If left to me entirely I wouldn't allow any institution in the province to be exempt from school taxation," declared the Premier. "I don't care whether they are Y.M.C.A. or Y.M.C.B.'s."

Sir James intimated, however, that because the institution in question was associated with educational work the committee had allowed it to pass.

Allan Studholme said the clause should be eliminated. Hamilton Y.M.C.A. was not exempt from school taxation and Port Arthur had no claim for privileges that the Mountain City could not have.

C. R. McKeown (Dufferin) said that the bill had passed the private bills committee, of which he was a member, because a similar concession had previously been granted Port Arthur, and it was thought inadvisable to discriminate in this case on account of the proximity of the two cities.

"From the remarks of my hon. friend I conclude that the door is open then," said Mr. Clark. "Everybody wanting exemption for similar purposes will refer to this one."

Sir James Whitney admitted that the remarks of the member for West Northumberland were technically correct. "The only way to do in future," added Sir James, "is to quietly drop all proposals of this nature. We can say this far and no further will we go." The House came to the conclusion that the bill should go to the third reading, anyway, and A. Studholme will likely move that the reference to exemption from school taxation be eliminated from the clause. Mr. Jarvis, the member for Fort William, was not in the House when the discussion was on.

J. C. Elliott (West Middlesex) is now turning his attention to the ne temere decree. Mr. Elliott gives notice of motion that he will on Thursday enquire of the Ministry as to whether it is the Government's intention to accept the invitation of the Federal Government to appoint counsel to represent Ontario at the hearing of the case before the Supreme Court. Mr. Elliott also wants to know the name of the counsel, if counsel has already been appointed, and he wants to know further if instructions have been given to the Ontario counsel to either support or oppose the right of the Dominion to enact the legislation referred to.

Then Mr. Marshall's request was read for a return of all copies of correspondence since January, 1911, between the Minister of Education or the Educational Department and any of the trustees of the Township of Springer with regard to the teaching of French in the schools of that township. Hon. Dr. Pyne replied. The Minister said that there was a dispute between the school sections in that locality and he didn't think there was much use in perpetuating the unpleasantness. However, if Mr. Marshall desired he could have access to the correspondence, which was in the Minister's office.

A formal order was passed by the House on the motion of Dr. Pyne, with regard to the establishment of the Provincial Museum.

Home Rule Next Month.

London, March 12.—The home rule bill for Ireland is to be introduced into the House of Commons on April 9 or April 11. Premier Asquith made this definite promise yesterday afternoon, adding:

"This is the date when it has always been intended and contemplated by the Government to introduce the home rule bill. I have always thought this bill, having regard to its magnitude and complexity, is by far the most important to be brought in this session and that it ought to be produced under conditions which will secure adequate Parliamentary discussion."

No Welcome For U. S. Soldiers.

Niagara Falls, N.Y., March 12.—The Niagara County Board of Supervisors yesterday decided to vigorously protest against the plans of the New York State militia department to hold a training camp at Youngstown during the Canadian encampment at Niagara, directly across the river.

American councillors claim the meeting of Canadian militiamen gives farmers plenty of trouble without Yankee troops being thrust upon them.

Outlook Clears In Mexico.

Mexico City, March 12.—A decided feeling or optimism pervaded the capital yesterday affecting foreigners and Mexicans alike. The popular demonstration of loyalty to the Government has had the effect of stiffening the backs of Government and private citizens. This fact was manifest yesterday by a material increase in the number of enlistments for army service. Business men generally profess to see a great improvement in the outlook.

GENERAL MUST DIE

Port au Prince, Hayti, March 12.—General Jules Coicou, the former military tyrant of Hayti, was condemned to death today by a jury in the Criminal Court on the charge of having been the principal author of the fusilade of March 15, 1908, in which ten persons, including three of his own brothers, were shot to death.

The accomplices of Coicou in the terrible crime were acquitted. The date of execution has not been settled.

PEKIN HAS ARMED PEACE

Troops Are Having Trouble Keeping Down Anarchy and Disorder.

Pekin, March 12.—Armed peace holds sway throughout the city. The legation quarter is closed and cannon have been mounted on the walls. Sunday the old style troops started disorders and were ordered yesterday to proceed to Tungho. They tore down the republican flags a few hours before the inauguration of Yuan Shi Kai as President of the republic. Many natives followed suit and for a time the authorities were confronted with a serious situation. The Manchu garrison and part of the third division are acting as a bodyguard to President Yuan.

The Manchus hold the site of the destroyed gate to the Imperial City with Maxims, permitting only merchants to enter. Shooting occurs occasionally and decapitations daily. Frequently at night time fires are visible in the hipps from the city walls, probably the houses of farmers are being looted. Few shops are open and the wealthy Chinese remain in legation quarter. If the leading men were not able to take refuge behind a foreign gun whenever trouble occurred, peace might come more quickly.

For the past several weeks repetitions of the stories of anarchy, atrocities and sufferings have been received from all the northern provinces. The legations are of the opinion that the Nanking Cabinet is not capable of re-establishing order, unless the republican armies are brought to the north, and question the Cabinea's ability to assemble sufficient force for that purpose.

BRIDE WENT UP IN THE AIR

Honeymoon of French Couple Commenced in Aeroplane.

Paris, March 12.—The first authentic aeroplane wedding is told of today in a despatch from Avignon. The bridegroom, a well-known aviator named Voisier, flew to a field next to the church where the wedding took place.

Directly after the ceremony the airman and his bride, who was Mlle. Bremond, mounted the two-seated Bleriot and flew the 100 and more miles separating Avignon from Nice, where the first part of the honeymoon is to be passed.

Voisier hopes to fly on to Genoa and home to Paris with his wife.

Hotel at Guelph Burned.

Guelph, March 12.—Fire completely gutted the City Hotel yesterday, and at 1 o'clock the fire was still burning, but under control. The roof had caved in, but the stone walls were standing. The Guelph Carpet Co. had $25,000 worth of carpets stored in the building. The loss on the building is about $27,000. Most of the contents were also lost.

NOVA SCOTIA TO ENCOURAGE SETTLERS

Halifax, March 12.—In the House of Assembly yesterday the Government introduced a bill entitled "An Act for the Encouragement of Settlement on Farm Lands," which provides that the Government may buy up lands in farming districts of the province, divide them up into farms, and sell such farms upon terms to be approved by the Lieutenant-Governor in council.

For the carrying out of this the Government is authorized to borrow the sum of $200,000, and the operations of the Government under this act are to be reported by the Provincial Secretary from year to year.

Kingston Liberal Gets Contract.

Kingston, March 12.—His tender being lowest, Michael Sullivan, this city, Liberal contractor for the past fifteen years, was awarded the contract for erecting the new dormitory at the Royal Military College. The new dormitory will give accommodation for 175 cadets. The college has been cramped for room for some time.

PROBABILITIES

Northwest winds with light snow falls. Wednesday, Northwest winds, fair and cold.

CURE THAT COLD

This is Quickly and Pleasantly Accomplished If You Use

Catarrhozone

Catarrhozone will relieve colds almost instantly and in a few hours will cure completely. If it is old-standing asthma or bronchitis its quick and curative results will astonish you.

Catarrhozone is little drops of healing medicine carried by air to the sore and diseased parts. You breathe them through the Catarrhozone Inhaler and they spread throughout all the air passages.

It is sense as well as healing, because Catarrhozone is a germ killer, a healer and restorer of weak tissues, because it is so prompt and certain in its results, better than any other remedy for diseases of the throat, lungs and bronchial tubes, and it is neither alcohol, morphia or cocaine—all dangerous.

Tens of thousands have used Catarrhozone without reporting a single case of failure to cure diseases of the throat and lungs and nasal passages. Remember, CATARRHOZONE is taken in air, and is little drops of healing for the throat, nasal passages, or lungs. It always does cure—is guaranteed.

Price 25c., 50c., and $1.00 at all druggists or by mail, post paid, from The Catarrhozone Co., Buffalo, N.Y., and Kingston, Canada.

The Daily Review

TUESDAY, MARCH 12, 1912.

COMMERCIAL FAILURES

Commercial failures in Canada as reported by R. G. Dun & Co., continue to fall well below the average, although still being considerably above the unusually light mortality in the early months of 1911. During February there were 143 insolvencies with an aggregate indebtedness of $663,028, against 108 suspensions with liabilities of $560,604 in the previous year, 142 for $1,789,067 in 1910 and 156 for $1,059,571 in 1909. In manufacturing lines the number of defaults last month was practically the same as in the two years immediately preceding, 28 embarrassments comparing with 27 and 25, respectively, while total liabilities of $197,394 contrasted with $100,365 in 1911 and $909,613 in 1910. There were 37 failures in this division in February, 1909, but the amount did not exceed $275,000. Last month's record in the trading class was particularly gratifying in respect to the sum of money involved, 108 concerns reported bankrupt owing only $451,434, whereas in the previous year the indebtedness was almost identical, notwithstanding that the insolvencies were fewer by 30 in number. During 1910 there were 115 similar suspensions for $800,154 and in 1909 the failures numbered 117 and provided $765,348 of liabilities. In the division of brokers the mortality was above the average, 7 defaults comparing with 3 a year ago and only 2 each in 1910 and 1909; but the $14,200 involved was smaller than in either of the two latter years and only slightly above the figures for 1911.

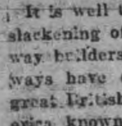
The number of commercial failures in the United States in February, 1,539, was greater than in the corresponding month of any previous year, with the exception of 1908. The total of liabilities amounted to $21,477,923, a sum which has been exceeded in February in only two years, namely, 1910, when the amount was $27,434,829, and in 1908 when the amount was $27,064,571. There was a large increase in manufacturing defaults, the number being 387, the largest, with the exception of 1908, and the liabilities $11,245,116, which is only exceeded by the record of 1908 and 1910. The number of trading defaults was 1,092, being exceeded only by the record of 1908, when there were 1,175 failures; the total liabilities, $8,792,306, were larger than in any preceding February, with the exception of 1911, when they amounted to $10,010,117. There were sixty failures among agents and brokers, the liabilities being $1,440,501, comparing with $739,757 in 1911, but being much less than in the preceding three years.

RAILWAY EXPANSION

The Financial Post takes a very hopeful view of development in Canada. It says—

It is well to know that there is no slackening of the hands of the railway builders of Canada. What railways have done to build up that great British dominion in North America known as Canada is a tale which has often been told, but perhaps stay-at-home Britons hardly realize either the immensity of the work which has already been accomplished or the unresting energy with which has often been told, but it is estimated that during the past fourteen or fifteen years in the Canadian Northern Railway has constructed at least a mile per day—that is, taking the average of its work during that period. Sir William Mackenzie, the president of the company, has recently announced that $20,000,000 is to be spent this year alone by his line on railway construction in Western Canada—a pretty big order. Meanwhile the Canadian Pacific and the Grand Trunk Pacific railways will both be active in this part of the Dominion. It is understood that each of these bodies is prepared to spend some $20,000,000 on pushing their respective lines throughout the three western provinces of Canada and also in British Columbia. This program, therefore, includes the outlay of some $65,000,000 on railway making alone in Western Canada during the present year.

Month by month, Canada's great trunk lines are throwing out branches in all parts of the fertile western area, and when the two coworkers of the Canadian Pacific have achieved their ambition of establishing great terminals on the Pacific coast the work of their eastern branches will be much lightened, because abundant sea transport will then be available for such of the wheat surplus as is harvested in the westerly districts of Alberta and Saskatchewan. These cargoes and parcels of wheat will find their way to the Pacific and eastwards by way of the Panama Canal, which promises to effect a greater revolution in the world's trade than was caused by the Suez canal.



Wood's Phosphodine, *The Great English Remedy.* Tones and invigorates the whole nervous system, makes new Blood in old Veins. *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhea, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. *New pamphlet mailed free.* **The Wood Medicine Co. Toronto, Ont.** *(formerly Windsor)*

NOTE AND COMMENT

New York Herald.

Official programs already formulated by foreign sea Powers for the increase of their fleets must discourage even the blithest of those optimists that still cling to the hope of a happy day when by common agreement naval armament will be limited and the lions and lambs will lie down together without the lambs being inside the lions. Between 1913 and 1920 an expenditure of eight hundred millions of dollars is accepted as necessary in the calculations of Admiralties.

Some of the members of Brantford's City Council are said to hesitate over the appointment of an industrial commissioner for Brantford, even at the modest salary of $1000, with a portion of the same to be paid by the Board of Trade. If The Expositor has any protest to raise, it is that the amount which the city contemplates spending is entirely inadequate, considering the responsibility of the office and the amount paid elsewhere for similar work. In this matter, what is worth doing at all is worth doing well—Brantford Expositor.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucuous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifers, acting directly on the mucuous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

Take Hall's Family Pills for constipation.

Alberta Publicity Car at Peterboro March 13th

The Camrose Publicity Club have arranged for a special Grand Trunk Pacific Tourist Car to contain the exhibits of the province of Alberta, to tour Eastern Canada with a view of attracting further settlement to that province.

This car will arrive in Peterboro at 8.10 a.m., March 13th., and will remain on the station siding at the Grand Trunk Depot until 5.25 p.m. the same day.

Everybody interested in this great country are cordially invited to pay this car a visit.

A BITTER PILL.

Le Pays Says Bilingual School Report Hits Home.

Montreal, March 11.—Le Pays says that, after all, the brutal campaign of Mgr. Fallon of London against the bilingual schools of Ontario is justified by the report just presented by Dr. Merchant, and in Mr. Langlois' sarcastic vein he says the "first people in the world," have received another black eye.

Le Pays says the report is made in a very impartial manner, yet the brutal fact is there that the French-Canadian schools of Ontario are much inferior to the English schools.

"How is it that we cannot have better schools? Here in Quebec the inferiority of our schools is most patent. We are always claiming separate schools, yet we are their worst enemies.

"If, for instance, they were abolished in Manitoba, and are being attacked in Ontario, it is because they are greatly inferior to the others.

"When Mgr. Fallon began his campaign against the bilingual schools and against the French language, our compatriots of Ontario protested against the assertions of the Bishop of London, yet to-day they are obliged to admit that Mgr. Fallon was right in more than one point," says Le Pays.

The above is all the most significant as Le Pays condemned very severely Mgr. Fallon at the time.

THE MARKET

Latest Quotations in Grain Dairy Products, Live Stock Etc.

CHICAGO, March 11.—Strength in the feeding grains helped to offset to-day for speculators on the bull side the rather discouraging effect of the unresponsive foreign market. At the end of the day wheat was 1-8c higher to 3-8c decline, corn was 1-4 to 3-8c gain, oats were up 1-4 to 3-4c and hog products ran from 2 1-2 down to 7 1-2 to 10c greater in cost.

The Liverpool market closed to-day on wheat ¼d to ¾d higher than Saturday, and corn ¼d to ¾d higher. Paris wheat closed ⅛c higher, Antwerp ⅝c higher, Berlin ⅝c higher, and Budapest ⅛c lower.

Montreal Grain and Produce.

MONTREAL, March 11.—The demand from foreign buyers for Manitoba spring wheat and oats was quieter, but cables were firm and prices bid showed no change. A little business was worked to the United Kingdom. The local market for oats is firm, with a fair amount of business doing. American corn is very strong and 1½c per bushel higher. An active trade continues to be done in flour, there being a good demand and export account. Millfeed is still scarce and firm. Butter quiet, demand chiefly for small lots. Eggs weak and 5c per dozen lower, on more liberal supplies. Provisions steady.

Corn—American No. 2 yellow, 77½c.

Oats—Canadian western No. 2, 53c to 53½c; do., No. 3, 51c to 51½c; extra No. 1 feed, 52c to 52½c; No. 2 local white, 50½c to 51c; No. 3 local white, 49½c to 50c; No. 4 local white, 48½c to 49c.

Barley—Malting, $1.05 to $1.10.

Buckwheat—No. 2, 72c to 73c.

Flour—Man. spring wheat patents, firsts, $5.70; seconds, $5.20; strong bakers, $5; winter patents, choice, $5.10 to $5.35; straight rollers, $4.65 to $4.75; do., bags, $2.15 to $2.25.

Rolled oats—Barrels, $5.25; bags, 90 lbs., $2.50.

Millfeed—Bran, $25; shorts, $27; middlings, $29; mouillie, $30 to $34.

Hay—No. 2 per ton car lots, $15 to $15.50.

Cheese—Finest westerns, 15c to 15½c; finest easterns, 14½c to 15c.

Butter—Choicest creamery, 33c to 34c; seconds, 32½c to 33c.

Eggs—Fresh, 25c to 27c.

Potatoes—Per bag, car lots, $1.65 to $1.70.

CATTLE MARKETS.

Union Stock Yards.

TORONTO, March 11.—Receipts of live stock at the Union Stock Yards were 87 carloads, comprising 1656 cattle, 229 hogs, 515 sheep and lambs, 58 calves and 85 horses.

Exporters.

Geo. B. Campbell, for Morris & Co., bought 36 London export steers, 1300 lbs. each, at $7.25; also 100 steers for Liverpool, 1180 to 1190 lbs. each, at $6.80.

Alex. McIntosh bought 75 cattle for J. Shamberg & Son—steers at $6.90 and bulls at $5 to $5.60.

Butchers.

Best steers, $6.50 to $6.85; prime lots, $6.15 to $6.30; good, $5.80 to $6.10; medium, $5.25 to $5.75; common, $5 to $5.25; inferior, $4.50 to $4.80; cows, $3 to $5.25, and extra quality cows, $5.30 to $5.60; bulls, $4 to $5.60.

Milkers and Springers.

Not many on sale; prices ranged from $40 to $65 each.

Veal Calves.

Veal calves sold at $4 to $8, and one or two new, milk-fed of extra quality brought $9 per cwt.

Sheep and Lambs.

Sheep, ewes, sold at $4 to $5.25, with a few selects at $5.50; rams and culls, $3.50 to $4.50; lambs, $6 to $6.75, and one select lot of 16 at $8.40.

Hogs.

W. J. Johnston reported hogs at this market at $7.10 for selects, fed and watered, and $6.65 to drovers for hogs f.o.b. cars at country points.

Montreal Live Stock.

MONTREAL, March 11.—At the Montreal Stock Yards west end market, the receipts of live stock for the week ending March 9 were 1300 cattle, 330 sheep and lambs, 3000 hogs and 1375 calves. The offerings this morning were 1000 cattle, 200 sheep and lambs, 1800 hogs and 500 calves.

A stronger feeling prevailed in the market for cattle this morning, and prices for some grades were 10c higher, but there was no general advance. The weather was favorable, and the gathering of buyers was large, consequently an active trade was done. The quality of the stock was superior.

A load of very choice steers, weighing on an average of 1350 to 1400 pounds each, was held at $7.40 at the opening of the trade, but later it was offered at $7.25, and even this figure did not interest buyers. The top price paid for choice steers in small lots was $7, and some full loads were placed at $6.75 per 100 pounds. The demand was principally for steers weighing from 900 to 1000 pounds each, and full loads of this class were sold freely at $6 to $6.25. There were some very fat cows on the market, which were bought for shipment to Quebec, at $5.50, and bulls weighing from 1500 to 1800 pounds each, at $5 to $5.50 per 100 pounds. Prices for common ruled about steady.

The tone of the market for hogs was stronger, and prices were 10c per 100 lbs. higher, which was attributed to the increased demand from some packers, who have been of late to some extent in anticipation of lower prices.

Owing to the very limited supply of sheep coming forward, a stronger feeling developed in the market, and prices advanced 25c per 100 pounds. The demand was fair and sales of ewes were made at $5 to $5.25 per 100 pounds. Lambs were in good demand and sold for $7.40 per 100 pounds in some instances.

The demand for calves was good, of which the supply is steadily increasing; but, as there is no glut of good to choice milk-fed stock, prices for such are well maintained at from $10 to $15 each.

Butchers' cattle, choice, $6.75 to $7; do., medium, $5 to $6.25; do., common, $4 to $4.75; canners, $2.75 to $4.35; butchers' cattle, choice cows, $5.25 to $5.50; do., medium, $3.50 to $4.50; do., bulls, $3.50 to $5.50; milkers, choice, each, $75 to $80; do., common and medium, each, $50 to $65; springers, $30 to $45.

Sheep, ewes, $5 to $5.25; bucks and culls, $4.25 to $4.50; lambs, $6.70 to $7.10.

Hogs, f.o.b., $7.75 to $7.85.

Calves, $3 to $15.

East Buffalo Cattle Market.

EAST BUFFALO, March 11.—Cattle—Receipts, 4500; market, choice fairly active; others slow, 15c to 25c lower; prime steers, $7.50 to $7.75; butcher grades, $5.00 to $6.50; cows, $3.25 to $5.50.

Calves—Receipts, 2000; market fairly active, 25c lower; cull to choice, $5.50 to $9.

Sheep and Lambs—Receipts, 20,000; market active, 5c to 15c higher; choice lambs, $7.50 to $7.60; cull to fair, $7.25 to $7.40; yearlings, $6 to $6.35; sheep, $2 to $5.85.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS Bears the Signature of Chas. H. Fletcher.

PONTYPOOL OCTOGENARIANS CELEBRATE DIAMOND WEDDING

Are the Parents of Mr. Geo. E. Williamson of This City

Mr. and Mrs. Jason Williamson, of Pontypool, observed an interesting event yesterday at their home when surrounded by members of their family and a number of friends, they celebrated their diamond wedding.

Their children present were, Mr. Eli Williamson, of Lindsay; Mrs. John Carroll, Emily; Mrs. McKiver, Smith; and Mr. George E. Williamson of this city. Other children who were unable to be present are T. H. Williamson, Aylmer street, Mrs. J. A McPhee, Alpena, Michigan and Mrs. Porter, Wallaceburg.

Mr. and Mrs. Williamson were born in Cavan township and were married in Peterboro, March 11, 1852.

Mr. Williamson is 84 years of age, while Mrs. Williamson is but two years younger. They have spent the past forty-five years in Pontypool, and are now enjoying the fruits of an active farm life.

THE 57TH REGIMENT

Headquarters, Peterborough,
12th March, 1912.

Orders by
The Officer Commanding
57th Regiment
Peterborough Rangers.

1. The following extracts from General and Militia Orders are promulgated for the information of the regiment.

"G. O. No. 165, 10th Oct., 1911.

57th Regiment Peterborough Rangers:—

To be Lieutenant, Maurice Henry Park, gentleman. 12th May, 1911.

G. O. No. 16, 2nd Jan., 1912.

57th Regiment Peterborough Rangers:—

To be Captain, Lieutenant A. G. Carruthers, vice J. Mills, promoted 9th December, 1911.

To be provisional Lieutenant, Sergeants Andrew Ferguson Hagerman and John Armstrong Brightman, 9th December, 1911.

G.O No. 202, 5th December, 1911.

57th Regiment Peterborough Rangers:—

The period of tenure of the appointment of Captain and Brevet Major D. Walker as adjutant is extended to 10th October, 1912.

G.O. No. 139, 22nd August, 1911.

57th Regiment Peterborough Rangers:—

To be Major, Captain and Brevet-Major J. Mills, vice E. B. Clegg, promoted, 20th April, 1911.

M. O., 31st, 20th Jan., 1912.

His Majesty the King, has been graciously pleased to approve of the following alliance of Canadian Militia Regiments with Regiments of the British Army, viz:—

57th Regiment, Peterborough Rangers with the Duke of Cambridge's Own (Middlesex Regiment.)

G.O. No. 24, 1st Feb., 1912. Organization, the 9th Infantry Brigade is re-constituted as follows;

9th Infantry Brigade, 40th, 45th, 46th, and 57th Regiments. Divisional Order No. 42, 1912.

The examination of the Evening SignallingClass at Peterborough, Ont., will commmence on Monday, the 18th of March, at 8 p.m.

Lieut. A. Stroud, Canadian Signalling Corps, has been detailed to conduct this examination.

2. The Commanding Officer authorizes and directs that the officers of the Regiment be posted to the respective companies as follows;—

A. Co.—Captain Cluxton, Lieutenants J. W. Kelly and G. S. Cameron.

B. Co.—Captain Watt, Lieutenant R. M. Glover.

C. Co.—Captain Carruthers, Lieutenant Comstock.

D. Co.—Captain Hounsell, Lieutenants J. Gemmell and C. R. Cameron.

E. Co.—Captain Langford, Lieutenant Meyers.

F. Co.—Captain McLean, Lieutenants K. G. Lech and Ackerman.

G. Co.—Captain Higgins, Lieutenants Hall and Hagerman.

H. Co.—Captain McPherson, Lieutenants Park and C. K. Lech.

3. All previous "postings" not in accordance with the foregoing order are hereby cancelled.

4. The Commanding Officer has been pleased to transfer Staff Sergeant Matchett from the position of Sergeant Cook to that of Orderly Room Sergant and Staff Sergeant Elcome from the position of Orderly Room Sergeant to that of Sergeant Cook.

D. Walker, Bt. Major,
Adjutant.

Lady Betty Across the Water

By C. N. & A. M. WILLIAMSON

Copyright, 1906, by McClure, Phillips & Co.

"Yes, we like things out of season in America, so we bring out most of our buds in October. Then they have the whole winter to bloom in, you know, before they're grafted on another stalk."

"Here comes Cora herself, now, in Tom Doremus' Electra," said Mrs. Ess Kay. "It must make Mrs. Van der Windt wild, his going so much with the Pitchley lot, as she can't stand them and would keep Cora and Carolyn out of everything in Newport if she could."

I didn't wonder at Mr. Doremus, though, as I bowed to him and found time to know exactly how Mrs. Pitchley looked and what she wore, in the half second before our two motors flashed apart. I thought her splendidly handsome, and I liked the gleam in her dark gray eyes, which promised fun. But just then our chauffeur slowed down before a house which seemed to cover about a quarter of a mile of ground.

"Welcome to my little cottage, dear Betty," said Mrs. Ess Kay.

If this is her idea of a cottage, I don't know what her conception of a castle must be! And yet, when you come to analyze it, there really is something about the place which suggests a kind of glorified, Titanic cottage, rather too grand for a king, unless he were a fairy king, but possibly suited to an emperor. But I do believe rich Americans think that what is good enough for a king is only just good enough for them at a pinch—and I've heard Mrs. Ess Kay call Windsor dreadfully shabby.

Her "cottage" looks as if it were built of gray satinwood, but it is really shingles, and shingles can be the loveliest material imaginable, it seems, for the covering of a house, especially with a foundation of granite sparkling with mica. They are soft and shimmery in their tints these shingles as a dove's breast; some are dark, some light, but all are feathery in effect, and altogether the Moorings, with its gables and porches and bow windows and balconies and wide verandas, gives the effect of a huge, ruffly and motherly gray bird with her wings spread wide to shelter her birdlings.

I felt quite content to be one of the birdlings as I went in. I am sorry to say I'm not a bit fonder of Mrs. Ess Kay than I was on the ship, but the "cottage" looked so hospitable and jolly and the air and the sunshine sparkled so that I couldn't help feeling that it was pleasant to be young and alive and on the threshold of amusing new adventures. I was happy, and I would have liked to sing I wanted to be very good friends with everybody, including Potter, and I fell in love with the house the minute I set foot on the front veranda.

The great gorgeous palace in New York is far grander, of course, and must have cost four or five times as much, still only very rich people could have built and furnished the Moorings or afford to live in it.

There is a big square hall, not to be compared to ours at Battlemead, of course, though the Persian rugs and the pictures are fine, and the staircase is peculiarly charming. It looks a staircase made for sitting out dances with men you like, and evidently it knows its value as a flirting place and lives up to it, for there are fat, bright colored silk and satin cushions resting invitingly against the wall on each one of the shallow steps. Most of the rooms are enormous and consist half of quaint leaded windows with seats underneath. But better than anything else is the veranda, which runs all round the house and is not only as wide as a good sized room, but is fitted up like a succession of rooms. The delicate bead curtains that glitter like a rain of green and white and rose colored jewels give you a feeling of privacy, for you can see through them without being seen. The satiny gray floor is half covered with exquisite rugs, and everywhere there are oriental tables and chairs and cushiony sofas and green hammocks with frilly pink pillows and screens and bowers of palms and bright azaleas. I should like to live on that veranda swinging slowly in a hammock and looking through the cascade of glittering beads at the sea and sky. I spoke this thought out aloud, but Potter said I would soon learn that there wasn't much time in Newport for looking at the sea and sky.

"Why, isn't that partly what you come to Newport for?" I asked.

They all laughed. "You just wait and find out," answered Potter. "And we'll work you pretty hard doing it."

Mrs. Ess Kay and Sally took me up to show me my room and theirs, and Potter said that he would go around and look in at the Casino, but he would come back and have tea with us as soon as he had seen "what there was doing."

PUMPING WATER BY SUN POWER

The sandy and sun-baked wastes of the Nile, the arid lands of the Texas Panhandle, the nitrate fields of Chile, the deserts of Africa, in short, those dried out portions of the earth, which for centuries have resisted the efforts of the farmer to be reclaimed by the very thing that has made them desolate—the sun.

There was shipped recently from Philadelphia to Egypt the first section of the first sun-power plant ever invented and put to practical use. This is not the experiment of a dreamer but the completed and tested work—after months of practical use in Tacony, a suburb of Philadelphia—of Frank Shuman, of Tacony. Nor is this wonderful plant being sent to Egypt hap-hazard: it is going to fill an order of the Egyptian government, an order given after a board of expert commissioners had spent months at the Tacony plant as special investigators for the Khedive. It is backed by British capital, placed only after the most exhaustive investigation of the practical use of the sun-power plant.

The Egyptian order was the first but not the only one which has been placed in the past several months. With the assurance from the Khedive's Commissioners and from the English financiers, orders have begun to pour in from every section of the globe until Mr. Shuman has found it necessary to begin the erection of a plant to make sun-power plants. The work on this plant is starting now in Philadelphia.

This, in brief, is the story of the ultimate success of years of effort, of work and of testing, but it gives only a slight idea of the great factor that has entered agricultural and manufacturing development and what this wonderful sun-ray-harnessing machinery will do.

The main object of the sun-power plant is to produce practical power at the least possible cost. The idea of "harnessing the sun" has been the dream of inventors and the desire of the commercial giants for years. Some efforts have met with a certain amount of success but not with practical success. Toys, almost, have been invented which, were they used for commercial purposes would prove far too costly to be practicable.—Technical World, Chicago.

Increase For German Navy.

Cologne, Germany, March 11.—The text of the proposed new naval law is published in The Volks Zeitung that, under its provisions, the German navy is to be expanded from 58 to 61 big ships, and there are also to be 40 protected cruisers instead of 38.

The new law provides that the navy shall be formed as follows:

A battle fleet consisting of a flagship and five squadrons of eight battleships each, ten first-class cruisers and 30 protected cruisers.

The fleet for service in foreign waters is to be composed of ten first-class cruisers and ten protected cruisers.

Three active squadrons and one reserve squadron, together with a flagship, making in all 33 battleships, are to be kept constantly in commission.

The chief feature of the law, aside from the increase in the number of battleships, is the stationing of two armored cruisers abroad. [illegible]

Last year the business of the "SALADA" Tea Co. increased 1,090,589 lbs. over the year previous. In the first seven weeks of this year their increase has averaged over 14,00 lbs per week.

EARL GREY COMPETITION

Sixteen Entries But Four Must be Eliminated

Ottawa, March 12.—Sixteen entries, eleven dramatic and five musical, have been received for the Earl Grey Musical and Dramatic Competition, which will be held in the Russell Theatre, Ottawa, the week of April 15.

As only twelve can go on in the time, four will have to be eliminated, though it is possible that some of those entered may find it impossible to go on.

There are four Ottawa entries, two in each division, the Orpheus Glee Club, and the Ottawa Symphony Orchestra in the musical, and the Walters Dramatic Club and the Ottawa Players Club in the dramatic. Preliminary judging will likely eliminate one of the Ottawa dramatic companies.

The other musical entrants are the Pembroke Methodist Church Choir, in "The Merry Bells of Yule" the Presbyterian Church Choir, of Brockville, and the Hamilton Operatic Society in "Florodora."

The other dramatic entrants include the Edmonton Dramatic Club; the London Dramatic Club, Montreal; the Strollers Dramatic Club, Winnipeg; Bonayne's Amateur Players, Montreal; Capt. Prideaux's Amateur Dramatic Club, Kingston; the Green Room Club, of Moosejaw; the London Conservatory of Music and School of Elocution; and the Royalist Dramatic Club of St. John, N.B.

SUFFERED THREE YEARS

Till Dr. Morse's Indian Root Pills cured his Kidney Trouble

There are few diseases that cause more acute suffering than Kidney Trouble, and Mr. F. A. Thomas, of Sudbury Ont., is one of those who know it. He writes:

"For over three years I suffered from kidney disease. First I thought I had sprained my back, for suddenly the pain would catch the small of my back and it would be impossible for me to straighten myself up for several minutes. A dull ache across the kidneys was always present, my urine was thick and cloudy, and passing it caused a burning, scalding pain. Tried medicines, but they failed. I was advised to try Dr. Morse's Indian Root Pills, as they had cured my wife years before. A few boxes affected a complete cure. I now enjoy the blessings of good health, which is due to this remedy."

Don't neglect kidney trouble—it's too dangerous as well as too painful. That old, reliable family remedy, Dr. Morse's Indian Root Pills, has cured thousands and will cure you. It is equally effective in curing constipation and its attendant evils, biliousness, indigestion and sick headaches, and in purifing the blood. 25c a box at your druggist's. 10

The death occurred at Brockville of James D. McDonnell, a well-known customs broker, in his 79th year. Deceased was a son of Col. John McDonnell, who commanded a regiment of the Dundas militia in the war of 1812.

Niagara's great ice mountain was forbidden to tourists on Sunday because a mammoth crack split it fairly through the centre. A half mountain of solid ice threatens to fall into the river in front of the American falls.

Some Causes of Eyestrain

Eyestrain is the most common form of headache in children, and may come without apparent reference to any over-use of the eyes. It may be located near the eyes or in parts of the head away from them. It warns us that too great tension is being put on some part of the nervous system. A slouching, lounging posture in reading may bring about marked eye strain. The head bent forward with the chin resting on the breast obstructs the flow of blood from the head. Any congestion of lids or inflammation however slight, itching of the lids, burning of the eyeballs, and styes, singly or in crops, should call your attention to the necessity of careful and efficient examination into the refractive condition of the eyes.

Our Optical Parlor is up-to-date in every detail. All our work is guaranteed, and all lenses are ground on the premises. Consultation free.

SAFE FROM TYPHOID

"FRUIT-A-TIVES" THE BEST PREVENTATIVE

There is practically no danger of Typhoid Fever as long as you keep the bowels regular with "Fruit-a-tives."

Typhoid is an inflammation of the bowels, due to a germ. This germ enters the body in milk, water or food. If the bowels are constipated, the germ remains in the body long enough to attack the delicate lining and thus Typhoid begins.

"Fruit-a-tives" acts directly on the liver, kidneys and skin, and cleans the system of all impurities. "Fruit-a-tives" will not cure Typhoid—but it will cure Constipation, assist Digestion and tone up the system—thus preventing Typhoid.

50c. a box, 6 for $2.50, or trial size, 25c. At all dealers, or from Fruit-a-tives Limited, Ottawa.

FUNERAL OF THE LATE ALEX DAWSON

Word has been received in the city that the funeral of the late Alexander Dawson, of Vancouver, who met death in a runaway accident, will be held in Peterborough on Thursday, March 14th, at two thirty in the afternoon from the Little Lake chapel.

Rev Robert Pogue of St. Paul's will officiate, the deceased having been a staunch Presbyterian.

OBITUARY

The Late Samuel Milliken

At 6.30 this morning there passed away a life long resident of Peterborough in the person of Samuel Milliken, at his late residence, 307 Burnham street. The late Mr. Milliken was a man of middle age and had not been in the best of health for the last couple of years. He was highly thought of in the community and his passing will be sincerely regretted.

Surviving him are three sons, five sisters and one brother. The sons are Fred R., Frank S., and Albert.

Interment will take place on Thursday at three o'clock at Little Lake Cemetery. Rev. James Rollins will officiate at the funeral service.

The late Mr. Milliken was a member of the Canadian Order of Foresters.

POLICE COURT

Suspended Sentence for Man Who Obtained Sixty Cents

A local man had been drinking heavily and ran out of cash. He went to a neighbors on March 7th and telling the housewife that another neighbor was dead, he obtained sixty cents to send a telegram to some friends.

He appeared in police court this morning on a charge of obtaining money under false pretences. His Worship let him go on suspended sentence after the costs of the court, $1.50 were paid.

VAGRANT REMANDED.

John Swarton was charged with vagrancy. He claimed to have come from Ottawa but he was out of money when he arrived here yesterday.

Chief Thompson asked for a remand until Saturday next till he could make some enquiries about Swarton's past.

DRUNK FINED $2.

Nelson Spiers of Lang, was drunk and disorderly in a public place yesterday. He was fined $2 by his Worship in police court this morning. Spiers paid his fine.

Shamrock Social, given by Ladies' Aid of George Street Church on Friday Evening, March 15th. Excellent program and refreshments. Admission 25c. 2d

RULES FOR THE FIRE FIGHTERS BENEFIT FUND

Money May be Used for Relief of Firemen's Families

At the meeting of the Fire, Water and Light Committee last evening, the following rules regarding the firemen's benefit fund were adopted.

The benefit fund in connection with the Peterborough Fire Department shall be known as the Firemens' Benefit Fund and shall be governed by the following rules:—

1. The Fund shall be administered by a Board, which shall be known as the Firemen's Benefit Fund Board, and shall be composed of the Mayor of the City, the Chairman of the Fire, Water and Light Committee of the City Council and the Chief of the Fire Department.

2. The Chairman of the Fire, Water and Light Committee shall be Chairman of this Board.

3. The Board shall meet when called by the Chairman, who shall call a meeting when there is business for it to do or when requested to do so by two members of the Board.

4. The City Treasurer shall be the Treasurer, and the City Clerk the Secretary of the Board.

5. All donations received by the firemen or by any officer of the Department on account of the firemen shall be given to the Treasurer, who shall deposit all moneys of the Fund in a special account in the Bank that has the City account.

6. Payments out of the Fund shall be made, and only be made, on the order of the Board and all cheques shall be signed by the Chairman and the Treasurer.

7. The Fund may be used, on the order of the Board, for special relief for any member, or the family of any member of the Fire Department, in case of sickness or death; for tokens of sympathy in such cases; and providing special articles for the comfort or recreation of the members of the Department which they may desire, and which would not be properly payable out of City funds.

WHO'S COMING AND GOING

Mrs John Comstock will not receive to-morrow.

Mr. Russell Wotten spent Sunday and Monday in Toronto.

Mrs (Dr.) F.C. Neal, will not receive to-morrow nor again this season.

Mrs. Donald Potter, Stewart street will not receive this week, nor again this season.

Mrs. R. M. Glover, 305 Margaret avenue, will not receive to-morrow, nor again this season.

Mr. Peter Gettas, of the "Boston Cafe" is out of the city for a week's trip and will visit friends in Hamilton and Toronto.

Rev. Jas. G. Potter, formerly in charge at St. Andrew's Presbyterian church, is the minister at MacVicar Memorial.

LIVING MODELS AT TURNBULL'S

New Method of Millinery Display Meeting With Splendid Success

The very latest and swellest productions of the millinery art are being displayed on living models on the second floor of J. C. Turnbull's departmental store. From two o'clock till four-thirty to-day throngs of fashion devotees were given an opportunity of seeing two of New York's beautiful living models, display the most exquisite and perfect gowns to their best possible advantage. This manner of exhibiting has never hitherto been adopted in Peterborough and the enterprise of Mr. Might, the manager of the store, has been rewarded with an enthusiastic reception. The gowns exhibited and which will be worn this year are really wonderful creations.

One of the figures is supposed to represent the ideal misses figure and the other a more mature form.

Opportunity will be afforded all the ladies who wish to see the models from 11.30 to 12.30 to-morrow morning and from 2.30 to 4.30 in the afternoon.

I have noticed that as soon as a woman becomes prominent in any way or makes money, she usually applies for a divorce from her husband.

Corner Stewart and Hunter Sts.

MANY PEOPLE OFF FOR THE WEST

Take Advantage of Cheap Rates and Settler's Excursions

During the past two weeks there has been a remarkable exodus of Peterborough people to the great West. No less than fifty residents have left their homes here to journey out into the West, where many of them have either accepted positions or gone to find new homes. This season is always the time for a large number to leave for the Western cities, and the months of March and April are particularly favorable on account of the reduced rates to British Columbia, and the weekly settlers' excursions to Manitoba, Saskatchewan and Alberta.

The bulk of the departing residents of Peterboro, left yesterday and to-day this being the second Tuesday for the settlers' excursions.

In the last few days the city has lost several active and well-known citizens, including Mr. Harry Long, Mr. Wm. Quinn and Mr. Chambers of Byersville and his family.

Besides these there are a number of people who spent last summer in the wheat districts of Canada, and who came east for the winter, returning again to take part in this year's work on the ranches.

SPRING MILLINERY AT ELLIOT'S

MILLINERY

In the millinery department, novelty and newness seems to be everywhere. Millinery skill is here shown in a very high degree of art.

The walking hats are unusually attractive this season, the two principle styles are the New York Derby and the Pommander sailors.

The Derby sailor is shown in black fancy straw, faced with green satin braid, smartly trimmed with black and white straw quills, giving the neat, precise tailored effect.

This style will be one of the favorite walking hats for this season.

Another pretty street hat is the Pommander sailor. This style is one of the reigning favorites in New York.

The Pommander hat has a very pretty effect. Some are shown in a natural color chip trimmed with quilling of a scarlet velvet ribbon with Persian wings. Others are shown with dinted crowns and narrow brims. These styles of course, come in many variations and never two alike.

The phseyche hat is the dress hat for the coming season. It has a dressiness and stylish appearance that well suits it for the full dress creation.

Fashionable New York has set its seal of approval upon this graceful creation.

The phseyche hat is especially made to be worn with new coiffure. It is very becoming with the new style of wearing the hair. It would be impossible to attempt to describe all the new styles, so numerous are they. Better see them. Miss Noble will be delighted to see you.

READY TO WEAR DEPARTMENT. DRESSES

Elliot's showing of pretty dresses is attracting much attention. The higher class dresses are shown in foulard, soft silks, etc. Some of them are hand embroidered with silk, others with art patterns interwoven in the material.

Also beautiful creations of lace and chiffon with satin foundations, representing the latest New York and Parisian models. These pretty dresses appeal to the art loving and careful dressers.

New suits are shown with the new side effects, the fine quality of the cloth and the pretty trimming make them very attractive.

The dress skirts also show the effect of the prevailing side trimming among the new skirts, the new envelope skirt is among the most popular styles.

The new Spring coats are much in evidence in new cloths and new designs.

Just next to the millinery room is the new whitewear and corset room. See the new styles in corsets.

LOCAL NEWS ITEMS

The Literary evening at the Y. W. C. A. to-night has been cancelled, owing to the concert at the Conservatory.

The Ladies' Aid of St. Andrews Presbyterian church are requested to attend the sewing meeting at the home of Mrs. Moore, 280 Aylmer street to-night at eight o'clock.

Miss Wade, a missionary from China, will give an address in All Saints Parish Hall, Thursday evening at eight o'clock. The meeting is under the auspices of the W. A.

EATONS SLAUGHTERED IN GAME UNDER O.H.A. RULES

Winnipeg Vics Had it All Their Own Way and Tallied Sixteen Goals.

Winnipeg, March 12.—The Allan Cup will stay in Winnipeg, as last night the Victorias put the final touches on the challenging Eaton team by defeating them by the overwhelming score of 16 goals to 1. This brings the total score up to 24 to 5 in favor of the Victorias. The score about represents the play, as the visitors were entirely outclassed in every department. The local defence was never in better shape, and the forwards never skated so fast. The Victorias played combination last night, and it is to this fact that the big score can be attributed. The game was played under O.H.A rules, which were thought to favor the Eaton team. Victorias seemed to go faster though, and ran in score after score until the crowd got tired counting.

The feature of the game was when goaltender Baker stopped a shot and skated down the ice with the puck, passing every forward man on the ice. He got past Hyland and passed to Dion, who scored. He was cheered for some minutes.

As the score shows, the visitors were outclassed, but there was not a man in Winnipeg who expected the score to end up anything like it did. All expected a close game. The visitors rushed the play at the start, but only kept it up for about ten minutes. After that it was easy sailing, and at half-time the score was four to nothing.

The second half was a slaughter, and one goal followed another in quick succession, twelve of them being scored in this half. The local forwards bored in time and time again, and the Eaton defence was easy. Bricker was in fine form in the nets, and had it not been for his stellar work the score would have been about 50.

The teams:

Eatons—Bricker, goal; Rankin, point; Hyland, cover; Laflamme, rover; Meeking, centre; Richardson, right wing; Foyston, left wing.

Victoria—Baker, goal; Fowler, point; Moffatt, cover; Dion, rover; Caldwell, centre; H. Baker, right; Bawlf, left.

Referee—Caldwell.

MONCTON LOST FIRST CUP GAME

Defeated by Quebec Champions by 9-3 Score

Quebec, March 12.—By a score of 9 goals to 3 Quebec beat out Moncton in the first game for the Stanley Cup at the Quebec rink last night, and thus put a serious crimp in the aspirations of the players from the Lower Provinces. If the ice had been good and hard there is no knowing what might have happened, and the final score of the opening game would undoubtedly have been much more disastrous to the visitors than that which resulted The first Stanley Cup game in Quebec was attended by a crowd which thronged the local rink to its fullest capacity, and there was the keenest interest in the happening.

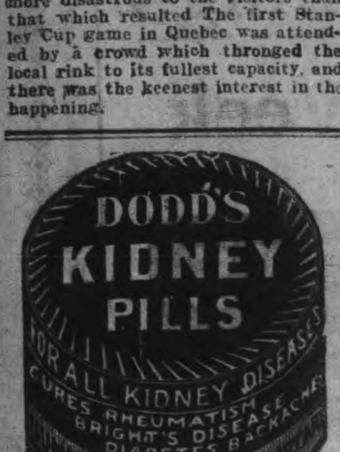
TEAM FOR PRACTICE GAME FOR MIDGETS

There was a meeting of Jack Thirnbeck's Midgets at the Brock st rink last night to pick a team to meet the Northern Lights in a practice match to night. The teams are both challengers for the Clarke-Graham trophy, and great interest is being taken in this game as it will give their followers an idea where they stand in the race.

The game to-night will start at eight o'clock with M. Kennealley refereeing.

The Midgets will line-up as follows—Goal, Walker; Point, Primeau; Cover Callaghan; Rover, Barrie; Centre, Halpin; Right Wing, White; Left Wing, McClennan.

Manager Thirnbeck has arranged for a practice for the Midgets from 7 to 8 o'clock on Thursday, evening. The following players are asked to be out besides the seven chosen for to-night's game: Davidson, Lowes, Rose brothers, Carew, Latimer, and Bain. There will likely be some changes in the line for a schedule game and it is up to the players to get out and show what they can do.



REFEREE FINED ONE DOLLAR

Charge Was Reduced to One of Common Assault

North Bay, March 11.—Refere Lillie of Sturgeon Falls, who officiated at a hockey match between North Bay and Sturgeon Falls here Friday evening, and was charged with assaulting one of the North Bay players, was fined one dollar and costs, the charge being reduced to common assault from that of assault and causing grievous bodily harm.

The prosecution did not desire to have a severe penalty imposed. Lillie claimed that abusive and threatening language had been used toward him by North Bay players, and that he had been attacked and was forced to defend himself as best he could. After the game he was assaulted on the street. Arrangements are under way for another game between the two teams with an outside referee.

UMPIRES FOR CANADIAN LEAGUE

Former Eastern League Twirler is One of the Four

Toronto, March 12.—President Jas. Fitzgerald, of the Canadian Baseball League, has announced the appointment of the following umpires for the season of 1912:

Wm. Pearson, Toronto.
Emil Brichter, Bay City, Mich.
C. J. Johnson, Buffalo.
Stanley Yerkes, New York City.

Pearson is well known in Toronto as the best local umpire. Yerkes used to be a pitcher in the Eastern League.

KEENE CURLERS WERE DEFEATED

Three Rinks Finished 15 Behind in Games With Locals

One of the neatest games played this season at the curling rink took place last night when Skip Wightman's stalwarts defeated Maitland's braves in the final of the schedule games. Every stone seemed to find its correct position and neither rink was sure of the game till after the last stone had been played. The score at the finish stood:

W F McKnight	A Davidson
A W Archibald	D McMinicolo
C R Cameron	Geo. Hill
Dr. H Wightman	G O Maitland
Skip—13	Skip—10

Three games in the consolation competition of the local Bonspiel were also played off last night. Read goes into the fourth round at the expense of W. G. Ferguson, Fitzgerald doubled the score on Waddell and Foote took an easy victory from McDermid. The scores were:

W G Read	W G Ferguson
Skip—11	Skip—9
J E A Fitzgerald	R M Waddell
Skip—12	Skip—6
H F Foote	J. W McDermid
Skip—16	Skip—10

Two local rinks are playing friendly games in Claremont to-day, and one rink is in Norwood engaging in a friendly clash with the brithers o' the stane there.

The scene at the rink was enlivened this morning by the presence of three rinks from Keene who played three Peterborough rinks on three of the nicest sheets of ice that a curler could wish for. The local curlers won all three games and ended with a 15 shot lead piled on the visitors. The game between Moore and McWilliams was particularly good "Archie" being taxed to his utmost skill to get the two shot lead. The rinks and scores were:

Peterborough.	Keene.
J Wiley	J Drummond
Dr. Eastwood	D Kenneally
G B Stevenson	J J Moore
A Moore	Dr. McWilliams
Skip—17	Skip—15
J Davidson	R Nelson
J Wolstenholm	G Howson
J C Read	B McIntyre
W G Read	R J McCamus
Skip—24	Skip—13
W Adamson	H McLaughlin
W T Hall	N Doris
J E A Fitzgerald	W Wedlock
H F Foote	M Kenneally
Skip—12	Skip—10

Total for Peterborough—53.
Total for Keene—38.
Majority for Peterborough—15.

SPORT TALK

The Clarke-Graham trophy, emblematic of the City Juvenile championship is on exhibition in the window of Mr. Wm. Kent, the George street druggist.

It is a splendid silver cup on a nice stand and is well worth competing for. The Chieftains won it three years ago and it has been kept for them by Dr. Wightman. It has again been surrendered for competition.

NA-DRU-CO Tasteless Cod Liver Oil Compound

There is no question as to the very high value of Cod Liver Oil, properly prepared and made digestible, as a "builder-up" for convalescents or those who are run-down.

Na-Dru-Co Tasteless Compound contains the valuable properties of the Cod Liver Oil without its disagreeable flavor. In fact, this preparation is decidedly pleasant to the taste. With Extract of Malt, Extract of Wild Cherry, and Hypophosphites of Lime, Soda, Potassium, Manganese and Iron added, it makes a combination that puts an edge on the appetite—aids digestion—invigorates the nerves—relieves and helps to cure affections of the throat and lungs—and generally builds up strength and restores health.

For puny, delicate children there is probably no better "builder-up" than Na-Dru-Co Tasteless Cod Liver Oil Compound. 102

C. A. MINER, Manager.

3600 MILES BY BICYCLE.

FROM VANCOUVER TO MONTREAL.

Mr. Thompson-Clarke, of Vancouver, Secretary of the B. C. Football Association, has just reached London (Eng.), after riding from Vancouver to Montreal—3,600 miles—on a bicycle.

Interviewed after his long ride, Mr. Thompson-Clarke said:

"Before leaving Vancouver I played in the Football Championship, and received a nasty kick on my leg. I bandaged it up and thought it was not sufficiently serious to upset my programme for my long cycle ride, but when I got to Salmon Arm, B.C., I was hardly able to use the limb. The wound had been aggravated by the dust and friction of my stocking, and it looked as if I were going to have to abandon my trip altogether.

"At Salmon Arm, an Indian—one of the Thompson Indians—on hearing that I had a poisoned wound, suggested that I should use some salve which he said possessed extraordinary power. It proved to be a box of Zam-Buk, and he gave it to me in exchange for one of my photographs. I cleansed the wound and applied the Zam-Buk. It soothed the wound wonderfully, and after a little delay I was able to cycle off with only slight discomfort. I continued the Zam-Buk treatment, and in ten days there was hardly a sign of the wound.

"I used Zam-Buk also for chapping of the face, and in future, on my long rides, I shall always carry a box of Zam-Buk."

A FREE TRIAL

Test Zam-Buk free. Cut out this advertisement, write on it name of this paper, and mail it to Zam-Buk Co., Toronto, with 1c stamp (to pay return postage) and we will send you a free trial box of Zam-Buk.

Zam-Buk is a unique herbal healer. Composed of pure vegetable extracts, it is devoid of the mineral coloring matter and rancid animal fats which form the base of most ointments and salves. It is antiseptic, soothing and healing all at the same time. Mothers should see that it is always handy for the cuts, burns, knocks, and bruises which children so commonly sustain. Wherever there is any skin disease—eczema, saltrheum, ulcers, scalp sores, or wherever there is any skin injury, such as cuts, frost bite, chapped places, etc., there Zam-Buk should be applied, and it will give instant satisfaction. All druggists and stores 50c box or post free from Zam-Buk Co., Toronto, for price.

I WOULD HAVE FAILED BUT FOR

ZAM-BUK

THE GREAT HOUSE-HOLD REMEDY

AGED COUPLE MADE THEIR HOME IN CAVE FOR YEARS

Old Man Was Handcuffed and Had to be Taken Away by Force—Is Said to Have Occupied Cave for Seventeen Years—Both Germans and Unable to Speak English

A sort of human depravity and degradation almost unbelievable has come to light in connection with the life of an aged German couple in a wilderness in Alice township, about ten miles from Pembroke.

Together, the man and the woman —Francis Henry Switzenberg, and Mary Summerfeldt by name, have for years past dwelt in a cave or dug-out in the side of a hill, living the neighbours say, the life of animals, sleeping and eating, knowing nothing and to all appearances caring less about what went on in the great world about them, litttle seen by any one, the woman alone making an appearance at the neighbor's homes occasionally to beg food for herself and her paramour.

The cave in which they have spent years is but a "dug-out" in the side of a hill, the front built up with stones, a couple of pieces of timber running from these back into the ground, covered first by slabs and brushwood, and then with earth. A door about two feet wide and four feet high afforded entrance, and inside there was nothing—no stove, no table, no chairs—nothing but the old man's bunk, where evidently he was content to sleep his life away, and another small cave dug back from the main one, the woman's "bed-room," into which she crawled and slumbered too, after the old man had been attended to, for it seems from what is so far known that she had reason to fear him and was ever at his command.

Being advised of their condition, Mr. Geo. D. Biggs, Reeve of Alice, and Councillor Heenan went to the cave for the purpose of removing the couple from their hovel and taking them to Pembroke in order that some provision might be made for them, or that they might be taken to some home or asylum as might be deemed best. But they could not be induced to leave and to avoid trouble the Reeve went to Pembroke and had a warrant issued for their arrest, and went with Chief Butler to bring them down.

The old woman was willing to go, but the old man resisted, and it was necessary to handcuff him and remove him by force. Both the Chief and the Reeve were horrified at the scene which greeted them in the hovel. The filth and odor of the place was almost unbearable. There was no light, save that which penetrated through two small openings on each side of the door, no heat, no provisions, except some stale bread, and both the old man and the old womna were contentedly sleeping. Arriving in town they were placed in the lock-up. They did not converse with each other, and seemed oblivious or indifferent to their surroundings. Their garments were rags. They looked as if they had not seen water for years, as indeed most probably they had not, and the lifeless, glassy eyes and haggard countenances were weird to look upon.

Appearing before Police Magistrate Stewart, they were remanded to the county jail for thirty days and taken there at once. They will be cleaned and clothed, and a medical examination made to determine their condition of health and mind, in order that some decision may be made as to what to do with them.

Switzenberg is said to have occupied this cave for seventeen years, while the woman has been with him, it is thought, for about ten years. The man, whose wife died many years ago, has children living in this district. Since the woman joined him he seems to have burrowed himself completely, not having been seen for years, while the woman made regular trips among the neighbors with a bag begging for bread.

What kind of creatures they are is hard to understand, and why they chose this primative mode of living is a mystery. Both are Germans and are unable to speak English. Ten and seventeen years in a dark cave with no intercourse with human kind and knowing nothing of the outside world, subsisting on the charity of neighbors and eating little or no cooked food, neither sowing nor reaping, but evidently spending all their time in bed, paying no heed to the changing seasons, and apparently unmindful of the winter's cold—can anyone conceive or explain the instinct, or lack of instinct, responsible for such a life? As they went from the cell to the sleigh which was to convey them to the county jail, the woman was still carrying the bag in which she gathered the food which kept life in them, and the man, tottering and staggering, apparently indifferent to all about him, his clothes and hands and head repulsively dirty, they presented a most pitiful spectacle. Helped into the sleigh, they evidently did not know what the seats were for, and squatted on the floor, and blankets were thrown over them to keep them warm on the drive to the county buildings.

SANOL

The new discovery will positively remove Gall Stones, Kidney Stones, Gravel in the Bladder, and will effect a complete Cure. It will dissolve and remove stones without pain, and there is no necessity for an operation in the future, as Sanol will cure in every case no matter how long standing the disease may be.

SANOL will be found particularly valuable in old cases of Kidney and Bladder diseases.

SANOL is a preparation of herbs and herb extracts, and contains no poisonous ingredients. It's use, therefore, cannot possibly harm either the stomach or intestines.

Sanol per bottle $1.50

Get it from McDERMID & JURY, Druggists, Peterborough, or direct from The Sanol Manufacturing Co., Winnipeg, Man.

BRITAIN WORKS ON NEW AIRSHIP

Secret of Its Construction is Being Kept Close

Manchester, March 12.—The fact that the Chief Inspector under whose charge and superintendence the new naval airship is to be built has arrived at Barrow, and is busy with the first stages of his work, gives credence to the report that the work of building the airship has been given to Vickers' Limited. The new vessel will be of different design, but will like her predecessor, be built of duralum, Vickers's patent metal invented to secure strength with lightness of material. The airship No. 1, which was wrecked on leaving the shed in which she was built, will be scrapped, and the new vessel will be constructed of absolutely new material. No official information can be obtained of the new ship, her design or dimensions, and it is doubted whether this knowledge will even be given by the First Lord when he places his estimates for the year before the House of Commons.

Commander Schwan, lately of H. M. S. Hermione who conducted some interesting and useful experiments with a hydro-aeroplane in Cavendish Dock, Barrow, last year, will again take up this work in April.

SAW HER DEATH IN THE CRYSTAL

English Woman Charged With Prussic Acid

Calcutta, March 12. — Miss Eva Mount-Stephens, an English woman of thirty-five has been committed for trial before the High Court on a charge of murdering her companion and benefactress, Miss Garnet Orme.

The prosecution alleges that the crime was committed by the use of prussic acid.

Various witnesses have related that Miss Mount-Stephens believed in crystal-gazing, and that Miss Orme, a lonely woman of fifty, became enthusiastic in the "art." Miss Orme, it was related, believed she saw in the crystal evidence of her immediate death. She made all preparations for her end, and died of poisoning—how administered is a mystery. Miss Mount-Stephens benefitted under the will.

The prosecution at the preliminary hearing at Mussoorie contended that the accused had every motive and every opportunity for the crime. Miss Mount-Stephens was accused of making false statements in her evidence and letters, and of buying the poison of which Miss Orme died. The evidence of many native witnesses was extremely conflicting.

The defence maintains that Miss Orme undoubtedly committed suicide. She came to India in 1905 to marry a Mr. Grant, who died. This had been an absorbing grief to her, and, coupled with her suffering from a long-continued physical complaint, was sufficient motive to cause her to kill herself. Miss Mount-Stephens, her counsel said, was a most loving and affectionate companion to Miss Orme. He appealed confidently, but without success, for his client's release.

If I Had Eczema

I'd simply wash it away with that soothing liquid, D.D.D. Prescription. The very first drops instantly stop that awful itch. We have sold many other remedies for skin trouble, but none that we could personally recommend as we do the D.D.D. Prescription.

Better try a bottle at once on our personal advice. McDermid & Jury and E. L. Payne, druggists.

G. T. R. MEN TOLD TO KEEP THEIR OWN COUNSEL

Toronto March 12.—"Keep your own council." This was the message sent out by the officers of the Railroad Brotherhood, whose members are affected by the cut made in the wage scale on the Grand Trunk. The cut does not go into effect until April, which means that Mr. Chas. M. Hays' promise to raise the wages to the standard of the C. P. R. will only be in existence for three months.

"This," said one of the officers, "will give us but a short time to get our members to express what we term an official opinion to obtain the co-operation of all other lines.

"If a vote were taken to-day, it would, I feel sure, mean trouble, but with a little consideration we may be able to adjust the matter to satisfy the men."

WE'LL BUY THE FIRST CAKE FOR YOU

We will buy you a 10c cake of Infants' Delight with every 25c purchase of Taylor's Borax Soap. Cut out the coupon and present it to your grocer when you buy your next 25c worth of Taylor's Borax Soap and he will give you ABSOLUTELY FREE the full size 10c cake of Infants' Delight which we have bought for you. We pay your grocer the full price of 10c each for these cakes of Infants' Delight which he hands out, because we know that nothing we can say will show you so quickly what a wonderful soap it is—how it wears as thin as a wafer, how perfectly it cleanses, and how soft and smooth it leaves the skin.

Don't Wait—Get Your Free Soap To-day

We are sure that when once you have used Taylor's Borax Soap for the laundry and Infants' Delight Toilet Soap that you will never be satisfied with any other kind. We are buying thousands of cakes of Infants' Delight and giving them away free to the ladies who buy Taylor's Borax Soap.

We pay for Infants' Delight. You pay only for Taylor's Borax Soap

FREE SOAP COUPON

This coupon, when properly signed and presented to your grocer at any time within one week with 25c in payment for five bars of Taylor's Borax Soap, entitles bearer to a 10c cake of Infants' Delight Soap free.

NOTICE TO DEALERS
Please honor this coupon at its face value for a regular 10c. cake of Infants' Delight Soap when properly signed by a customer who also buys 25c worth of Taylor's Borax Soap. In accordance with our agreement we will redeem these coupons to allow you the regular profit on the soap.

Satisfied Policy-Holder

[COPY]

Toronto, March 1st, 1912.

W. H. HILL, Esq.,
Manager,
Sun Life Assurance Co.,
Peterborough, Ont.

Dear Sir,—I wish to thank the Sun Life Assurance Company, through you, for the prompt and very satisfactory settlement of my 15 year Endowment Policy, No. 64345, which matured and was paid me to-day.

I have also a 15 year Endowment maturing to-day in a leading British Company.

The contrast, in the results, in favor of your Company is so marked that I want you to know it, but I am at a loss to know how such a difference could honestly occur. When I tell you that the profits in your Company are **three and one-third** times the profits in the other Company referred to, and this too notwithstanding I paid the other Company $1.15 per year more per $1000 than I paid you, you will realize my inability to comprehend the cause.

This is surely a tribute to the management of the Sun Life, and I am so well pleased I have applied for further insurance with you.

Incidentally, I would like to say a word for your loan privilege. As you are aware, I borrowed some money on my policy, a little over a year ago, which enabled me to obtain a substantial interest in a town site in the Northwest, and you will be pleased to learn that it has already yielded substantial gain and gives promise to pay hundreds per cent., so that it is impossible to fully realize the value of that Policy to me.

I thought as an old Peterborough boy you would be pleased to know I am delighted with the result.

Yours truly,
(Signed) ROBERT E. DOLAN.

GOLDEN LION STORE

FEATURING NEWNESS

THIS is just by way of introducing you to a delightfully interesting display of New Spring Merchandise. Your imagination cannot do justice to our most complete assortment.

All sections throughout the store are filled up or are filling up with brand new merchandise.

Every turn that Fashion takes in prescribing the mode of Tailored Suits is represented in our showing. It has been assembled with infinite care and skill to the end that the modes and quality be distinctive and out of the ordinary, and that they will be perfectly tailored and withal moderately priced.

At **$15.00 to $30.00** we have exceedingly smart **Suits and Coats** of the best Tailoring and splendid materials, in the most favored colors and all neatly trimmed. See this matchless collection in all its first bloom and freshness—many exclusive models are being appropriated daily.

Every Day boxes are being unpacked containing all that is Fashionable along the line of **New Spring Suitings, Coatings & Silks.** The most fashionable fabrics are represented. The selection is complete and values unexcelled.

Serges are particularly good this year. We have a handsome assortment of these in Stripes, Navys, Blacks, Greys and Tans. Prices ranging from **98c** per yard to **$1.50**

Reversible Coatings stand out prominent in Spring apparel material. We have this line in Tans, Greens, Blues, Greys & Copenhagen Blue, 54 inches wide, heavy quality. Per yard............**$1.50, $1.75** and **$2.00**

Among the other fabrics standing high in fashions favor are **Grey Tweed Suitings** 56 inches wide. Yard.... **$1.65**

Grey Twill Suitings 54 inches wide. Yard.... **$1.25**

Striped Grey 44 inches wide. Yard.... **$1.10**

Tan Serges and Tweeds, 50, 54 and 56 inches wide. Yard .... **85c** to **$1.25**

New Shot Silk in Blue and Grey, Mauve and Black, Yellow and Black, Grey and Black, and Green and Yellow. These Silks are of excellent quality and are one of the New Silks for spring. Prices.......**50c, 75c** and **$1.00**

FIREMEN MENZIES AND LEAHY GET THEIR WALKING TICKET

Their Dismissal Was Decided by the Fire, Water and Light Committee.

Ex-Deputy Chief Grange Again a Member of the Fire Department ?

Two more dismissals at the fire-hall were recorded last night, when at a special meeting of the Fire, Water and Light Committee, a motion carried, authorizing the removal of Acting Assistant Chief Bruce Menzies and Fireman Robert Leahy from the brigade strength. The resolution was moved by Ald. Anderson, seconded by Mayor Bradburn.

The press reporters were barred from the meeting.

The decisive move of the committee was the result of an investigation instituted about a week ago by the chairman of the Fire, Water and Light Committee, into certain complaints laid by the acting assistant chief in a letter to the chairman. The letter claimed that Chief Howard had made certain allegations against the writer, although he had only the evidence of Leahy to back them up, the latter having come to Menzies with the stories.

The step taken by the committee last evening may not end the matter, however, as it is understood that other matters pertaining to the fire hall are being probed by the Fire, Water and Light Committee chairman.

At the meeting of last night Ald. Morgan and Brown moved in amendment that the dismissals be left over until later, but the suggestion fell through, and the original motion for the dismissal held.

MR. GRANGE RE-ENGAGED.

Ex-assistant Chief Grange will be engaged to fill the vacancy caused by Menzies' removal, and another man will be taken on to fill Leahy's position, so it is understood.

The meeting last night which caused the stir was long and marked by animated discussion.

FELT IT COMING.

The two employes, whose services have been dispensed with, aver that their resignations were handed in previous to the framing of the motion by the committee giving them their discharge, and that therefore they left on their own accord and not at the request of the Fire, Water and Light committee.

GOES TO CENTRAL FOR SIX MONTHS

Young Man Who Forged Cheques Sentenced To-day

Six months in Central Prison, was the sentence meted out, this morning at Police Court to the young man, who, last week faced the Magistrate on charges of forgery, he having been brought back from Port Hope.

Two cheques forged by him for $50 and $300 were cashed at the Grand Hotel and Bank of Montreal respectively. A plea of guilty was made this morning.

Crown Attorney R. E. Wood, asked His Worship to hear a statement of the facts before judgment was given and Chief Thompson was first called. He told the story of how he had been first informed of the affair and of his action in having the arrest made at Port Hope. There was $318.35 on the prisoner's person when he was taken into custody by Chief Bond, besides a number of old cheques which had been paid by the bank. There was also a cheque drawn for $010 on which the signatures had been traced. The notes were principally Bank of Montreal bills.

The prisoner, when brought back to Peterboro on Monday, March 4, admitted that he had the old cheques for the purpose of tracing the signatures. He also said that he had intended going west and was going to write to his people to say what he had done. When he was in a position to pay the money, he had intended returning it.

EXPRESSED REGRET

To Detective Newhall, the prisoner said at Port Hope, "I have been foolish and if I had taken time to think I would never have done it." "I am sorry for wronging my best friends."

Mr Travers, Manager of the Bank of Montreal, told how he became suspicious after the money had been paid out. The ledger-keeper came to him to get the cheque initialed as the account was overdrawn by $80. Mr. Travers told the young man to inform his people that their account was overdrawn.

Mr. Travers said that it was a very good imitation but was easily detected with the glass.

The Bank was not pressing any charge, as the money had ben returned by parties interested.

LETTERS TO THE EDITOR

The Review does not hold itself responsible for opinions expressed by its correspondents

THE BALLOT QUESTION.

To the Editor of the Review:

Dear Sir,—It is with a considerable degree of amusement that I read the motion of Mr. Burnham asking the Premier if he had considered the advisability of introducing vote by ballot on questions in the House of Commons.

I would remark in this connection, Mr. Editor, concerning those occupiers of the World's upstairs, the Powers that Be, that we are all at variance as to whether they are fates or furies, angels or demons, gods or devils. Yet man disdains the fact that the All-powerful may snuff him out over night. Therefore he walks with a cock-sure strut, lifts up his voice raucously, and makes himself altogether as tempting as vain-glorious bantams that flaunt beneath encircling hawks.

What a gratifying process it must now be to Mr. Borden to turn his magnifying glasses on the frailities of the members. Few can take a truthful inventory of themselves especially when it comes to vote. I fancy the Premier will put his foot down where he means to stand and will insist on having an inventory of his stock when the division bell rings.

PRESBYTERY IS IN SESSION

Church Union Being Discussed at St. Andrew's Church

A meeting of the Presbytery is being held to-day is St. Andrew's Presbyterian church and the question of church union is being thoroughly discussed. The discussion opened at 9 o'clock this morning and after an interval for dinner was resumed at two o'clock and was still in progress at time of going to press. A fuller account will be given to-morrow.

ASSEMBLY TO DEFER ACTION

Prediction in Regard to Question of Church Union

Toronto, March 12.—Church union is not likely to materialize as an immediate result of the present referendum of the Presbyterians and Methodists.

Nominally 97 churches have voted for and 46 against, but the Presbyterians have passed radical amendments to the basis of union.

It is now predicted that the Presbyterian General Assembly at Winnipeg, in June, will defer action.

The Methodist vote is overwhelmingly in favor of union, but action is not likely to be taken in the referendum until the meeting of the general conference in 1914, owing to the large adverse vote in the Presbyterian Church.

WHAT I WENT THROUGH

Before taking Lydia E. Pinkham's Vegetable Compound.

Natick, Mass.—"I cannot express what I went through during the change of life before I tried Lydia E. Pinkham's Vegetable Compound. I was in such a nervous condition I could not keep still. My limbs were cold, I had creepy sensations, and I could not sleep nights. I was finally told by two physicians that I also had a tumor. I read one day of the wonderful cures made by Lydia E. Pinkham's Vegetable Compound and decided to try it, and it has made me a well woman. My neighbors and friends declare it had worked a miracle for me. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold for women during this period of life. If it will help others you may publish my letter."—Mrs. NATHAN B. GREATON, 51 N. Main Street, Natick, Mass.

The Change of Life is the most critical period of a woman's existence. Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

ORDER TO DEPORT SUNDER SINGH

Ottawa, March 12.—In reply to a question by H. H. Stevens, Vancouver, in the House of Commons Monday afternoon, Hon. Martin Burrell stated that, up to date, 16,902 Chinese and 13,768 Japanese had entered Canada through British Columbia ports. Of these, 5254 Chinese and 436 Japanese came during the last fiscal year, 5142 Hindus had entered Canada, of whom only one had arrived during the last fiscal year.

With regard to Dr. Sunder Singh, he had landed at Halifax on March 12, 1909. He had not complied with the immigration regulations and an order for his deportation had been issued, but had not yet been executed.

UNCLE SAM SLOW TO PAY.

In answer to G. W. Kyte, Richmond, N.S., Hon. J. D. Hazen stated that the pelagic sealing treaty of July 7th, 1911, provided for an advance payment of $200,000 by the U.S. to Great Britain on account of the fur seal skins it would be entitled to under the treaty. When that sum of money is received, it may be used in such connection. As this advance payment has not yet been received, the method of dealing with the claims has not been decided upon.

PLACED £5,000,000 LOAN.

In reply to A. K McLean, Halifax, Hon. W. T. White said that a loan of £5,000,000 bearing 3 1-2 per cent. interest, due on July 1st., 1950, with an option to redeem on or after July 1st, 1930, on six months' notice, was recently placed in the London market to replace a 3 3-4 per cent. loan of £5,000,000 issued in June, 1908. Of the latter loan, £4,681,870 was now outstanding and redeemable May 1st, next. The final payment of the new loan will not be made till April 29th. It was underwritten and issued at 98.

ABOUT EYES & GLASSES
Talk No. 1 -- By J. W. BROWETT, Optometrist

The large Factories grind lenses in over 27,000 different combinations to suit the eye. We examine to determine which of the 27,000 should be used.

Glasses were invented a great many years ago—so were eyes. The eyes in construction are the same to-day, but the Glasses have changed. The Science of optics has steadily advanced, until now manufacturing opticians are able to grind glasses to correct defects of vision, of many varied forms. Few persons, comparatively speaking, have perfect eyes; and an eye which is not perfect is an annoyance to the brain; the eye and the brain are very intimately connected. When the eyes differ we have unequal vision—unequal vision causes headaches and nervousness; these are symptoms of eye strain We correct unequal vision with lenses scientifically made. Optical lenses are made from scientifically made glass, except in cheap spectacles; in these the glass is made the same as for windows. We use pure and faultless crystals only.

LINDSAY TO HAVE SPRING HORSE SHOW

Lindsay, March 12.—A large and enthusiastic meeting of the horsemen of the counties of Victoria and Durham, was held in the office of Mr. D. A. MacKenzie on Saturday, March 9th, at 3 o'clock p.m. The object of the meeting was for the purpose of resurrecting the spring horse show, which has become a defunct institution for the past two years. The meeting was brimful of force, and when Mr. John Carew stood up and said, "Gentlemen we are going to have a spring horse show at all hazards," previous misconceived ideas, as to the possibility of it sizzling out were settled.

SUCCESSFUL SALE
Greatest Wall Paper Sale Held
OUR SUCCESS HAS SURPASSED ALL PREVIOUS RECORDS

We keep a variety in cheap high-class goods, second to none in Canada. We invite you after looking elsewhere to try us, with length and width of your room and we will tell you the cost — Either at our Peterborough Store at 379 George St., or at Toronto, 262 Queen St., West. Large buying enables us to give you prices not possible outside of large cities. There are only seven firms in our Dominion who can buy over twenty thousand dollars worth of Wall Papers per year, and we are proud to feel that we rank as fourth largest of the seven. The smallest buyer of seven has the same advantages as the largest as all that is required to get the low price is that the purchase amount to ten thousand dollars — Our purchases amount to over that with one firm's goods, not mentioning our purchases of American, English, German, French and Japanese manufacture, which we stock very largely. We would ask you again to examine carefully before making your purchases.

NINETEEN LIBERALS CAST VOTE WITH THE NATIONALS

Sir Wilfrid's Prophecies of Rupture in Government Recoil on Himself.

His Supporters Give Their Votes to Separate School Clause.

Ottawa, March 13.—The row now seems to be in the Liberal camp. The Opposition split hopelessly yesterday on the separate school question.

On the division, Mr. Mondou's amendment was defeated by a vote of 160 to 24.

Sir Wilfrid Laurier, Hon. Wm. Pugsley, Hon. Rodolphe Lemieux, Hon. Wm. Emmerson, Hon. G. P. Graham, Hon. Frank Oliver and a majority of the Opposition voted with the Government and against the amendment. Hon. H. S. Beland, Hon. Chas. Murphy and a fair sized minority voting with the Nationalists, Mondou, Lamarche, Sevigny, Paquet, Guildbault, Barette and Bellemarc for the amendment.

When the boundaries bill was called for third reading, the Premier moved to return it to committee to amend the description of the boundaries and to strike out clause 7, which guaranteed the rights of the Hudson Bay Co.'s rights as superfluous. A. Mondou (Yamaska) was straining at the leash with an amendment, but J. J. Hughes (Kings, P.E.I.) got in ahead of him with a plea for compensation of Prince Edward Island in regard to subsidy in view of the grant to Manitoba in lieu of public lands.

Then Mr. Mondou got his chance, and moved to refer the bill back to committee in order to add the following section: "Section 22 of the Manitoba Act, 1870 (33 Vic. cap. 3) shall apply to the territory added to the province under the provisions of this act, with the substitution for paragraph 1 of said section 22 of the following paragraphs."

"Nothing in any such law shall prejudicially affect any right or privilege with respect to denominational or separate schools which any class of persons have, at the date of the passing of this act, by law or practice, in the territory added to the province under the provisions of this act."

Mr. Mondou spoke very briefly in French.

He had had the intention, he said, of obtaining an expression of opinion in committee the other day on his amendment, but circumstances preventing this, he desired to accomplish his end at the present stage.

P. E. Lamarche (Nicolet) speaking in French, declared that the principle contended for in the present amendment was not a new one. Section 3 of the British North America Act declared that where boundaries were extended the Dominion had the right to interfere with the sovereign rights of a province.

A. A. MacDonald, Liberal member for Pictou, declared that Mr. Mondou's amendment was superfluous. If section 22 of the B.N.A. Act were in effect in the territory of Keewatin there was no need of saying it should apply. He asked the Minister of Justice for his opinion.

Hon. C. J. Doherty concurred in Mr. MacDonald's contention. Of course, if rights did not exist in this territory susceptible of being maintained, no good purpose would be served by the enactment of the proposed clause. It was not susceptible of doubt, he said, that the section of the Manitoba act (the amended B.N.A. Act) which created and governed the Manitoba of to-day, would govern the Manitoba that should be.

William Chisholm (Antigonish) asked whether, even if there were no separate schools in Keewatin, they had not the right to them.

"If there had been a commissioner-in-council in Keewatin," Mr. Doherty answered, "there would have been that right, but no commissioner-in-council had ever been constituted."

To the promoters of the present agitation, he said: "It is not wise to be crying 'wolf, wolf' all the time unless you are sure the wolf is there."

There was perfect protection for any rights actually existing in the annexed territory in the constitution of Manitoba. It was not their way, however, to induce Manitoba to deal generously with the minority to tell them they must.

D. A. Lesperance (Montmagny) taunted the Liberals with remaining within the lines of Torres Vedras instead of declaring their position. He would vote against the amendment, but he did not wish his vote to be interpreted as a denial of minority rights. The amendment was superfluous, and he had entire confidence that Manitoba would do the right thing.

J. H. Rainville (Chambly-Vercheres) declared: "We are not called on today to give a constitution to Keewatin, but to annex Keewatin to a province which already has a constitution. We could not in any way touch the constitution of Manitoba."

Sir Wilfrid Laurier said that, although he believed that Manitoba should receive an extension of her boundaries, he had thought it his duty to oppose the passage of the bill for reasons which he had given in a former speech.

Sir Wilfrid went on to say that if, on the school question, he had remained within the lines of Torres Vedras, it was not with any intention of remaining there permanently. (Laughter.)

"So far as I am concerned," con-

Continued on page 8.

BOUNDARIES BILL IS PASSED

SPECIAL TO THE REVIEW

Ottawa, March 13.—At four o'clock this morning amid Conservative cheers, the Manitoba Boundary Bill got its third reading after an amendment moved by Hon. H. S. Beland calling for a conference between the governments of Manitoba and the Dominion, had been defeated by a vote of 107 to 52. Manitoba thus gets her additional territory unconditionally.

ONTARIO TEMPERANCE WORKERS GET INTO POLITICS

Will Put Candidates Into Ridings as Bye-Elections Occur.

Plenty of Money From Wealthy Temperance Men

Toronto, March 13.—Ontario's political temperance party has been launched.

Ald. Austin of Toronto has been placed in command, as chairman of the new and much opposed committee on political action.

Independent temperance men have guaranteed the committee ample means for its work of organizing the electors and putting independent temperance candidates in the field as bye-elections occur.

A provincial organizer will be appointed at the next meeting of the committee.

President Jos. Gibson, who fought the appointment of the committee at the convention, made the most enthusiastic speech in favor of independent political action of the gathering.

The other members of the committee are: Controller McCarthy, Hy. Moyle, Miles Vokes, Mayor Lees of Hamilton; Frank Buchanan, Wingham, and B. H. Spence.

The committee will hold its next meeting after the close of the Dominion Council of Royal Templars of Temperance, which convenes in triennial session in the new court house building, Hamilton, next Tuesday.

The council will be presided over by James Hales of Toronto. W. W. Buchanan of Winnipeg will be among the western delegates in attendance.

A plan for a new temperance propaganda on a wide scale will be acted upon by the Dominion Council, which will sychronize with the new political movement in this province.

ICE BOATING

Party of Three Are Safe and Will Make Return Trip

Special to The Review.

Erie, March 13.—After travelling three hundred miles because of the mountainous hummocks of ice on the lake, the six men who left Cleveland Sunday in two ice boats, reached here safely last night. They will start on the return trip to-day.

OUTLOOK IS BRIGHTER

But Conference Adjourns With Nothing Definite.

London, March 13.—Although nothing definite was achieved at the joint conference of the coal owners, miners and Cabinet Ministers yesterday, the prospect of a settlement of the coal strike is decidedly brighter. The executive of the miners' federation met late last night and adopted a resolution recommending that the federation agree to Premier Asquith's plan for a joint conference in the various districts for the settlement of the minimum wage proposals, on the understanding that none of the districts resume work until a national settlement is effected.

Should the federation, as is expected, adopt this recommendation, it will be a decided step forward, as a general agreement on a minimum wage is likely to have considerable influence on the obdurate Scotch and Welsh owners.

The Prime Minister again had an audience with the King and informed His Majesty of the proceedings at the joint conference.

The extent to which the strike is curtailing railway service is indicated by the fact that the Northeastern railway alone has suspended 1,369 trains. It is estimated that the unions, excluding the miners, are paying out $250,000 weekly to those out of employment, while 160,000 men are working on short time. The funds of the North Wales Miners' Association are almost exhausted, and the association has been obliged to stop strike pay.

In Scotland some isolated raids on bakers, coal and wood stores are reported.

Try a Review Want ad. It pays.

MATTHEWS-LAING CO. IN WINNIPEG

Winnipeg, March 13. — The millionaire pork packing firm of Matthews, Laing and Company, of Hull, Peterborough, Montreal and Toronto, have decided to make entry into Winnipeg and have bought a $50,000 site where they will erect an eight storey warehouse building. Another big eastern concern, the A. H Coplan Company of Ottawa, has an option on a $48,000, 115-foot site here and they may erect a brass foundry.

BROTHERS ON TRIAL FOR MURDER

Montreal, March 13.—Fred. and Henry Seybold, brothers, were both held yesterday for the murder of Mrs. M. Burney, which occurred on March 2 in a basement on Coupal lane. Each has accused the other of killing Mrs. Burney. A curtain pole stained with blood, with which the murder is supposed to have been committed, together with a heavy mallet, was presented in evidence. The testimony of several neighbors was taken yesterday.

AUSTRALIAN ANTARTIC EXPLORERS ARRIVE BACK

Landed Two Parties and Equipment, Including a Monoplane.

Hobart, Tasmania, March 13.—The ship Aurora, which sailed from this port on Dec. 2 last with the Australian Antarctic expedition, under the leadership of Dr. Douglas Mawson, returned to Hobart yesterday. The Aurora is commanded by Capt. J. K. Davis. She landed two separate parties at two points in the Antarctic regions, one under Dr. Mawson, on Jan. 19, and the other under Dr. Wilde, who is a veteran of Shackleton and Scott marches, on Feb. 19.

The Aurora found no trace of the Clarie coast, from which it is concluded that it was an ice barrier that has broken up since Durville's discovery in 1838. The Aurora left Antarctic on Feb. 21, and will return in the spring.

Some of the best known British explorers are with the parties landed by the Aurora, which muster 25 men in all. The most advanced feature of the equipment is a monoplane in charge of Lieut. Watkins, who has taken part in a number of aviation meets.

Speaking of the value of the aeroplane in exploration, Dr. Mawson said prior to the departure of the expedition: "An aeroplane can fly over an ice crevasse or a ridge as easily as over anything else, whereas a party on foot might have to search a long time to find a pass, and an aeroplane can do a journey of 150 miles in three hours."

Lieut. Ninnis of the Royal Fusiliers, who is an expert on surveying and sledging, and a Swiss, Dr. Merz, an adept with the skis, are included in the expedition, and Australians and New Zealanders complete the complement.

Landed Two Parties.

Chicago, March 13.—A cable to The Daily News from Hobart, Tasmania, reads:

"The Aurora, the ship used by the Australian exploring expedition, headed by Capt. Douglas Mawson, returned to Hobart yesterday, after landing one party on Adelaide Land and another on Determination Land, the most westerly point reached by the American expedition under Capt. Wilkes in 1840."

May Make Amundsen, Professor.

Christiania, March 13.—A motion was presented in the Storthing yesterday for the establishment of a chair for Roald Amundsen in Christiania University. The matter was referred to the budget committee. The Premier announced, that the Government to-morrow would propose that a grant be made Amundsen to enable him to undertake an Arctic expedition.

ALFALFA SCORES

Billings, Mont., March 13 — What is claimed to be the largest range steer ever sent to market has been shippped to Chicago, from here. The animal weighs more than 2,500 pounds and brought $200, which is said to be a record price for a range steer. The animal was fattened on alfalfa, sugar beet pulp and syrup.

SIR WILLIAM MEREDITH.

Who is presiding at the Government's investigation into the affairs of the Farmers' Bank.

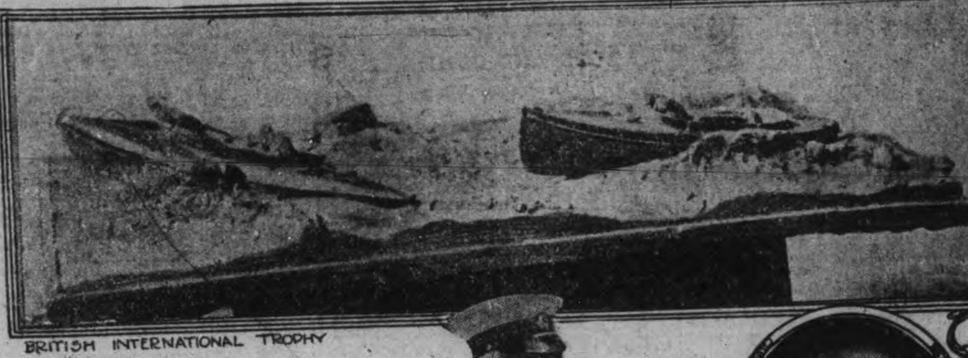
MR. F. W. MILLER HAS RESIGNED

Mr. F. W. Miller, Water street, has resigned his position as Indian Agent for purely personal reasons, and Mr. McFarlane, who formerly held the office, has been reinstated.

Horse Died

A valuable horse owned by Daniel Mahoney, a farmer near Apsley died in the stables of Dr. Johnston last night from what veterinary authorities called paralysis of the kidneys.

Challenge for the Motor Boat Cup.



BRITISH INTERNATIONAL TROPHY

ADMIRAL LORD CHARLES BERESFORD, COMMODORE OF ROYAL MOTOR YACHT CLUB

COMMODORE H.H. MELVILLE, OF THE MOTOR BOAT CLUB OF AMERICA

SANG HIMSELF FREE

Richmond, Ky., March 13.—Isaac Lakes sang himself out of jail here when he sang "On Jordan's Stormy Banks I Stand," before a jury in Circuit Court room.

He was indicted for disturbing public worship by singing too loudly. Several continuances had been granted on account of the absence of witnesses, so the judge suggested that in lieu of testimony the jury be allowed to pass judgment on the prisoner's voice. The prisoner acquiesced, and standing in the witness stand he sang with all his might. The jury retired and immediately acquitted the defendant.

DOCTOR WAS TOO LATE

Hamilton Man Died in New York Hotel

Telephoned to Office That He Was in Great Pain

Special to The Review.

New York, March 13.—H. B. Wilcox, of Hamilton, Ont., died suddenly in his room at the Van Cortlandt hotel this morning. He complained, last night of being ill, and was given medicine by the hotel doctor. This morning he telephoned to the office clerk that he was in great pain, and when the doctor arrived at his room the man was dead. He was about thirty-eight years of age, and said to be a wealthy contractor.

PROBABILITIES

North-westerly winds; fair and cold to-day and Thursday.

DANGEROUS QUARTETTE NOW SECURE IN THE "PEN"

Story of the Fight With Guards and Detectives.

Brown is the Man Who Made Prisoner of School Teacher.

Toronto, March 13.—Four long term convicts on their way to Kingston from Stoney Mountain penitentiary, in a desperate fight for liberty, succeeded in overpowering their three guards on the G.T.R. Montreal train as it was on the point of pulling out of the Union Station shortly after nine o'clock yesterday morning, and were only subdued after a desperate struggle with Police Constable W. Hunt and Detectives Sockett and Miller, in which batons and fists were freely used.

The four men arrived from the West Monday night at five o'clock. Preceding them came a wire from Deputy Warden O'Leary of Kingston Penitentiary, who with a guard from that prison and another from Stoney Mountain was accompanying the quartette, stating that as the men were well-known desperadoes he wished to have them taken charge of by the local authorities for the night.

Accordingly two detectives and three officers with a patrol wagon met the party and took them to the Court street station where they were locked up until the morning. Officers who saw the four men at the station declare that they were the toughest-looking characters they had ever seen. All were handcuffed and shackled.

Shortly before nine o'clock yesterday morning Detectives Sockett and Miller and two officers in uniform accompanied the penitentiary guards and their prisoners to the station.

Here they were put in the smoking room of a combination car in the two rear seats. Facing each couple, who were handcuffed and shackled together, sat a guard, the aisle dividing the two groups. The next seat on the south side of the car was occupied by Deputy Warden O'Leary.

Apparently the prisoners, who had openly boasted that they would never see the walls of Kingston Penitentiary, had changed their minds, for they laughed and chatted freely with their guards.

When it lacked a few minutes of the time for departure, four other passengers took their seats in the other end of the coach, and the local officers, satisfied that the train was on the point of leaving and that all was well, stepped on the platform.

Thereafter events happened with lightning rapidity. Realizing that their last chance of making a breakaway had come, and that only a moment remained to act, the prisoners requested that they be allowed to chage their positions. The guards acquiesced, and the four rose to their feet.

The next moment they raised their hands above their heads simultaneously and brought them, and the manacles which surrounded them, down on the heads of their surprised custodians.

Taken unawares, the two officers made a brave fight but the convicts had easily the best of the argument, and rained blow after blow on the unfortunate guards. One of the desperadoes succeeded in freeing his left leg from the shackles and menaced Deputy Warden O'Leary, who sprang to the rescue.

In the meantime, the four passengers in the car, who were too panic-stricken to even raise their voices in alarm, rushed on to the platform and told P. C. Hunt what was happening.

The officer rushed into the car and found two of the men standing over one of the penitentiary officers and beating him with their manacled fists. They had forced the guard's head back and the man was too exhausted by the uneven struggle to defend himself.

Hunt drew his baton and hit both desperadoes over the wrists, and when this treatment failed to make them desist he struck them with his fist. They then turned their attention to him, but quickly found their match, and within five minutes the two were beaten into submission.

Detectives Miller and Sockett, who joined in the fight with the convicts on the other side of the aisle, also succeeded in quieting their two prisoners, who gave up all further attempt to make a fight of it.

As the last blow was struck, the train pulled out of the station, but in view of the desperate conduct of the prisoners, both Detectives Miller and Sockett decided to accompany them until they were safely landed in Kingston Penitentiary.

Kelly and Jones were sentenced to fifteen years each in Stoney Mountain Penitentiary, but their behavior there was such that it was impossible to control them and they were made to ship them to Kingston. Both are bad men, but they made no attempt to escape when they left there Saturday night.

The men known as Kelly and Jones are brothers, and it is said that their real names are Charles and Bert Mecum.

While A. Bonnar, the third man, and not such a blood-thirsty crook as Kelly and Jones, he is exceedingly elusive and also boasts that no penitentiary can hold him. He had made good his boast and has escaped on half a dozen previous occasions, but has always been finally recaptured. Bonnar is a horse thief and has been serving a seven-year sentence for various crimes of horse stealing. His behavior in Stoney Mountain has been very bad and he is believed to have been mixed up with Kelly and Jones in a gigantic plot for a wholesale jail delivery.

W. Brown is the man who figured so prominently some months ago in the Snowflake abduction case, when he forced a young school teacher to go into the bush with him. By brute force he kept her there all night and when her absence was discovered a huge cry was raised. The whole country was scoured and Brown remained free for about three days, threatening to shoot anyone who approached him. He shot a hotel-keeper at Snowflake, and fired several times at his pursuers, but did not hit them. Brown was given eight years, and in the penitentiary behaved badly. The quartette were regarded as being too dangerous to hold in the Manitoba penitentiary and it was decided safer to have them placed in Kingston.

Germany's Trade Problem.

Berlin, March 13.—The Reichstag yesterday adopted a resolution asking the Government to prepare comprehensive statistics on production as a preliminary to the negotiation of future commercial relations.

The statistics shall also include the costs of production, raw materials and land, wages, the cost of living, social reforms and tax burdens in the countries chiefly competing with Germany.

Minnesota Farmers For Canada.

Minneapolis, Minn., March 13.—The first colonist train of the season left here yesterday with about 200 home-seekers for different parts of the Canadian Northwest. The train was composed of more than sixty freight cars and several passenger coaches. Railway representatives declare that the movement to Canada this year will be much greater than ever before.

The Spanish Cabinet will be re-organized.

"FEEBLE STOMACH"

Causes Digestive Weakness and Poisons the Entire System.

"No one can have suffered more than I did with stomach trouble," writes Phil. E. Pascalar, well known at St. Andrews Corners. "My doctor told me my indigestion and sleeplessness were due to poisons in the blood. Certainly my condition was desperate, and it seemed from the despondent feelings that swept over me that I would lose my reason. I happened to read about Dr. Hamilton's Pills and bought five boxes from the druggist. Such body-cleansing pills I never used; they were mild and yet quite strong enough to drive all the humors out of the blood. My stomach gained strength rapidly with Dr. Hamilton's Pills and I improved so much that in eight weeks I could eat and digest all ordinary food. Depression and weariness passed away and I am, thanks to Dr. Hamilton's Pills, enjoying robust good health."

No remedy for billousness, indigestion, headache, sick stomach, or constipation that compares with Dr. Hamilton's Pills. Refuse substitutes. Sold in 25c. boxes. All dealers, or The Catarrhozone Co., Kingston, Ont.

Dr. Hamilton's Pills Cure Stomach Troubles

The Daily Review

WEDNESDAY, MARCH 13, 1912.

THE SEPARATE SCHOOL AGITATION

The Separate school agitation

A campaign has been begun in the Province of Quebec in favor of provision for the establishment of Separate schools in the district of Keewatin, which is to be annexed to the Province of Manitoba. This is being done through the medium of an organization called "The Constitutional Defence Association of Canada," and which is circulating petitions throughout the Province of Quebec to be forwarded to Parliament.

The name assumed by the organization is a misnomer.. There is no agitation throughout Canada as a whole, in regard to Separate schools. The provinces, other than Quebec, are not moving in this matter. It has been determined that such regulations as to these schools shall prevail as are in the powers of the provinces, and the Federal government may not seek to improve conditions at variance.

It is true that the appeal is being made to Protestants as well as Catholics, on the ground that Protestants are, in some places, in a minority. That plea is a specious one. The Protestant minority, as such, obeys the law and does not seek by ceaseless agitation to extend such rights as it has, nor seek to have them recognized by other parts of the country. The move is one, pure and simple, instigated by the Church..

Accompanying the petition for signature are circulars addressed to the Catholic clergy.. It is pointed out that Keewatin may some day contain a large Catholic population, and that day must be provided for to the end that government grants, and municipal grants may be shared in, and it is suggested that "your reverence may know of other ways, apart from petitioning, in which public opinion may be influenced in favor of the cause.."

These petitions and agitations should fail in this case.. Keewatin becoming a part of Manitoba, the laws applying to schools as a whole, should prevail in the annexed district, as in other parts of the province, and the Federal government should not, and will not interefere.

BRITISH EMIGRATION

According to the statistics of the British board of trade, the total number of emigrants who left Britain last year was 623,300.. Of these 315,800 were bound for ports in the British empire. Canada being the destination of 213,300; Australia of 69,000, and South Africa of 34,500. The number of British emigrants bound for Australia last year was greatly in excess of the number of any former year. The Australian governments—those of the states as well as the Commonwealth government—are making strenuous efforts to divert the stream of British emigration in their direction and are succeeding to some extent. But as British emigration to Canada also increased last year, the rivalry of Australia is not likely to prove serious to this country. The nearness of Canada to the mother country will always make it more favored than any other part of the empire as a field for emigration.

But the United States continues to be the chief goal of Britons who go to begin life anew in another country. Last year 250,900 of them sailed for United States ports. And there are very good reasons to believe, also, that many of those British emigrants who landed at Canadian ports were really destined for the States and are there now.—Hamilton Herald.

NOTE AND COMMENT

Kingston Whig

Fault is found with Dr. Merchant's report because it does not suggest a remedy for the inefficiency of bilingual schools. Dr. Merchant was not asked to suggest a cure. He was asked to report upon the facts, and he has done it.

Montreal Gazette

Photographs of scenes in the troubles of China now being printed show big Sikh policemen leading batches of Chinese prisoners by their queus. If copies were circulated in some of the British Columbia cities, the affect on the socialistic shouters for human equality might be good. Judging from the demeanor of the Sikhs towards the victims of their activity, as pictured, they could qualify for membership in the San Francisco sand lotter's brotherhood.

Winnipeg Telegram

The new variety of wheat known as "Marquis" ripens fifteen days earlier than Red Fife. Fifteen days means an enormous possibility in the extension in area of the available wheat land in Western Canada. It practically widens the wheat belt 100 to 150 miles. Also it ensures escape from frost damage, and the production of high-grade wheat in much of the West already settled. where early frosts have heretofore been always a menace, often an injury.

Montreal Star

Only 436 Japanese came to Canada during the last year. This shows how admirably the Japanese Government is living up to its agreement to keep its people at home., Moreover, the opening of Corea, has given the Japanese emigrant a splendid opportunity near home which is the best possible thing for him and for his country

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucuous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifers, acting directly on the mucuous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

Why You Should Travel West Via C. P. R.

It is the logical route, offering the finest possible equipment and fastest train service. It is the only All Canadian route—no change of depots.. All equipment is owned and operated by C.P.R. affording the highest form of efficiency. Dining car service will satisfy the most fastidious persons. Only line operating through standard and tourist sleeping cars to Winnipeg and Vancouver.

Are you going west this spring? If so take advantage of the remarkably low one-way second-class colonist rates to Vancouver, Victoria, Nelson, Spokane, Seattle, Portland, San Francisco, Los Angeles, San Diego, etc., in effect daily until April 15th. or if Western Canada is your destination the one-way second-class settlers' rates should appeal to you. Settlers' trains to Western Canada will leave Toronto 10.20 p.m. each Tuesday during March and April.

If you contemplate a trip of this nature apply to any C.P.R. agent for full particulars. 3d

A French column has had a fierce all-day engagement with the Zemmour tribes near Casa Blanca, which it defeated with little loss. The French lost two killed and nineteen wounded.

Reports reaching Tangier disclose a serious situation in Morocco City, where the population has revolted. The movement is assuming an anti-foreign character, and a German engineer has been wounded.

An anonymous donor has given $20,000 to endow a professorship at Cambridge University in connection with the experimental study of heredity. The new chair will be called "Balfour Professorship of Genetics."

President Tregillus of the United Farmers of Alberta, said yesterday: "I believe the next legislative assembly will be made up largely of farmer representatives. We will probably have candidates in every riding."

In the British Commons, Sir Edward Grey said Ambassador Bryce was communicating with the Canadian and U. S. A. Governments regarding The Hague fishery recommendations. The correspondence is still continuing.

Still Fighting In Tripoli.

Tobruk, Tripoli, March 13.—A strong force of Turks and Arabs Monday attacked the works which the Italians were throwing up outside the town. They delivered assault after assault, but the superiority of the Italian artillery finally told. The Italians lost 15 men killed and 75 wounded.

Montreal Grain and Produce.

MONTREAL, March 12.—Cables on Manitoba spring wheat came weaker, owing to the prospects of increased shipments from the Argentine. The demand was much smaller and the prices bid were 3d to 4½d lower, consequently only a few loads were worked for May-June shipment. A steady feeling prevails in the market for oats, with a fair volume of business doing in car lots for local and outside account. An active trade continues to be done in flour for domestic account, but the demand from foreign buyers was quieter. Millfeed continues scarce and in good demand from all sources. A fair jobbing trade is passing in butter at firm prices, but the edmand for round lots is quiet. Eggs are active, but easy at the decline. Provisions steady under a fair demand.

Corn—American, No. 2 yellow, 79c.

Oats—Canadian western, No. 2, 53c to 53½c; do., No. 3, 51c to 51½c; extra No. 1 feed, 52c to 52½c; No. 2 local white, 50½c to 51c; No. 3 local white, 49½c to 50c; No. 4 local white, 48½c to 49c.

Barley—Malting, $1.05 to $1.15.

Buckwheat—No. 2, 72c to 73c.

Flour—Manitoba spring wheat patents, firsts, $5.70; seconds, $5.20; strong bakers', $5; winter patents, choice, $5.10 to $5.35; straight rollers, $4.65 to $4.75; do., bags, $2.15 to $2.25.

Rolled oats—Barrels, $5.25; bag 90 lbs., $2.50.

Millfeed—Bran, $25; shorts, $27; middlings, $29; mouillie, $30 to $34.

Hay—No. 2, per ton, car lots, $15 to $15.50.

Cheese—Finest westerns, 15¼c to 15½c; finest eastern, 14½c to 15c.

Butter—Choicest creamery, 33c to 34c; seconds, 32½c to 33c.

Eggs—Fresh, 25c to 27c.

Potatoes—Per bag, car lots, $1.65 to $1.70.

Dressed hogs—Abattoir killed, $10.75 to $11; do., country, $9.75 to $10.

Pork—Heavy Canada short mess, barrels, 35 to 45 pieces, $22.50; Canada short cut back, bbls., 45 to 55 pieces, $22.

Lard—Compound tierces, 375 lbs., 8¼c; wood pails, 20 lbs. net, 8⅝c; pure tierces, 375 lbs., 11¾c; pure, wood pails, 20 lbs. net, 12¼c.

Duluth Grain Market.

DULUTH, March 12.—Wheat—No. 1 hard, $1.06⅝; No. 1 northern, $1.07⅝; No. 2 northern, $1.04⅝ to $1.05⅝; July, $1.07½.

CATTLE MARKETS.

Toronto Live Stock.

TORONTO, March 12.—The railways reported 76 carloads of live stock at the City Market, comprising 1142 cattle, 1008 hogs, 551 sheep and lambs and 249 calves.

Butchers.

About one car load of extra quality cattle of export weights solid at $6.80 to $7.25; prime picked butchers', $6.15 to $6.50; good, $5.80 to $6.10; medium, $5.25 to $5.75; common, $5 to $5.25; inferior, $4.50 to $5; cows, $3 to $5.25; bulls, $4 to $5.50.

Stockers and Feeders.

One load of feeders was bought by C. Maybee, 950 lbs. each, at $5 to $5.50, and one load stockers, 700 to 800 lbs., at $4.75 to $5.25.

Milkers and Springers.

There was a fairly large number of milkers and springers, the bulk being of the common and medium quality. Prices for the good to choice were about steady, but the poorer class were hard to sell. Prices ranged from $35 to $66 each.

Veal Calves.

Veal calf prices were unchanged at $4 to $8 per cwt.

Sheep and Lambs.

Sheep, ewes, sold at $4 to $5.25; rams at $3 to $4; lambs sold at $6 to $7.75, and one select lot was reported at $8.

Hogs.

Mr. Harris reported selects fed and watered at $7.10, and $6.65 f.o.b. cars at country points.

East Buffalo Cattle Market.

EAST BUFFALO, March 12.—Cattle—Receipts, 500; slow and easy.

Veals—Receipts, 200; active and 50c higher, $5 to $9.50.

Hogs—Receipts, 5200; active; 15c higher; heavy and mixed, $7.15 to $7.20; yorkers, $6.75 to $7.20; pigs, $6.35 to $6.40; roughs, $6.25 to $6.35; stags, $4.50 to $5.75; dairies, $6.75 to $7.15.

Sheep and Lambs—Receipts, 4000; active; lambs 5c, yearlings 15c higher; lambs, $5 to $7.65; yearlings, $5.50 to $6.50; wethers, $5.65 to $5.85; ewes, $5 to $5.40; sheep, mixed, $2.50 to $5.50.

Chicago Live Stock.

CHICAGO, March 12.—Cattle—Receipts 5000. Market weak. Beeves, $5 to $8.50; Texas steers, $4.70 to $6; western steers, $5.10 to $7; stockers and feeders, $4.10 to $6; cows and heifers, $2.30 to $6.60; calves, $6 to $8.25.

Hogs—Receipts 19,000. Market 10c to 15c higher. Light, $6.60 to $6.87½; mixed, $6.65 to $6.95; heavy, $6.65 to $6.95; rough, $6.65 to $6.75; pigs, $4.85 to $6.40; bulk of sales, $6.75 to $6.90.

Sheep—Receipts 12,000. Market strong. Native, $3.75 to $5; western, $4.25 to $5.70; yearlings, $5.25 to $6.30; lambs, native, $5.25 to $7.50; western, $5.75 to $7.65.

A bottle of prevention is better than a deranged stomach.

Lady Betty Across the Water

By C. N. & A. M. WILLIAMSON

Copyright, 1906, by McClure, Phillips & Co.

Each bedroom is done in a color, and mine is the "white room." It was almost too heavy sweet with some powerful flower fragrance when we went in. For an instant I could not think what it was. But in another moment I had seen on tables and cabinets and window shelves great bowls of water lilies, rising out of their dark leaves like moons out of cloud banks.

"From Potter," said Mrs. Ess Kay. "He telegraphed for them to be here and sent word to the servants just how he wanted them arranged. I must say he does think of rather pretty things when he cares to please. And he does care to please you, Betty. But you know that without my telling you, don't you, my Lady Witch?"

It was hard hearted of me, but all my pleasure in the gleaming white beauties went out like a bursting bubble. It gets on my nerves to be grateful to Potter three or four times a day!

Nevertheless when he came back (which he did after we had dressed and were having tea behind the rain of glittering glass) I had to thank him prettily. He was pleased, but was evidently thinking about something else.

"I didn't get to the Casino after all," said he. "I met Mrs. Pitchley going out to make a call (she was on her way home it seems when we met her), and she offered to turn back if I'd go with her, so I did."

"Now, see here, Potter Parker," broke in Mrs. Ess Kay, "I don't wish you to set up as another of Cora Pitchley's champions. It's all very well for Margaret Taylour to be forever quoting her, and she is fun, but she goes around being original in the wrong way, that nobody admires—that is, she does what she wants and not what other people want her to do. Margaret spends her summers at Blue Bay, and I spend mine at Newport, and I'm not going to have Mrs. Van der Windt down on me or on my brother either if I can help it."

"Thanks for your good advice," replied Potter airily. "But may be, when you hear what Mrs. Pitchley had to say to me you'll change your tune."

Mrs. Ess Kay raised her eyebrows, but her eyes would look curious. "What could Cora Pitchley say that would have any particular effect on me?" she asked.

"She knows for a fact that she isn't to be asked to the pink ball on the 23d and that Mrs. Van der Windt herself scratched your name off the list before she sailed for Europe."

Mrs. Ess Kay's face went a dull, ugly red, and she laughed a loud laugh which sounded as if it would be the same color. "As for Cora, I can quite understand, but I don't believe the woman would have dared to try to exclude me," she said in a quivery voice.

"Why shouldn't she have dared, when you come to think of it?"

"Well, anyhow—she don't dare now."

"No, naturally, she won't dare now. You're as smart as they make 'em, Kath."

Then, for some reason, they both turned and gazed at me with a "thank-goodness-here's-a-floating-spar" sort of look, while Sally examined the grounds in her teacup with that funny little three cornered smile of hers.

"Was that the thing you thought would change me toward Cora Pitchley?" asked Mrs. Ess Kay.

"Yes, I thought it would give you a sort of fellow feeling."

"It doesn't," said she shortly, "and nobody but a man could have thought it would. It makes me feel all the more that I don't want to be mixed up with her, for—for Betty's sake."

Potter whistled, with one thumb in a breast pocket. "For the che-ild's sake," he remarked dramatically, and Mrs. Ess Kay looked angry.

"I shan't invite the Pitchleys to my big affair," said she—"the affair I'm going to have for Betty."

"Oh, but you must please not put yourself out for me!" I exclaimed. "I should be so sorry to have you do that."

Potter laughed. "Don't you try to rob her of her dearest triumph, Lady Daisy. You're the big gem for the middle of the setting. You're the Kohinoor."

"Potter! You ought to be ashamed of yourself, talking to her like that!" said Mrs. Ess Kay. "But all he means, Betty, is that I shall be very glad to do anything I can to make your visit pleasant, and it will be no trouble at all for me to give an entertainment, you may be quite sure."

She said this as the queen might say that it didn't matter to her whether there were seventy-five people or seventy-six asked to a garden party, and I realized that I was snubbed, so I said no more.

Chapter 9

MRS. ESS KAY had a headache next morning and stopped in bed. She couldn't speak or be spoken to, and so we couldn't possibly ask her advice about going to Bailey's beach for a dip in the sea. Potter, whose proposal it was, said that this was perhaps providential, as she was almost certain to want me to stay in till I could be taken out officially. "But you don't need to know that," he added.

I looked at Sally, and she laughed, so I knew that I was to go.

"Oh, but what about bathing clothes!" I exclaimed on sudden thought. "How stupid of me not to have remembered that I would want them before I left home or in New York!"

"I reckon it would have been stupid of us if we hadn't remembered," said Sally. Then she went on, irrelevantly, it seemed at first, "What day of the month is tomorrow?"

"The 29th of July," said Potter promptly, while I was resigning myself, after a slight struggle, to the fact that I had lost track of dates.

"Seems to me that's somebody's birthday, isn't it?" Sally appeared to address her remark to the ceiling.

"How did you know?" I exclaimed.

"A little bird told me. The kind that builds in birthday books. It lives on a table in Lady Victoria's 'den.'"

"Fancy your keeping the date in your head all this time!"

"I've a weakness for remembering birthdays—when I'm fond of the people who own them. You see, everybody thinks about Christmas, and I don't want to be confused with everybody in the minds of just those special people. Now, the truth is, I've got a little birthday present upstairs which I didn't mean you should see until tomorrow, but as part of it may come in rather handy this morning, perhaps we might run up and have a look at it."

To be continued

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

Is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

CARTER MEDICINE CO., NEW YORK.

Small Pill. Small Dose. Small Price.

Indians Want Concessions.

Brantford, March 11.—The Six Nation Indians have decided to make another effort to secure from the Dominion Government principal and interest of $500,000, which they invested in Grand River Navigation Co.

The chiefs in council will also visit the Government to protest against the expropriation of reserve land on the ground that the Indians were allies of the British crown.

A petition is also in circulation in the reserve asking that the Ontario Government grant the franchise to them again.

TAKE UP THE BOY PROBLEM

Sunday School and Y. M. C. A. Workers Hear Plan Outlined

That the Sunday School workers of Peterborough realize the importance of the "boy problem" was evidenced at the Young Men's Christian Association banquet hall last night, where about sixty men representing fourteen different Protestant congregations in the city were gathered to discuss the question as it is related to the Sabbath Schools and Y.M.C.A. After a splendid banquet, prepared for the occasion, Mr Taylor Statten, Provincial Boy's Secretary for the Y.M.C.A., addressed the gathering, and those who were not convinced earlier, that more could be done by the Sunday Schools and Y.M.C.A. united, realized that this was so before Mr. Statten finished.

Mr. Statten is a frequent visitor at the local Y.M.C.A. He is always a welcome visitor and invariably he has a large audience. His strong point is in his heart to heart talks with boys, but he can also talk to and hold the attention of the men.

THE BOY PROBLEM.

In his address last night Mr. Statten said that never in the history of Canada had such a splendid group of men gathered together for such a splendid purpose. Only in the last few years had the men awakened to the significance of the boy problem. Only during the last ten years had men given any study to the boy life. Just as at the Agricultural College men were being taught how to breed the best kinds of horses and cattle, etc., by applying scientific methods, so we were seeing better ways of bringing up the boys. Men had gotten over the stage where a boy's bringing up was thought a matter of chance and luck.

The speaker said that we were now on a new era in our manhood. The question to discuss was how the Sunday school workers could meet the cry of the boys of Peterborough. Mr. Statten did not believe that the boyhood of Peterborough would ever be reached by each Sunday school and the Y.M.C.A. doing their own little parts, working in their own little ways. It was true that they were all doing good work but on this occasion they were uniting as a group of men interested in the boys.

"We have taught our boys over and over, the story of the good Samaritan but to-night we are united to not only help the boy among the thieves, but we are going out to clear up that road to Jerusalem," said Mr. Statten. The speaker went on to tell of some of the things that could be done, with both forces united, that would not be done singly. He outlined a plan which appealed to the hearers. It was to divide the city into districts in order to take a census of all the Protestant boys in their teens who were in the city and were not attending Sunday school. Each church could be made responsible for a certain district.

There was a general discussion for a few minutes and it was finally decided that an effort would be made to reach all the boys in the city. Plans will be laid at another meeting in the near future.

ROSELLE KNOTT SEEKS DIVORCE

Her Husband Ernest Shipman Did Not Defend Suit

Well Known Actress Appeared at the Grand Opera House

In Saturday's issue of the New York Morning Telegraph there appeared an item announcing a divorce suit in the supreme court in which the principals were Roselle Knott, formerly Agnes Roselle, of Hamilton and Ernest Shipman, also at one time a native of Hamilton. The story from the New York Morning Telegram is as follows—

The suit of Roselle Knot, an actress in leading roles, against Ernest M. Shipman, for an absolute divorce was undefended on the final trial of the case, and yesterday Justice Paige in the supreme court issued an order directing the submission of the proposed findings by counsel in the form of an interlocutory judgment together with a transcript of the stenographer's minutes.

The case will be disposed of within a week. Roselle Knott, who is known in private life as Mrs. Agnes J. Shipman, began her suit two years ago when Shipman was associated with Hugh D. McIntosh in the exploitation of the Burns-Johnson prize-fight pictures.

The Shipmans had a home at East Elmhurst, L.I., which since has been sold. Shipman who is known on Broadway as a meteoric theatrical manager and comet advance agent, put in a general denial of the charges made by his wife, but when the case came on for trial, he did not appear and was represented by counsel.

Only one witness was examined, Mrs. Mary Shipman, a sister-in-law of the defendant, who conducted the household affairs in the East Elmhurst home during the time that Roselle Knott was playing on tour. Mrs. Mary Shipman testified that the theatrical manager brought other women to the house and had occupied the same room with his visitors.

The Manchu soldiers hold the site of the destroyed gate to the Imperial city of Pekin, with Maxims, permitting only merchants to enter. Shooting occurs occasionally and decapitations daily.

Niagara county, New York, Board of Supervisors object to a State militia camp being held at Youngstown while the Ontario militia are at Niagara-on-the-Lake, lest there be too much celebrating.

A Parisian nude dancer at Munich was acquitted on the plea that her performance served the higher interests of art.

A woman judge and a jury, half composed of women, will be a feature of the County Court at Eagle County, Colorado.

Sold at all stores, everywhere.

WEINGARTEN BROS., Makers, 34th St. and Broadway, N. Y.

Lost His Hair, Beard and Mustache

Terrible Plight of a Pennsylvania Man Reported by a Prominent Citizen:

"About two years ago my hair, beard and mustache started to come out in spots. These spots were entirely bare of hair.

Seeing PARISIAN SAGE advertised, I purchased four bottles and after using two of the bottles, the hair came in until now I have as good a head of hair as I had before this trouble started.

I can truthfully recommend this preparation to any one for what it is recommended for. Sam Galder, Jamison City, Col. Co., Pa. Oct. 11, 1911."

Please bear in mind that PARISIAN SAGE is not guaranteed to grow hair on bald heads.

In Mr. Galder's case the hair root was not dead and there is no good reason why PARISIAN SAGE should not do just what he writes it did.

"The next time Mr. Galder came into my store after purchasing the PARISIAN SAGE," writes the druggist who sold him, "his appearance was so changed I did not know him."

PARISIAN SAGE is without doubt the most efficient hair grower, beautifier and dandruff cure in the world and people who are wasting time with ordinary commercial tonics should wake up.

PARISIAN SAGE will banish dandruff, stop falling hair and itching scalp; will put life lustre and beauty into faded hair, or money back. It is a most delightful and refreshing tonic for men, women and children. Large bottle 50 cents at Wm. Madill's, and druggists the country over.

Society Printing

Some Causes of Eyestrain

Eyestrain is the most common form of headache in children, and may come without apparent reference to any over-use of the eyes. It may be located near the eyes or in parts of the head away from them. It warns us that too great tension is being put on some part of the nervous system. A slouching, lounging posture in reading may bring about marked eye strain. The head bent forward with the chin resting on the breast obstructs the flow of blood from the head. Any congestion of lids or inflammation however slight, itching of the lids, burning of the eyeballs, and styes, singly or in crops, should call your attention to the necessity of careful and efficient examination into the refractive condition of the eyes.

Our Optical Parlor is up-to-date in every detail. All our work is guaranteed, and all lenses are ground on the premises. Consultation free.

Mason's Floral Emporium WATER STREET

CAMROSE CAR IN THE CITY

Novel Manner Taken by Town Officials to Advertise

The Camrose publicity car, which is making an extensive tour of Ontario, as well as the States of Dakota and Minnesota, arrived in the city to-day at 8.10 o'clock this morning, and was to leave this afternoon at 3.30 o'clock. As an advertisement for that enterprising town, Camrose, situated in the central district of Alberta, no better means of displaying its advantages could have been chosen by the Camrose Board of Trade. A large number of citizens, as well as farmers in the near vicinity, visited the car, which is given over to an extensive display of the products and manufactures goods of Camrose.

The purpose of the exhibits in the car is to make apparent the many advantages, both for factories and farmers, of the central district of Alberta, and particularly the land in the vicinity of Camrose. The average number of visitors is 800 each day.

The exhibits included specimens of wheat, oats, peas and other grains grown in the district, as well as specimens of first-class lignite coal, which was mined in or near Camrose, and delivered to the consumers at $3.50 a ton, or if used for power purposes at $2.25 a ton. Farmers could buy the coal at the mines for $1.75 a ton.

Pamphlets were given to those interested in the various exhibits, pointing out the commercial and agricultuural advantages of the western town. Also the members of the party accompanying the car explained its many recommendations. Camrose has railways, finished and in operation in seven directions; the eighth is now under construcion, and two others have been surveyed for, and will be built this year. The town is on the three trans-continental railways, C.P.R., G.T.R., and G.T.P, and has the lowest inshipping rates of all the Alberta distributing centres. Being situated farther east than most the Alberta centres, its inexhaustable coal supply, including the output of seven mines, two of which are in the town itself, is near the great Saskatchewan market, and on freight rate alone the miners of that district have a 30c. a ton advantage over those of any other mines. Another reason for the confidence of the party in Camrose's future prosperity was the very cheap sites suitable for manufacturing concerns, with railway connections already built. The Board of Trade holds a considerable amount of this property, and is ready to part with it to any reliable firm wishing to locate there at the price of $10 a foot.

The party with the car is made up of nine prominent citizens of Camrose, Messrs. George P. Smith, M.P.P., editor of the Camrose Canadian; Jabez Harris, president of the Board of Trade; Frank L. Farley, F. P. Layton, Mayor Dennis Twomey, J. Watson Younge, M.A. Maxwell, Camille Davis, and J. S. Fox. Mr. Smith is an old Toronto boy, who left for the west about eleven years ago, and was astonished to learn from the Review representative that its population had doubled since that time. Mr. Smith explained that the car was wholly a local venture, supported by the Board of Trade of Camrose, which town has a population of 1,600. While in the city the Camrose representatives will lay before the local Quaker Oats Co., the advantages of Camrose for the establishment of a western branch of the company. It is claimed for Camrose that it is the finest oat country in the world, and the statement is apparently verified by figures.

The car will visit Lindsay next, and then Toronto, proceeding through Ontario to the United States, and will return to Camrose in about three weeks.

Though with only a population of 1,600 Camrose can teach some eastern cities of 20,000 population some lessons in regard to the municipal ownership of the light and power, and only recently it installed a sewage system costing $100,000. Its Canadian Club is the only one in Canada to own its own buildings.

Morris & Brown will have a carload of good Potatoes on the G.T.R. siding to-morrow morning, for sale at $1.75 a bag. They will deliver to purchasers free all orders of five bags or more, but under that will charge five cents a bag for delivery. 2d

DELEGATES FOR GEORGE ST. W.M.S

The meeting of the Women's Missionary Society of the George street Methodist church was held yesterday afternoon, at the home of Mrs. Jas. Kendry. The chief purpose of the meeting was to choose a represen- of the Society to attend the Bay of Quinte branch conference in June, and Mrs. S. R. Armstrong was elected as delegate for that purpose. After the business of the meeting had been transacted a splendid program, including solos by Mrs. J. H. Renwick and Miss May Greaves, was rendered. At the conclusion of the program, dainty refreshments were served by the hostess to the fifty ladies present.

"A FOUR LEAFED SHAMROCK"

Entertainment under auspices T. A. S., Opera House, Monday Evening, March 18th. Choice programme of Songs, Music, etc. A rare and interesting evening promised. Plan of House open Friday morning at Opera House. Prices—25c, 35c, 50c. 2d

DIED

MACLEOD.—On Tuesday, March 12, Norman Wallace Sutherland Macleod, 15 month old son of Mr. and Mrs. E. C. Macleod. Funeral private.

M.H.O. SUGGESTS SMOKE BY-LAW

In His Report on the Local Gas Plant

Some Remedies Are Assured by Mr. Munro

At the last meeting of the Board of Health Dr. McPherson, the medical health officer, was asked to report on the gas nuisance at the Peterborough gas works. The following information was submitted by the M. H.O. at the meeting yesterday afternoon.

To the Chairman and members of the Peterborough Board of Health.

Gentlemen,—

At your last meeting I was asked to report on the conditions at the Gas Works, in view of a complaint that came in from those living in the neighborhood. The chief complaints were against the smoke, the odors of gas, the danger from explosion and fires.

Through the kindness of Mr. Munro, the general manager of the Power Company, I was shown over the premises. The smoke nuisance is due to the use of soft coal, which is used in the furnace. This can be remedied somewhat by proper stoking and by making some repairs to the furnace. This Mr. Munro assured me would be done.

The odor of gas seems to be due to refuse oil that has been thrown out on the surface of the ground, until the ground has been saturated. In the cold weather this is scarcely perceptible. As soon as possible in the spring this waste of the refuse will be remedied, and possibly the odor almost eliminated. Mr. Munro says that there is absolutely no escape of gas from the large containers and very little from any other part of it. It is to their advantage to prevent any leakage or waste in the manufacturing of the gas.

The explosions complained of result in the manufacturing of gas and occurs about every twelve minutes. They report that very seldom are the explosions loud enough to disturb, and there is no danger resulting from them. While examining the premises the explosion occurred, but no noise resulted.

The danger from fires has been eliminated; the wooden structure has been replaced by a fire-proof building.

There are a number of houses on Queen street from Simcoe street to Hunter street, and on Hunter street to the Quaker Oats siding that are affected by the gas plant on account of their proximity. That the gas plant is objectionable to these people is undoubted. To what extent it is a menace to health would be difficult to estimate. The noise and danger from the explosions and fires can be left out of the consideration. The odor from gas and oil is not so noticeable in the winter on account of the cold weather and snow, and because of the fact that less gas is produced in the winter time. The amount of annoyance will carry with the wind. The oppressive summer weather would also tend to increase the nuisance by keeping any surface gases or odors close to the ground.

The smoke nuisance is one that will have to be dealt with all over the city. Wherever soft coal is used all cities have the same troubble. Possibly a smoke by-law could be framed similar to that which is found in other cities, that would reduce this to a minimum.

Mr. Munro assured me that he would be very willing to co-operate with the Board of Health in the matter of removing any nuisance that could be eliminated from the plant

"JUMPING JUPITER" ON TUESDAY NEXT

Richard (Himself) Carle at Grand Opera House

If you never saw Richard Carle in former years, don't fail to see him when he comes to the Grand, next Tuesday evening, March 19th, with his latest success "Jumping Jupiter" for discerning critics have said that the elongated comedian was never so funny as in this piece and never appeared in a funnier play. Carle's plays are all constructed for laughing purposes only, and as he writes them himself, stages them himself, and acts the star part in them himself, he certainly has every opportunity to be as funny as the law allows. Crowds always flock to see Carle cut the capers that only Richard himself Carle can cut, and sing the songs in that placid, quaint style that only Carle can assume. Carle has not been in this vicinity for some time, and the public has missed a treat in a tall, ball-headed, bespectacled genius who has had a talent for amusing in a way strictly his own, so there can be little doubt that "Jumping Jupiter" will attract largely.

New to the star it is wise to admit that the play is the thing and "Jumping Jupiter" is said to be the merriest musical farce of the year. It was elaborated by Mr. Carle from a tried and true farce by Sydney Rosenfield called the "Purple Lady" and in its new form carries sufficient plot and probability to justify the fun and melody. Mr. Carle plays the part of an expert on dermatology, a profession that endears him to the women of the play. Through the exigencies of the plot he is forced to acknowledge an extra wife and his struggles to disentangle himself from the tangle of lies in which he finds himself, gives this orginal comedian ample opportunities.

The music is from the prolific pen of Karl Hoschna, that genius of melody who wrote "Madame Sherry," "Three Twins," and a host of other successes. In "Jumping Jupiter" he is heard in his best, and such numbers as "Little Girl I Love You," and "Snuggle" will captivate the ear. Others which are popular are "I Like To Have a Flock of Men Around Me" "Thank You," and "The Strains of The Wedding March."

The cast of "Jumping Jupiter" is headed by Edna Wallace Hopper who has been specially engaged for this production.

LETTERS TO THE EDITOR

The Review does not hold itself responsible for opinions expressed by its correspondents

To The Editor of The Review.

Sir—What has become of the Buckhorn Bridge difficulty? Some weeks ago it was stated in your paper that J. R. Stratton, ex-M.P., had promised to take over this bridge and relieve the county of it. Your paper also stated that the present government could find no such statement or agreement on the books or anywhere else at Ottawa. What is the present state of this matter. Is the county stuck? Is Harvey stuck, notwithstanding Bob Shaw's big talk, or was J. R. Stratton's statement true for once?

Yours etc.,
"INQUIRER."

ANNUAL MEETING ST. JOHN'S W. A.

Encouraging Reports Were Presented and Officers Elected

The annual meeting of St. John's branch of the Women's Auxiliary was held on Tuesday March 12th. Encouraging reports of the year's work were presented and the following officers elected.

Literature Sec-Treas—Miss Archer.
Dorcas Sec.—Mrs. Best.
Leaflet Sec.—Miss Watt.
Supt. Juniors—Miss E. Palmer.
E.C.D. Sec.—Miss Griffith.
Babies' Branch—Miss English.
Organist—Mrs. Fessenden.
Delegates to Toronto annual meetings—Mrs. Arthur Stevenson, Miss Meucke.
Substitutes—Mrs. P. Campbell, Miss M. English.

WEDDING BELLS

BLADE—JOHNSTON

A wedding of interest locally was solemnized in the Baptist church, Sault Ste. Marie, on Monday, March 4th, by Rev. Alex. White, when Arthur W. Blade, third son of Mr. A. W. Blade, of "Florist City" Peterboro was married to Rachael Margaret Johnston of Sault Ste. Marie.

Both young people will have the heartiest wishes of their many Peterborough friends for a happy future.

"The Raglan"

Styles for Men—

A BOOK that tells just what's what and where to get it.

"Sir!" is the title of the Semi-ready Style Book for the Spring and Summer Season.

There was a copy printed for you.

Did you get it?

If not, it was our fault, and we would appreciate the favour if you would call and get yours.

They picture the exact Suits and Overcoats we sell at from $15 to $35.

CHARGED WITH NEGLECTING WIFE

Magistrate Advises That Case be Settled Out of Cour

Harold McDonald appeared before Magistrate Dumble this morning charged with having neglected his wife and child.

Mr. G. N. Gordon who appeared for the defendant asked for an adjournment until Friday next, that witnesses might be subpoenaed.

His Worship advised that the case be settled out of court. He said that a term in jail would not help the woman who was now unable to work to support her child.

Mr. Cochrane appeared in the interests of the Children's Aid Society.

$2 FINE FOR DRUNK.

A local man named Wilson appeared before Magistrate Dumble this morning on a "drunk" charge. He was fined $2 and given ten days to pay.

TWO YOUTHS WERE ARRESTED

Are Charged With Theft of Traveller's Val se

Two youths were arrested by Detective Newhall this afternoon on charges of stealing a travellers valise from the G.T.R. station on Monday night. They will likely be tried before Magistrate Dumble to-morrow morning.

Some of the contents of the valise, razor strops, pliers, etc., were left by the young thieves alongside a wood pile in Wolstenholm's wood yard. They were removed later by parties unknown at present. Chief Thompson wants the property left at the police station.

There were several articles from the same valise left at the Grand Hotel yard, and the holders of these are also requested to hand them over.

COMMISSIONERS WILL STAND BY ENGINEER'S REPORT ON TURBINE

At a meeting of the water commissioners yesterday afternoon, it was decided to inform the John McDougal Caledonian Iron Works Company, Ltd., that the water commissioners have decided to stand by the report of their engineer for the removal of the turbine pumping unit, and request the McDougall Co. to comply therewith.

A letter was read from A. E. Dixon, on behalf of Mrs. Elizabeth Chatten, saying that when the water pipes were laid on Smith street, a drain from his premises was destroyed. The matter was referred to the acting superintendent.

A report was read from the acting superintendent on a petition for a main on Wolfe street from Stewart street to Bethune street, giving the estimated cost as $487.90, estimated revenue from services $21.99, and from frontages $6.09, total $28.08. No action was taken.

A letter was read from Mr. G. W. Haley asking for an increase in salary, which was granted.

All the members were present.

ERNIE MARKS AT THE MERCY OF VILLAINS; HIS REVOLVER STOLEN

Belleville, March 13.—Thomas Logan, a youth of tender years, is in trouble over a revolver which he was accused of stealing from Ernie Marks a week ago last night, at the opera house. Mr. Marks valued the weapon very highly as it was a trusty one, which had never missed fire on the stage during all the years he has possessed it. It is a 38 calibre, central fire. Suspicion rested on young Logan, but he stoutly denied selling it. A couple of nights he was missing from his duty at the theatre. When questioned he said he threw it under the building and went to the trouble of using a pick in the basement. Last night he was brought down to the police station and after a long time confessed, the police say, to having sold the revolver to a man at the G. T. R. station for $3, which was subsequently spent.

Logan appeared before the magistrate and was allowed out until Tuesday next.

The authorities believe that the man who bought the revolver was the same one who was later arrested in Kingston on a charge of theft and had two weapons in his possession.

MISS ISABEL HINLOCHE
With Richard Carle, in "Jumping Jupiter," the big Musical Attraction at "The Grand," next Tuesday, March 19. Seats on sale Saturday.

EXIT MENZIES; ENTER GRANGE

Former Deputy Chief on the Job at Fire Hall

Nothing of particular note has developed in the situation at the fire hall, save that the two discharged employes tumbled their togs together this morning, and no longer enjoy the proud distinction of being members of the Peterborough fire department.

The statement in the Review last evening to the effect that the two ex-members handed in their resignations previous to the order for their dismissal is denied by an authoritative and reliable source. It appears now that the men were unaware that they had been given their walking tickets, until "the morning after the night before." Chief Howard was called up by phone next morning and informed by ex-fireman Menzies that he and Leahy were leaving and that they desired the chief to witness the assembling of their clothes before they took their departure.

Chief Howard indignantly refutes ever having made any statements deregatory to the character of either Menzies or Leahy. In fact the chief knew that the former, on reconsidering his action in writing the letter regretted his hastiness, and realized that it would have been a better policy to have not despatched the missive, and that certain complaints it contained had no truthful foundation.

However, the two men are gone, and fromer Deputy Chief Grange is back on the job. The former assistand chief, as far as can be ascertained, is the only man outside of the chief himself, who is capable of exercising the necessary authority for the position, and who possesses qualifications suiting him for the office.

SPECIAL FORESTERS MEETING

Court Peterborough, No. 29 will hold special meeting at their hall this Wednesday evening, March 13, to arrange for the funeral of late Bro. S. Milliken. By order.
H. Robinson, C.R.

LOCAL NEWS ITEMS

The last of the series of "Twilight Musicales" under the auspices of the "Woman's Art" will be given in the Conservatory Music Hall on Saturday afternoon next, the 16th, at four o'clock, when an excellent Irish program will be presented, appropriate to the season. Owing to the large attendance at the last "Twilight" additional seating will be provided. There will be no invitations issued. All music-lovers are cordially invited. Silver collection. 3d

If the present mild spell continues, efforts will be resumed to discover the body of the late Henry Fairweather, who was drowned at the Nassau power house. Good hopes are entertained of finding the body in the Spring.

ICE QUESTION WAS UP AGAIN

Board of Health Seeking to Bring About Remedy

The ice question popped up again at the Board of Health quorum yesteday afternoon, following the M.H.O.'s report of his efforts to arrange the matter satisfactorily.

Dr. McPherson reported having interviewed Mr. Allin, the ice dealer. The chairman of the Board and the M.H.O. had thought that it would not be the best policy to oppose Mr. Allin too strenuously this year, owing to the fact that they had not given him extended warning of the proposed course. They had suggested to Mr. Allin, the possibility of him procuring two qualities of ice, one for domestic purposes and one for drinking uses.

The idea is to to arrange things that all ice to be used for drinking purposes may be distinguished from that used for cooling alone. It was suggested that labels indicating this difference be printed and be placed on all refrigerators that people might know which was which. This plan suggested itself as being most satisfactory to the Board, who left the matter to be worked out by the M.H.O. and the chairman.

Ice for drinking purposes will be cut from the canal, if possible, and only ice for cooling from Little lake.

SUCCESSFUL SALE
Greatest Wall Paper Sale Held
OUR SUCCESS HAS SURPASSED ALL PREVIOUS RECORDS
We keep a variety in cheap high-class goods, second to none in Canada. We invite you after looking elsewhere to try us, with length and width of your room and we will tell you the cost — Either at our Peterborough Store at 379 George St., or at Toronto, 262 Queen St., West. Large buying enables us to give you prices not possible outside of large cities. There are only seven firms in our Dominion who can buy over twenty thousand dollars worth of Wall Papers per year, and we are proud to feel that we rank as fourth largest of the seven. The smallest buyer of seven has the same advantages as the largest as all that is required to get the low price is that the purchase amount to ten thousand dollars — Our purchases amount to over that with one firm's goods, not mentioning our purchases of American, English, German, French and Japanese manufacture, which we stock very largely. We would ask you again to examine carefully before making your purchases.

SPRIGS OF SPORT

Bright Liners on Athletic Topics

YOUNGSTERS WILL BATTLE FOR THE POSSESSION OF THE MUG

The first games in the city juvenile championship series will take place at the Brock street rink on Tuesday evening next. From 8 to 9 o'clock, the Midgets and Northern Lights will play a sudden death fixture, and when they are finished the Thistles and St. John's of Lakefield, will line-up. The winners of these two games will play off on Thursday evening for the championship.

There is great rivalry amongst the teams. The Midgets defeated the the Lights in a practice game last night, but it will be a harder battle on Tuesday night. The Midgets seem to be the favorites, however.

The admission to both games will be ten cents.

Fred Kelly, of the intermediates, will referee all games.

LIGHTS LOST TO MIDGETS

In a practice game at the Brock street rink last night Thirnbeck's Midgets beat the Northern Lights by a 6—4 score. The half-way figures read 2—1. The two teams are challengers for the Clarke-Graham trophy, which is on exhibition in the window of Kent's drug store, George street.

It is likely that the first games of the series will be played on Monday evening next.

WINNIPEG VICS. MUST DEFEND CUP

Winnipeg, March 13—The trustees of the Allan Cup have ordered the Winnipeg Victorias to defend the Cup once more this season. The game be played on Thursday night against Regina, and will be a sudden death affair, the winner of the game to retain the cup until next year, as the trustees have decided that this is the last challenge that can be accepted.

The Regina team will arrive here on Wednesday for the game. The Victorias are not at all afraid of the visitors from the west, and are confident that they can run up a big score. The game will be played under western rules.

SLEEPLESS SEVEN AND THE HUNGRY SEVEN WERE TIED

An interesting and fairly fast exhibition of hockey was supplied at Brock street rink last evening, when the "Hungry Seven" played a tie game with the "We Never Sleep" aggregation. There were some medium fast periods throughout the one hour of going and the game was close at every stage. The teams are remarkably well matched in weight and speed with the result that at no stage was there a trace of one-sidedness noticed.

The game was capably refereed by "Ab" Allen. The score was 7-7 at full time. The return match will be played on Thursday evening, March 14th from nine to ten.

The line-ups were as follows—

Hungry Seven—Goal, "Hard Luck" Bulmer; point, "Pool Shark" Russell; cover point, "Tiny" Trotter; rover, "Chinaman" Brummell; centre, "Off-side" Kingscott; left wing, "Side-track Alice" Davidson; right wing, "Go-Some" Gilgour.

We Never Sleep—Goal, "Irish Pat" Walker; point, "Monk" Cranfield; cover point, "Tickler" White; rover, "Mooly" Sullivan; centre, "Honey" Lowes; left wing, "Short" Allen; right wing, "Long Legs" Cavanagh.

SPORT TALK

The benefit match for Bruce Ridpath, which was to have taken place on Saturday night next, between two N.H.A. Teams, has been finally called off.

SPORTS AT Y. M. C. A.

The City Basketball League was opened for the season last night when the Brownies and Hustlers met and put up a first class exhibition of basketball. Both teams are very evenly matched though neither team were strong in shooting ability, which the close checking did not help any. The Brownies started off with a rush and when half-time was called had the score of their opponents doubled. After the rest period a shift was made by the Hustlers which enabled them to outscore the Brownies in the second half. When time was called the Brownies were leading 22 points to the Hustlers 21. Teams—Brownies—Forwards, Nicholls and Hanwell; Centre, Downing; defence, G. Hall and Irvine. Hustlers—S. Hall and Ellis forwards; Wallis, centre; Flowers & Loomis, defence. Referee J. J. Thompson.

The next game will be played on Friday evening at 9.00 p.m., when the fast Collegiate team and the Eko Club, last year's champions, will meet.

Friday evening will be Junior Athletic Contest night at the local Association, commencing at 7.30 sharp. The first event will be called in the "Laing Trophy" contest for the all round Athletic Championship of the Boys' Department. The events will be the 60 yard potato race, 220 yards potato race, running high jump, standing broad jump, 8 lb shot put, fence vault. Points will be given in every event and the boy with the highest score will be the Champion Indoor Athlete of the Boys' Department. Geo. Reid was the winner of the contest last year, and also holds the record for the number of points scored. The Senior contest for 1912 will be held on Wednesday, March 27th.

BASEBALL

Washington, March 13—A congressional investigation of the "baseball trust, the most unjust and autocratic trust in the country," was proposed in a resolution introduced by Representative Gallagher, of Illinois, to-day. The measure would create a special committee of seven representatives to inquire of the department of justice "what steps have been taken against the baseball trust, as against other illegal combinations," to subpoena witnesses and employ assistants. It accused the "baseball trust" of presuming "to control the baseball game, its officials announcing daily through the press the dictates of a governing commission, how competition is stifled, territory and games apportioned, prices fixed which millions must pay to witness the sport, how men are enslaved and forced to accept salaries and terms or be forever barred from playing.."

Mr. Gallagher said the department of justice knew that there was such a trust under the law, and that he would confer with the department in a day or two.

Chicago, March 13.—When informed of the Gallagher resolution in congress, President B. B. Johnson of the American League, said:

"We would be glad to have an investigation. There is no baseball trust, and competition is not stifled. Anyone who desires is welcome to get in the game.

"So far as men being enslaved is concerned, a large number of the players are drawing salaries in excess of what is paid to congressmen. That does not look much like enslavement."

HERRMANN SAYS IT'S A JOKE.

Cincinnati, O., March 13.—Congressman Gallagher's resolution for an investigation of the so-called baseball trust was characterized as a joke today by August Herrmann, president of the National Baseball Commission.

"I don't know what he means," said Herrmann, "unless it is a joke. There is no baseball trust, and from the nature of the game, there never can be. The commission does not fix prices. Different prices are charged in different cities. There can be an investigation at any time without any objection from the National Commission."

JUNIORS TO HAVE PICTURE

The local Junior O.H.A. players, the members of the executive of the Peterboro Hockey club and the trainers are requested to be at the Roy studio at two o'clock on Saturday afternoon for the purpose of having a rgoup photo taken.

CURLING

Two more consolation games in the local bonspiel were played off last night. Read defeated Wightman in a very close contest resulting in a 10 9 score. Renwick put away Brightman in a peculiar game which was featured by some whirlwind curling. Renwick was registered for a goose egg when Brightman had counted nine shots, but his rink started to score and eventually won the game on a 14-12 score.

Two Keene rinks remained to play afternoon and evening games. In both afternoon and evening, Moore's rink from Keene carried off their game defeating McDermid and Brown. In the afternoon Stevenson defeated Wedlock by two shots, and in the evening Kennealley, of Keene, went down before Hall of Peterborough.

The games were—

AFTERNOON

Peterboro		Keene	
McDermid	Skip 5	Moore	Skip 15
Stevenson	Skip 14	Wedlock	Skip 12

EVENING

Hall	Skip 11	Kennealley	Skip 6
Brown	Skip 7	Moore	Skip 13

SUITCASE FOR MR. WILL COX

He Leaves for Vancouver To morrow Afternoon

The residence of Mr. Robert Cox last evening was the scene of a very enjoyable affair, when thirty-five friends and relatives gathered to bid adieu to Mr. Will Cox, who leaves to-morrow afternoon on the 4.28 C. P. R. for Vancouver, B.C.

The evening was passed in games and music and the refreshments were not forgotten.

During the course of the merriment, a genuine surprise was sprung on the departing guest when he was presented with a serviceable suitcase by Mr. Clifford Cox, accompanied by the following eulogistic address read by Mr. John Cox:

Dear Brother,—As you are about to leave Peterborough and seek a new home in the West, we wish to take this opportunity of expressing to you our deep feelings of the loss we will all sustain through your removal from our midst. During the past it has been our privilege as brothers dwelling near each other, to enjoy that brotherly intercourse and render to each other that brotherly comfort and assistance that our family ties call for.

During all the past years of our lives, no one of us has been more ready with such sympathy, advice, and assistance, than yourself, and we will often miss your warm handclasp, cheery smile and confident happy optimism.

We each and all feel sure that in the new country to which you are going, you are sure to make many warm friends and achieve the success which you desire, and while we will miss you greatly, more than we can express to you here, we each and all unite in wishing you all future prosperity and happiness.

We would ask you now in leaving us to accept from us this small gift not for its value, but for the sake of old times, and as a reminder to you whenever you shall see it, that our interest, your welfare, and our love for yourself, remains ever unchanged. Wishing you a safe and happy journey too, and all prosperity in your new home, we are as always, your affectionate brothers,

Signed on behalf of the brothers and friends:

W. J. Cox, Adam Cox, Robert Cox, Fred Cox, Clifford Cox, and Mr. Henry Cox and Mr. Alex. Davidson.

The best wishes of all his numerous friends will accompany Mr Cox to his new field.

Roosevelt will likely begin active campaigning very soon.

AFTER PARDON FOR CHILMAN

Hamilton Friends Will Wait on Minister of Justice

Hamilton, March 13—New action a little stronger than a petition for the release of Douglas Chilman is apt to be announced within a very few days. It is said that the interest in the case of the young candy merchant has not died down one bit, and several prominent business men of the city are said to be working on a scheme to have a deputation go to Ottawa to interview the minister of justice to ask him to pardon Chilman. It is not expected that it will be hard to interest the two local members of the federal house on behalf of Chilman, and if the scheme materializes Chilman's release may be expected at an early date.

It was at first thought that a largely signed petition to Hon. C. J. Doherty, minister of Justice, would be sufficient to bring about Chilman's release, but to make it certain friends of the prisoner launched the idea of a deputation. The plan is to have a number of local influential business men, hundreds of whom have taken a keen interest in Chilman's predicament go to Ottawa to see Mr. Doherty, to whom they would be introduced by Samuel Barker, M.P., and T. J. Stewart, M.P.

Mr. Bell, Chilman's lawyer would say nothing further about the case this morning, and is holding off from the arrangements as a request from well-known citizens would carry a great deal more weight than a request from counsel for the prisoner

LARGE AUDIENCE HEARD CONCERT

Enjoyable Program Provided by Springville Church Choir

The large audience who attended the entertainment, under the auspices of the Springville Presbyterian church choir in the Conservatory hall last evening, were greatly pleased with the quality and merit of the program and were enthusiastic in their praise of it. The concert did not conclude until nigh eleven o'clock, but this was unavoidable owing to the length of the program. Those who participated in supplying were Miss Barbara Foster, contralto soloist; Miss Mae Teskey, and the Conservatory of Music orchestra.

Miss Foster displayed a wonderful amount of musical ability, and her deep, rich and remarkably sympathetic vocalism was a constant source of delight to her audience. Miss Foster is a typical Scottish girl, and her native accent lent itself most acceptably to her Scotch selections. Especially was this so in her effective rendering of "My Ain Folk," which she sang in splendid voice. Her lower register is very powerful and true, and the same qualities are apparent, though to not quite such an extent in her higher notes, which verge into almost soprano range. Her voice is also flexible and under remarkable control. Miss Foster's voice is quite capable of filling the largest hall and she appears to have any amount of volume held in reserve.

Two of her selections, which won her the warmest applause and general approval were "The Lost Chord," and as an encore "The Hundred Pipers." Any future appearance in the city of the talented soloist will be warmly welcomed.

Regarding the elocutionary ability of Miss May Teskey, it may be classed in a very high rank. Miss Teskey exercises her personality to noticeable advantage, and has most charming manners which heighten the effect of her reciting. She is a remarkably able and versatile reader, and with plenty of time yet to improve, she bids fair to rank as one of the leading readers and reciters now before the public. Her dramatic abilities are excellent, and her thrilling recital of "A Leap for Life," was one of the best numbers of the evening.

The Conservatory Orchestra with their bright and capable playing, were responsible for a large portion of the evening's enjoyment. The selections were given with precision and evenness, always prominent in their playing, and every number won enthusiastic applause. Indeed, the concert would have lost much of its enjoyment without the presence of this talented organization, who are always so ready to assist in musical programs when called upon.

Their opening selection, "The White Squadron," with a swinging military movement, was given with a vim and dash that opened the way appropriately for the remainder of the program.

The rendition of "Rob Roy," was easily their stellar number of the evening. Some of the passages in this famous Scottish composition are replete with tuneful melodies. The Conservatory orchestra, under the leadership of Prof. Gliddon, has been brought to a high state of efficiency, and this was recognized by the large audience who indicated their approval by the heartiest applause.

Miss Pearl McKee, as usual, presided most acceptably in supplying the accompaniments.

In six years the Russian authorities have confiscated issues of newspapers and periodicals in 1,055 cases.

King George laid the foundation Saturday of the new palace for the London County Council, which is to cover about six acres and to cost about $10,000,000.

ENQUIRY INTO FARMER'S BANK

Will Open To-day at Ottawa Before Special Commissioner

Ottawa, March 13—The enquiry into the Farmers' Bank and the circumstances leading up to its collapse commences at the Court-house here to-morrow morning before the Special Commissioner, Sir William Meredith. Frank Hodgins, K.C., and John Thompson, K.C., will be the counsel for the public in the prosecution of the investigation. The Ottawa end of it will take two days, and will have reference particularly to the issue by the Treasury Board of the certificate upon the strength of which the bank started upon its ill-fated career. Counsel in the case were busy to-day in making arrangements for the enquiry, looking over papers connected with the case and issuing subpoenaes to witnesses. There will be three main witnesses, Sir Richard Cartwright, Judge Brodeur of the Supreme Court, and Mr. T. C. Boville Deputy Minister of Finance, and Secretary of the Treasury Board. The two former were on the board when the certificate was issued. Mr. Fielding, Minister at the time, is now in England, and in view of that fact the desirability of examining him as well as his erstwhile colleagues, will be determined later. The Chief Justice arranged to-day to resume sittings in Toronto on Tuesday next, the 19th inst.

NINETEEN LIBERALS CAST VOTE WITH THE NATIONALS

Continued from page 1

tinued the leader of the Opposition, "I approach the question at this moment not in my capacity as leader of a party, but as an individual. My attitude on this question is well known; it had been well known for sixteen years. I stand to-day, in 1912, on the same ground and on the same platform as in 1887. I would not then interfere with the autonomy of Manitoba: I will not now, in Opposition, interfere with the autonomy of that province.

"As to the amendment, I say it is beyond doubt that if my hon. friend wished to maintain in the new constitution of Manitoba the legislation of 1875, he could not have adopted a more ineffective method. That amendment would not in any way add to the rights or privileges of the minority in the new territories and is already contained in the Manitoba Act."

After a brilliant peroration on the beauty of peace, Sir Wilfrid stated that he would never raise his hand to stir up discord and for that reason he would vote against the amendment.

Million for Nuns

Montreal, March 13— The entire frontage of the Grey Nunnery Property on St. Catharines street, streching from Guy to St. Matthew has been sold to a syndicate of American capitalists for the sum of $1,224,000, which works out at about $20 per foot.

is economical too. Because it is all Coffee and nothing but Coffee, two pounds will go as far as three pounds of any other kind.

Special Introductory Offer. Dalton's French Drip Coffee is packed in Mild and Strong Blends, 13c, 25c and 50c tins.
Buy two 50c tins from your Grocer and he will give you a Dalton French Drip Coffee Pot (worth $1.30) free.
If your Grocer will not supply you send $1.00 and we will send carriage collect.

DALTON BROS., TORONTO.

SCOTT MIGHT HAVE REACHED POLE FIRST

Amundsen Says British Explorer May Have Succeeded

New York, March 12.—A London cable to the Tribune says:

Captain Amundsen now admits it is quite possible that Captain Robert Scott reached the South Pole before him and left some substantial memorial which was afterwards swept away by storms. On the whole, however, he considers this very unlikely, as calm weather prevailed all the time he was there. Like the good sportsman he is, however, Amundsen hopes that Scott has been successful also.

The explorer and his party, it appears, had much difficulty in breathing at times during the latter stages of the journey to the pole, when great heights had to be surmounted, but otherwise they had no real hardships to endure. Amundsen gives full credit to his comrades and to his dogs, and says that his success was largely due to their magnificent work.

The most interesting biological statement Amundsen makes is that the King Edward Land party reported seeing a bird of a new species. Also scientific men will eagerly await his full statement as to what bird it was at all like.

WHO GOT THERE FIRST?

Sir Ernest Shackleton is surprised that Amundsen should report calm weather prevalent at the Pole. This was quite different from what he experienced. Shackleton still thinks it possible that the British expedition may have reached the goal before the Norwegian. Amundsen allows that the season was very favorable, and there is every chance of Scott having accomplished his mission under the same good conditions that he himself had, but we must wait for news from Scott giving the date when he reached the Pole, if he did so, before it can be definitely said who had the honor of being there first.

FATHER WAS CABIN BOY ON "VICTORY"

Ottawa, March 13.—After an illness extending from last November, the death occurred on Saturday at her home at Westboro of Mrs. W. F. Taylor. The deceased was formerly Miss Henrietta Traveller, and was the daughter of Mr. Reuben Traveller, at one time a cabin boy to Admiral Nelson, the famous naval commander. The late Mrs. Taylor was born on the old homestead at Westboro and had lived there all her life. She is survived by her husband, one son and one daughter. The funeral took place on Tuesday.

SANOL

The new discovery will positively remove Gall Stones, Kidney Stones, Gravel in the Bladder, and will effect a complete Cure. It will dissolve and remove stones without pain, and there is no necessity for an operation in the future, as Sanol will cure in every case no matter how long standing the disease may be.

SANOL will be found particularly valuable in old cases of Kidney and Bladder diseases.

SANOL is a preparation of herbs and herb extracts, and contains no poisonous ingredients. It's use, therefore, cannot possibly harm either the stomach or intestines.

Sanol per bottle $1.50

Get it from McDERMID & JURY, Druggists, Peterborough, or direct from The Sanol Manufacturing Co., Winnipeg, Man.

DISTRICT DAIRY ASSOCIATIONS ELECT OFFICERS

Good Meetings in Interest of the Cow Testing Movement

Cheese and Butter Makers Convention Here Next Week

The meetings which were held during the past few days, in connection with the cow testing movement, at Trewern, Peterborough and Norwood resulted in considerable interest being shown, in this work which is having a decided effect in increasing the yield of milk and fat of the dairy herds in the Peterborough section. As an instance of this it was shown by returns submitted by representatives of the Department of Agriculture who conduct the cow testing work, that the yield of some 20 herds whose owners have followed up record work for more than two years have now reached the splendid average of 6,137 lbs. milk and 212 lbs. fat per cow. These herds are made up of Durhams, Holsteins, Ayrshires and Jerseys, and show the result of careful selection of the male and female in developing a good milking strain. In comparison with this we find that in the returns of 75 herds which have been recorded in cow census work in the Peterborough section during the past winter, the average is only 4,400 lbs. of milk per cow, a difference of 1,737 lbs., and if we eliminate the herds in the testing associations this average is reduced to 3,800 lbs. per cow, a difference of 2,237 lbs. per cow, which is no doubt largely due to the information obtained by farmers keeping records of individual cows yield.

The prospects seem very bright for an extension along this line of work in the Peterborough section and the Department of Agriculture has decided to continue the services of Mr. A. L. Andress as recorder, and he will be pleased to supply information to farmers wishing to take up the cow testing work.

Officers of the different Associations were elected as follows:

Trewern—
Pres.—J. R. Mann.
Vice-Pres.—J. Donaldson.
Committee—L. Fowler, Elmer Milburn, Allan Mann.

Shearer—
Pres.—Hugh Fife.
Vice-Pres.—W. J. Bullock.
Committee — Harold Hall, Harry Evans, W. E. Wood.

Peterborough—
Pres.—S. Matchett.
Vice-Pres.—R. B. Jackson.
Committee—R. C. Hanbridge, Fred Campbell, W. R. Shields.

Norwood—
Pres.—F. J. Greenbank.
Vice-Pres.—H. A. Thistlethwaite.
Committee—Louis Brown, J. F. Elliott, John Marks.

CONVENTION NEXT WEEK.

The annual convention of the Peterborough Cheese and Buttermakers' Association which will be held in in the City Council Chamber on Wednesday, March 20, at 1.30 p.m., promises to be one of the largest ever held by this Association as Mr. G. G. Publow, Chief Dairy Instructor for Eastern Ontario will be present and deliver an address. Mr. Publow visited the chief dairy centres of Great Britain last summer, and is in a position to give a great deal of valuable information to the makers of this section. The annual meeting of the Cheese Board will be held on the same day at 10.30 a.m., in the Bank of Montreal Chambers.

VERDICT IN UXBRIDGE INQUEST

Miss Baker's Death Probably Due to Strychnine Poisoning

Saintfield, March 14—After four hours deliberation the jury inquiring into the cause of the death of Miss Evelyn Baker on January 14 at her home here, brought in the following verdict: "We find that Miss Baker came to her death on January 14th from unknown causes, but probably from strychnine poisoning. We do not approve of so much freedom between young people as in this case, and condemn the conduct of Dr. Edward Bailey in having kept company with Miss Baker for so long without any intention of marrying her."

Miss Baker, who was teaching in the public school at Leaskdale, near Uxbridge, had been out driving with Dr. Bailey on Saturday night, January 13th last. Early on Sunday morning cries were heard from Miss Baker's room, and it was found she was in convulsions, believed to have been caused by strychnine poisoning. Dr. F. E. Mellow, who was called, administered chloroform to relieve the convulsions, but Miss Baker never recovered. She had written a letter to Dr. Bailey some time before saying she would end her life if he did not marry her.

KEPT PRISONER FOR FIVE MONTHS

Boston, March 12.—Kept prisoner by a negro for five months in a basement room, was the experience of Florence Boardman, a young white woman, according to the story told by her to the police to-day.

The woman said that last November Albert McLoughlin, a negro, decoyed her to his room, and had since kept her prisoner. She was fed on bread and water, she said, and subjected to constant abuse. She threw herself through a window to-day when she saw some police officers.

McLoughlin's arrest was accomplished only after a struggle with the officers, during which a revolver was wrested from him.

APSLEY NEWS

Special Correspondence

Apsley March 14.—It was with a feeling of sadness that news was received here by wire of the death of Mr. Walter Lean at the early age of 33 years, which took place at Port Hope on March 2, after a short illness from typhoid fever, despite best nursing and physicians. Deceased was born here, and when a young man went to Warsaw to learn the trade of blacksmith. Later he was married to Sophia Moore, of Dummer. They took up residence in Lakefield where they resided for some time and then removed to Port Hope. He leaves to mourn his loss a wife and two small children, Karneal and Ila., ila also his father and mother, Mr. and Mrs. John Lean, of this neighborhood; four brothers and one sister who reside here; one brother in Collingwood, and one brother in British Columbia, all of whom have our sincere condolence in their great sorrow.

Friend after friend departs;
Who hath not lost a friend?
There is no reunion here of hearts
That hath not here an end.

It is well amid the grief that these partings occasion we have the assurance, "Though sorrow may endure for a season, joy cometh with the morning."

Deceased was a member of the United Woodmen of Port Hope, and Chosen Friends of Lakefiled, who offered helping hands in time of need to one whom they respected in life and mourn in death. He was also a member of the Loyal True Blue Lodge here. So one by one the links that bind us are severed here on earth.

The remains of the late Walter Lean were brought by trian to Lakefield and taken to the Methodist Church where service was held and then laid to rest in the Hillside Cemetery.

The following relatives attended the funeral of the late Walter Lean at Lakefield on Tuesday of last week: Mr. and Mrs. Wellington Lean, Mr. and Mrs. Simon Windsor, Mr. and Mrs Daniel Lean, Messrs. Norman, John and Joseph Lean.

Mr. A. W. Lean, of Collingwood, has returned home.

The stork visited the home of Mr. and Mrs. Wm. Earnshaw on Friday last and left them a little daughter.

The Ladies' Aid Society held their monthly meeting on Thursday last at the home of Miss Emma Clegg.

Mr. J. R. Tirriess and family have removed to Peterborough.

We are sorry to learn that Miss Maggie Lean is suffering from a severe attack of pnuemonia at Nicholls Hospital.

We extend our sincere condolence to Mrs. Sharp, of Sherbrooke street, Peterborough, who formerly lived here, whose son, Robert, was killed by a fall from a three story building at Edmonton, Alta., recently.

Misses Sybil Windsor and Permilla McIlvena have returned from visiting friends at Peterborough.

Miss Myrtle Hales was a guest at "Riverdene" on Sunday last.

We are sorry to learn that Mrs. McFadden, Sr., is poorly.

SPEAKS OUT HIS FIRM BELIEF

That There is No Better Medicine Than Dodd's Kidney Pills

New Liskeard Man Tells the Public What he Thinks of the Remedy That Never Fails to Cure Diseased Kidneys.

New Liskeard, Ont., March 12.—(Special)—Mr. Isaac Grant, well-known and highly respected here, is a firm believer in the old and still growing belief that Dodd's Kidney Pills are the one sure cure for all forms of Kidney Disease.

Mr. Grant is outspoken in his belief. "Any person suffering with kidney disease," he says, "should use Dodd's Kidney Pills, as there is no better medicine on earth to-day."

When a man makes a statement like that he believes what he says. Hundreds of others in Canada are making the same statement every day, and for the same reason. They have used Dodd's Pills and found them good. For Dodd's Kidney Pills not only cure the backache or rheumatism or dropsy, or other ailment at which they are aimed, but they build up the system and make you feel stronger and healthier all over the body.

Dodd's Kidney Pills cure the kidneys, and cured kidneys mean pure blood. Pure blood cures the ailment by making the body strong enough to shake off any and all disease.

LAKEHURST

Special Correspondence.

Lakehurst, March 11.—Miss V. Flynn and Mr. G. Weir visited Rockcroft a week ago Sunday.

Mr. Stephen Elmhurst, of Indian River, is visiting friends here.

Mr. N. Windover who purchased Mr. A. Johnston's farm here a short time ago, moved into his new home last week.

Mr. Cree, of Norwood, conducted communion services in the Presbyterian church here a week ago Sunday.

Two lady evangelists are holding nightly services in the school house here just now.

Miss Vera Harris, of Smith, was the guest of her friend, Mrs. J. Renwick, on Sunday March 3.

Mr. and Mrs. A. Wilson visited at the home of Mr. W. Weir last Sunday.

Miss Given Smith, of Peterborough, paid a brief visit to her home here a short time ago.

Miss Martha Stevenson visited her friend Miss Madge Shaw one day last week.

SHOOTING PAINS IN SIDE, ARMS, BACK

Prove the Presence of Rheumatic Virus, Which Is Cured Quickest by Nerviline—Rub It In.

Pains in the muscles, in the sides, the back, the neck, or the chest—they always carry with them great discomfort. If the inflammation is severe the pain will be intense. If allowed to continue they are dangerous. Nothing so quickly cures local inflammation and drives away pain as Nerviline. Nerviline does this because it penetrates so deeply. Nerviline is not only powerful, but soothing. By relieving congestion it cures pain. It does this always. It cannot fail because it is a true antidote for pain. You can scarcely find anybody that will not tell you wonderful things about the pain-curing power of Nerviline. Remember, that there is not an ache or pain that Nerviline will not cure immediately. Nerviline is an anchor of health in every household.

Refuse anything that may be offered you instead of Nerviline, which is guaranteed for rheumatism, neuralgia, sciatica, lumbago, and all muscular aches and pains.

Large bottles, 50c; trial size, 25c, at all dealers, or The Catarrhozone Company, Kingston, Ont.

NERVILINE CURES ALL PAIN

OMEMEE NEWS

Special Correspondence.

Omemee, March 11—The following ladies were the guests of Mrs. Porter of Sturgeon st., last week; Mrs. Hayes of Kingston, Mrs. Monroe, Peterboro, Mrs. Cornell, Peterboro; Miss Porter of Trenton.

A quiet wedding was celebrated at the home of Mr. R. W. Wilson of Emily, on March 6th, the event being the matrimonial union of Miss Clarabel McDougall of Fenelon Falls to Mr George E. Moore of Lobcaygeon, brother of Mr. R. W. Wilson. The nuptial knot was tied by Rev. Robt. Larns, pastor of the Methodist church, in the presence of only the immediate friends of the contracting parties. After a very sumptuous wedding breakfast and accompanied by the good wishes of their friends, the young benedicts left for a honeymoon trip before establishing themselves in their home at Lobcaygeon.

The Lindsay Branch of the Public Library Institute met at Oshawa, on March 5th, Mr. T. W. McLean attended as a delegate from our library. He reports a splendid meeting and a grand supper tendered the visiting delegates by Mayor Gibson. The next meeting of the Institute is to be held at Bracebridge, probably in June 1913.

Don't fail to attend the St. Patrick's concert on March 18th in Coronation Hall. The performance is under the auspices of the Epworth League of the Methodist church and will partake of a coloring appropriate to every lover of the people of the Emerald Isle.

Miss Parsons has returned home from a vacation trip with friends at Toronto.

Mrs. White supplied as teacher in the senior room of the public school during the absence, last week, of the principal.

Coal dealers are not able to supply their customers owing to a shortage caused by delay in transportation.

The Messrs. Courtney have their saw mill in operation making their Spring cut of lumber and shingles.

Another pioneer of the township of Cavan was laid to rest on Feb. 28 when all that was mortal of the late James Jones was consigned to Mother Earth in the Emily cemetery. Interment occurred at a time when the roads were blocked with snow, but many willing friends along the route of the procession turned out and made the roads passable. The funeral was a large and representative one, and showed the respect in which the deceased was held. Mr. Jones was a prosperous farmer, well known in Cavan and Emily and much respected for his good moral character and generous hospitality. His was a life that linked the past with the present, being 70 years old at the time of his death. The funeral services were conducted by members of the Orange Order, in whose ranks the deceased had been a member in good standing for over 40 years. Besides a sorrowing wife, there are left to mourn his demise, two sons, Cecil, at home and Herbert of Emily; one daughter, Mrs. Arthur Rutherford, and two grand-children. Sincere condolences are extended to the sorrowing relatives and friends.

H. L. Ames and Flora Wilson, both known as writers, are under arrest in London on a bigamy charge.

DIABETES

is one of the most cruel maladies of which mankind is subject, the many complications arising from time to time, making life seem almost unbearable. For many diseases, medical, scientific, and physiological knowledge and experience gained from years of deep research, has achieved remarkable results, but, up to now, little has been discovered of practical value in the treatment and cure of Diabetes. In fact, people have begun to look upon the disease as well-nigh incurable. Even in the medical profession can be found doctors who are of the same opinion, regarding sceptically any claim to ameliorate or improve the condition of a diabetic patient.

It can, however, be proved that SANSOL'S ANTIDIABETES lastingly cures all cases of Diabetes. Full particulars can be obtained from the Sansol Mfg. Co., Winnipeg, Man.

PRICE $2.00 PER BOTTLE

From McDermid & Jury, Druggists.

Newcombe Pianos

Comparison with other Pianos only serves to emphasize the quality that makes the NEWCOMBE

THINKING THEMES

By DR. FRANK CRANE

There is a sort of Reversed Plagiarism. That is to say, as plagiarism is passing off as your own, the words of some one else, so reversed-plagiarism is passing off as a quotation, the words which are merely your own. There is a great temptation to do this. A distinguished name carries conviction. Mark Twain, just for fun, deliberately made up a quotation from Burns and captured the applause of a Scottish audience. To read some writers, as Sir John Lubbock, for example, is to feel yourself literally clubbed into conviction by great names. Quotation after quotation is rained upon you, and while you might dare to disagree with Lubbock, you would not venture to peep against his glittering company. Feeling this force we are tempted to make the noble names say not only what they did say, but what they ought to have said. My remark is a musket-ball; if I could lay it to Socrates it would be a ten-pounder. George Ade has a very funny parable in which a preacher, who had always talked simply and was losing his audience, began to quote from imaginary authors, including a certain fictitious Icelandic poet, and so became famous. And to prove all this I will quote—a real quotation, on my honor—from La Bruyere, who, a long time ago, said: "A good saying often runs the risk of being thrown away when quoted as the speaker's own."

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Satisfied Policy-Holder

[COPY]

Toronto, March 1st, 1912.

W. H. HILL, ESQ.,
Manager,
Sun Life Assurance Co.,
Peterborough, Ont.

Dear Sir,—I wish to thank the Sun Life Assurance Company, through you, for the prompt and very satisfactory settlement of my 15 year Endowment Policy, No. 64345, which matured and was paid me to-day.

I have also a 15 year Endowment maturing to-day in a leading British Company.

The contrast, in the results, in favor of your Company is so marked that I want you to know it, but I am at a loss to know how such a difference could honestly occur. When I tell you that the profits in your Company are **three and one-third** times the profits in the other Company referred to, and this too notwithstanding I paid the other Company $1.15 per year more per $1000 than I paid you, you will realize my inability to comprehend the cause.

This is surely a tribute to the management of the Sun Life, and I am so well pleased I have applied for further insurance with you.

Incidentally, I would like to say a word for your loan privilege. As you are aware, I borrowed some money on my policy, a little over a year ago, which enabled me to obtain a substantial interest in a town site in the Northwest, and you will be pleased to learn that it has already yielded substantial gain and gives promise to pay hundreds per cent., so that it is impossible to fully realize the value of that Policy to me.

I thought as an old Peterborough boy you would be pleased to know I am delighted with the result.

Yours truly,
(Signed) ROBERT E. DOLAN.

GOLDEN LION STORE

FEATURING NEWNESS

THIS is just by way of introducing you to a delightfully interesting display of New Spring Merchandise. Your imagination cannot do justice to our most complete assortment.

All sections throughout the store are filled up or are filling up with brand new merchandise.

Every turn that Fashion takes in prescribing the mode of Tailored Suits is represented in our showing. It has been assembled with infinite care and skill to the end that the modes and quality be distinctive and out of the ordinary, and that they will be perfectly tailored and withal moderately priced.

At $15.00 to $30.00 we have exceedingly smart **Suits** and **Coats** of the best Tailoring and splendid materials, in the most favored colors and all neatly trimmed. See this matchless collection in all its first bloom and freshness—many exclusive models are being appropriated daily.

Every Day boxes are being unpacked containing all that is Fashionable along the line of **New Spring Suitings, Coatings & Silks.** The most fashionable fabrics are represented. The selection is complete and values unexcelled.

Serges are particularly good this year. We have a handsome assortment of these in Stripes, Navys, Blacks, Greys and Tans. Prices ranging from **98c** per yard to **$1.50**

Reversible Coatings stand out prominent in Spring apparel material. We have this line in Tans, Greens, Blues, Greys & Copenhagen Blue, 54 inches wide, heavy quality. Per yard...........**$1.50, $1.75** and **$2.00**

Among the other fabrics standing high in fashions favor are **Grey Tweed Suitings** 56 inches wide. Yard..... **$1.65**

Grey Twill Suitings 54 inches wide. Yard..... **$1.25**

Striped Grey 44 inches wide. Yard..... **$1.10**

vices of Miss McCullough as forelady in his millinery department and she with her assistants are now preparing samples for the spring opening.

Mr. Herb Nelson, station master at Keene, gave Norwood a friendly call on Sunday last.

Miss Annie Thompson, who teaches school at Lang, visited her home here last Sunday.

Mr. D. N. King, of Peterborough, has leased the hotel property known as the Norwood House, and will take possession in the spring.

Mr. J. E Thompson is installing a stock of hardware in connection with his grocery on Colborn street. Mr. Thompson intends erecting an addition to his premises in the spring.

Mr. Harry Harper has moved into Mrs. McLeary's house on Peterborough street.

Mr. Alex. Kempt has taken up his residence in the rooms over the stores he recently purchased from J. N. Ackerman and lately occupied by Mr. Harry Harper.

Mr. J. A. Finlay went to Peterborough this morning on business.

PETERBOROUGH WON.

A rink of Peterborough curlers came to Norwood to-day, Tuesday, on the noon train. The rink was composed of Mr. J. Craig, A. Gibson, G. Maitland, W. G. Ferguson, skip. Mr. T. E. Finlay skipped a rink of local curlers composed of Lang, Watson and J. A. Finlay.

In the afternoon the visitors defeated the locals in a 16 end game by three shots. The score was 12—15. The game was hotly contested all the way through. At the 15th end Peterborough was one up and Skip Finlay in the last end missed a decisive shot by a hair, which gave the visitors two shots.

The visitors remained over for another game at night.

MINSTREL SHOW WAS REPEATED

Bugle Band Boys Appear Before Grand Footlights

To a fair sized house last night Bobby Beach's Bugle Band Boys repeated their Minstrel Show. The performance was almost the same as presented in the armories but the boys had a large stock of new jokes on hand last night to enhance the merriment created by their former appearance. Also the Gliddon boys, Masters Otto and Paul were appreciated in their instrumental duet on the cornet and clarionet.

The show was a decided success and the boys are to be congratulated on the fine showing they made in the many difficult selections.

The end men couldn't have been better if they had been made to order. The darkey chairs on the left of the stage were held down by A. Spencely, Walter Fitzgerald and Percy Stock. On the right hand Bill Sharpe, Mat Drysdale and Wilbert Spencely appeared with blackened countenances, high collars and short sleeves. Fitz, as before caused a roar in the house, in "Alexander's Rag Time Band," and Percy Stock received as a reward for his efforts in "That Mysterious Rag," a beautiful bouquet. W. Spencely in the "Coon Cadets," and Al. in "Just a Friend of the Family," certainly succeeded in getting off the negro lingo.

The music supplied by the Opera House orchestra was well rendered, particularly in "When Cupid Comes a-Tapping," sung by Percy Neill, and "Down by the Old Mill Stream," rendered by Asa Huycke. Miss Hazel Dean, of the Conservatory of Music staff, accompanied the Gliddon brothers very acceptably.

The boys intend to improve, enlarge and rearrange the show, and present it again after Lent.

GOLD WATCH TO LINDSAY CURLER

Mr. T. Burke Honored by Lindsay Curling Club

Lindsay Post—Last evening at the curling rink, a very pleasant affair took place when Mr. T. Burke was presented with a gold watch by his fellow curlers, on the eve of his departure for Port Arthur, where he has accepted a responsible position.

Mr R. Butler, in a few well chosen remarks, made the presentation. He referred to Mr. Burke's connection with the club for the past few years and that during the past ten or twelve years he had helped the club to win many important games. Everyone joined heartily in singing, "For He's a Jolly Good Fellow."

Mr Burke was completely taken by surprise. He expressed his regret in leaving the good old Lindsay Curling Club, and spoke of the manly sportsmanship and good fellowship of the members. He would miss the associations of his comrades on the ice.

His Worship Mayor Wood spoke highly of the enthusiasm of Mr. Burke for the roarin' game and the true spirit with which he entered into the game. He will add prowess to Port Arthur rinks, and when he plays a good stone those around will say, "There goes one of Flavelle's best." He was sure Mr. Burke would never forget Lindsay.

"Auld Lang Syne" was heartily sung, after which Mr. Burke shook hands with the members of the club and said farewell to those who had been his associates on the ice.

In losing Mr. Burke, Lindsay loses a citizen who always took a keen interest in all manly sports, his favorites been curling and lawn bowling. His many friends will join in wishing him continued prosperity in Port Arthur, for which place he left this morning.

NORWOOD MAN HEAVY LOSER

His Home and All Contents Destroyed by Fire

HAD NARROW ESCAPE

Did Not Have Time to Save His Pocket Book

Special to the Review.

Norwood, March 13.—At three o'clock Tuesday morning Norwood was aroused from its peaceful slumbers by the loud clanging of the fire bell, and immediately there was a scurrying into street garments, and in an incredibly short time dozens of men were hurrying to the scene of the conflagration, which was found to be at the residence of Mr. Geo. Reynolds, Queen street.

The fire started so suddenly that Mr. Reynolds had barely time to escape with his life, he having had his hair scorched by the flames. It was found impossible to save anything out of the house, and Mr. Reynolds had not even time to secure his pocket-book which contained considerable cash. The origin of the fire is unknown. The house, which was one of the old landmarks, being at one time a school, was not insured, and Mr. Reynolds will suffer a total loss of both house and contents.

ABOUT EYES & GLASSES

Talk No. 1 -- By J. W. BROWETT, Optometrist

The large Factories grind lenses in over 27,000 different combinations to suit the eye. We examine to determine which of the 27,000 should be used.

Glasses were invented a great many years ago—so were eyes. The eyes in construction are the same to-day, but the Glasses have changed. The Science of optics has steadily advanced, until now manufacturing opticians are able to grind glasses to correct defects of vision, of many varied forms. Few persons, comparatively speaking, have perfect eyes; and an eye which is not perfect is an annoyance to the brain; the eye and the brain are very intimately connected. When the eyes differ we have unequal vision—unequal vision causes headaches and nervousness; these are symptoms of eye strain We correct unequal vision with lenses scientifically made. Optical lenses are made from scientifically made glass, except in cheap spectacles; in these the glass is made the same as for windows. We use pure and faultless crystals only.

NORWOOD CURLERS ARE WELL PLEASED WITH SEASON'S WORK

Skip Cuthbertson's Rink Won Silver Cup—Banquet to be Held.

Special Correspondence.

Norwood, March 13.—The curling season in Norwood has practically closed for the present year. The final matches for the silver cup was won last week by Skip W. H. Cuthbertson's rink who won by a good margin from Mr. T. E. Finlay's rink.

The finals for the curling stones resulted in a one shot victory for Jos. Kelly, who is now the star of the Norwood curling rink.

On Saturday night W. H. Cuthbertson's rink went down to defeat for the oysters by an all star rink selected by Skip J. R. McKelvie.

All the members of the club are one in saying that the past season was one of extreme pleasure and satisfaction. While all were anxious to win the laurels, still none are envious of the winners. Skip Cuthbertson's rink composed of Messrs. W. H. Brethen, A. B. Greenbank, J. A. Finlay and W. H. Cuthbertson, put up a good game all through the season and honestly won the cup and we all congratulate them on their success. Mr. Kelly, who is a first year man, is certainly deserving of credit in winning the final match from Mr. Thos. Watson, who is considered one of the steadiest players on the club. Watson showed up splendidly all through and was picked on as the winner of the stones, but he went down to defeat by a new curler after having defeated in the primaries. Skip T. E. Finlay and J. R. McKelvie and Vice Skip J. A. Finlay.

It is the intention of the club to hold a banquet in the near future and formally present the trophies to the winners.

HOCKEY MATCH.

On Friday evening last Hastings hockey team went down to defeat in Norwood by the Norwood seven, the score was 5—4. The game was hotly contested from start to finish. The ice was not in good shape for fast hockey, but the spectators were kept in a state of tense excitement all through the game. A good crowd witnessed the game and the weather was delightful for an open air contest.

A PRESENTATION.

On Friday evening of last week the congregation of the Norwood Methodist church assembled in the Lindsay school room for the purpose of doing honor to Mr. and Mrs. Oliver Buck and family, who are about to remove from this neighborhood, he having purchased a farm near the city of Peterborough. A short program was rendered and an appropriate address was read by Dr. S. P. Ford voicing the sentiment of all present, Mr. and Mrs. Buck have been very active in the work of the church and their places will be hard to fill. For some time Mr. Buck has with marked success, been leader of one of the classes in the church. Mrs. Buck will be missed in the W. M. S. She always having taken a deep interest in the working of the society. During the evening refreshments were served and all went home at a seasonable hour, having spent an enjoyable and profitable time together.

Mr. R. S. Ivey has rented Mr. Robt. Girven's farm at South Dummer, for one year, Mr. Girven having decided to see the great west.

THE NEW HOTEL.

Mr. John Baskin is making substantial preparations to commence active operations on his new hotel on Peterborough street, early in the season. Already two car loads of brick have been deposited on the ground and no time will be lost in getting the work under way as soon as the weather conditions permit.

Mr. E. P. Cuff has secured the ser-

FOUR NEW DREADNOUGHTS

Also Twenty Destroyers and More Submarines for Britain

London, March 13.—The British naval estimates made public in the House of Commons to-night provide for four new Dreadnought-type battleships, eight cruisers, twenty destroyers and a number of submarines.

The bill as introduced carries an appropriation of $220,427,000, which is a decrease over last year of only $1,535,000, although the advocates of reform had been led to expect from five to seven million dollars would be lopped off the total.

Winston Churchill, First Lord of the Admiralty, stated that the budget had been made up in the expectation that all of the other powers would adhere to their announced program, and not construct more warships than already ordered. Failure to do so, he said, would result in England changing her plans to keep up with any competing nation.

Scotland Yard denies having asked the New York police to watch for Christabel Pankhurst, who is thought to be still in London.

BEAUTIFUL EYES

are made beautiful by long, silky lashes and well defined, lustrous brows. Eyes, like diamonds, depend on their setting. The beauties of the face are lost is the eye brows are thin and scanty, and the lashes are thing and scanty. Parisian Lash Lustre grows beautiful, soft, silky lashes. It has done so for society women throughout Europe, and it comes here well recommended to do the same for you. Parisian Lash Lustre is not a dye or colorator, but a scientific preparation for beautifying the eye lashes and brows. Our guarantee goes with every box of Pariaisn Lash Lustre. A two weeks' treatment will bring beauty to your eyes that you have never before possessed. By mail, prepaid, in opal boxes on receipt of price, fifty cents. B. V. Marion, sole distributor, Bridgeburg, Ont.

Annual Tea and Concert

The annual tea and concert of the Park street Mission Band will be held in the school room of the church on Friday, March 29th. 1d

At St John's Church

Rev. T. A. Nind, M.A., rector of Bowmanville Anglican church will deliver a special Lenten address this evening in St. John's church. The rector is an eloquent speaker and has had interesting experiences in England, Japan, and Northern Canada.

VOL. LX[illegible], No. 63. PETERBOROUGH, ONT., CANADA, THURSDAY, MARCH 14, 1912 TEN CENTS PER WEEK.

CANADAS SURPLUS FOR THE YEAR IS THIRTY-ONE MILLIONS

Hon. W. T. White Says Present Administration Only Claims Part of the Credit For the Prosperity—Tariff Will Remain Unchanged Till Commission Gets to Work—Bounties Will Not Be Renewed.

Ottawa, March 14.—Hon. W. T. White yesterday brought down the first budget of the new Conservative regime. The budget speech showed that Canada had never been more prosperous than to-day, a state of affairs for which the Finance Minister modestly declined to take more than a portion of the credit, which he thought might be shared between the present and the late Government. There was enough to go round.

As to the fiscal year 1911-12, up to the end of February last, the revenue received was $120,645,616. Adding to this the estimated revenues for the present month and payments made after March 31 he placed the revenue for the entire fiscal year at $136,000,000. To the end of February the expenditure was $77,145,844. He estimated the total expenditure for the fiscal year at about $97,000,000. This would give a surplus as regards consolidated revenue and expenditure of $39,000,000.

"I am sure I can congratulate the House and the country upon what is undoubtedly a record year for the Dominion," declared Mr. White.

Capital and special expenditures on the N.T.R. and other public works would amount to about $30,400,000. To this he added the $5,000,000 paid to implement the guarantee of the G.T.P. bonds, bringing the capital expenses of the year up to $39,000,000.

"Out of the revenues," he said, "we shall thus be provided for the current expenditures, for the capital outlays and for reduction in the public debt."

When the country was prosperous he thought was the time when Canada should have such revenues in excess of current expenditure as would meet in a large measure the capital expenditure necessary in a constructive period. Otherwise the credit of the country might be impaired at the very time Canada needed the money by the large increase of the public debt."

For 1912-13, Mr. White expressed the hope of a considerable advance in prosperity. The main estimates totaling $149,789,677 had been brought down and there might be further supplementary estimates. He believed that the end of the next fiscal year it would be found that the revenue was sufficient to meet not only the current but part of the capital and special expenditures.

The Government was committed to the building of the Hudson Bay Railway, the G.T.P. was pushing on to Prince Rupert, and the C.N.R. was extending its line to Vancouver. Soon the Panama Canal would be completed and it would be necessary to provide for the carriage of grain to the Pacific coast.

The gross public debt on March 31, 1911, he said, was $474,491,487. Deducting from this the assets, the net debt would amount to $340,012,052. The country was now passing through a time when loans were maturing and provision had to be made to meet them.

In view of the creation of the tariff commission, with the object of obtaining data, Mr. White announced that there would be no tariff changes at present. There had, of course, been many requests for changes, but he did not think any of the cases were of such a nature that any great harm would be done by a slight delay.

Mr. MacDonald (Pictou)—"Do I understand that my hon. friend will not propose any resolution with respect to bounties?"

"My hon. friend understands correctly," replied the Finance Minister. "It is not my intention to introduce any resolution with regard to the tariff or bounties."

A. K. MacLean (Halifax) declared that the task of the Minister of Finance in presenting the budget had been comparatively easy. He had been largely distributing the harvest that others planted. Mr. MacLean thought the abounding prosperity set forth showed that Canada probably had reached a point when there might be some diminution in taxation.

He warned the Finance Minister that some of his colleagues were very expensive gentlemen. They might have come in by the front door, like the Finance Minister, but they came in with requests in their hands.

Mr. MacLean estimated the customs "taxation" of the people during the present year at $100,000,000, and he would not be surprised if it reached $120,000,000. And still, he commented, hon. gentlemen opposite seemed to accept the situation with equanimity. The late Government had gone down to defeat fighting for a reduction in this taxation. He reminded the Minister that reciprocity was still a living issue in Canada.

W. F. Maclean (South York) declared that while he agreed in all the Finance Minister had said about the prosperity of Canada, he was disappointed at the absence of any reference in the budget speech to Imperial defence and what the attitude of Canada was to be towards Imperial defence. This was a question which stood out far above all others.

Mr. Verville (Maisonneuve) moved the adjournment of the debate, which will be concluded on Thursday.

PROBABILITIES

Moderate southerly winds, fair and on Friday, northeast winds, cloudy with light snow falls.

THE DOMINION BUDGET IN BRIEF

No tariff changes and no restoration of the steel bounties this session. A Surplus of $39,000,063 for the current fiscal year, the difference between

Estimated revenue for year 1911-12, $136,000,000.

Estimated expenditure on consolidated account, $97,000,000.

National debt reduced by $1,150,000.

Estimated capital expenditure for current year, plus $5,000,000 to "implement" Grand Trunk Pacific bonds issue, $39,000,000.

Amount spent on National Transcontinental Railway this year, $22,500,000, making a total since 1904 of $118,000,000.

Total capital expenditure since 1904, $252,785,248.

Amount added to the debt, $77,285,063.

Canada's total trade for ten months of the fiscal year, $711,199,802, nearly double the figures of twelve years ago.

Total immigration for the year, 306,705.

ONE SCHOOL, ONE FLAG, ONE LANGUAGE, SAYS GRANDMASTER

Annual Meeting of Ontario West Grand Lodge—Opposition to Irish Home Rule.

London, March 14.—The 54th annual meeting of the Grand Orange Lodge of Ontario West is in session here in the Y.M.C.A. Auditorium. Of the 600 delegates present at the opening meeting, a considerable number have been here since Tuesday, attending the Grand Black Chapter, which elected their officers yesterday morning. It is sixteen years since this Grand Lodge met here, the membership in the County of Middlesex having grown in that time from six to nineteen lodges.

Worshipful Brother Harry Lovelock of Toronto read his annual address to the lodge, referring to the bilingual question and the home rule problem, but intimated that the legislation committee report that will be presented by Bro. Wm. Banks at to-day's session will deal fully with both questions.

The committees that prepare the work for to-day's reunion were named, and are as follows: Credentials, J. J. Hunter, Kincardine; chairman correspondence, A. W. Wright, Toronto; finance, James Mayor, Toronto; supervisor and expulsions, Paul Gallagher, Centre Simcoe; petitions and appeals, Marshall Thompson, Essex; returns, W. J. Douglass, North Toronto, and a special committee headed by the G. M. of B. A., Col. J. H. Scott of Kincardine to deal with the report of the executive.

There is a well-defined rumor that the present Grand Master, Harry Lovelock, will retire, and in that case Fred. Dane will succeed him, his place being taken by Dr. J. J. Williams of Woodstock.

There will be keen competition for the vacant treasurership, formerly occupied by the late John Hewitt of Toronto, whose daughter, Miss L. Hewitt, under the supervision of the grand master and secretary, prepared the annual report. The names mentioned are W. Cooke, Meaford, the present assistant secretary, and James Mayor of Toronto; Joseph Thompson is also being urged to run. Hon. Sam Hughes, Minister of Militia, wired that he could not come, but Hon. Dr. Pyne will attend. Col. J. H. Scott, Kincardine, the grand master of British America, together with J. Parkhill, P.G.M., of Midland, are here.

In his retiring address as grand master, Harry Lovelack, said: "One school, one flag, and one language—this is what the Dominion wants to make it the brightest gem in the British Empire."

"As your grand master, I feel that I voice the sentiments of this grand lodge when I say that our brethren in the old land have our undying sympathy in their efforts to prevent the passage of a home rule bill for Ireland, and that our hopes and our prayers are being exercised on their behalf, and if need be our personal and financial assistance."

William M. Fitzgerald of Toronto reported that 15 primary lodges, three new district lodges and one county lodge had been established during the year.

HOLY GHOSTER INSANE

Boston, Mass., March 14—Rev. Arthur Herseel, formerly a preacher in several Ontario towns, who has been trying to secure the leadership of the Holy Ghost Society in a Maine village, has been placed in the asylum.

AEROPLANES COLLIDED

Berling, March 14—A collision occurred to-day between two aeroplanes flying round the aerodrome at Johannisthal, the machine driven by the German airman, Schade, who was carrying a passenger named Badeski, striking violently another aeroplane driven by the German airman, Bettinger. Both the aeroplanes were smashed and fell to the ground. The passenger Badewski, was injured, while the two airmen escaped unhurt.

ATTEMPT TO KILL KING OF ITALY

Three Shots Fired at King Victor Emanuel

Was on His Way to Attend Memorial Service

Special to the Review.

Rome, March 14.—Three shots were fired at King Victor Emanuel early this morning by an anarchist named Antonio Dalba as His Majesty was on the way from the palace to attend the memorial service in honor of the birthday of his father, the late King Humbert. His Majesty and the Queen, who was with him, escaped injury, but one bullet seriously wounded Major Langa, commander of the cavalry escort that surrounded the Royal carriage. Dalba was arrested. He had forced his way through the line of soldiers at the curb and got close to the closed carriage in which the royal couple were riding. The mere fact that the carriage was a closed one probably saved the king's life.

BOMBS HURLED FROM BALLOONS

Two Exploded in Caravan of Camels Causing Disaster

One Thousand Arabs and Turks Are Killed

Rome, March 14.—Another battle has been fought in Tripoli, this time at Benghazi. The official announcement was made to-day at the War Office and it is stated that 1,000 Turks and Arabs were killed.

The loss on the Italian side was 29 killed and 62 wounded. The Turkish positions were captured after hard fighting. The Arabs left 400 dead on the field.

The dirigible ballons yesterday hurled 28 bombs at tthe Turkish encampment at Zanzur, Tripoli, and created great havoc. Two of the bombs exploded in a caravan of 60 camels with disastrous results.

Would Go Slow on Church Union.

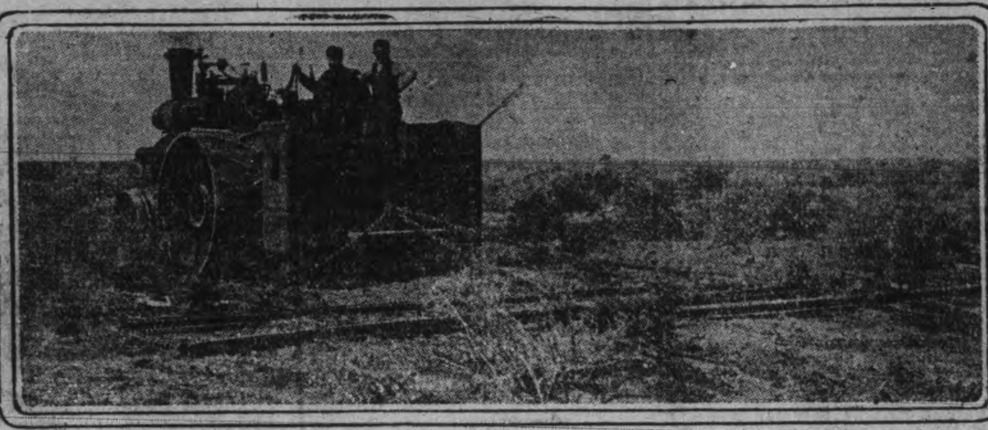
Kingston, March 14.—At a meeting of the Kingston presbytery it was reported that church union would be carried in this presbytery by a vote of two to one. The presbytery urges the general assembly not to move too quickly in consummating the proposed union.

TORONTO ATHLETES ARE NOT WANTED ON OLYMPIC TEAM

Special to the Review.

Toronto, Ont., March 14—A flurry was caused in athletic circles this morning, when it was discovered that four champion athletes who were sure to make a place on the Canadian Olympic team., are not going to Sweden, even if the boat sailed to-morrow. They had been selected it was ascertained, because they are unable to get away from business. The quartette are Frank Halbaus, quarter mile champion; Jack Tait, Canada's best miler; Arnold Knox, champion half miler; and Harry Tressider, five mile champion. These boys are recognized as the logical champions, at their distances, although they are not title holders. With these athletes absent from the stadium in Stockholm this summer, Canada's chances to land the championship are blown to the winds.

MACHINERY WHICH HAS WIPED OUT THE DRUDGERY OF THE FARM.



CLEARING OFF THE SCRUB BEFORE PLOUGHING WITH TRACTION ENGINE AND RAILS

The recently evolved methods of conducting farming by means of high class machinery have wrought a wonderful transformation which is attracting attention all over the vast agricultural sections of the West and Northwest. These machines have wiped out every vestige of drudgery of the farm. More or less complicated, their wonderful adaptation to every form of farm work, heretofore laboriously done by hand or by handling domestic animals, has excited the cupidity and ambitions of youth. Instead of leaving home to become a chauffeur in town the farm boy sees in his own home or neighborhood machinery for him to handle of a type almost as high as that of battle ships and ocean steamships, railway engines and electric power plants.

STRIKE IS SPREADING

Coal Situation is Growing Acute in America

Government in England Pursues Policy of Secretness

Over 246,000 Strikers Are Out In German Mines

New York, March 14.—The anthracite coal operators and the United Mine Workers of America alike profess unyielding adherence to their attitudes concerning the miners' demands. "The situation looks very blue and the indications point to a strike," declared President John P. White of the miners. The operators say positively that they will make no concessions.

With the formal rejection of the miners' demands and the counter proposition that the present agreements, which expires March 31, be continued for three years, the operators' committee of ten adjourned yesterday afternoon until to-morrow morning. Adjournment was taken upon the request of the miners' officials, who will meet in the meantime to consider the operators' reply and plan their procedure. This, it is expected, will be announced at the joint meeting of miners and the operators' committee to-morrow.

"I can say this much," said President White yesterday afternoon: "We will not make any modification of our demands. Beyond that I cannot tell."

The operators' reply, made public yesterday afternoon, is a document of approximately 2,500 words. It deals with the demands seriatim and in detail.

"It is out of the question to advance wages," reads the reply, "unless we can, in some manner, realize from the sale of coal produced a sum equal to the increase in wages." This increase, it is stated, would aggregate $28,000,000 a year, and the whole advance which would average about 67 cents a ton, would be borne by the domestic sizes of coal. The increase in the cost of producing anthracite coal in recent years has reduced the margin of profit to a point beyond which further reduction is impossible," the reply declares.

No Change In England.

London, March 14.—The thirteenth day of the coal strike ended without a settlement having been reached. The joint conference of the representatives of the miners and mine owners and members of the Cabinet adjourned last evening until this afternoon, "in order to consider certain proposals by the Prime Minister," as the announcement put it.

Concerning the nature of the proposals and the results achieved at the conference, which lasted five and a half hours, the Government is persisting in its policy of rigid secrecy, but there are indications that some progress in the direction of peace has been made and that the miners have receded from the position they have heretofore maintained that the only basis of a settlement would be the owners' acceptance of the federation's schedule of minimum wages.

Prior to the opening of the conference the National Miners' Federation held a meeting and adopted a resolution which gives the various districts authority to renew negotiations with the mine owners on the question of rates, varying them as they may deem proper, but stipulating that all amended schedules must be endorsed by the national conference, and that the settlement of the strike must be national in its scope.

German Strike Spreads.

Berlin, March 14.—The coal miners' strike in the great German coal fields of Westphalia continues to spread. There are over 246,000 men now on strike and the situation is becoming worse everywhere. It has taken a most serious turn in several districts and has resulted already in a fatal conflict between the police and the striking miners in district of Herne. The feeling among the men is increasing in intensity owing to the rigid repressive measures of the authorities and at any moment troops may be called out to quell the disturbances.

It is officially stated here that the provisional authorities have been instructed to call out the troops if the police prove inadequate to deal with the situation.

ONTARIO HOUSE SPENDS DAY DISCUSSING THE BUDGET

G. H. Ferguson (Grenville) Deals With the Results of the Year's Work Throughout the Province—J. C. Elliott (W. Middlesex) Alleges Troubles In the Conservative Party.

Toronto, March 14.—Something in the nature of "new" material for discussion was introduced in the Legislature yesterday afternoon by J. C. Elliott, West Middlesex, who took part in the third round of the budget debate. Echoes of the criticism last fall, that was directed against the Ontario Railway Board, and particularly against Chairman Leitch, were revived. Mr. Elliott's caustic comments were occasioned by the remarks of the previous speaker, G. H. Ferguson, of Grenville, who said that the Opposition members were divided in policy, and some of them even disagreed with their leader. The member for West Middlesex took up the Ontario Railway Board to demonstrate that the members of the Government were also disunited on certain matters of policy.

For wobbling and straddling, Mr. Ferguson thought Mr. Rowell's pre-election manifesto was the most wonderful specimen of literature ever produced. "I venture to say that Mr. Rowell does not know where he stands," declared Mr. Ferguson. "The reason he is criticized is because he is not strong enough to take a definite stand on anything. The Liberal party has been led by great men like Mowatt and Blake, but to-day it is led by a liliputian, one who has not the proper qualities, and is willing to accept any theories so long as they are vote-catchers and look like getting him into power."

Mr. Ferguson then left the path of criticism and launched out on a glowing account of the Government's adequate administration. He admitted that the province had not received its fair share of immigrants but declared the blame should be laid at the door of the late Dominion Government. There was a Governmtnt now in power which was in sympathy with progressive ideas, and at last the province would get proper treatment in this respect.

He gave a few statistics in support of his argument regarding the successful carrying out of the Government's agricultural policy. Ontario produced 35 per cent. of the field crop of the Dominion, and $1,200,000,000 was invested in agriculture, which was much more than in any other line. The Government's system was splendid. There were six agricultural schools in 1907, and there are twenty to-day, with forty trained scientific agriculturists at the service of the farmers.

In lauding the Hydro-electric, he said the greatest compliment that could be paid to Ontario was the scheme of New York State, to build their system on identical lines. Ontario's Hydro-electric had the longest transmission line in the world. To Hon. Mr. Beck much credit was due.

With reference to the charges made against different Departments of the Government, J. C. Elliott said that when any criticism was made of the present administration the reply always was "that the old Government did the same. From the trend of their remarks," added the speaker, "we gather that the old Government was a bad one, and yet the whole efforts of the present administration appear to be in showing that they are no worse than the old."

A rehash of the unpleasant dickerings that took place between the members of the Ontario Railway Board in regard to the laying of switches in North Toronto last autumn was then gone into in detail by Mr. Elliott. He quoted a newspaper report giving an account of a meeting addressed by W. K. McNaught, the member for North Toronto, in which he said that something should be done, and done quickly, with the Ontario Railway Board. "According to the report," said Mr. Elliott, "Mr. McNaught's remarks were cheered by his fellow Conservatives." The member for West Middlesex then went on to tell how Sir James Whitney a day or two later had said that all the critics of the Ontario Railway Board did not know the valuable work that was being done by that tribunal, and that out of forty or fifty appeals in the judgment of Chairman Leitch only one had been sustained. Evidently the Premier was hitting at Mr. McNaught, said he. In winding up his references to the subject, he said that it was quite apparent that the Conservatives were not united on this question. "Has the board improved any since that criticism was made, and, if not, what does the Premier intend to do about it?" was Mr. Elliott's parting shot.

W. S. Brewster adjourned the debate.

Portuguese Infantry Revolt.

Lisbon, Portugal, March 14.—A sensation was caused yesterday by the announcement that a large part of the tenth regiment of Portuguese infantry at Braganza, on the northeastern frontier, had crossed the border with their arms and joined the Royalists.

Other regiments stationed in the north have been removed, the Government fearing that the Royalist propaganda has weakened their loyalty.

Dynamite Trial In October.

Indianapolis, Ind., March 14.—All the defendants indicted for violation of federal statutes governing transportation of explosives must go to trial in one cause on Oct. 1, according to the final ruling of Judge Anderson yesterday, after he had heard argument of attorneys for the defence on a motion for separate trials.

SIX MONTHS FOR SUFFERGETTES

London, March 14—Ten of the suffragettes who were committed for trial by the Police Magistrate at the Bow Street Court on March 2nd, on a charge of smashing windows during the women's suffrage demonstration on March 1st were sentenced yesterday at the London Sessions Court to terms ranging from four to six months in prison.

The women were tried in the Supreme Court on account of the damage caused by each of them having exceeded the value of $25.

SASKATCHEWAN TO BE REPRESENTED

For Hearing of Stated Marriage Questions in May

Ottawa, March 14—The province of Saskatchewan has decided to be represented by counsel at the argument before the Supreme Court on the stated marriage questions which have been submitted by the Government. Hon. C. J. Doherty, minister of justice, received word to this effect from Attorney-General Turgeon of Saskatchewan to-day. So far Quebec and Saskatchewan are the only provinces which have intimated that they will be represented by counsel. It is possible that O[illegible] may yet have a representati[illegible] the remainder of the provi[illegible] they will leave the case [illegible] of the court. The [illegible] been set for May 7.

THE DAILY REVIEW

Burn CCC Scranton Coal

VOL. LXIV., No. 63. PETERBOROUGH, ONT., CANADA, THURSDAY, MARCH 14, 1912 TEN CENTS PER WEEK

CANADAS SURPLUS FOR THE YEAR IS THIRTY-ONE MILLIONS

Hon. W. T. White Says Present Administration Only Claims Part of the Credit For the Prosperity—Tariff Will Remain Unchanged Till Commission Gets to Work—Bounties Will Not Be Renewed.

Ottawa, March 14.—Hon. W. T. White yesterday brought down the first budget of the new Conservative regime. The budget speech showed that Canada had never been more prosperous than to-day, a state of affairs for which the Finance Minister modestly declined to take more than a portion of the credit, which he thought might be shared between the present and the late Government. There was enough to go round.

As to the fiscal year 1911-12, up to the end of February last, the revenue received was $120,645,616. Adding to this the estimated revenues for the present month and payments made after March 31 he placed the revenue for the entire fiscal year at $136,000,000. To the end of February the expenditure was $77,145,844. He estimated the total expenditure for the fiscal year at about $97,000,000. This would give a surplus as regards consolidated revenue and expenditure of $39,000,000.

"I am sure I can congratulate the House and the country upon what is undoubtedly a record year for the Dominion," declared Mr. White.

Capital and special expenditures on the N.T.R. and other public works would amount to about $30,400,000. To this he added the $5,000,000 paid to implement the guarantee of the G.T.P. bonds, bringing the capital expenses of the year up to $39,000,000.

"Out of the revenues," he said, "we shall thus be provided for the current expenditures, for the capital outlays and for reduction in the public debt."

When the country was prosperous he thought was the time when Canada should have such revenues in excess of current expenditure as would meet in a large measure the capital expenditure necessary in a constructive period. Otherwise the credit of the country might be impaired at the very time Canada needed the money by the large increase of the public debt."

For 1912-13, Mr. White expressed the hope of a considerable advance in prosperity. The main estimates totaling $149,789,677 had been brought down and there might be further supplementary estimates. He believed that the end of the next fiscal year it would be found that the revenue was sufficient to meet not only the current but part of the capital and special expenditures.

The Government was committed to the building of the Hudson Bay Railway, the G.T.P. was pushing on to Prince Rupert, and the C.N.R. was extending its line to Vancouver. Soon the Panama Canal would be completed and it would be necessary to provide for the carriage of grain to the Pacific coast.

The gross public debt on March 31, 1911, he said, was $474,491,487. Deducting from this the assets, the net debt would amount to $340,012,052. The country was now passing through a time when loans were maturing and provision had to be made to meet them.

In view of the creation of the tariff commission, with the object of obtaining data, Mr. White announced that there would be no tariff changes at present. There had, of course, been many requests for changes, but he did not think any of the cases were of such a nature that any great harm would be done by a slight delay.

Mr. MacDonald (Pictou)—"Do I understand that my hon. friend will not propose any resolution with respect to bounties?"

"My hon. friend understands correctly," replied the Finance Minister. "It is not my intention to introduce any resolution with regard to the tariff or bounties."

A. K. MacLean (Halifax) declared that the task of the Minister of Finance in presenting the budget had been comparatively easy. He had been largely distributing the harvest that others planted. Mr. MacLean thought the abounding prosperity set forth showed that Canada probably had reached a point when there might be some diminution in taxation.

He warned the Finance Minister that some of his colleagues were very expensive gentlemen. They might have come in by the front door, like the Finance Minister, but they came in with requests in their hands.

Mr. MacLean estimated the customs "taxation" of the people during the present year at $100,000,000, and he would not be surprised if it reached $120,000,000. And still, he commented, hon. gentlemen opposite seemed to accept the situation with equanimity. The late Government had gone down to defeat fighting for a reduction in this taxation. He reminded the Minister that reciprocity was still a living issue in Canada.

W. F. Maclean (South York) declared that while he agreed in all the Finance Minister had said about the prosperity of Canada, he was disappointed at the absence of any reference in the budget speech to Imperial defence and what the attitude of Canada was to be towards Imperial defence. This was a question which stood out far above all others.

Mr. Verville (Maisonneuve) moved the adjournment of the debate, which will be concluded on Thursday.

PROBABILITIES

Moderate southerly winds, fair and on Friday, northeast winds, cloudy with light snow falls.

THE DOMINION BUDGET IN BRIEF

No tariff changes and no restoration of the steel bounties this session. A Surplus of $39,000,000 for the current fiscal year, the difference between

Estimated revenue for year 1911-12, $136,000,000.

Estimated expenditure on consolidated account, $97,000,000.

National debt reduced by $1,150,000.

Estimated capital expenditure for current year, plus $5,000,000 to "implement" Grand Trunk Pacific bonds issue, $39,000,000.

Amount spent on National Transcontinental Railway this year, $22,500,000, making a total since 1904 of $118,000,000.

Total capital expenditure since 1904, $252,785,248.

Amount added to the debt, $77,285,063.

Canada's total trade for ten months of the fiscal year, $711,199,802, nearly double the figures of twelve years ago.

Total immigration for the year, 300,705.

ONE SCHOOL, ONE FLAG, ONE LANGUAGE, SAYS GRANDMASTER

Annual Meeting of Ontario West Grand Lodge—Opposition to Irish Home Rule.

London, March 14.—The 54th annual meeting of the Grand Orange Lodge of Ontario West is in session here in the Y.M.C.A. Auditorium. Of the 600 delegates present at the opening meeting, a considerable number have been here since Tuesday, attending the Grand Black Chapter, which elected their officers yesterday morning. It is sixteen years since this Grand Lodge met here, the membership in the County of Middlesex having grown in that time from six to nineteen lodges.

Worshipful Brother Harry Lovelock of Toronto read his annual address to the lodge, referring to the bilingual question and the home rule problem, but intimated that the legislation committee report that will be presented by Bro. Wm. Banks at to-day's session will deal fully with both questions.

The committees that prepare the work for to-day's reunion were named, and are as follows: Credentials, J. J. Hunter, Kincardine; chairman correspondence, A. W. Wright, Toronto; finance, James Mayor, Toronto; supervisor and expulsions, Paul Gallagher, Centre Simcoe; petitions and appeals, Marshall Thompson, Essex; returns, W. J. Douglass, North Toronto, and a special committee headed by the G. M. of B. A., Col. J. H. Scott of Kincardine to deal with the report of the executive.

There is a well-defined rumor that the present Grand Master, Harry Lovelock, will retire, and in that case Fred. Dane will succeed him, his place being taken by Dr. J. J. Williams of Woodstock.

There will be keen competition for the vacant treasurership, formerly occupied by the late John Hewitt of Toronto, whose daughter, Miss L. Hewitt, under the supervision of the grand master and secretary, prepared the annual report. The names mentioned are W. Cooke, Meaford, the present assistant secretary, and James Mayor of Toronto; Joseph Thompson is also being urged to run. Hon. Sam Hughes, Minister of Militia, wired that he could not come, but Hon. Dr. Pyne will attend. Col. J. H. Scott, Kincardine, the grand master of British America, together with J. Parkhill, P.G.M., of Midland, are here.

In his retiring address as grand master, Harry Lovelack, said: "One school, one flag, and one language—this is what the Dominion wants to make it the brightest gem in the British Empire."

"As your grand master, I feel that I voice the sentiments of this grand lodge when I say that our brethren in the old land have our undying sympathy in their efforts to prevent the passage of a home rule bill for Ireland, and that our hopes and our prayers are being exercised on their behalf, and if need be our personal and financial assistance."

William M. Fitzgerald of Toronto reported that 15 primary lodges, three new district lodges and one county lodge had been established during the year.

HOLY GHOSTER INSANE

Boston, Mass., March 14—Rev. Arthur Herseel, tormerly a preacher in several Ontario towns, who has been trying to secure the leadership of the Holy Ghost Society in a Maine village, has been placed in the asylum.

AEROPLANES COLLIDED

Berling, March 14—A collision occurred to-day between two aeroplanes flying round the aerodrome at Johannisthal, the machine driven by the German airman, Schade, who was carrying a passenger named Badeski, striking violently another aeroplane driven by the German airman, Bettinger. Both the aeroplanes were smashed and fell to the ground. The passenger Badewski, was injured, while the two airmen escaped unhurt.

ATTEMPT TO KILL KING OF ITALY

Three Shots Fired at King Victor Emanuel

Was on His Way to Attend Memorial Service

Special to the Review.

Rome, March 14.—Three shots were fired at King Victor Emanuel early this morning by an anarchist named Antonio Dalba as His Majesty was on the way from the palace to attend the memorial service in honor of the birthday of his father, the late King Humbert. His Majesty and the Queen, who was with him, escaped injury, but one bullet seriously wounded Major Langa, commander of the cavalry escort that surrounded the Royal carriage. Dalba was arrested. He had forced his way through the line of soldiers at the curb and got close to the closed carriage in which the royal couple were riding. The mere fact that the carriage was a closed one probably saved the king's life.

BOMBS HURLED FROM BALLOONS

Two Exploded in Caravan of Camels Causing Disaster

One Thousand Arabs and Turks Are Killed

Rome, March 14.—Another battle has been fought in Tripoli, this time at Benghazi. The official announcement was made to-day at the War Office and it is stated that 1,000 Turks and Arabs were killed.

The loss on the Italian side was 29 killed and 62 wounded. The Turkish positions were captured after hard fighting. The Arabs left 400 dead on the field.

The dirigible ballons yesterday hurled 28 bombs at tthe Turkish encampment at Zanzur, Tripoli, and created great havoc. Two of the bombs exploded in a caravan of 60 camels with disastrous results.

Would Go Slow on Church Union.

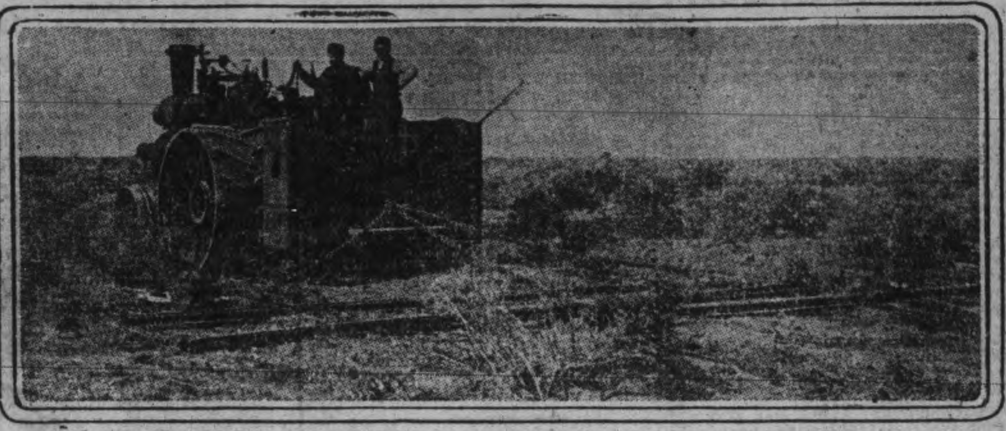
Kingston, March 14.—At a meeting of the Kingston presbytery it was reported that church union would be carried in this presbytery by a vote of two to one. The presbytery urges the general assembly not to move too quickly in consummating the proposed union.

TORONTO ATHLETES ARE NOT WANTED ON OLYMPIC TEAM

Special to the Review.

Toronto, Ont., March 14—A flurry was caused in athletic circles this morning, when it was discovered that four champion athletes who were sure to make a place on the Canadian Olympic team., are not going to Sweden, even if the boat sailed to-morrow. They had been selected it was ascertained, because they are unable to get away from business. The quartette are Frank Halbaus, quarter mile champion; Jack Tait, Canada's best miler; Arnold Knox, champion half miler; and Harry Tressider, five mile champion. These boys are recognized as the logical champions, at their distances, although they are not title holders. With these athletes absent from the stadium in Stockholm this summer, Canada's chances to land the championship are blown to the winds.

MACHINERY WHICH HAS WIPED OUT THE DRUDGERY OF THE FARM.



CLEARING OFF THE SCRUB BEFORE PLOUGHING WITH TRACTION ENGINE AND RAILS

The recently evolved methods of conducting farming by means of high class machinery have wrought a wonderful transformation which is attracting attention all over the vast agricultural sections of the West and Northwest. These machines have wiped out every vestige of drudgery of the farm. More or less complicated, their wonderful adaptation to every form of farm work, heretofore laboriously done by hand or by handling domestic animals, has excited the cupidity and ambitions of youth. Instead of leaving home to become a chauffeur in town the farm boy sees in his own home or neighborhood machinery for him to handle of a type almost as high as that of battle ships and ocean steamships, railway engines and electric power plants.

STRIKE IS SPREADING

Coal Situation is Growing Acute in America

Government in England Pursues Policy of Secretness

Over 246,000 Strikers Are Out In German Mines

New York, March 14.—The anthracite coal operators and the United Mine Workers of America alike profess unyielding adherence to their attitudes concerning the miners' demands. "The situation looks very blue and the indications point to a strike," declared President John P. White of the miners. The operators say positively that they will make no concessions.

With the formal rejection of the miners' demands and the counter proposition that the present agreements, which expires March 31, be continued for three years, the operators' committee of ten adjourned yesterday afternoon until to-morrow morning. Adjournment was taken upon the request of the miners' officials, who will meet in the meantime to consider the operators' reply and plan their procedure. This, it is expected, will be announced at the joint meeting of miners and the operators' committee to-morrow.

"I can say this much," said President White yesterday afternoon: "We will not make any modification of our demands. Beyond that I cannot tell."

The operators' reply, made public yesterday afternoon, is a document of approximately 2,500 words. It deals with the demands seriatim and in detail.

"It is out of the question to advance wages," reads the reply, "unless we can, in some manner, realize from the sale of coal produced a sum equal to the increase in wages." This increase, it is stated, would aggregate $28,000,000 a year, and the whole advance which would average about 67 cents a ton, would be borne by the domestic sizes of coal. The increase in the cost of producing anthracite coal in recent years has reduced the margin of profit to a point beyond which further reduction is impossible," the reply declares.

No Change In England.

London, March 14.—The thirteenth day of the coal strike ended without a settlement having been reached. The joint conference of the representatives of the miners and mine owners and members of the Cabinet adjourned last evening until this afternoon, "in order to consider certain proposals by the Prime Minister," as the announcement put it.

Concerning the nature of the proposals and the results achieved at the conference, which lasted five and a half hours, the Government is persisting in its policy of rigid secrecy, but there are indications that some progress in the direction of peace has been made and that the miners have receded from the position they have heretofore maintained that the only basis of a settlement would be the owners' acceptance of the federation's schedule of minimum wages.

Prior to the opening of the conference the National Miners' Federation held a meeting and adopted a resolution which gives the various districts authority to renew negotiations with the mine owners on the question of rates, varying them as they may deem proper, but stipulating that all amended schedules must be endorsed by the national conference, and that the settlement of the strike must be national in its scope.

German Strike Spreads.

Berlin, March 14.—The coal miners' strike in the great German coal fields of Westphalia continues to spread. There are over 246,000 men now on strike and the situation is becoming worse everywhere. It has taken a most serious turn in several districts and has resulted already in a fatal conflict between the police and the striking miners in district of Herne. The feeling among the men is increasing in intensity owing to the rigid repressive measures of the authorities and at any moment troops may be called out to quell the disturbances.

It is officially stated here that the provisional authorities have been instructed to call out the troops if the police prove inadequate to deal with the situation.

ONTARIO HOUSE SPENDS DAY DISCUSSING THE BUDGET

G. H. Ferguson (Grenville) Deals With the Results of the Year's Work Throughout the Province—J. C. Elliott (W. Middlesex) Alleges Troubles In the Conservative Party.

Toronto, March 14.—Something in the nature of "new" material for discussion was introduced in the Legislature yesterday afternoon by J. C. Elliott, West Middlesex, who took part in the third round of the budget debate. Echoes of the criticism last fall, that was directed against the Ontario Railway Board, and particularly against Chairman Leitch, were revived. Mr. Elliott's caustic comments were occasioned by the remarks of the previous speaker, G. H. Ferguson, of Grenville, who said that the Opposition members were divided in policy, and some of them even disagreed with their leader. The member for West Middlesex took up the Ontario Railway Board to demonstrate that the members of the Government were also disunited on certain matters of policy.

For wobbling and straddling, Mr. Ferguson thought Mr. Rowell's pre-election manifesto was the most wonderful specimen of literature ever produced. "I venture to say that Mr. Rowell does not know where he stands," declared Mr. Ferguson. "The reason he is criticized is because he is not strong enough to take a definite stand on anything. The Liberal party has been led by great men like Mowatt and Blake, but to-day it is led by a liliputian, one who has not the proper qualities, and is willing to accept any theories so long as they are vote-catchers and look like getting him into power."

Mr. Ferguson then left the path of criticism and launched out on a glowing account of the Government's adequate administration. He admitted that the province had not received its fair share of immigrants but declared the blame should be laid at the door of the late Dominion Government. There was a Governmtnt now in power which was in sympathy with progressive ideas, and at last the province would get proper treatment in this respect.

He gave a few statistics in support of his argument regarding the successful carrying out of the Government's agricultural policy. Ontario produced 35 per cent. of the field crop of the Dominion, and $1,200,000,000 was invested in agriculture, which was much more than in any other line. The Government's system was splendid. There were six agricultural schools in 1907, and there are twenty to-day, with forty trained scientific agriculturists at the service of the farmers.

In lauding the Hydro-electric, he said the greatest compliment that could be paid to Ontario was the scheme of New York State, to build their system on identical lines. Ontario's Hydro-electric had the longest transmission line in the world. To Hon. Mr. Beck much credit was due.

With reference to the charges made against different Departments of the Government, J. C. Elliott said that when any criticism was made of the present administration the reply always was "that the old Government did the same. From the trend of their remarks," added the speaker, "we gather that the old Government was a bad one, and yet the whole efforts of the present administration appear to be in showing that they are no worse than the old."

A rehash of the unpleasant dickerings that took place between the members of the Ontario Railway Board in regard to the laying of switches in North Toronto last autumn was then gone into in detail by Mr. Elliott. He quoted a newspaper report giving an account of a meeting addressed by W. K. McNaught, the member for North Toronto, in which he said that something should be done, and done quickly, with the Ontario Railway Board. "According to the report," said Mr. Elliott, "Mr. McNaught's remarks were cheered by his fellow Conservatives." The member for West Middlesex then went on to tell how Sir James Whitney a day or two later had said that all the critics of the Ontario Railway Board did not know the valuable work that was being done by that tribunal, and that out of forty or fifty appeals in the judgment of Chairman Leitch only one had been sustained. Evidently the Premier was hitting at Mr. McNaught, said he. In winding up his references to the subject, he said that it was quite apparent that the Conservatives were not united on this question. "Has the board improved any since that criticism was made, and, if not, what does the Premier intend to do about it?" was Mr. Elliott's parting shot.

W. S. Brewster adjourned the debate.

Portuguese Infantry Revolt.

Lisbon, Portugal, March 14.—A sensation was caused yesterday by the announcement that a large part of the tenth regiment of Portuguese infantry at Braganza, on the northeastern frontier, had crossed the border with their arms and joined the Royalists.

Other regiments stationed in the north have been removed, the Government fearing that the Royalist propaganda has weakened their loyalty.

Dynamite Trial In October.

Indianapolis, Ind., March 14.—All the defendants indicted for violation of federal statutes governing transportation of explosives must go to trial in one cause on Oct. 1, according to the final ruling of Judge Anderson yesterday, after he had heard argument of attorneys for the defence on a motion for separate trials.

SIX MONTHS FOR SUFFERGETTES

London, March 14—Ten of the suffragettes who were committed for trial by the Police Magistrate at the Bow Street Court on March 2nd, on a charge of smashing windows during the women's suffrage demonstration on March 1st were sentenced yesterday at the London Sessions Court to terms ranging from four to six months in prison.

The women were tried in the Supreme Court on account of the damage caused by each of them having exceeded the value of $25.

SASKATCHEWAN TO BE REPRESENTED

For Hearing of Stated Marriage Questions in May

Ottawa, March 14—The province of Saskatchewan has decided to be represented by counsel at the argument before the Supreme Court on the stated marriage questions which have been submitted by the Government. Hon. C. J. Doherty, minister of justice, received word to this effect from Attorney-General Turgeon of Saskatchewan to-day. So far Quebec and Saskatchewan are the only provinces which have intimated that they will be represented by counsel. It is possible that Ontario may yet have a representative, but the remainder of the provinces state they will leave the case in the hands of the court. The argument has been set for May 7.

WAS CAUGHT WITH THE GOODS

Englishman Had Silver Concealed in His Trunk

Special To The Review.

Cobalt, March 14.—George Kershaw and John Bellerby, both Englishmen, are under arrest, charged with stealing high grade ore from mines. Kershaw had booked passage to England, and had a hundred pounds of almost pure silver in his trunk.

Catarrh and Bronchitis

The Bane of Thousands, and has Hitherto Baffled the Skill of Medical Science.

Catarrhozone

Dry air treatment is the one treatment that will cure these diseases.

What stomach medicine has ever been known to cure Catarrh or Bronchitis?

Catarrhozone is not a stomach medicine, but an air medicine, that carries to the remotest parts of the throat, lungs, and air cells little drops of healing so curative that whenever it touches germ life it kills and eradicates them from the system.

Thousands of doctors and patients have been disappointed by using stomach medicines for coughs and colds. Have you not found it a rather roundabout way to reach the diseased portion of the throat and lungs?

Why not use Catarrhozone, which is breathed to the very root of the disease and heals so quickly and perfectly that every spot is rebuilt with new healthy tissue?

Catarrhozone is the only medicine that will cure. Thousands have testified.

Think for a moment. Is it not sense! Little drops of healing—the air carries them just where disease exists. That is why

Catarrhozone Cures

Price, 25c, 50c, and $1.00, at al druggists, or by mail postpaid from The Catarrhozone Co., Buffalo, N.Y. and Kingston, Ont.

The Daily Review

THURSDAY, MARCH 14, 1912.

THE FARMER

The farmer of to-day should be happy and contented. Contrast his position with that of the farmer of not so many years ago and the verdict is all in the favor of the tiller of the soil who to-day is selling his potatoes at $2 per bag, and getting prices for his other products that appear outrageous to the average buyer. He has the telephone and rural mail delivery. The next convenience he is to benefit by, is electricity which will supplied by the Hydro Electric Commission. The oil lamp will be replaced by the modern incadescent and his machinery will operate to the music of the electric motor. The day will come too, when the farmer will ride to market, not behind a prize team of horses, but in a conveyance, which he at present looks upon as one of his worst enemies—the automobile. A few years will come and go and a great change will have passed over the general farm life. The hand of progress is seen everywhere and while the farmer may be somewhat backward in accepting his share, he has now gone too far to call a halt. He will have to accept and fall in line with the remainder of worldly beings The time may come when the high cost of living cry may recoil on him.

THE BOUNDARY BILL

At 4.15 o'clock on Wednesday morning the Manitoba Boundary Extension Bill was passed by a very large majority, in fact the largest that has been had in the House during the Session. Amendments were offered and severally defeated. The Lamarche-Mondon amendment which proposed to amend the Bill and having regard to Separate Schools in the annexed territory, was defeated. Out of 218 members able to vote, 184 delined their position. Sir Wilfrid Laurier and Hon. George Graham voted with the Government.

The Minister of Justice (Mr. Doherty) said in the course of his remarks:—"The Government fully recognized its duty to protect the rights of Canadians, wherever they were. But it was not wise to raise an outcry for the protection of rights which were represented as being attacked without first ascertaining if there were rights and if these rights were attacked. Were there in the added territory existing rights which needed protection. There was an absolute misapprehension on the part of those who censured the Government for its course on the Bill. They must look, not to their sentiments, but to the pages of the Statute book. Too many men were expounding the law on the platform and in newspapers, who had allowed the wish to be father to the thought."

The Minister of Justice went into an extended argument on the subject, which led to the confusion that he could not find the alleged rights. People who flattered themselves that there were such rights were living in a fool's paradise. Some one reminded him of Mr. Cahan's opinion. He replied that to differ was the reason for the lawyer's existence; and he added, "I shall not be frightened away from my duty by the opinion of a lawyer, even so distinguished as Mr. Cahan; and still less of the lawyers who edit newspapers; and of lawyers who write from the Press gallery; and of lawyers who speak from platforms.

He concluded with an appeal to friends of the minority. It was not wise to be crying "wolf" all the time, "there is an old fable that tells the fate of the children who were given to that diversion." He referred sharply to the officious friends of the minority, warning them against action which would only place that minority in the position of having started a struggle with no better basis than a mistaken notion of what the law of the country was. There was ample protection for any existing rights. He concluded by a suggestion that Manitoba might well be generous in her treatment of the minority.

TELEGRAPHIC BRIEFS.

A mad dog was shot at Orangeville yesterday.

C. M. Hays, president of the Grand Trunk, has gone to England.

The British steamer Ilesworth was wrecked off the coast of Nova Scotia.

Fierce fighting took place around Tripoli, both sides claiming the victory.

Dr. Beaudry of Montreal estimates that there are over 75,000 cases of smallpox in Quebec.

Hugh McKay, a pioneer of western Ontario, died at Ingersoll in the hundredth year of his age.

John C. Ross, who shot Robert Fitzsimmons at Montreal, has been found guilty of manslaughter.

General Sheng Jun is marching on Pekin with ten thousand troops to endeavor to restore the emperor to the throne.

Prohibition workers were defeated in the town of Chateauguay, near Montreal, where a referendum vote on the liquor question was taken yesterday.

A painting valued at $1,500, coming from Toronto to the Buffalo Academy of Fine Arts, was totally destroyed at the Tenth street depot, Niagara Falls, yesterday.

The jury at Columbus, O., returned a verdict of guilty in the case of State Senator L. R. Andrews, charged with having accepted a bribe in connection with insurance legislation.

Richard Grigg, who for four years was British trade commissioner in Canada, with headquarters at Montreal, has been appointed trade commissioner for Canada, at a salary of $5,000 a year.

It is claimed that the Kingston Penitentiary is five guards short on the staff, and in view of the attempt at escape of four desperate prisoners at Toronto, there is an agitation to have the vacancies filled at once.

Mother Ignatia, who had been for 52 years connected with the order of Loretto and until two years ago mother superior, died Tuesday morning in Loretto Abbey, Toronto, after a long illness. She was 80 years of age.

John Hannon, a veteran of that memorable march made by Gen. Sherman during the American Civil War, historically known as "Sherman's March Through Georgia," died in St. Michael's Hospital, Toronto, yesterday, from paralysis.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucuous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifers, acting directly on the mucuous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

While good women do not attract attention as promptly as good men, shiftless women are not punished as promptly as shiftless men. I know plenty of shiftless women who are "getting along" but I do not know a single shiftless man who is at all prosperous.

THE MARKET

Latest Quotations in Grain Dairy Products, Live Stock Etc.

CHICAGO, March 13.—Signs that there was a liberal floating supply of wheat in the market to-day developed more courage among bear traders than at any time in months. Latest figures showed a drop of 1-4c to 1 1-4c under last night. There was a net loss of 3-8c to 1c in corn, and a shade to 1-4c for oats. Provisions finished the same as last night to 5c up.

Liverpool wheat closed unchanged to ⅝d higher than yesterday, and corn ¼d to ⅝d lower. Paris wheat closed unchanged to ¼c higher, Antwerp unchanged, Berlin 1c lower, and Budapest ⅝c lower. Argentine wheat was ⅜c lower.

Montreal Grain and Produce.

MONTREAL, March 13.—Business in Manitoba spring wheat over the cable continues very quiet for May-June shipment, as the prices bid were generally out of line, but there were some sales made for nearby shipment, as buyers seem willing to pay a big premium for such. There was some demand for oats, and 20s 6d was bid for extra No. 1 feed for June-July shipment. A fair local trade is passing in oats. Butter is firm. Eggs active. Demand for provisions good.

Corn—American, No. 2 yellow, 79c.

Oats—Canadian western, No. 2, 53c to 53½c; do., No. 3, 51c to 51½c; extra No. 1 feed, 52c to 52½c; No. 2 local white, 50½c to 51c; No. 3 local white, 49½c to 50c; No. 4 local white, 48½c to 49c.

Barley—Malting, $1.05 to $1.10.

Buckwheat—No. 2, 72c to 73c.

Flour—Manitoba spring wheat patents, firsts, $5.70; seconds, $5.20; strong bakers', $5; winter patents, choice, $5.10 to $5.35; straight rollers, $4.65 to $4.75; do., bags, $2.15 to $2.25.

Rolled oats—Barrels, $5.25; bag 90 lbs., $2.50.

Millfeed—Bran, $25; shorts, $27; middlings, $29; mouillie, $30 to $34.

Hay—No. 2, per ton, car lots, $15 to $15.50.

Cheese—Finest westerns, 15¼c to 15½c; finest eastern, 14½c to 15c.

Butter—Choicest creamery, 33c to 34c; seconds, 32½c to 33c.

Eggs—Fresh, 25c to 27c.

Potatoes—Per bag, car lots, $1.65 to $1.70.

Dressed hogs—Abattoir killed, $10.75 to $11; do., country, $9.75 to $10.

Pork—Heavy Canada short mess, barrels, 35 to 45 pieces, $22.50; Canada short cut back, bbls., 45 to 55 pieces, $22.

Lard—Compound tierces, 375 lbs., 8¼c; wood pails, 20 lbs. net, 8⅝c; pure tierces, 375 lbs., 11⅝c; pure, wood pails, 20 lbs. net, 12¼c.

Beef—Plate, barrels, 200 lbs., $14.50; do. tierces, 300 lbs., $21.50.

Liverpool Grain Prices.

LIVERPOOL, March 13.—Close—Wheat—Spot nominal. Futures steady; March 8s 0⅜d, May 7s 6½d, July 7s 5⅝d.

Corn—Spot steady; American mixed, new, 6s 4½d; old, 6s 11d; new, kiln-dried, 6s 8d. Futures weak; March 6s 2d, May 6s 3½d.

Flour—Winter patents, 28s 9d.

Hops—In London (Pacific Coast), £10 to £11 5s.

Buffalo Grain Market.

BUFFALO, March 13.—Spring wheat nominal; No. 1 northern, carloads, store, $1.16¾; winter firm; No. 2 red, $1.04; No. 3 red, $1.02; No. 2 white, $1.02.

Corn—Lower; No. 3 yellow, 72c; No. 4 yellow, 69¾c, all on track, thru-billed.

Oats—Easier; No. 2 white, 57¼c; No. 3 white, 56¾c; No. 4 white, 55¾c.

Barley—Malting, $1.20 to $1.35.

CATTLE MARKETS.

Montreal Live Stock.

MONTREAL, March 13.—At the Canadian Pacific live stock market this morning the offerings were 700 cattle, 125 sheep and lambs, 1075 hogs and 1500 calves. A firm feeling prevailed in the market for cattle, owing to the fact that the supply was not in excess of the requirements, and, as the quality of the stock was better than it has been of late. The demand from butchers was fairly good, and the trade for the season of the year was fully up to expectations.

A few odd choice steers sold as high as $7, but the bulk of the trading was done in this class of stock at $6.75, while good steers brought $6.25 to $6.50. Choice cows and good, useful bulls were dealt in at $5.50 per 100 pounds. A weak feeling has developed in the market for milch cows, and prices during the past few days have declined $10 to $15 per head, the top price for choice milkers now being $65, and the commoner grades run from that down to $30 each.

There was no change in the condition of the market for hogs, prices being fairly maintained under a continued good demand, and sales of selected lots were made at $7.75 to $7.85 per 100 pounds, weighed off cars. The trade in calves was active, owing to the increased supplies coming forward, and the tone of the market is easy, but prices show no actual change as compared with Monday's figures. The market for sheep and lambs was quiet with a firm undertone.

At the Montreal Stock Yards west end market the offerings of live stock were 350 cattle, 75 sheep and lambs, 1000 hogs and 1000 calves. The trade was fairly good in all lines and the prices realized were much the same as those quoted above. The demand for hogs and calves was especially good.

Butchers' cattle, choice, $6.75 to $7; do., medium, $4.50 to $6; do., common, $4 to $4.50; canners, $2.75 to $3.25; butchers' cattle, choice cows, $3 to $5.50; do., bulls, $3.50 to $5.50; milkers, choice, each, $65; do., common and medium, each, $50; springers, $30 to $40.

Sheep, ewes, $5 to $5.25; bucks and culls, $4 to $4.50; lambs, $6.75 to $7.10.

Hogs, f.o.b., $7.75 to $7.85.

Calves, $3 to $12.

East Buffalo Cattle Market.

EAST BUFFALO, March 13.—Cattle—Receipts, 200 head; slow.

Veals—Receipts, 100 head; active and 25c higher, $5 to $9.75.

Hogs—Receipts, 1600 head; active and 15c to 20c higher; heavy and mixed, $7.30 to $7.35; yorkers, $6.75 to $7.35; a few, $7.40; pigs, $6.50 to $6.60; roughs, $6.40 to $6.50; stags, $4.50 to $5.75; dairies, $6.90 to $7.35.

Sheep and Lambs—Receipts, 4000 head; active; yearlings steady; others 10c to 15c higher; lambs, $5 to $7.75; yearlings, $5.50 to $6.50; wethers, $5.75 to $6; ewes, $5 to $5.50; sheep, mixed, $2.50 to $5.65.

Chicago Live Stock.

CHICAGO, March 13.—Cattle—Receipts, 13,500; market strong; beeves, $5 to $8.80; Texas steers, $4.75 to $6; western steers, $5.10 to $7; stockers and feeders, $4.10 to $6; cows and heifers, $2.30 to $6.65; calves, $5.75 to $8.25.

Hogs—Receipts, 32,000; market 10c to 15c higher; light, $6.70 to $6.97½; mixed, $6.70 to $7.05; heavy, $6.70 to $7.10; rough, $6.70 to $6.85; pigs, $5 to $5.45; bulk of sales, $6.90 to $7.

Sheep and Lambs—Receipts, 21,000; market weak; native, $3.70 to $5.60; western, $4.25 to $5.60; yearlings, $5 to $6.20; lambs, native, $5.25 to $7.50; western, $5.75 to $7.50.

Sick Headaches—are not caused by anything wrong in the head, but by constipation, biliousness and indigestion. Headache powders or tablets may deaden, but cannot cure them. Dr. Morse's Indian Root Pills do cure sick headache in the sensible way by removing the constipation or sick stomach which caused them. Dr. Morse's Indian Root Pills are purely vegetable, free from any harmful drug, safe and sure. When you feel the headache coming take

Lady Betty Across the Water

By C. N. & A. M. WILLIAMSON

Copyright, 1906, by McClure, Phillips & Co.

"Oh, Sally, you dear!" I exclaimed.

"Oh, Sally, you wretch, to have kept that birthday to yourself! I want to be in on this act," grumbled Potter. But I hardly heard him, I was so excited about what I was going to find upstairs.

We went to my room, Sally and I, and she rang for Louise, who was told to fetch from what Sally called her "closet" a certain black "trunk" of whose existence Louise was evidently already aware.

It was a good sized box, big enough to hold two or three dresses. And when it was opened by Sally after Louise had gone it proved to contain three and a half.

One of the three was a blue gauze ball gown, embroidered with patterns of thistles in tiny sparkling things that looked like diamonds. The second was pink tulle, with garlands of tiny roses. The third was a white linen, made as only Americans know how to make up linens, and the half was—well, I was not quite sure what it was at first, though I could see that it was pretty. It was pale green, and there were two parts of it. The bigger of the two (it was not very big) was of soft silk and extremely fluffy. It had a low necked and short sleeved bodice, and attached to that was a skirt—or something that would have been a skirt if it had had more time to grow. The second part was silk, too, but more difficult to describe. Perhaps I'd do best to say that it was like long stockings, only it was in one piece and evidently meant to fasten around the waist.

"There's also a pair of sandals and a really sweet cap, deah," Sally explained.

"Is it a fancy dress for a little girl?" I asked puzzled.

"For a little girl about your size. Why, you funny child, it's your bathing dress. I had to get it and all the other things ready made, for there wasn't time for anything more than having them altered to your measurement if they were to be ready for your birthday."

"Oh, Sally, are they all for me?"

"Well, they're for nobody else. It's your birthday."

Of course I told her she was an angel, and so she was, quite an exceptional kind of an angel, and I kissed her and was saying a great many things when she stopped me. "So glad you like them, deah. But now we must be moving if we're to have our bath this morning. Louise can't leave Katherine, but we'll have one of the other maids come with our things. It's getting late."

I felt frightfully. "It is late, isn't it?" said I hopefully, looking at my watch. "Perhaps it's too late to go this morning, after all."

"Not a bit of it," said Sally. "Come along."

"I'm not sure but that I'd better stop in if Mr. Parker thinks Mrs. Stuyvesant-Knox would want me to," I floundered on.

"She won't mind—not much, anyway, if we don't take you to the Casino without her," Sally tried to reassure me. But her eyes had begun to twinkle.

"Don't you think she might? There are a lot of letters I ought"—

"Now, child, out with it. Don't you like the bathing dress?"

"Oh, I admire it immensely," I stammered. "It's like a—a picture. But—I can't see myself wearing it. That is, I can't bear to think of any one else seeing me wear it."

Sally went off into a fit of musical southern laughter. "You poor baby. I forgot the shock it might be to you if you're accustomed only to English bathing clothes. They certainly are the limit! Have you never been to Trouville or Ostend?"

I shook my head, sad at having to seem ungrateful. But how could I help it?

"Well, they have this kind there, and so they do here. Everybody has it. My prettiest one is much like yours, only it's poppy colored. Katherine's is cornflower blue this year, and she's got a black one and a lilac one. When you see all the others prancing about in the same sort of things you won't feel a bit funny."

I was far from sure that I should attain to such a peaceful state of mind as not to "feel funny." But Sally had called me a baby, and I had to redeem myself from that aspersion at any price. So I tried to compose my countenance over a beating heart and think about other things on the way to the beach, as you do if you are going to the dentist's.

Potter went with us, though I supposed that when we came to the end he would bid us goodby and trot off to the place where the men bathed, wherever that might be. Our things had been taken on ahead by a servant or two, and we walked, as the day was perfect, and I was thankful to get a little exercise.

We met a great many people whom Sally and Potter knew, and just as Potter had said, "Here we are at Bailey's beach," that handsome Mrs. Pitchley and her stepdaughter, with Mr. Doremus came up. They called to us, so we stopped to speak, and I was pleased, because I'd been wanting to know them. We were introduced, and I was wondering what Mrs. Ess Kay would do if she could see us chatting with the Pitchleys in sight of all Newport when a little thin man, looking perfectly furious, with a striped bathing suit rolled up under his arm, came hopping along toward us as if he were a cricket ball that somebody had batted off the beach.

His panama hat was on the back of his head. His single eyeglass on its chain was flying out behind him in the breeze, and my first thought was how comical he looked. My second, as he came nearer, was something quite different.

"Why, Mohunsleigh!" I cried.

He stopped hopping so abruptly that he stumbled and nearly fell down.

"Hello, Betty!" he growled, hauling off his hat as if he hated the bother of doing it. "Where did you spring from?"

"Home. Where on earth did you spring from?" I echoed.

"They've sprung me off their beastly beach," said he, glaring and sticking in his eyeglass. Then he almost waved his hideous little bathing suit at me. "Wouldn't let me bathe, the bounders!"

"Wouldn't let you bathe?"

WIDOW WILL RECEIVE $10,750

Husband's Death Due to Injuries in Burning Building

Ottawa, March 14.—Mrs. Rose Wadsworth of this city will receive $10,750 instead of $1,375 insurance money from the Canadian Railway Accident Insurance Company upon the policy held by her husband the late J.A.J. Wadsworth.

This important judgment is the outcome of the Divisional Court at Toronto allowing the appeal of the widow from the decision of Mr. Justice Middleton.

The Divisional Court decides that while the outhouse was not a burning building, yet the death was violent and accidental. Consequently $10,750 and interest should be paid on the policies. Chief Justice Falconbridge agrees with Mr. Justice Riddell's judgment, while Mr. Justice Latchford dissents and agrees with Mr Justice Middleton's finding.

Only teas grown at an elevation of 5,000 feet are used in "Salada" thus making it richer, more fragrant, and infinitely more delicious than other teas.

THINKING THEMES

By DR. FRANK CRANE

The world began in chaos and ends with the stars. I do not know whether I have heard that somewhere or whether it is original. It is one of those sentences one seems to have heard.

At any rate it contains truth. It might be better to say, the world began in chaos and ends with the human brain. For the brain is perhaps more wonderful than the stars.

But the core of the thought is, that out of lawlessness is formed law, out of the formless comes form, out of sand and ashes arise houses, out of dust of the ground develops man.

The drift of things, the direction of the universe, as far as we can guess its plan, is not toward decay but toward increased organization. All things are not dissolving into their original elements; on the contrary, original elements are constantly combining to make more and more perfect and complicated things.

Any one given object passed, dies. We, as individuals, "from day to day do ripe and ripe, and then from day to day we rot and rot," but thereby does NOT hang any tale. The Sum of things, Humanity, the general Body of Truth, such entities as Science and Religion, and the Universe itself, keep eternally young. There is no least symptom of old age, or defeat, or warning, in the Universe.

Governor Osborn of Michigan recommends legislation to prohibit breweries owning saloons and to destroy a present monopoly in regard to bonding saloon-keepers.

SANOL
The new discovery will positively remove Gall Stones, Kidney Stones, Gravel in the Bladder, and will effect a complete Cure. It will dissolve and remove stones without pain, and there is no necessity for an operation in the future, as Sanol will cure in every case no matter how long standing the disease may be.
SANOL will be found particularly valuable in old cases of Kidney and Bladder diseases.
SANOL is a preparation of herbs and herb extracts, and contains no poisonous ingredients. It's use, therefore, cannot possibly harm either the stomach or intestines.
Sanol per bottle $1.50
Get it from McDERMID & JURY, Druggists, Peterborough, or direct from The Sanol Manufacturing Co., Winnipeg, Man.

MAN TRIED TO KILL GIRLS

Used Stick of Dynamite; Then Killed Himself

Brewsters, N. Y., March 14. — In their home, Stonehenge Cottage, in Sodom, twelve miles from here, the Misses Ruby and Amy Hartfield, daughters of the Rev. Frank Hartfield, rector of the Episcopal church and granddaughters of Mrs. Seth B. Howes, widow of a wealthy showman and owner of a large estate known as the Castle, about a mile and a half from this village, are recovering from an attack made upon them by George Mead, their grandmother's coachman and the caretaker of her house, in her absence.

All that remains of Mead was taken to-day from the morgue to the little cottage near the Howes estate, to which he brought his bride less than six months ago. Mead, facing capture at the hands of employes of H. H. Vreeland, former head of the Metropolitan Street Railway Company, blew himself to prices with a stick of dynamite. His young wife is prostrated.

Miss Ruby Hartfield is 20 years old and her sister is 18. Mead was 32 years old having entered the employ of Mr. Howes 16 years ago.

Apparnetly Mead intended to kill both of the girls and perhaps himself at the same time, to avenge a fancied wrong at the hands of their father. Mead is known to have believed it was by the rector's advice that Mrs. Howes, on leaving for the winter, four months ago, refused to allow him the use of her automobiles, that he might learn to be a chauffeur, and also reduced his coachman's wages of $45 a month to $30 a month for acting as caretaker. No later than Tuesday Mead threatened to "get square" with the rector.

The attack on the girls was made about 3 o'clock, when they reached the Castle, after a 12 mile drive from home, bringing keys to the place in response to a telephone message from Mead that the wind had blown loose a shutter and that he must enter the house to repair this. The girls drove into the stable, from an upper window of which they had seen Mead pereing as they ascended the driveway. The man was down the stairs almost before the girls were in the table, and he bolted the door behind them.

Both girls were alarmed at his action, but alighted from the pony carriage. Ruby stepped towards Mead to hand him the keys, and he sprang at her, bringing up a steel moulding which he had held behind him, and striking her on the head. As the girl sank he caught her and struck her again and again.

As Mead dragged Ruby into a wash room, Amy stood, too frightened to scream.

Mead dropped the elder sister and sprang at Amy. He struck her once on the head, and the girl fell to her knees. Evidently believing that he had stunned her, Mead jumped back to the other girl. Amy, however, staggered to the stable door, pushed it outward a few inches and screamed.

Her cries were heard by Dennis Hogan, gardener on the Vreeland estate, who hurried to the stable. Amy faltered an explanation. On the floor of the washroom he found Ruby, her face covered with blood. Mead was not to be seen, but a door into the carriage house showed how he escaped.

Hogan raised the girl, and carrying her started toward the Vreeland place with Amy clinging to his arm. They had nearly reached the road when they were prostrated by an explosion.

The report reached the ears of A. B. Yates in the Vreeland stable, and he hurried to the scene. With Hogan he got the girls to a safe place, and telephoned to Dr. F. Robert Ritchie, who came with Constable Arthur Brown and Deputy Sheriff H. S. Brown.

The officers found the front of the building amlost blown to pieces. Every window was shattered and the south wall bulged outward. Within, the flooring was blown to pieces, but the pony and the cart stood unharmed in the wreckage. The post to which the pony had been tethered was torn from the floor. The two-inch oak partition, which separated the washroom from the main stable, was blown out.

In a corner of the washroom lay Mead's head, part of his left shoulder, and his left arm. His body had been blown to pieces, and his legs and right arm were found in different corners of the room. Most of the damage was confined to the washroom. In the stable two horses, besides the pony, were unhurt, and both of Mrs. Howe's automobiles were not damaged.

On a shelf in the washroom the officers found two sticks of dynamite. One end of the shelf on which they rested had been blown away, but the sticks had not exploded. It was with one of these, it is believed, that Mead killed himself. He had the dynamite there to blow up stumps on the place.

Mead's body was taken to the morgue here and afterwards claimed by his young wife. Coroner Smith said he would hold an inquest as soon as the Misses Hartfield were enough to appear before him as witnesses.

A delegations of 200 or more women are in Albany, N.Y., where they will try to persuade the legislators to act favorably on the equal suffrage amendment bill.

Engineer Fred. Kingman and Fireman Cole of Norwich, N.Y., were killed in a head-on collision between two Ontario & Western freight trains at Galenta.

The steamship Rotterdam, which arrived in New York yesterday, had terrific weather at sea, and in the turmoil that occurred two of her crew were seriously injured.

Satisfied Policy-Holder
[COPY]
Toronto, March 1st, 1912.
W. H. HILL, ESQ.,
Manager,
Sun Life Assurance Co.,
Peterborough, Ont.
Dear Sir,—I wish to thank the Sun Life Assurance Company, through you, for the prompt and very satisfactory settlement of my 15 year Endowment Policy, No. 64345, which matured and was paid me to-day.
I have also a 15 year Endowment maturing to-day in a leading British Company.
The contrast, in the results, in favor of your Company is so marked that I want you to know it, but I am at a loss to know how such a difference could honestly occur. When I tell you that the profits in your Company are three and one-third times the profits in the other Company referred to, and this too notwithstanding I paid the other Company $1.15 per year more per $1000 than I paid you, you will realize my inability to comprehend the cause.
This is surely a tribute to the management of the Sun Life, and I am so well pleased I have applied for further insurance with you.
Incidentally, I would like to say a word for your loan privilege. As you are aware, I borrowed some money on my policy, a little over a year ago, which enabled me to obtain a substantial interest in a town site in the Northwest, and you will be pleased to learn that it has already yielded substantial gain and gives promise to pay hundreds per cent., so that it is impossible to fully realize the value of that Policy to me.
I thought as an old Peterborough boy you would be pleased to know I am delighted with the result.
Yours truly,
(Signed) ROBERT E. DOLAN.

Some Causes of Eyestrain

Eyestrain is the most common form of headache in children, and may come without apparent reference to any over-use of the eyes. It may be located near the eyes or in parts of the head away from them. It warns us that too great tension is being put on some part of the nervous system. A slouching, lounging posture in reading may bring about marked eye strain. The head bent forward with the chin resting on the breast obstructs the flow of blood from the head. Any congestion of lids or inflammation, however slight, itching of the lids, burning of the eyeballs, and styes, singly or in crops, should call your attention to the necessity of careful and efficient examination into the refractive condition of the eyes.

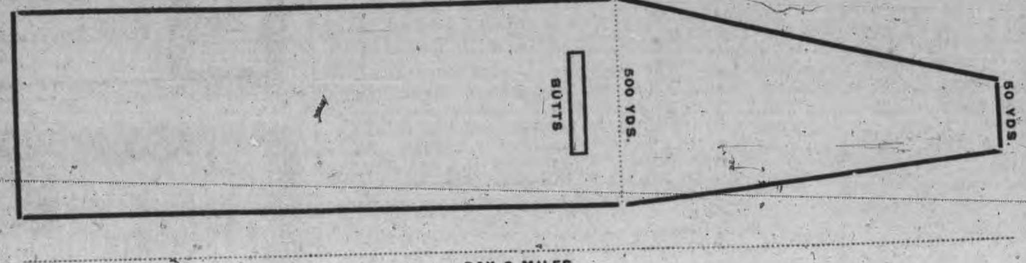
WHY THE NEW RIFLE RANGE IS SO SLOW IN COMING

The Examiner in its issue of Tuesday undertakes to score someone for deriliction of duty in connection with the acquiring of the new rifle range. It makes strictures and keeps dark as to the facts. Had it stated the facts there would have been no opening for fault-finding.

Rifle ranges are pretty hard to locate within reasonable distance of places the size of Peterborough. The regiment has been trying for the last ten years to find one that would average up fairly well all around. Col. Edwards, Col. Miller, Col. Stevenson, the officers in command, assisted by the staff, have been at it. Certain things are necessary. Other things are desirable. Ample territory, some isolation, not too great a distance, a not excessive price for the property. Some locations answer in one or two particulars, but utterly lack in others.

Let us see what is needed. A strip of territory, about 500 yards wide at one end and about 1,000 wide at the other, and at least two miles long. It cannot be had out of one farm. It may have to be carved out of three or four. Some owners may sell, others refuse absolutely. It must not cross driving roads, for if it does, every time there is shooting each end of the road or roads must be danger flagged. The diagram printed herewith gives approximately the lay-out of such a range. Say 1,000 yards from firing point to the target, then any distance beyond up to two miles, to take care of the utmost travel of the bullet. The firing may be done from a base not more than 300 feet wide, along a line—who can tell where the shot will land. Not that marksmen shoot wide of the target, but that a bullet from a high-power rifle, if it struck a stone, or clod, or any object, may and does glance. It may ricochet along the ground, or rise and fall at any angle. Hence the expanse of ground that must be provided. A height will form a good support to the butts, but if low, is of no value as a protection from stray bullets. The whole case has to be very carefully considered.



To be within walking or marching distance is desirable, all things being equal. Proximity to the city means high prices for the land. Something like 600 acres will be needed and 700 acres is not too much. A site — to which the Examiner refers—east of the lift lock, is held at $60 per acre—anywhere from $30,000 to $45,000 for the property, and even then driving roads would have to be closed and others opened. Two or three houses would be torn down and the owners reimbursed. A site is spoken of, to the east of Nassau, in Douro. True there is the impediment of distance, but the property could be had for so much less than the other that the difference must be considered. There is another site out in Cavan, that offers very desirable accommodation, and at a moderate expense, and a fourth site out along the line of the C.P.R. in North Monaghan, that is worth considering.

In the face of those difficulties the authorities are warranted in going surely—if slowly. A conclusion will be reached and it will be the best that can be reached in the judgment of the department and of the regiment. The practice of marksmanship should be encouraged, a poor shot will make an indifferent soldier, when he gets on the field. The regiment can well afford to wait, knowing that the best that can be done will be done, and in the end the force will be provided with a range fully up to the standard of the fine armories now its home and its university.

BEN HOBSON IS A LUCKY MAN

Well Known Police Court Visitor Goes Free

"Thank you; I have a good home in Madoc, and I will go to it if you will give me a chance," said Benjamin Hobson, when asked what he had to say to a charge of having no visible means of support and to having been drunk.

"He has been around here for over a month, Your Worship, drinking and lying out," said Chief Thompson.

Hobson offered to get out of town if he were allowed off. Chief Thompson was agreeable to this arrangement, and Hobbson is out on suspended sentence.

FINE OF $2.

A man from the country got drunk yesterday and got tangled up with the law. Upon his pleading guilty to a charge of being drunk, before His Worship this morning he was fined $2, which he paid forthwith.

The Turks have recaptured the railway at Ainzara, Tripoli.

An Electric Machine for Massage and everything clean and in a sanitary condition. Children's "Buster Brown" Hair Cuts a speciality. A share of patronage respectfully solicited

12d 2w ED. WRIGHT.

THE COMING OF SPRING

Citizen calls up over the 'phone: "Say, when does spring commence?"

He is told that by the book spring is here on March 21st, that is the theoretical spring. It may be blowing great guns and snowing on that fateful day, but all the same we are entitled to spring by that time, and we're going to get it. But to ease the anxiety of our enquirer there are certain and infallible indications of spring that may be mentioned. Taken separately they do not identify, but altogether there can be no doubt.

Let our enquirer observe. Ladies are inspired and enthusiastic over the revelations of the fashion plates, the new goods and the living models. Is not the hum of the sewing machine heard in the land?

Out in the yard—the next but one—the householder who has burned his bridges behind him and resolved—in fact he is committed to—have a motor car, is pacing off the limits of his lot to see where he will build a shed—no, a garage. We have purloined that word from the French because our woodshed is not sufficiently autocratic, house is out of the question, and barn offers no possibilities. We just annexed the expression and Anglicized it and make a bluff at pronouncing it—generally wrong. Chauffeur is another theft of ours. Many a jaw is wrenched trying to get the twang. We have no English word that proclaims the same function—driver and mechanic. But let us back to spring.

On the other side is the man with a last year car. He is getting himself mussed up overhauling the thing. He puts a little black Japan on the spots where he collided with all and sundry, and expects to put on a self-starter, and so be in the swing as thoroughly up to date. What about spring now?

The telephone crew are busy in the lane planting another and a deftly ugly pole. They propose to bring all the wires down that lane, and they explain with an air of being public benefactors instead of the accomplices of Capital. They plant the pole and inter a contrivance which they call a guy, all against the statute in such cases made and provided. They want the earth and take it—early in the spring.

Spring. Why yes. It is almost within sight. Here we have St. Patrick's Day close on us, and that date almost coincides with the almanac that sets spring as beginning March 21st. Let us get busy.

In another day or so we will have running water on the streets and running citizens looking for flooding damages. The corporation employes are opening up the street manholes down which the flood will pour that will give the sewers the surprise of their lives.

Already the procession of coal delivery vehicles has diminished. Hope for milder weather puts off the fuel orders until a time when the price takes its annual tumble. Who says this isn't spring?

Oh, yes, spring is within call. No doubt of it. The marks of the axe on the front steps and pavement begin to show up as witnesses of winter ferocity in splitting off the ice. Women start out and dress the family clothes line in its weekly array of underclothing and pinafores, and the dressers no longer wear touques bandanas, boys' coats and artics, or any old thing that comes handy. It is always spring when a woman can hang out the family wash and keep her hands full of clothespins at the same time.

Spring. Well, we guess. Awnings are going up on the sunny side of the street, lest the window show of goods be sunstruck. A few early birds and boys essay the old game of marbles.—but only tentatively. Marbles are not good form. The best families do not wear them just now. No use rushing the season.

Heads are poked out of the dormatory windows at the Y.M.C.A., an unfailing sign that the cold has abated, and there is a tang of spring in the air.

Hurrah for spring.

WHO'S COMING AND GOING

Mrs. T. C. Elliot, McDonnel street, will not receive again this season.

Mr. Herb. J. McCannon, Charlotte street, left this afternoon on a business trip to Western cities.

Miss J Horsfield went to Toronto to-day on a business trip for the Peterboro Millinery Parlors.

Mr. Arundell, general superintendent of the C.P.R., and Mr. A. MacMurchey, solicitor for the C.P.R., were in the city yesterday on business.

Mr. Kenneth Crane, who has been with the Bank of Commerce, Toronto, for the last two years, has been promoted to the Stratford branch.

Mr. E. H. D. Hall and Miss Reinhardt left yesterday for a three month's visit to Florida and other southern points.

Mrs. R. McGill Hood, her son Archie, Miss Jennie Browne, Mr. R. A. Browne and Mr. J. G. Browne, were in town from Peterborough, attending the late Mrs. Morrison's funeral, who was an aunt of the visitors.—Lindsay Warder.

Mr. R. S. Trew left the city this afternoon on a trip to Vancouver. He will be accompanied by Mr. Jas. Scott, of Weller street, and Mr. William Cox, of London street. The party will be away for three months. Mr. J. Westlake will look after Mr. Trew's contracts while he is away.

NAME SIGNS FOR THE STREETS

Trades and Labor Council to Ask City Council

The Trades and Labor Council held its regular semi-monthly meeting last evening in Labor Hall, a good representation from the allied unions being present. It was decided to have the secretary again draw the attention of the city council to the matter of placing name signs in some conspicuous way on the city streets. The present method of having the names in the cement sidewalks was not satisfactory when the names were covered with snow a great part of the time. A petition was presented by the patternmakers asking for the council's support in behalf of the patternmakers of the province to secure adequate protection for their trade. Whereas there was a duty on their product entering the United States, patternmakers from there and Germany and elsewhere were admitted free. The council decided to give its aid to the patternmakers in securing a fair measure of protection, and will write the Dominion Government in their behalf.

The question of co-operative stores came up for discussion, and it was suggested that a debate would probably be the best means of bringing information before the members. This was agreed to and those to take part were named by the president. An entertainment will be held under the auspices of the council on Friday, April 12th, for which a good program is being prepared.

TAKEN FROM WORK FOR DEPORTATION

Young Englishman Would Not Work on Farm

Made Mistake When Taking Employment at Factory

Because he refused to work on a farm at a meagre remuneration, a young Englishman was taken away from profitable employment in the city on Wednesday night by Deporting Officer Devlin and will be sent back to England.

It appears that the young fellow who is a mechanic of considerable ability, came to Canada presumably to follow the agricultural operation and on that understanding was admitted to the country. He was placed on a farm but the work proving distasteful, and the wage not calcualted to fill his purse, he, to use a common expression "jumped the job." He secured night employment at the Canadian General Electric Company and as far as is learned was earning good money.

The immigation rules on the matter had to be considered and as a consequence, information on the matter was forwarded to the Department, resulting in the appearance of the Deporting Officer, and the unappreciated departure of the young fellow from Peterborough. He was taken from his work about eleven o'clock at night.

As he could not be taken from the city the same night of his apprehension, the police cells sheltered him for the night.

TOBOGGAN OWNERS

An opportunity will be given all those who have toboggans at the Street Railway Slide to secure them between 7.30 and 10 p.m., Thursday, Friday and Saturday of this week, and each evening during the following week. A charge of 50 cents will be made for storing toboggans during the summer.

Are Grateful

Mr. and Mrs. Geo. Horsfield, 252 Donegal street, wish to thank the nurses of the Nicholls Hospital and their friends for kindness and sympathy in the illness and death of their daughter.

TO BUILD FREIGHT SHEDS

C.P.R. Officials in the City to Secure Property

New Grain Line Will be Opened This Spring

The general superintendent of the C.P.R., Mr. Arundell, and that company's solicitor, Mr. A. MacMurchy were in the city yesterday for the purpose of securing the remainder of the land on the east side of Water, between Sherbrooke and King streets, on which property they purpose building their new freight sheds. The gentlemen interviewed Mr. Claud Rogers, who owns the property they wish to purchase, and it is learned from a reliable source that some definite arrangements have been entered into that will lead to the erection of the sheds by the company in the near future. A few years ago the railway company secured from Mr. Denne and Mrs. English all the land necessary for the site, except a strip of land belonging to Mrs. Rogers, which was the cause of the interview with Mr. Claud Rogers.

While Messrs. Arundell and MacMurchy were in the city it was officially stated that the Georgian Bay line of the C.P.R. Company, from Victoria Harbor to Bethany, where the new construction will join the old line, had received the approval of the government engineers and will be opened for traffic in the spring.

"The Spring Chicken," "The Tenderfoot" were both Carle successes and now it is "Jumping Jupiter," Grand next Tuesday, Seats on sale Saturday

DYNAMITE TRIAL IN OCTOBER

All Under Indictment to be Tried in One Cause

IMMIGRANTS GIVEN WORK

Rough Weather Experienced on Trip From Liverpool

One Lad Was Swept Off His Feet by Wave

Fresh from the soil of the Motherland, two youthful immigrants dropped off the early C. P. R. train through Peterborough this morning, and were each placed on farms before three o'clock in the afternoon. Both were bright intelligent young fellows, and should make excellent Canadian citizens. A Review representative in conversation with one of the lads ascertained that he had come to Canada with the intention of settling here for good. He was anxious to learn farming and agriculture thoroughly, so that he would always have something to fall back on, even if he did not decide to remain at the occupation permanently. In the Old Country he said that he was a chauffeur and motor driver and was in possession of certificates qualifying him for such positions, issued by the Motor Drivers' Association of England.

"What kind of a voyage out, did you have?" he was asked.

"Very bad," was the answer. "We left Liverpool on a Friday at five o'clock, and during the first three days of the trip experienced terrible weather. The passengers of whom there were fifteen hundred, were compelled to remain below decks until the seas had abated."

The young fellow said that he, himself, had an exciting experience during the storm. He attempted to gain the fore part of the upper deck when a heavy wave swept him from his feet. He felt himself being carried swiftly across the deck and seeing that his chances were good for being carried over-board, he dropped on his back and was brought up by coming in contact with a stanchion. His leg was painfully injured and required medical attention.

When he landed in Halifax, he found the place in the throes of a terrific snow storm. A chum of his was taken ill just before landing and had to be removed to an hospital in Halifax.

The young fellow with whom the Review conversed said that he was only eighteen, although he looked much older.

Fracture of Arm

While entering her residence at 236 Rubidge street yesterday, Mrs. McDonough, an elderly lady, had the misfortune to fall on the slippery pavement and fracture her right arm, Dr. McNulty was called and drove her to St. Joseph's Hospital, where the injury was attended.

Mrs. McDonough is getting along as nicely as possible.

Shamrock Social, given by Ladies' Aid of George Street Church on Friday Evening March 15th. Excellent program and refreshments. Admission 25c. 2d

HARD PULLING FOR THE HORSES

The warm melting sunshine had its effect to-day on the streets, especially those in the business section which are in a very slushy and disagreeable state. The sleighing was interfered with and any sleigh with a load on was difficult for the horses harnessed to it to draw. This was noticed particularly on Water St. this morning, when a sleigh load of lumber became stalled and despite strenuous efforts on the part of the willing team, it stuck fast. The driver had to lighten his load before any progress was made. A string of sleighs loaded with lumber proceeding up Hunter street met the same fate when crossing the Grand Trunk railway tracks. If this weather continues wheels will have to be requistioned again.

GOOD TIME AT THE S. O. E. HALL

Landsdowne Lodge Entertained Large Number of Guests

A very enjoyable social evening was spent last night by the one hundred and fifty guests of the Lansdowne Lodge, No. 25, S. O. E., in the S. O. E. hall. A number of different games were indulged in and on the evening's program was a carpetball tournament between the presidents and vice-presidents, and past presidents. The former were led by Presidnet Fred Smith and the latter by James Runnett.

During intervals between the games the following program was rendered, Mr. J. Williams occupying the chair:

Overture—Mr. Howaith.
Song—Mrs. Wells.
Recitation—Miss Moss.
Solo—Mr. Limmonik.
Solo—Mr. H. Carle.
Solo—Mr. Barton.
Overture—Mr. Follis.
Solo—Mr. Limmonik.
Solo—Mr. Barton.
Recitation—Miss Moss.
Solo—Mr. George.
Solo—Mr. Wells.
Solo—Mr. Wilford.

Refreshmnets were served by Messrs. Coleman Bros.

One of the biggest of the season. Richard Carle in "Jumping Jupiter," Grand next Tuesday.

PRESBYTERY IN SESSION

St. Paul's Congregation Port Hope Want Rev. Mr. McCullough

A large amount of business was taken up Wednesday by the Presbytery in St. Andrew's church, which occupied the major portion of the day. The meeting was the regular spring gathering and is one of the most important of the year. The reports of the different committees of the Presbytery were handed in and also a report from committee who have been working for some time on the basis of church union, with the object of securing suggestions as to proposed operation that might be made in the matter. The reports from all the congregations in the Presbytery on the results of the congregational votes on church union, were sent in but will not be announced for a day or two yet.

The congregation of St. Paul's church Port Hope, have extended a call to Rev. P. T. McCullough of Harriston, to become their pastor. The call was presented to the Presbytery meeting and sustained and will be forwarded to the Saugheen Presbyetry, which is to meet March 29th.

Rev. Mr. Pogue, was appointed represented to attend to Saugheen Presbytery meeting and plead for translation of Rev. Mr. McCullough

The convenors of the different committees of the Presbytery, namely, Sunday school, Church Life and Work, Home and Foreign missions, French evangelization, Social service, and Evangelization, and Systematic giving, were each presented, and all showed a substantial increase.

The result of the voting in St. Andrew's church on church union is as follows:

FOR CHURCH UNION.

	For.	Against.
Elders	11	4
Members	140	82
Adherents	15	4
Total	166	90
	90	
Majority	76	

IN FAVOR OF PROPOSED UNION.

	For.	Against
Elders	8	4
Members	117	46
Adherents	9	1
Total	134	51
	51	
Majority in favor	83	

Total majority favoring both questions, 159.

SUCCESSFUL SALE

Greatest Wall Paper Sale Held

OUR SUCCESS HAS SURPASSED ALL PREVIOUS RECORDS

We keep a variety in cheap high-class goods, second to none in Canada. We invite you after looking elsewhere to try us, with length and width of your room and we will tell you the cost — Either at our Peterborough Store at 379 George St., or at Toronto, 262 Queen St., West. Large buying enables us to give you prices not possible outside of large cities. There are only seven firms in our Dominion who can buy over twenty thousand dollars worth of Wall Papers per year, and we are proud to feel that we rank as fourth largest of the seven. The smallest buyer of seven has the same advantages as the largest as all that is required to get the low price is that the purchase amount to ten thousand dollars — Our purchases amount to over that with one firm's goods, not mentioning our purchases of American, English, German, French and Japanese manufacture, which we stock very largely. We would ask you again to examine carefully before making your purchases.

PLOTTING DISRUPTION.

Liberals Trying to Set Provinces at Odds, Says McGarry.

Toronto, March 13.—In a scathing denunciation of the attitude of the Liberals, not only in Ontario, but even in the west, regarding the Manitoba boundary settlement, T. W. Garry yesterday charged the provincial Opposition with joining hands with their confreres at Ottawa to turn the provinces one against the other. In his speech in the budget debate he made reference to the remarks of Mr. Molloy, a Liberal member in the Manitoba Legislature, who had made the statement that if eastern Canada wouldn't accede to the wishes of the western provinces in matters of policy, the west would be justified in withdrawing from confederation.

For nearly half an hour, Mr. McGarry spoke on the policy of the Government with regard to timber limits and mines. He regarded as deplorable the gigantic sales of timber that were made during the Ross administration.

In spite of the fact that the hon. member opposite thinks the province is being depleted of its timber lands," said Mr. McGarry, "the amount of red and white pine and pulpwood is now double what it was under the old Government. Why in unlicensed land alone," he continued, "we have $100,000,000 worth of red and white pine and pulpwood."

Mr. McGarry then told of the Government revenues from mines at the present times. For Cobalt Lake alone, $1,085,000 had been received.

"We have actually got over $20,000,000," he thundered, "from these very mines that the old Government disposed of for $5,000." (Applause.)

Mr. McGarry paid a tribute to J. L. Englehart, the chairman of the T. & N. O. commission, and said that Mr. Englehart's equal in point of efficiency couldn't be got for a salary of $25,000. And yet Mr. Englehart was devoting his whole time and ability in making the road the success it is to-day.

Hon. A. G. MacKay took the Departments seriatim and prodded the special tender spot of each.

He also took a wallop at the Agricultural Department. He admitted that the revenue had been doubled, but he gave figures showing, he said, that more attention should be given to this great asset of the province. In 1904, 8 1-2 per cent. of the total expenditures was devoted to agriculture and in 1911 just 7 per cent. had been given to the same purpose. "Is this not an indication that agriculture is not receiving a fair share of the public money?" he asked. Are we going to allow the Agricultural Department to drift into the same state as the Educational Department?"

The recent appointment of a Deputy Minister of Agriculture also came in for a jolt or two. He considered that it might be a hard task to get a proper man for the post, but the Government should be willing to give more than $3,000, even $5,000, or even as high as $10,000, in order to get a properly qualified deputy minister, one who knows everything pertaining to the problem of agriculture. He didn't wish to say anything against the man who had been appointed. He was a very likeable chap and formerly a newspaper man, but he didn't know much about agriculture.

W. Proudfoot, Centre Huron, declared that the Government members kept persisting that they did not have any blowing of horns for the work they were doing, and yet every member that speaks indulges in horn-blowing, he said.

It should be much cause for pride on the part of the Government, he contended, to see the item of the 5 per cent. liquor tax in the public accounts. He hoped that item would soon not appear at all, and that the Government would no longer appear to have entered into a partnership with the liquor men.

With regard to statute revision commission, Mr. Proudfoot thought it was a mistake to appoint a body of judges to be the chief advisers.

G. H. Ferguson, Grenville, adjourned the debate.
